(2) *General catalog.* A general catalog is a catalog or other printed price list which is issued by a long-term mail order seller periodically and remains in effect at least four months and covers the same periods in each year.

(3) *Intermediate or flyer catalog.* This term means a special catalog announcing a sale or any other type of catalog which is issued during the effective life of a general catalog. Such a catalog is one that does not remain in effect for the life of a general catalog, does not supersede the general catalog except for certain specified items, and in no event has an effective life of more than four months.

(b) *CPR 139 definitions.* Except for the definitions listed in paragraph (a) of this section, all of the terms used in this supplementary regulation have the same meaning as in CPR 139.

Effective date. This Supplementary Regulation 1 to Ceiling Price Regulation 139 shall become effective July 12, 1952.

NOTE: The record keeping and reporting requirements of this supplementary regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 7, 1952.

[F. R. Doc. 52-7539; Filed, July 7, 1952; 12:00 p. m.]

Chapter XVI—Production and Marketing Administration, Department of Agriculture

[Defense Food Order 2, Sub-Order 1, Revision 1, Amdt. 1]

DFO 2—PROCESSED FRUITS AND VEGETABLES; SET ASIDE REQUIREMENTS

SO 1—CANNED VEGETABLES—SET ASIDE REQUIREMENTS

It is hereby found and determined that the provisions of Defense Food Order 2, Sub-Order 1, Revision 1, effective April 3, 1952, relating to the requirement for processors to set aside and reserve specified quantities of their 1952 production of canned pumpkin and canned tomato paste are no longer necessary or appropriate to promote the national defense. Such circumstance has rendered consultation with industry representatives impracticable and unnecessary. This amendatory order, therefore, is made effective pursuant to the authority vested in me by Defense Food Order 2, as amended (16 F. R. 3345, 4981).

SUMMARY OF AMENDMENT

Defense Food Order 2, Sub-Order 1, Revision 1 (17 F. R. 2930) sets forth, in Column B of Table 1 thereof, the various percentages of the respective base packs of the canned vegetables (listed in Column A) that are used in computing a processor's set aside requirements for a particular canned vegetable. The percentages for pumpkin and tomato paste are "8.3" and "4.7" respectively. The purpose of this order is to reduce each of such percentages to zero. Such reduction is based upon a recent downward revision of the requirements of Government agencies for canned pumpkin and tomato paste. The modification in the percentages is accomplished by replacing the "8.3" and "4.7" percentages with a zero "(0.0)" percentage.

AMENDATORY PROVISIONS

Defense Food Order 2, Sub-Order 1, Revision 1 (17 F. R. 2930) is hereby amended by deleting from Column B of Table 1 of said sub-order the figures "8.3" relating to pumpkin, and "4.7" relating to tomato paste, and inserting, in lieu thereof, the figures "0.0".

With respect to violations, rights accrued, liabilities incurred, or appeals taken with respect to said Defense Food Order 2, Sub-Order 1, Revision 1 prior to the effective time of the provisions hereof, all provisions of Defense Food Order 2, Sub-Order 1, Revision 1 shall be deemed to continue in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Done at Washington, D. C., this 3d day of July, 1952, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 52-7497; Filed, July 3, 1952; 4:56 p. m.]

[Defense Food Order 2, Sub-Order 2, Revision 1, Amdt. 1]

DFO 2—Processed Fruits and Vegetables; Set Aside Requirements

SO 2—Canned Fruits—Set Aside Requirements

It is hereby found and determined that the provisions of this amendatory order are necessary and appropriate to promote the national defense; and it is, therefore, made effective pursuant to the authority vested in me by Defense Food Order 2, as amended (16 F. R. 3345, 4981). Defense Food Order 2, Sub-Order 2, Revision 1 (17 F. R. 2932), which became effective April 3, 1952, requires, with respect to canned Kadota Figs produced in 1952, that processors set aside and reserve a quantity thereof for the requirements of Government agencies. However, these requirements have now been reduced to such an extent that a smaller set-aside percentage of "23.7," rather than "35.7" (computed with respect to the total base pack production of canned Kadota Figs), will be adequate for such requirements. The greater percentage (i. e., "35.7"), therefore, is no longer necessary or appropriate to promote the national defense; and such circumstance has rendered consultation with industry representatives unnecessary as the amendment will result in a relaxation of restrictions on industry.

SUMMARY OF AMENDMENT

Defense Food Order 2, Sub-Order 2, Revision 1 (17 F. R. 2932) sets forth, in column B of Table 1 thereof, the various percentages of the respective base packs of the canned fruits (listed in Column A) that are used in computing a processor's set-aside requirements for a particular canned fruit. The percentage for Kadota Figs is "35.7." The purpose of this order is to reduce such percentage to "23.7." Such reduction is based upon a recent downward revision of the requirements of Government agencies for canned Kadota Figs. The modification in the percentage is accomplished by replacing the "35.7" percentage with the new "23.7" percentage.

AMENDATORY PROVISIONS

Defense Food Order 2, Sub-Order 2, Revision 1 (17 F. R. 2932) is hereby amended by deleting from Column B of Table 1 of said sub-order the figures "35.7" and inserting, in lieu thereof, the figures "23.7."

With respect to violations, rights accrued, liabilities incurred, or appeals taken with respect to said Defense Food Order 2, Sub-Order 2, Revision 1, prior to the effective time of the provisions hereof, all provisions of Defense Food Order 2, Sub-Order 2, Revision 1, shall be deemed to continue in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Done at Washington, D. C., this 3d day of July 1952, to become effective upon publication in the Federal Register.

Floyd F. Hedlund,
Acting Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 52-7498; Filed, July 3, 1952; 4:57 p. m.]

[Defense Food Order 3, Amdt. 5]

DFO-3—Agricultural Imports

The Secretary of Agriculture having determined that the unrestricted importation of the commodities listed in Appendix A will have one or more of the effects specified in section 104 of the Defense Production Act of 1950, as amended (64 Stat. 798, 65 Stat. 131, Pub. Law 429, 82d Cong., 50 U. S. C. App. Sup. 2061 et seq.), and the Administrator of the Production and Marketing Administration having hereby determined under section 101 of said act that import controls with respect to rice; flaxseed (linseed); and linseed oil, and combinations and mixtures in chief value of such oil; are necessary or appropriate to promote the national defense, this order is made effective pursuant to said act, and delegations of authority thereunder. Consultation with industry representatives in the formulation of this order has been rendered impractical. The Defense Production Act of 1950, as amended, was extended in effect on June 30, 1952. Defense Food Order No. 3, as hereby amended, imposes over the commodities covered by such determinations the import controls contemplated by the act and to effectuate such determinations must be made effective as soon as possible. This order affects numerous segments of the economy and time is not available to permit consultation with all affected segments. Accordingly, consultation with industry representatives has been omitted.

Defense Food Order No. 3, as amended (16 F. R. 7934, 8272; 17 F. R. 4490, 5829), is hereby amended to read as follows:

Sec.
1. Definitions.
2. Prohibitions and restrictions on imports.
3. Authorizations.
4. Exceptions.
5. Restrictions after importation.
6. Changes of commodities listed in Appendix A and designations thereof.
7. Standards and guides.
8. Records and reports.
9. Audits and inspections.
10. Communications.
11. Suspension; revocations.
12. Petitions for relief from hardship.
13. Delegation of authority.
14. Violations.
15. Effect on liability of removal of commodity from order, or change of designation.
16. Effective date.

Authority: Sections 1 to 16 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong., 50 U. S. C. App. Sup. 2154. Interpret or apply secs. 101 and 104, 64 Stat. 798, Pub. Law 429, 82d Cong., 50 U. S. C. App. Sup. 2071, 2074.

Section 1. *Definitions.* Except where the context otherwise requires, the following terms shall have the meanings set forth below.

(a) "Act" means the Defense Production Act of 1950, as amended (64 Stat. 798, as amended).

(b) "Administrator" means the Administrator, Production and Marketing Administration, United States Departments of Agriculture, and any other officer or employee of that Department authorized to act in his stead.

(c) "Director" means the Director of the Office Requirements and Allocations, Production and Marketing Administration, United States Department of Agriculture, and any other officer or employee of that Department authorized to act in his stead.

(d) "Consignee" means the person to whom a commodity is consigned at the time of importation.

(e) "Commodity" means a commodity listed from time to time in Appendix A.

(f) "Appendix A" means Appendix A of this order as from time to time amended.

(g) "Governing date" means the date as shown in Appendix A when a commodity becomes subject to this order.

(h) "Import" means to transport or cause to be transported in any manner into the United States from any foreign country, in any capacity other than as a carrier in the regular course of its operations as such. It includes, but is not limited to, shipments from any foreign country into a free port or foreign trade zone, or into a bonded warehouse, or in bond for transshipment into a foreign country, or otherwise in the custody of the United States Bureau of Customs in the United States.

(i) "United States" means the United States, its territories and possessions and the District of Columbia.

(j) "In transit" means that a commodity (1) is afloat, (2) has had an on-board ocean bill of lading actually issued with respect to it, or (3) has actually been delivered to and accepted by a rail, truck, or air carrier, for transportation to a point within the United States.

(k) "Owner" means any person who has any property interest in a commodity except a person whose interest is held solely as a security for the payment of money.

(l) "Person" includes any individual, corporation, partnership, association, or other organized group of persons, or legal successor or representative of the foregoing. It also includes the Government of the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

Sec. 2. *Prohibitions and restrictions.* (a) No person, after the governing date for any commodity followed by the designation (A) in Appendix A, shall import such commodity except:

(1) As provided in section 4 or

(2) As authorized by a validated authorization in the case of importations into a free port or foreign trade zone, or into a bonded warehouse, or in bond, or otherwise in the custody of the United States Bureau of Customs in the United States, for transshipment into any foreign country (except shipments under section 4 (a) (2)).

(b) No person, after the governing date for any commodity followed by the designation (B) in Appendix A, shall import such commodity except:

(1) As provided in section 4 or

(2) As authorized by a validated authorization issued under such conditions and requirements as the Director may prescribe in published policy statements or supplemental orders.

(c) The fact that importation of a commodity is authorized under this order does not relieve the importer from compliance with other applicable laws and regulations.

(d) The foregoing provisions shall apply regardless of the existence on the governing date or thereafter of any contract or other arrangement for the importation of commodities listed in Appendix A.

Sec. 3. *Authorizations.* (a) Any person subject to the jurisdiction of the States who desires authorization, as provided in this order, for importation of a commodity listed in Appendix A, whether owner, purchaser, seller, or consignee of the commodity to be imported, or agent of any of them, may make application therefor by letter or telegram or on Form PMA-551, or such other form as may be issued for this purpose by the Director, addressed to the Office of Requirements and Allocations, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., Ref: Defense Food Order No. 3 (Agricultural Imports). Unless otherwise expressly permitted, such authorization shall apply only to the particular commodity and shipment mentioned therein and to the persons and their agents concerned with such shipment. Such authorizations shall not be assignable or transferable either in whole or in part, except as authorized in writing by the Director. In the issuance or denial of authorizations for importation of commodities listed in Appendix A, the Director shall act in accordance with the standards and guides set forth in section 7.

(b) The Director may impose such conditions and requirements as to the granting of authorizations hereunder and the handling and disposal of commodities to be imported hereunder as he may deem necessary or appropriate to effectuate the purposes of this order.

Sec. 4. *Exceptions.* (a) Unless otherwise directed by the Director, and except as provided in section 8, the requirements of this order shall not apply to commodities listed in Appendix A which:

(1) Are owned, at the time of importation, by any United States governmental department, agency, or corporation;

(2) Are shipped into the United States in transit from one point in Mexico to another point in Mexico or from one point in Canada to another point in Canada;

(3) Are shipments between points in the United States;

(4) Are commodities imported as samples or gifts or for personal use where the value of each consignment or shipment is less than $25.00.

(b) An authorization will not be required under section 2 with respect to any commodity followed by the designation (B) in Appendix A for its importation into a free port or foreign trade zone, or into a bonded warehouse, or in bond for transhipment into a foreign country, or otherwise in the custody of the United States Bureau of Customs.

Sec. 5. *Restrictions after importation.* No commodity listed in Appendix A which is imported under this order after the governing date shall be sold, delivered, processed, consumed, purchased or received except in accordance with the conditions and requirements imposed in any authorization issued for its importation, or amendments thereof, or otherwise imposed by the Director in the particular case to carry out the purposes of this order. Commodities so imported may otherwise be dealt with or disposed of without restriction under this order.

Sec. 6. *Changes of commodities listed in Appendix A and designations thereof.* The Administrator will from time to time add commodities to or remove commodities from the list in Appendix A, and designate listed commodities by designation (A) or (B), in accordance with determinations by the Secretary of Agriculture under section 104 of the act, or his own determinations under section 101 of the act.

Sec. 7. *Standards and Guides.* (a) In the issuance of authorizations for importations of commodities followed by the designation (B) in Appendix A, the Director shall allocate the authorizations granted by him on a fair and equitable basis among individual applicants, with due regard for the needs of small business enterprises. He shall also allocate such authorizations among foreign countries of origin if, in his opinion such allocation is necessary to assure such countries of an equitable portion of authorized imports. Authorizations will be issued in a manner to effectuate the purposes of the current determinations under the Act.

(b) Statements of the policies followed by the Director, in authorizing imports under (a) and of any changes in such policies, shall be currently published in the Federal Register.

Sec. 8. *Records and reports.* (a) No commodity followed by the designation (A) in Appendix A, which is imported after the governing date, including any commodity imported under the provisions of section 4, shall be entered through the United States Bureau of Customs for any purpose, whether for consumption, for warehouse, in transit, in bond, for re-export, for appraisal, or otherwise, unless the person making the entry shall file in duplicate with the entry Form DFO-7, or such other form as may be required for this purpose by the Director, except as provided in paragraph (b) of this section. No commodity followed by the designation (B) in Appendix A which is imported after the governing date, including any commodity imported under the provisions of section 4, shall be entered through the United States Bureau of Customs for consumption, unless the person making the entry shall file in duplicate with the entry Form DFO-7, or such other form as may be required for this purpose by the Director, except as provided in paragraph (b) of this section. Both copies of such form shall be transmitted by the Collector of Customs to the Director, Office of Requirements and Allocations, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., Ref: Defense Food Order 3 (Agricultural Imports).

(b) A form as required in paragraph (a) of this section need not be filed in connection with a subsequent entry for any purpose of a commodity with respect to the original entry of which such form was previously filed in accordance with paragraph (a) of this section.

(c) The Director shall be entitled to obtain such information from, and require such reports and the keeping of such records by, any person as may be necessary or appropriate, in the Director's discretion, in the enforcement or administration of the provisions of this order.

Sec. 9. *Audits and inspections.* The Director shall be entitled to make such audit and inspection of the books, records, and other writings, premises, and stocks of commodities of any person, and to make such investigations as may be necessary or appropriate, in the Director's discretion, in the enforcement or administration of the provisions of this order.

Sec. 10. *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless instructions to the contrary are issued by the Director, be addressed to the Office of Requirements and Allocations, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., Ref: Defense Food Order 3 (Agricultural Imports).

Sec. 11. *Suspension; revocation.* (a) Any import authorization issued under this order for any commodity listed in Appendix A may be revoked at any time by the Administrator upon his determination that the person to whom such authorization was issued has made substantial imports of any commodity listed in Appendix A which were not authorized under this order or has willfully violated any provision of this order and that such revocation is necessary or appropriate to effectuate the purposes of this order and the act. Pending action by the Administrator in such instances, the authorization may be suspended by the Director.

(b) All authorizations for any commodity listed in Appendix A may be suspended or revoked at any time by the Administrator without prior notice upon his determination that such action is necessary to effectuate the current determinations under sections 101 and 104 of the act.

Sec. 12. *Petitions for relief from hardship.* (a) Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Director.

Petitions shall be in writing and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor. The Director may take such action with reference to the petition as he deems appropriate. If the petitioner is dissatisfied with the action taken by the Director on the petition, he may appeal to the Production and Marketing Administration Defense Order Appeals Board, which may take such action as it deems appropriate. Such action shall be final. Procedure relating to hardship petitions is set forth in DFO–4 (16 F. R. 7568).

(b) The presence of a commodity in a free port or foreign trade zone, or in a bonded warehouse, or in bond, or otherwise in the custody of the United States Bureau of Customs, shall not be a basis for relief from hardship.

SEC. 13. *Delegation of authority.* The administration of this order and the powers vested in the Administrator, insofar as such powers relate to the administration of this order are hereby delegated to the Director. The Director is authorized to redelegate any or all of the authority vested in him by this order to any officer or employee of the United States Department of Agriculture.

SEC. 14. *Violations.* Any person who wilfully violates any provision of this order is guilty of a crime, and may be prosecuted under any and all applicable laws. Civil action may also be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order or requirement pursuant hereto. Commodities imported by any person contrary to this order may be charged against any unused import quota held by such person for any commodity listed in Appendix A. The Director may direct the disposition and use of any commodity which is imported contrary to this order.

SEC. 15. *Effect on liability of removal of a commodity from order or change of designation.* The removal of any commodity from Appendix A or change in the designation for any commodity listed in Appendix A shall not be construed to affect in any way any liability for violations of this order which occurred prior to the date of such removal or change.

SEC. 16. *Effective date.* This order shall be effective immediately. With respect to violations, rights accrued, liabilities incurred, or appeals taken under or concerning Defense Food Order 3, as amended, prior to the effective date hereof, all provisions of said order shall be deemed to remain in full force and effect for the purpose of sustaining any proper suit, action or other proceeding with respect to any such violation, right, liability or appeal.

NOTE: All reporting and record-keeping requirements of this order have been approved by, and subsequent reporting and record-keeping requirements will be subject to the approval of, the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 3d day of July 1952.

[SEAL] ROY W. LENNARTSON,
Acting Administrator, Production and Marketing Administration.

APPENDIX A—ITEMS SUBJECT TO DEFENSE FOOD ORDER NO. 3

[The numbers listed after the following commodities are commodity numbers taken from Schedule A, Statistical Classification of Imports of the Department of Commerce (issue of Aug. 1, 1950). Commodities are included in the list to the extent that they are covered by the commodity numbers listed below. If no commodity number is listed, the description given shall control]

Commodity	Commerce import class No.	Governing date
Butter (A)	0044.000	Aug. 9, 1951
Butter oil (A)	1423.200	Do.
Milk, skimmed, dried (nonfat dried milk solids) (A)	0041.100	Do.
Malted milk and compounds, or mixtures of or substitutes for milk or cream (B)	0041.900	July 3, 1952
Casein or lactarene, and mixtures in chief value thereof, n. s. p. f. (B)	0043.000	Aug. 9, 1951
Italian cheese (B)	0046.010 through 0046.250 and 0046.940	Do.
Cheddar cheese (B)	0046.490	Do.
Blue mold cheese (B)	0046.600	Do.
Edam and Gouda cheese (B)	0046.750 and 0046.790	Do.
Varieties of cheese containing, or processed in whole or in part, from Cheddar, Blue Mold, Edam and Gouda (B)	0046.990	Do.
Registered or certified flaxseed for planting purposes (B)	2233.000	July 1, 1951
Other flaxseed (linseed) (A)	2233.000	Do.
Linseed oil, and combinations and mixtures, in chief value of such oil (A)	2254.000	Do.
Peanuts, blanched, roasted, prepared or preserved (A)	1380.080	Aug. 9, 1951
Peanuts, shelled (A)	1367.000	Do.
Peanuts, not shelled (A)	1368.000	Do.
Peanut oil (ground nut oil) (A)	1427.000	Do.
Registered or certified rice seed for planting purposes (B)	1051.000	July 1, 1951
Other rice:		
Paddy (A)	1051.000	Do.
Uncleaned or brown rice (A)	1051.100	Do.
Cleaned or milled rice (A)	1053.000	Do.
Patna rice, cleaned, for use in canned soups (A)	1054.000	Do.
Broken rice (includes brewers rice) (B)	1059.200	Do.

[F. R. Doc. 52–7541; Filed, July 7, 1952; 12:25 p. m.]

[Import Determination Re DFO–3, Revision 1]

DETERMINATION RELATING TO IMPORTS UNDER DEFENSE PRODUCTION ACT

Pursuant to the authority vested in me by section 104 of the Defense Production Act of 1950, as amended (64 Stat. 798, 65 Stat. 132; Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2074), it is hereby determined that imports (other than by the Government of the United States), during the period from July 1, 1952, through June 30, 1953, into the commerce of the United States of the commodities and products hereinafter listed, except as herein specified, would with respect to each such commodity or product or type or variety thereof listed (a) impair or reduce the domestic production of a commodity or product specified in said section 104 below present production levels, (b) interfere with the orderly domestic storing and marketing of a commodity or product specified in said section 104, or (c) result in an unnecessary burden or expenditure under a Government price support program.

This determination applies to:

Butter.[1]
Butter oil.[2]
Casein and lactarene, and mixtures in chief value thereof, n. s. p. f.[3]
The following types and varieties of cheese:
Italian.[4]
Cheddar.[5]
Blue Mold.[6]
Edam and Gouda.[7]
Varieties containing, or processed in whole or in part from, Cheddar, Blue Mold, Edam, and Gouda.[8]
Flaxseed (linseed).[9]
Linseed oil, and combinations and mixtures, in chief value of such oil.[10]
Malted milk and compounds, or mixtures of or substitutes for milk or cream.[11]
Skimmed, dried milk (nonfat, dried milk solids).[12]
Peanuts (blanched, roasted, prepared, preserved).[13]
Peanuts (shelled, not shelled).[14]
Peanut oil (ground nut oil).[15]
Paddy rice.[16]
Uncleaned or brown rice.[17]
Cleaned or milled rice.[18]
Cleaned Patna rice for use in canned soups.[19]
Broken rice.[20]

The foregoing determination applies to all types and varieties of the listed commodities and products except as otherwise specified.

Importations during the period from July 1, 1952 through June 30, 1953, of the following commodities and products, subject to Government regulation under the following conditions, will not have any of the effects specified in section 104

[1] Commerce Import Class No. 0044.000.
[2] Commerce Import Class No. 1423.200.
[3] Commerce Import Class No. 0043.000.
[4] Commerce Import Class No. 0046.010 through 0046.250 and 0046.940.
[5] Commerce Import Class No. 0046.490.
[6] Commerce Import Class No. 0046.600.
[7] Commerce Import Class No. 0046.750 and 0046.790.
[8] Commerce Import Class No. 0046.990.
[9] Commerce Import Class No. 2233.000.
[10] Commerce Import Class No. 2254.000.
[11] Commerce Import Class No. 0041.900.
[12] Commerce Import Class No. 0041.100.
[13] Commerce Import Class No. 1380.080
[14] Commerce Import Class No. 1367.000, 1368.000.
[15] Commerce Import Class No. 1427.000.
[16] Commerce Import Class No. 1051.000.
[17] Commerce Import Class No. 1051.100.
[18] Commerce Import Class No. 1053.000.
[19] Commerce Import Class No. 1054.000.
[20] Commerce Import Class No. 1059.200.

of the Defense Production Act, as amended.

(a) Casein or lactarene and mixtures in chief value thereof, n. s. p. f., in a quantity not in excess of 40,000,000 pounds;

(b) Cheddar cheese in a quantity not in excess of 8,500,000 pounds;

(c) Italian type cheese in original loaves in a quantity not in excess of 20,000,000 pounds;

(d) Blue Mold cheese in a quantity not in excess of 3,000,000 pounds;

(e) Edam and Gouda cheese in a quantity not in excess of 3,000,000 pounds;

(f) Varieties of cheese containing, or processed in whole or in part from, Cheddar, Blue Mold, Edam, and Gouda, in a quantity not in excess of the quantity imported during the calendar year 1950;

(g) Malted milk and compounds, or mixtures of or substitutes for milk or cream, which are determined by the official responsible for administration of Defense Food Order No. 3, as amended, to have none of the customary uses of butter;

(h) Registered or certified flaxseed and rice for planting purposes only and in accordance with applicable laws and regulations;

(i) Brewer's rice;

(j) The listed commodities and products as samples or gifts or for personal use where the value of each consignment or shipment is less than $25.00.

(k) Such amounts of the listed commodities and products as may be required to avoid unnecessary or unreasonable hardship and as may be required to assure equitable treatment for small or new business.

This determination is made upon the basis of facts presently available and is subject to revision whenever it is determined that such action is necessary or appropriate in effectuating the purposes of the act.

This determination shall be effective upon issuance and shall supersede the determination of August 9, 1951 under section 104 of the Defense Production Act (16 F. R. 7937; 17 F. R. 5895), but said determination of August 9, 1951, shall be deemed to remain in full force and effect for the purpose of sustaining any proper suit, action or other proceeding concerning any violation, right accrued, liability incurred, or appeal taken under or with respect to said determination or Defense Food Order 3, issued August 9, 1951, as amended (16 F. R. 7934, 8272; 17 F. R. 4490, 5829), prior to the effective date hereof.

(Sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interprets or applies Sec. 104, 64 Stat. 798, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2074)

Done at Washington, D. C., this 3d day of July 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Chapter XXI—Office of Rent Stabilization, Economic Stabilization Agency

[Rent Procedural Regulation 3]

RPR 3—PROCEDURES FOR ADJUSTMENTS, ADMINISTRATIVE REVIEW AND INTERPRETATIONS

This regulation is issued in order to provide for orderly procedures by prescribing the following rules for adjustments, administrative review and interpretations under the maximum rent regulations. There is excepted from this regulation all proceedings commenced before July 1, 1952, in which orders have been entered before July 1, 1952, pursuant to Rent Procedural Regulation 2.

Sec.
1. Purpose of this regulation.

LANDLORDS' PETITIONS, TENANTS' APPLICATIONS AND ACTION ON THE AREA RENT DIRECTOR'S INITIATIVE

2. Petitions and applications.
3. Method of filing, form, contents and service.
4. Response to landlord's petition or tenant's application and service.
5. Petitioner's or applicant's rebuttal.
6. Service of papers by landlords and tenants in proceedings in Area Rent Office.
7. Joint petitions and applications; consolidations.
8. Investigation by the Area Rent Director.
9. Action by the Area Rent Director on his own initiative.
10. Action by the Area Rent Director.
11. Evidence not subject to landlord's or tenant's control.
12. Oral testimony.

PROTESTS TO THE DIRECTOR OF RENT STABILIZATION

General Provisions

18. Right to protest.
19. Scope of protests.
20. Time and place of filing protests.
21. Form and contents of protests.
22. Service of papers by landlords and tenants in proceedings upon protest.
23. Assignment of docket number.
24. Joint protests; consolidation.
25. Stay of landlord's obligation to refund.
26. Stay of certificates relating to eviction.
27. Response to protests.

EVIDENCE AND BRIEFS

33. Submission of briefs.
34. Introduction of evidence into record of protest proceeding.
35. Receipt of oral testimony and evidence not subject to party's control.
36. Evidence in support of a rent regulation.

BOARDS OF REVIEW

39. Right to consideration by a board of review.
40. Composition of boards of review.
41. Where boards of review hear oral argument.
42. Notice of consideration by board of review.
43. Waiver of right to consideration in whole or part in protest proceedings.
44. Hearing of oral argument.
45. Action by boards of review at conclusion of their consideration of a protest.
46. Action by Director after receipt of board of review's recommendation.

ACTION BY THE DIRECTOR OF RENT STABILIZATION

52. Action by the Director of Rent Stabilization.
53. Relief where landlord's obligation to refund has been stayed.
54. Opinion denying protest in whole or in part.

INTERPRETATIONS

60. Interpretations.
61. Requests for interpretations; form and contents.
62. Interpretation to be written; authorized officials.

MISCELLANEOUS PROVISIONS AND DEFINITIONS

65. Contemptuous conduct.
66. Continuance or adjournment of hearing.
67. Filing of notices, etc.
68. Service of papers.
69. Time limitations.
70. Official notice.
71. Subpoenas.
72. Witness fees.
73. Action by representatives.
74. Certifying Officer; office hours.
75. Confidential information; inspection of documents filed with Area Rent Director or Certifying Officer.
76. Appearance of employees and former employees.
77. Definitions.
78. Amendment to this regulation.
79. Saving provisions.

AUTHORITY: Sections 1 to 79 issued under sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894. Interpret or apply secs. 407, 408, 64 Stat. 807, 808, as amended; 50 U. S. C. App. Sup. 2107, 2108.

SECTION. 1. *Purpose of this regulation.* It is the purpose of this regulation to prescribe and explain the procedure of the Office of Rent Stabilization in making various kinds of determinations in connection with the establishment of maximum rents and the issuance of certificates relating to eviction.

(a) Sections 2 to 12 ("Landlords' petitions, tenants' applications and action on the Area Rent Director's initiative") deal with petitions by landlords and applications by tenants for adjustment of maximum rents, certificates relating to eviction, and other relief provided for by the maximum rent regulations. An adjustment in maximum rent or any other relief can be granted only if the applicable maximum rent regulation contains specific provision for the adjustment or other relief sought.

(b) Sections 18 to 54 ("Protests to the Director of Rent Stabilization") deal with protests. The procedure governing the filing and determination of protests is set forth in these sections.

(c) Sections 60 to 62 explain the way in which interpretations of the meaning or effect of provisions of the act or of maximum rent regulations are given by officers of the Office of Rent Stabilization.

(d) Sections 65 to 79 ("Miscellaneous provisions and definitions").

LANDLORDS' PETITIONS, TENANTS' APPLICATIONS AND ACTION ON THE AREA RENT DIRECTOR'S INITIATIVE

SEC. 2. *Petitions and applications.* A landlord's petition or a tenant's application for adjustment or other relief including a petition for a certificate relating to eviction, may be filed by any landlord or tenant who requests such adjustment or relief pursuant to a provision of the maximum rent regulation authorizing such action. Where a land-

lord is seeking a rental adjustment pursuant to the provisions of an applicable maximum rent regulation he must, with his petition, file upon a form prescribed by the Director of Rent Stabilization a certificate of maintenance of the services, furniture, furnishings and equipment which he is required to provide.

SEC. 3. *Method of filing, form, contents and service.* (a) A landlord's petition or tenant's application for adjustment or other relief provided by a maximum rent regulation shall be filed only with the Area Rent Director of the Office of Rent Stabilization for the defense-rental area within which the housing accommodations involved are located. Petitions and applications shall be filed upon forms prescribed by the Director of Rent Stabilization and pursuant to instructions stated on such forms and must be accompanied by affidavits or other documents setting forth all of the evidence upon which the petitioner or applicant relies in support of the facts alleged in his petition or application and by proof of service upon the other party or parties. A landlord's petition and tenant's application and all accompanying documents shall be filed in an original and one copy and shall be served upon the other party or parties in the manner prescribed by section 6, except as provided in paragraph (b) of this section.

(b) Notwithstanding any other provision of this regulation, the Area Rent Director, in appropriate cases involving petitions for rental adjustments, may require the landlord to file additional copies of the petition for adjustment with the area rent office and may dispense with the requirement that the petition and accompanying documents be served on the tenant prior to entry of an order thereon. If in such a case the petition is granted in whole or in part, the Area Rent Director shall serve copies of the petition and order on both the landlord and the tenant. Within 15 days after the issuance date of the order of increase the tenant may file with the area rent office a written request for revocation or modification, together with facts and evidence supporting such request. The tenant must serve a copy of such request and accompanying documents on the landlord within 7 days after he has filed it with the area rent office and the landlord shall be afforded a period of 7 days from the date of such service within which to file a reply.

SEC. 4. *Response to landlord's petition or tenant's application and service.* (a) Responding parties shall be afforded a period of seven (7) days from the date of service of the petition or application within which to serve and file written objections to the petition or application together with supporting evidence.

(b) The response must in all cases be limited to the grounds prescribed in the petition or application. The response shall be filed with the Area Rent Director in an original and one (1) copy. Any affected person who fails to file such a response, together with proof of service upon the other party or parties, in the manner provided by section 6 shall be deemed to have waived his right to become a party to the proceedings before the Area Rent Director except upon leave granted for good cause shown.

SEC. 5. *Petitioner's or applicant's rebuttal.* (a) Parties shall be afforded a period of seven (7) days from the date of service of the copy of the response within which to file written rebuttal to the response, together with supporting evidence.

(b) The rebuttal must be strictly limited to the matters set forth in the response and must be filed with the Area Rent Director in an original and one (1) copy.

SEC. 6. *Service of papers by landlords and tenants in proceedings in area rent office.* (a) Wherever this regulation requires a landlord or tenant to serve a petition, application, response, affidavit, notice, or other document upon another party or parties in a proceeding in the area rent office, such service shall be made in the following manner:

(1) Where the proceeding involves four (4) or fewer tenants the landlord shall serve each tenant concerned by personal service, by leaving a copy of the document to be served at the tenant's residence, or by mail or telegraph addressed to the tenant at his residence.

(2) Where the proceeding involves more than four (4) tenants, the landlord may serve the document in the manner prescribed by subparagraph (1) of this paragraph. However, the landlord may, at his option, serve the document by posting and keeping posted for a period of 15 days a copy thereof in the common entrance to the premises or if there be more than one common entrance, in each common entrance or in one or more public places upon the premises accessible to all tenants concerned in the proceedings. If service is made by posting the landlord shall also serve upon each tenant concerned a notice of the nature of the document posted and the place of posting. The notice of posting shall be served in the manner prescribed by subparagraph (1) of this paragraph.

(3) Where a tenant is required to serve a document such service is required to be made only upon the landlord and may be made by personal service, by leaving a copy of the document at the landlord's residence or principal place of business, by mailing a copy thereof to the landlord at his residence or principal place of business in a properly addressed, postpaid envelope, or by telegraph.

(b) Service of a document shall be deemed to have been made when the document or notice of its posting is mailed in a properly addressed, post-paid envelope, delivered to a telegraph office, delivered to the party personally, or left at the party's residence or principal place of business.

(c) Service by a landlord or tenant in a proceeding in the area rent office may be proved by a post-office receipt for the mail, or by affidavit or certification of the facts of service by the person making such service. Proof of service must be annexed to the document at the time it is filed.

SEC. 7. *Joint petitions and applications; consolidations.* Two or more landlords or tenants may file a joint petition or application for adjustment or other relief where the grounds of the petition or application are common to all landlords or tenants joining therein. A joint petition or application shall be filed and determined in accordance with the provisions governing the filing and determination of petitions and applications filed severally. A petition or application may include as many housing accommodations as present common questions which can be expeditiously determined in one proceeding. Whenever the Area Rent Director deems it necessary or appropriate, he may order the filing of separate petitions or applications or consolidate separate petitions or applications presenting common questions which can be determined expeditiously in one proceeding. The Area Rent Director may, in the case of a tenant's application, when he deems it appropriate, join tenants of other units in the subject building.

SEC. 8. *Investigation by the Area Rent Director.* Upon the commencement of any proceeding, the Area Rent Director may make such investigation of the facts, hold such conferences, and require the filing of such reports, evidence in affidavit form or other material relevant to the proceeding, as he may deem necessary or appropriate for the proper disposition of the proceeding.

SEC. 9. *Action by the Area Rent Director on his own initiative.* (a) In any case, except as provided in paragraph (b) of this section, where the Area Rent Director pursuant to the provisions of a maximum rent regulation, deems it necessary or appropriate to enter an order on his own initiative, he shall, before taking such action, serve a notice upon the landlord and tenant of the housing accommodations involved stating the proposed action and the grounds therefor. The proceeding shall be deemed commenced on the date of issuance of such notice. Both parties shall be afforded a period of seven (7) days from the date of mailing within which to respond to the notice of proceeding. The response must in all cases be limited to the issues raised by the notice and shall be filed with the Area Rent Director in an original and one (1) copy. Any person so notified who fails to file such a response shall be deemed to have waived his right to become a party to the proceedings before the Area Rent Director except upon leave granted for good cause shown.

(b) In any case where the Area Rent Director proposes to reduce a maximum rent on his own initiative, and the case did not result from a tenant's application the tenant shall not be a party to such proceeding and notices in connection therewith need not be served upon the tenant. However, a copy of any order reducing a maximum rent shall be served upon the tenant as well as upon the landlord. If the tenant feels that a further reduction in maximum rent is warranted, his remedy shall be to file an application for reduction under the applicable maximum rent regulation rather

than a protest under this regulation: *Provided, however,* That if such further reduction is claimed upon the same grounds as that upon which the Area Rent Director's order of reduction was based, and the landlord filed a protest from such order, the tenant's application for reduction shall be forwarded to the Director of Rent Stabilization for consideration and determination as a part of the appeal proceeding.

SEC. 10. *Action by the Area Rent Director.* (a) At any appropriate stage of a proceeding the Area Rent Director may:

(1) Dismiss the petition or application if it fails substantially to comply with the provisions of the applicable maximum rent regulation or of this procedural regulation; or

(2) Grant or deny the petition or application in whole or in part or issue an appropriate order in proceedings commenced by him; or

(3) Serve upon or make available for inspection by the other party any relevant evidence presented by a landlord or tenant and not otherwise required to be served and afford an opportunity to file rebuttal thereto if in his discretion he deems such service or opportunity necessary; or

(4) Notice such proceeding for an oral hearing to be held in accordance with section 12; or

(5) Provide for the introduction into the record of such evidence as he may deem appropriate. Any evidence introduced into the record by the Area Rent Director must be served upon or made available for inspection by all parties to the proceeding who shall be afforded an opportunity to file evidence in response thereto; or

(6) Up to the date of entry of the order, accept for filing any evidentiary papers, even though not filed within the time limited; or

(7) Require any person to appear and testify or to produce documents, or both.

(b) An order entered by an Area Rent Director upon a petition or application for adjustment or other relief, or an order entered by an Area Rent Director on his initiative or upon remand of a proceeding to the Area Rent Director by the Director of Rent Stabilization pursuant to section 52 shall be effective and binding until changed by further order and shall be final subject only to protest. Unless a protest has been filed, an order entered by the Area Rent Director may be revoked or modified at any time: *Provided,* That due notice of the intention to revoke or modify was previously given to all persons subject to such order. This proviso shall not apply to proceedings under section 3 (b). A copy of an order entered by the Area Rent Director shall be served upon all parties to the proceedings.

(c) *Review by Local Advisory Board.* During the pendency of any proceeding before the Area Rent Director the landlord or the tenant may, pursuant to the procedures of the local rent advisory board, request a review of the proceeding. Any recommendation of the board based upon such a review shall be placed in effect by the Area Rent Director if it is in accordance with the act and regulations.

(d) Upon remand of a proceeding to the Area Rent Director by the Director of Rent Stabilization pursuant to section 52, the Area Rent Director shall proceed in accordance with the order of remand and consistent with the matters involved and at the conclusion of such proceedings shall issue an appropriate order.

SEC. 11. *Evidence not subject to landlord's or tenant's control.* In any proceeding before an Area Rent Director, the landlord or tenant may file a statement in affidavit form setting forth in detail the nature and sources of any evidence not subject to his control, upon which the landlord or tenant believes he can reply in support of the facts alleged by him. Such statement shall be accompanied by an application for assistance by way of interrogatories or otherwise, in obtaining documentary evidence or evidence of persons not subject to the control of the landlord or tenant showing in every instance what material facts would be adduced thereby. Such application, if calling for the evidence of persons, shall specify the name and address of each person, and the facts to be proved by him, and if calling for the production of documents, shall specify such documents with sufficient particularity to enable identification for purposes of production. If the Area Rent Director deems the evidence necessary, he shall order its production. When such an application is denied written notice of such denial shall be served upon the parties.

SEC. 12. *Oral testimony—(a) Requests for oral hearing.* In most cases, evidence in proceedings before an Area Rent Director will be received only in written form, since this procedure is most conducive to the fair and expeditious disposition of such proceedings. However, the Area Rent Director may, upon his own initiative, direct the receipt of oral testimony or the landlord or tenant may request that oral testimony be taken. Such request shall be accompanied by a showing as to why the filing of affidavits, or other written evidence will not permit the fair and expeditious disposition of the proceeding. In the event that an oral hearing is ordered, notice thereof shall be served on the landlord and tenant not less than five (5) days prior to such hearing. The time and place of hearing shall be stated in the notice. A presiding officer shall be appointed by the Area Rent Director with all necessary powers to conduct the hearing. Any such oral hearing may be limited in such manner and to such extent as is deemed appropriate to the expeditious determination of the proceeding. Where a request for oral hearing is denied, written notice of such denial shall be served upon the parties.

(b) *Stenographic report of oral hearing.* A stenographic report of the oral hearing shall be made in duplicate. A copy shall be available for inspection during business hours in the appropriate defense-rental area office.

PROTESTS TO THE DIRECTOR OF RENT STABILIZATION

Introduction. Sections 18 to 54 deal with protests. A protest is the means provided by section 203 (a) of the act for landlords to make formal objections to a maximum rent regulation and for landlords or tenants to make formal objections to an order. Ordinarily, the filing of a protest is a prerequisite to obtaining judicial review by the Emergency Court of Appeals of the validity of a rent regulation or order. The other method available to landlords, only, to obtain judicial review is the filing of a complaint in the Emergency Court of Appeals after obtaining special leave to do so in an enforcement proceeding pursuant to law.

Those sections also contain provisions for consideration of protests by boards of review. A party is entitled to consideration of his objections by a board of review if he files a protest or response in accordance with the provisions of this regulation, making a specific request for consideration by a board of review in accordance with section 21 of this regulation.

GENERAL PROVISIONS

SEC. 18. *Right to protest.* (a) Except as provided in section 9 (b), any landlord subject to any provision of a maximum rent regulation or any landlord or tenant subject to an order issued by an Area Rent Director may file a protest in the manner set forth below: *Provided, however,* That in the case of an order entered pursuant to proceedings under section 3 (b) the tenant may file a protest only from the order entered in the proceedings had upon the tenant's request for revocation or modification.

(b) Any protest filed by a landlord or tenant not subject to the order or the provision protested, or otherwise not in accordance with the requirements of this regulation, may be dismissed by the Director of Rent Stabilization.

SEC. 19. *Scope of protest.* (a) A party who files a protest from an order issued by an Area Rent Director shall be limited to the presentation of briefs and arguments directed to the objections raised and the evidence presented in the prior proceedings. No new evidence or objections shall be presented, received, or considered on such a protest, except as authorized by paragraph (b) of this section. A protest against a maximum rent regulation may be accompanied by any relevant supporting evidence in affidavit form.

(b) A protestant may request leave to present further specified evidence or objections setting forth the reasons for the request. Such request will be granted only upon a showing that such evidence is newly discovered or a showing that prior presentation was not possible. Such evidence should not be submitted with the request and will be received only upon entry of an order authorizing its introduction into the record. The order may limit the evidence in any manner deemed necessary.

SEC. 20. *Time and place of filing protests.* (a) A protest may be filed against the provisions of a maximum rent regulation or amendment thereto issued and effective on or after July 1, 1952, within 6 months after the effective date of such regulation or amendment or within 6 months after new grounds arise there-

under and with respect to a regulation or amendment issued and effective prior to July 1, 1952, only within 6 months after new grounds arise thereunder.

(b) A protest directed against an order must be filed within six (6) months after the date of issuance of the order to be reviewed; or within six (6) months after new grounds arise thereunder.

(c) A protest shall be filed in an original and two (2) copies with the Certifying Officer, Office of Rent Stabilization, Washington 25, D. C.: *Provided, however,* That where a protest is directed solely against a regulation a copy shall be filed with the Area Rent Director of the area out of which the protest arises and that where the protest is from an order of an Area Rent Director, a copy of the protest, accompanying documents and briefs, shall be filed with the Area Rent Director issuing the order being protested, and one (1) copy shall be served upon any landlord or tenant who is subject to the order, in the manner prescribed by section 22.

(d) Each copy of the protest, accompanying documents and briefs, shall be printed, typewritten, mimeographed or prepared by similar process and shall be plainly legible. Copies shall be double-spaced except that quotations shall be single-spaced and indented.

SEC. 21. *Form and contents of protests*—(a) *What each protest must contain.* There is no printed form for use in making a protest. However, every protest shall be clearly designated "Protest to the Director of Rent Stabilization" and shall set forth the following:

(1) The name and postoffice address of the person filing the protest, whether he is the landlord or tenant of the accommodations, the manner in which such person is subject to the provision of the maximum rent regulation or the order appealed from, the location, by postoffice address or otherwise, of all housing accommodations involved in the protest and the names and addresses of all other parties in the prior proceedings and in the case of a protest to an order, the names and addresses of all other persons subject to the order protested;

(2) The name and post office address of any person filing the protest on behalf of the landlord or tenant and the name and post office address of the person to whom all communications from the Office of Rent Stabilization, relating to the protest shall be sent;

(3) A complete identification of the provision or provisions protested, citing the number of the maximum rent regulation or the order, the section or sections thereof to which objection is made, the date of issuance thereof, and the name of the defense-rental area involved;

(4) A statement that a copy of the protest and all accompanying documents and briefs has been filed with the Area Rent Director, as provided in section 20 (c) and proof of service as prescribed by section 22 (c);

(5) A simple concise statement of objections pertinent to the provision or provisions protested, making known the precise grievance of the protestant; each such objection to be separately stated and numbered;

(6) A clear and concise statement based upon the record of the proceedings in the area rent office of all facts supporting each objection. The supporting facts must be limited to the objections specified;

(7) A statement of the relief requested and, if modification of a provision of a maximum rent regulation is sought, a statement of the specific changes which the landlord seeks to have made in this provision;

(8) A statement signed and sworn to (or affirmed) before an officer authorized to take oaths either by the person filing the protest personally, or, if a partnership, by a partner, or, if a corporation or association, by a duly authorized officer, that the protest and the documents filed therewith are prepared in good faith:

Provided, however, That in the case of protest directed against a regulation, the person filing the appeal shall file an oath or affirmation that the facts alleged are true to the best of his knowledge, information and belief. The person filing the protest shall specify which of the facts alleged are known to be true and which are alleged on information and belief. Where any statement is filed by a representative on behalf of the protestant, the statement must be accompanied by a power of attorney as provided in section 73.

(b) *Consideration by a board of review upon request by a party.* A party who wishes the protest considered by a board of review must specifically so request. If he also wishes to offer oral argument, he must so state, indicating the order of his preference as to (1) argument before a full board in Washington, D. C., or (2) argument before a subcommittee of the board at the nearest Regional Office or elsewhere as requested. A simple request for consideration of the protest by a board of review, without more, will be construed as a request for consideration without oral argument. Section 41 of this regulation sets forth the considerations which will be determinative in the decision as to where oral argument may be heard. The request for consideration by a board of review must be made either in the protest or in the response. Further provisions with respect to proceedings before a board of review are to be found in sections 39 to 46, inclusive, of this regulation.

SEC. 22. *Service of papers by landlords and tenants in proceedings upon protest.* (a) Wherever this regulation requires a landlord or tenant to serve a protest, response, rebuttal affidavit, notice, or other document upon another party or parties in proceedings upon protest to the Director of Rent Stabilization, such service shall be made in the following manner:

(1) Where the proceeding involves four (4) or fewer tenants the landlord shall serve each tenant concerned by personal service, by leaving a copy of the document to be served at the tenant's residence, or by mail or telegraph addressed to the tenant at his residence.

(2) Where the proceeding involves more than four (4) tenants, the landlord may serve the document in the manner prescribed by subparagraph (1) of this paragraph. However, the landlord may, at his option, serve the document by posting and keeping posted for a period of 15 days a copy thereof in the common entrance to the premises or if there be more than one common entrance, in each common entrance or in one or more public places upon the premises accessible to all tenants concerned in the proceedings. If service is made by posting, the landlord shall also serve upon each tenant concerned a notice of the nature of the document posted and the place of posting. The notice of posting shall be served in the manner prescribed by subparagraph (1) of this paragraph.

(3) Where a tenant is required to serve a document such service is required to be made only upon the landlord and may be made by personal service, by leaving a copy of the document at the landlord's residence or principal place of business, by mailing a copy thereof to the landlord at his residence or principal place of business in a properly addressed, post-paid envelope, or by telegraph.

(b) Service of a document shall be deemed to have been made when the document or notice of its posting is mailed in a properly addressed, postpaid envelope, delivered to a telegraph office, delivered to the party personally, or left at the party's residence or principal place of business.

(c) Service by a landlord or tenant in a proceeding upon protest to the Director of Rent Stabilization may be proved by a post-office receipt for the mail, or by affidavit or certification of the facts of service by the person making such service. Proof of service must be annexed to the document at the time it is filed.

SEC. 23. *Assignment of docket number.* Upon receipt of a protest it shall be assigned a docket number, and all further papers filed in the proceedings by either the appellant or other parties and all correspondence relating thereto shall contain on the first page thereof the docket number so assigned.

SEC. 24. *Joint protests; consolidation.* Two or more landlords or tenants may file a joint protest. Joint protests shall be filed and determined in accordance with the provisions governing the filing and determination of protests filed severally. A joint protest shall be verified in accordance with section 21 by each person joining in the protest. A joint protest may be filed only where at least one ground is common to all persons joining in the protest. Whenever the Director of Rent Stabilization deems it necessary or appropriate for the disposition of joint protests, he may treat such joint protests as several, and, in any event, he may require the filing of relevant materials by each person joining therein. Whenever necessary or appropriate for the full and expeditious determination of common questions raised by two or more protests the Director of Rent Stabilization may consolidate such protests.

SEC. 25. *Stay of landlord's obligation to refund.* (a) Where the effect of an Area Rent Director's order is to require a landlord to make a refund to the tenant, the obligation to refund shall be stayed if the landlord, within twenty (20) days after the date of issuance of said order, duly files a protest together with a refund transmittal memorandum directed to the Director, Budget and Finance Branch, Office of Rent Stabilization, Washington 25, D. C., on forms prescribed by the Director of Rent Stabilization, accompanied by a certified check or money order in the amount of the refund payable to the U. S. Treasurer, and such additional information and documents as may be required. The money so deposited shall be distributed pursuant to the order of the Director of Rent Stabilization, or in accordance with the final disposition of the proceedings.

(b) Compliance with that portion of an order, issued by the Director of Rent Stabilization upon the final determination of a protest which specifies the manner in which the money deposited pursuant to this section shall be distributed to a tenant, shall be stayed for a period of thirty (30) days from the date of issuance of said order.

(c) Compliance with that portion of an order, issued by the Director upon the determination of a protest which specifies the manner in which the money deposited shall be distributed to a tenant, shall be further stayed if the protestant, within thirty days after the date of issuance of said order files a complaint in the United States Emergency Court of Appeals in accordance with law, objecting to the provisions of the order which requires the refund. In such event the money so deposited shall be distributed by order of the Director in a manner consistent with the ultimate disposition of the proceedings.

(d) If, within thirty days after entry of a judgment or order, interlocutory or final, by the United States Emergency Court of Appeals in a proceeding described in paragraph (c) herein, a petition for a writ of certiorari is filed in the Supreme Court of the United States, the distribution of the money deposited in escrow shall be stayed, and the funds shall thereafter be distributed by order of the Director in a manner consistent with the ultimate disposition of the proceedings.

SEC. 26. *Stay of certificates relating to eviction.* (a) Where a tenant files a protest from an order with respect to a certificate relating to his eviction within twenty (20) days after date of its issuance, the certificate shall be stayed until thirty (30) days after determination of the protest: *Provided, however,* That the waiting period, if any, provided by the certificate shall not be tolled by the stay and that the termination or expiration of a stay shall not operate to curtail such waiting period: *And provided, further,* That where the tenant's protest or objections are dilatory, frivolous, or not made in good faith, the stay of the certificate may be terminated.

(b) If the tenant files a complaint against the order in the United States Emergency Court of Appeals in accordance with law, the certificate shall be deemed suspended until entry of the final judgment of that Court and for a period of thirty (30) days thereafter. If within that period the tenant files a petition for certiorari to review such judgment in the Supreme Court of the United States, the certificate shall be deemed suspended until ultimate disposition of the proceeding. Where, pursuant to a judgment of that Court or of the Emergency Court of Appeals the proceeding is remanded to the Director, the certificate shall remain suspended during the further proceedings before the Director.

(c) Where the certificate relating to eviction is in suspension and where, upon complaint filed by the landlord in the Emergency Court of Appeals pursuant to law against an order involving such certificate, the determination complained of is set aside in whole or in part, or the proceedings remanded to the Director, the certificate shall be deemed suspended in the same manner provided for in paragraph (b) of this section as if the tenant had been the complainant.

SEC. 27. *Response to protests.* (a) Where an appeal from an order issued by an Area Rent Director has been filed by a landlord or tenant, the other party or parties shall be afforded a period of fifteen (15) days from the date of service of such appeal and documents within which to serve and file a response to the appeal. Such response shall be filed with the Certifying Officer, Office of Rent Stabilization, Washington 25, D. C., in an original and two (2) copies, together with proof of service upon the other party or parties, as prescribed by section 22 (c). The response shall be limited to the presentation of briefs and arguments directed to the objections raised and the evidence presented in the prior proceedings. No new evidence or objections shall be presented, received, or considered in such response except as authorized by paragraph (b) of this section.

(b) A respondent may request leave to present further specified evidence or objections setting forth the reasons for the request. Such request will be granted only upon a showing that such evidence is newly discovered or a showing that prior presentation was not possible. Such evidence should not be submitted with the request and will be received only upon entry of an order authorizing its introduction into the record. The order may limit the evidence in any manner deemed necessary.

EVIDENCE AND BRIEFS

SEC. 33. *Submission of briefs.* The parties to a protest proceeding may serve and file briefs in support of their contentions only with the protest or response, as the case may be, unless leave is granted to serve and file a brief at some other time. An original and two (2) copies shall be filed separate and distinct from the protest, response, or evidential material.

SEC. 34. *Introduction of evidence into record of protest proceeding.* The Director of Rent Stabilization may, at any time, in his discretion, incorporate such evidence into the record of any protest proceeding or direct any party thereto to submit such evidence, in the form of affidavits or otherwise, as he deems appropriate. In the event any such new evidence is introduced into the record of the protest proceeding it must be served upon all parties to the proceeding or be made available for inspection by them and such parties shall be afforded a reasonable opportunity to file evidence in rebuttal thereto.

SEC. 35. *Receipt of oral testimony and evidence not subject to party's control.* (a) In cases of a protest from an order of an Area Rent Director, additional evidence will be received from the parties only where leave has been granted by the Director of Rent Stabilization in accordance with sections 19 and 27, or where the Director of Rent Stabilization, on his own initiative has determined that additional evidence is necessary for a proper determination.

(b) Evidence where permitted in protest proceedings will ordinarily be received only in written form because this procedure is most conducive to the fair and expeditious disposition of protests. However, a request for the receipt of oral testimony may be made in the circumstances set forth below. Such request shall be accompanied by a showing as to why the filing of affidavits or other written evidence will not permit the fair and expeditious disposition of the protest.

(c) In the event that the Director of Rent Stabilization orders the receipt of oral testimony, notice shall be served on all parties to the protest proceeding not less than five (5) days prior to the receipt of such testimony, which notice shall state the time and place of the hearing and the name of the presiding officer designated by the Director of Rent Stabilization. Any such oral hearing may be limited in such manner and to such extent as is deemed appropriate to the expeditious determination of the proceeding. If the Director of Rent Stabilization rejects the request for receipt of oral testimony he may, if he deems it appropriate, permit the filing of a request for written interrogatories, as provided in paragraph (d) of this section. Where a request for oral hearing is denied the order of such denial shall be served upon the parties.

(d) A request for the receipt of evidence not subject to the party's control may be made only upon a showing that such evidence is necessary to the disposition of the protest. Such request must be made in affidavit form setting forth in detail the nature and sources of any evidence, not subject to his control, upon which the party believes he can rely in support of the facts alleged in his protest. Such statement shall be accompanied by an application for assistance by way of interrogatories, or otherwise in obtaining the documentary evidence or evidence of persons not subject to the control of the party, showing in every instance what material facts would be adduced thereby. Such applications, if calling for the evidence of persons, shall specify the name and address of each person, and the facts to be proved by him, and if calling for the production of documents shall specify such documents with sufficient particularity to permit identification for purposes of production. Any order issued with respect to such request

shall be served upon all parties to the proceeding.

(e) Landlords who have filed a protest directed against a maximum rent regulation may request receipt of oral testimony and assistance in obtaining evidence not subject to their control in the manner set forth in paragraphs (b) (c) and (d) of this section. Landlords and tenants who are parties to a protest proceeding directed against an order issued by an Area Rent Director may request receipt of oral testimony and assistance in obtaining evidence not subject to their control only where: (1) Evidence has been introduced into the record by the Director of Rent Stabilization pursuant to section 34; (2) where such request was made in the prior proceedings and denied; or (3) where the request could not reasonably have been made at a prior stage of the proceedings.

(f) A stenographic report of the oral hearing shall be made in triplicate. A copy shall be available for inspection during business hours in the appropriate defense-rental area office.

SEC. 36. *Evidence in support of a rent regulation.* Any person affected by a maximum rent regulation may submit evidence in support of the regulation in the manner set forth in this section.

(a) *Written evidence in support of the regulation.* Any person affected by the provisions of a maximum rent regulation, may at any time after the issuance of such regulation submit to the Director of Rent Stabilization a statement in support of any such provision or provisions. Such statement shall include the name and post office address of such person, the nature of his business, and the manner in which such person is affected by the maximum rent regulation and may be accompanied by affidavits, and other data in written form. In the event that protest has been, or is subsequently, filed against a provision of a maximum rent regulation in support of which a statement has been submitted, the Director of Rent Stabilization may include such statement in the record of the proceedings taken in connection with such appeal. If such supporting statement is incorporated into the record and is not so incorporated at an oral hearing, copies of such supporting statement shall be served upon, or made available for inspection by the person filing the protest and he shall be given a reasonable opportunity to present evidence in rebuttal thereof.

(b) *Receipt of oral testimony in support of the regulation.* Ordinarily, material in support of the maximum rent regulation, like material in support of protests, will be received only in written form. Where, however, the Director of Rent Stabilization is satisfied that the receipt of oral testimony is necessary, he may, on his own motion, direct such testimony to be received.

BOARDS OF REVIEW

SEC. 39. *Right to consideration by a board of review.* (a) Under the law, a protest filed in accordance with this regulation, must, upon the protestant's or respondent's request, be considered by a board of review before it can be denied in whole or in part.

(b) Consideration of the record in protest proceedings by a board of review is undertaken for the purpose of reconsidering the provision or provisions of the maximum rent regulation or order protested and recommending action relative thereto to the Director. A board of review considers the protest upon the basis of the record which has been developed in the proceedings. Protestant and the respondent are accorded an opportunity to present oral argument to a board upon the basis of the objections raised and the evidence in the record, and are guided by the explanatory statement of the issues in the notice of consideration by a board of review.

SEC. 40 *Composition of boards of review.* A board of review is composed of one or more officers or employees of the Office of Rent Stabilization, designated by the Director to review the record of the proceedings on a particular protest and make recommendations to him as to its disposition. The number of members constituting a board will be determined in the light of the scope and complexity of the issues presented. When a board consists of more than one member, ordinarily at least one member shall be selected who has been directly responsible for the formulation or administration of the maximum rent regulation or order protested. The protestant and the respondent will be advised of the membership of a board considering the protest and, if the board consists of more than one member, of the member selected to preside, in the notice of consideration by a board provided for in section 42. When necessitated by incapacity of a member or other good cause, the Administrator may make substitutions in the membership of the board as originally constituted.

SEC. 41. *Where boards of review hear oral argument.* A board of review consisting of more than one member will ordinarily hear oral argument at the National Office in Washington, D. C., and only in exceptional cases and for good cause shown will the full board hold hearings elsewhere. A board consisting of only one member may hear argument at a Regional Office or elsewhere. Where it has been requested that oral argument be heard at some other place than the National Office and where the board consists of more than one member, a subcommittee thereof may be designated to hear argument at the place requested or at some other convenient place. A request for oral argument without specifying preference as to place of argument will be construed as a request for oral argument at the National Office in Washington, D. C.

SEC. 42. *Notice of consideration by board of review.* (a) Before denial in whole or in part of any protest as to which consideration by a board of review has been requested in accordance with section 21 (b) or (c) of this regulation, which request has not subsequently been waived, notice of consideration by a board of review will be sent by registered mail to the protestant and to the respondent. Sending of the notice marks a close of the evidential record in the proceedings. The notice will indicate the issues thought to be determinative and may serve as a guide in planning oral argument. The notice of consideration shall contain, or be accompanied by, the following items, as nearly as the circumstances permit:

(1) Information identifying the protest, including the maximum rent regulation or order being protested and the docket number;

(2) A list of the documents comprising the record of the proceeding;

(3) A brief statement of the issues involved;

(4) A statement of the time (which shall not be less than seven days from the date of the mailing of the notice) and place where the board of review or a subcommittee thereof will hear oral argument;

(5) A list of persons comprising the board of review which is thereby appointed to consider the protest, with their official titles and a designation of the presiding member if the board of review is composed of more than one person.

SEC. 43. *Waiver of right to consideration in whole or part in protest proceedings.* A party who has properly requested consideration by a board of review in accordance with section 21 may, if he so desires, waive his right to consideration by a board. A party who has requested both consideration by and oral argument before a board of review, or subcommittee thereof, may waive his right to oral argument only, or he may waive both oral argument and consideration by a board. Such waiver shall be in writing and shall constitute a part of the record of proceedings on the protest. Failure of a party to appear at a hearing of oral argument, which he has not waived in accordance with the foregoing, at the time and place specified in the notice of consideration shall, unless a reasonable excuse is shown, also constitute waiver of his right to consideration by a board. Unexcused failure to appear at a hearing of oral argument shall be noted on the record of proceedings. A waiver by less than all of a group of joint parties shall not affect the rights of a party who has made no waiver. The board shall, in any event, give consideration to the protest, unless both parties have waived their rights thereto as provided in this section.

SEC. 44. *Hearing of oral argument.* (a) Argument before a board of review shall ordinarily be limited to one hour except for good cause shown. Where the magnitude of the issues involved warrants more extended discussion or where the parties are numerous, the board may extend or limit the time of each in its discretion. A board may exclude specific argument deemed to be irrelevant to the objections set forth in the protest or unsupported by any evidence in the record. Hearings of argument will be open to the public. Where argument is to be heard by a board of review consisting of more than one member, a majority of such board shall constitute a quorum for the purpose of hearing argument. Presentation of oral argument may be accompanied by submission of a brief.

(b) A stenographic report of all hearings of oral argument by boards of review or subcommittees thereof may be taken. The report will be transcribed at the direction of the board if a transcription is desired to facilitate consideration of the protest. The report will ordinarily be transcribed if the argument is heard by a subcommittee of a board. If the report is transcribed a copy shall be available in the Office of Rent Stabilization, Washington, D. C. Any protestant or respondent, who wishes a copy of the report may obtain it by requesting the reporter at the hearing to make a copy for him and paying the cost thereof.

SEC. 45. *Action by boards of review at conclusion of their consideration of a protest.* Within a reasonable time after the hearing of oral argument or after the closing of the record, if such argument has been waived, a board of review shall submit its recommendations in writing to the Director as to the disposition of the protest. The recommendations of a majority of the members of a board shall constitute the recommendations of the board, but the disagreement of any member with the recommendations shall be expressly noted. The protestant and the respondent will be advised of the recommendations of the board in an appendix to the Administrator's opinion disposing of the protest or closing the docket. Copies of these documents, containing the board's recommendations, will be sent to the protestant and the respondent by mail. A board of review shall have authority to recommend to the Director that the protest be granted or denied in whole or in part. If it is the opinion of the board that the record in the proceedings should be expanded, it may refer the record of the proceedings to the Director in order that the Director may consider permitting the amendment of the protest or the receipt of additional evidence.

SEC. 46. *Action by Director after receipt of board of review's recommendations.* After receipt of a board of review's recommendations as to the disposition of the protest, the Director shall, within a reasonable time, grant or deny the protest in whole or in part.

ACTION BY THE DIRECTOR OF RENT STABILIZATION

SEC. 52. *Action by the Director of Rent Stabilization.* (a) Within a reasonable time after the filing of any petition in accordance with the regulation, but in no event more than 30 days after such filing, the Director shall:

(1) Dismiss any protest which does not conform in a substantial respect to the provision of this regulation; or strike from the record or reject any evidential material which does not conform to the requirements set forth in this regulation: *Provided, however,* That the failure to strike or reject such evidence submitted in contravention of section 19 shall not constitute acceptance thereof; or

(2) Terminate or reinstate a stay of a certificate relating to eviction; or

(3) Grant or deny such protest in whole or in part or, if considered necessary or appropriate, remand the proceedings to the Area Rent Director for further action not inconsistent with the determination of the Director of Rent Stabilization; or

(4) Notice such protest for an oral hearing to be held in accordance with section 35; or

(5) Serve upon or make available to the other party or parties for inspection any evidence presented by the landlord or tenant and not otherwise required to be served or made available, and afford an opportunity to file rebuttal thereto, if, in his discretion, he deems such opportunity necessary; or

(6) Provide for the introduction into the record of the protest proceeding of such evidence as he may deem appropriate, in accordance with section 34; or

(7) Require any person to appear and testify or to produce documents, or both.

(8) Notice such protest for hearing of oral argument by a board of review.

SEC. 53. *Relief where landlord's obligation to refund has been stayed.* In those cases where a stay of the obligation to refund has been obtained in accordance with section 25, the modification or revocation of the order by the Director of Rent Stabilization or by the Area Rent Director upon remand, as it affects the refund, shall be retroactive.

SEC. 54. *Opinion denying protest in whole or in part.* In the event that the Director denies any protest in whole or in part, the protestant and the respondent shall be informed of any economic data or other facts of which he takes official notice, the grounds upon which such decision is based, and (if the protest has been considered by a board of review) the recommendations of a board of review and, if any recommendation of such a board has been rejected, the reason for rejection. Any order entered in such protest proceedings shall be effective from the date of its issuance unless otherwise provided in such order, or in this regulation.

INTERPRETATIONS

SEC. 60. *Interpretations.* An interpretation given by the Director of Rent Stabilization or an officer of the Office of Rent Stabilization, with respect to any provisions of the act or any maximum rent regulation or order promulgated thereunder, will be regarded as official only if such interpretation was requested and issued in accordance with sections 61 and 62, or was issued as an interpretation of general applicability. An official interpretation shall be applicable only with respect to the particular person to whom, and to the particular factual situation with respect to which, it is given, unless issued as an interpretation of general applicability.

SEC. 61. *Requests for interpretations; form and contents.* Any person desiring an official interpretation of the Housing and Rent Act of 1947, as amended, or of any maximum rent regulation or order promulgated thereunder, shall make a request in writing for such interpretation. Such request shall set forth in full the factual situation out of which the interpretative question arises and shall, so far as practicable, state the names and post office addresses of the persons and the location of the housing accommodations involved. If the inquirer has previously requested an interpretation on the same or substantially the same facts, his request shall so indicate and shall state the official or office to which his previous request was addressed. No interpretation shall be requested or given with respect to any hypothetical situation or in response to any hypothetical question.

SEC. 62. *Interpretation to be written; authorized officials.* Interpretations involving individual cases shall be in writing and signed by the Director of Rent Stabilization, or by one of the following officers of the Office of Rent Stabilization: The general counsel, any assistant general counsel, any regional attorney, or any chief rent attorney for a defense-rental area office. Interpretations of general applicability shall be issued only by the Director of Rent Stabilization, the general counsel or an assistant general counsel.

MISCELLANEOUS PROVISIONS AND DEFINITIONS

SEC. 65. *Contemptuous conduct.* Contemptuous conduct at any hearing shall be ground for exclusion from the hearing.

SEC. 66. *Continuance or adjournment of hearing.* Any hearing may be continued or adjourned to a later date or a different place by announcement at the hearing by the person who presides.

SEC. 67. *Filing of notices, etc.* All notices, reports, registration statements, notices of termination of leases and other documents which a landlord or tenant is required to file pursuant to the provisions of the act, any maximum rent regulation or this regulation shall be filed with the appropriate defense-rental area office or other specifically designated office, and shall be deemed filed on the date received by said office: *Provided, however,* That any such notice, report, registration statement, notice of termination of lease or other document properly addressed to and received by the appropriate office shall be deemed filed on the date of the post mark: *And provided further,* That when the last day for filing falls on a Saturday, Sunday or legal holiday, the document may be physically filed at the appropriate office on the next business day.

SEC. 68. *Service of papers.* (a) Except as otherwise specifically provided in this regulation, the following provision shall govern service and proof of service: Notices, orders, and other process and papers may be served personally or by leaving a copy thereof at the residence or principal office or place of business of the person to be served, or by mail, or by telegraph. When service is made personally or by leaving a copy at the residence or principal office or place of business, the verified return of the person serving or leaving the copy shall constitute sufficient proof of service. When service is by registered mail or telegraph the return post office receipt or telegraph receipt shall constitute sufficient proof of service. When service is by unregistered mail proof of service may be made by an affidavit of mailing or by any other acceptable proof or testimony. In any

proceeding under section 9, or in any proceeding to revoke or modify an order, any notice, order or other process or paper directed to the person named as landlord on the registration statement, filed pursuant to the registration section of the applicable maximum rent regulation at the mailing address given thereon, or where a notice of change of identity has been filed pursuant to said registration section, to the person named as landlord and at the address given in such notice of change of identity most recently theretofore filed, shall constitute notice to such landlord; except when service is made by landlord, notice to the tenant may be given by mailing to the "occupant" of the subject housing accommodations.

(b) In any proceeding under section 9 involving more than one tenant or in any proceeding involving public housing operated by the United States or by a State or any of its political subdivisions or by any agency of the foregoing the landlord may be required to serve notices, orders and other process and papers on the tenants affected in the manner prescribed by the Area Rent Director and to prepare and file such appropriate evidence of such service as may be required.

SEC. 69. *Time limitations.* All time limitations prescribed in this regulation shall be strictly observed by all parties to the proceedings and extensions or waivers will be afforded as a matter of right only upon a showing of good cause for inability to meet the time limitation.

SEC. 70. *Official notice.* The Area Rent Director or the Director of Rent Stabilization may take official notice of economic data and other facts, including facts found as a result of reports filed and studies and investigations made.

SEC. 71. *Subpoenas.* Subpoenas shall be issued only by the Director of Rent Stabilization and may require the production of documents or the attendance of witnesses at any designated place. Service of a subpoena upon a person named therein shall be made by delivering a copy thereof to such person or leaving a copy at his regular place of business or abode and by tendering to him the fees and mileage specified in section 206 (f) (3) of the act. When the subpoena is issued on behalf of the Office of Rent Stabilization, fees and mileage need not be tendered in advance. Any person 18 years of age or over may serve a subpoena. The person making the service shall make an affidavit thereof describing the manner in which service is made and return such affidavit on or with the original subpoena forthwith to the Certifying Officer, Office of Rent Stabilization, Washington 25, D. C. In case of failure to make such service, the reasons for the failure should be stated on the original subpoena.

SEC. 72. *Witness fees.* Witnesses summoned to give testimony pursuant to section 71 shall be paid the fees and mileage specified by section 206 (f) (3) of the act. Such fees shall be paid by the party requesting the subpoena and on whose behalf it is issued. The Director of Rent Stabilization shall pay such fees only to witnesses summoned by him upon his own initiative.

SEC. 73. *Action by representatives.* Any action which by this regulation is required of, or permitted to be taken by, a landlord or tenant may, unless otherwise expressly stated, be taken on his behalf by any person whom the landlord or tenant has authorized to represent him. Such authority shall be given by written power of attorney where the action is in connection with protest. In such case the power of attorney, signed by the landlord or tenant, shall be filed at the time action on his behalf is taken.

SEC. 74. *Certifying Officer; office hours.* The Office of the Certifying Officer, Office of Rent Stabilization, Washington 25, D. C., shall be open on week days, except Saturday, from 9 a. m. to 5 p. m. and shall be closed on Saturdays. Any persons desiring to file any papers, or to inspect any documents filed with such office at any time other than the regular office hours stated, may file a written application with the Certifying Officer, requesting permission therefor.

SEC. 75. *Confidential information; inspection of documents filed with Area Rent Director or Certifying Officer.* Petitions, applications, protests and all papers filed in connection therewith are public records, open to inspection in the Area Rent Office or the Office of the Certifying Officer upon such reasonable conditions as the Area Rent Director or Certifying Officer may prescribe. Except as provided above, confidential information filed with the Office of Rent Stabilization, will not be disclosed unless in the judgment of the Director of Rent Stabilization the disclosure thereof is in the public interest.

SEC. 76. *Appearance of employees and former employees.* Appearance of employees and former employees of the Office of Rent Stabilization or of any predecessor agency, in a representative capacity before the Office of Rent Stabilization, shall be governed by any provision relating thereto promulgated by the Director of Rent Stabilization.

SEC. 77. *Definitions.* As used in this regulation, unless the context otherwise requires, the term:

(a) "Act" means the Housing and Rent Act of 1947, as amended;

(b) "Subject to." A landlord is "subject to" a provision of a maximum rent regulation or of an order only if such provision prohibits or requires action by him. A tenant is "subject to" an order if he is or was the tenant of the subject housing accommodations during any period of time concerned in the order.

(c) "Date of issuance" with respect to a maximum rent regulation, means the date on which such maximum rent regulation was or is filed with the Federal Register Division.

(d) "Federal Register" means the publication provided for by the act of July 26, 1935 (49 Stat. 500), as amended.

(e) "Maximum rent regulation" means any regulation establishing a maximum rent.

(f) "Maximum rent" means the maximum rent established by any maximum rent regulation or order issued thereunder.

(g) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(h) "Landlord" includes an owner, lessor, sublessor, assignee or any other person receiving or entitled to receive rent for the use or occupancy of any housing accommodations, or an agent of any of the foregoing.

(i) "Tenant" includes a subtenant, lessee, sublessee, or other person entitled to the possession or to the use or occupancy of any housing accommodations.

(j) "Housing accommodations" means any building, structure, or part thereof, or land appurtenant thereto, or any other real or personal property rented or offered for rent for living or dwelling purposes, together with all privileges, services, furnishings, furniture, equipment, facilities and improvements connected with the use or occupancy of such property.

(k) "Area Rent Director" means the person designated by the Director of Rent Stabilization as director of any defense-rental area or such person or persons as may be designated to carry out any of the duties delegated to the Area Rent Director by the Director of Rent Stabilization.

(l) "Petition" when referring to a landlord's request for an adjustment of maximum rent shall include applications as well as petitions.

SEC. 78. *Amendment to this regulation.* Any provision of this regulation may be amended or revoked by the Director of Rent Stabilization at any time. Such amendment or revocation shall be published in the FEDERAL REGISTER and shall take effect upon the date of its publication unless otherwise specified therein.

SEC. 79. *Saving provisions.* (a) Rent Procedural Regulation 2, issued November 21, 1951, shall continue to apply to all cases where the maximum rent regulation or order was issued before July 1, 1952.

(b) This regulation shall apply to all protests against maximum rent regulations issued on or after July 1, 1952, and to protests against maximum rent regulations issued prior to that date where the protest is based upon new grounds arising on or after July 1, 1952. This regulation shall also apply to all cases involving orders issued on or after July 1, 1952.

Issued this 1st day of July 1952.

TIGHE E. WOODS,
Director of Rent Stabilization.

RR 2—ROOMS IN ROOMING HOUSES AND OTHER ESTABLISHMENTS

SCHEDULE B—SPECIFIC PROVISIONS RELATING TO INDIVIDUAL DEFENSE RENTAL AREAS OR PORTIONS THEREOF

CALIFORNIA

Effective July 8, 1952, Rent Regulation 2 is amended as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 3d day of July 1952.

TIGHE E. WOODS,
Director of Rent Stabilization.

A new item 64 is added to Schedule B of Rent Regulation 2, reading as follows:

64. Provisions relating to the Townships of Monterey and Pacific Grove in Monterey County, California, portions of the Monterey Bay, California, Defense-Rental Area (Item 33a of Schedule A):

Decontrol of trailers and trailer spaces. The application of this regulation to housing accommodations in trailers and ground rented as trailer space is terminated.

All provisions of this regulation insofar as they are applicable to the territory to which this item of Schedule B relates are hereby amended to the extent necessary to carry into effect the provisions of this item 64 of Schedule B.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Subchapter T—Sale, Lease, or Use, and Acquisitions

[Circular 1826]

PART 257—LEASE OR SALE OF SMALL TRACTS, NOT EXCEEDING FIVE ACRES, FOR HOME, CABIN, CAMP, HEALTH, CONVALESCENT, RECREATIONAL, OR BUSINESS SITES

OFFERS TO LEASE PUBLIC LAND IN ALASKA IN TERMINATED LEASE

A new § 257.19a is added as follows:

§ 257.19a *Offers to lease public land in Alaska in terminated lease.* (a) When a small tract lease of public land in Alaska has terminated because of the expiration of the term for which it was issued, or where such a lease is canceled on relinquishment or for any other reason, the land during the remainder of the calendar month in which the lease expires and during the calendar month following such expiration, or during the remainder of the calendar month in which the notation of such cancellation is made on the land office tract books and during the calendar month following such notation, will not be subject to further application under the small tract laws except as follows:

(1) During the period from the 5th to the 15th, inclusive, of the month following the expiration of the lease, or the notation of the cancellation of the lease on the land office tract books, any qualified person may file in the proper office a "Lease Termination Drawing Card", Form 4-1215, describing the tract desired.

(2) If more than one card is received during the period mentioned in subparagraph (1) of this paragraph, all cards will be included in a drawing to be held at a subsequent date in the same month, the date to be fixed by the manager or other authorized officer. The drawing will determine priority and establish an adequate list of eligibles and of alternates entitled to file a lease offer for the land. If one card only is received, the land will be allocated to that applicant. An applicant may not file more than one card for each tract made available pursuant to this section. If pursuant to any such card any tract is allocated to an applicant, no additional allocation to him under any other such card will be made. A lease offer must be filed by a successful applicant within such time as may be allowed for that purpose by the manager or other authorized officer.

(b) On and after the first business day of the month following the drawing provided for in paragraph (a) of this section, the land, if not then included in a small tract lease, may be applied for under the small tract law by any qualified person as provided in § 257.7, subject, however, to the prior right to lease the land under that law acquired by any applicant by the filing of a Lease Termination Drawing Card, and also subject to the right of the prior lessee to remove his improvements, if any, as provided in § 257.19.

(c) Except in Alaska, small tract lease offers for lands in terminated small tract leases will be processed in the order in which they are filed after the lands become subject to appropriation. If conflicting lease offers are filed simultaneously, the rights of the applicants will be determined by a drawing, pursuant to 43 CFR 295.8.

(52 Stat. 609, as amended; 43 U. S. C. 682a)

NOTE: The record keeping or reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

R. D. SEARLES,
Acting Secretary of the Interior.

JULY 1, 1952.

Appendix—Public Land Orders

[Public Land Order 848]

ARIZONA

WITHDRAWING PUBLIC LANDS FOR USE OF DEPARTMENT OF THE ARMY IN CONNECTION WITH YUMA TEST STATION

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the public lands in the following-described areas in Arizona are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved for the use of the Department of the Army in connection with the Yuma Test Station:

GILA AND SALT RIVER MERIDIAN

T. 1 N., R. 19 W.,
Secs. 6, 7, 18, 19, 30, and 31.
T. 2 N., R. 19 W.,
Secs. 6, 7, 18, 19, 30, and 31.
T. 1 N., Rgs. 20 and 21 W.
T. 2 N., Rgs. 20 and 21 W., unsurveyed.
T. 1 N., R. 22 W., unsurveyed.
Tps. 2 and 3 S., R. 14 W., unsurveyed.
Tps. 4 and 5 S., R. 14 W.
T. 6 S., R. 14 W.,
Secs. 1 to 21, inclusive;
Secs. 28, 29 and 30.
Tps. 5 and 6 S., R. 15 W.
T. 7 S., R. 15 W.,
Secs. 5, 6 and 7.
Tps. 5 and 6 S., R. 16 W.
T. 7 S., R. 16 W.,
Secs. 1 to 12, inclusive;
Secs. 14 to 20, inclusive.
T. 6 S., R. 17 W., unsurveyed.
T. 7 S., R. 17 W.,
Secs. 1 to 24, inclusive;
Secs. 26 to 30, inclusive;
Sec. 31, N½;
Sec. 32, N½.
T. 6 S., R. 18 W., unsurveyed.
T. 7 S., R. 18 W., part unsurveyed,
Secs. 1 to 33, inclusive;
Sec. 34, N½;
Sec. 35, N½;
Sec. 36, N½.
T. 8 S., R. 18 W., part unsurveyed,
Secs. 4 to 9, inclusive;
Sec. 17, N½;
Sec. 18.

T. 5 S., R. 19 W., unsurveyed,
Secs. 5 to 8, inclusive;
Secs. 17 to 20, inclusive;
Secs. 29 to 32, inclusive.
Tps. 6 and 7 S., R. 19 W., unsurveyed.
T. 8 S., R. 19 W.,
Secs. 1 to 18, inclusive, unsurveyed;
Sec. 19, N½, SE¼;
Secs. 20 to 23, inclusive;
Sec. 24, W½;
Sec. 27, N½;
Sec. 28, N½.
T. 1 S., R. 20 W.
Tps. 2, 3, 4, 5, and 6 S., R. 20 W., unsurveyed.
T. 7 S., R. 20 W., part unsurveyed,
Secs. 1 to 28, inclusive;
Sec. 29, N½;
Sec. 30, N½;
Sec. 33, E½;
Secs. 34, 35, and 36.
T. 8 S., R. 20 W., part unsurveyed,
Secs. 1 and 2;
Sec. 3, N½;
Sec. 11, N½, SE¼;
Sec. 12;
Sec. 13, N½, SE¼.
T. 1 S., R. 21 W.
Tps. 2, 3, and 4 S., R. 21 W., unsurveyed.
T. 5 S., R. 21 W.,
Secs. 1 to 6, inclusive;
Secs. 8 to 16, inclusive;
Secs. 21 to 28, inclusive;
Secs. 32 to 36, inclusive.
T. 6 S., R. 21 W., part unsurveyed.
Secs. 1 to 5, inclusive;
Secs. 9 to 16, inclusive;
Secs. 21 to 28, inclusive;
Secs. 32 to 36, inclusive.
T. 7 S., R. 21 W.,
Secs. 1 to 4, inclusive;
Secs. 5, 8 and 17, those parts east of a line parallel to and ¼ mile east of Gila Canal;
Secs. 20 to 24, inclusive;
Secs. 9 to 16, inclusive;
Sec. 25, N½;
Sec. 26, N½;
Secs. 27, 28, 29, 32, 33 and 34.
Tps. 1, 2, and 3 S., R. 22 W., unsurveyed.
T. 4 S., R. 22 W.,
Secs. 1 to 30, inclusive;
Sec. 36.

The area described including both public and non-public lands aggregate approximately 892,570 acres.

This order shall take precedence over, but not otherwise affect, (1) the order of July 30, 1941, of the Secretary of the Interior establishing Arizona Grazing District No. 3, and (2) the orders of January 31, 1903, October 6, 1921, and March 14, 1929, of the Secretary of the Interior and the order of May 5, 1950 of the Bureau of Reclamation withdrawing lands for Reclamation purposes so far as such orders affect any of the above-described lands: *Provided, however*, That the Bureau of Reclamation shall have the right to construct and maintain storm water protective and drainage works on the lands withdrawn for reclamation purposes, and the Bureau of Reclamation or its permittees shall have the right to search for and remove construction materials on the lands withdrawn for reclamation purposes, subject to the prior written approval of the Commanding Officer of the Yuma Test Station.

It is intended the lands described herein shall be returned to the administration of the Department of the Interior when they are no longer needed for the purpose for which they are reserved.

R. D. SEARLES,
Acting Secretary of the Interior.

JULY 1, 1952.

[F. R. Doc. 52-7383; Filed, July 7, 1952; 8:45 a. m.]

[Public Land Order 849]

FLORIDA

RESERVING PUBLIC LAND FOR USE OF THE DEPARTMENT OF THE AIR FORCE FOR MILITARY PURPOSES AND REVOKING PUBLIC LAND ORDER NO. 267 OF MARCH 16, 1945

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public land in Florida is hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved for the use of the Department of the Air Force for military purposes:

TALLAHASSEE MERIDIAN

T. 32 S., R. 40 E.,
Sec. 20, lot 1, the east ten acres, as shown on plat of survey approved December 26, 1859.

It is intended that this land shall be returned to the administration of the Department of the Interior when it is no longer needed for the purpose for which it is reserved.

Public Land Order No. 267 of March 16, 1945, reserving the above-described land for the use of the Navy Department for aviation purposes, is hereby revoked.

R. D. SEARLES,
Acting Secretary of the Interior.

JULY 1, 1952.

[F. R. Doc. 52-7384; Filed, July 7, 1952; 8:46 a. m.]

[Public Land Order 850]

ALASKA

RESERVING PUBLIC LAND FOR USE OF DEPARTMENT OF THE ARMY IN CONNECTION WITH THE ALASKA COMMUNICATION SYSTEM

By virtue of the authority vested in the President by the act of March 12, 1914, 38 Stat. 305, 307 (48 U. S. C. 303), and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public land is hereby withdrawn from sale or disposal and reserved for the use of the Department of the Army in connection with the Alaska Communication System:

FEDERAL ADDITION TO SEWARD TOWN SITE

Lot 3 block 3 as shown on plat of survey approved May 22, 1916, by the Commissioner of the General Land Office.

It is intended that the land described shall be returned to the administration of the Department of the Interior when it is no longer needed for the purpose for which it is reserved.

R. D. SEARLES,
Acting Secretary of the Interior.

JULY 1, 1952.

[F. R. Doc. 52-7385; Filed, July 7, 1952; 8:46 a. m.]

[Public Land Order 851]

NEW MEXICO

WITHDRAWING PUBLIC LAND FOR USE OF DEPARTMENT OF STATE IN CONNECTION WITH RIO GRANDE CANALIZATION PROJECT

By virtue of the authority vested in the President by the act of May 13, 1924, 43 Stat. 118, as amended by the act of August 19, 1935, 49 Stat. 660 (27 U. S. C. 277c) and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described land in New Mexico is hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved for the use of the Department of State in connection with the Rio Grande Canalization Project:

NEW MEXICO PRINCIPAL MERIDIAN

T. 17 S., R. 4 W., Sec. 33.

The area described contains 640 acres.

This order shall be subject to the order of April 8, 1935, of the Secretary of the Interior establishing New Mexico Grazing District No. 4, so far as such order affects the above-described land.

The Department of State and its permittees shall exercise reasonable care to avoid creating unnecessary hazards to livestock using the land.

It is intended that the land described shall be returned to the administration of the Department of the Interior when it is no longer needed for the purpose for which it is reserved.

R. D. SEARLES,
Acting Secretary of the Interior.

JULY 1, 1952.

[F. R. Doc. 52-7387; Filed, July 7, 1952; 8:47 a. m.]

[Public Land Order 852]

UTAH

WITHDRAWING PUBLIC LANDS FROM MINERAL LOCATION

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the public lands within the following-described areas in Utah are hereby withdrawn from prospecting, location, entry, or purchase under the mining laws, and reserved under the jurisdiction of the Secretary of the Interior for administration or disposal as an automobile racing and testing ground:

SALT LAKE MERIDIAN

T. 2 N., R. 16 W.,
Sec. 31.
T. 1 N., R. 17 W.,
Secs. 19, 20 and 21;
Sec. 22, SW¼;
Sec. 27, W½E½ and W½;
Secs. 28, 29, 30, 31, and 33;
Sec. 34, W½E½ and W½.
T. 1 N., R. 18 W.,
Sec. 24, SE¼SE¼;
Sec. 25, E½.
T. 1 S., R. 17 W.,
Sec. 4, lots 2, 3, and 4, S½NW¼, and W½SW¼;
Secs. 5 and 6;
Sec. 7, N½NE¼;
Sec. 8, N½NW¼.

The areas described, including both public and non-public lands, aggregate 8,927.41 acres.

R. D. SEARLES,
Acting Secretary of the Interior.

JULY 1, 1952

[Public Land Order 853]

MICHIGAN

POWER-SITE RESTORATION NO. 504, PARTIALLY REVOKING EXECUTIVE ORDER OF JANUARY 30, 1915, ESTABLISHING POWER-SITE RESERVE NO. 470

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U. S. C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

The Executive order of January 30, 1915, reserving certain lands in Michigan for water-power sites as Power-Site Reserve No. 470, is hereby revoked so far as it affects the following-described lands:

MICHIGAN MERIDIAN

T. 26 N., R. 1 E.,
Sec. 5, N½NW¼.
T. 26 N., R. 3 E.,
Sec. 9, E½NE¼.
T. 26 N., R. 4 E.,
Sec. 14, NW¼.
T. 25 N., R. 5 E.,
Sec. 3, W½NE¼ and NE¼NW¼;
Sec. 4, W½NE¼;
Sec. 11, N½NE¼ and NE¼NW¼;
Sec. 27, W½SE¼;
Sec. 34, NW¼NE¼.
T. 26 N., R. 5 E.,
Sec. 27, SW¼NW¼.
T. 26 N., R. 1 W.,
Sec. 2, SE¼NW¼ and W½SE¼;
Sec. 4, NW¼SW¼;
Sec. 10, SW¼NW¼ and NW¼SW¼.

The areas described, including both public and non-public lands, aggregate 1,060.33 acres.

The lands in sec. 5, T. 26 N., R. 1 E., and in secs. 2 and 4, T. 26 N., R. 1 W., are patented lands. The remaining lands are within the Huron National Forest.

Effective on the date of publication of this order in the FEDERAL REGISTER, the public lands affected by this order shall be subject to application by the State of Michigan for rights-of-way for public highways or as a source of material for the construction and maintenance of such highways pursuant to section 24 of the Federal Power Act as amended (16 U. S. C. 1946 ed., Supp. IV, 818).

This order shall not otherwise affect the status of the lands until 10:00 a. m. on the ninety-first day after the date of this order.

This order shall be known as Power-Site Restoration No. 504.

R. D. SEARLES,
Acting Secretary of the Interior.

JULY 1, 1952.

TITLE 45—PUBLIC WELFARE

Chapter V—War Claims Commission

Subchapter A—Rules of Practice

PART 501—PRACTICE BEFORE THE COMMISSION

SCHEDULE OF FEES

Section 501.7 is hereby revised to read as follows:

§ 501.7 *Schedule of fees.* The schedule of fees is set forth as follows:

For assisting internees or evaders in the preparation and filing of an application for detention benefits * * * not in excess of 1 percent of the total amount awarded.

For assisting prisoners of war in the preparation and filing of an application for compensation * * * not in excess of 1 percent of the total amount awarded.

For assisting survivors of internees, evaders, or prisoners of war in the preparation and filing of an application for either detention benefits or compensation * * * not in excess of 2 percent of the total amount awarded.

For securing additional oral or written testimony, or in the preparation and presentation of an appeal under sections 5 and 6 of the act the Commission may authorize an additional fee, but said additional fee plus the fee previously allowed will not exceed 10 percent of the total amount awarded.

For assisting religious organizations or the personnel of religious organizations in the preparation and filing of an application for reimbursement under section 7 (a) of the act, not in excess of:

10 percent on the first $1,000 awarded.
7½ percent on the next $9,000 awarded.
5 percent on the next $40,000 awarded.
1 percent on all over $50,000 awarded.

For services rendered to religious organizations or the personnel of religious organizations in presenting a claim for compensation under section 7 (b) through (g) of the act, a fee agreed upon by the parties, but not in excess of:

10 percent on the first $100,000 awarded.
6 percent on the next $400,000 awarded.
4 percent on all over $500,000 awarded.

(Sec. 2, 62 Stat. 1240; 50 U. S. C. App. Sup. 2001)

DANIEL R. CLEARY,
Chairman, War Claims Commission.

[F. R. Doc. 52-7415; Filed, July 7, 1952; 8:56 a. m.]

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter C—Management of Wildlife Conservation Areas

PART 33—CENTRAL REGION

SUBPART—SQUAW CREEK NATIONAL WILDLIFE REFUGE, MISSOURI

STATE FISHING LAWS

Basis and purpose. On the basis of observations and reports of field representatives of the Fish and Wildlife Service, it has been determined that the existing prohibition against the use of trotlines for fishing in the waters of the Squaw Creek National Wildlife Refuge can be relaxed without interfering with the primary purpose for which the refuge was established.

Inasmuch as the following regulation is a relaxation of the existing restrictions regarding fishing within the refuge, publication prior to the effective date is not required (60 Stat. 237; 5 U. S. C. 1001 et seq.).

Effective immediately upon publication in the FEDERAL REGISTER, § 33.213 is revised to read as follows:

§ 33.213 *State fishing laws.* Any person while fishing within any areas of the refuge open to fishing must comply with all applicable State laws and regulations.

(Sec. 10, 45 Stat. 1224; 16 U. S. C. 715i)

Dated: July 1, 1952.

CLARENCE COTTAM,
Acting Director.

[F. R. Doc. 52-7382; Filed, July 7, 1952; 8:45 a. m.]

PROPOSED RULE MAKING

INTERSTATE COMMERCE COMMISSION

[49 CFR Parts 71–78]

[Docket No. 3666]

TRANSPORTATION OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

MISCELLANEOUS AMENDMENTS

JUNE 27, 1952.

The Commission is in receipt of applications for early amendment of the above-entitled regulations insofar as they apply to shippers in the preparation of articles for transportation, and to all carriers by rail and highway, as published in orders pursuant to section 835, of the Criminal Code, and Part II of the Interstate Commerce Act.

Application for these amendments ordinarily would be considered at our next hearing in this docket. It appears, however, that the proposed amendments have been the subject of exchanges and study by interested parties, in which substantial agreement has been reached, and it is proposed that the applications be disposed of by modified procedure. The reasons for the proposed amendments are shown in the appendix as set forth below.

Any party desiring to be heard upon any of the proposed amendments shall advise the Commission in writing within 20 days from the date of this notice; otherwise, the Commission may proceed to investigate and determine the matters involved in the application, or may suspend action pending formal hearing in this docket.

[SEAL] W. P. BARTEL, *Secretary.*

PART 71—GENERAL INFORMATION AND REGULATIONS

Amend § 71.12 paragraph (b) (15 F. R. 8262, Dec. 2, 1950) (49 CFR 71.12, 1950 Rev.) to read as follows:

§ 71.12 *Export shipments by domestic carriers by rail and motor vehicles.* • • •

(b) Except for the requirements of §§ 77.817 and 77.823 of this chapter, the provisions of Parts 71–78 of this chapter do not apply to such transportation by motor vehicle or water as may be necessary to effect transfer of export shipments from place of shipment to other places within the same port area or delivery to a water carrier within the same port area (including contiguous harbors). Further transportation of such export shipments by connecting water carrier shall be subject to the regulations prescribed by the Commandant of the Coast Guard.

PART 72—COMMODITY LIST OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES CONTAINING THE SHIPPING NAME OR DESCRIPTION OF ALL ARTICLES SUBJECT TO PARTS 71–78 OF THIS CHAPTER

Amend § 72.5 (15 F. R. 8263, 8265, 8266, 8267, 8268, 8269, 8270, 8271, 8272, 8273, Dec. 2, 1950) (16 F. R. 11775, Nov. 21, 1951) (49 CFR 1950 Rev., 1951 Supp., 72.5) as follows:

§ 72.5 *List of explosives and other dangerous articles.* (a) • • •

Article	Classed as—	Exemptions and packing (see sec.)	Label required if not exempt	Maximum quantity in 1 outside container by rail express
Change				
Dimethylamine, anhydrous	F. G	73.302, 73.306, 73.314, 73.315.	Red Gas	300 pounds.
Grenades, hand or rifle, with gas, smoke or incendiary material but without bursting charges.	See §§ 73.88 (d), 73.330, 73.350.			
Magnesium scrap (borings, chunks, clippings, shavings, sheets or turnings).	F. S	73.153, 73.220	Yellow	100 pounds.
Monomethylamine, anhydrous	F. G	73.302, 73.306, 73.314, 73.315.	Red Gas	300 pounds.
Perchloro-methyl-mercaptan	Pois. B	73.345, 73.360	Poison	10 pounds.
Trimethylamine, anhydrous	F. G	73.302, 73.306, 73.314, 73.315.	Red Gas	300 pounds.
Add				
Aldrin	Pois. B	73.376	Poison	200 pounds.
Aldrin mixture, liquid	Pois. B	73.361	Poison	55 gallons.
Aldrin mixture, dry, with more than 20 percent aldrin.	Pois. B	73.376	Poison	200 pounds.
Carbon, activated. See Charcoal, activated.				
Chlorate and magnesium chloride mixture	Oxy. M	73.153, 73.229	Yellow	100 pounds.
Cyclotrimethylenetrinitramine, desensitized. See High explosives.				
Cyclotrimethylenetrinitramine, wet with not less than 10 percent of water. See High explosives.				
Illuminating projectiles fuzed or not fuzed, with expelling charges. See Special fireworks.				
Isopropyl percarbonate, stabilized	Cor. L	No exemption, 73.282.	White	Not accepted.
Isopropyl percarbonate, unstabilized	F. S	No exemption, 73.218.	Yellow	Not accepted.
Pressurized flammable liquid, n. o. s	F. L	No exemption, 73.142.	Red	10 gallons.
Projectiles, illuminating, incendiary or smoke with expelling charge but without bursting charge. See Special fireworks.				
Smoke projectiles with bursting charges. See Explosive projectile.				
Smoke projectiles with expelling charge but without bursting charge. See Special fireworks.				
Cancel				
Carbopropoxide, stabilized	Cor. L	No exemption, 73.282.	White	Not accepted.
Carbopropoxide, unstabilized	F. S	No exemption, 73.218.	Yellow	Not accepted.
Illuminating projectiles fuzed and with expelling charges. See Explosive projectiles.				
Illuminating projectiles not fuzed and without expelling charges. See Special fireworks.				
Projectiles, illuminating, incendiary or smoke. See § 73.56 and Special fireworks.				

PART 73—SHIPPERS

Amend § 73.9 paragraph (a) (15 F. R. 8276, Dec. 2, 1950) (49 CFR 73.9, 1950 Rev.) to read as follows:

§ 73.9 *Import and export shipments.* (a) Import shipments of explosives and other dangerous articles offered in the United States in original packages for transportation by carriers by rail freight, rail express, motor vehicle, or water must comply with all requirements of the regulations in Parts 71–78 of this chapter. The importer must furnish with the order to the foreign shipper, and also to the forwarding agent at the port of entry, full and complete information as to the packing, marking, labeling, and other requirements, as prescribed in Parts 71–78 of this chapter. The forwarding agent must file with the initial carrier in the United States a properly certified shipping order or other shipping paper as prescribed in this part. Except for the requirements of §§ 77.817 and 77.823 of this chapter, the provisions of Parts 71–78 of this chapter do not apply to such transportation by motor vehicle or water as may be necessary to effect transfer of import shipments from place of discharge to other places within the same port area or delivery to a water carrier within the same port area (including contiguous harbors). Further transportation of such import shipments by connecting water carrier shall be subject to the regulations prescribed by the Commandant of the Coast Guard.

• • • • • • •

SUBPART A—PREPARATION OF ARTICLES FOR TRANSPORTATION BY CARRIERS BY RAIL FREIGHT, RAIL EXPRESS, HIGHWAY, OR WATER

1. Amend § 73.29 paragraphs (c) and (d) (15 F. R. 8277, Dec. 2, 1950) (49 CFR 73.29, 1950 Rev.) to read as follows:

§ 73.29 *Empty containers.* • • •

(c) Carboys previously used for the shipment of acids, corrosive liquids, or alkaline caustic liquids when offered to carriers for transportation as "empty" carboys, must have been thoroughly (completely) drained and securely stoppered. Whenever practicable they should not be loaded with valuable or perishable freight.

(d) Empty bottles previously used for the shipment of acids, corrosive liquids, or alkaline caustic liquids must be thoroughly (completely) drained and securely stoppered.

• • • • • • •

2. Amend § 73.33 paragraph (o) (15 F. R. 8282, Dec. 2, 1950) (49 CFR 73.33, 1950 Rev.) to read as follows:

§ 73.33 *Qualification, maintenance, and use of cargo tanks.* • • •

(o) Each outlet of cargo tanks used for the transportation of liquefied compressed gases, except carbon dioxide, shall be provided with an approved suitable automatic excess-flow valve or in lieu thereof may be fitted with an approved automatic quick-closing internal valve. These valves shall be located inside the tank or at a point outside the tank where the line enters or leaves the tank. The valve seat shall be located inside the tank or shall be located within a welded flange or its companion flange, or within a nozzle, or within a coupling. The installation shall be made in such a manner as reasonably to assure that any undue strain which causes failure requiring functioning of the valve shall cause failure in such a manner that it will not impair the operation of the valve.

(Exception remains unchanged.)

(Subparagraphs (1) and (2) remain unchanged.)

(3) Filling and discharge lines shall be provided with manually operated shut-off valves located as close to the tank as is practicable, except where an automatic quick-closing internal valve is used, in which case the manually operated shut-off valve may be located anywhere in the line ahead of the hose connection. The use of so-called "Stop-Check" valves to satisfy with one valve the requirements of this rule and of paragraph (o) of this section is forbidden.

• • • • • • •

3. Amend § 73.34 Exception (k) (10) (15 F. R. 8284, Dec. 2, 1950) (49 CFR 73.34, 1950 Rev.) to read as follows:

§ 73.34 *Qualification, maintenance, and use of cylinders.* • • •

(k) • • •

(10) ICC–9 cylinders must be tested in accordance with the requirements of §§ 78.63–13 (a) and 78.63–17 (a) (2) of this chapter.

• • • • • • •

SUBPART B—EXPLOSIVES; DEFINITIONS AND PREPARATION

1. Amend § 73.65 paragraphs (b) and (c) (15 F. R. 8289, Dec. 2, 1950) (49 CFR 73.65, 1950 Rev.) to read as follows:

§ 73.65 *High explosives with no liquid explosive ingredient nor any chlorate.* • • •

(b) Ammonium picrate, nitroguanidine, nitrourea, urea nitrate, picric acid, tetryl, trinitroresorcinol, trinitrotoluene, pentolite and cyclotrimethylenetrinitramine (desensitized), in dry condition, in addition to containers prescribed in paragraph (a) (1) to (5) of this section, may be shipped in containers complying with the following specifications:

(No change in subparagraphs (1) and (2).)

• • • • • • •

(c) Ammonium picrate, picric acid, urea nitrate, trinitrobenzene, trinitroresorcinol, trinitrotoluene and cyclotrimethylenetrinitramine when wet with not less than 10 pounds of water to each 90 pounds of dry material must be shipped in containers complying with the following specifications:

(1) Spec. 10B (§ 78.156 of this chapter). Wooden barrels or kegs. Not over 50 gallons nominal capacity.

(2) (See § 73.192 for shipments of wet ammonium picrate, wet picric acid and wet urea nitrate not in excess of 16 ounces and § 73.193 for shipment of wet picric acid and wet urea nitrate not in excess of 25 pounds.) (See § 73.212 for shipments of wet trinitrobenzene and wet trinitrotoluene not in excess of 16 ounces.)

(3) Spec. 21A or 21B (§§ 78.222 or 78.223 of this chapter.) Fiber drums. Authorized only for cyclotrimethylenetrinitramine wet with not less than 10 pounds of water to each 90 pounds of dry material in inside containers which must be bags made of at least 10-ounce cotton duck, rubber or rubberized cloth and securely closed. The dry weight of cyclotrimethylenetrinitramine in one container must not exceed 200 pounds. These bags containing the cyclotrimethylenetrinitramine must then be placed in a rubber bag, rubberized cloth bag or bag made of suitable watertight material which must be securely closed and then placed in the fiber drum. If shipment of cyclotrimethylenetrinitramine is to take place at a time freezing weather is to be anticipated, it must be wet with a mixture of denatured ethyl alcohol and water of such proportions that freezing will not occur in transit.

• • • • • • •

2. Amend § 73.69 paragraph (c) (15 F. R. 8291, Dec. 2, 1950) (49 CFR 73.69, 1950 Rev.) to read as follows:

§ 73.69 *Detonating fuzes, boosters, or other detonating fuze parts containing an explosive.* • • •

(c) Each outside package must be plainly marked "Detonating Fuzes—Handle Carefully—Do Not Store or Load With Any High Explosive" or "Boosters (Explosive)—Handle Carefully."

• • • • • • •

3. Amend § 73.88 paragraph (d) (15 F. R. 8293, Dec. 2, 1950) (49 CFR 73.88, 1950 Rev.) to read as follows:

§ 73.88 *Definition of class B explosives.* • • •

(d) Special fireworks are manufactured articles designed primarily for the purpose of producing visible or audible pyrotechnic effects by combustion or explosion. (See § 73.100 (r) for common fireworks.) Examples are toy torpedoes, railway torpedoes, some firecrackers and salutes, exhibition display pieces, aeroplane flares, illuminating projectiles, incendiary projectiles and smoke projectiles fuzed or unfuzed and containing expelling charges but without bursting charges, hand or rifle grenades with ignition elements but not containing bursting charges, flash powders in inner units not exceeding 2 ounces each, flash sheets in interior packages, flash powder or spreader cartridges containing not over 72 grains of flash powder each (see § 73.60 for shipments made as low explosives), and flash cartridges, consisting of a paper cartridge shell, small-arms primer, and flash composition, not exceeding 180 grains all assembled in one piece. Fireworks must be in a finished state, exclusive of mere ornamentation, as supplied to the retail trade and must be so constructed and packed that loose pyrotechnic composition will not be present in packages in transportation.

• • • • • • •

4. Amend § 73.100 paragraph (e) (15 F. R. 8295, Dec. 2, 1950) (49 CFR 73.100, 1950 Rev.) to read as follows:

§ 73.100 *Definition of class C explosives.* • • •

(e) Percussion fuzes, combination fuzes, and time fuzes are devices designed to ignite powder charges of ammunition or to initiate an intermediate charge (booster) in projectiles, bombs, etc. When such fuzes are assembled with booster charges they are properly described as "detonating fuzes" (see § 73.53 (g) (2)).

• • • • • • •

SUBPART C—FLAMMABLE LIQUIDS; DEFINITION AND PREPARATION

1. Add paragraph (b) to § 73.115 (15 F. R. 8297, Dec. 2, 1950) (49 CFR 73.115, 1950 Rev.) to read as follows:

§ 73.115 *Flammable liquids; definition.* • • •

(b) A pressurized flammable liquid for the purpose of Parts 71–78 of this chapter is any mixture other than a compressed gas in which the gas is used as an expellant, if any one of the following occurs:

(1) Using the Bureau of Explosives' Flame Projection Apparatus (see Note 1), the flame projects more than 18 inches beyond the ignition source with valve opened fully, or, the flame flashes back and burns at the valve with any degree of valve opening.

(2) Using the Bureau of Explosives' Open Drum Apparatus (see Note 1), there is any significant propagation of flame away from the ignition source.

(3) Using the Bureau of Explosives' Closed Drum Apparatus (see Note 1), there is any explosion of the vapor-air mixture in the drum.

NOTE 1. A description of the Bureau of Explosives' Flame Projection Apparatus, Open Drum Apparatus, Closed Drum Apparatus, and method of tests may be procured from the Bureau of Explosives, 30 Vesey Street, New York 7, New York.

2. Add paragraph (c) (22) to § 73.118 (15 F. R. 8298, Dec. 2, 1950) (49 CFR 73.118, 1950 Rev.) to read as follows:

§ 73.118 *Exemptions for flammable liquids.* • • •

(c) • • •

(22) Pressurized flammable liquids.

3. Amend § 73.119 paragraph (a) (12) (16 F. R. 5323, June 6, 1951) (49 CFR 1950 Rev., 1951 Supp., 73.119) to read as follows:

§ 73.119 *Flammable liquids not specifically provided for.* (a) • • •

(12) Spec. 103, 103W, 103AL–W, 104, 104W, 104A, 104A–W, 104A–AL–W, 105A300, 105A300W, 105A400, 105A400W, 105A500, 105A500W, 105A600, 105A600W, ARA–II,[1] ARA–III,[1] ARA–IV,[1] or ARA–IV–A[2] (§§ 78.265, 78.280, 78.291, 78.269,

78.284, 78.270, 78.285, 78.294, 78.271, 78.286, 78.272, 78.287, 78.273, 78.288, 78.274 or 78.289 of this chapter). Tank cars: For cars equipped with expansion domes, manhole closures must be so designed that pressure will be released automatically by starting the operation of removing the manhole cover. (See § 73.432 for shipping instructions.)

• • • • • •

4. Add paragraph (a) (3) to § 73.127 (15 F. R. 8301, Dec. 2, 1950) (49 CFR 73.127, 1950 Rev.) to read as follows:

§ 73.127 *Nitrocellulose or collodion cotton, fibrous, or nitrostarch, wet; colloided nitrocellulose, granular or flake, and lacquer base or lacquer chips, wet.* (a) • • •

(3) Spec. 42F (§ 78.110 of this chapter). Aluminum barrels or drums. Authorized only for nitrocellulose or collodion cotton, fibrous, wet, or colloided nitrocellulose, granular or flake, wet.

• • • • • •

5. Add § 73.142 (15 F. R. 8302, Dec. 2, 1950) (49 CFR 73.142, 1950 Rev.) to read as follows:

§ 73.142 *Pressurized flammable liquids.* (a) Pressurized flammable liquids must be packed in specification containers as follows:

(1) Cylinders as prescribed for any compressed gas except acetylene.

(2) Spec. 15A, 15B, 15C, 16A, or 19A (§§ 78.168, 78.169, 78.170, 78.185, or 78.190 of this chapter). Wooden boxes with inside metal containers not over 30 cubic inches (16.6 fluid ounces) capacity each. Inside metal containers charged as for shipment must be capable of having contents heated to 130° F. without leakage or permanent distortion of the container.

(3) Spec. 12B (§ 78.205 of this chapter). Fiberboard boxes with inside metal containers not over 30 cubic inches (16.6 fluid ounces) capacity each. Inside metal containers charged as for shipment must be capable of having contents heated to 130° F. without leakage or permanent distortion of the container.

SUBPART D—FLAMMABLE SOLIDS AND OXIDIZING MATERIALS; DEFINITION AND PREPARATION

1. Amend § 73.153 paragraph (c) (8) (15 F. R. 8303, Dec. 2, 1950) (49 CFR 73.153, 1950 Rev.) to read as follows:

§ 73.153 *Exemptions for flammable solids and oxidizing materials.* • • •

(c) • • •

(8) Isopropyl percarbonate, unstabilized.

• • • • • •

2. Amend § 73.158 paragraph (a) (1) (15 F. R. 8304, Dec. 2, 1950) (49 CFR 73.158, 1950 Rev.) to read as follows:

§ 73.158 *Benzoyl peroxide, dry, lauroyl peroxide, dry, chlorobenzoyl peroxide (para), dry, or succinic acid peroxide, dry.* (a) • • •

(1) Spec. 15A or 15B (§§ 78.168 or 78.169 of this chapter). Wooden boxes, with inside fiber containers securely closed by taping or gluing, not over 1 pound capacity each. Each inside container surrounded by asbestos or fire-resisting cushioning material which will protect contents with equal efficiency; net weight in outside container must not exceed 50 pounds, except that for lauroyl peroxide, dry, net weight not over 100 pounds is authorized.

• • • • • •

3. Amend § 73.162 paragraph (a) (1) (15 F. R. 8304, Dec. 2, 1950) (49 CFR 73.162, 1950 Rev.) to read as follows:

§ 73.162 *Charcoal.* (a) • • •

(1) Charcoal, activated or carbon, activated.

• • • • • •

4. Add paragraph (a) (6) to § 73.184 (15 F. R. 8308, Dec. 2, 1950) (49 CFR 73.184, 1950 Rev.) to read as follows:

§ 73.184 *Nitrocellulose or collodion cotton, wet, or nitrocellulose, colloided, granular, or flake, wet, or nitrostarch, wet, or nitroguanidine, wet.* (a) • • •

(6) Spec. 42F (§ 78.110 of this chapter). Aluminum barrels or drums. Authorized only for introcellulose or collodion cotton, wet, or nitrocellulose, colloided, granular or flake, wet.

• • • • • •

5. Amend § 73.193 paragraph (a) (1) (15 F. R. 8309, Dec. 2, 1950) (49 CFR 73.193, 1950 Rev.) to read as follows:

§ 73.193 *Picric acid or urea nitrate, wet.* (a) • • •

(1) Spec. 15A (§ 78.168 of this chapter). Wooden box with inside containers of tightly closed glass or earthenware, cushioned, in outside container. The net weight in an outside package must not exceed 25 pounds dry weight. (See § 73.65 (e) for shipment of wet picric acid and wet urea nitrate in excess of 25 pounds, and § 73.192 for exemption up to 16 ounces.)

6. Amend entire § 73.218 (15 F. R. 8311, Dec. 2, 1950) (49 CFR 73.218, 1950 Rev.) to read as follows:

§ 73.218 *Isopropyl percarbonate, unstabilized.* (a) Isopropyl percarbonate, unstabilized, must be packed in specification containers as follows:

(1) Spec. 15A, 15B, 15C, 16A, or 19A (§§ 78.168, 78.169, 78.170, 78.185, or 78.190 of this chapter). Wooden boxes with glass or earthenware inside containers of not over 2 gallons capacity each which must be maintained at a temperature below 0° F. Shipments are authorized for transportation by carrier by motor vehicle only.

7. Amend entire § 73.220 (15 F. R. 8311, Dec. 2, 1950) (49 CFR 73.220, 1950 Rev.) to read as follows:

§ 73.220 *Magnesium scrap (borings, chunks, clippings, shavings, sheets, or turnings).* (a) Magnesium scrap consisting of borings, shavings, or turnings, when shipped in carloads or truckloads, must be packed in tightly and securely closed metal barrels, wooden barrels, metal pails, or four-ply paper bags. In less-than-carload or less-than-truckload quantities it must be packed in tightly and securely closed metal drums, metal pails, or wooden barrels.

(b) Magnesium scrap consisting of chunks, clippings, or sheets may be shipped in bulk in carload or truckload quantities. Cars must be tight boxcars or tightly closed steel or wood covered gondola cars and trucks or trailers must have closed or completely covered bodies.

(c) Magnesium scrap consisting of chunks, clippings, or sheets in tightly and securely closed metal drums, wooden barrels, or wooden boxes is exempt from specification packaging, marking, or labeling requirements.

8. Amend § 73.229 heading and introductory text of paragraph (a), and paragraph (c) (15 F. R. 8312, Dec. 2, 1950) (49 CFR 73.229, 1950 Rev.) to read as follows:

§ 73.229 *Chlorate and borate mixtures and chlorate and magnesium chloride mixtures.* (a) Chlorate and borate mixtures and chlorate and magnesium chloride mixtures when containing no other ingredient must be packed as follows:

• • • • • •

(c) Chlorate and borate mixtures and chlorate and magnesium chloride mixtures containing no other ingredient and containing less than 50 percent chlorate, packed in strong tight metal or fiber drums or in wooden boxes with tight inside metal containers are exempt from specification packaging, marking, and labeling requirements for transportation by rail freight or highway.

SUBPART E—ACIDS AND OTHER CORROSIVE LIQUIDS; DEFINITION AND PREPARATION

1. Amend § 73.244 paragraph (c) (13) (15 F. R. 8313, Dec. 2, 1950) (49 CFR 73.244, 1950 Rev.) to read as follows:

§ 73.244 *Exemptions for acids and other corrosive liquids.* • • •

(c) • • •

(13) Isopropyl percarbonate, stabilized.

• • • • • •

2. Add paragraph (a) (11) to § 73.245 (15 F. R. 8313, Dec. 2, 1950) (49 CFR 73.245, 1950 Rev.) to read as follows:

§ 73.245 *Acids or other corrosive liquids not specifically provided for.* (a) • • •

(11) Spec. 43A (§ 78.18 of this chapter). Rubber drums.

3. Amend § 73.262 paragraph (a) (1) (16 F. R. 11778, Nov. 21, 1951) (49 CFR 1950 Rev., 1951 Supp., 73.262) to read as follows:

§ 73.262 *Hydrobromic acid.* (a) • • •

(1) Spec. 1A, 1C, 1D, or 1E (§§ 78.1, 78.3, 78.4, or 78.7 of this chapter). Carboys in boxes, kegs or plywood drums.

• • • • • •

4. Add paragraph (a) (16) to § 73.264 (15 F. R. 8317, Dec. 2, 1950) (49 CFR 73.264, 1950 Rev.) to read as follows:

§ 73.264 *Hydrofluoric acid.* (a) • • •

(16) Spec. 1F (§ 78.10 of this chapter). Polyethylene carboys. Authorized for acid not over 60 percent strength.

• • • • • •

5. Amend § 73.265 paragraph (a) (2) (15 F. R. 8318, Dec. 2, 1950) (49 CFR 73.265, 1950 Rev.) to read as follows:

§ 73.265 *Hydrofluosilicic acid.* (a) • • •

(2) Spec. 11A or 11B (§§ 78.160 or 78.161 of this chapter). Wooden barrels or kegs with inside containers of natural rubber or ceresine.

• • • • • •

6. Add paragraph (a) (9) to § 73.271 (15 F. R. 8321, Dec. 2, 1950) (49 CFR 73.271, 1950 Rev.) to read as follows:

§ 73.271 *Phosphorus oxychloride, phosphorus trichloride, and thiophosphoryl chloride.* (a) • • •

(9) Spec. 103A or 103A–W (§§ 78.266 or 78.281 of this chapter). Tank cars. Authorized for phosphorus oxychloride only. Spec. 103A tanks must be of steel at least 10 percent nickel clad and Spec. 103A–W tanks must be of steel at least 20 percent nickel clad.

• • • • • •

7. Amend § 73.282 Heading and introductory text of paragraph (a) (15 F. R. 8322, Dec. 2, 1950) (49 CFR 73.282, 1950 Rev.) to read as follows:

§ 73.282 *Isopropyl percarbonate, stabilized.* (a) Isopropyl percarbonate, stabilized, must be packed in specification containers as follows:

• • • • • •

SUBPART F—COMPRESSED GASES; DEFINITION AND PREPARATION

1. Amend § 73.300 entire paragraph (b) (15 F. R. 8324, Dec. 2, 1950) (49 CFR 73.300, 1950 Rev.) to read as follows:

§ 73.300 *Compressed gases; definition.* • • •

(b) Any compressed gas as defined in paragraph (a) of this section shall be classified as a flammable compressed gas if any one of the following occurs:

(1) If either a mixture of 13 percent or less (by volume) with air forms a flammable mixture (Note 2) or the flammability range (Note 2) with air is greater than 12 percent regardless of the lower limit.

(2) Using the Bureau of Explosives' Flame Projection Apparatus (see Note 3), the flame projects more than 18 inches beyond the ignition source with valve opened fully, or, the flame flashes back and burns at the valve with any degree of valve opening.

(3) Using the Bureau of Explosives' Open Drum Apparatus (see Note 3), there is any significant propagation of flame away from the ignition source.

(4) Using the Bureau of Explosives' Closed Drum Apparatus (see Note 3), there is any explosion of the vapor-air mixture in the drum.

NOTE 1. American Society for Testing Materials Method of Test for Vapor-Pressure of Petroleum Products (D–323).

NOTE 2. These limits shall be determined at atmospheric temperature and pressure. The method of sampling and the test procedure shall be acceptable to the Bureau of Explosives. The flammability range is defined as the difference between the minimum and maximum percentage by volume of the material in mixture with air that forms a flammable mixture.

NOTE 3. A description of the Bureau of Explosives' Flame Projection Apparatus, Open Drum Apparatus, Closed Drum Apparatus, and method of tests may be procured from the Bureau of Explosives, 30 Vesey Street, New York 7, New York.

2. Amend § 73.301 paragraph (g) (1) (15 F. R. 8324, Dec. 2, 1950) (49 CFR 73.301, 1950 Rev.) to read as follows:

§ 73.301 *General requirements.* • • •

(g) • • •

(1) For cylinders which are not marked to show service pressure, the authorized service pressures are as follows:

I. C. C. specification marking:	*Authorized service pressure (pounds per square inch gauge*
ICC–3	1,800
ICC–3E	1,800
ICC–4	300
ICC–8	250
ICC–25	300
ICC–33	450
ICC–38	250
ICC–9	200
ICC–40	200
ICC–41	200

• • • • • •

Kind of gas	Maximum permitted filling density (see Note 12) (percent)	Cylinders (see Note 11) marked as shown in this column must be used except as provided in Note 1 and § 73.34 (a) to (c)
Anhydrous ammonia	54	ICC–4; ICC–3A480; ICC–3AA480; ICC–3A480X; ICC–4A480; ICC–3.
Insecticide, liquefied gas. (See Note 8.)	§ 73.304 (a) and (b)	ICC–3A300; ICC–3AA300; ICC–3B300; ICC–4B300; ICC–4BA300; ICC–9; ICC–8; ICC–41.

• • • • • •

5. Amend § 73.315 paragraph (a) (1) Table and add Note 7 (15 F. R. 8330, Dec. 2, 1950) (49 CFR 73.315, 1950 Rev.) to read as follows:

§ 73.315 *Compressed gases in cargo tanks and portable tank containers.* (a) • • •

(1) • • •

Kind of gas	Maximum permitted filling density		Specification container required	
	Percent by weight (see Note 1)	Percent by volume (see par. (f) of this section)	Type (see Note 2)	Minimum design working pressure (psig)
Anhydrous ammonia	56	82 see Note 5	ICC–51, MC–330	265.
Anhydrous dimethylamine	59	See Note 7	ICC–51, MC–330	150.
Anhydrous monomethylamine	60	See Note 7	ICC–51, MC–330	150.
Anhydrous trimethylamine	57	See Note 7	ICC–51, MC–330	150.
Carbon dioxide	See par. (c) of this section.	95	ICC–51, MC–330	200; see Note 3.
Liquefied petroleum gas	See par. (b) of this section.	See par. (b) of this section.	ICC–51, MC–330	See subpar. (b) (1) of this section
Nitrous oxide	See par. (c) of this section.	95	ICC–51, MC–330	200; see Note 3.
Sulfur dioxide (tanks not over 1,200 gallons water capacity).	125	87.5	ICC–51, MC–330	150; see Note 4.
Sulfur dioxide (tanks over 1,200 gallons water capacity).	125	87.5	ICC–51, MC–330	125; see Note 4.
Sulfur dioxide (optional portable tank 1,000–2,000 pounds water capacity, fusible plug).	125	See Note 6	ICC–51	225.

• • • • • •

NOTE 7: Tanks must be filled by weight.

• • • • • •

SUBPART G—POISONOUS ARTICLES; DEFINITION AND PREPARATION

1. Amend § 73.353 paragraphs (a) (3), (a) (5) and (b) (17 F. R. 1562, Feb. 20, 1952) (16 F. R. 9378, Sept. 15, 1951) (49 CFR 1950 Rev., 1951 Supp., 73.353) to read as follows:

§ 73.353 *Methyl bromide.* (a) • • •

(3) Spec. 3A225, 3AA225, 3B225, 3E1800, 4A225, 4B225, or 4BA225 (§§ 78.36, 78.37, 78.38, 78.42, 78.49, 78.50, or 78.51 of this chapter). Metal cylinders of not over 125 pounds water capacity (nominal). Valves or other closing devices must be protected, to prevent injury in transit, by screw-on metal caps or by packing the cylinders in strong boxes or crates. Cylinders having a wall thickness of less than 0.08 inch must be packed in boxes or crates (see § 73.25).

(No change in Note 1.)

• • • • • •

(5) Spec. 104A, 104A–W, 105A300, 105A300–W, 105A400, 105A400W, 105A500, 105A500W, 105A600, 105A600W, 106A500, 106A500X, or 106A800 (§§ 78.270, 78.285, 78.271, 78.286, 78.272, 78.287, 78.273, 78.288, 78.274, 78.289, 78.275, or 78.276 of this chapter). Tank cars.

3. Add paragraph (b) (2) to § 73.306 (15 F. R. 8326, Dec. 2, 1950) (49 CFR 73.306, 1950 Rev.) to read as follows:

§ 73.306 *Liquefied gases, except gas in solution or poisonous gas.* • • •

(b) • • •

(2) Spec. 41 (§ 78.67 of this chapter). Cylinders in strong wooden or fiber boxes of such design as to protect valves from injury or accidental functioning under conditions incident to transportation. Each outside shipping container must be plainly marked "Inside containers comply with prescribed specifications".

• • • • • •

4. Amend the entry "'Anhydrous ammonia" and the entry "Insecticide, liquefied gas" in paragraph (a) Table, § 73.308 and cancel Note 9 (16 F. R. 9376, Sept. 15, 1951) (15 F. R. 8327, Dec. 2, 1950) (49 CFR 1950 Rev., 1951 Supp., 73.308) to read as follows:

§ 73.308 *Compressed gases in cylinders.* (a) • • •

(b) Outage must be sufficient to prevent tank car from becoming entirely filled with liquid at the following temperature: Spec. 104A, 104A–W, 105A300, 105A300W, 105A400, 105A400W, 105A500, 105A500W, 105A600, or 105A600W (§§ 78.270, 78.285, 78.271, 78.286, 78.272, 78.2[illegible], 78.273, 78.288, 78.274, or 78.289 of this chapter) at 105° F., spec. 106A500, 106A500X, or 106A800 (§§ 78.275 or 78.276 of this chapter) at 130° F.

• • • • • •

2. Add § 73.360 (15 F. R. 8336, Dec. 2, 1950) (49 CFR 73.360, 1950 Rev.) to read as follows:

§ 73.360 *Perchloro-methyl-mercaptan.* (a) Perchloro-methyl-mercaptan in any quantity must not be packed with any other article. When offered for transportation by carriers by rail freight, highway, or water must be packed in specification containers as follows:

(1) Spec. 11A or 11B (§§ 78.160 or 78.161 of this chapter). Wooden barrels or kegs, with inside containers which must be glass bottles not over 2 quarts capacity each, individually enclosed in tightly closed metal cans and cushioned therein with incombustible material. Net weight not over 100 pounds in one outside container.

(2) Spec. 15A, 15B, 15C, or 16A (§§ 78.168, 78.169, 78.170, or 78.185 of this chapter). Wooden boxes, with inside containers which must be glass bottles not over 2 quarts capacity each, individually enclosed in tightly closed metal cans and cushioned therein with incombustible material. Net weight not over 100 pounds in one outside container.

(3) Spec. 5H (§ 78.87 of this chapter). Lead-lined metal barrels or drums not over 33 gallons each.

3. Add § 73.361 (15 F. R. 8336, Dec. 2, 1950) (49 CFR 73.361, 1950 Rev.) to read as follows:

§ 73.361 *Aldrin mixtures, liquid.* (a) Aldrin mixtures, liquid, must be shipped in specification containers as follows:

(1) As prescribed in § 73.346.

(2) Spec. 6A, 6B, or 6C (§§ 78.97, 78.98, or 78.99 of this chapter). Metal barrels or drums. Authorized only for viscous mixtures or those which may become partially solid.

(3) Spec. 17C or 17H (§§ 78.115 or 78.118 of this chapter). Metal drums (single-trip). Drums with opening exceeding 2.3 inches in diameter authorized only for viscous mixtures or those which may become partially solid.

4. Amend entire § 73.376 (15 F. R. 8338, Dec. 2, 1950) (49 CFR 73.376, 1950 Rev.) to read as follows:

§ 73.376 *Aldrin and aldrin mixtures, dry.* (a) Aldrin and aldrin mixtures, dry, must be packed in specification containers as follows:

(1) As prescribed in § 73.365.

(b) Dry mixtures containing not more than 20 percent aldrin and no other material classed as dangerous under these regulations must be packed in specification containers as follows:

(1) As prescribed in paragraph (a) (1) of this section.

(2) Spec. 36A or 36B (§§ 78.230 or 78.233 of this chapter). Triplex bags.

(3) Spec. 44B, 44C, or 44D (§§ 78.236, 78.237, or 78.238 of this chapter). Multiwall paper bags.

SUBPART H—MARKING AND LABELING EXPLOSIVES AND OTHER DANGEROUS ARTICLES

1. Amend § 73.414 note to label in paragraph (a) (15 F. R. 8343, Dec. 2, 1950) (49 CFR 73.414, 1950 Rev.) to read as follows:

§ 73.414 *Radioactive materials labels.* (a) • • •

NOTE: This label must be duly executed by the shipper and the number of radiation units must be shown. For purposes of these regulations 1 unit equals 1 millioentgen per hour at 1 meter for hard gamma radiation or the amount of radiation which has the same effect on film as 1 mrhm or hard gamma rays of radium filtered by ½ inch of lead.

• • • • •

PART 74—CARRIERS BY RAIL FREIGHT

SUBPART D—UNLOADING FROM CARS

Amend wording of the 15th line on "Dangerous—Empty" placard in paragraph (c) § 74.563 (15 F. R. 8353, Dec. 2, 1950) (49 CFR 74.563, 1950 Rev.) to read as follows:

§ 74.563 *"Dangerous—Empty" placard.* • • •

(c) • • •

having a handle at least 36 inches long.

• • • • •

PART 77—SHIPMENTS MADE BY WAY OF COMMON, CONTRACT, OR PRIVATE CARRIERS BY PUBLIC HIGHWAY

SUBPART A—GENERAL INFORMATION AND REGULATIONS

1. Amend § 77.803 paragraph (b) (15 F. R. 8362, Dec. 2, 1950) (49 CFR 77.803, 1950 Rev.) to read as follows:

§ 77.803 *Import shipments by domestic carriers by motor vehicle.* • • •

(b) Import shipments transferred in port areas by motor vehicle: Except for the requirements of §§ 77.817 and 77.823, the provisions of Parts 71–78 of this chapter do not apply to such transportation by motor vehicle as may be necessary to effect transfer of import shipments from place of discharge to other places within the same port area or delivery to a water carrier within the same port area (including contiguous harbors). Further transportation of such import shipments by connecting water carrier shall be subject to the regulations prescribed by the Commandant of the Coast Guard.

2. Amend § 77.804 paragraph (b) (15 F. R. 8362, Dec. 2, 1950) (49 CFR 77.804, 1950 Rev.) to read as follows:

§ 77.804 *Export shipments by domestic carriers by motor vehicle.* • • •

(b) Export shipments transferred in port areas by motor vehicle: Except for the requirements of §§ 77.817 and 77.823, the provisions of Parts 71–78 of this chapter do not apply to such transportation by motor vehicle as may be necessary to effect transfer of export shipments from place of shipment to other places within the same port area or delivery to a water carrier within the same port area (including contiguous harbors). Further transportation of such export shipments by connecting water carrier shall be subject to the regulations prescribed by the Commandant of the Coast Guard.

SUBPART B—LOADING AND UNLOADING

1. Amend § 77.835 paragraph (f) (15 F. R. 8365, Dec. 2, 1950) (49 CFR 77.835, 1950 Rev.) to read as follows:

§ 77.835 *Explosives.* • • •

(f) *Explosives vehicles, floors tight and lined.* Motor vehicles transporting class A or class B explosives shall have tight floors and shall either have that portion of the interior in contact with the load lined with smooth non-sparking material or with smooth non-ferrous material.

• • • • •

PART 78—SHIPPING CONTAINER SPECIFICATIONS

SUBPART A—SPECIFICATIONS FOR CARBOYS, JUGS IN TUBS, AND RUBBER DRUMS

1. Add §§ 78.10 to 78.10–6 (15 F. R. 8379, Dec. 2, 1950) (49 CFR 78.10–78.10–6, 1950 Rev.) to read as follows:

§ 78.10 *Specification 1F; polyethylene carboys in plywood drums.*

§ 78.10–1 *Compliance.* (a) Required in all details.

§ 78.10–2 *Capacity and marking of carboy.* (a) Containers 5 to 13 gallons capacity are classed as carboys. Actual capacity must be the marked capacity plus 5 percent minimum. Must be permanently marked to indicate capacity, maker, month and year of manufacture; mark of maker to be registered with the Bureau of Explosives.

§ 78.10–3 *Polyethylene carboys.* (a) Carboys shall be made of polyethylene with no plasticisers or additives and have a maximum melt index value of 2.5 grams per 10 minutes as determined in accordance with method acceptable to the Bureau of Explosives. Carboys must have a minimum weight and wall thickness in accordance with the following table:

Marked capacity	Minimum wall thickness	Minimum weight of bottles
Gallons 6½ 13	*Inch* 3/16 3/16	*Pounds* 4 8

(b) Closing device shall be of material resistant to the lading and adequate to prevent leakage.

(c) Polyethylene carboys, as manufactured and filled to marked capacity with a material which remains in a liquid form, shall be capable of withstanding a 4-foot drop without leakage, after prior conditioning for 24 hours to at least —10° Fahr. or lower, onto solid concrete so as to strike diagonally on the bottom corner.

§ 78.10–4 *Outside containers.* (a) Plywood drums completely enclosing body of carboy or completely enclosing body and neck of carboy and constructed as follows:

(1) Lumber must be well seasoned, commercially dry, and free from decay, loose knots that interfere with nailing, and other defects that would materially lessen the strength. Plywood sections used in construction of this container shall be firmly glued together with waterproof glue. A section of plywood from any part when immersed in water at room temperature for 48 hours shall show no delamination or separation of plies to qualify glue as waterproof.

(2) Body shell must be of two 2-ply sections of good commercial box or sheathing grade hardwood veneer, each having a minimum thickness of 1/12 inch up to 6½ gallons and 1/11 inch up to 13 gallons, made up by telescoping one 2-ply shell with the outer shell. The body shall be butt-jointed and shall be fastened on the outside with a 28-gauge metal strip not less than 1½ inches in width and with staples of 17-gauge metal driven on each side of the outer joint and spaced not more than 1½ inches apart and clinched on inside of the outer body. The grain of outside ply should be parallel and grain of inner ply vertical to plane of the heads.

(3) Heads must be of at least three plies of good commercial box or sheathing grade hardwood veneer having a total minimum thickness of 3/8 inch up to 6½ gallons and 7/16 inch up to 13 gallons. The grain of alternate plies shall be at right angles. Each head shall be circled to fit snugly within the body shell.

(4) Hoops must be of three plies of good commercial box or sheathing grade hardwood veneer having a minimum of 5/24 inch thickness by 2½ inches width up to 6½ gallons and 5/10 inch thickness by 3 inches width up to 13 gallons. The grain of alternate plies shall be at right angles. Hoops shall butt or slightly gap and shall be fastened to the body sections with staples of 17-gauge metal spaced on not less than 3-inch centers and clinched on inner surface.

(5) Head liners must be of hardwood veneer having a minimum of 1/5 inch thickness and 5/8 inch width up to 6½ gallons and ¼ inch thickness by ¾ inch width up to 13 gallons. The top head liners shall be fastened to body shell with staples of 17-gauge metal on not less than 3-inch centers and clinched on inner surface. The bottom head liners shall be fastened the same as top head liners, or by 14-gauge metal staples driven through the head liner and body into outer hoop on not less than 4-inch centers.

§ 78.10–5 *Marking of outside container.* (a) Each outside container must be plainly marked with letters and figures at least ¾ inch high applied by hot branding iron or dark colored printing ink with high pressure dies as follows:

(1) ICC–1F. This mark shall be understood to certify that the complete package complies with all specification requirements.

(2) Name or symbol (letters) of company setting up the package, or other party assuming responsibility for its compliance with the specification requirements; this must be registered with the Bureau of Explosives and located just above or below the mark specified in paragraph (a) (1) of this section.

§ 78.10–6 *Tests.* (a) Samples, taken at random and with inner container filled to marked capacity with water and closed as for use, shall be capable of withstanding prescribed tests without leakage. Tests shall be made of each size by each company starting production. The type tests are as follows:

(1) Compression test side to side against flat surfaces of at least 5,000 pounds without deflection of over 1 inch.

(2) One 4-foot drop onto solid concrete so as to strike diagonally on either chime.

SUBPART B—SPECIFICATIONS FOR INSIDE CONTAINERS, AND LININGS

Amend § 78.23–1 paragraph (a) Table (15 F. R. 8380, Dec. 2, 1950) (49 CFR 78.23–1, 1950 Rev.) to read as follows:

§ 78.23–1 *Construction.* (a) • • •

Maximum weight of contents (pounds)	Minimum [1] weight (per 500 sheets 24" x 36") and strength			
	One sheet		Other sheet	
	Weight [1] (pounds)	Strength, Mullen test	Weight [1] (pounds)	Strength, Mullen test
2	20	30	20	30
6	50	50	40	40
12	60	60	50	50
25	70	70	60	60

[1] Footnote remains the same.

SUBPART C—SPECIFICATIONS FOR CYLINDERS

1. Amend § 78.43 heading and § 78.43–2 paragraph (a) (15 F. R. 8396, 8397, Dec. 2, 1950) (49 CFR 78.43, 78.43–2, 1950 Rev.) to read as follows:

§ 78.43 *Specification 3A480X; seamless steel cylinders.*

• • • • •

§ 78.43–2 *Type, size, and service pressure*—(a) *Type and size.* Seamless, having not more than 278 pounds nominal water capacity.

• • • • •

2. Add §§ 78.67 to 78.67–19 (15 F. R. 8432, Dec. 2, 1950) (49 CFR 78.67 to 78.67–19, 1950 Rev.) to read as follows:

§ 78.67 *Specification 41; inside containers, non-refillable seamless, welded, or brazed steel cylinders.*

§ 78.67–1 *Compliance.* (a) Required in all details.

§ 78.67–2 *Type, size, and service pressure*—(a) *Type and size.* Must be seamless, welded, or brazed (brazing material must have a melting point of not less than 1,000° F.). The maximum water capacity of cylinders in this class shall not exceed 1.44 pounds or 40 cubic inches. Longitudinal seams are prohibited, except that containers constructed from longitudinally welded steel tubing are authorized provided that certification is made by the tubing manufacturer that the tubing has been pressure tested to a fiber stress of 24,000 pounds per square inch as calculated by the formula:

$$P = \frac{24{,}000(D^2 - d^2)}{(1.3D^2 + 0.4d^2)}$$

where

P is the pressure required for pressure testing of tubing by the tubing manufacturer.

(b) *Service pressure.* Service pressure must be 200 pounds per square inch.

§ 78.67–3 *Inspection by whom and where.* (a) By competent inspector of the manufacturer; or a disinterested inspection agency; chemical analysis and tests, as specified, to be made within limits of the United States.

§ 78.67–4 *Duties of inspector.* (a) Inspect all material and reject any not complying with requirements.

(b) Verify compliance with the requirements of § 78.67–5 of this specification by submitting copy of certified chemical analysis obtained from the steel manufacturer for each heat of steel (ladle analysis acceptable); or if such evidence is lacking, then a sample from each coil or sheet must be analyzed and results submitted.

(c) Verify compliance of cylinders with all requirements including markings; inspect inside before closing in both ends; verify heat treatment as proper; select samples for all tests and for check chemical analyses; witness all tests; verify threads by gauge; report volumetric capacity (see report form) and minimum thickness of wall noted.

(d) Render complete report (§ 78.67–19) to purchaser, cylinder maker, and the Section of Explosives, Interstate Commerce Commission.

§ 78.67–5 *Steel.* (a) Open-hearth or electric steel of uniform quality. Content percent for the following not over: Carbon, 0.150; phosphorus, 0.045; sulphur, 0.055.

§ 78.67–6 *Identification of material.* (a) Required; any suitable method.

§ 78.67–7 *Defects.* (a) Material with seams, cracks, laminations, or other injurious defects, not authorized.

§ 78.67–8 *Manufacture.* (a) By proper appliances and methods; dirt and scale to be removed as necessary to afford proper inspection; no defect acceptable that is likely to weaken the finished cylinder appreciably; reasonably smooth and uniform surface finish required. Seams must be as follows:

(1) Circumferential seams. Except as provided in subparagraph (2) of this paragraph by welding, or brazing. Heads attached by brazing must have a driving fit with the shell, unless the shell is crimped, swedged, or curled over the skirt or flange of the head, and be thoroughly brazed until complete penetration by the brazing material of the brazed joint is secured. Depth of brazing from end of shell must be at least four times the thickness of shell metal.

(2) A container of two hemispherical heads, each having an integral tangential cylindrical skirt portion assembled so that the two cylindrical skirt portions telescope one within the other is author-

ized but must meet the following additional requirements for the skirt portions; one be a driving fit within the other; they be of equal length and telescoped for their full length; the length of the overlap be not less than 8 nor more than 10 times the thickness of the thinner of the two skirts; the overlapping joint be brazed (not welded) so as to get complete penetration for the full length of the joint.

§ 78.67–9 *Wall thickness.* (a) The wall stress at 600 pounds per square inch shall not exceed 24,000 pounds per square inch, except that for longitudinally welded steel tubing the stress shall not exceed 20,400 pounds per square inch. The minimum wall for any cylinder shall be 0.032 inch. For the container authorized in § 78.67–8 (a) (2) the wall thickness of the cylinder shall be taken as the sum of the thicknesses of the two skirts (without allowance for the brazing material between).

(b) Calculation must be made by the formula:

$$S=\frac{600(1.3D^2+0.4d^2)}{D^2-d^2}$$

where
S = wall stress in pounds per square inch;
D = outside diameter in inches;
d = inside diameter in inches.

(c) Calculation for thickness of hemispherical heads of containers authorized in § 78.67–8 (a) (2) must be made by the formula:

$$S=\frac{600D}{4tC}$$

where
t = thickness in inches;
C = 0.85 (design factor);
S and D have same significance as in paragraph (b) of this section. The minimum thickness of the head or skirt shall be 0.032 inch. The thickness of the skirt shall not be less than the thickness of the head.

§ 78.67–10 *Heat treatment.* (a) Body and heads must be uniformly and properly heat treated prior to tests.

§ 78.67–11 *Openings in cylinders.* (a) Each opening in cylinder, except those for safety devices, must be provided with a fitting, boss, or pad, securely attached to cylinder by brazing, welding, or by threads. If threads are used, they must comply with the following:

(1) Threads must be clean cut, even, without checks, and tapped to gauge.

(2) Taper threads to be of length not less than as specified for American Standard taper pipe threads.

(3) Straight threads, having at least 4 engaged threads, to have tight fit and calculated shear strength at least 10 times the test pressure of the cylinder; gaskets required, adequate to prevent leakage.

(b) Closure must be adequate to prevent leakage.

§ 78.67–12 *Safety devices.* (a) Devices must be as required by the Interstate Commerce Commission's regulations that apply. (See §§ 73.34 (f) and 73.301 (f) of this chapter.)

§ 78.67–13 *Pressure tests.* (a) Each cylinder produced shall be tested at an internal pressure of at least 200 pounds per square inch and not exceeding 600 pounds per square inch, held for at least 30 seconds, and shall show no leak or other defect when inspected by suitable means. WARNING: Where air or gas pressure is used for testing, means designed to protect personnel is recommended.

(b) Or, each completed container filled for shipment must be heated until content reaches a minimum temperature of 130° F.; without evidence of leakage, distortion or other defect.

(c) One out of each 3,000 cylinders or less successively produced per day shall be hydrostatically tested to destruction and must not burst below 1,200 pounds per square inch. Each such 3,000 cylinders or less successively produced per day shall constitute a lot and if the test cylinder shall fail, then the entire lot must be rejected. All cylinders constituting a lot shall be of identical size, design, construction, heat treatment, finish and quality.

§ 78.67–14 *Flattening test.* (a) Between knife edges, wedge shaped, 60° angle, rounded to ½ inch radius; test 1 cylinder taken at random out of each lot of 3,000 or less successively produced per day. This flattening test is required and the test cylinder shall not have cracked when the outer surfaces of the walls are apart not more than a distance of six times the thickness of such walls.

§ 78.67–15 *Rejected cylinders.* (a) Reheat treatment authorized for lots failing to meet the requirements of § 78.67–14; such lots of cylinders after this treatment must pass all prescribed tests.

§ 78.67–16 *Repair of brazed, or welded seams.* Repair of seams is authorized only for cylinders that have been tested according to § 78.67–13 (a). Repairs must be made by the original method of manufacture and such cylinders must be retested and pass the test prescribed in § 78.67–13 (a).

§ 78.67–17 *Marking.* (a) Marking on each cylinder by embossing plainly and permanently on valve end of cylinder before heat-treatment, the marks ICC–41 and registered symbol of manufacture.

(1) Other marks as prescribed in subparagraph (2) of this paragraph, must be shown on a permanently attached name plate or by printing or decalcomania, provided that such markings are waterproofed and adherent and not easily impaired when subject to water immersion and weathering under service conditions, or are coated over with a water-insoluble transparent lacquer; except that cylinders having brazed lapped circumferential seam may, after having been tested in accordance with §§ 78.67–13 and 78.67–14 of this specification, have marks permanently stamped into metal of this seam, provided that such marks do not exceed 0.015" in depth.

(2) Inspector's official mark; lot number; date of test (such as 5–50 for May 1950); the words "Illegal to refill and transport".

§ 78.67–18 *Size of embossed marks.* (a) At least ¼ inch high.

§ 78.67–19 *Inspector's reports.* (a) Required to be clear, legible, and in following form:

(Place) _____
(Date) _____

Steel gas cylinders

Manufactured for _____ Company
Location at _____
Manufactured by _____ Company
Location at _____
Consigned to _____ Company
Location at _____
Quantity _____
Size _____ inches outside diameter by _____ inches long.
Identification marks embossed on cylinders are: Specification ICC–41.
Identifying symbols (registered) _____
Other marks on cylinder are:
Inspector's official mark _____
Lot number _____
Test date _____
Illegal to refill and transport _____
These cylinders were made by process of _____

The steel used was identified by heat or analysis numbers as shown on the "Record of Chemical Analysis of Steel for cylinders" attached hereto.

The steel used was verified as to chemical analysis and record thereof is attached hereto.

All material was inspected and each cylinder was inspected both before and after closing; all accepted material and cylinders were found free from seams, cracks, laminations, and other defects which might prove injurious to the strength of the cylinder. The processes of manufacture and heat treatment were supervised and found to be efficient and satisfactory.

A test cylinder of each lot was measured and had a minimum wall thickness and volumetric capacity as shown in table below:

Date of test	Lot No.	Number in lot	Minimum wall thickness (inches)	Volumetric capacity (cubic inches or pounds of water)

Such threads as were used were inspected and found to be clean cut, of proper length, and correct as to gauge.

One finished cylinder out of each lot was taken at random and burst by interior hydrostatic pressure with the following results:

Date of test	Lot No.	Pressure at which cylinder ruptures (pounds per square inch)

Each and every cylinder was subjected to an interior pressure of 200 pounds per square inch and showed no leak or other defect.

Hydrostatic tests, pressure tests, flattening tests, and other tests, as prescribed in Specification No. ICC–41 were made in the presence of the inspector and all material and cylinders were found to be in compliance with the requirements of that specification.

I hereby certify that all of these cylinders proved satisfactory in every way and comply with the requirements of Interstate Commerce Commission's specification No. 41 except as follows:

SUBPART D—SPECIFICATIONS FOR METAL BARRELS, DRUMS, KEGS, CASES, TRUNKS AND BOXES

1. Amend § 78.80–2 paragraph (a) (15 F. R. 8432, Dec. 2, 1950) (49 CFR 78.80–2, 1950 Rev.) to read as follows:

§ 78.80–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.80–11 (a) (3). Actual capacity of straight-sided containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent nor greater than rated capacity plus 2 percent plus 2 quarts; actual capacity of bilge-type containers must be not less than rated capacity, nor greater than rated capacity plus 2 percent plus 2 quarts.

2. Amend § 78.81–2 paragraph (a) (15 F. R. 8433, Dec. 2, 1950) (49 CFR 78.81–2, 1950 Rev.) to read as follows:

§ 78.81–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.81–11 (a) (3). Actual capacity of straight-sided containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 2 quarts; actual capacity of bilge-type containers must be not less than rated capacity nor greater than rated capacity plus 2 percent plus 2 quarts.

3. Amend § 78.82–2 paragraph (a) (15 F. R. 8434, Dec. 2, 1950) (49 CFR 78.82–2, 1950 Rev.) to read as follows:

§ 78.82–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.82–11 (a) (3). Actual capacity of straight-sided containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent nor greater than rated capacity plus 2 percent plus 2 quarts; actual capacity of bilge-type containers must be not less than rated capacity, nor greater than rated capacity plus 2 percent plus 2 quarts.

4. Amend § 78.83–2 paragraph (a) and § 78.83–13 paragraph (a) (15 F. R. 8434, 8435 and 8436, Dec. 2, 1950) (49 CFR 78.83–2 and 78.83–13, 1950 Rev.) to read as follows:

§ 78.83–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.83–11 (a) (3). Actual capacity of straight-sided containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 2 quarts; actual capacity of bilge-type containers must be not less than rated capacity, nor greater than rated capacity plus 2 percent plus 2 quarts.

§ 78.83–13 *Type tests.* (a) Samples, taken at random and closed as for use, must be capable of withstanding prescribed tests without leakage. Tests to be made of each type and size by each company starting production and to be repeated every 4 months, except as provided in subparagraph (3) of this paragraph. Samples last tested to be retained until further tests are made. The type tests are as follows:

(1) Test by dropping, filled with water to 98 percent capacity, from height of 6 feet onto solid concrete so as to strike diagonally on chime or when without chime seam, to strike on other circumferential seam; also additional drop test on any other parts which might be considered weaker than the chime. Closing devices and other parts projecting beyond chime or rolling hoops must also be capable of withstanding this test.

(2) Hydrostatic pressure test of 80 pounds per square inch sustained for 5 minutes.

(3) Periodic drop and hydrostatic tests are not required where container has satisfactorily met prescribed tests at the original start of production. Satisfactory test results must be obtained on samples of subsequent containers that have been altered in design or construction. Samples so tested must be retained.

5. Amend § 78.84–2 paragraph (a), § 78.84–13 paragraph (a) and § 78.84–14 paragraph (a) (15 F. R. 8436, Dec. 2, 1950) (49 CFR 78.84–2, 78.84–13 and 78.84–14, 1950 Rev.) to read as follows:

§ 78.84–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.84–11 (a) (3). Actual capacity of straight-sided containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 2 quarts; actual capacity of bilge-type containers must be not less than rated capacity, nor greater than rated capacity plus 2 percent plus 2 quarts.

§ 78.84–13 *Type tests.* (a) Sample containers, before lining is applied, taken at random and closed as for use, must be capable of withstanding prescribed tests without leakage. Tests to be made of each type and size by each company starting production and to be repeated every 4 months, except as provided in subparagraph (3) of this paragraph. Samples last tested to be retained until further tests are made. The type tests are as follows:

(1) Test by dropping, filled with water to 98 percent capacity, from height of 6 feet onto solid concrete so as to strike diagonally on chime, or when without chime seam, to strike on other circumferential seam; also additional drop test on any other parts which might be considered weaker than the chime. Closing devices and other parts projecting beyond chime or rolling hoops must also be capable of withstanding this test.

(2) Hydrostatic pressure test of 80 pounds per square inch sustained for 5 minutes.

(3) Periodic drop and hydrostatic tests are not required where container has satisfactorily met prescribed tests at the original start of production. Satisfactory test results must be obtained on samples of subsequent containers that have been altered in design or construction. Samples so tested must be retained.

§ 78.84–14 *Leakage test.* (a) Each container, with lining material applied, shall be tested, with seams under water or covered with soapsuds or heavy oil, by interior air pressure of at least 15 pounds per square inch. Equally efficient means of testing are authorized upon demonstration and proof of satisfactory tests to representative of Bureau of Explosives. Leakers shall be rejected or repaired and retested. Removable head containers not required to be tested with heads in place except that samples taken at random and closed as for use, of each type and size, must be tested at start of production and repeated every 4 months. Samples so tested must be retained until further tests are made.

6. Amend § 78.86–2 paragraph (a) and § 78.86–13 paragraph (a) (15 F. R. 8437, 8438, Dec. 2, 1950) (49 CFR 78.86–2 and 78.86–13, 1950 Rev.) to read as follows:

§ 78.86–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.86–11 (a) (3). Actual capacity of straight-sided containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 2 quarts; actual capacity of bilge-type containers must be not less than rated capacity, nor greater than rated capacity plus 2 percent plus 2 quarts.

§ 78.86–13 *Type tests.* (a) Samples, taken at random and closed as for use, must be capable of withstanding prescribed tests without leakage. Tests to be made of each type and size by each company starting production and to be repeated every 4 months, except as provided in subparagraph (3) of this paragraph. Samples last tested to be retained until further tests are made. The type tests are as follows:

(1) Test by dropping, filled with water to 98 percent capacity, from height of 6 feet onto solid concrete so as to strike diagonally on chime, or when without chime seam, to strike on other circumferential seam; also additional drop test on any other parts which might be considered weaker than the chime. Closing devices and other parts projecting beyond chime or rolling hoops must also be capable of withstanding this test.

(2) Hydrostatic pressure test of 40 pounds per square inch sustained for 5 minutes.

(3) Periodic drop and hydrostatic tests are not required where container has satisfactorily met prescribed tests at the original start of production. Satisfactory test results must be obtained on samples of subsequent containers that have been altered in design or construction. Samples so tested must be retained.

7. Amend § 78.87–2 paragraph (a) (15 F. R. 8438, Dec. 2, 1950) (49 CFR 78.87–2, 1950 Rev.) to read as follows:

§ 78.87–2 *Rated capacity.* (a) Rated capacity is marked, see § 78.87–11 (a) (3). Actual capacity of straight-sided containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 2 quarts; actual capacity of bilge-type containers must be not less than rated capacity, nor greater than rated capacity plus 2 percent plus 2 quarts.

8. Amend § 78.88–2 paragraph (a) and § 78.88–12 paragraph (a) (15 F. R. 8439, Dec. 2, 1950) (49 CFR 78.88–2 and 78.88–12, 1950 Rev.) to read as follows:

§ 78.88–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.88–10 (a) (3). Actual capacity of straight-sided containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 2 quarts; actual capacity of bilge-type containers must be not less than rated capacity, nor greater than rated capacity plus 2 percent plus 2 quarts.

§ 78.88–12 *Type tests.* (a) Samples, taken at random and closed as for use, must be capable of withstanding prescribed tests without leakage. Tests to be made of each type and size by each company starting production and to be repeated every 12 months, except as provided in subparagraph (3) of this paragraph. Samples last tested to be retained until further tests are made. The type tests are as follows:

(1) Test by dropping, filled with water to 98 percent capacity, from height of 6 feet onto solid concrete so as to strike diagonally on chime, or when without chime seam, to strike on other circumferential seam; also additional drop test on any other parts which might be considered weaker than the chime. Closing devices and other parts projecting beyond chime or rolling hoops must also be capable of withstanding this test.

(2) Hydrostatic pressure test of 80 pounds per square inch sustained for 5 minutes.

(3) Periodic drop and hydrostatic tests are not required where container has satisfactorily met prescribed tests at the original start of production. Satisfactory test results must be obtained on samples of subsequent containers that have been altered in design or construction. Samples so tested must be retained.

9. Amend § 78.90–2 paragraph (a) and § 78.90–12 paragraph (a) (15 F. R. 8440, 8441, Dec. 2, 1950) (49 CFR 78.90–2 and § 78.90–12, 1950 Rev.) to read as follows:

§ 78.90–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.90–10 (a) (3). Actual capacity of containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 2 quarts.

§ 78.90–12 *Type tests.* (a) Samples, taken at random and closed as for use, must be capable of withstanding prescribed tests without leakage. Tests to be made of each type and size by each company starting production and to be repeated every 12 months, except as provided in subparagraph (3) of this paragraph. Samples last tested to be retained until further tests are made. The type tests are as follows:

(1) Test by dropping, filled with water to 98 percent capacity, from height of 6 feet onto solid concrete so as to strike diagonally on chime, or when without chime seam, to strike on other circumferential seam; also additional drop test on any other parts which might be considered weaker than the chime. Closing devices and other parts projecting beyond chime or rolling hoops must also be capable of withstanding this test.

(2) Hydrostatic pressure test of 80 pounds per square inch sustained for 5 minutes.

(3) Periodic drop and hydrostatic tests are not required where container has satisfactorily met prescribed tests at the original start of production. Satisfactory test results must be obtained on samples of subsequent containers that have been altered in design or construction. Samples so tested must be retained.

10. Amend § 78.91–2 paragraph (a) (15 F. R. 8441, Dec. 2, 1950) (49 CFR 78.91–2, 1950 Rev.) to read as follows:

§ 78.91–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.91–11 (a) (3). Actual capacity of straight-sided containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 2 quarts; actual capacity of bilge-type containers must be not less than rated capacity, nor greater than rated capacity plus 2 percent plus 2 quarts.

11. Amend § 78.97–2 paragraph (a) (15 F. R. 8442, Dec. 2, 1950) (49 CFR 78.97–2, 1950 Rev.) to read as follows:

§ 78.97–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.97–9 (a) (3). Actual capacity of straight-sided containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 2 quarts; actual capacity of bilge-type containers must be not less than rated capacity, nor greater than rated capacity plus 2 percent plus 2 quarts.

12. Amend § 78.98–2 paragraph (a) (15 F. R. 8443, Dec. 2, 1950) (49 CFR 78.98–2, 1950 Rev.) to read as follows:

§ 78.98–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.98–9 (a) (3). Actual capacity of straight-sided containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 2 quarts; actual capacity of bilge-type containers must be not less than rated capacity, nor greater than rated capacity plus 2 percent plus 2 quarts.

13. Amend § 78.99–2 paragraph (a) (15 F. R. 8444, Dec. 2, 1950) (49 CFR 78.99–2, 1950 Rev.) to read as follows:

§ 78.99–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.99–9 (a) (3). Actual capacity of straight-sided containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 2 quarts; actual capacity of bilge-type containers must be not less than rated capacity, nor greater than rated capacity plus 2 percent plus 2 quarts.

14. Amend § 78.100–2 paragraph (a) (15 F. R. 8444, Dec. 2, 1950) (49 CFR 78.100–2, 1950 Rev.) to read as follows:

§ 78.100–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.100–9 (a) (3). Actual capacity of straight-sided containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent plus 2 quarts; actual capacity of bilge-type containers must be not less than rated capacity, nor greater than rated capacity plus 2 percent plus 2 quarts.

15. Amend § 78.101–2 paragraph (a) (15 F. R. 8445, Dec. 2, 1950) (49 CFR 78.101–2, 1950 Rev.) to read as follows:

§ 78.101–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.101–9 (a) (3). Actual capacity of containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 2 quarts.

16. Add §§ 78.110 to 78.110–11 (15 F. R. 8447, Dec. 2, 1950) (49 CFR 78.110, 1950 Rev) to read as follows:

§ 78.110 *Specification 42F; aluminum barrels or drums.* Removable heads.

§ 78.110–1 *Compliance.* (a) Required in all details.

§ 78.110–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.110–8 (a) (3). Actual capacity shall be not less than rated capacity, nor greater than rated capacity plus 2 percent plus 1 gallon.

Marked capacity not over (gallons)	Authorized gross weight not over (pounds)	Type of container	Minimum thickness of material (inch)		Rolling hoops
			Body	Head	
50	450	Bilge	0.091	0.102	None

§ 78.110–6 *Closures.* (a) Adequate to prevent leakage; gaskets required.

(b) Closures must be of bolted ring type made of not less than 10 gauge carbon steel with drop forged threaded lugs and 5/8" minimum diameter cap screw.

§ 78.110–7 *Defective containers.* (a) Leaks and other defects shall be repaired by welding, using welding material of same composition as parts being repaired.

§ 78.110–8 *Marking.* (a) Marking on each container by embossing on head with raised marks as follows:

(1) ICC–42F***; stars to be replaced by the authorized gross weight (for example, ICC–42F450, etc.). This mark shall be understood to certify that the container complies with all specification requirements.

(2) Name or symbol (letters) of maker; this must be recorded with the Bureau of Explosives.

(3) Gauge of metal, Brown and Sharpe, in thinnest part; rated capacity, in gallons; and year of manufacture (for example, 11–50–52). When gauge of metal in body differs from that in head, both must be indicated with slanting line between and with gauge of body indicated first (for example, 11/10–50–52 for body 11 gauge and head 10 gauge).

§ 78.110–9 *Size of markings.* (a) Size of markings (minimum): 1/2" high for 33 gallons or less, 3/4" for over 33 gallons.

§ 78.110–10 *Type tests.* (a) Samples, taken at random and closed as for use, shall withstand prescribed tests without leakage. Tests to be made of each type and size by each company starting production and to be repeated every 4 months. Samples last tested to be retained until further tests are made. The type tests are as follows:

(1) Test by dropping, filled with dry, finely powdered material to the authorized gross weight, from height of 4 feet onto solid concrete so as to strike diagonally on top chime, or when without chime seam to strike on other circumferential seam; also an additional drop test on any other parts which might be considered weaker than the chime. Closing devices and other parts projecting beyond chime must also be capable of withstanding this test.

(2) Hydrostatic pressure test of 30 pounds per square inch sustained for 5 minutes. Leakage through closure shall not constitute failure.

§ 78.110–3 *Composition.* (a) Body and heads of aluminum alloy 61S, or an aluminum base alloy of equivalent corrosion resistance and physical properties.

§ 78.110–4 *Seams.* (a) None. Body shall be seamless.

§ 78.110–5 *Parts and dimensions.* (a) Parts and dimensions as follows:

§ 78.110–11 *Leakage test.* (a) Each container shall be tested under water or covered with soapsuds or heavy oil, by interior air pressure of at least 15 pounds per square inch. Equally efficient means of testing are authorized upon demonstration and proof of satisfactory tests to representatives of Bureau of Explosives. Leakers shall be rejected or repaired and retested. Containers not required to be tested with heads in place, except that samples taken at random and closed as for use, of each type and size, must be tested at start of production and repeated every 4 months. Samples so tested must be retained until further tests are made.

17. *Amend* § 78.115–2 paragraph (a) (17 F. R. 4297, May 10, 1952) (49 CFR 78.115–2, 1950 Rev.) to read as follows:

§ 78.115–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.115–10 (a) (3). Actual capacity of containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 2 quarts.

18. *Amend* § 78.116–2 paragraph (a) (17 F. R. 4297, May 10, 1952) (49 CFR 78.116–2, 1950 Rev.) to read as follows:

§ 78.116–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.116–10 (a) (3). Actual capacity of containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 2 quarts.

19. *Amend* § 78.117–2 paragraph (a) (17 F. R. 4297, May 10, 1952) (49 CFR 78.117–2, 1950 Rev.) to read as follows:

§ 78.117–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.117–11 (a) (3). Actual capacity of containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 2 quarts.

20. Amend § 78.118–2 paragraph (a) (17 F. R. 4297, May 10, 1952) (49 CFR 78.118–2, 1950 Rev.) to read as follows:

§ 78.118–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.118–10 (a) (3). Actual capacity of containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 2 quarts.

21. Amend § 78.119–2 paragraph (a) (15 F. R. 8450, Dec. 2, 1950) (49 CFR 78.119–2, 1950 Rev.) to read as follows:

§ 78.119–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.119–10 (a) (3). Actual capacity of containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent, plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent; nor greater than rated capacity plus 2 percent plus 2 quarts.

22. Amend § 78.125–5 paragraph (a) Table (17 F. R. 4297, May 10, 1952) (49 CFR 1950 Rev., 1951 Supp., 78.125–5) to read as follows:

§ 78.125–5 *Parts and dimensions.* (a) • • •

Marked capacity not over (gallons)	Authorized gross weight not over (pounds)	Type of container	Welded side seam required	Minimum thickness in the black (gauge, United States standard)	
				Body sheet	Head sheet
55	60	Straight side	No	26	26
	80	....do	No	24	24
	160	....do	No	22	22
	300	....do	No	20	20
	425	....do	No	19	19
	480	....do	Yes	19	19
	880	....do	Yes	18	18

SUBPART F—SPECIFICATIONS FOR FIBERBOARD BOXES, DRUMS, AND MAILING TUBES

Amend § 78.218–4 paragraph (a) (15 F. R. 8480, Dec. 2, 1950) (49 CFR 78.218–4, 1950 Rev.) to read as follows:

§ 78.218–4 *Stitching staples.* (a) If used, shall be of steel wire, copper-coated or equivalent in nonsparking quality, at least $^{3}/_{32}$'' by 0.019'' or equivalent cross section formed into staples approximately $^{7}/_{16}$'' wide.

SUBPART H—SPECIFICATIONS FOR PORTABLE TANKS

Add paragraph (c) to § 78.245–1 (15 F. R. 8483, Dec. 2, 1950) (49 CFR 78.245–1, 1950 Rev.) to read as follows:

§ 78.245–1 *Requirements for design and construction.* • • •

(c) On and after August 31, 1953, every uninsulated portable tank shall, unless it is constructed of aluminum, stainless steel, or other bright nontarnishing metal, be painted all over a white, aluminum, or similar reflecting color.

SUBPART I—SPECIFICATIONS FOR TANK CARS

1. Amend § 78.270 entire paragraph ICC–12 (15 F. R. 8495, Dec. 2, 1950) (49 CFR 78.270, 1950 Rev.) to read as follows:

§ 78.270 *Specification for tank cars having lagged riveted steel tanks, Class ICC–104A.* • • •

ICC–12. *Venting, loading and discharging, gauging and sampling devices.* (a) Venting, and loading and discharging valves must be of approved type, made of metal not subject to rapid deterioration by the lading, and must withstand a pressure of 100 pounds per square inch without leakage. The valves must be directly bolted to seatings on manhole cover. Pipe connections of the valves must be closed with approved screw plugs chained or otherwise fastened to prevent misplacement. Interior pipes of the liquid and gas discharge valves must be equipped with check valves.

ICC–12. (b) Gauging device, sampling valve, and thermometer well are not specification requirements. When used, they must be of approved design, made of metal not subject to rapid deterioration by the lading, and must withstand a pressure of 100 pounds per square inch without leakage. Interior pipes of the gauging device and sampling valve must be equipped with check valves of approved design. Thermometer well must be closed with screw plug.

2. Amend § 78.280 AAR–6 (j–1) Note 1 paragraph (b) (16 F. R. 11783, Nov. 21, 1951) (49 CFR 1950 Rev., 1951 Supp., 78.280) to read as follows:

§ 78.280 *Specification for tank cars having fusion-welded steel tanks Class ICC–103–W.* • • •

AAR–6. *Nondestructive tests.* (j–1) • • •

NOTE 1: • • •

(b) Should the length of slag inclusions or cavities, if any, described in paragraph AAR–6 (j–12) be not greater than $^{9}/_{16}$ T, where T is the thickness of the weld, and the number of such imperfections is not in excess of one (1) for any fifteen (15) foot increment of radiographed longitudinal and circumferential fusion welded joint of all three tanks, then only the intersections of all longitudinal and circumferential fusion welded joints of all remaining tanks in the first group of twenty (20) covered by the same purchase order shall be radiographed.

• • • • • • •

3. Amend § 78.285 entire paragraph ICC–11 (15 F. R. 8514, Dec. 2, 1950) (49 CFR 78.285, 1950 Rev.) to read as follows:

§ 78.285 *Specification for tank cars having lagged fusion-welded steel tanks Class ICC–104A–W.* • • •

ICC–11. *Venting, loading and discharging, gauging and sampling devices.* (a) Venting, and loading and discharging valves must be of approved type, made of metal not subject to rapid deterioration by the lading, and must withstand a pressure of 100 pounds per square inch without leakage. The valves must be directly bolted to seatings on manhole cover. Pipe connections of valves must be closed with approved screw plugs chained or otherwise fastened to prevent misplacement. Interior pipes of the liquid and gas discharge valves must be equipped with check valves.

ICC–11. (b) Gauging device, sampling valve, and thermometer well are not specification requirements. When used, they must be of approved design, made of metal not subject to rapid deterioration by the lading, and must withstand a pressure of 100 pounds per square inch without leakage. Interior pipes of the gauging device and sampling valve must be equipped with check valves of approved design. Thermometer well must be closed with screw plug.

4. Add § 78.294 (15 F. R. 8523, Dec. 2, 1950) (49 CFR 78.294, 1950 Rev.) to read as follows:

§ 78.294 *Specification for tank cars having fusion-welded aluminum tanks, Class ICC–104A–AL–W.* This specification covers Class ICC–104A–AL–W tank cars having lagged fusion-welded aluminum tanks to which have been added A. A. R. details which are not inconsistent therewith. Wherever the word "approved" is used in this specification, it means approval by the Association of American Railroads Committee on Tank Cars as prescribed in § 78.259 (b), (c), (d), and (e) Procedure.

(a) *General requirements.* Tanks built under this specification must comply with all provisions of Specification ICC–103–AL–W, except as modified in the following paragraphs (paragraph numbers refer to like numbers in § 78.291 Specification ICC–103–AL–W):

ICC–1. *Type.* (a) Tanks built under this specification must be cylindrical, with heads dished convex outward. The tank must be provided with a manhole nozzle and cover on top of the tank of sufficient diameter to permit access to the interior of the tank and provide for the proper mounting of venting, loading, unloading, sampling, and safety valves, gauging device, thermometer well, and a protective housing on the cover. Other openings in the tank prohibited, except those required for testing anchor rivets and their protective coverings.

ICC–1. (b) The tank shell and manhole nozzle must be lagged with an approved insulation material of a thickness so that the thermal conductance is not more than 0.075 B. t. u. per square foot, per degree Fahr. differential in temperature per hour. The entire insulation must be covered with a metal jacket, efficiently flashed around all openings so as to be weather tight. When heater systems are attached to exterior of tank, the lagging over each pipe may be reduced in thickness equivalent to one-half that required for shell.

AAR–1. (a) See paragraph ICC–1 (b).

ICC–2. *Bursting pressure.* (a) The calculated bursting pressure, based on the lowest tensile strength of the plate and the efficiency of the longitudinal welded joint must be at least 495 pounds per square inch.

AAR–2. (b) The opening in the tank for manhole nozzle must be reinforced so as to provide the required cross-sectional area as determined by formula shown on Figure 14–A.

ICC–4. *Thickness and width of plates.* (a) The minimum thickness of plates for heads, shell, and bottom must be $^{11}/_{10}$''.

AAR–5. (a–1) The tank heads must be ellipsoidal for pressure on the concave side.

AAR–5. (a–2) This paragraph does not apply.

AAR–5. (b–1) This paragraph does not apply.

ICC–6. (b) Manhole nozzle must be of approved design and attached to tank by fusion-welding. Fusion-welding for securing attachments in place must be of the double-welded butt joint type or double full-fillet lap joint type.

ICC–9. *Expansion dome.* (a) Expansion dome prohibited.

ICC–9. (b) This paragraph does not apply.

ICC–9. (c) This paragraph does not apply.

AAR–9. (a) This paragraph does not apply.

AAR–9. (b) This paragraph does not apply.

AAR–9. (c) This paragraph does not apply.

AAR–9. (d) This paragraph does not apply. See paragraph AAR–2 (b).

ICC–10. *Manhole nozzle, cover and protective housing.* (a) Manhole nozzle must be of cast, forged, pressed, or fabricated aluminum alloy or other material not subject to rapid deterioration by the lading, at least 18'' inside diameter having approved wall thicknesses and dimensions.

ICC–10. (b) Manhole cover must be of forged or rolled aluminum alloy at least 2½ inches thick, or other approved material at least 2¼ inches thick, machined to approved dimensions. Manhole cover must be attached to manhole nozzle by through bolts not entering tank.

ICC–10. (c) The shearing value of the bolts attaching protective housing to manhole cover must not exceed 70 percent of shearing value of bolts attaching manhole cover to manhole nozzle.

ICC–10. (d) All joints between manhole cover and manhole nozzle, and between manhole cover and valve or other appurtenances mounted thereon, must be made tight against vapor pressure.

ICC–10. (e) Protective housing of cast, pressed, or fabricated steel or other approved materials must be bolted to manhole cover. Housing must be equipped with a cover that can be securely closed. Housing cover on tanks used for the transportation of flammable compressed gases must be provided with an opening equipped with an approved weatherproof covering and having an area at least equal to the total safety valve discharge area. Housing cover must have suitable stop to prevent cover striking loading or unloading connections and be hinged on one side only with approved riveted pin or rod with nuts and cotters. Openings in wall of housing must be equipped with screw plugs or other closures.

AAR–10. *Manhole cover.* (a) For dimensions and tolerances of manhole covers see Figure 8 and 8–A.

ICC–11. *Venting, loading and discharging, gauging and sampling devices.* (a) These devices must be of approved type, made of metal not subject to rapid deterioration by the lading, and must withstand a pressure of 100 pounds per square inch without leakage. The venting and loading and discharging valves must be directly bolted to seatings on manhole cover. Pipe connections of valves must be closed with approved screw plugs chained or otherwise fastened to prevent misplacement. Thermometer well and sampling valve, if applied, must be closed with screw plugs or valves.

ICC–11. (b) The interior pipes of the liquid and gas discharge valves, except as prescribed in paragraph ICC–11 (c) may be equipped with check valves of an approved design.

ICC–11. (c) Tanks for the use in transportation of liquefied compressed flammable gases must have the interior pipes of the liquid and gas discharge valves equipped with check valves of an approved design.

ICC–11. (d) Gauging device, sampling valve, check valves, and thermometer well are not specification requirements on tanks used for the transportation of commodities other than those classed as liquefied compressed flammable gases.

ICC–12. (a) This paragraph does not apply.

AAR–12. (a) This paragraph does not apply.

ICC–13. (a) Bottom discharge outlet prohibited.

ICC–13. (b) This paragraph does not apply.

ICC–13. (c) This paragraph does not apply.

AAR–13. (a) This paragraph does not apply.

AAR–13. (b) This paragraph does not apply.

AAR–13. (c) This paragraph does not apply.

AAR–13. (d) This paragraph does not apply.

AAR–13. (e) This paragraph does not apply.

AAR–13. (f) This paragraph does not apply.

AAR–13. (g) This paragraph does not apply.

ICC–14. *Safety valves.* (a) The tank must be equipped with one or more safety valves of approved type, made of metal not subject to rapid deterioration by lading and mounted on manhole cover. The total valve discharge capacity must be sufficient to prevent building up of pressure in tank in excess of 75 pounds per square inch.

ICC–14. (b) This paragraph does not apply.

ICC–14. (c) The safety valves must be set to open at a pressure of not exceeding 75 pounds per square inch. (For tolerance see paragraph ICC–18).

ICC–14. (d) This paragraph does not apply.

AAR–14. (a) Safety valve must be of approved design. See Appendix "A" for formula for calculating discharge capacity of valve and method of testing sample valve of a particular design to determine its actual discharge capacity which must at least equal the capacity calculated as necessary to prevent building up pressure in the tank in excess of 75 pounds per square inch.

AAR–14. (b) This paragraph does not apply.

ICC–15. *Fixtures, reinforcements, and attachments, not otherwise specified.* (a) Attachments, other than the anchorage and those mounted on manhole nozzle and cover, are prohibited. Heater systems may be applied to exterior of tank by tank bands or other approved method.

AAR–15. (b) This paragraph does not apply.

ICC–16. *Plugs for openings.* (a) Plugs must be of approved type with standard pipe thread, and of metal not subject to rapid deterioration by the lading.

ICC–17. *Tests of tanks.* (a) Each tank must be tested, after anchorage is applied and before the tank lagging is applied, by completely filling tank and manhole nozzle with water or other liquid of similar viscosity having a temperature which must not exceed 100° F. during test, and applying a pressure of 100 pounds per square inch. The tank must hold the prescribed pressure for at least 10 minutes without leakage or evidence of distress. All closures, except safety valves, must be in place while test is made.

ICC–17. (c) Tests of exterior heater systems not a specification requirement.

AAR–17. (b) See paragraph ICC–17 (a).

ICC–18. *Tests of safety valves.* (a) Each valve must be tested by air or gas before being put into service. The valve must open at a pressure not exceeding 75 pounds per square inch and be vapor tight at 60 pounds per square inch, which limiting pressures must not be affected by any auxiliary closure or other combination.

AAR–18. (a) This paragraph does not apply.

ICC–19. *Retests of tanks and safety valves.* (a) Tanks must be retested at intervals of 5 years or less to a pressure as prescribed in paragraph ICC–17 (a), except that the tank lagging and jacket need not be removed unless the pressure in the tank drops during the test period, indicating leakage; and safety valves must be retested to a pressure as prescribed in paragraphs ICC–14 (c) and ICC–18. Tanks must be retested before being returned to service after any repairs requiring welding. Reports must be rendered as prescribed in paragraph ICC–21.

AAR–19. (a) See paragraph ICC–19 (a).

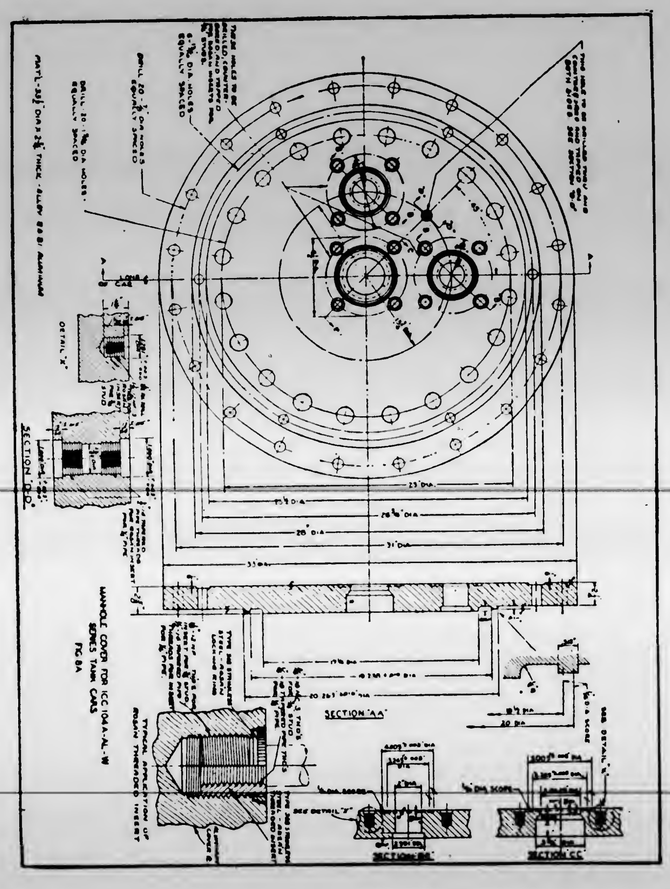
ICC–20. (b) ICC–104A–AL–W in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal near the center of both outside heads of the tank by the tank builder. This mark must also be stenciled on the jacket in letters and figures at least 2 inches high by the party assembling the completed car.

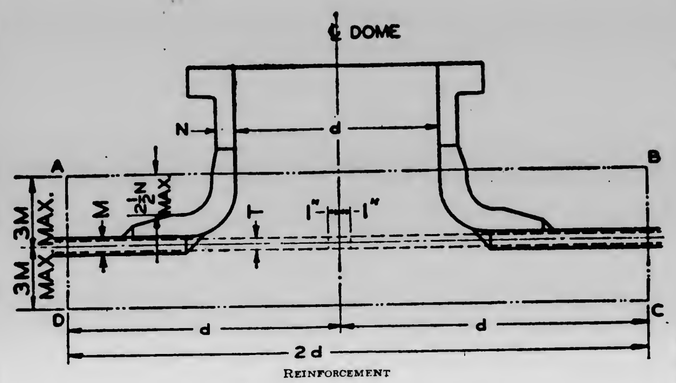
ICC–20. (g) This paragraph does not apply.

ICC–20. (h) This paragraph does not apply.

ICC–20. (j) Water capacity of the tank in pounds stamped plainly and permanently in letters and figures at least ¾ inch high into the metal of the tank immediately below the mark specified in paragraphs ICC–20 (c) and ICC–20 (d). This mark must also be stenciled on the jacket immediately below the dome platform and either behind or within three feet of the right or left side of ladder, or ladders, if there is a ladder on each side of the tank, in letters and figures at least 2 inches high as follows: Water Capacity 000000 Pounds.

5. Add Figures 8A and 14A to Appendix C, Part 78, Subpart I (15 F. R. 8534, 8536, Dec. 2, 1950) (49 CFR Appendix C, Part 78, Subpart I, 1950 Rev.) as follows:





REINFORCEMENT

d = inside diameter of nozzle.
T = shell thickness required by specifications.
M = actual shell thickness.
N = nozzle thickness.

Cross-section area available equals actual area in rectangle *ABCD*. (Use $3M$ or $2\frac{1}{2}N$ whichever is less.) =
Area required equals $.27(d-1)$ =
Excess area over requirements =

SUBPART J—SPECIFICATIONS FOR CONTAINERS FOR MOTOR VEHICLE TRANSPORTATION

Add paragraph (c) to § 78.336–1 (15 F. R. 8556, Dec. 2, 1950) (49 CFR 78.336–1, 1950 Rev.) to read as follows:

§ 78.336–1 *Requirements for design and construction.* • • •

(c) On and after August 31, 1953, every uninsulated cargo tank permanently attached to a tank motor vehicle shall, unless it be constructed of aluminum, stainless steel, or other bright nontarnishing metal, be painted all over a white, aluminum, or similar reflecting color.

APPENDIX

Section and reason for amendment

71.12 (b)—To require the placarding of motor vehicles transferring shipments of explosives and other dangerous articles in port areas and to require shipping papers to accompany such movements.

72.5 Commodity List—To provide for the transportation of cyclotrimethylenetrinitramine, desensitized; illuminating projectiles; smoke projectiles; aldrin; carbon, activated; pressurized flammable liquids; chlorate and magnesium chloride mixtures; and isopropyl percarbonate, stabilized and unstabilized.

Section and reason for amendment

73.9 (a)—To require the placarding of motor vehicles transferring shipments of explosives and other dangerous articles in port areas and to require shipping papers to accompany such movements.

73.29 (c) and (d)—To provide for adequate closure of "empty" carboys and acid bottles offered for transportation.

73.33 (o) and (o) (3)—To permit use of an improved type of automatic excess flow valve or quick closing internal valve on cargo tanks used for the transportation of liquefied compressed gases.

73.34 (k) (10)—To correct a section reference.

73.65 (b) and (e)—To provide specific requirements for the packing and packaging of cyclotrimethylenetrinitramine, and to correct an inconsistency in the regulations.

73.69 (c)—To clarify the marking requirements for containers of detonating fuzes and boosters (explosive).

73.88 (d)—To clarify as special fireworks illuminating projectiles, incendiary projectiles and smoke projectiles, fuzed or unfuzed, containing expelling charges but without bursting charges; hand or rifle grenades with ignition elements but not containing bursting charges.

73.100 (c)—To provide for the shipment of new military devices and to clarify the regulations.

73.115 (b)—To provide for the transportation of a newly developed type of flammable liquid.

73.118 (c) (22)—To exclude pressurized flammable liquids from exemptions for flammable liquids.

73.119 (a) (12)—To provide for the use of a new tank car for the transportation of flammable liquids.

73.127 (a) (3)—To provide a new aluminum drum for the transportation of nitrocellulose or collodion cotton or nitrostarch, wet.

73.142 entire section—To provide packing requirements for the transportation of pressurized flammable liquids.

73.153 (c) (8)—To exclude isopropyl percarbonate, unstabilized, from exemptions for flammable solids.

73.158 (a) (1)—To correct an inconsistency in the regulations.

73.162 (a) (1)—To provide for the transportation of activated carbon.

73.184 (a) (6)—To provide for the use of a new aluminum drum for the transportation of nitrocellulose, nitrostarch, or nitroguanidine, wet.

73.193 (a) (1)—To correct an inconsistency in the regulations.

73.218 entire section—To provide for the transportation of isopropyl percarbonate, unstabilized.

73.220 entire section—To provide packing requirements for the transportation of various types of magnesium scrap.

73.229 (a) and (c)—To provide packing requirements for chlorate and borate mixtures; and chlorate and magnesium chloride mixtures.

73.244 (c) (13)—To exclude isopropyl percarbonate, stabilized, from exemptions for corrosive liquids to provide for the transportation of acids or other corrosive liquids in rubber drums.

73.245 (a) (11)—To provide for the use of rubber drums for the transportation of acids or other corrosive liquids.

73.262 (a) (1)—To correct error in regulations.

73.264 (a) (16)—To provide for the use of a polyethylene carboy for the transportation of hydrofluoric acid.

73.265 (a) (2)—To provide a definite type of rubber to be used in the construction of inside containers for the transportation of hydrofluosilicic acid.

73.271 (a) (9)—To provide additional tank cars for the transportation of phosphorus oxychloride.

73.282 (a)—To provide packing requirements for the transportation of isopropyl percarbonate, stabilized.

73.300 (b)—To provide for the transportation of a newly developed type of flammable compressed gas.

73.301 (g) (1)—To designate authorized service pressure for ICC 41 cylinders.

73.306 (b) (2)—To provide for the use of a new cylinder for the transportation of insecticides.

Section and reason for amendment

73.308 (a) table cancel Note 9.—To provide for the permanent use of ICC 3A480X cylinders and to provide a new container for the transportation of insecticide, liquefied gas.

73.315 (a) (1) table—To provide for the transportation of anhydrous methylamines in cargo tanks and portable tanks.

73.353 (a) (3), (a) (5) and (b).—To correct a typographical error in the regulations and to provide for the transportation of methyl bromide.

73.360 entire section—To provide packing requirements for the transportation of perchloro-methyl-mercaptan.

73.361 entire section—To provide packing requirements for the transportation of aldrin mixtures, liquid.

73.376 entire section—To provide for the transportation of aldrin and aldrin mixtures, dry.

73.414 (a) note—To define a radiation unit.

74.563 (c)—To correct an inconsistency in the regulations.

77.803 (b)—To require the placarding of motor vehicles transferring shipments of explosives and other dangerous articles in port areas and to require shipping papers to accompany movements.

77.804 (b)—To require the placarding of motor vehicles transferring shipments of explosives and other dangerous articles in port areas and to require shipping papers to accompany movements.

77.835 (f)—To clarify the requirements for floor lining of motor vehicles transporting class A or class B explosives.

78.10 entire section—To provide a new specification for the construction of polyethylene carboys.

78.23–1 (a) table—To adjust minimum weight requirement of paper bags to present day standards.

78.43–2 (a)—To provide for the use of ICC–3A480X cylinders as permanent containers.

78.67 entire section—To provide a new specification for the construction of non-refillable cylinders.

78.80–2 (a)—To provide greater uniformity in the fabrication of ICC Spec. 5 drums.

78.81–2 (a)—To provide greater uniformity in the fabrication of ICC Spec. 5A drums.

78.82–2 (a)—To provide greater uniformity in the fabrication of ICC Spec. 5B drums.

78.83–2 (a) and 13 (a)—To provide greater uniformity in the fabrication of ICC Spec. 5C drums and to provide alternate method of testing.

78.84–2 (a), 13 (a) and 14 (a).—To obtain greater uniformity in the fabrication of ICC 5D drums; and to provide alternate method of testing; and to clarify leakage test requirements.

78.86–2 (a) and 13 (a)—To obtain greater uniformity in the fabrication of ICC 5G drums and to provide alternate method of testing.

78.87–2 (a)—To provide greater uniformity in the fabrication of ICC 5H drums.

78.88–2 (a) and 12 (a)—To obtain greater uniformity in the fabrication of ICC 5K drums and to provide alternate method of testing.

78.90–2 (a) and 12 (a)—To obtain greater uniformity in the fabrication of ICC 5M drums and to provide alternate method of testing.

78.91–2 (a)—To obtain greater uniformity in the fabrication of ICC 5X drums.

78.97–2 (a)—To obtain greater uniformity in the fabrication of ICC 6A drums.

78.98–2 (a)—To obtain greater uniformity in the fabrication of ICC 6B drums.

78.99–2 (a)—To obtain greater uniformity in the fabrication of ICC 6C drums.

78.100–2 (a)—To obtain greater uniformity in the fabrication of ICC 6J drums.

78.101–2 (a)—To obtain greater uniformity in the fabrication of ICC 6K drums.

78.110 entire section—To provide a new specification for the construction of aluminum barrels or drums.

78.115–2 (a)—To obtain greater uniformity in the fabrication of ICC 17C drums.

78.116–2 (a)—To obtain greater uniformity in the fabrication of ICC 17E drums.

78.117–2 (a)—To obtain greater uniformity in the fabrication of ICC 17F drums.

78.118–2 (a)—To obtain greater uniformity in the fabrication of ICC 17H drums.

78.119–2 (a)—To obtain greater uniformity in the fabrication of ICC 17X drums.

78.125–5 (a) table—To provide additional container of lighter gauge metal for shipments of light weight materials.

Section and reason for amendment	
78.218–4 (a)	To correct an error in the regulations.
78.245–1 (c)	To require uninsulated portable tanks of ICC Spec. 51 to be painted white, aluminum or similar reflecting color.
78.270 entire ICC–12	To eliminate the need for gauging device, sampling valve, and thermometer well on tank cars which are loaded by weight.
78.280 AAR–6 (j–1) Note 1 (b).	To correct a typographical error.
78.285 entire ICC–11	To eliminate the need for gauging device, sampling valve, and thermometer well on tank cars which are loaded by weight.
78.294 entire section	To provide for the construction of fusion-welded aluminum tank car.
Part 78, Appendix C, fig. 8A.	To provide manhole cover drawing for ICC–104A–AL–W tank cars.
Part 78, Appendix C, fig. 14A.	To provide nozzle reinforcement drawing for ICC–104A–AL–W tank cars.
78.336–1 (c)	To require every uninsulated cargo tank of ICC Spec. MC–330 to be painted all over a white, aluminum, or similar reflecting color.

UNIFORM SYSTEM OF ACCOUNTS FOR CARRIERS BY INLAND AND COASTAL WATERWAYS

ACCOUNT 151: ACQUISITION ADJUSTMENT; MODIFICATION

JUNE 25, 1952.

Having under consideration the matter of recording the cost of intangible assets, such as operating rights and agreements, the Commission by Division 1 has approved modification of the text of account 151, Acquisition Adjustment, to provide for the inclusion of such costs and the creation of a new amortization reserve account which will be credited as the costs are amortized by charges to income.

Any interested person may on or before July 31, 1952, file with the Commission written views or arguments to be considered in this connection, and may request oral argument thereon. Unless otherwise decided after consideration of representations so received, an order will be entered making the modification effective January 1, 1953.

[SEAL] W. P. BARTEL, *Secretary.*

Production and Marketing Administration

[7 CFR Part 982]

[Docket No. AO–238]

HANDLING OF MILK IN CENTRAL WEST TEXAS MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to a proposed marketing agreement and order regulating the handling of milk in the Central West Texas, marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business the 15th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed marketing agreement and order was formulated, was conducted at Abilene, Texas, February 11 through 15, 1952, pursuant to notice thereof which was issued on January 16, 1952 (17 F. R. 661).

The material issues of record related to:

1. Whether the handling of milk produced for the marketing area is in the current of interstate commerce or directly burdens, obstructs or affects interstate commerce in milk or its products;
2. Whether marketing conditions justify the issuance of a milk marketing agreement or order;
3. The extent of the marketing area;
4. Scope of regulation;
5. The classification and allocation of milk;
6. The determination and level of class prices;
7. Payments to producers; and
8. Administrative provisions.

Findings and conclusions. Upon the evidence adduced at the hearing and the record thereof, it is hereby found and concluded that:

1. *Character of commerce.* The handling of milk in the Central West Texas marketing area is in the current of interstate commerce and directly burdens, obstructs or affects interstate commerce in the handling of milk and its products.

Substantial quantities of milk produced in states other than Texas are imported regularly to supply the needs of handlers in the Central West Texas area. Since the production area within the state does not furnish a sufficient supply, the importation of milk for fluid use is a normal part of the operations of several handlers in this area. One handler whose plant is located in Midland, Texas, is currently importing 3,000 gallons per day of milk produced in Missouri, which represents approximately 60 percent of his receipts. Another handler whose plant is located in San Angelo, Texas, imports from Missouri from 12 to 20 percent of his total receipts, or approximately 5,600 gallons per week. Other handlers also import milk from Wisconsin and Missouri.

Substantial volumes of milk are sold in Central West Texas by Dallas handlers subject to the North Texas milk marketing order. These handlers also receive milk from producers in states other than Texas. Such milk is sold in competition with that of handlers with plants located in cities of the Central West Texas area. There is also competition for sales between handlers of the Central West Texas area and handlers who receive milk from producers whose farms are located in New Mexico. The plant of one such handler is located in New Mexico.

2. *Need for regulation.* Marketing conditions in the Central West Texas marketing area justify the issuance of a marketing agreement and order.

The Central West Texas area is an extensive area in which the population of the principal cities has increased rapidly in recent years. At the same time the production of milk has declined, particularly under severe drought conditions of the past two years. As a consequence major handlers of the area have imported substantial quantities of milk throughout all months of the year. Local producers have nevertheless at times been paid surplus prices for their milk at the same time that handlers have been importing outside milk.

Producers delivering milk to the same plant are frequently paid different prices. The prices paid by handlers with plants located in the same city also differ from each other. One of the larger handlers operates five bottling plants located in five different cities of the area, and a receiving station at a sixth location. At his largest plant in Abilene, nearby producers who deliver their own milk are paid one price, while more distant producers, whose milk is picked up in cans at a collection point, are quoted a lower price at the collection point and also pay the hauling charge from the collection point to the Abilene plant. Thus, the milk picked up at the collection point actually costs the handler less than the direct delivered milk. As a result, some producers whose milk moves in their own cans to the Abilene plant receive 40 to 50 cents less per hundredweight for their milk, as delivered at Abilene, than do other producers delivering to the same plant. Inequitable costs to handlers for milk for fluid use also has resulted from this arrangement, since other handlers receiving milk at Abilene have paid prices equal to those paid by this handler for milk delivered direct to his plant. The same handler quotes prices for milk delivered to his Brownwood and Comanche plants which are less than his prices for milk delivered to his Midland, Abilene and San Angelo plants, and makes further deductions from payments to producers delivering milk to Brownwood and Comanche for movement of milk to such other plants. A San Angelo handler also is paying different prices for milk received at his plant to producers from different areas.

Handlers have refused to bargain with a cooperative association representing a substantial majority of the milk producers of the area with respect to the prices and conditions under which producers market their milk. With some few exceptions, handlers have not permitted the association to render to its members check testing and weighing services. For some time after the association was first organized in 1949, handlers by coercion and intimidation attempted to keep producers from joining the association. Handlers will not allow the association access to records to verify the use made of producer milk, and producers are not permitted to participate in the price-making functions of the market. They often learn of changes in price only at the time of payment for milk. This situation has prevented the development of an orderly system of establishing prices for milk produced for fluid consumption in this area. Such a system is needed to assure producers of fair and equitable prices, and equal costs of milk to handlers.

There is need for market-wide information concerning production and sales in order that producers may plan their production and marketing programs intelligently. The adoption of a classified price plan based on the audited utilization of handlers, and market-wide pooling of returns among producers, will provide, respectively, equal costs to handlers for milk used for like purposes, and a fair division among all producers of the returns from fluid sales in the market.

3. *Extent of the marketing area.* The Central West Texas marketing area should be defined to include the cities of Abilene, Ballinger, Big Spring, Breckenridge, Brownwood, Cisco, Coleman, Colorado City, Comanche, Eastland, Lamesa, Midland, Odessa, Ranger, San Angelo, Snyder, Stamford, Sweetwater, and Winters, all in the State of Texas.

It was proposed that the marketing area be defined to include all the area within 27 counties in Texas. The 19 cities herein decided as the marketing area comprise the principal centers of urban population of this area. These cities have a total population of approximately 220,000, ranging in size from 2,500 to 52,000 population. Defining the marketing area by city boundaries rather than by county boundaries will simplify administration of the order and provide equally effective regulation for the area. Population in the rural areas is widely scattered, and the smaller towns not included in the area are completely served by handlers of the named cities. Because of the relatively small volume of sales which may be expected in such smaller towns, and the distances separating them, unregulated handlers would find it impractical to establish business in the counties proposed without sales within the defined marketing area.

All milk sold for fluid consumption in the Central West Texas area is sold as Grade A milk. To be labeled "Grade A", milk must be produced and handled under the supervision of local health officers in accordance with the standards of the United States Public Health Service Milk Ordinance. These standards have been adopted by the Texas State Department of Health and are contained in the ordinances of the cities. Sanitarians of city-county health units enforce these standards with respect to milk received from producers by plants located in the area. These sanitarians accept the certification of each other and of other health authorities enforcing similar standards with respect to the quality of milk.

Milk moves freely within the defined area. Milk received and bottled at Abilene is sold in Breckenridge, Cisco, Eastland, Ranger, Snyder, Stamford and Winters. Milk received at Brownwood is sold in Comanche and Coleman in bottled form and is moved to Abilene, San Angelo and Midland for bottling. Milk received at Sweetwater is sold in Snyder. Milk received at a receiving station at Comanche is moved to Midland, where it is commingled with milk received at Midland and Big Spring and is sold in Midland and Odessa in competition with milk received from producers at another Midland plant. Such milk is also sold in Lamesa. Milk received at Big Spring is sold in Colorado City in competition with milk received at Midland and Sweetwater. Milk received at San Angelo is sold at Ballinger, Coleman, Big Spring, and at other points outside the marketing area in competition with milk received at plants in other cities of the area herein decided.

Milk is sold in these 19 cities from plants of handlers located in the cities of Abilene, Big Spring, Breckenridge, Brownwood, Lamesa, Midland, San Angelo, Stamford and Sweetwater, and by handlers whose plants are located in Dallas, Lubbock and Wichita Falls. The Dallas handlers are regulated under the North Texas marketing order. The Lubbock handler sells only a small portion of his total Class I sales in the cities of Lamesa and Snyder, and sells less milk in these cities than do handlers with plants in the marketing area. The sales by a Wichita Falls handler are in Stamford and are likewise not a large percentage of either his total sales or the total sales in that city. Provision is made in the proposed order to exempt from full regulation such outside handlers with relatively small sales in the area.

The Midland handler who imports 60 percent of his supplies from Missouri proposed that six counties which include Big Spring, Colorado City, Midland and Odessa be excluded from the proposed marketing area. The basis of his contention is that this is a separate deficit area for which both he and his competitor with two local plants in Big Spring and Midland must import a substantial portion of their milk supplies. The imports of this competitor are from his plants in Brownwood and Comanche. In fact all receipts at a Comanche plant are moved to Midland for processing, and this plant in fact serves as a receiving station for a Midland plant, although the producers supplying it hold Brownwood permits. It is doubtful if effective regulation of the milk received at Comanche would be provided unless the western towns are included in the marketing area, and the record shows conclusively that such milk should be subject to regulation. Should it be possible to devise effective regulation of this milk without including the western cities in the marketing area, milk would not be priced uniformly to handlers doing business there. Milk from a San Angelo plant is distributed there and the volume of milk sold there which is priced under the North Texas order is quite substantial. If these cities were excluded, and the Comanche milk priced under the order, then somewhat over half of the milk sold there would be priced under either the Central West Texas order or the North Texas order, and the handler proposing exclusion of these cities would be the only handler who would not have a substantial portion of his receipts priced under these two orders. These cities should be included in the marketing area so that effective regulation will be possible and producer receipts of all handlers will be priced uniformly.

4. *Scope of regulation.* The minimum class prices of the order should apply to Grade A milk produced under the regular inspection of the health authorities of the municipalities comprising the marketing area, which is received at milk bottling plants distributing milk in the marketing area, or at receiving stations supplying such bottling plants. The class prices should also apply to Grade A milk produced under the inspection of other health authorities whose certification is accepted by the appropriate health authorities of the marketing area, if such milk is received at a bottling plant from which a significant portion of the total Class I sales is on routes in the marketing area.

Milk sold in the marketing area is exclusively Grade A milk. The health authorities of the cities of the marketing area in which processing plants are located inspect the farms of and issue permits to those eligible producers whose milk is received at such plants. Health authorities of the marketing area also inspect farms and issue permits to producers whose milk is received at two receiving and cooling plants from which milk is regularly moved to bottling plants in the area. In addition, the farm and plant inspections of other authorities enforcing Grade A standards and requirements are recognized for both regular distribution and supplementary supplies.

In order to distinguish clearly what milk is to be subject to the order, which processors and distributors are to be subject to regulation, and which dairy farmers will participate in the market pool, it is necessary to include in the order definitions of "approved plant", "handler", "producer" and "other source milk."

"Approved plant" should be defined to include those Grade A milk plants under the routine inspection of health authorities of the marketing area from

which Class I milk (fluid milk items specifically named elsewhere in the order) is disposed of on routes in the marketing area, or which serve as receiving stations for plants with route disposition in the marketing area. "Approved plant" should also include those Grade A milk plants under the routine inspection of other health authorities from which at least 15 percent of the total disposition of Class I business is on routes in the marketing area. The definition thus will not include outside plants which furnish supplementary supplies to plants regularly supplying the area, nor will it include plants whose route disposition in the area is a minor portion of their total Class I business. To include such plants would involve pricing milk that is not primarily associated with the Central West Texas market. The record indicates that route disposition of less than 15 percent of total Class I disposition is now made in the marketing area by plants in Lubbock and Wichita Falls. The order does not regulate the prices to be paid dairy farmers by operators of plants having a major proportion of their Class I sales outside the Central West Texas marketing area and they remain free to compete for milk supplies without regard to the order. However with respect to the volume of Class I milk sold by such operators within the marketing area, there must be assurance that no competitive advantage accrues to the handler who purchases such milk from dairy farmers as compared to the handlers whose minimum price for milk is established by this regulation. The order provides for payments on such sales at a rate equal to the difference between the Class I and Class II prices of the order. This provides a wholly objective, uniform rate which will assure that the costs of milk for in-area sales from plants not qualifying as approved plants are at least equal to the order prices. Administrative assessments on the volume of Class I milk sold in the marketing area are also required to be paid by the operators of such plants.

"Handler" to whom the regulatory provisions of the order apply, should be defined as the operator of an approved plant in his capacity as such, the operator of an unapproved plant from which route disposition of Class I milk is made in the marketing area, or a cooperative association with respect to milk or producers diverted from an approved plant to an unapproved plant for the account of such cooperative association.

The handler is the person who receives milk from producers and who is responsible for reporting receipts and utilization of milk and for paying producers minimum prices. The operator of the unapproved plant from which route disposition of Class I milk is made in the marketing area should be defined as a handler in order that the status of his plant may be established and that the obligations described above may be imposed upon him. A cooperative association may need for short periods to divert producer milk from approved plants to unapproved plants. If the association is permitted to act as a handler for such milk, even though it may have no plant, the producers whose milk is so diverted will receive the uniform price of the order and their milk will be available for Class I use when needed.

"Producer" should be defined as any person, other than a producer-handler, who produces "approved milk" which is received at an approved plant or is diverted from an approved plant to an unapproved plant for the account of a handler. The definition should specify "approved milk" as that produced under a Grade A permit or rating issued by a health authority having jurisdiction in the marketing area, if such milk is received at (or diverted from) an approved plant under the regular inspection of such health authority, or that produced under a health authority whose certification is accepted by the local health authority if such milk is received at an outside bottling plant with route disposition in the marketing area equal to or in excess of 15 percent of total Class I sales. Provision should be made that any person whose milk is received by a handler subject to another Federal order will not be defined as a producer, since this would result in such person's milk being included in two pools.

The order does not propose to pool the Class I sales of a producer-handler, who is a person operating an approved plant who produces milk but receives no milk from producers. Any milk they sell to handlers is normally surplus to their own operations; to pool such milk without also pooling the Class I sales producer-handlers make directly would result in a preferential market to producer-handlers as compared with regular producers. Producer - handlers should therefore be excluded from the definition of producers, and the milk they deliver to buying handlers be treated as other source milk.

"Other source milk" should be defined to include all skim milk and butterfat other than that contained in producer milk. When received at an approved plant, such milk would be from dairy farmers not approved by health authorities in the marketing area for producing Grade A milk, or from a plant which has not qualified as an approved plant. Other source milk would not be priced under the order, but would be allocated to the lowest valued use in the handler's plant, to prevent its displacing from Class I producer milk, which constitutes the regular supply of the market.

5. *Classification of milk.* Milk should be classified in two classes. Class I milk should include all skim milk and butterfat disposed of as Grade A milk or milk products, and unaccounted for milk except for an allowance for plant loss or shrinkage. Class II milk should include all skim milk and butterfat used to produce products not required to be from Grade A milk, disposed of for livestock feed, allowable shrinkage, and inventory variations (plus or minus) of Class I products. The provisions adopted specify as Class I milk those products which the record shows are currently required to be from Grade A milk. A proposal to include products which may hereafter be required to be from Grade A milk should not be adopted, as the diversity of health authorities with jurisdiction in the marketing area makes it improbable that such requirements will be adopted simultaneously in all parts of the area.

Unaccounted for producer milk in excess of a reasonable allowance for plant loss should be Class I milk in order to require full accounting by handlers for their receipts. Two percent is considered a reasonable maximum allowance for this purpose. No limit need be placed on shrinkage of other source milk as Class II milk since such milk is deducted from the lowest use class under the allocation provisions. Since it is not feasible to segregate shrinkage of producer milk from that of other source milk in the same plant, total shrinkage is prorated on the basis of the volume of receipts.

To prevent other source milk, which is unpriced, from displacing from Class I the producer milk regularly supplying the market, other source milk should be allocated to the lowest use in a handler's plant. In establishing the classification of milk, responsibility should be placed upon the handler who first receives milk from producers to account for all milk and milk products received, and to prove to the market administrator his claim that such receipts should be classified other than as Class I. The handler who first receives milk from producers is the person who is in position to satisfy this primary need of a class price plan. Such a handler must be held responsible for reporting the proper utilization of such milk and making full payment for it. He must, therefore, maintain records to establish unquestionable proof of the utilization of all milk he receives.

Provision should be made to cover the classification of milk, skim milk and cream transferred to other milk plants. Transfers to approved plants of other handlers may be at classification agreed upon between the handlers, provided the transferee plant has use in the agreed class and the prior claim of producer milk over other source milk on Class I utilization is maintained. Transfers to a producer-handler should be Class I milk, since producer-handlers normally purchase from handlers only for fluid use. Transfers from approved plants to fluid milk plants within 300 miles should be Class I milk, unless it can be shown that the receiving plant did not have Class I use in excess of its receipts from the dairy farmers constituting its regular source of supply. Transfers to milk manufacturing plants within 300 miles should be Class II milk. Transfers to plants beyond 300 miles should be Class I if the milk so transferred is in the form of milk or skim milk. Transfers of cream to such plants should be Class I if under Grade A certification, and Class II if without such certification. Milk and skim milk cannot economically be transferred long distances for manufacturing use. The limit of 300 miles is established as an area within which there are manufacturing facilities sufficient to dispose of any prospective excess of producer milk. Cream often moves long distances for use in ice cream. Grade A certification is considered a reasonably accurate criterion for distinguishing that cream moved for fluid uses from that moved for manufacturing purposes.

6. *The determination and level of class prices.* The Class I milk price should be based on the Class I price established under Federal Order No. 43 regulating the handling of milk in the North Texas marketing area, to which should be added 35 cents per hundredweight. The Class I price should be further adjusted for the location of approved plants, both within and without the marketing area, at which milk is received from producers.

A substantial volume of milk priced under the North Texas milk order is distributed on routes operated in almost every city of the Central West Texas marketing area. Between 15 and 25 percent of the total fluid milk sales in the area are from the plants of North Texas handlers in Dallas who distribute through vendors in this area. Cities of the Central West Texas marketing area are at distances from Dallas varying from 131 miles to either Breckenridge or Comanche up to 350 miles to Odessa. Distribution at such distances in competition with plants receiving milk within the area is feasible because production conditions in the Central West Texas area are difficult and farmers in this area cannot produce milk except at relatively high prices. The increase in population and decline in milk production in the area have created a demand for milk which could not be supplied from local production. As a consequence one North Texas handler in particular has established sales which are a significant factor in the milk trade of the area. There are also areas in which there is competition for producers between the Central West Texas area and the North Texas area, since the milksheds of the two areas overlap to some extent. North Texas handlers buy milk from producers in Erath, Eastland and Hamilton Counties. Central West Texas handlers also have producers in these counties. A handler from Abilene until recently purchased milk from producers in Parker County, which is included in the North Texas marketing area.

Under these circumstances, there is a very close relationship between prices in the North Texas area and those in the Central West Texas area. The level of prices in the Central West Texas area has changed at about the same time as that of the North Texas area, and in approximately the same amounts in the same direction. The competition for sales and production requires integration of changes in price for the two markets.

Proponents of the order proposed to accomplish this result by basing the Class I price upon a basic formula identical with that of the North Texas order plus differentials to bring about the proper difference in the Class I price. The North Texas order, however, provides for adjustment of the Class I price by the ratio of producer supplies to Class I sales. The evidence received at the hearing indicates the necessity for maintaining a constant difference between the prices of the orders. This may be accomplished by specific reference in the Central West Texas order to the Class I price of the North Texas order. Official notice is taken of the fact that since the hearing amendments have been made to the Class I pricing provisions of the North Texas order.

It is further necessary that the Class I price vary for locations in the marketing area. Production conditions, influenced largely by rainfall, vary considerably throughout the milkshed. The cities of the marketing area are separated by considerable distances, and the population is not distributed in proportion to the milk production. The most favorable production conditions are in counties nearer to Brownwood and Comanche than to other cities in which there are plants that receive milk from producers. Approximately 25 percent of the receipts of producer milk are at plants in Brownwood and Comanche, but less than 10 percent of the sales in the area are from these plants. Plants in Abilene and San Angelo receive milk from producers who could deliver their milk to Brownwood and Comanche at less cost. Abilene and San Angelo plants have customarily paid prices higher than those at Brownwood and Comanche in order to secure supplies. A majority of both producer receipts and sales from plants in the area are from plants in Abilene, San Angelo and Sweetwater, at which locations producer prices have usually been approximately the same. At Big Spring and Midland plants, however, producer receipts are less than 15 percent of the total for the area while sales are in excess of 30 percent of the total sales of the area. Milk received at Brownwood and Comanche in excess of the needs for fluid sales in that area is regularly moved to a Midland plant by tank truck. Another Midland plant requires outside supplementary supplies for approximately 60 percent of its sales. Milk received at a receiving station operated by a cooperative association at Windthorst, 125 or more miles from Abilene, is produced under permits of Abilene health authorities and moved regularly to the plants of Abilene handlers. Prices established for producer milk received at plants in different parts of the marketing area and without the area must be adjusted so as to permit milk to move to the plants at which it is needed for Class I sales.

The general trend of movement of milk is westward. Proponents of the order proposed that the Class I price for milk be established at 23 cents over the North Texas order price for milk received in certain counties in the eastern portion of the proposed 27-county area, that this be increased to 46 cents for milk received in a large group of counties in the central portion of the area, and to 69 cents for milk received in the far western counties proposed. The handler operating plants in each of these proposed districts proposed that these amounts should be 10, 33 or 35, and 63 or 65 cents respectively. An analysis of the past relationships between Dallas-Fort Worth prices and those for Abilene, San Angelo and Sweetwater indicates that the prices paid for milk received at these Central West Texas cities have generally ranged from 30 to 45 cents above the Dallas-Fort Worth prices. Prices at Midland are currently at about the same level but there is general agreement that they should be higher than the Abilene price.

It is concluded that the appropriate relationships to the North Texas order price should be 15 cents, 35 cents and 55 cents, respectively, more than such price, and that provision should be made that the Class I price applicable for milk received at Windthorst, and plants in the North Texas marketing area should be the North Texas order price. This is accomplished by establishing the Class I price as that applicable in the Abilene-San Angelo-Sweetwater area, and providing location adjustments of (1) an additional 20 cents for milk received within 70 miles of Midland, and (2) a reduction of 20 cents for milk received at points that are both more than 180 miles from Midland and also more than 70 miles from Abilene, with a further reduction of 15 cents for milk received at such points more than 110 miles from Abilene. This system of location adjustments will provide the same relative system of zoning for all plants within the areas as was proposed, with the exception of one small plant at Breckenridge at which the Abilene rather than the Brownwood price will apply. The record shows that there is little milk production in this area, and that milk received at Abilene is regularly sold there, while no milk received at Brownwood is sold in Breckenridge.

The Class II price should be based on 92-score butter prices in Chicago, and the average of the prices for spray and roller process nonfat dry milk solids f. o. b. Chicago area plants. Ice cream and cottage cheese are the primary uses made of Class II milk solids by Central West Texas milk dealers. Health authorities in the area permit use of ungraded milk in the manufacture of these products, for which most ingredients must be imported. A butter-powder formula price appears to provide the best available estimate of cost to handlers of obtaining suitable alternative butterfat and nonfat solids for use in ice cream and cottage cheese. Three cents should be subtracted from the butter quotation and 5.5 cents from the nonfat solids quotation as a reflection of the manufacturing and marketing margin. Yields of 1.2 and 8.16 should be applied respectively. An overrun of at least 20 percent is commonly experienced in churning butter. Also a yield of 8.5 pounds or more of powder can be expected from 100 pounds of skim milk in a reasonably efficient plant. Since 100 pounds of whole milk testing 4.0 percent contain 96 pounds of skim, a yield of 8.16 per 100 pounds of whole milk is provided. These yield factors are in line with general market experience, and are closely comparable with those used in many other federally regulated markets.

The recommended Class II pricing formula is the same as that used as an alternative price for Class II milk in the North Texas order. This record does not provide a basis for an alternative Class II price determined from the paying prices of Texas manufacturing plants for ungraded milk such as is used in the North Texas order.

The minimum prices which handlers would be required to pay are for milk testing 4.0 percent butterfat. These should be adjusted upward or downward

in accordance with variations from 4 percent in the butterfat content of the milk. The rate of adjustment for each class should be aligned with the respective class prices in order to properly apportion the value of butterfat and nonfat solids in these classes. This adjustment does not affect the class prices for milk of standard test.

It is concluded that extra butterfat above 4.0 percent in Class II milk should be priced at 1.15 times the Chicago 92-score butter price, and that such butterfat in Class I milk should be priced at 1.25 times such butter price. These figures should be converted and payment made on the basis of tenths of a pound. Deductions should be made at the same rate for milk testing less than 4.0 percent butterfat. These butterfat differentials are identical with those of the North Texas order and their use will preserve the comparability of prices in the two orders that is established by the class prices for milk of 4.0 percent butterfat content.

The parity price of all milk sold at wholesale in the United States, which is the applicable parity price under present legislation, was $4.84 per hundredweight as of March 15, 1952. Such price does not reflect what the record shows to be the price of feeds, the available supplies of feeds, and other economic conditions which affect market supply and demand for milk or its products in the marketing area; nor would it insure a sufficient quantity of pure and wholesome milk for the marketing area, or be in the public interest.

7. *Payments to producers.* The "market-wide" type of pool with base-rating plan should be established in this order for the purpose of distributing among producers returns from the sale of their milk. Under this plan all producers receive the same uniform price for their milk (or when bases are applicable, a uniform price for base milk and a uniform price for milk in excess of base) irrespective of the utilization made of such milk by individual handlers.

The alternative to the market-wide pool is the individual-handler pool. Under this latter system producers delivering to each handler receive a uniform price based on each handler's utilization of milk. Because different handlers utilize different proportions of their milk as Class I and Class II, the uniform prices of individual handlers would vary one from the other. This might facilitate the distribution of the available supply of milk in accordance with handlers' needs in a marketing area of this size. On the other hand, the record shows that a cooperative association will be a handler for milk it receives from producer members at a receiving station and regularly moves to the plants of proprietary handlers. Another cooperative association representing the majority of all producers has proposed that the order be so written as to enable it to become a handler when necessary to market any milk of its members in excess of the needs for Class I milk. Under these circumstances an individual handler pool would result in an unequal sharing of the market among producers and would not be conducive to orderly marketing. The use of a market-wide pool will also facilitate the distribution among producers of any payments that may be required from handlers relieved from full regulation of the order because of minor distribution in the area or because they are subject to other milk orders.

A Midland handler advocated an individual handler pool on the basis that deliveries of producer milk at Midland plants are less than Class I sales from such plants, and producers delivering to these plants have not historically borne any of the burden of carrying reserve milk for the market. The class prices and location adjustments provided in the order should result in equitable returns to producers variously situated, when all such producers share proportionably in the total Class I sales of the market. The other handler receiving milk at Midland operates plants in other cities, and under an individual handler pool his payments to producers would be computed on the basis of receipts and utilization of milk at all such plants. The necessity for premium payments by this handler under a handler pool appears more probable than does the necessity for his competitor to make such payments under a market-wide pool.

In the computation of the value of producer milk, provision should be made for the inclusion of the value of milk classified in excess of reported receipts from producers, other handlers, and other sources. This provision is found in other milk orders and is necessary to account for differences between the reported and actual weights and tests of milk received from producers.

The butterfat differential to be used in making payments to producers should be fixed at one-tenth of the price of Grade A (92-score) butter on the Chicago market multiplied by 1.2. This differential is the same as that established under the North Texas order. The producer butterfat differential merely affects the proration of returns among producers, and it in no way affects handlers' costs for milk.

The distribution among producers of the returns from the sales of milk in the months of April, May and June should be made through the medium of a base-rating plan. The proposal for a base rating plan is supported by both the producers association and handlers in the market. Producers have become accustomed to the use of bases under the marketing plans in effect in the area.

The purpose of a base-rating plan is to encourage producers to level out seasonal variations in their milk deliveries and thus avoid seasonal shortages and surpluses. This is accomplished by assigning each producer a base equal to his average delivery during the months of short production (October through January) and making prior assignment of Class I sales of the market during the months of greatest production (April through June) to the deliveries that producers make within such bases. A uniform price for base milk is thus computed which is enhanced above the average for the market and a uniform price for excess milk (deliveries in excess of base milk) which is below the average for the market. The lower price applicable to excess milk tends to limit deliveries of such milk during the months of surplus production. Conversely, the value of a large base gives impetus to the delivery of milk in the season of short production. The influence of these two forces tends to cause a more even seasonal pattern of milk deliveries than if payments are made during all months of the year on a straight uniform price basis.

The record does not show clearly the seasonal pattern of milk deliveries for the entire area, nor have there been seasonal surpluses within the past year. If there is a deficit supply of milk in the months of April through June the uniform price for excess milk will be practically equal to that of base milk. The data available are, however, those for a period of severe drought and consequently cannot be considered representative of normal conditions. Seasonal surpluses are to be avoided in this area in view of the lack of adequate manufacturing facilities. The order for the North Texas market, with which the Central West Texas market is closely related, incorporates a base-rating plan. It is concluded that a base-rating plan similar to that of the North Texas order should be included even though the record indicates that there have been supply conditions under which such a plan is not normally effective.

Uniform prices to producers should vary with the locations of the approved plants at which their milk is received. With respect to the uniform prices for all milk and for base milk, the rate of adjustment should be identical with the rate of adjustment made with respect to the price for Class I milk to handlers. The uniform price for excess milk should be adjusted at such rates in proportion to the total volume of excess milk classified as Class I milk.

Although uniform prices are computed once a month, provision should be made to pay producers on a semi-monthly basis. The majority of producers on the market have customarily been paid twice a month and it concluded that this practice should be continued. The advance payment to be made on or before the 25th day of the month and covering receipts of producer milk during the first 15 days of the month should be at not less than the Class II price for the preceding month. Payment at this rate will largely eliminate the possibility of handlers making overpayments to producers who may leave the market before the end of the month. Final payment for milk received during each month should be made on or before the 15th day after the end of the month.

In the case of a qualified cooperative association, which so requests, the handler should make the advance and final payments sufficiently in advance of the date for payment to other producers to enable the cooperative association to pay its members at that date. The dates which have been provided for these various payments are so spaced that ample time is provided the handlers and the market administrator for the filing of reports, the computation of the various prices and the writing and mailing of checks.

8. *Administrative provisions.* Certain other provisions should be adopted to enable proper and efficient administration of the order.

(a) *Administrative assessment.* Each handler should be required to pay to the market administrator, as his pro rata share of the cost of administration of the order, 4 cents per hundredweight, or such lesser sum as the Secretary may from time to time prescribe, on all receipts at his approved plants within the delivery period of (1) milk from producers (including such handler's own production) and (2) other source milk which is classified as Class I.

The market administrator must have sufficient funds to enable him to administer properly the terms of the order and the act provides that the administration of the order be financed through assessment against handlers. In view of the anticipated volume of milk on which the rate would apply it is concluded that a maximum rate of 4 cents per hundredweight is necessary at this time to guarantee sufficient administrative funds. In the event at a later date a lesser amount proves to be sufficient for proper administration, provision is made to enable the Secretary to reduce the assessment accordingly.

(b) *Deductions for marketing services.* Provision should be made for the dissemination of market information to producers and for the verification of weights and for the sampling and testing of milk received from producers for whom such services are not being rendered by a qualified cooperative association. This provision, including the assessing of producers in payment thereof, is specifically authorized by the act. Five cents per hundredweight or such lesser rate as the Secretary may determine should be deducted by handlers from the payment to producers and turned over to the market administrator to finance such services. This rate was proposed by producer groups who have had experience with check sampling, weighing, and testing programs in the marketing area. In the event any qualified cooperative association is determined to be performing such services for any producer, handlers should pay to the cooperative association such deductions as are authorized by such producer in lieu of the payment to the market administrator.

(c) *Other administrative provisions.* The remaining provisions of the order are of a general administrative nature, are incidental to the other provisions of the order, and are necessary for the proper and efficient administration of the order. They provide for the selection of the market administrator, define his powers and duties, prescribe the information to be reported by handlers each month and the length of time that records must be retained. A plan for liquidation of the order in the event of its suspension or termination should be provided.

Producer-handlers should be exempt from the regulatory provisions of the order except that they should be required to file reports as requested by the market administrator. Since a producer-handler may change his status from time to time, it is necessary that the market administrator have authority to require such reports as will enable him to verify the current status of a producer-handler and to supplement other market information.

A handler who operates an approved plant which is subject to the regulatory provisions of another milk marketing agreement or order issued pursuant to the act, and from which the Secretary determines that a greater volume of Class I milk is disposed of in such other marketing area than in this marketing area should be partially exempt from the provisions of this order. It would be impractical to attempt to regulate a handler under two separate orders with respect to the same milk. It appears reasonable that the effective regulation should be that of the area in which such a handler makes the greater portion of his sales. In order to insure equity between handlers, such a handler should not be permitted to purchase milk for sale as Class I in either area at less than the price paid by regulated handlers of the area. Therefore, it should be provided that if the price such handler is required to pay for Class I milk under the other order to which he is subject is less than the price provided in the proposed order, he should pay to the producer-settlement fund an amount equal to the difference between the two prices on all Class I milk disposed of within the area. The Class I price of this order applicable to plants receiving milk in the North Texas marketing area is the same as that of the North Texas order, so that no payments will be required on the milk marketed in the Central West Texas marketing area. Such handler should also be required to report to the market administrator regularly so that he may ascertain the amount of milk disposed of by such persons within the area.

The order should provide limitations on the period of time handlers shall retain books and records which are required to be made available to the market administrator, and on the period of time in which obligations under the order shall terminate. The provision made in this regard is identical in principle with the general amendment made to all orders in operation on July 30, 1947, effective February 22, 1949, and the Secretary's decision of January 26, 1949 (14 F. R. 444), covering the retention of records and limitation of claims is equally applicable in this situation and is adopted as a part of this decision.

General findings. (a) The proposed marketing agreement and the order and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of the Central West Texas Producers Association and the majority of the handlers who would be regulated. The briefs contained proposed findings of facts, conclusions, and arguments with respect to the proposals discussed at the hearing. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinafter set forth. To the extent that such suggested findings and conclusions contained in the briefs are inconsistent with the findings and conclusions contained herein the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in this decision.

Recommended marketing agreement and order. The following order is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the order.

DEFINITIONS

§ 982.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as re-enacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 982.2 *Secretary.* "Secretary" means the Secretary of Agriculture or such other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 982.3 *Department.* "Department" means the United States Department of Agriculture or such other Federal agency authorized to perform the price reporting functions specified in this subpart.

§ 982.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 982.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members.

§ 982.6 *Central West Texas marketing area.* "Central West Texas Market-

ing Area" hereinafter called the marketing area means all territory within the corporate limits of the following cities, all in the State of Texas:

Abilene.	Lamesa.
Ballinger.	Midland.
Big Spring.	Odessa.
Breckenridge.	Ranger.
Brownwood.	San Angelo.
Cisco.	Snyder.
Coleman.	Stamford.
Colorado City.	Sweetwater.
Comanche.	Winters.
Eastland.	

§ 982.7 *Approved plant.* "Approved plant" means:

(a) A milk plant approved by and under the routine inspection of any health authority having jurisdiction in the marketing area:

(1) From which Class I milk labeled Grade A in consumer packages is disposed of for fluid consumption in the marketing area on wholesale or retail routes (including routes operated by a vendor and disposition from plant stores); or

(2) Which receives milk from producers as defined in § 982.10 (a) which serves as a receiving station by receiving, weighing and commingling producer milk, and from which such milk (i) is moved to a plant specified in subparagraph (1) of this paragraph during the month, or (ii) was moved to plant(s) specified in subparagraph (1) of this paragraph in an amount equal to 60 percent or more of total receipts of producer milk during the months of October through January immediately preceding any month of April, May or June during which no milk was moved to such a plant; or

(b) A milk plant approved by and under the routine inspection of a health authority other than one having jurisdiction in the marketing area from which Class I milk labeled Grade A in consumer packages is disposed of for fluid consumption in the marketing area on wholesale or retail routes (including routes operated by vendors and disposition from plant stores) in an amount equal to 15 percent or more of the total disposition of Class I milk from such plant during the month.

§ 982.8 *Unapproved plant.* "Unapproved plant" means any milk processing or distributing plant which is not an approved plant.

§ 982.9 *Handler.* "Handler" means:

(a) Any person in his capacity as the operator of an approved plant;

(b) Any person in his capacity as the operator of an unapproved plant from which Class I milk is disposed of during the month on wholesale or retail routes in the marketing area (including routes operated by vendors and disposition from plant stores); or

(c) Any cooperative association with respect to the milk of any producer which it causes to be diverted to an unapproved plant for the account of such cooperative association.

§ 982.10 *Producer.* "Producer" means any person other than a producer-handler:

(a) Who produces milk under a dairy farm permit or rating for the production of milk to be disposed of for consumption as Grade A milk issued by any health authority having jurisdiction in the marketing area, which milk is received at an approved plant described in § 982.7 (a); or

(b) Who produces milk under a dairy farm permit or rating for the production of milk to be disposed of for consumption as Grade A milk issued by a health authority whose certification is accepted by the appropriate health authority having jurisdiction in the marketing area, which milk is received at an approved plant described in § 982.7 (b).

"Producer" shall include any such person whose milk is regularly received at an approved plant, but whose milk is caused to be diverted by a handler to an unapproved plant, and milk so diverted shall be deemed to have been received at an approved plant by the handler who causes it to be diverted. "Producer" shall not include any person with respect to milk produced by him which is received at a plant operated by a handler who is subject to another Federal marketing order and who is partially exempt from the provisions of this subpart pursuant to § 982.61.

§ 982.11 *Producer milk.* "Producer milk" means all skim milk and butterfat in milk produced by producers which is received by a handler, either directly from producers or from other handlers.

§ 982.12 *Other source milk.* "Other source milk" means all milk and butterfat other than that contained in producer milk.

§ 982.13 *Producer-handler.* "Producer-handler" means any person who produces milk and operates an approved plant, but who receives no milk from producers.

§ 982.14 *Base milk.* "Base milk" means producer milk received by a handler during any of the months of April through June which is not in excess of each producer's daily average base computed pursuant to § 982.80 multiplied by the number of days in such month for which such producer delivered milk to such handler.

§ 982.15 *Excess milk.* "Excess milk" means producer milk received by a handler during any of the months of April through June which is in excess of base milk received from such producer during such month, and it shall include all milk received from producers for whom no daily average base can be computed pursuant to § 982.80.

MARKET ADMINISTRATOR

§ 982.20 *Designation.* The agency for the administration of this subpart shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 982.21 *Powers.* The market administrator shall have the following powers with respect to this subpart:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 982.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of funds provided by § 982.98 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses (except those incurred under § 982.97) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this subpart, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce, at his discretion, by posting in a conspicuous place in his office and such other means as he deems appropriate, the name of any person who, within 10 days after the day upon which he is required to perform such acts, has not:

(1) Made reports pursuant to § 982.30 to § 982.32, inclusive; or

(2) Made payments pursuant to § 982.90 to § 982.99, inclusive.

(i) On or before the 12th day after the end of each month, report to each cooperative association, which so requests, the amount and class utilization of milk received by each handler from producers who are members of such cooperative association. For the purpose of this report, the milk so received shall be prorated to each class in the proportion that the total receipts of milk from producers by such handler were used in each class;

(j) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate the prices determined for each month as follows:

(1) On or before the 5th day of each month the minimum prices for Class I milk pursuant to § 982.50 and the Class I butterfat differential pursuant to § 982.52 (a), both for the current month, and the minimum price for Class II milk pursuant to § 982.51 and the Class II butterfat differential pursuant to § 982.52 (b), both for the preceding month; and

(2) On or before the 12th day of each month, the uniform prices computed pursuant to § 982.72 and § 982.73 and the butterfat differential computed pursuant to § 982.92, both applicable to milk delivered during the preceding month;

(k) Prepare and disseminate to the public such statistics and information as he deems advisable and as do not reveal confidential information; and

(l) Furnish to a cooperative association the data furnished to the market administrator pursuant to § 982.31 (a) with respect to milk of its members.

REPORTS, RECORDS AND FACILITIES

§ 982.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month, each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator as follows for each approved plant operated by him, or, in the case of a cooperative association, for producer milk diverted by it:

(a) The quantities of skim milk and butterfat contained in milk received from producers, and for the months of April through June, the aggregate quantities of base milk and excess milk;

(b) The quantities of skim milk and butterfat contained in (or used in the production of) receipts from other handlers;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk (except Class II products disposed of in the form in which received without further processing or packaging by the handler);

(d) The utilization of all skim milk and butterfat required to be reported pursuant to this section; and

(e) Such other information with respect to receipts and utilization as the market administrator may prescribe.

§ 982.31 *Payroll records.* On or before the 20th day of each month, each handler shall submit to the market administrator his producer payroll for deliveries of the preceding month which shall show:

(a) The total pounds and the average butterfat test of milk received from each producer and cooperative association and, for the months of April through June, such producer's deliveries of base milk and excess milk;

(b) The amount of payment to each producer and cooperative association; and

(c) The nature and amount of any deductions or charges involved in such payments.

§ 982.32 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler who causes milk to be diverted to an unapproved plant shall, prior to such diversion, report to the market administrator and to the cooperative association of which such producer is a member, of his intention to divert such milk, the proposed date or dates of such diversion, and the plant to which such milk is to be diverted.

§ 982.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representatives during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of all receipts of producer milk and other source milk;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and milk products handled;

(c) Payments to producers and cooperative associations; and

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream and milk products on hand at the beginning and end of each month.

§ 982.34 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly, upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 982.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the month by a handler which is required to be reported pursuant to § 982.30 shall be classified by the market administrator pursuant to the provisions of §§ 982.41 to 982.46, inclusive.

§ 982.41 *Classes of utilization.* Subject to the conditions set forth in §§ 982.43 and 982.44, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat disposed of in the form of milk, skim milk, buttermilk, flavored milk drinks, cream, cultured sour cream, any mixture (except eggnog, aerated cream products and mixes for ice cream or other frozen dairy products) of cream and milk or skim milk, and all skim milk and butterfat not specifically accounted for under paragraph (b) of this section; and

(b) Class II milk shall be all skim milk and butterfat:

(1) Used to produce any product other than those specified in paragraph (a) of this section;

(2) Disposed of for livestock feed;

(3) In shrinkage up to 2 percent of receipts from producers;

(4) In shrinkage of other source milk; and

(5) In inventory variations of milk, skim milk, cream or any product specified in paragraph (a) of this section.

§ 982.42 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat for each handler; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat in producer milk and in other source milk.

§ 982.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat classified as Class II milk shall be reclassified if later disposed of (whether in original or other form) as Class I milk.

§ 982.44 *Transfers.* Skim milk or butterfat disposed of by a handler either by transfer or diversion shall be classified:

(a) As Class I milk if transferred or diverted in the form of milk, skim milk or cream, to the approved plant of another handler (except a producer-handler) except as:

(1) Utilization in Class II is mutually indicated in writing to the market administrator by both handlers on or before the 7th day after the end of the month within which such transaction occurred;

(2) The receiving handler has utilization in Class II of an equivalent amount of skim milk and butterfat, respectively; and

(3) Classification as Class II milk does not decrease the total volume of producer milk assigned pursuant to § 982.46 to Class I in the two plants.

(b) As Class I milk, if transferred to a producer-handler in the form of milk, skim milk or cream.

(c) As Class I milk, if transferred or diverted in the form of milk or skim milk to an unapproved plant more than 300 miles distance by the shortest highway distance, as determined by the market administrator.

(d) As Class I milk if transferred in the form of cream under Grade A certification to an unapproved plant located more than 300 miles distant and as Class II milk if so transferred without Grade A certification.

(e) As Class I milk if transferred or diverted in the form of milk, skim milk or cream to an unapproved plant located not more than 300 miles distant and from

which fluid milk is disposed of on wholesale or retail routes, unless the conditions in subparagraphs (1) and (2) are met:

(1) The market administrator is permitted to audit the records of such unapproved plant; and

(2) Such unapproved plant receives milk from dairy farmers who the market administrator determines constitutes its regular source of supply for Class I milk.

(3) If these conditions are met, the market administrator shall classify such milk as reported by the handler, subject to verification as follows:

(i) Determine the use of all skim milk and butterfat at such unapproved plant; and

(ii) Allocate the skim milk and butterfat so transferred or diverted to the highest use classification remaining after subtracting in series beginning with the highest use classification, the skim milk and butterfat in milk received at the unapproved plant direct from dairy farmers.

(f) As Class II milk if transferred or diverted in the form of milk, skim milk or cream to an unapproved plant located not more than 300 miles distant from which fluid milk is not disposed of on wholesale or retail routes.

§ 982.45 *Computation of the skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and for other obvious errors the monthly report submitted by each handler and shall compute the pounds of skim milk and butterfat in Class I and Class II milk for such handler.

§ 982.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 982.45, the market administrator shall determine the classification of milk received by each handler from producers as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk determined pursuant to § 982.41 (b) (3);

(2) Subtract from the remaining pounds of milk in each class the pounds of skim milk received from other handlers in a form other than milk, skim milk or cream according to its classification pursuant to § 982.41;

(3) Subtract from the remaining pounds of skim milk in series beginning with Class II, the pounds of skim milk in other source milk;

(4) Subtract from the remaining pounds of skim milk in each class the skim milk received from other handlers in the form of milk, skim milk or cream according to its classification as determined pursuant to § 982.44 (a);

(5) Add to the remaining pounds of skim milk in Class II the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(6) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk received from producers, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be called "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of Class I milk and Class II milk computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 982.50 *Class I milk.* Subject to the provisions of §§ 982.52 and 982.53 the minimum price per hundredweight to be paid by each handler for milk received at his plant from producers and classified as Class I milk shall be the price for Class I milk established under Federal Order No. 43 regulating the handling of milk in the North Texas marketing area, plus 35 cents.

§ 982.51 *Class II milk.* Subject to the provisions of §§ 982.52 and 982.53 the minimum price per hundredweight to be paid by each handler for milk received at his plant from producers and classified as Class II milk shall be computed by adding together the plus values pursuant to paragraphs (a) and (b) of this section:

(a) From the simple average as computed by the market administrator of the daily wholesale selling prices (using the mid-point of any price range as one price) per pound of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the Department during the month, subtract 3 cents, add 20 percent thereof, and multiply by 4.0.

(b) From the simple average as computed by the market administrator of the weighted averages of carlot prices per pound for non-fat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department, deduct 5.5 cents, multiply by 8.5 and multiply by 0.96.

§ 982.52 *Butterfat differential to handlers* If the average butterfat content of the milk of any handler allocated to any class pursuant to § 982.46 is more or less than 4.0 percent, there shall be added to the respective class price, computed pursuant to §§ 982.50 and 982.51, for each one-tenth of one percent that the average butterfat content of such milk is above 4.0 percent, or subtracted for each one-tenth of one percent that such average butterfat content is below 4.0 percent, an amount equal to the butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling price per pound (using the mid-point of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago, as reported by the Department during the appropriate month, by the applicable factor listed below and dividing the result by 10:

(a) *Class I milk.* Multiply such price for the preceding month by 1.25; and

(b) *Class II milk.* Multiply such price for the current month by 1.15.

§ 982.53 *Location adjustment to handlers.* For milk classified as Class I milk the price set forth in § 982.50 shall be subject to the following adjustments:

(a) For milk received from producers at an approved plant located within 70 highway miles of the United States Post Office in Midland, Texas, such price shall be increased 20 cents;

(b) For milk received from producers at an approved plant located more than 180 highway miles from the United States Post Office in Midland, Texas, and also at the following highway distances from the United States Post Office in Abilene, Texas, such price shall be reduced as follows:

	Cents
More than 70 miles but less than 110 miles	20
110 miles or more	35

(c) If a handler operates two or more approved plants at which different Class I prices apply, the total milk received by such handler from producers and classified as Class I milk shall be assigned to the milk received from producers at each such plant in the following sequence:

(1) The Class I milk disposed of from each such plant shall be assigned to receipts from producers at such plant to the extent of such receipts;

(2) Class I milk disposed of from any such plant in excess of receipts from producers at such plant shall be assigned to milk received from producers at other approved plants of such handler pro rata to the volumes of producer milk moved to such plant from each such other plant to the extent that milk was so moved; and

(3) Any remaining milk received from producers and classified as Class I milk shall be assigned pro rata to receipts from producers to which Class I milk is not otherwise assigned.

APPLICATION OF PROVISIONS

§ 982.60 *Producer-handlers.* Sections 982.40 through 982.46, 982.50 through 982.53, 982.70 through 982.73, 982.80, 982.81 and 982.90 through 982.99 shall not apply to a producer-handler.

§ 982.61 *Handlers subject to other orders.* In the case of any handler who operates an approved plant which the Secretary determines disposes of a greater quantity of milk as Class I milk in another marketing area regulated by another milk marketing agreement or order issued pursuant to the act than in this marketing area, the provisions of this subpart shall not apply, except as follows:

(a) The handler shall, with respect to his total receipts of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(b) If the price which such handler is required to pay under the other Federal order to which he is subject for skim milk and butterfat which would be classified as Class I milk under this subpart is less than the price provided by this subpart, such handler shall pay to the market administrator for deposit into the producer-settlement fund (with respect to all skim-milk and butterfat disposed of as Class I milk within the marketing area) an amount equal to the difference between the value of such skim milk or butterfat as computed pursuant to this subpart and its value as determined pursuant to the other order to which he is subject. Such payment shall be made on or before the 15th day after the end of the month during which such Class I milk was disposed of in the marketing area.

§ 982.62 *Handler operating an unapproved plant from which Class I milk is disposed of in the marketing area.* In the case of any handler described in § 982.9 (b) who is not subject to the provisions of § 982.61, the reporting, pricing and payment provisions of this subpart shall apply only as follows:

(a) The handler shall, with respect to his total receipts and utilization of skim milk and butterfat, make reports to the market administrator pursuant to § 982.30 and shall allow verification of such reports pursuant to § 982.33;

(b) On or before the 13th day after the end of the month, the handler shall pay to the market administrator for the producer-settlement fund, with respect to all skim milk and butterfat disposed of as Class I milk on routes in the marketing area an amount equal to the difference between the value of such skim milk and butterfat at the Class I price and their value at the Class II price; and

(c) As his pro rata share of the expense of administration hereof, the handler shall pay to the market administrator, with respect to all Class I milk disposed of on routes in the marketing area, an amount per hundredweight and in the manner specified in § 982.98.

DETERMINATION OF UNIFORM PRICE

§ 982.70 *Computation of value of milk.* The value of milk received during each month by each handler from producers shall be a sum of money computed by the market administrator by multiplying the pounds of such milk in each class by the applicable class prices and adding together the resulting amounts: *Provided*, That if the handler had overage of either skim milk or butterfat, there shall be added to the above values an amount computed by multiplying the pounds of overage deducted from each class pursuant to § 982.46 by the applicable class prices.

§ 982.71 *Computation of aggregate value used to determine price(s).* For each month the market administrator shall compute an aggregate value from which to determine the uniform price(s) per hundredweight for milk of 4.0 percent butterfat content received from producers as follows:

(a) Combine into one total the values computed pursuant to § 982.70 for all handlers who made the reports prescribed in § 982.30 and who made payments pursuant to §§ 982.90 and 982.94 for the preceding month;

(b) Subtract the aggregate of the values of all plus location adjustments to producers pursuant to § 982.91, and add the aggregate of the values of all such minus adjustments;

(c) Add not less than one-half of the unobligated cash balance on hand in the producer-settlement fund; and

(d) Subtract if the average butterfat content of the milk included in these computations is greater than 4.0 percent, or add if such average butterfat content is less than 4.0 percent, an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 982.92 and multiplying the resulting figures by the total hundredweight of such milk.

§ 982.72 *Computation of uniform price.* For each of the months of July through March the market administrator shall compute the uniform price per hundredweight for all milk of 4.0 percent butterfat content received at an approved plant as follows:

(a) Divide the aggregate value computed pursuant to § 982.71 by the total hundredweight of milk included in such computation; and

(b) Subtract not less than 4 cents nor more than 5 cents.

§ 982.73 *Computation of uniform prices for base milk and excess milk.* For each of the months of April through June the market administrator shall compute the uniform prices for hundredweight for base milk and for excess milk, each of 4.0 percent butterfat content, received from producers at an approved plant as follows:

(a) Compute the total value on a 4.0 percent butterfat basis of excess milk included in these computations by (1) multiplying the hundredweight of such milk by the price for Class II milk of 4.0 percent butterfat content, and (2) adding to the result the amount, if any by which the value computed pursuant to paragraph (c) (1) of this section exceeds the value computed pursuant to paragraph (c) (2) of this section;

(b) Divide the total value of excess milk obtained in paragraph (a) of this section by the total hundredweight of such milk, and adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk of 4.0 percent butterfat received from producers;

(c) The total value of base milk included in these computations shall be the lesser of:

(1) The aggregate value computed pursuant to § 982.71 less the value computed pursuant to paragraph (a) (1) of this section, or

(2) The hundredweight of such base milk multiplied by the price for Class I milk of 4.0 percent butterfat content plus 4 cents;

(d) Divide the amount obtained in paragraph (c) of this section by the total hundredweight of base milk included in these computations;

(e) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (d) of this section. The resulting figure shall be the uniform price for base milk of 4.0 percent butterfat content received from producers.

DETERMINATION OF BASE

§ 982.80 *Computation of daily average base for each producer.* For the months of April through June of each year the market administrator shall compute a daily average base for each producer as follows, subject to the rules set forth in § 982.81:

(a) Divide the total pounds of milk received by a handler(s) from such producer during the months of October through January immediately preceding by the number of days, not to be less than ninety, of such producer's delivery in such period.

§ 982.81 *Base rules.* (a) A base shall apply to deliveries of milk by the producer for whose account that milk was delivered during the base forming period;

(b) Bases may be transferred only by notifying the market administrator in writing before the last day of any month that such base is to be transferred to the person named in such notice only as follows:

(1) In the event of the death, retirement, or entry into military service of a producer the entire base may be transferred to a member(s) of such producer's immediate family who carries on the dairy operations.

(2) If a base is held jointly and such joint holding is terminated, the entire base may be transferred to one of the joint holders.

PAYMENTS

§ 980.90 *Time and method of payment.* Each handler shall make payment as follows:

(a) On or before the 15th day after the end of the month during which the milk was received, to each producer for whom payment is not made pursuant to paragraph (c) of this section, at not less than the applicable uniform price(s) for such month computed pursuant to §§ 982.72 or 982.73, adjusted by the butterfat differential computed pursuant to § 982.92, subject to location adjustments to producers pursuant to § 982.91, and less the amount of the payment made pursuant to paragraph (b) of this section: *Provided*, That if by such date such handler has not received full payment pursuant to § 982.95, he may reduce his total payments to all producers uniformly by not less than the amount of reduction in payments from the market administrator; he shall, however, complete such payments pursuant to this paragraph not later than the date for making such payments next following receipt of the balance from the market administrator.

(b) On or before the 25th day of each month, to each producer for whom payment is not made pursuant to paragraph (c) of this section for milk received during the first 15 days of such month at not less than the Class II price of the preceding month.

(c) On or before the 13th and 23d days of each month, in lieu of payments pursuant to paragraphs (a) and (b), respectively, of this section, to a cooperative association which so requests, with respect to producers for whose milk such cooperative association is authorized to collect payment, an amount equal to the

sum of the individual payments otherwise payable to such producer. Such payment shall be accompanied by a statement showing for each producer the items required to be reported pursuant to § 982.31.

§ 982.91 *Location adjustments to producers.* (a) In making payments to producers pursuant to § 982.90 the following adjustments shall apply to the uniform price for all milk computed pursuant to § 982.72 or to the uniform price for base milk computed pursuant to § 982.73 (e):

(1) For milk received from producers at an approved plant located within 70 highway miles of the United States Post Office in Midland, Texas, each handler shall add 20 cents;

(2) For milk received from producers at an approved plant located more than 180 highway miles from the United States Post Office in Abilene, Texas, each handler may deduct the applicable amounts set forth below:

	Cents
More than 70 miles but less than 110 miles	20
110 miles or more	35

(b) The location adjustment applicable with respect to excess milk shall be computed as follows:

(1) Subtract from the total volume of Class I milk allocated to producer milk pursuant to § 982.46 the total volume of base milk received by all handlers;

(2) Divide the result by the total volume of excess milk received by all handlers; and

(3) Multiply by the rate of location adjustment applicable for base milk received at the same location and round to the nearest cent.

§ 982.92 *Producer-butterfat differential.* In making payments pursuant to § 982.90 (a), there shall be added to or subtracted from the uniform price for each one-tenth of one percent that the average butterfat content of the milk received from the producer is above or below 4.0 percent, an amount computed by multiplying by 1.2 the simple average, as computed by the market administrator of the daily wholesale selling prices per pound (using the mid-point of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the Department during the month when such milk was received, dividing the resulting sum by 10, and rounding to the nearest one-tenth of a cent.

§ 982.93 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," into which he shall deposit all payments made by handlers pursuant to §§ 982.61 (b), 982.62 (b), 982.94 and 982.96, and out of which he shall make all payments to handlers pursuant to §§ 982.95 and 982.96.

§ 982.94 *Payments to the producer-settlement fund.* On or before the 13th day after the end of the month during which the milk was received, each handler, including a cooperative association which is a handler, shall pay to the market administrator the amount, if any, by which the value of the milk received by such handler from producers as determined pursuant to § 982.70 is greater than the amount required to be paid producers by such handler pursuant to § 982.90.

§ 982.95 *Payments out of the producer-settlement fund.* On or before the 14th day after the end of the month during which the milk was received, the market administrator shall pay to each handler, including a cooperative association which is a handler, the amount, if any, by which the value of the milk received by such handler from producers during the month as determined pursuant to § 982.70 is less than the amount required to be paid producers by such handler pursuant to § 982.90: *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 982.96 *Adjustments of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in moneys due:

(a) The market administrator from such handler;

(b) Such handler from the market administrator; or

(c) Any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred.

§ 982.97 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than himself) pursuant to § 982.90 (a), shall deduct 5 cents per hundredweight or such amount not exceeding 5 cents per hundredweight as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of each month. Such moneys shall be used by the market administrator to sample, test, and check the weights of milk received and to provide producers with market information.

(b) In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section, such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers and on or before the 15th day after the end of each month pay such deduction to the cooperative association rendering such services, accompanied by a statement showing the quantity of milk for which such deduction was computed for each such producer.

§ 982.98 *Expenses of administration.* As his pro rata share of the expense of administration of this subpart, each handler shall pay to the market administrator on or before the 15th day after the end of the month, 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe, with respect to all receipts within the month of (a) other source milk which is classified as Class I milk, and (b) milk from producers, including such handler's own production.

§ 982.99 *Termination of obligation.* The provisions of this section shall apply to any obligation under this subpart for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association or producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8 (c) (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 982.100 *Effective time.* The provisions of this subpart or any amendment to this subpart shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated, pursuant to § 982.101.

§ 982.101 *Suspension or termination.* The Secretary may suspend or terminate this subpart or any provision of this subpart whenever he finds this subpart or any provision of this subpart obstructs or does not tend to effectuate the declared policy of the act. This subpart shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 982.102 *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations thereunder, the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 982.103 *Liquidation.* Upon the suspension or termination of the provisions of this subpart, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 982.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 982.111 *Separability of provisions.* If any provision of this subpart or its application to any person or circumstances, is held invalid, the application of such provision and the remaining provisions of this subpart to other persons or circumstances, shall not be affected thereby.

Issued as Washington, D. C., this 2d day of July 1952.

[SEAL] F. R. BURKE,
Acting Assistant Administrator.

[7 CFR Part 992]

IRISH POTATOES GROWN IN WASHINGTON

NOTICE OF BUDGET AND RATE OF ASSESSMENT

Notice is hereby given that the Secretary of Agriculture is considering the approval of the budget and rate of assessment hereinafter set forth, which were recommended by the State of Washington Potato Committee, established pursuant to Marketing Agreement No. 113 and Order No. 92 (7 CFR Part 992), regulating the handling of Irish potatoes grown in the State of Washington, issued under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.).

Consideration will be given to any data, views, or arguments pertaining thereto, which are filed in triplicate with the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., not later than 15 days following publication of this notice in the FEDERAL REGISTER. The proposals are as follows:

§ 992.204 *Budget of expenses and rate of assessment.* (a) The expenses necessary to be incurred by the State of Washington Potato Committee, established pursuant to Marketing Agreement No. 113 and Order No. 92, to enable such committee to carry out its functions pursuant to the provisions of the aforesaid marketing agreement and order, during the fiscal year ending May 31, 1953, will amount to $19,580.00;

(b) The rate of assessment to be paid by each handler who first ships potatoes shall be one-half of one cent ($0.005) per hundredweight of potatoes handled by him as the first handler thereof during said fiscal year; and

(c) The terms used in this section shall have the same meaning as when used in Marketing Agreement No. 113 and Order No. 92 (7 CFR, Part 992).

(Sec. 5, 49 Stat. 753; as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 2d day of July 1952.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 52-7450; Filed, July 7, 1952; 9:01 a. m.]

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 240]

RULES AND REGULATIONS UNDER SECURITIES EXCHANGE ACT OF 1934

BROKER OR DEALER EFFECTING TRANSACTIONS FOR PARTNER, OFFICER, DIRECTOR OR EMPLOYEE OF ANOTHER BROKER OR DEALER

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to adopt § 240.10b-6 (Rule X-10B-6) under the Securities Exchange Act of 1934. In substance, this rule would make it unlawful for any broker or dealer to effect any securities transaction with or for any partner, officer, director or employee of another broker or dealer, either on or off an exchange, unless he gives actual notice of the transaction to the other broker or dealer in advance and then promptly sends the other broker or dealer a copy of the confirmation. The rule would be adopted pursuant to the provisions of the Securities Exchange Act of 1934, particularly sections 10 (b) and 23 (a).

A number of investigations conducted by the Commission in recent years have involved the misappropriation of securities or funds of customers of a broker-dealer firm by some person associated with the firm. Where securities are misappropriated, the wrongdoer usually tries to avoid detection and to realize the benefits of his wrongdoing by selling the securities through another firm. When the wrongdoer sells the securities, the customers whose securities are involved are usually subjected to the burden of proving their claims, in some cases through expensive and extended legal action. In some instances the ultimate losses to customers have been substantial. In addition, the broker-dealer by whom the wrongdoer is employed, and perhaps the broker-dealer through whom the transaction is effected, may be subject to civil liabilities even though they have no knowledge of wrongdoing. These liabilities, if substantial, might in some cases affect the financial condition of such brokers and dealers, and thus result in losses to their other customers.

The Commission also announced that it has disapproved, pending its further order, a proposed rule of the National Association of Securities Dealers, Inc., which was more limited in scope in that (1) it would have applied only to members of the Association and (2) it would have required notice only under limited conditions.

The text of the Commission's proposed rule follows:

§ 240.10b-6 *Broker or dealer effecting transactions for partner, officer, director or employee of another broker or dealer.* (a) It shall be unlawful for any broker or dealer, directly or indirectly, by the use of any means or instrumentality of interstate commerce or of the mails, or of any facility of any national securities exchange, to do any act in

connection with the purchase or sale of any security, directly or indirectly, from, to or for any partner, officer, director or employee of another broker or dealer, unless:

(1) Before effecting such transaction he gives actual notice thereof to a general partner or officer of such other broker or dealer, or, if such other broker or dealer is a sole proprietor, to such proprietor; and

(2) Promptly after effecting such transaction he gives or sends a duplicate copy of the confirmation of such transaction to a general partner or officer of such other broker or dealer, or, if such other broker or dealer is a sole proprietor, to such proprietor.

(b) Where the transaction is effected for or with a general partner or officer of such other broker or dealer, the required notice shall be given and the required confirmation shall be given or sent to a general partner or officer other than the one for or with whom such transaction is to be or has been effected.

(c) This section shall not apply if the broker or dealer sustains the burden of proof that he did not know, and in the exercise of reasonable diligence could not have known, that the customer was a partner, officer, director or employee of another broker or dealer.

The text of the proposed rule of the National Association of Securities Dealers, Inc., which has been disapproved by the Commission pending further order, follows:

A member (herein called an "executing member") who knowingly executes a transaction for the purchase or sale of a security for the account of a partner, officer, registered representative or employee of another member (herein called an "employer member") shall use reasonable diligence to determine that the execution of such transaction will not adversely affect the interests of the employer member.

The obligations implicit in the preceding paragraph may be fulfilled by an executing member requesting instruction from an employer member at any time prior to the execution of such a transaction with respect to

(1) The giving of notice, or

(2) The mailing or delivery of duplicate confirmations or statements to such employer member relating to

(a) Such transaction individually, or

(b) To such transactions generally

which instructions shall be followed.

An executing member shall, prior to the execution of any such transaction, advise the person requesting such execution of the executing member's intent to give notice or information relating to such transaction to the employer member.

The text of the Commission's order disapproving the proposed rule of the National Association of Securities Dealers, Inc., and affording interested persons an opportunity to be heard is attached hereto.[1]

All interested persons are invited to submit their views and comments on the Commission's proposed rule in writing to the Securities and Exchange Commission, 425 Second Street NW., Washington, D. C., on or before July 25, 1952.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

MEMORANDUM OF AGREEMENT CONCERNING SCOPE OF TERM FARM EQUIPMENT AS USED IN EXECUTIVE ORDER 10161

1. The purpose of this memorandum is to set forth the understanding of the Production and Marketing Administration, United States Department of Agriculture, and of the National Production Authority, United States Department of Commerce, as to the scope of the term "farm equipment" as used in Executive Order 10161 (15 F. R. 6105) in order that the exact areas within which each agency is responsible for the exercise of priorities and allocation functions may be clearly defined. The National Production Authority exercises jurisdiction over the production of all machinery and equipment, including the allocation of materials for such production. It also exercises jurisdiction over the distribution of machinery and equipment other than "farm equipment." Under the Executive Order the Department of Agriculture has jurisdiction over the domestic distribution of farm equipment.

2. Under section 101 of Executive Order 10161, priorities and allocation functions of the President are delegated to the Secretary of Agriculture "with respect to * * * the domestic distribution of farm equipment." Executive Order 10200 (16 F. R. 61) continued the delegation made to the Secretary of Agriculture by Executive Order 10161. Section 901 (i) of Executive Order 10161 defines farm equipment as "equipment manufactured for use on farms in connection with the production or processing of food." However, there is need for a more precise definition of the term "farm equipment" since many items of equipment are used on farms although they are manufactured for a general market and some items having primarily a farm use are used elsewhere than on farms.

3. It is recognized that only when equipment is designed primarily for use on farms can it be said to have been "manufactured for use on farms" within the meaning of the definition of "farm equipment" contained in section 901 (i). In order to obviate any confusion as to what equipment is included within the term "farm equipment," it is hereby agreed by the Production and Marketing Administration, United States Department of Agriculture, and National Production Authority, United States Department of Commerce, that such term includes only those specific items of equipment set forth in Appendix A hereto attached; and the fact that an item of equipment not listed in Appendix A is used on a farm, or that an item of equipment listed in Appendix A is used other than on a farm, is immaterial in determining whether such equipment is within the meaning of the term "farm equipment" for the purposes of Executive Order 10161.

4. The functions of the Department of Commerce, referred to above, have been delegated to the Administrator of the National Production Authority by NPA Organizational Statement No. 1 (17 F. R. 4305) which sets forth the authority, organization, and functions of the National Production Authority. The functions of the Department of Agriculture, referred to above, have been delegated to the Administrator of the Production and Marketing Administration by Defense Food Delegation No. 1 (15 F. R. 6424; 16 F. R. 2446, 3311, and 3519).

PRODUCTION AND MARKETING ADMINISTRATION, DEPARTMENT OF AGRICULTURE, HAROLD K. HILL, *Acting Administrator.*

JUNE 18, 1952.

NATIONAL PRODUCTION AUTHORITY, DEPARTMENT OF COMMERCE, HENRY H. FOWLER, *Administrator.*

JUNE 26, 1952.

APPENDIX A

EQUIPMENT INCLUDED WITHIN THE DEFINITION OF THE TERM FARM EQUIPMENT FOR PURPOSES OF SECTION 101 OF EXECUTIVE ORDER 10161

Tractors, farm:
- Tractors, farm, wheel-type, under 70 h. p.
- Garden tractors.
- Motor tillers.

Plows and listers:
- Bedders.
- Listers.
- Middlebusters and middlebreakers.
- Plows, moldboard.
- Plows, disc.
- Plows, cylinder.
- Plows, subsoil.
- Plows, ditching.
- Plows, harrow.
- Plow stocks.
- Tillers, disc.
- Tillers, basin.
- Plows, cane-row.

Harrows, rollers, pulverizers, and stalk cutters:
- Harrows, disc.
- Harrows, spike-tooth.
- Harrows, spring-tooth.
- Rollers, land, excluding lawn rollers.
- Soil pulverizers and packers.
- Combination harrows and rollers.
- Rollers, seed-bed.
- Ridge busters.
- Field markers.
- Cutters, stalk.
- Cutters, weed, rotary blade, farm-type.
- Cutters, brush, tractor-drawn.
- Shredders, stalk.
- Pulverizers, stalk.
- Stubble shavers, cane.

Planting and seeding equipment:
- Planters, corn, cotton, and peanut.
- Planters, garden or vegetable.
- Planters, potato.
- Planters, cane.
- Planters, legume and grass.
- Transplanters.
- Drills, grain.
- Drills and planters, beet and bean.
- Seeders, broadcast.
- Cutters, potato.

Fertilizing equipment:
- Fertilizer distributors.
- Lime spreaders.
- Limestone pulverizers, farm-size, under 14 inches.
- Manure spreaders.
- Manure loaders.

Cultivators and weeders:
- Cultivators, drawn, mounted, and hand-wheel-type.
- Hillers, drawn or mounted.
- Hoes, rotary.
- Weeders, drawn or mounted.
- Weeders, rod.
- Weeders, cyclone.
- Choppers, cotton.
- Thinners, beet and vegetable.
- Cultivators, flame.

Sprayers and dusters, agricultural:
- Dusters.
- Sprayers, traction and power.
- Sprayers, hand, capacity 1 quart or over.
- Spray pumps.

Harvesting equipment:
- Combines, harvester-thresher.
- Binders, grain and rice.
- Binders, corn.
- Binders, hemp.
- Cutters and pullers, bean.
- Diggers and pickers, potato.
- Diggers, peanut.
- Harvesters, cotton, spindle-type.
- Harvesters, cotton, stripper-type.
- Harvesters, castor bean, stripper-type.
- Harvesters, potato.
- Harvesters, green pea.
- Harvesters, sweet corn.
- Harvesters, spinach.
- Harvesters, soya bean, one-row.
- Harvesters, broom corn.
- Harvesters, cranberry.
- Harvesters or cutters, corn, not binding.
- Harvesters or strippers, grass seed.
- Harvesting equipment, gum naval stores.
- Pickers, corn.
- Pickers, hop.
- Pullers, flax.
- Pullers and pickers, vegetable.
- Swathers.
- Windrowers.

Haying equipment:
- Mowers, excluding lawn mowers.
- Rakes, excluding hand rakes.
- Tedders.
- Loaders, loose hay.
- Loaders, baled hay, field.
- Balers, hay and straw.
- Crushers, hay.
- Forage harvesters, field, including basic unit, and ensilage (row-crop), grass, and field hay chopper attachments.
- Stackers, including combination stacker-loaders.

Machines for preparing crops for market or for use:
- Threshers, stationary.
- Pickers and threshers, peanut.
- Cutters, ensilage, silo fillers.
- Cutters, feed, hand and power.
- Shellers, corn, hand and power.
- Huskers and shredders, corn.
- Ballers, broom corn.
- De-seeders, broom corn.
- Grinders and crushers, feed, farm-type.
- Mixers, feed, farm-type.

Cleaners and graders, grain and seed, farm-type.
Sorters, graders, washers, and sackers, fruit, vegetable and potato, farm-type.
Hullers, graders, and sackers, nut, farm-type.
Toppers, vegetable.
Bunchers and tiers, vegetable.
Driers, grain, hay, and seed, farm-size.
Treaters, seed, farm-size.
Hullers and cleaners, castor bean, field-type.
Curers, tobacco.
Evaporators, cane and maple syrup.
Mills, cane, farm-size.
Cider mills and fruit presses.
Elevators and blowers, farm:
Elevators, grain, portable and stationary.
Blowers, grain and forage.
Transportation equipment, farm (not motor):
Wagons and trucks.
Trailers.
Sleighs, horse-drawn.
Buggies and spring wagons.
Wagons and carts, cane.
Trucks, tobacco.
Gears, wagon, truck, and trailer.
Boxes and racks, wagon, truck, and trailer.
Sulkies, farm.
Water supply equipment, farm except irrigation:
Water systems, domestic.
Pumps, pitcher, hand, and windmill.
Pump jacks.
Pump cylinders.
Windmills.
Irrigation distribution equipment:
Pipe or tubing and extensions (converted for portable irrigation systems).
Sprinklers, irrigation, excluding lawn sprinklers.
Gates, flood, irrigation, manually operated, farm-size.
Fittings, quick-coupling, irrigation.
Risers, irrigation.
Syphons, irrigation.
Earth-moving equipment, farm, not self-powered:
Land levelers.
Blade ditchers and terracers.
One disc terracers.
Corrugators.
Scrapers, farm-type.
Dozers, farm-type, under 5 feet blade length.
Dairy farm machines and equipment:
Milking machines and milker units.
Separators, cream, under 1,500 pounds per hour.
Coolers, milk, farm, all types including can coolers.
Butter-making equipment, farm.
Pails, milk.
Strainers, milk.
Stirrers, milk and cream.
Cans, cream-setter.
Tanks, sterilizing.
Tanks, dairy-washing.
Water heaters, dairy, excluding boiler and pressure-type heaters.
Racks, milk-can.
Pasteurizers, milk, farm-home-size.
Barn and barnyard equipment:
Carriers, feed and litter.
Trucks, feed.
Hay-unloading equipment.
Stalls, stanchions and pens, livestock.
Cups and bowls, livestock-drinking.
Tanks and troughs, livestock.
Tanks, livestock-dipping.
Feeders, livestock.
Waterers, hog.
Oilers, hog.
Cookers, feed.
Heaters, tank, livestock.
Rings and ringers, hog.
Dehorning equipment, cattle.
Kickers, anti-cow.
Staffs, bull.
Rings, bull.
Cattle prods.
Cleaners, barn gutter, mechanical.
Tags, identification, livestock.
Chains, halter.
Curry combs.
Applicators, insecticide, livestock.
Branding equipment, livestock.
Brooders, lamb and pig.
Clippers and shearing machines, power, livestock.
Weaners, calf.
Poultry farm equipment:
Incubators, poultry.
Brooders, poultry.
Batteries, growing and laying.
Feeders, poultry.
Waterers, poultry.
Heaters, fountain.
Nests, laying.
Baskets, egg.
Boxes, grit.
Bands, leg and wing.
Graders, egg.
Candlers, egg.
Scales, egg.
Washers, egg, farm-size.
Coolers, egg.
Equalizers, draft.
Caps, chimney.
Saddles, roof, poultry-house.
Saddles, turkey.
Punches, poultry.
Cones, killing.
Catchers, fowl.
Farm machines and equipment not elsewhere classified:
Beekeepers' supplies.
Controllers and accessories, electric-fence.
Shredders, soil, farm, stationary-type.
Bug catchers, tractor-mounted.
Diggers, post-hole, tractor-mounted, farm-type.
Post drivers and pullers, power, farm-type.
Stone pickers.
Stump pullers.
Burners, weed and pear.
Heaters, orchard, including smudge pots.
Wind-frost-protection machines.
Silos.
Unloaders, silo.
Wood-sawing machines, farm, including self-powered cross-cut and drag, 5 h. p. and less, but excluding chain saws.
Shoes, horse, mule, and oxen, wrought-iron.
Detasslers, corn.
Repair parts and attachments for farm equipment:
Repair and replacement parts and attachments, designed and manufactured specifically for use on farm equipment as defined herein.

[F. R. Doc. 52-7493; Filed, July 3, 1952; 4:35 p. m.]

SUGARCANE INDUSTRY; WAGE RATES AND PRICES

NOTICE OF HEARING AND DESIGNATION OF PRESIDING OFFICERS

Pursuant to the authority contained in subsections (c) (1) and (c) (2) of section 301 of the Sugar Act of 1948 (61 Stat. 929; 7 U. S. C., Sup. 1131), notice is hereby given that a public hearing will be held at Thibodaux, Louisiana, in the Grand Theater, on July 31, 1952, at 9:30 a. m.

The purpose of such hearing is to receive evidence likely to be of assistance to the Secretary of Agriculture in determining (1), pursuant to the provisions of section 301 (c) (1) of said act, fair and reasonable wage rates for persons employed in the harvesting of the 1952 crop of sugarcane and in the planting and cultivation of sugarcane during the calendar year 1953 and (2), pursuant to the provisions of section 301 (c) (2) of said act, fair and reasonable prices for the 1952 crop of sugarcane to be paid, under either purchase or toll agreements, by processors who as producers apply for payments under said act. In order to obtain the best possible information, all interested persons are requested to appear to express their views and present appropriate data in regard to the foregoing matters.

The hearing, after being called to order at the time and place mentioned herein, may be continued from day to day within the discretion of the presiding officers and may be adjourned to a later day or to a different place without notice other than the announcement thereof at the hearing by the presiding officers.

Tom O. Murphy and Ward S. Stevenson are hereby designated as presiding officers to conduct either jointly or severally the foregoing hearing.

Issued this 2d day of July 1952.

[SEAL] THOS. H. ALLEN,
Acting Director, Sugar Branch.

[F. R. Doc. 52-7452; Filed, July 7, 1952; 9:02 a. m.]

DEPARTMENT OF COMMERCE

Federal Maritime Board

PACIFIC TRANSPORT LINES, INC., ET AL.

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended.

Pacific Transport Lines, Inc., and Pacific Argentine Brazil Line, Inc., and Pope & Talbot, Inc.:

Agreement No. 7846-1, between the above named companies modifies the basic Agreement No. 7846 by including Portland, Seattle and Los Angeles Harbor as additional ports of transhipment. Agreement 7846 covers the transportation of cargo from the Far East to specified ports in Puerto Rico, with transhipment at San Francisco and Oakland.

The Booth Steamship Company, Inc., and Lamport & Holt Line, Ltd., and Moore-McCormack Lines, Inc., et al.:

Agreement No. 7525-2 between the above named companies and the other parties to Agreement No. 7525 modifies said agreement by providing that the agreement shall be known as the "East Coast South America/New York Free Time Agreement" and by removing certain provisions from the agreement which are considered to be tariff provisions. It further provides for the designation of a chairman, holding of meetings, keeping minute records and the disposition of expenses of maintaining and carrying on the agreement.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to either of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: June 30, 1952.

By order of the Federal Maritime Board.

[SEAL] A. J. WILLIAMS,
Secretary.

CROSS REFERENCE: For the memorandum of agreement between the Production and Marketing Administration, United States Department of Agriculture, and the National Production Authority, United States Department of Commerce, as to the scope of the term "farm equipment" as used in Executive Order 10161, see F. R. Doc. 52-7493, Department of Agriculture, Production and Marketing Administration, *supra*.

CIVIL AERONAUTICS BOARD

[Docket No. 5067 et al.]

AIR TRANSPORT ASSOCIATES, INC., ET AL., PACIFIC-NORTHWEST-ALASKA TARIFF INVESTIGATION

NOTICE OF HEARING

In the matter of certain fares, rates, charges, routings, rules, and regulations between the vicinities of Portland, Oreg., and Seattle, Wash., on the one hand, and Anchorage and Fairbanks, Alaska, on the other, of Air Transport Associates, Inc., Alaska Airlines, Inc., Northwest Airlines, Inc., Pacific Northern Airlines, Inc., Pan American World Airways, Inc., United Air Lines, Inc., Western Air Lines, Inc., General Airways, Inc., Agent R. C. Lounsbury's (C. A. B. No. 124), All American Airways, Inc., American Air Export and Import Company, Aviation Corporation of Seattle, Argonaut Airways Corporation, Air Cargo Express, Inc., Blatz Airlines, Inc., California Air Charter, Inc., Coastal Cargo Co., Inc., Meteor Air Transport, Inc., Monarch Air Service, Peninsular Air Transport, S. S. W., Inc., Unit Export Company, Inc., World Airways, Inc., Modern Air Transport, Inc., Aero Finance Corporation, Air Services, Inc., Arctic-Pacific, Inc., Arnold Air Service, Inc., Federated Airlines, Inc., Freight Air, Inc., Great Lakes Airlines, Inc., Lavery Airways, Inc., Miami Airline, Inc., New England Air Express, Inc., Overseas National Airways, Pearson Alaska, Inc., Royal Air Service, Sourdough Air Transport, Southern Air Transport, Inc., Standard Air Cargo, Trans-Alaskan Airlines, Inc., Trans-Ocean Air Lines, known as the Pacific-Northwest-Alaska Tariff Investigation.

Notice is hereby given that pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 205, 403, 404, 411 and 1002 thereof, the above-entitled proceeding is assigned for hearing in two sessions, the first commencing on July 21, 1952, at 10:00 a. m., P. d. s. t., in the Board Room of the Portland Chamber of Commerce, 824 Southwest Fifth Avenue, Portland, Oreg., before Examiner Paul N. Pfeiffer. The second session is assigned for hearing on August 18, 1952, at 10:00 a. m., e. d. s. t., in Room E-210, Temporary Building No. 5, Sixteenth Street and Constitution Avenue NW., Washington, D. C.

Without limiting the scope of the issues presented by the various pleadings filed in this proceeding, particular attention will be directed to the following questions:

1. The lawfulness, from the standpoint of reasonableness of level, of all cargo rates filed by all U. S.-Alaska air carriers affecting transportation of property between the vicinities of Seattle, Wash., and Portland, Oreg., on the one hand, and Anchorage and Fairbanks, Alaska, on the other.

2. The lawfulness, from the standpoint of reasonableness of level of all passenger fares filed by all U. S.-Alaska air carriers affecting transportation of persons between the vicinities of Seattle, Wash., and Portland, Oreg., on the one hand, and Anchorage and Fairbanks, Alaska, on the other.

3. Does the refusal of Alaska Airlines, Inc., to establish joint fares and equitable divisions thereof with Pan American World Airways, Inc., for connecting transportation of passengers by the two airlines between Seattle, Wash., and Anchorage, Alaska, via Fairbanks, Alaska, constitute a violation of sections 404 (a) and 411 of the act?

4. Are the common rates applicable to Seattle, Wash., and Portland, Oreg., and the common rates and fares applicable to Fairbanks and Anchorage, Alaska, filed by parties to this proceeding unduly prejudicial and/or unduly preferential to any locality, passenger, or shipper within the meaning of section 404 (b) of the act?

5. Are the standard passenger fares of Pan American World Airways, Inc., Alaska Airlines, Inc., and Northwest Airlines, Inc., the southbound space available rate on cargo flights of Pan American World Airways, Inc., and Alaska Airlines, Inc., and the fares on tourist flights of Northwest Airlines, Inc., unduly discriminatory within the meaning of section 404 (b) of the act?

6. Is the freighter class fare for the carriage of passengers on freighter type aircraft from Anchorage, Alaska, to Seattle, Wash., filed by Northwest Airline, Inc., unreasonably low?

7. To the extent that any of the foregoing fares, charges, rates, routings, and regulations are found to be unlawful what are the lawful tariff provisions which should be presented?

For further details of the issues involved in this proceeding the parties and interested persons are referred to Orders Serial Nos. E-5590, E-5591, E-5752, E-5801, E-5845, E-6140, E-6152, E-6164, E-6215, E-6263, E-6458, E-6464, E-6489, and E-6548, the Prehearing Conference Report served September 26, 1951, and the Second Prehearing Conference Report served May 22, 1951, as well as other material on file in the Dockets of this proceeding at the Civil Aeronautics Board.

Notice is further given that any persons other than parties of record desiring to be heard in this proceeding shall file with the Board on or before July 21, 1952 a statement setting forth the issues of fact or law raised by this proceeding which he desires to controvert.

Dated at Washington, D. C., July 2, 1952.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

FEDERAL POWER COMMISSION

[Docket No. G-1301]

TENNESSEE GAS TRANSMISSION CO.

NOTICE OF PETITION

JULY 1, 1952.

Take notice that on June 17, 1952, Tennessee Gas Transmission Company (Applicant), a Delaware corporation having its principal office in Houston, Texas, filed a petition pursuant to section 16 of the Natural Gas Act, to amend an order of the Commission issued June 21, 1950, granting a certificate of public convenience and necessity to Applicant authorizing the construction and operation of a meter station near Morehead, Kentucky, and the sale of natural gas on an interruptible basis to the City of Morehead for resale therein.

Applicant proposes to render service to the city of Morehead on a firm basis and supply 500 Mcf daily in accordance with the terms of a gas sales contract to be executed.

The petition recites service is now being rendered on an interruptible basis.

Protests or petitions to intervene should be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 21st day of July 1952. The petition is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 52-7407; Filed, July 7, 1952; 8:53 a. m.]

[Project No. 659]

CRISP COUNTY, GEORGIA

NOTICE OF APPLICATION FOR AMENDMENT OF LICENSE

JULY 1, 1952.

Public notice is hereby given that Crisp County, Georgia, of Cordele, Georgia, has filed application under the Federal Power Act (16 U. S. C. 791a–825r) for amendment of the license for water-power Project No. 659 located on Flint River near Warwick in Crisp, Lee, Sumter, and Worth Counties, Georgia, to show certain changes which have been made in the project works consisting principally of the operation of the reservoir at elevation 531.0, present operating level; the reconstruction and relocation of the switchyard and substation from the powerhouse to the east embankment adjacent to the powerhouse and relocation of two 46 kv. transmission lines emanating from the switchyard; and the installation of a third generating unit with a capacity of 6,800 horsepower and to provide for construction of an emergency spillway channel to be located beyond the end of the west embankment and the minimum release of zero flow instead of 800 second-feet.

Any protest against the approval of this application or request for hearing thereon, with the reasons for such protest or request and the name and address of the party or parties so protesting or requesting, should be submitted before August 5, 1952, to the Federal Power Commission, Washington 25, D. C.

[SEAL] LEON M. FUQUAY,
Secretary.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27195]

MERCHANDISE IN MIXED CARLOADS FROM EASTERN POINTS TO FLORIDA AND GEORGIA

APPLICATION FOR RELIEF

JULY 2, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin and I. N. Doe, Agents, for carriers parties to Agent C. W. Boin's tariff I. C. C. No. A–936.

Commodities involved: Merchandise in mixed carloads.

From: Philadelphia, Pa., New York, N. Y., and points taking same rates, to St. Petersburg, Fla., and from Boston, Mass., and points taking same rates, and from Baltimore, Md., to Savannah and Port Wentworth, Ga.

Grounds for relief: Circuitous routes, competition with rail carriers, competition with motor carriers.

Schedules filed containing proposed rates: C. W. Boin, Agent, I. C. C. No. A–936, supl. 5.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL,
Secretary.

[4th Sec. Application 27196]

PIG IRON FROM EASTERN POINTS TO NEW ENGLAND TERRITORY

APPLICATION FOR RELIEF

JULY 2, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin and I. N. Doe, Agents, for carriers parties to Agent C. W. Boin's tariff ICC A–744.

Commodities involved: Pig iron and articles taking same rates, carloads.

From: Baltimore, Md., and Philadelphia, Pa., and stations taking same rates, Camden, N. J., Chester-Marcus

Hook, Pa., Claymont and Wilmington, Del.

To: Points in New England territory.

Grounds for relief: Competition with rail carriers, circuitous routes, to maintain grouping.

Schedules filed containing proposed rates: B. & O. tariff ICC No. 23611, supl. 31; P. R. R. tariff ICC No. 3156, supl. 11; Reading Co. tariff ICC No. 2342, supl. 7; W. Md. Ry. tariff ICC No. 8637, supl. 72.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

OFFICE OF DEFENSE MOBILIZATION

[RC 51; No. 404]

WILLISTON, NORTH DAKOTA AREA

DETERMINATION AND CERTIFICATION OF A CRITICAL DEFENSE HOUSING AREA

JULY 7, 1952.

Upon specific data which has been prescribed by and presented to the Secretary of Defense and the Director of Defense Mobilization and on the basis of other information available in the discharge of their official duties, the undersigned find that the conditions required by section 204 (l) of the Housing and Rent Act of 1947, as amended, exist in the area designated as

Williston, North Dakota, Area. (The area consists of Williams County and that part of McKenzie County north of the south line of Township 150, all in North Dakota.)

Therefore, pursuant to section 204 (l) of the Housing and Rent Act of 1947, as amended, and Executive Order 10276 of July 31, 1951, the undersigned jointly determine and certify that the aforementioned area is a critical defense housing area.

WILLIAM C. FOSTER,
Acting Secretary of Defense.
JOHN R. STEELMAN,
Acting Director of Defense Mobilization.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1250]

PENNSYLVANNIA EDISON CO. ET AL.

ORDER APPROVING POST-EFFECTIVE AMENDMENT

JULY 1, 1952.

In the matter of Pennsylvania Edison Company, Pennsylvania Electric Company, Associated Electric Company, File No. 70-1250.

On July 2, 1946, Associated Electric Company ("Aelec"), a registered holding company, and two of its public-utility subsidiary companies, Pennsylvania Electric Company ("Penelec") and Pennsylvania Edison Company ("Pened"), consummated a plan, filed under section 11 (e) of the Public Utility Holding Company Act of 1935 pursuant to which, among other things, (1) Pened was merged into Penelec and Pened was dissolved, (2) the holders of Pened's $5 series and $2.80 series preferred stock received the liquidation value of their preferred stocks provided they transmitted their stock certificates to a named paying agent prior to July 2, 1952, and (3) upon such payment, the paying agent overstamped the stock certificates with a legend indicating that payment of the liquidation value had been made and that holders of the overstamped certificates were entitled to receive such additional amounts, if any, as might thereafter be finally determined, provided such overstamped certificates were transmitted to the paying agent for payment within three years after such final determination; and

It having been finally determined on September 15, 1949, that the holders of certificates of Pened's $5 series and $2.80 series preferred stock were entitled to receive certain payments in addition to the liquidation value of their preferred stocks; and

Aelec and Penelec having filed a post-effective amendment to the section 11 (e) plan wherein it is proposed that the time be extended to September 30, 1952, within which holders of the stock certificates and the overprinted stock certificates of Pened's $5 series and $2.80 series preferred stock may surrender such certificates to the paying agent and receive final payment thereon; and

The Commission having considered such post-effective amendment and deeming it appropriate in the public interest and in the interest of investors that such post-effective amendment be approved:

It is ordered, That the said post-effective amendment be, and hereby is, approved.

It is further ordered, That jurisdiction be, and hereby is, reserved to take such further action as the Commission might deem appropriate in connection with the consummation of the plan.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[F. R. Doc. 52-7397; Filed, July 7, 1952; 8:50 a. m.]

[File No. 70-2807]

PUBLIC SERVICE CO. OF NEW HAMPSHIRE

SUPPLEMENTAL ORDER GRANTING EXTENSION OF TIME TO CONSUMMATE ISSUANCE AND SALE OF NOTES

JULY 1, 1952.

Public Service Company of New Hampshire ("New Hampshire"), a public utility subsidiary of New England Public Service Company, a registered holding company, which in turn is a subsidiary company of Northern New England Company, also a registered holding company, having filed an application, pursuant to the first sentence of section 6 (b) of the Public Utility Holding Company Act of 1935, with respect to the proposed issuance and renewal, from time to time up to and including June 30, 1952, of notes having a maturity of three months or less in a maximum amount not to exceed $7,500,000 at any one time outstanding (including notes then outstanding); and

The Commission by its order dated March 20, 1952 having granted said application, subject to the terms and conditions contained in Rule U-24; and

The applicants having notified the Commission that the aforementioned transactions have been partially consummated and that the amount of its outstanding short-term notes aggregates $5,825,000, and having requested that the Commission extend the period within which the transactions may be completely consummated to August 31, 1951; and

The Commission deeming it appropriate to grant such request:

It is ordered, That the period within which the aforesaid transactions may be consummated be, and it hereby is, extended to August 31, 1952.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[File No. 70-2853]

GLOUCESTER GAS LIGHT CO. AND NEW ENGLAND ELECTRIC SYSTEM

ORDER PERMITTING ISSUANCE AND SALE OF CAPITAL STOCK BY SUBSIDIARY TO PARENT

JULY 1, 1952.

New England Electric System ("NEES"), a registered holding company, and its public-utility subsidiary company, Gloucester Gas Light Company ("Gloucester"), having filed a joint application-declaration, with an amendment thereto, pursuant to sections 6 (b), 9 (a) and 10 of the act and Rules U-23 and U-42 (b) (2) promulgated thereunder, with respect to the following proposed transactions:

Gloucester proposes to issue and sell, for a total consideration of $400,000 cash, 8,000 shares of additional capital stock, $50 par value, at a price of $50 per share. NEES, the sole stockholder of Gloucester, proposes to acquire such shares and will use available cash for such purpose.

Pursuant to a bank loan agreement with the National City Bank of New York, Gloucester on May 14, 1952 had outstanding $400,000 principal amount of unsecured promissory notes, due April 1, 1953. Gloucester, in addition, has outstanding advances payable to NEES of $55,000 representing borrowings made for construction. The proceeds from the proposed issuance and sale of capital stock will be used by Gloucester to pay its outstanding note indebtedness under its loan agreement. The application-declaration states that Gloucester will effect savings in interest charges of $14,000 per annum as a result of the proposed transactions.

The application-declaration further states that the total expenses to Gloucester and NEES in connection with the proposed transactions, including services rendered by New England Power Service Company, an affiliated service company, at the actual cost thereof, are estimated at $1,140 and $300, respectively.

The Department of Public Utilities of the Commonwealth of Massachusetts has approved the proposed issuance and sale of capital stock and, according to the application-declaration, no other State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

It is requested that the Commission's order herein become effective upon issuance.

Due notice of said filing having been given, and the Commission not having received a request for a hearing with respect to said joint application-declaration, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said joint application-declaration, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that said joint application-declaration, as amended, be granted and permitted to become effective forthwith:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that the joint application-declaration, as amended, be and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

CENTRAL MASSACHUSETTS GAS CO. AND NEW ENGLAND ELECTRIC SYSTEM

ORDER PERMITTING ISSUANCE AND SALE OF SHARES OF CAPITAL STOCK BY SUBSIDIARY TO PARENT

JULY 1, 1952.

New England Electric System ("NEES"), a registered holding company, and its public utility subsidiary, Central Massachusetts Gas Company ("Central Mass."), having filed a joint application-declaration, with an amendment thereto, pursuant to sections 6 (b), 9 (a) and 10 of the act and Rules U-23 and U-42 (b) (2) promulgated thereunder, with respect to the following proposed transactions:

Central Mass. proposes to issue and sell, for a total consideration of $200,000 cash, 8,000 shares of additional capital stock, $25 par value, at a price of $25 per share. NEES, the sole stockholder of Central Mass., proposes to acquire such additional shares and will use available cash for such purpose.

Pursuant to a bank loan agreement with The National City Bank of New York, Central Mass. on May 1, 1952 had outstanding $600,000 principal amount of note indebtedness, due April 1, 1953. The application-declaration states that the proceeds from the proposed issuance and sale of capital stock will be used by Central Mass. to pay $200,000 principal amount of its note indebtedness and will effect savings in interest charges of $7,000 per annum as a result of the proposed transactions.

The application-declaration further states that the total expenses to Central Mass. and to NEES in connection with the proposed transactions, including services rendered by New England Power Service Company, an affiliated service company, at the actual cost thereof, are estimated at $820 and $300, respectively.

The application-declaration further states that the Department of Public Utilities of the Commonwealth of Massachusetts has approved the proposed issuance and sale of capital stock and that no other State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

It is requested that the Commission's order herein become effective upon issuance.

Due notice of said filing having been given, and the Commission not having received a request for a hearing with respect to said joint application-declaration, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said joint application-declaration, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied, and deeming it appropriate in the interest of investors and consumers that said joint application-declaration, as amended, be granted and permitted to become effective forthwith:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that the joint application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[File No. 70-2857]

GENERAL PUBLIC UTILITIES CORP.

SUPPLEMENTAL ORDER APPROVING SUBSCRIPTION PRICE AND OTHER TERMS RELATING TO SALE OF ADDITIONAL SHARES OF COMMON STOCK

JULY 1, 1952.

General Public Utilities Corporation ("GPU"), a registered holding company, having filed an application-declaration, with amendments thereto, under the Public Utility Holding Company Act of 1935 ("the act") with respect to the issuance and sale of 531,949 additional shares of common stock through subscription warrants to its common stockholders on the basis of one share for each fifteen shares held on July 1, 1952 (the record date), with respect to the sale by GPU of the fractional interest shares (estimated at 25,000 full shares) for distribution of the net proceeds, and with respect to the acquisition and sale of GPU common stock for stabilization purposes, all as more fully set forth in the order entered herein on June 27, 1952; and

The Commission in said order having granted and permitted to become effective said application-declaration as amended, except that the proposed transactions were not to be consummated until certain specified information should be supplied by further amendment and a further order issued thereon, and subject to reservation of jurisdiction also over fees and expenses incurred in consummating the proposed transactions; and

GPU having filed a further amendment to the application-declaration setting forth: (a) the subscription price, which is to be $21 per share; (b) the compensation to be paid by GPU to participating dealers for the successful solicitation of the exercise of subscription warrants, which will be 30 cents per share, with a maximum of $250 with respect to any single stockholder; (c) the compensation to be paid by GPU to participating dealers or others with respect to the shares sold to them in accordance with the terms specified in the Participating Dealer Agreement, which will be 45 cents per share; (d) the fixed amount per share which is to be added to the last quoted asked price for GPU common shares on the New York Stock Exchange in order to determine the upper limit of the range within which GPU may determine the price applicable to sales of common stock by participating dealers or others and to sales of common stock by GPU to participating dealers or others under the Participating Dealer Agreement, which will be 20 cents per share; (e) the minimum price per right to be paid by GPU in effecting purchases of rights, as provided in said application-declaration as amended, which will be 5 cents per right; and

The Commission having examined said amendment and having considered the record herein, and finding no reason for imposing terms and conditions with respect to the detailed provisions aforesaid:

It is ordered, That the application-declaration as further amended be, and the same hereby is, granted and permitted to become effective forthwith.

subject to the terms and conditions prescribed in Rule U-24.

It is further ordered, That jurisdiction be, and the same hereby is, continued with respect to: (1) the price at which GPU will sell to the successful bidder the fractional interest shares, and the reoffering price of such shares; (2) all fees and expenses incurred in connection with the proposed transactions, except those proposed to be paid to the participating security dealers and others, as hereinabove set forth.

By the Commission.

[F. R. Doc. 52-7399; Filed, July 7, 1952; 8:51 a. m.]

[File No. 812-792]

ATLAS CORP. AND NORTHEAST AIRLINES, INC.

NOTICE OF APPLICATION

JULY 1, 1952.

Notice is hereby given that Atlas Corporation (hereinafter called "Atlas"), a registered investment company, and Northeast Airlines, Inc. (hereinafter called "Northeast"), an affiliated person of Atlas, have filed an application pursuant to section 17 (b) of the Investment Company Act of 1940 for an order of the Commission exempting from the provisions of section 17 (a) of the act, the proposed purchase by Northeast from Consolidated Vultee Aircraft Corporation (hereinafter called "Consolidated"), also an affiliated person of Atlas, of one Convair Model 340 aircraft at a base price of $535,000 subject to an escalator clause relating to Consolidated's cost of manufacture which clause may increase the price of such aircraft from the aforesaid base price to not more than $575,000. In addition, notice is given that the applicants seek an order under section 17 (b) to the extent applicable in connection with the proposed purchase of radio equipment to be used in the aforesaid aircraft at an estimated cost of $15,000, of which approximately $13,000 will be purchased by Northeast from outside sources and the balance from Consolidated.

Atlas is registered under the Act as a closed-end, non-diversified, management, investment company. Northeast is engaged as a scheduled air carrier of persons, property and mail. Consolidated is engaged in the design, manufacture and sale of military and commercial aircraft.

As of June 2, 1952 Atlas owned 392,663 shares or approximately 47 percent of the 834,515 shares of outstanding common stock and 42,959 shares or approximately 98 percent of the 43,822 shares of outstanding convertible preferred stock of Northeast. Each share of such common stock and preferred stock is entitled to one vote per share so that Atlas owned approximately 49 percent of the outstanding voting stock of Northeast, which by reason of the provisions of section 2 (a) (3) (B) constitutes Northeast an affiliated person of Atlas. Also by reason of such ownership and section 2 (a) (9) of the act Atlas is presumed to control Northeast.

Atlas owns 430,300 shares, or approximately 18 percent of the 2,379,298 shares of outstanding voting stock of Consolidated, as a result of which Consolidated is an affiliated person of Atlas by reason of the provisions of section 2 (a) (3) (B) of the act. Also by virtue of an order of the Commission entered May 4, 1948, Atlas is deemed to control Consolidated.

In view of such control of both Northeast and Consolidated by Atlas, section 17 (a) (1) of the act would prohibit Consolidated from selling the aircraft and radio equipment to Northeast and section 17 (a) (2) of the act would prohibit Northeast from purchasing the aircraft and radio equipment from Consolidated in the absence of an order of the Commission pursuant to section 17 (b) of the act.

The application sets forth the following, among other facts, in support of the request for an order of exemption.

On May 28, 1951, Northeast filed with the Civil Aeronautics Board (hereinafter called "CAB") an application, dated May 24, 1951, for the approval of the purchase by Northeast from Consolidated of five Convair Model 340 aircraft, together with certain parts and equipment for use in connection therewith, at a price of $535,000 per aircraft. By order of the CAB dated June 29, 1951 (Docket No. 4956), the CAB found that the proposed purchase of such aircraft by Northeast does not appear to be contrary to the public interest nor in violation of the spirit of CAB Order No. E-1437 entered April 23, 1948. The order approved the purchase and provided that the purchase of any additional parts or equipment for use in or on said aircraft, or any repairs, alterations or reworking of said aircraft, by Consolidated, shall not require prior approval by the CAB.

After the entry of the order of the CAB, dated June 29, 1951, Northeast and Atlas filed with the Commission an application dated June 19, 1951, pursuant to section 17 (b) of the Investment Company Act of 1940, for an order exempting from the provisions of section 17 (a) of said act the purchase by Northeast from Consolidated of the five Convair Model 340 Aircraft, together with certain parts and equipment for use therein and thereon, at a price of $535,000 per aircraft. Thereafter Northeast determined to purchase only four such aircraft, and by Amendment No. 1 to its said application dated July 19, 1951, the request for exemption was amended to cover the purchase of four Convair Model 340 Aircraft, together with certain parts and equipment for use therein and thereon.

By order of the Commission dated October 22, 1951, the proposed purchase by Northeast from Consolidated of the four Convair Model 340 Aircraft at a price of $535,000 per aircraft and the proposed purchase by Northeast from Consolidated of the spare parts and equipment for said aircraft, described in the application at an estimated price of $724,550, were exempted from the provisions of section 17 (a) of the Investment Company Act of 1940.

Thereafter Northeast entered into a contract with Consolidated, dated December 4, 1951, for said aircraft and related parts and equipment.

An accidental landing in New York in January 1952 resulted in the total loss of one of Northeast's present fleet of Convair Model 240 Aircraft and, subject to the approval of the CAB and the Commission, Northeast determined to purchase a fifth Convair Model 340 Aircraft in replacement thereof.

By letter dated April 9, 1952, from the CAB to Northeast CAB stated its agreement that Northeast might contract for the purchase of a fifth Convair Model 340 Aircraft as authorized by its order of June 29, 1951. It was further stated that the Board understood that the contract would now be subject to an escalator clause relating to Consolidated's cost of manufacture with the maximum cost fixed at $575,000.

The application states that the purchase of the aforesaid fifth aircraft will be effected by an amendment to the contract with Consolidated, dated December 4, 1951, relating to the first four aircraft. It is proposed that the purchase price of the fifth aircraft will be paid on an installment basis comparable to that applicable to the other aircraft. Thus, it is proposed that $30,000 will be paid at the time of the execution of the amendment to the contract; $50,000 six months prior to the date fixed for the delivery of the first of the five aircraft and the balance on delivery of the aircraft which is presently scheduled for October 1953. The total cost of the fifth aircraft will include such additions as may be made to the base price of $535,000 in accordance with the escalator provisions but will not increase the price of that aircraft over $575,000.

The application states that the price to Northeast is the same as the price at which other aircraft of the same model are presently being offered for sale to others, and that Northeast's decision to acquire aircraft from Consolidated rather than from some other manufacturer has been reached independently by Northeast management and has not been influenced in any way by reason of the fact that Atlas is the controlling stockholder of both Northeast and Consolidated.

For a more detailed statement of the proposed transactions and the matters of fact and law asserted, all persons are referred to said application which is on file in the offices of the Commission in Washington, D. C.

Notice is further given that an order granting the application, in whole or in part and upon such conditions as the Commission may deem necessary or appropriate, may be issued by the Commission on or at any time after July 23, 1952, unless prior thereto a hearing upon the application is ordered by this Commission, as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may submit to the Commission in writing, not later than July 22, 1952, at 5:30 p. m., his views or any additional facts bearing upon the

application or the desirability of a hearing thereon, or a request to the Commission that a hearing be held thereon. Any such communication or request should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington, D. C.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[F. R. Doc. 52-7400; Filed, July 7, 1952; 8:51 a. m.]

NATIONAL ASSOCIATION OF SECURITIES DEALERS, INC.

ORDER DISAPPROVING PROPOSED RULE AND GIVING OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 30th day of June 1952.

The National Association of Securities Dealers, Inc., a registered securities association, having submitted to its members a proposed amendment to Article III of its Rules of Fair Practice, designated section 28, providing for notice under limited conditions to a member (the "employer member") before another member (the "executing member") knowingly executes transactions for the purchase or sale of a security for the account of a partner, officer, registered representative or employee of the employer member; and

The Association having filed said proposed amendment with the Commission on June 4, 1952; and

Subsection (j) of section 15A of the Securities Exchange Act of 1934 providing that any change in or addition to the rules of a registered securities association shall be disapproved by the Commission unless such change or addition appears to the Commission to be consistent with the requirements of subsection (b) of section 15A of said act; and

The Commission being unable to find that said proposed amendment is consistent with the requirements of subsection (b) of section 15A of the said act; and

The Commission having this day invited public comment on a proposed Rule X-10B-6 of its own on the same subject matter, which proposed rule is quoted in the release to which this order is appended,[1] and the Commission finding that notice and public procedure under section 4 (a) of the Administrative Procedure Act are impracticable and unnecessary prior to entering the present order (1) because of the opportunity for hearing which is here being afforded on the question whether the present order should be modified or vacated and (2) because the Commission deems it in the public interest to consider any comments which may be received on its own proposed rule before taking final action under subsection (j) of section 15A:

It is ordered, That said proposed amendment to Article III of the Rules of Fair Practice filed by the National Association of Securities Dealers, Inc., be, and the same hereby is, disapproved pending further order by the Commission; and

It is further ordered, That the National Association of Securities Dealers, Inc. or any interested person may file a written request with the Secretary of the Commission on or before July 25, 1952, for a hearing to determine whether the Commission's order disapproving the said proposed amendment to Article III of the Rules of Fair Practice of the National Association of Securities Dealers, Inc., should be modified or vacated; that a copy of this order and notice be served upon the National Association of Securities Dealers, Inc., forthwith; and that general notice of this order and of the opportunity for hearing be given.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

DEPARTMENT OF JUSTICE

Office of Alien Property

[Supplemental Vesting Order 18926]

AUGUST AHLSWEDE

In re: Estate of August Ahlswede, deceased. D 28-9428; E. T. Sec. 12607.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Martha Anna Emma Queckenstedt, nee Brandmueller; Hermine Johnne Spormann, nee Brandmueller; Minna Emma Anna Becker, nee Kohlenberg, also known as Emma Becker; Guenther Kohlenberg; Hermann Kohlenberg; Herbert Kohlenberg; Karl August Hermann Kohlenberg; Heinrich August Hermann Kohlenberg; Rudolf Gustav Wilhelm Kohlenberg, also known as Gustav Kohlenberg; Karl Rudolf Heinrich Herman Ahlswede, also known as Rudolf Ahlswede; Karl Ahleswede; Martha Rebecka Margareta, also known as Martha Meyer Luehrs and as Martha Meyer; Heinrich Christian Meyer; and Carl August Meyer; whose last known address is Germany, on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany and are, and prior to January 1, 1947, were nationals of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the persons named in subparagraph 1 hereof in and to the estate of August Ahleswede, deceased, which is in the process of administration by Francis J. Mulligan, Public Administrator of New York County, as Administrator, acting under the judicial supervision of the Surrogate's Court, New York, is property which is, and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that such persons be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 2, 1952.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Hans Klein, Emilie Klein and Adam Klein, whose last known address is 3 West Str., Bonn, Germany, on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany, are, and prior to January 1, 1947, were, nationals of a designated enemy country (Germany);

2. That the domiciliary personal representatives, heirs-at-law, next of kin, legatees and distributees, names unknown, of Hans Klein, including but not by way of limitation Emilie Klein and Adam Klein, who there is reasonable cause to believe, on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany, are, and prior to January 1, 1947, were, nationals of a designated enemy country (Germany);

3. That the net proceeds due or to become due under a contract of insurance evidenced by Policy No. 4 587 331 C issued by the Metropolitan Life Insurance Company, New York, New York, to Hans Klein, together with the right to demand, receive and collect said net proceeds, is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

4. That the national interest of the United States requires that the persons named in subparagraph 1 hereof and referred to in subparagraph 2 hereof be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein, shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 2, 1952.

For the Attorney General.

FRED KOERBIT

In re: Estate of Fred Koerbit, also known as Fritz Koerbitz, deceased. File No. D-28-13008 G-1.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Henny Kuhn, whose last known address is Germany, on or since December 11, 1941, and prior to January 1, 1947, was a resident of Germany, and is and prior to January 1, 1947, was a national of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the person named in subparagraph 1 hereof, in and to the Estate of Fred Koerbit, also known as Fritz Koerbitz, deceased, is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Henny Kuhn, the aforesaid national of a designated enemy country (Germany);

3. That such property is in the process of administration by Ed Nattrass, as administrator, acting under the judicial supervision of the Superior Court of the State of Washington for Snohomish County;

and it is hereby determined:

4. That the national interest of the United States requires that the person named in subparagraph 1 hereof, be treated as a person who is and prior to January 1, 1947, was a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 2, 1952.

For the Attorney General.

[Vesting Order 18933]

MARTIN E. MALCHOW

In re: Estate of Martin E. Malchow, deceased. File No. D-28-13107; E. T. Sec. 17225.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Hugo Willie Malchow, whose last known address is Germany, on or since December 11, 1941, and prior to January 1, 1947, was a resident of Germany and is, and prior to January 1, 1947, was a national of a designated enemy country (Germany);

2. That the heirs-at-law, names unknown, of Louis Karl Paul Malchow, deceased, and of John Ernst Malchow, deceased, who there is reasonable cause to believe are and on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany, are and prior to January 1, 1947, were nationals of a designated enemy country (Germany);

3. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraphs 1 and 2 hereof, and each of them, in and to the estate of Martin E. Malchow, deceased, presently being administered by Hyman Wank, as administrator, acting under the judicial super-

eference Room

vision of the Surrogate's Court, Kings County, New York, is property which is, and prior to January 1, 1947, was payable or deliverable to, or claimed by, the persons identified in subparagraphs 1 and 2 hereof, nationals of a designated enemy country (Germany);

and it is hereby determined:

4. That the national interest of the United States requires that the persons identified in subparagraphs 1 and 2 hereof be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 2, 1952.

For the Attorney General.

Washington, Wednesday, July 9, 1952

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10370

DELEGATING CERTAIN AUTHORITY OF THE PRESIDENT TO THE SMALL DEFENSE PLANTS ADMINISTRATOR

By virtue of the authority vested in me by the Defense Production Act of 1950, as amended (50 U. S. C. App. 2061 *et seq.*), hereinafter referred to as the Act, and as President of the United States, it is ordered as follows:

SECTION 1. The authority vested in the President by section 708 of the Act relating to voluntary agreements and programs to further the objectives of the Act is hereby delegated to the Small Defense Plants Administrator to the extent that it may be exercised with respect to the approval of small-business production pools, including the conduct of consultation and encouragement, and the making of requests and findings, necessary in connection with such pools: *Provided*, that such delegation shall not be construed as limiting any other delegation of such authority heretofore made.

SEC. 2. The delegation of authority made by section 1 of this order shall be subject to the following conditions:

(a) The Small Defense Plants Administrator shall consult with the Attorney General and the Chairman of the Federal Trade Commission not less than ten days before making any request or finding under section 708 (b) of the Act.

(b) The Small Defense Plants Administrator shall obtain the approval of the Attorney General of any request under the said section 708 (b) before making the request.

SEC. 3. Subject to the limitations and conditions contained in the said section 708 of the Act, the Small Defense Plants Administrator may redelegate the authority delegated to him by section 1 of this order, and may authorize successive redelegations thereof, to any officer or agency of the Government.

HARRY S. TRUMAN

THE WHITE HOUSE,
July 7, 1952.

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

TREASURY DEPARTMENT

NOTE: In Federal Register Document 52-7262, appearing on page 5933 of the issue for Wednesday, July 2, 1952, the date "June 30, 1952," in § 6.103 (i) (1) has been corrected to read "June 30, 1953".

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5871]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

CLINTON STUDIOS, INC., ET AL.

Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 3.2080 *Terms and conditions;* § 3.2090 *Undertakings, in general.* In connection with the offering for sale, sale and distribution of photographs or other similar merchandise in commerce, (1) representing, directly or by implication, that photographs which are not locally displayed are being taken for the purpose of exhibition or display in local studios; (2) representing, directly or by implication, that respondents will make refund of purchase price to dissatisfied customers upon request, when in fact respondents do not in all instances make refund upon demand; or, (3) representing, directly or by implication, that respondents will furnish oil paintings of the subjects photographed; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Clinton Studios, Inc., et al., Newark, N. J., Docket 5871, April 3, 1952]

In the Matter of Clinton Studios, Inc., a Corporation, and Edward J. Davis, and Ethel Davis, Individually and as Officers of Clinton Studios, Inc.

The proceeding was heard by Earl J. Kolb, hearing examiner, upon the complaint of the Commission, respondents' answer, and a stipulation as to the facts,

whereby it was stipulated and agreed that a statement of facts executed by counsel supporting the complaint and counsel for respondents might be taken as the facts in the proceeding and in lieu of evidence in support of, and in opposition to, the charges stated in the complaint, and that such statement of facts might serve as a basis for findings as to the facts and conclusion based thereon and order disposing of the proceeding, without presentation of proposed findings, conclusions, or oral argument.

Thereafter the proceeding regularly came on for final consideration by said hearing examiner, theretofore duly designated by the Commission, upon the complaint and stipulation as to the facts, which also provided that up on appeal to, or review by, the Commission, it might be set aside by it and the matter remanded for further proceedings under the complaint, and which had been approved by said hearing examiner, and said examiner, having duly considered the record in the matter, and having found that the proceeding was in the interest of the public, made his initial decision, comprising certain findings as to the facts,' conclusion drawn therefrom ' and order to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII became the decision of the Commission on April 3, 1952.

The said order to cease and desist is as follows:

It is ordered, That the respondent Clinton Studios, Inc., a corporation, and its officers, and the respondents Edward J. Davis and Ethel Davis, individually and as officers of said respondent corporation and their respective representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of photographs or other similar merchandise in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, that photographs which are not locally displayed are being taken for the purpose of exhibition or display in local studios;

2. Representing, directly or by implication, that respondents will make refund of purchase price to dissatisfied customers upon request, when in fact respondents do not in all instances make refund upon demand;

3. Representing, directly or by implication, that respondents will furnish oil paintings of the subjects photographed.

By "Decision of the Commission and order to file report of compliance," Docket 5871, April 3, 1952, which announced and decreed fruition of said initial decision, report of compliance with the said order was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: April 3, 1952.

By the Commission.

[SEAL] D. C. DANIEL, *Secretary*.

[Docket 5885]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

GLOBE MACHINE CO.

Subpart—*Advertising falsely or misleadingly:* § 3.15 *Business status, advantages, or connections—Producer status of dealer or seller—Manufacturer.* Subpart—*Concealing or obliterating law required and informative marking:* § 3.1325 *Source or origin—Imported product or parts as domestic.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosures:* § 3.1860 *Imported product or parts as domestic.* In connection with the offering for sale, sale or distribution of sewing machine heads or sewing machines in commerce, (1) offering for sale or distributing foreign made sewing machine heads, or sewing machines of which foreign made heads are a part, withput clearly and conspicuously disclosing on the heads, in such a manner that it will not be hidden or obliterated, the country of origin thereof; or, (2) representing, through the use in advertising of the word "manufacturer" or "manfacturers," or any other word or term of similar import or meaning, or in any other manner, that said respondents are the manufacturers of the sewing machine heads or sewing machines sold by them, unless and until such respondents actually own and operate, or directly and absolutely control, a manufacturing plant wherein said products are manufactured by them; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 45. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Leon Ettingoff et al., d. b. a. Globe Machine Co., Philadelphia, Pa., Docket 5885, April 4, 1952].

In the Matter of Leon Ettingoff, Edward Ettingoff, and Abraham Ettingoff, Co-partners Doing Business as Globe Machine Company

This proceeding was heard by James A. Purcell, hearing examiner, upon the complaint of the Commission, respondents' answer, and a substitute answer filed pursuant to motion so to do, in which respondents admitted all of the material allegations of fact set forth in the complaint, but in which they reserved the right and privilege to submit proposed findings, conclusions and order as provided by Rule XXI of the Commission's rules of practice, and also made certain other reservations.

Thereafter the proceeding regularly came on for final consideration by said examiner, theretofore duly designated by the Commission, upon said complaint and substitute answer, no proposed findings and conclusions having been submitted on behalf of any party to the proceeding, and said examiner, having duly considered the record in the matter and having found that the proceeding was in the interest of the public, made his initial decision comprising certain findings as to the facts,[1] conclusion drawn therefrom,[1] and order to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said decision from becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII became the decision of the Commission on April 4, 1952.

The said order to cease and desist is as follows:

It is ordered, That the respondents, Leon Ettingoff, Edward Ettingoff and Abraham Ettingoff, individually and as co-partners doing business as Globe Machine Company, or trading under any other name, and their representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of sewing machine heads or sewing machines in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Offering for sale, selling or distributing foreign made sewing machine heads, or sewing machines of which foreign made heads are a part, without clearly and conspicuously disclosing on the heads, in such a manner that it will not be hidden or obliterated, the country of origin thereof.

2. Representing, through the use in advertising of the word "manufacturer" or "manufacturers," or any other word or term of similar import or meaning, or in any other manner, that said respondents are the manufacturers of the sewing machine heads or sewing machines sold by them, unless and until such respondents actually own and operate, or directly and absolutely control, a manufacturing plant wherein said products are manufactured by them.

By "Decision of the Commission and order to file report of compliance," Docket 5885, April 4, 1952, which announced and decreed fruition of said initial decision, report of compliance with the said order was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: April 4, 1952.

By the Commission.

[SEAL] D. C. DANIEL, *Secretary.*

[F. R. Doc. 52-7491; Filed, July 8, 1952; 8:55 a. m.]

[Docket 5910]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

AMERICAN BUSINESS COUNSELORS, INC., AND WILLIAM DONALD DUNKLE

Subpart—*Advertising falsely or misleadingly:* § 3.15 *Business status, advantages or connections—Organization and operation: Size and extent.* Subpart—*Furnishing means and instrumentalities of misrepresentation or deception:* § 3.1055 *Furnishing means and instrumentalities of misrepresentation or deception.* Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 3.1927 *Competitive contests and awards.* In connection with the offering for sale, sale and distribution in commerce, of respondents' merchandising plans or programs and of advertising and promotional material in connection therewith, (1) representing, directly or by implication, that an office is maintained by respondents in any city other than that in which an office or place of business is in fact maintained, occupied and used by respondents; or, (2) representing or supplying to others the means of representing, directly or by implication, that competitive contests are conducted by or at the instance of respondents to determine the relative quality or merit of products of different bakeries, or that any particular product has been awarded or other distinction in a competitive contest conducted by or at the instance of respondents; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, American Business Counselors, Inc., et al., Los Angeles, Calif., Docket 5910, March 20, 1952]

In the Matter of American Business Counselors, Inc., a Corporation, and William Donald Dunkle, Individually, and as President of Said Corporation

This proceeding was heard by William L. Pack, hearing examiner, theretofore duly designated by the Commission, upon the complaint of the Commission, respondents' answer, and hearings at which testimony and other evidence (which were duly recorded and filed in the office of the Commission) were introduced before said examiner in support of and in opposition to the allegations of the complaint.

Thereafter the proceeding regularly came on for final consideration by said examiner on the complaint, answer, testimony and other evidence, and oral argument of counsel (the filing of proposed findings and conclusions having been waived), and said examiner, having duly considered the matter and having found that the proceeding was in the interest of the public, made his initial decision, comprising certain findings as to the facts,[1] conclusion drawn therefrom,[1] and order to cease and desist.

No appeal having been filed from said initial decision of said trial examiner as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII became the decision of the Commission on March 20, 1952.

The said order to cease and desist is as follows:

[1] Filed as part of the original document.

It is ordered, That the respondents, American Business Counselors, Inc., a corporation, and its officers, and William Donald Dunkle, individually and as an officer of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of respondents' merchandising plans or programs and of advertising and promotional material in connection therewith, do forthwith cease and desist from:

(1) Representing, directly or by implication, that an office is maintained by respondents in any city other than that in which an office or place of business is in fact maintained, occupied and used by respondents.

(2) Representing or supplying to others the means of representing, directly or by implication, that competitive contests are conducted by or at the instance of respondents to determine the relative quality or merit of products of different bakeries, or that any particular product has been awarded a prize or other distinction in a competitive contest conducted by or at the instance of respondents.

By "Decision of the Commission and order to file report of compliance", Docket 5910, May 9, 1952, which announced fruition of said initial decision, report of compliance with the said order was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: May 9, 1952.

By the Commission.

[SEAL] D. C. DANIEL, *Secretary.*

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[Regs. 3; T. D. 5917]

PART 182—INDUSTRIAL ALCOHOL

COMPLETELY DENATURED ALCOHOL FORMULAE

1. The appendix to Regulations 3, "Industrial Alcohol" (26 CFR Part 182; 7 F. R. 1858), as amended, is hereby amended as follows:

a. Completely Denatured Alcohol Formulae Nos. 12, 13, 14 and 15 are hereby revoked: *Provided*, That proprietors of denaturing plants who, on the effective date of this Treasury decision, have on hand supplies of denaturants CS-501 or Dehydrol-O approved by authorized chemists for use in Formulae Nos. 12, 14 or 15 may, on written application to the Commissioner, in triplicate, be authorized by him to continue the preparation of Completely Denatured Alcohol Formulae Nos. 12, 14 or 15 until such supplies of denaturants CS-501 or Dehydrol-O are exhausted.

b. The following formulae are authorized for the manufacture of completely denatured alcohol.

FORMULA NO. 16

To every 100 gallons of ethyl alcohol of not less than 160° proof add:
4.0 gallons of ST-115 or a compound similar thereto,
.25 gallon of Pyronate or a compound similar thereto,
.25 gallon of acetadol (hydroxy-butyraldehyde)
1.0 gallon of kerosene.

FORMULA NO. 17

To every 100 gallons of ethyl alcohol of not less than 160° proof add:
3.5 gallons of ST-115 or a compound similar thereto,
1.5 gallons of methyl isobutyl ketone,
1.0 gallon of kerosene.

FORMULA NO. 18

To every 100 gallons of ethyl alcohol of not less than 160° proof add:
2.50 gallons of methyl isobutyl ketone.
.25 gallon of Pyronate or a compound similar thereto,
.50 gallon of acetaldol (hydroxy-butyraldehyde)
1.50 gallons of kerosene.

c. The specifications for denaturant Dehydrol-O, listed immediately following the specifications for acetaldol in "The Specifications for Denaturants in Completely Denatured Alcohol," are revoked.

d. The following specifications for Pyronate are inserted in "The Specifications for Denaturants in Completely Denatured Alcohol," immediately following the specifications for methyl isobutyl ketone:

PYRONATE

Pyronate is a product of the destructive distillation of hardwood meeting the following requirements:

Color. The color shall not be darker than the color produced by 2.0 grams of potassium dichromate in 1 liter of water. The comparison shall be made in 4 oz. oil sample bottles, viewed crosswise.

Acidity. Not over 0.1% as acetic acid, determined as follows: Add 5.0 ml sample to 100 ml distilled water in an Erlenmeyer flask and titrate with N/10 NaOH to a bromothymol blue end-point.

Boiling range. One hundred ml shall be distilled according to the A. S. T. M. method for lacquer solvents (D268-49). Not over 5 ml shall boil below 70° C., not less than 50 ml below 160° C., and not less than 90 ml below 205° C.

NOTE: Any material submitted as Pyronate must agree in color, odor, taste and denaturing value with a standard sample as furnished by the Alcohol and Tobacco Tax Division, Bureau of Internal Revenue, to chemists authorized to examine samples of denaturants.

e. The list, "Denaturants Authorized for Completely and Specially Denatured Alcohol," is amended (1) by deleting therefrom the following:

Acetaldol ------- C. D. 12; 13.
Dehydrol-O ----- C. D. 12; 14.
Kerosene ------- C. D. 12; 13; 14.
Methyl isobutyl ketone. C. D. 12; 13; 14; S. D. 23-G; 23-H.
ST-115 --------- C. D. 12; 13.

and (2) by inserting therein the following:

Acetaldol ------- C. D. 16; 18.
Kerosene ------- C. D. 16; 17; 18.
Methyl isobutyl ketone. C. D. 17; 18; S. D. 23-G; S. D. 23-H.
Pyronate ------- C. D. 16; 18.
ST-115 --------- C. D. 16; 17.

2. The purposes of these amendments are (a) to revoke Formulae Nos. 12, 13, 14 and 15 authorized for the manufacture of completely denatured alcohol; (b) to authorize three new formulae, Nos. 16, 17 and 18, for the preparation of completely denatured alcohol; (c) to revoke specifications for denaturant Dehydrol-O; (d) to prescribed specifications for the denaturant Pyronate; and (e) to revise the list of authorized denaturants, and the formulae in which they may be used, to conform with the changes made in authorized formulae.

3. Due to discontinuance of the manufacture of denaturants Dehydrol-O and CS-501, required by current regulations for use in the manufacture of completely denatured alcohol, it has been found necessary to revoke existing formulae and to prescribe new formulae requiring different denaturants. Since this is the season when manufacturers produce antifreeze preparations, it is vital that these regulations be made effective immediately. It is, therefore, found contrary to the public interest to comply with the notice, public rule-making procedure, and effective date requirements of the Administrative Procedure Act (5 U. S. C. 1001 et seq.).

4. This Treasury decision shall be effective upon its publication in the FEDERAL REGISTER.

(53 Stat. 375, 467; 26 U. S. C. 3176, 3791)

[SEAL] JOHN B. DUNLAP, *Commissioner of Internal Revenue.*

Approved: July 2, 1952.

THOMAS J. LYNCH, *Acting Secretary of the Treasury.*

[F. R. Doc. 52-7492; Filed, July 8, 1952; 8:55 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[General Ceiling Price Regulation, Amdt. 2 to Supplementary Regulation 99]

GCPR, SR 99—ADJUSTED CEILING PRICES FOR MANUFACTURERS OF CERTAIN GLASS CONTAINERS

AMDT. 2—CLARIFICATION OF PROVISIONS RELATING TO CATSUP AND CHILI SAUCE BOTTLING SEASON

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment to Supplementary Regulation 99 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment is issued to clarify and correct a number of typographical

errors in Amendment 1. In addition, the definition of bottling season is changed to conform with trade practice and now includes the period from April 1 through December 31.

In view of the corrective and clarifying nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

Section 4a of Supplementary Regulation 99 to the General Ceiling Price Regulation is amended to read as follows:

SEC. 4a. *Catsup and chili sauce bottles for bottling season.* If you manufacture glass containers for use in bottling catsup or chili sauce, your ceiling prices for such containers, delivered by you during the 1952 or subsequent bottling season, are your ceiling prices as adjusted under section 3 of this regulation plus 15 cents per gross (i. e., 104 percent of your GCPR ceiling price, plus 15 cents per gross). "Bottling season" means the period from April 1 through December 31, 1952, and April 1 through December 31 of each subsequent year. This section 4a applies only to your sales of such glass containers delivered during the bottling season. Your ceiling prices for similar glass containers delivered at any other time are those computed under section 3 of this regulation.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective July 8, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 3, 1952.

[F. R. Doc. 52-7501; Filed, July 3, 1952; 4:57 p. m.]

[General Overriding Regulation 6, Amdt. 5]

GOR 6—EXEMPTIONS RELATING TO SPECIFIED NONPROFIT ORGANIZATONS

SALES BY VOLUNTEERS OF AMERICA

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 5 to General Overriding Regulation 6 is hereby issued.

STATEMENTS OF CONSIDERATIONS

This amendment to General Overriding Regulation 6 adds certain sales to those exempted by the regulation from any price regulations issued by the Office of Price Stabilization.

The sales here exempted are sales at retail of used and waste goods by the Volunteers of America, a group of nonprofit organizations which are affiliated with the National Society of the Volunteers of America and which operate throughout the United States for the purpose of providing rehabilitation, training and sheltered employment for handicapped persons.

These organizations receive donations from the public of various types of merchandise, such as apparel, furniture and household appliances, which are sold either in the condition received or as reconditioned by the beneficiaries of the program.

Generally, the considerations stated in support of General Overriding Regulation 6 are likewise applicable to the sales here referred to. In the judgment of the Director of Price Stabilization the exemption provided for by this amendment will not impair the carrying out of the requirements of the Defense Production Act of 1950, as amended, and it is accordingly not necessary for ceilings to be applied to these sales.

To the extent practicable under the circumstances, the Director has consulted with persons involved prior to the issuance of this amendment and has given consideration to their recommendations.

AMENDATORY PROVISIONS

General Overriding Regulation 6 is amended by adding a new section, numbered 8, to read as follows:

SEC. 8. *Sales by Volunteers of America.* No price regulation issued by the Office of Price Stabilization applies to sales at retail by organizations known as the Volunteers of America which are affiliated with the National Society of the Volunteers of America of used and waste goods donated by members of the public to those organizations and sold in the condition received or as reconditioned by the organizations.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment to General Overriding Regulation 6 shall become effective July 3, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 3, 1952.

[F. R. Doc. 52-7502; Filed, July 3, 1952; 4:57 p. m.]

[Ceiling Price Regulation 5, Amdt. 8]

CPR 5—IRON AND STEEL SCRAP

NICKEL ALLOY PREMIUMS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment to Ceiling Price Regulation 5, is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment establishes premiums for nickel bearing iron or steel scrap containing between 0.50 and 1 percent and between 5.25 and 7 percent nickel. Prior to the conservation orders of the National Production Authority and the development of boron bearing steels, the 1 percent minimum presently provided for in CPR 5 was consistent with the industry's metallurgical practices and enabled the steel mills to recover most of the scrap generated from the alloy steels which they produced. However, since this minimum of 1 percent now exceeds the nickel content of most of the alloy steels made under NPA conservation orders, which sharply reduced the amounts of nickel which could be used in steels produced for civilian uses, the scrap producer is not compensated for any segregation of scrap generated from such steel. As a result much of this scrap is mixed with and sold as carbon steel scrap thereby resulting in the irreparable loss of the vitally needed nickel. Indeed, such nickel may even introduce a detrimental element into the carbon steel melt in many cases. To alleviate this situation the NPA is requiring all scrap generators to segregate their nickel bearing scrap. By lowering the minimum to a currently more realistic figure of 0.5 percent, the generator will be at least partially compensated for the extra effort involved in such segregation and it is anticipated that most of such nickel bearing scrap, the bulk of which contains nickel in these lower amounts, will be returned to the alloy steel mills to augment the critically low supply of prime nickel.

Since this amendment merely reduces the minimum to which the nickel premium is applicable, it does not raise the previous premiums charged for scrap containing 1 percent or more nickel. The method of computation has been revised to allow payment to be made on the basis of the mill's analysis down to the nearest one-hundredth of one percent to more nearly accord with customary trade practice.

Previously, no provision was made for scrap containing over 5.25 percent nickel in CPR 5. Thus scrap containing, for example, 6 percent nickel and little or no chrome was not provided for in either CPR 29 (Nickel and Stainless Steel Scrap) or CPR 5. This gap caused some confusion and this amendment corrects the situation by raising the upper limit to 6.99 percent.

Since it is the intent of this amendment to encourage the conservation of nickel scrap and to compensate the generator for the added segregation required of him by the NPA, certain restrictions on the charging of the new premium have been provided. The premiums for nickel content varying from 0.5 to 1 percent may be charged only when such scrap is shipped directly from the industrial generator to a consumer who has received authorization from the OPS to pay such premiums.

The first of the two limitations, which require that scrap must be shipped directly from the industrial producer to qualify for the premium, is similar to the present restriction on alloy free turnings. As in the latter case, the average scrap dealer is not in a position to determine accurately the presence of such small amounts of nickel and only the manufacturer generating scrap from the new low nickel alloy steel is enabled by physical segregation at the production line to determine accurately the nature of his product.

The second restriction, which requires a consumer to get authorization from the OPS to pay the premiums on the lower alloy scrap, is necessary in order to achieve the objective sought by this amendment. While it is unlikely that consuming mills which do not require the alloying elements will be prompted to pay the higher premiums for contained nickel of over 1 percent, it is likely that such consumers, in order to insure a supply of scrap to their furnaces, would be willing to pay the lower premiums and thereby divert such scrap from those consumers who are in vital need of it, thereby defeating the purpose of this amendment. Accordingly, only those consumers who require it in their melt may apply for authorization to pay the premiums for such scrap containing between 0.5 and 1 percent nickel. The tonnages to be authorized in each case will be based upon the requirements data submitted by the NPA.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Section 17 (a) is amended to read as follows:

(a) *Nickel.* (1) A premium of 5 cents per gross ton for each .01% of nickel content may be charged and paid in addition to the ceiling price for the applicable grade of scrap, except as limited in subparagraph (2) of this paragraph, where the scrap contains not less than 0.5 percent and not over 6.99 percent nickel.

(2) The premium established by this paragraph for nickel content from 0.5 percent to 0.99 percent may be paid only where both of the following conditions are met:

(i) The material is shipped to a consumer directly from an industrial producer of such nickel alloy steel scrap; and

(ii) The material is purchased for use by a consumer who has received authorization from the Office of Price Stabilization, Washington 25, D. C., to pay the nickel premium. Such authorization will be granted only where it is shown that the metallurgical nature of the consumer's product requires such nickel alloy scrap. Any authorization pursuant to this subdivision will be granted upon the basis of information furnished by the National Production Authority on the metallurgical and tonnage requirements of the applicant.

Effective date. This amendment to Ceiling Price Regulation 5 shall become effective July 12, 1952.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

ELLIS ARNALL,
Director of Price Stabilization.

JULY 8, 1952.

[F. R. Doc. 52-7586; Filed, July 8, 1952; 11:52 a. m.]

[Ceiling Price Regulation 22, Amdt. 50]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

DELETION OF POTATOES FROM AGRICULTURAL COMMODITIES LISTED IN APPENDIX C OF CEILING PRICE REGULATION 22

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this Amendment 50 to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

The Director of Price Stabilization, after consultation with the Secretary of Agriculture, has determined that, with respect to potatoes, the minimum requirements of the Defense Production Act of 1950, as amended, have been satisfied. The need, therefore, for the "raw material cost adjustment" provisions of section 21 of Ceiling Price Regulation 22 has ceased to exist. This amendment deletes potatoes from the agricultural commodities listed in Appendix C of Ceiling Price Regulation 22 under the heading of "Vegetables."

In the formulation of this amendment special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable. It is the judgment of the Director of Price Stabilization that the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISION

Appendix C of Ceiling Price Regulation 22 is amended by deleting the word "potatoes" from the list of agricultural commodities under the heading of "Vegetables."

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective July 8, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 8, 1952.

[F. R. Doc. 52-7587; Filed, July 8, 1952; 11:52 a. m.]

[Ceiling Price Regulation 22, Amdt. 8 to Supplementary Regulation 7]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

SR 7—MODIFICATIONS AND ALTERNATIVE PROVISIONS FOR MANUFACTURERS OF CHEMICALS

CARBON TETRACHLORIDE, TECHNICAL GRADE

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 8 to Supplementary Regulation 7 to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to Supplementary Regulation 7 establishes ceiling prices for sales of carbon tetrachloride technical grade by manufacturers of that commodity. The ceiling prices established by this amendment are in lieu of the manufacturers' present individual ceiling prices determined in accordance with Ceiling Price Regulation 22.

Carbon tetrachloride is a colorless, non-inflammable liquid. It is an excellent solvent for fats, oils, waxes and a variety of other organic materials. It is used in the spotting and dry cleaning of fabrics, in the degreasing of metal parts, textiles and leather, in cleaning motors, printing equipment, and other apparatus, and as a general solvent in extraction and crystallizing operations. It is also used in organic syntheses, as an ingredient of fumigants, in the manufacture of Freon refrigerants, and as an important constituent of certain fire extinguishing fluids.

In the latest Defense Production Administration Report, No. 6 (Basic Materials and Alternates), issued May 1, 1952, carbon tetrachloride is listed as a critically short material. The increased production goal set by the Defense Production Administration on March 28, 1952, is 107,000,000 pounds per year at the end of 1952, and 331,000,000 pounds per year by January 1, 1955. Restoration of the industry's normal and customary use of a uniform price level has been represented to be conducive to the encouragement of production and the Director finds that this can be accomplished without any increase in the average selling price of the chemical.

In arriving at a uniform ceiling price for spot sales in tank car lots, the Director finds that the requirements of the Defense Production Act of 1950, as amended, can best be met by establishing a ceiling price of $7.72 per hundred pounds, which is the weighted average of current selling prices and slightly below the weighted average of the considerable range of CPR 22 ceiling prices for this product.

On the basis outlined above, the Director of Price Stabilization has established the ceiling price for spot sales by producers, in tank car lots, at $7.72 per hundred pounds, or $0.0772 per pound, in the eastern zone, minimum transportation to destination allowed. For other types of sales, for other volumes, and for delivery west of the eastern borders of Montana, Wyoming, Colorado and New Mexico, each seller must apply the same differentials which he had in effect for such sales during the period December 19, 1950, to January 25, 1951, inclusive. Sellers who did not sell in such volumes or in these western areas during the period December 19, 1950, to January 25, 1951, inclusive, will have ceiling prices for such sales established under the appropriate sections of Ceiling Price Regulation 22.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Supplementary Regulation 7 to Ceiling Price Regulation 22 is amended by adding section 10, which reads as follows:

SEC. 10. *Carbon tetrachloride technical grade.* (a) This section applies to you if you manufacture carbon tetrachloride, technical grade, and establishes ceiling prices for your sales of that commodity. These ceiling prices replace the ceiling prices which you have other-

wise determined or which would be otherwise determinable under Ceiling Price Regulation 22.

(b) The ceiling price for your spot sales of carbon tetrachloride, technical grade, in tank car lots, with minimum transportation allowed east of the eastern borders of Montana, Wyoming, Colorado, and New Mexico, is $0.0772 per pound.

(c) For any sale other than spot sales, for a sale in less than tank car lots, or for a sale for delivery west of the eastern borders of Montana, Wyoming, Colorado, and New Mexico, your ceiling price is that determined by applying to the ceiling price set forth in paragraph (b) of this section the differential required or permitted by section 3 of Ceiling Price Regulation 22. If section 3 of Ceiling Price Regulation 22 cannot be applied in your case because you did not make such a sale in your base period or prior thereto, your ceiling price for such sale is the price determined in accordance with section 33 or section 34 of Ceiling Price Regulation 22. For the purposes of section 32, 33, or 34 of Ceiling Price Regulation 22 the ceiling prices established by this section shall be deemed to be ceiling prices established by Ceiling Price Regulation 22.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 8 to Supplementary Regulation 7 to Ceiling Price Regulation 22 is effective July 12, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 8, 1952.

[F. R. Doc. 52-7588; Filed, July 8, 1952; 11:52 a. m.]

[Ceiling Price Regulation 24, Amdt. 13]

CPR 24—CEILING PRICES OF BEEF SOLD AT WHOLESALE

COMBINATION DISTRIBUTOR AND HOTEL SUPPLY HOUSE

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, Economic Stabilization Agency General Order 2, Delegation of Authority by the Secretary of Agriculture with respect to meat, as amended, and Economic Stabilization Agency General Order 5, Revision, this Amendment 13 to Ceiling Price Regulation 24 is hereby issued.

STATEMENT OF CONSIDERATIONS

This statement of considerations applies to Amendment 13 to Ceiling Price Regulation (CPR) 24, Amendment 8 to CPR 74, Amendment 7 to CPR 92 and Amendment 5 to CPR 101.

This amendment and the three other amendments to the other meat regulations carry out the recent change in the Defense Production Act of 1950, as amended. The act now prohibits the establishment of different ceiling prices for affiliated hotel supply houses than for independent hotel supply houses or of different ceiling prices for affiliated combination distributors than for independent combination distributors. Prior to this change, the four regulations had established lower ceiling prices for sales by the affiliated companies of certain cuts derived from meat obtained from affiliated sources than were provided for sales by these same companies of meat obtained from independent sources. The latter higher ceiling prices were established for sales of the same cuts by independent companies. The four amendments change the four meat regulations by establishing the latter ceiling prices for sales of the same cuts by affiliated companies, irrespective of their source of the meat.

In the formulation of Amendment 13 to CPR 24, Amendment 8 to CPR 74, Amendment 7 to CPR 92 and Amendment 5 to CPR 101, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable. In the judgment of the Director of Price Stabilization, the provisions of each of these four amendments are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, are necessary and appropriate to promote the National Defense, and comply with all the applicable standards of the act.

AMENDATORY PROVISIONS

Ceiling Price Regulation 24 is amended in the following respects:

1. Section 20, Special Adjustment (3) is amended to read as follows:

(3) If you are a hotel supply house, you may add $1.50 per hundredweight to the prices listed above, except on sales to purveyors of meals, in which case you may add $5.00 per hundredweight to the prices listed above.

If you are a ship supplier you may add $5.00 per hundredweight to the prices listed above, on sales to ship operators.

In all cases, you may not charge the additions permitted in this special adjustment unless the item sold was physically within the cooler of your selling establishment prior to delivery.

2. Section 20, Schedule I, Special Adjustment (4), is amended to read as follows:

(4) If you are a combination distributor, you may add $2.00 per hundredweight to the prices listed above, except on sales to purveyors of meals, in which case you may add $4.00 per hundredweight to the prices listed above.

In all cases, you may not charge the addition permitted in this special adjustment unless the item sold was physically within the cooler of your selling establishment prior to delivery.

3. Section 22, Schedule III, Special Addition (1) is amended to read as follows:

(1) If you are a hotel supply house, you may add $1.50 per hundredweight to the prices listed above. You may not charge the amount permitted in this special addition unless the item sold was physically within the cooler of your selling establishment prior to delivery.

4. Section 22, Schedule III, Special Addition (2) is amended to read as follows:

(2) If you are a combination distributor, you may add $2.00 per hundredweight to the prices listed above. You may not charge the amount permitted in this special addition unless the item sold was physically within the cooler of your selling establishment prior to delivery.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective as of July 1, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 8, 1952.

[F. R. Doc. 52-7590; Filed, July 8, 1952, 11:52 a. m.]

[General Ceiling Price Regulation 24, Amdt. 14]

CPR 24—CEILING PRICES OF BEEF SOLD AT WHOLESALE

WHOLESALER AND INTERMEDIATE DISTRIBUTOR

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, Economic Stabilization Agency General Order 2, Delegation of Authority by the Secretary of Agriculture with respect to meat, as amended, and Economic Stabilization Agency General Order 5, Revision, this Amendment 14 to Ceiling Price Regulation 24 is hereby issued.

STATEMENT OF CONSIDERATIONS

This Statement of Considerations applies to Amendment 14 to Ceiling Price Regulation (CPR) 24, Amendment 9 to CPR 74, Amendment 8 to CPR 92 and Amendment 6 to CPR 101.

This amendment and the similar amendments to the other meat regulations carry out the provisions of section 402 (m) of the Defense Production Act of 1950, as amended. That section, added to the act by the 1952 amendments, provides:

(m) No rule, regulation, order or amendment thereto shall be issued or maintained under this title, which shall deny to any hotel supply house or combination distributor, affiliated with any slaughterer or slaughtering establishment, or to any wholesaler so affiliated but whose affiliation does not amount to an interest or equity of more than 50 per centum, the same ceiling price or prices for meat accorded to hotel supply houses, combination distributors, or wholesalers which are not so affiliated.

Amendment 13 to CPR 24, Amendment 8 to CPR 74, Amendment 7 to CPR 92, and Amendment 5 to CPR 101 provided identical ceiling prices for affiliated and independent hotel supply houses and identical ceiling prices for affiliated and independent combination distributors, in accordance with section 402 (m). This amendment to CPR 24 and the similar amendments issued concurrently herewith provide wholesalers affiliated with a slaughterer or slaughtering establishment, but whose affiliation does not amount to an interest or equity of more than 50 percent, the identical ceiling prices established for wholesalers which are not so affiliated, by redefining the definition of the term "wholesaler". In view of this redefinition of "wholesaler", the definition of the term "intermediate distributor" in CPR 24 has also been amended to eliminate that portion of

that definition added by Amendment 9 to CPR 24.

In the formulation of this amendment, Amendment 9 to CPR 74, Amendment 8 to CPR 92 and Amendment 6 to CPR 101, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable. In the judgment of the Director of Price Stabilization, the provisions of each of these four amendments are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, are necessary and appropriate to promote the National Defense, and comply with all the applicable standards of the act.

It is not believed that any of these four amendments will cause any substantial changes in business practices, cost practices or methods, or means or aids to distribution; however, to the extent that such changes are compelled, they are necessary to prevent circumvention or evasion of the regulations to which these amendments apply.

AMENDATORY PROVISIONS

Ceiling Price Regulation 24 is amended in the following respects:

1. Section 50 (u) (2) is amended to read as follows:

(2) Who is not affiliated with any slaughtering plant or facilities engaged in the slaughtering of cattle or, if so affiliated, whose affiliation does not amount to an interest or equity of more than 50 percent. By such an affiliation which is not more than 50 percent is meant the relationship between two persons where neither owns nor controls more than 50 percent of the other, and no more than 50 percent of either is owned or controlled by the same person; and

2. Section 50 (w) is amended to read as follows:

(w) "Intermediate distributor" means a person (other than a hotel supply house, combination distributor, or peddler truck seller) who meets all of the requirements of the definition of "wholesaler" set forth in paragraph (u) of this section except that he does not operate or maintain a separate selling establishment equipped with the storage facilities as required by that definition.

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective as of July 1, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 8, 1952.

[F. R. Doc. 52-7589; Filed, July 8, 1952; 11:52 a. m.]

[Ceiling Price Regulation 59, Amdt. 3]

CPR 59—SCRAP RUBBER

EXEMPTION OF SALE OF SCRAP TIRES AND TUBES BY AGENCIES OF THE U. S. GOVERNMENT TO SCRAP RUBBER WHOLESALE DEALERS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 3 to Ceiling Price Regulation 59 is hereby issued.

STATEMENT OF CONSIDERATIONS

Among other things, Ceiling Price Regulation 59 establishes dollars and cents ceiling prices for sales of scrap tires and tubes to wholesale scrap rubber dealers, and consumers (as those terms are defined in the regulation), export sales, and sales for delivery F. A. S. port of exit. Sales of scrap tires and tubes to purchasers other than those mentioned are exempt from ceiling prices. Since ultimate sales of scrap rubber to tire splitters or reclaiming mills (consumers under CPR 59) are subject to the ceiling prices listed in CPR 59, prices for sales at the scrap collector and lower levels, tend to set themselves below such ceilings though they are exempt from the regulation.

Agencies of the United States Government customarily dispose of tires they no longer wish to use by offering them in relatively large lots for sale to the highest bidder. Because of practical difficulties not attending sales by scrap rubber industry the disposal depots for these Government agencies do not ordinarily segregate reusable, recappable and scrap tires, and sell them as so segregated in the manner customary to the industry, but dispose of their tires unsegregated and classified as "salvage". Section 15 of CPR 59, in defining "scrap rubber", provides that the presence of any scrap tires in a lot for sale causes the entire lot to be classed as scrap. As a result, disposals by these agencies to wholesale scrap rubber dealers are not exempt from the regulation but are subject to the ceiling prices fixed in the regulation, notwithstanding the fact that a particular lot may contain many tires more valuable than scrap tires. Any person exempt from the regulation can, however, bid more realistic prices for these lots and win the awards. A similar situation exists in the disposal, by those agencies, of scrap tubes which have different values because of their various types of rubber content.

This amendment is issued to permit wholesale scrap rubber dealers to bid for these lots without ceiling price limitations as do those already exempt under the regulation. This action exempts sales of scrap tires and tubes by agencies of the United States Government to wholesale scrap rubber dealers.

This amendment will not affect the general level of ceiling prices established under the regulation inasmuch as ultimate sales to scrap rubber consumers of scrap tires or tubes which were obtained from government agencies or any other source remain subject to the ceiling prices fixed in CPR 59. The reusable and recappable tires in such a mixed lot, when resold as such by the wholesaler also remain subject to the ceiling prices of other applicable regulations. It is therefore expected that the sales exempted by this amendment will be made at or below the ceiling prices applicable to the ultimate sales of the tires actually sold in the lot.

In the formulation of this amendment, there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Ceiling Price Regulation 59, section 1 (f) is amended by adding a new subparagraph to read as follows:

(3) The sale by the United States Government or any agency or instrumentality of the United States Government, of scrap tires and scrap tubes, if the person to whom such scrap tires or scrap tubes are sold is not a consumer, and if the sale is not a sale for delivery F. A. S. port of exit.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 3 to Ceiling Price Regulation 59 is effective July 8, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 8, 1952.

[Ceiling Price Regulation 74, Amdt. 8]

CPR 74—CEILING PRICES OF PORK SOLD AT WHOLESALE

COMBINATION DISTRIBUTOR AND HOTEL SUPPLY HOUSE

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, Economic Stabilization Agency General Order 2, Delegation of Authority by the Secretary of Agriculture with respect to meat, as amended, and Economic Stabilization Agency General Order 5, Revision, this Amendment 8 to Ceiling Price Regulation 74 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment revises certain ceiling prices for hotel supply house and combination distributor sales.

This amendment parallels and is substantially identical with Amendment 13 to Ceiling Price Regulation 24, issued concurrently herewith. The Statement of Considerations issued in connection with that amendment applies equally to this amendment and therefore is incorporated herein.

AMENDATORY PROVISIONS

Ceiling Price Regulation 74 is amended in the following respects:

1. Section 46 (b) is amended to read as follows:

(b) *Sales to other buyers.* You may not charge the additions permitted in this paragraph unless the cut sold was physically within the cooler of your selling establishment prior to delivery.

If you are a hotel supply house, you may, on the sale of wholesale pork cuts to buyers other than purveyors of meals, add the additions specified in subparagraphs (1), (3), or (4) of section 43 (a) as if you were a wholesaler.

2. Section 47 (b) is amended to read as follows:

(b) *Sales to other buyers.* You may not charge the additions permitted in this paragraph unless the cut sold was physically within the cooler of your selling establishment prior to delivery.

If you are a combination distributor, you may, on the sale of wholesale pork cuts to buyers other than purveyors of meals, add the additions specified in subparagraphs (1), (3) or (4) of section 43 (a) as if you were a wholesaler.

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective as of July 1, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 8, 1952.

[F. R. Doc. 52-7591; Filed, July 8, 1952; 11:53 a. m.]

[Ceiling Price Regulation 74, Amdt. 9]

CPR 74—CEILING PRICES OF PORK SOLD AT WHOLESALE

WHOLESALER

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, Economic Stabilization Agency General Order 2, this Amendment 9 to Ceiling Price Regulation 74 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment changes the definition of the term "wholesaler".

This amendment parallels and is substantially identical with Amendment 14 to Ceiling Price Regulation 24, issued concurrently herewith. The Statement of Considerations issued in connection with that amendment applies equally to this amendment and therefore is incorporated herein.

AMENDATORY PROVISIONS

Ceiling Price Regulation 74 is amended by deleting Section 60 (z) (2) and substituting the following therefor:

(2) Who is not affiliated with any slaughtering plant or facilities, engaged in the slaughtering of hogs or pigs, or, if so affiliated, whose affiliation does not amount to an interest or equity of more than 50 percent. By such an affiliation is meant the relationship between two persons where neither owns or controls more than 50 percent of the other, and no more than 50 percent of either is owned or controlled by the same person; and

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective as of July 1, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 8, 1952.

[F. R. Doc. 52-7592; Filed, July 8, 1952; 11:53 a. m.]

[Ceiling Price Regulation 92, Amdt. 7]

CPR 92—LAMB, YEARLING AND MUTTON PRODUCTS SOLD AT WHOLESALE

COMBINATION DISTRIBUTOR AND HOTEL SUPPLY HOUSE

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, Economic Stabilization Agency General Order 2, Delegation of Authority by the Secretary of Agriculture with respect to meat, as amended, and Economic Stabilization Agency General Order 5, Revision, this Amendment 7 to Ceiling Price Regulation 92 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment revises certain ceiling prices for hotel supply house and combination distributor sales.

This amendment parallels and is substantially identical with Amendment 13 to Ceiling Price Regulation 24, issued concurrently herewith. The Statement of Considerations issued in connection with that amendment applies equally to this amendment and therefore is incorporated herein.

AMENDATORY PROVISIONS

Ceiling Price Regulation 92 is amended in the following respects:

1. Section 20, Schedule 1, Special Adjustment 4 is amended to read as follows:

(4) If you are a hotel supply house, you may add $1.50 per hundredweight to the prices listed above, except on sales to purveyors of meals, in which case you may add $6.00 per hundredweight to the prices listed above. If you are a ship supplier you may add to the prices listed above $6.00 per hundredweight on sales to ship operators. In all cases, you may not charge the additions permitted in this adjustment unless the item sold was physically within the cooler of your selling establishment prior to delivery.

2. Section 20, Schedule 1, Special Adjustment 5 is amended to read as follows:

(5) If you are a combination distributor, you may add $2.00 per hundredweight to the prices listed above, except on sales to purveyors of meals, in which case you may add $4.50 per hundredweight to the prices listed above. In all cases, you may not charge the additions permitted in this adjustment unless the item sold was physically within the cooler of your selling establishment prior to delivery.

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective as of July 1, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

[Ceiling Price Regulation 92, Amdt. 8]

CPR 92—LAMB, YEARLING AND MUTTON PRODUCTS SOLD AT WHOLESALE

WHOLESALER

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, Economic Stabilization Agency General Order 2, Delegation of Authority by the Secretary of Agriculture with respect to meat, as amended, and Economic Stabilization Agency General Order 5, Revision, this Amendment 8 to Ceiling Price Regulation 92 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment changes the definition of the term "wholesaler".

This amendment parallels and is substantially identical with Amendment 14 to Ceiling Price Regulation 24, issued concurrently herewith. The Statement of Considerations issued in connection with that amendment applies equally to this amendment and therefore is incorporated herein.

AMENDATORY PROVISIONS

Ceiling Price Regulation 92 is amended by deleting from the definition of wholesaler in section 50 the paragraph numbered (2), and substituting therefor a new paragraph numbered (2) reading as follows:

(2) Who is not affiliated with any slaughtering plant or facilities engaged in the slaughtering of lambs or sheep, or, if so affiliated, whose affiliation does not amount to an interest or equity of more than 50 percent. By such an affiliation which is not more than 50 percent is meant the relationship between two persons where neither owns or controls more than 50 percent of the other, and no more than 50 percent of either is owned or controlled by the same person; and

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C App. Sup. 2154)

Effective date. This amendment shall become effective as of July 1, 1952.

CPR 101—CEILING PRICES OF VEAL SOLD AT WHOLESALE

COMBINATION DISTRIBUTOR AND HOTEL SUPPLY HOUSE

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, Economic Stabilization Agency General Order 2, Delegation of Authority by the Secretary of Agriculture with respect to meat, as amended, and Economic Stabilization General Order 5, Revision, this Amendment 5 to Ceiling Price Regulation 101 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment revises certain ceiling prices for hotel supply house and combination distributor sales.

This amendment parallels and is substantially identical with Amendment 13 to Ceiling Price Regulation 24, issued concurrently herewith. The Statement of Considerations issued in connection with that amendment applies equally to this amendment and therefore is incorporated herein.

AMENDATORY PROVISIONS

Ceiling Price Regulation 101 is amended in the following respects:

1. Section 20, Schedule I, Special Adjustment 5 is amended to read as follows:

(5) If you are a hotel supply house, you may add $1.50 per hundredweight to the prices listed above in Schedule I (b) except on sales to purveyors of meals, in which case you may add $5.00 per hundredweight to the prices listed above in Schedule I (b). If you are a ship supplier you may add $5.00 per hundredweight to the ceiling prices listed above in Schedule I (b) on sales to ship operators. In all cases, you may not charge the additions permitted in this adjustment unless the item sold was physically within the cooler of your selling establishment prior to delivery.

2. Section 20, Schedule I, Special Adjustment 6 is amended to read as follows:

(6) If you are a combination distributor, you may add to the prices listed above in Schedule I (b) $4.00 per hundredweight on sales to purveyors of meals and $2.00 per hundredweight on sales to all other buyers. In all cases, you may not charge the additions permitted in this adjustment unless the item sold was physically within the cooler of your selling establishment prior to delivery.

3. Section 22, Schedule III, Special Addition 1 is amended to read as follows:

(1) If you are a hotel supply house, you may add $1.50 per hundredweight to the prices listed above, except on sales to purveyors of meals in which case you may add $5.00 per hundredweight to the prices listed above. If you are a ship supplier, you may add $5.00 per hundredweight to the prices listed above on sales to ship operators. In all cases, you may not charge the additions permitted in this Special Addition unless the item sold was physically within the cooler of your selling establishment prior to delivery.

4. Section 22, Schedule III, Special Addition 2 is amended to read as follows:

(2) If you are a combination distributor, you may add to the prices listed above $4.00 per hundredweight on sales to purveyors of meals and $2.00 per hundredweight on sales to all other buyers. In all cases, you may not charge the addition permitted in this Special Addition unless the item sold was physically within the cooler of your selling establishment prior to delivery.

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective as of July 1, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

[General Ceiling Price Regulation, Amdt. 31]

GENERAL CEILING PRICE REGULATION

DELETION OF POTATOES FROM AGRICULTURAL COMMODITIES LISTED IN SECTION 11 (a) OF THE GENERAL CEILING PRICE REGULATION

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this Amendment 31 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

The Director of Price Stabilization, after consultation with the Secretary of Agriculture, has determined that, with respect to potatoes, the minimum requirements of the Defense Production Act of 1950, as amended, have been satisfied. The need, therefore, for the "parity pass-through" provisions of section 11 of the General Ceiling Price Regulation has ceased to exist. This amendment deletes potatoes from the agricultural commodities listed in section 11 of the GCPR under the heading of "Vegetables."

In the formulation of this amendment special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable. It is the judgment of the Director of Price Stabilization that the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

Section 11 (a) of the GCPR is amended by deleting the word "potatoes" from the list of agricultural commodities under the heading of "Vegetables."

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup 2154)

Effective date. This amendment shall become effective July 8, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 8, 1952.

[F. R. Doc. 52-7597; Filed, July 8, 1952; 11:54 a. m.]

[General Overriding Regulation 11, Revision 1]

GOR 11—EXEMPTION OF CERTAIN SALES BY FEDERAL AGENCIES AND INSTRUMENTALITIES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this General Overriding Regulation 11, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

This General Overriding Regulation 11, Revision 1, exempts certain sales by Federal agencies and instrumentalities from ceiling price regulation.

Some exemptions have been granted primarily because the nature of the transaction or market conditions for the particular commodity are such that little danger exists of inflationary prices. Thus, if one Government agency sells to another the sale is exempt because the Government is both buyer and seller. Sales by a Government agency to a foreign government are similarly exempted for the additional reason that such sales are carried out in conformity with national foreign policy in which price and other economic considerations may be secondary. Sales to relief organizations for donation or export are exempt because there is little danger of inflationary prices and price itself is a secondary consideration.

Other transactions are exempted by this regulation to lessen the administrative difficulties of Government agencies in applying ceiling prices in areas in which inflationary pressures are unlikely to arise or will be insignificant. Sales of personal property, when sold together with an interest in land or buildings in a single transaction and for a single price are exempted because land and buildings are not subject to price control and ceiling prices established on other elements of the same transaction would be meaningless. Sales of all or substantially all the Government-owned contents of a factory or plant, to the owner, operator, or lessee, or to any other single purchaser buying for use in that

location are exempt because such sales are not in the ordinary course of business and the aggregate of the contents generally has a value greater than that possessed by the individual items involved.

Sales by the Veterans Canteen Service have been exempt since GOR 11 was issued on May 19, 1951. The reasons for this exemption set forth in the statements of considerations which accompanied such action are equally applicable to this action. Certain sales of scrap rubber and scrap tires are exempted for the reasons set forth in the statement of considerations of Amendment 3 to CPR 59.

Sales of sand, stone, gravel, yucca, gypsum, sulphur, and rock salt by the Department of the Interior under the Materials Act of July 31, 1947 are exempted because such sales are few in number, low in volume, and have little effect on the Nation's economy or the price structure of any particular industry. This law authorizes the Department of the Interior to dispose of such materials located on public lands of the United States if they are not of such quality and quantity as to be subject to the mining laws, and it is the practice of the Department of the Interior to award contracts to private concerns on the basis of a percentage of the in-place value of the deposit or a percentage of the resale price per unit. The relative importance of such sales does not justify the separate application to and the establishment by OPS of ceiling prices for each sale or type of sale of these materials made by the Department. Furthermore, the fact that resales of these materials by those who acquire them from the Department of the Interior and sales of products manufactured from them remain subject to applicable ceilings is considered a sufficient safeguard of the objectives of price stabilization in this instance.

In view of the fact that this regulation pertains to sales by Government agencies, consultations have been held with representatives of such agencies and consideration has been given to their recommendations.

REGULATORY PROVISIONS

ARTICLE I

Sec.
1. Exemptions.
2. Sales to certain purchasers.
3. Sales of certain commodities.
4. Sales of certain agencies.

ARTICLE II

20. Definitions.

AUTHORITY: Sections 1 to 20 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

ARTICLE I

SECTION 1. *Exemptions.* No ceiling price regulation heretofore or hereafter issued by the Office of Price Stabilization shall apply to the sales described in the following sections.

SEC. 2. *Sales to certain purchasers.* Sales by any Government agency:

(a) To another Government agency for use and not resale;

(b) To any foreign government or official agency thereof;

(c) To any relief organization for donation or export sale.

SEC. 3. *Sales of certain commodities.* Sales by any Government agency:

(a) Of personal property when sold together with an interest in land or buildings in a single transaction and for a single price;

(b) Of all or substantially all of the Government-owned contents of a factory or plant to the owner, lessee, or operator, or to any other single buyer purchasing for use in that location;

(c) Of scrap tires and scrap tubes if the person to whom such scrap tires or scrap tubes are sold is not a consumer and if the sale is not an export sale or a sale for delivery FAS port of exit, as these terms are defined in CPR 59.

SEC. 4. *Sales by certain Government agencies.* (a) Sales by the Veterans Canteen Service.

(b) Sales of sand, stone, gravel, gypsum, rock salt, yucca, and sulphur by the Department of the Interior under the Materials Act of July 31, 1947 (61 Stat. 681), as amended; 43 U. S. C. 1185–1188, provided the Department of the Interior notifies the purchaser in writing in advance of sale that the resale of such materials is subject to any applicable ceiling price regulation.

ARTICLE II

SEC. 20. *Definitions.* "Government agency" and "Government" means the United States Government and any department, commission, corporation, or other such instrumentality of the United States Government.

Effective date. General Overriding Regulation 11, Revision 1, shall become effective the 8th day of July 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 8, 1952.

Chapter VI—National Production Authority, Department of Commerce

[NPA Order M-44, Direction 1]

M-44—POWER EQUIPMENT AND ELECTRIC EQUIPMENT: PRODUCTION AND DELIVERY

DIR. 1—FACTORS IN RESCHEDULING

This direction to NPA Order M-44 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

REGULATORY PROVISIONS

Sec.
1. What this direction does.
2. Lead time.
3. Rescheduling within lead time.
4. Approval of manufacturer's drawings.
5. Changes in purchaser's requirements or specifications.

AUTHORITY: Sections 1 to 5 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61, 3 CFR 1951, Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this direction does.* It is provided in section 4 of NPA Order M-44 that NPA may direct changes in the production or delivery schedules of manufacturers of power equipment and electric equipment. It is not intended by such provision to interrupt the orderly flow of production at a maximum rate, which has happened when changes have been made within lead time. Accordingly, this direction sets forth for the guidance of claimant agencies, manufacturers, and purchasers, certain factors which NPA will take into consideration in directing changes in production and delivery schedules of manufacturers of electric equipment listed on Table I of this direction.

SEC. 2. *Lead time.* The term "lead time" means the total time required by a manufacturer to engineer or design and to process or manufacture an item of electric equipment. Lead time is not to be confused with the promised or quoted delivery date given by a manufacturer to a purchaser since most manufacturers' backlogs of orders stretch out far beyond the lead times of particular items. Table I of this direction shows the normal months of lead time for each item of electric equipment.

SEC. 3. *Rescheduling within lead time.* NPA will not reschedule the time of delivery of an item of electric equipment listed on Table I from a scheduled shipping date beyond lead time to a date within lead time or from a scheduled shipping date within lead time to another date within lead time except in a case of an urgency affecting the national defense. For example: A purchaser places an order on June 1st for an item and the manufacturer quotes a delivery date of 14 months, i. e., August of the following year. The lead time for the item is 8 months. Assume an attempt to reschedule is justified; NPA will not attempt to reschedule during any period from June to December to a date closer than 8 months from the date rescheduling action is requested by the claimant agency (i. e., from a scheduled shipping date beyond lead time to a date within lead time) nor attempt to reschedule the item on any request received after December, since lead time commences to run 8 months before delivery date (i. e., from a scheduled shipping date within lead time to another date within lead time) except in a case of an urgency affecting the national defense.

SEC. 4. *Approval of manufacturer's drawings.* The time required for the approval by a purchaser of drawings submitted by the manufacturer has been taken into consideration in calculating lead time. Where a manufacturer submits drawings to a purchaser for approval and such purchaser does not approve and return such drawings to the manufacturer within the time specified by the manufacturer, which time should not exceed 30 days, unless a longer period of time is mutually agreed upon by the purchaser and the manufacturer, the manufacturer, after notifying NPA, may be authorized by NPA to reschedule delivery of the item.

SEC. 5. *Changes in purchaser's requirements or specifications.* Where a purchaser makes changes in his requirements or in his specifications after a manufacturer's drawings are completed and approved, the manufacturer shall notify the purchaser if such changes will result in a delay in production. If the purchaser nevertheless wishes the changes, the manufacturer will notify NPA so that NPA may authorize the appropriate rescheduling of the item.

This direction shall take effect July 7, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

TABLE I.—DIRECTION 1 TO NPA ORDER M-44—NORMAL LEAD TIME FOR CERTAIN ITEMS OF ELECTRIC EQUIPMENT

PART I

Item	Equipment rating		Type	Lead time

[NPA Order M-6A, Schedule 1, Direction 1 of July 8, 1952]

M-6A—STEEL DISTRIBUTORS

SCHEDULE 1—EARMARKED STOCKS—AIRCRAFT QUALITY ALLOY STEEL PRODUCTS

DIR. 1—ADDITIONAL RESTRICTIONS ON SALE AND DELIVERY

This direction under Schedule 1 to NPA Order M-6A is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950 as amended. In the formulation of this direction, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the direction affects many different industries.

REGULATORY PROVISIONS

SECTION 1. (a) No person shall accept delivery of any item of aircraft quality alloy steel from a steel distributor if such person has, during the calendar month, received a total of 5,000 pounds or more of such item of aircraft quality alloy steel from all sources.

(b) No steel distributor (except steel distributors located in the Dominion of Canada) shall deliver any item of aircraft quality alloy steel to any person unless such person furnishes the steel distributor with the following certification which shall be signed as provided in section 8 of NPA Reg. 2:

Certified under Direction 1 to Schedule 1 of NPA Order M-6A.

This certification shall be required in addition to the certification provided for in section 5 of Schedule 1 and shall constitute a representation by the purchaser to the steel distributor and to NPA that he has not received a total of 5,000 pounds or more, from all sources, of the item of aircraft quality alloy steel which he orders, and that by the acceptance of delivery of the item ordered such receipts will not exceed a total of 5,000 pounds, during the calendar month in which delivery is received.

(Sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154)

This direction shall take effect July 8, 1952.

NATIONAL PRODUCTION AUTHORITY,

[NPA Order M-67, Revocation]

M-67—ALUMINUM FOIL, CONVERTED

REVOCATION

NPA Order M-67 (17 F. R. 2762) is hereby revoked.

This revocation does not relieve any person of any obligation or liability incurred under NPA Order M-67 as originally issued or as amended from time to time, nor deprive any person of any rights received or accrued under said order prior to the effective date of this revocation.

(Sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154)

This revocation is effective July 14, 1952.

Issued July 8, 1952.

MANGANESE REGULATIONS

DOMESTIC MANGANESE PURCHASE PROGRAM

Sec.
1. Basis and purpose.
2. Definitions.
3. Duration of the Program.
4. Participation in the Program.
5. Specifications.
6. Price, premiums and penalties.
7. Deliveries and acceptance.
8. Sampling and analysis.
9. Transportation charges.
10. Weight.
11. Payment.

AUTHORITY: Sections 1 to 11 issued under sec. 704, 64 Stat. 816, as amended, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 303, 64 Stat. 801, as amended, Pub. Law 429, 82d Cong., 50 U. S. C. App. Sup. 2093; E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR 1950 Supp; E. O. 10281, Aug. 28, 1951, 16 F. R. 8789.

SECTION 1. *Basis and purpose.* (a) The purpose of this regulation is to establish a Program to encourage expansion of domestic production of manganese by providing a uniform price scale for small domestic producers of metallurgical grade manganese ores and concentrates. Any small domestic producer whose total anticipated or actual production is less than 10,000 long dry tons per calendar year shall be eligible to participate under the provisions of this Program as hereinafter specifically set forth. Individuals or firms whose total production exceeds 10,000 long dry tons per year may negotiate with the Government for the purchase of their production.

(b) This regulation interprets and implements the authority of the Administrator of General Services, pursuant to delegation of authority from the Defense Materials Procurment Administrator of even date with this regulation, to purchase metallurgical grade manganese ores and concentrates, all of domestic origin, as authorized by the Defense Production Administration on May 9, 1952, and outlines the attendant responsibilities and functions of the Administrator of General Services in purchasing such manganese ores and concentrates for Government use and resale. In accordance with the Program set forth herein, the Administrator of General Services will buy domestically produced metallurgical grade manganese ores and concentrates conforming to the specifications, at the price, and under the other terms and conditions of this regulation.

SEC. 2. *Definitions.* (a) "Administrator" means the Administrator of General Services.

(b) "Program" means the Program as set forth in the following paragraphs.

(c) "Shipping point" means the location at which the small domestic producer delivers material f. o. b. railroad cars.

(d) "Receiving point" means the location to which shipments shall be consigned.

(e) "Small domestic producer" means any individual or firm whose total anticipated or actual production of manganese ore or concentrates mined and milled in the continental United States annually is less than 10,000 long dry tons.

(f) The term "Continental United States" means the forty-eight (48) states and the District of Columbia.

(g) "Long ton unit" means one percent of 2,240 pounds avoirdupois dry weight, or 22.4 pounds of metallic manganese contained in manganese oxide or manganese carbonate.

(h) "Manganese ore or concentrates" means natural or sintered oxide ores or concentrates or sintered carbonate ores or concentrates, as defined in section 5 of this regulation, excluding battery and chemical grades and ores or concentrates containing manganese as manganese silicate in excess of ten percent.

(i) "Lot" means that quantity of ore and concentrates offered at one time. It shall consist of one or more railroad carloads. Fractions of a carload may not be offered.

(j) "Carload" means the quantity (carried in one railroad car) equalling or exceeding the minimum tonnage which can be moved at the lowest transportation rate.

SEC. 3. *Duration of the Program.* The Program shall terminate and be of no further force or effect at the close of business June 30, 1956, or when deliveries under the Program total 19,000,000 long dry ton units of manganese, whichever occurs first.

SEC. 4. *Participation in the Program.* Any small domestic producer desiring to participate in the Program shall make application to the nearest General Services Administration regional office in the form of a letter, postcard, or telegram, postmarked or dated by the telegraph office on or before June 30, 1953, stating (a) that applicant has read this regulation and accepts its terms and conditions, and (b) that applicant desires to participate in this Program, and will offer manganese ore or concentrates to the Government pursuant thereto. Such notification must be signed and a return address given. Receipt of this application will be acknowledged by the regional office which may request such additional information as may be necessary and will issue to those who qualify hereunder a certificate authorizing the applicant to make shipments under the Program.

SEC. 5. *Specifications—(a) Chemical requirements.* All shipments must meet the following chemical analysis:

	By weight (dry basis) (percent minimum)
Manganese (Mn)	40.0
Iron (Fe)	16.0
Silica plus Alumina (SiO_2 plus Al_2O_3)	15.0
Phosphorous (P)	.30
Copper plus lead plus zinc (Cu plus Pb plus Zn)	[1] 1.00

[1] Of which not more than 0.25 percent may be copper.

Analyses superior to the foregoing are desired.

(b) *Physical requirements.* Three types of material, according to physical characteristics, are covered by this specification. All offers shall stipulate the type covered and the following shall constitute the rejection limits of each type.

Type I—Lump ore shall be natural ore, unprocessed except for grading, washing, or screening. Not more than 5 percent shall pass a Tyler standard 20 mesh screen.

Type II—Fine ore shall be natural ore, unprocessed except for grading, washing, or screening. Not more than 15 percent shall pass a Tyler standard 20 mesh screen.

Type III—Nodules or sinter shall be natural fines, or concentrates, densely agglomerated by the application of heat. Not more than 5 percent shall pass a Tyler standard 20 mesh screen.

Fine concentrates may be considered for acceptance under this program through special arrangement with the appropriate regional office. In such case, appropriate adjustments may be made in price and other terms and conditions.

SEC. 6. *Price, premiums, and penalties.* (a) The price to be paid for any carload lot of material will be determined in accordance with the base price and the premiums and penalties stated hereinbelow. Prices herein stated are f. o. b. railroad cars at the participant's shipping point.

(b) The base price shall be $2.30 per long dry ton unit for material of the following analysis:

	Percent
Manganese (Mn)	48.0
Iron (Fe)	6.0
Silica plus Alumina (SiO_2 plus Al_2O_3)	11.0
Phosphorus	.12

ores or concentrates containing more than 1 percent copper plus lead plus zinc (of which not more than 0.25 percent shall be copper) will not be accepted.

(c) For material which is superior or inferior to the above analysis, the following premiums and penalties shall be applied:

(1) Premiums: Manganese content above 48 percent (dry basis); ½ cent per unit for each 1 percent. Iron content below 6.0 percent (dry basis); ½ cent per unit for each 1 percent.

(2) Penalties: Manganese content below 48 percent (dry basis) 1 cent per unit for each 1 percent, down to and including 44.0 percent. Below 44.0 percent, 4 cents per unit plus 1½ cents per unit for each 1.0 percent down to and including 40 percent. Iron content above 6 percent (dry basis); 1 cent per unit for each 1.0 percent up to and including 8.0 percent. Above 8 percent; 2 cents per unit plus ¾ cent per unit for each 1.0 percent up to and including 16 percent. Silica plus alumina content above 11.0 percent (dry basis); 1 cent per unit for each 1.0 percent up to and including 15.0 percent. Phosphorus content above 0.12 percent (dry basis); ½ cent per unit for each 0.01 percent up to and including 0.30 percent.

SEC. 7. *Deliveries and acceptance.* (a) Participant shall advise the nearest General Services Administration regional office at least twenty (20) days prior to an intended date of shipment of each lot, giving full information as to shipping point, tonnage and analysis of the lot. The regional office will inform the participant of the receiving point and consignee within fifteen (15) days of receipt of notice, and participant shall deliver the lot, at his expense, f. o. b. railroad cars at his designated shipping point, consigned in accordance with such instructions. Shipment must be in lots of one or more carloads. Fractional carloads will not be accepted. The lot will be weighed, sampled and analyzed at the receiving point, and the cost of weighing, sampling and analysis will be at the expense of the Government. Upon receipt of analysis, participant will be informed as to the acceptability of the lot.

(b) If the lot fails to meet the specifications herein provided, the participant will be held responsible for the removal of the lot from the unloading site. Upon failure to remove the lot within fifteen (15) days after due notice, the Government may, at its option, remove such lot and the cost of such removal shall be for participant's account, or otherwise dispose of such lot without liability therefor. Lots delivered to the Government based on inaccurate information willfully furnished by the participant may be the basis for terminating participation in the Program.

SEC. 8. *Sampling and analysis.* Each lot will be sampled at the time of unloading at the receiving point by a sampler designated by the Government. Three pulp samples will be prepared from the sample taken, one each for the Government, participant, and umpire, and an analysis made for manganese, iron, silica, and alumina, and, if necessary, for phosphorus, copper, lead, and zinc. Usual provisions will be made for splitting limits and settlement by average of the Government's and participant's analyses, or by trade practice if samples are sent to umpire. Moisture samples will be taken in accordance with standard practice. The partcipant, at his own expense, may have a representative at the sampling.

SEC. 9. *Transportation charges.* Freight charges from shipping point to receiving point will be paid either by the Government or by its consignee. Participant shall be held accountable for freight charges and any other charges incurred by the Government with respect thereto on any lot failing to meet the specifications provided herein, and for any expense to the Government due to railway cars being loaded in excess of the maximum limit.

SEC. 10. *Weight.* The number of long dry tons in each lot shall be the net railroad-track-scale weight less moisture as determined by standard practice.

SEC. 11. *Payment.* Upon receipt by the appropriate regional office of applicable moisture and analysis determination and certified weight certificate with respect to each acceptable delivery under the terms of the program hereinabove stated, the participants shall be promptly paid for each such delivery in accordance with the price provisions of such program.

Dated: July 7, 1952.

JESS LARSON,
Administrator of General Services.

[F. R. Doc. 52-7544; Filed, July 7, 1952; 1:36 p. m.]

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 4—DEPENDENTS AND BENEFICIARIES CLAIMS

MISCELLANEOUS AMENDMENTS

1. In § 4.74, paragraph (c) is amended to read as follows:

§ 4.74 *Public No. 2 (act of March 20, 1933) and section 28, Public No. 141 (act of March 28, 1934), 73d Congress, as amended; Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12 note).* • • •

(c) *Peacetime service; Veterans Regulation 1 (a), Part II, as amended (38 U. S. C. ch. 12 note).* As to claims filed on or after July 30, 1942, the date of commencement of original awards of death compensation shall be the day following the date of death or July 30, 1942, whichever is the later, if application is filed within 1 year after the date of death, otherwise the date of filing application, but in no event prior to July 30, 1942 (section 4, Pub. Law 690, 77th Cong., act of July 30, 1942).

• • • • •

2. In § 4.77, paragraph (b) is amended to read as follows:

§ 4.77 *Death pension or compensation payable solely by virtue of certain amendatory laws.* • • •

(b) *Reservists and National Guardsmen—(1) Veterans Regulation 1 (a), Part I and Part II, as amended (38 U. S. C. ch. 12); Reservists.* Except as provided in subparagraph (2) of this paragraph, where payments have been made by the Bureau of Employees' Compensation, Department of Labor, based on service in the reserves and the claimant has elected to receive death compensation from the Veterans Administration, the commencing date of an award which is payable under the provisions of Veterans Regulation 1 (a), Part I or Part II, as amended, shall be the day following the date of last payment by the Bureau of Employees' Compensation. See § 3.1 (l) of this chapter and § 4.51 (d).

(2) *Public Law 108, 81st Congress; Reservists and National Guardsmen.* Where death occurred on or after June 20, 1949, the date of commencement of original awards of death compensation payable solely as a result of the provisions of Public Law 108, 81st Congress (act of June 20, 1949), shall be the day following the date of death or June 20, 1949, whichever is the later, if application is filed within 1 year after the date of death; otherwise from the date of filing application, but in no event prior to June 20, 1949. A claim pending on June 20, 1949, shall be considered a claim under this law. Where death occurred prior to June 20, 1949, the date of commencement of such awards shall be the day following the date of death or August 14, 1945, whichever is the later, without regard to the date of filing application. The amount of any benefits which may have been paid by the Veterans Administration or Bureau of Employees' Compensation shall be subtracted from any compensation which may be payable under this law.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 1—PRACTICE AND PROCEDURE

MULTIPLE APPLICATIONS; BROADCAST SERVICE

In the matter of amendment of § 1.364 of the Commission's rules.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 25th day of June 1952;

The Commission having under consideration the provisions of § 1.364 of the Commission's rules and regulations; and

It appearing, that an amendment of this section is appropriate in order to make its provisions consistent with the interpretation that has been given to the section in connection with the processing of applications in the broadcast services;

It is ordered, Pursuant to the authority of sections 4 (i), (j) and 303 (r) of the Communications Act of 1934, as amended, that § 1.364 of the Commission's rules and regulations be and is amended to read as follows:

§ 1.364 *Multiple applications; broadcast service.* In the broadcast service, while there is one application for new or additional facilities pending for a standard, international, television, facsimile, FM, or experimental broadcast station,

the Commission will not accept another application for new or additional facilities for a station of the same class (as given above) to serve the same community, by the same applicant or by his successor or assignee, or on behalf or for the benefit of the original parties in interest. Two such applications may not be filed simultaneously.

In view of the fact that § 1.364 of the Commission's rules and regulations is procedural, notice of proposed rule making in accordance with section 4 of the Administrative Procedure Act is unnecessary and this amendment shall be effective immediately. It is expressly pointed out that this amendment does not in any way change the substantive provisions or policies of the Commission with respect to multiple ownership of broadcast stations.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies Sec. 303, 48 Stat. 1082; 47 U. S. C. 303)

Released: June 26, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 52-7469; Filed, July 8, 1952; 8:50 a. m.]

[Docket No. 10177]

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

PART 9—AERONAUTICAL SERVICES

MISCELLANEOUS AMENDMENTS

In the matter of amendment of § 2.104 of Part 2 and amendment of § 9.511 of Part 9 of the Commission's rules to provide certain frequencies within the band 108.1–112.0 Mc for use by omni-directional radio ranges.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 25th day of June 1952;

The Commission having under consideration the notice of proposed rule making in the above entitled matter, which contemplates making available for assignment additional frequencies for use by omni-directional radio ranges; and

It appearing, that in accordance with the requirements of section 4 (a) of the Administrative Procedure Act, general notice of proposed rule making in the above-entitled matter, which made provision for the submission of written comments of interested parties and the filing of comments or briefs in reply to original comments or briefs, was duly published in the FEDERAL REGISTER on April 26, 1952 (17 F. R. 3748) and that the period for filing comments has expired; and

It further appearing, that no comment with respect to the proposed amendments was received by the Commission;

It is ordered, Under the authority of sections 4 (i), 303 (b), (c) and (r) of the Communications Act of 1934, as amended, that, effective July 28, 1952, § 2.104 of Part 2 and § 9.511 of the Commission's rules, be and they are hereby amended in exact accordance with the amendments set forth in the notice of proposed rule making published in the FEDERAL REGISTER on April 26, 1952, and incorporated as set forth below.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082; 47 U. S. C. 303)

Released: June 26, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

1. Section 2.104 *Frequency allocations* is amended as follows:

Delete the present allocation within the band 108.1–112.0 Mc, which appears in columns 10 and 11 of the tabulation of frequency allocations contained in that section, and substitute therefor the following:

Frequency (mc)	Nature of services (of stations
10	11
108.1	Localizer.
108.2	Omni-directional radio range.
108.3	Localizer.
108.4	Omni-directional radio range.
108.5	Localizer.
108.6	Omni-directional radio range.
108.7	Localizer.
108.8	Omni-directional radio range.
108.9	Localizer.
109.0	Omni-directional radio range.
109.1	Localizer.
109.2	Omni-directional radio range.
109.3	Localizer.
109.4	Omni-directional radio range.
109.5	Localizer.
109.6	Omni-directional radio range.
109.7	Localizer.
109.8	Omni-directional radio range.
109.9	Localizer.
110.0	Omni-directional radio range.
110.1	Localizer.
110.2	Omni-directional radio range.
110.3	Localizer.
110.4	Omni-directional radio range.
110.5	Localizer.
110.6	Omni-directional radio range.
110.7	Localizer.
110.8	Omni-directional radio range.
110.9	Localizer.
111.0	Omni-directional radio range.
111.1	Localizer.
111.2	Omni-directional radio range.
111.3	Localizer.
111.4	Omni-directional radio range.
111.5	Localizer.
111.6	Omni-directional radio range.
111.7	Localizer.
111.8	Omni-directional radio range.
111.9	Localizer.
112.0	Omni-directional radio range.

2. Section 9.511 (a) is amended to read as follows:

§ 9.511 *Frequencies available.* (a) Instrument Landing Localizer with simultaneous radiotelephone channel. The frequencies:

108.1	109.1	110.1	111.1
108.3	109.3	110.3	111.3
108.5	109.5	110.5	111.5
108.7	109.7	110.7	111.7
108.9	109.9	110.9	111.9

3. Section 9.511 (d) is amended to read as follows:

(d) Airway track guidance (ranges): 112.1 megacycles through 117.9 megacycles and the following frequencies in the 108–112 megacycles band:

108.2	109.2	110.2	111.2
108.4	109.4	110.4	111.4
108.6	109.6	110.6	111.6
108.8	109.8	110.8	111.8
109.0	110.0	111.0	112.0

PART 3—RADIO BROADCAST SERVICES

NONCOMMERCIAL EDUCATIONAL TELEVISION BROADCAST STATIONS

In the matters of amendment of § 3.606 of the Commission's rules and regulations, Docket Nos. 8736 and 8975; amendment of the Commission's rules, regulations and Engineering Standards Concerning the Television Broadcast Service, Docket No. 9175; utilization of frequencies in the band 470 to 890 Mcs. for Television Broadcasting, Docket No. 8976.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 25th day of June 1952;

It appearing, that the Commission on April 14, 1952, issued its Sixth Report and Order in the above entitled proceedings, which among other things, reserved channels in certain communities for use by noncommercial educational television stations; and

It further appearing, that the Commission has adopted § 3.621 of its rules and regulations pertaining to the licensing and operation of noncommercial educational television broadcast stations; and

It further appearing, that additional information is required by the Commission in order to process applications for noncommercial educational television broadcast stations in light of the requirements of § 3.621;

It is ordered, That effective immediately pursuant to the authority of sections 4 (i) and (j), 301, 303 (a) (b) (c) (d) (g) and (r) of the Communications Act of 1934, as amended, FCC Form 301 "Application for Authority to Construct a New Broadcast Station or Make Changes in an Existing Broadcast Station" is amended by the addition of page 6 entitled "Additional Information to be Supplied by Applicants for Noncommercial Educational Television Broadcast Stations," to section II (Legal Qualifications of Broadcast Applicant).[1]

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 48 Stat. 1081, 1082; 47 U. S. C. 301, 303)

Released: June 26, 1952.

[Docket No. 10102]

PART 12—AMATEUR RADIO SERVICE

In the matter of providing a Radio Amateur Civil Emergency Service.

Memorandum opinion and order. In cooperation with other interested agencies of Federal Government, the Commission heretofore selected certain frequencies from the regularly allocated amateur frequency bands for use in providing for civil defense communication. Public announcement of the frequencies

[1] Filed as part of the original document.

chosen was made, simultaneously, by the Commission and the Federal Civil Defense Administration on January 17, 1951. Thereafter, a notice of proposed rule making, which contemplated establishment of a new radio service to be devoted exclusively to civil defense purposes, was adopted by the Commission and published in the FEDERAL REGISTER (17 F. R. 347, Jan. 11, 1952). Responsive to this notice, written comments were received from some 20 state, county, or city civil defense organizations. Comments also were received from the Association of Police Communications Officers and from the Federal Civil Defense Administration, as well as from some six individual amateurs, four amateur clubs, and from the American Radio Relay League. These comments expressed general approval of the rules as proposed, and changes suggested in individual sections of those rules were, with certain exceptions hereinafter noted, adopted in whole or in part.

Concern was expressed that the proposed service would interfere with the use of frequencies in the band 1750–1800 Kc., allocated to the Disaster Communications Service, but, since stations in the Radio Amateur Civil Emergency Service are not authorized to operate in that frequency band, no interference is anticipated to Disaster Communications operations. Nor would use of the new service interfere with or obstruct the orderly use of Disaster Communications stations for civil defense purposes. Under the rules provided, it would be permissible for a local civil defense organization to be the licensee of a Disaster Communications network and at the same time to utilize the communications of a Radio Amateur Civil Emergency network under the same communications plan.

Several persons and organizations expressed dissatisfaction with § 12.231, which sets forth frequencies available for this service and prescribes limitations under which they may be used, to the extent that it provides that frequency bands specified for use of the Radio Amateur Civil Emergency Service be jointly available to stations of the military service for training and tactical operations. It is to be noted, however, that such sharing is not provided for unless or until national conditions require discontinuance of regular amateur operation. At that time, frequencies allocated to amateur operation are to be used by the military forces. Hence, the agreement with the military that amateurs may continue to use certain segments of the amateur frequency bands for civil defense communications was predicated upon the understanding that the military forces would share such frequencies for training and tactical operations, subject to priority of civil defense communications during scheduled drills, tests, or actual civil defense emergencies. Editorial changes to clarify these conditions were made in the rules adopted.

Some comment indicated a need for more frequencies for long distance communication. However, frequency bands were selected for the Radio Amateur Civil Emergency Service after consideration of all factors known to be involved at this time, including frequency requirements of other radio services in time of war or national emergency. The extent to which the frequencies selected meet actual requirements for amateur participation in civil defense communications may be reviewed after a sufficient number of local communities have established appropriate civil defense plans, conducted communications drills, or otherwise accumulated data which will permit such review. At present, however, we cannot conclude that additional frequencies should be made available for this service.

It was suggested that type 6 A2 emission be provided in the frequency band 3990 to 4000 Kc., and that it be substituted for 2 A2 emission in all bands above 50 Mc., in order to permit use of audio frequency shift keying for radioprinter operation. The Commission followed this suggestion in part, but since it has been traditional practice to exclude operation with A2 emission in the lower amateur frequency bands, it appeared inconsistent and inadvisable to provide for use of A2 emission as suggested. Radioprinter operation is, however, provided for both in this and the 3500–3510 Kc. band by the inclusion of 1.1 F1 emission.

It was also suggested that since F–1 carrier shift is permitted in operation on frequencies from 3.5 to 4.0 Mc, the same emission should be provided in the frequency band 1800–2000 Kc for the reason that the 3.5 to 4.0 Mc band is not sufficiently large to furnish a day and night teletype circuit. This could not be followed for the reason that frequencies provided for the Radio Amateur Civil Emergency Service are authorized for use in exact accordance with the frequency allocations in Part 2 of the Commission's rules. Under these allocations the frequency band 1800–2000 Kc is reserved, primarily, for use of Loran, and F–1 emission is not authorized. Accordingly, to provide such emission in this service not only would upset the Commission's present allocation of that band but also could be expected to raise a question as to possible interference with Loran operations.

Several comments related to the provisions governing eligibility for a license in the Radio Amateur Civil Emergency Service. Some asserted that it would seem appropriate to authorize the state, county, or municipality concerned to operate such stations rather than to license individual amateurs. Reasons given for this conclusion were that local civil defense organizations were authorized to purchase certain radio equipment for communications purposes. Distribution of such equipment could be accomplished more efficiently if the civil defense organization or the local government were the licensee of the radio station or stations. It was further stated that control of the station could more readily be maintained by such a licensee. The rules adopted would not, however, prevent a city, county, or other civil defense organization from purchasing radio equipment to be operated in this service by one or more amateurs enrolled in such civil defense organization. Nor would the radio network serving a specified area necessarily become useless or unlicensed should the area lose the services of one or more licensed amateurs since station licensees will not specify the equipment to be operated and each authorization is intended to permit the use and operation of any and all radio equipment placed in charge of a particular licensee. In order to avoid a lapse of operating authority in the event the licensee of a Radio Amateur Civil Emergency station becomes unavailable for further civil defense duty, each civil defense organization may, under the rules adopted, arrange for several amateur licensees to serve the organization so that, should the services of one be lost, the remaining licensee or licensees can continue to use all of the available radio equipment.

Objection was expressed in respect to § 12.200 to the extent that it limits the duration of the Radio Amateur Civil Emergency Service to the period of the present national emergency as proclaimed by the President on December 16, 1950. Exception to this was on the ground that civil defense requirements for radio communications may well continue beyond this period and that federal, state, county, and municipal governments may be reluctant to expend large sums of money for radio equipment to operate on frequencies allocated to the Radio Amateur Civil Emergency Service if there were a possibility that civil defense operations might subsequently be moved from those frequencies. However, the Commission may, if conditions seem to warrant such action, extend the provisions of these rules to cover any continued use of the Radio Amateur Civil Emergency Service which would seem to be indicated.

The Commission was unable to adopt suggestions prescribing methods for determining the loyalty, reliability, and efficiency of civil defense radio officers and radio operators. The Commission has no facilities for making such determinations and, furthermore, it would seem inappropriate for such checks to be made by the Commission in the matter of persons in the service of the Federal Defense Administration, which is responsible for assigning suitable persons to the various tasks it undertakes. The Commission is interested in this matter, however, to the extent of being informed, reliably, that persons who will direct the use of radio stations, or operate them, have been approved as good security risks by the Federal Civil Defense Administration, and the rules adopted are designed for that purpose.

Under the rules herein provided, Part 12 is divided into two subparts, of which the first includes all present rules governing amateur radio service; the second or Subpart B, with which this report is primarily concerned, comprises new rules prescribing requirements for the use, under a separate or additional authorization, of amateur radio stations for civil defense communications. The rules are limited in their force and effect to the period of the present national emergency as proclaimed by the President on December 16, 1950. As provided, persons now holding amateur radio licenses would have to apply for

an additional authorization in order to operate in the new service and furnish proof that the operation proposed would be under and in accordance with approved civil defense plans. A station in this service may be comprised of one or of several transmitters of the fixed, base, or mobile class, or a combination of two or more of these. A network is a combination of all Radio Amateur Civil Emergency stations operating in one area under the same communications plan in conjunction with a single control station. Liaison among networks is intended. Local radio amateur civil emergency networks are to be organized by the civil defense authority of the area concerned, and shall be under the immediate direction of the Civil Defense Radio Officer. Stations in this service may intercommunicate or may exchange messages with stations in other services including stations operated by the United States Government. Communications may relate to any phase of civil defense work whether it be practice tests and drills or communications directly concerning safety of life, preservation of property, maintenance of law and order, or related emergency purposes. Unless the present national emergency intensifies to the extent that normal amateur communication must be suspended, operation of stations in this service, on the frequencies herein provided, must be upon a shared basis with normal amateur operation on the same or adjacent frequencies. The Commission expects, however, that all amateurs will give wholehearted cooperation to the civil defense effort and will respect any appropriate request to suspend operation on a particular amateur frequency or frequency band pending completion of bona fide civil defense drills where interference might otherwise be caused to civil defense communications.

In view of the foregoing considerations and determinations, the Commission finds that the public interest, convenience, and necessity will be served by adoption of the rules herein ordered. Accordingly, pursuant to the authority of sections 4 (i) and 303 (b), (1), and (r) of the Communications Act of 1934, as amended, *It is ordered*, This 26th day of June 1952, that the rules as set forth below are adopted to become effective August 15, 1952.

Released: June 30, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

Amend Part 12, "Amateur Radio Service", by dividing it into two subparts, to be called Subpart A and Subpart B. Subpart A shall include all present rules in this part, through and including § 12.162, preceding which is added the new subpart title. Subpart B provides for a new Radio Amateur Civil Emergency Service. The present Appendix to Part 12 shall follow the new Subpart B. The arrangement proposed, and the provisions of the new Subpart B read as follows:

SUBPART A—AMATEUR RADIO STATIONS AND OPERATORS

(All existing provisions of this part through § 12.162)

SUBPART B—RADIO AMATEUR CIVIL EMERGENCY SERVICE

GENERAL

Sec.
12.200 Temporary nature of this service.
12.201 Definitions.
12.202 Applicability of rules governing amateur radio stations and operators.

ORGANIZATION

12.211 Organization of networks.
12.212 Approval of civil defense communications plans.
12.213 Certification of Civil Defense Radio Officer.
12.214 Qualifications of Civil Defense Radio Officer.
12.215 Duties of Civil Defense Radio Officer.

STATION AUTHORIZATIONS

12.221 Station authorization required.
12.222 Eligibility for station authorization.
12.223 Filing of application.
12.224 Additional data required.
12.225 Single application for all equipment under one amateur station license.
12.226 Issuance of station authorization.
12.227 Term of station authorization.
12.228 Cancellation of station authorization.

TECHNICAL REQUIREMENTS

12.231 Frequencies available.
12.232 Classification of omissions.
12.233 Transmitter power.
12.234 Equipment requirements.
12.235 Alleviation of harmful interference.

OPERATING REQUIREMENTS

12.241 Operator requirements.
12.242 Operation at other than licensed location.
12.243 Availability of station authorization and operator license.
12.244 Radio station log.
12.245 Station identification.
12.246 Tactical call signs.

USE OF STATIONS

12.251 Limitations on use of station.
12.252 Hours of operation.
12.253 Points of communication.
12.254 Permissible communications.
12.255 Use of codes and ciphers.
12.256 Priority of communications.
12.257 Operating procedure.

AUTHORITY: §§ 12.200 to 12.257 issued under sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082; 47 U. S. C. 303.

GENERAL

§ 12.200 *Temporary nature of this service.* (a) The Radio Amateur Civil Emergency Service provides a temporary phase of amateur operation for Civil Defense communications purposes only, and the rules are limited in their force and effect to the period of the present national emergency, including any emergency which may necessitate invoking of the President's War Emergency Powers under the provisions of section 606 of the Communications Act of 1934, as amended.

(b) Pursuant to the provisions of section 4 (j) of the Communications Act of 1934, as amended, records relating to the Radio Amateur Civil Emergency Service shall not be open to general public inspection.

§ 12.201 *Definitions.* For the purposes of this subpart, the following definitions are applicable:

(a) *Radio Amateur Civil Emergency Service.* A temporary radio-communication service carried on by licensed amateur radio stations while operating on specifically designated segments of the regularly allocated amateur frequency bands under the direction of authorized local, regional, or federal civil defense officials pursuant to an approved civil defense communications plan.

(b) *Radio Amateur Civil Emergency Station.* An amateur radio station which is authorized to operate in the Radio Amateur Civil Emergency Service for the purpose of transmitting and receiving civil defense communications.

(c) *Civil defense communications.* Communications or signals essential to the conduct of civil defense activities of duly authorized civil defense organizations, including communications directly concerning safety of life, preservation of property, maintenance of law and order, alleviation of human suffering and need and dissemination of warnings of enemy attack to the civilian population in case of actual or impending armed attack or in any disaster or other incident endangering the public welfare. Such communications may also include transmissions necessary to establishment and maintenance of the radio system and communications essential to the training of civil defense personnel.

(d) *Civil defense authority.* The legally appointed Director of Civil Defense, or his authorized alternate or representative, for the particular geographical area (city, county, etc.) which a proposed radio station is intended to serve, and who is responsible to local governmental authority for protection and aid to the civilian population in the event of armed attack or of any disaster or other incident endangering public safety.

(e) *Civil Defense Communications Officer.* The official of any duly constituted civil defense organization having direct responsibility under the Director of that organization for the provision, organization, maintenance, readiness, and utilization of all means of communication to be used by such civil defense organization in the performance of its lawful functions.

(f) *Civil Defense Radio Officer.* The duly designated official of a legally constituted civil defense organization who is directly responsible either to the Communications Officer or to the Director of such civil defense organization for the provision, organization, maintenance, readiness, and utilization of radio communications facilities for civil defense use.

(g) *Radio Amateur Civil Emergency Network.* All radio amateur civil emergency stations intended to be included in the civil defense communications plan of the area concerned and which operate, or are to operate, in conjunction with a single control station. Such network may be made up of several separately authorized radio amateur civil emergency stations or units of such stations, or may be made up of several units of the same station operated at different locations. In addition, the same radio amateur civil emergency station or any unit of such station may be a part of more than one network; e. g., the control station of one network may also be the control station or a member station of another network operated in conjunction therewith.

(h) *Control station.* The term "control station" or "net control station" means any authorized Radio Amateur Civil Emergency Station unit designated by the civil defense radio officer, with the approval of the Director of Civil Defense or the Civil Defense Communications Officer, to direct the use and operation of other station units of the same Radio Amateur Civil Emergency Network.

(i) *Civil defense communications plan.* A civil defense communications plan is the plan under which communications facilities are provided to all branches and phases of the civil defense organization in the area concerned and for all of its activities. Such plan may be drawn up in accordance with the needs of the particular area affected and the facilities, including licensed radio operators and stations, available in that particular area. Plans need not be uniform, but to be acceptable to the Commission they must comply with the following:

(1) The plan must be clearly described in writing, and it may include diagrams and sketches. It must include a general description of the facilities and personnel available to provide communications for civil defense purposes and the expected usage to be made thereof.

(2) The plan must have been approved by the state or territorial and federal civil defense authorities having jurisdiction of the area affected.

(3) The plan must include the name, address, official title, and a statement of the qualifications of the Civil Defense Radio Officer (and of any and all alternate Radio Officers) responsible for the organization, training, and utilization of the radio amateur civil emergency station networks under that plan, and the name, address, and official title of the civil defense official responsible for the coordination of all civil defense activities of the area concerned.

(4) The plan must include a general description of each radio amateur civil emergency station network under the jurisdiction of each respective Civil Defense Radio Officer, showing location of fixed installations, purpose, area of activity to be served, an estimate of the number of radio amateur stations and independent operating units of such stations intended to be used in the network, and a description, including the location and call sign, of its control station and any alternate control station or stations.

(5) The plan must include a general statement as to the frequency bands to be used by the radio amateur civil emergency station networks and the approximate number of stations, or units of such stations, to be operated in each such band, together with a description of the method which has been adopted for liaison and coordination of frequency usage with other similar networks in the same and adjacent areas.

(6) The plan must include a statement setting forth the facilities available to the area and the procedures to be followed in determining the loyalty and general reliabilty of all civil defense Radio Officers, amateur radio station licensees and radio operators intended to be utilized in the implementation of that plan. (See §§ 12.214 (b), 12.215 (c) and 12.241 (a) of this subpart.)

§ 12.202 *Applicability of rules governing amateur radio stations and operators.* In all cases not specifically covered by the regulations contained in this subpart, licensed amateur stations authorized to be operated in the Radio Amateur Civil Emergency Service shall be governed by the provisions of the rules governing amateur radio stations and operators (Subpart A of this part) which are not in conflict herewith. In any case of conflict, the rules governing the Radio Amateur Civil Emergency Service shall govern in respect to any station operated in that service.

ORGANIZATION

§ 12.211 *Organization of networks.* To supplement or extend other means of communication available to the civil defense organization or to provide necessary communications for which no other means exist, local radio amateur civil emergency station networks shall be organized by the civil defense authority of the area concerned and under the immediate direction of the Civil Defense Radio Officer. Such networks shall include all licensed amateur radio stations which are intended to be included in the civil defense communications plan of the area concerned. In any particular area there may be several such networks and each network may be independent of the others. Whenever there is more than one network in the same area, all such networks must share, under a single civil defense communications plan, the available frequencies in an efficient and orderly manner. The various networks in adjacent areas shall establish proper liaison and a description of the arrangements made shall become a part of their respective civil defense communications plans. Such arrangement shall provide for the efficient sharing of frequencies, plans for operating procedure designed to avoid mutual interference, and the exchange of communications facilities upon an inter-area basis where need for such exchange may arise.

§ 12.212 *Approval of civil defense communications plans.* (a) All civil defense communications plans which provide for the utilization of radio amateur civil emergency stations for civil defense purposes must be submitted to and approved by the responsible state (or territorial) and federal civil defense authorities before the licensed amateur stations intended to be used will be authorized to operate in the radio amateur civil emergency service.

(b) Material changes or modifications in such civil defense communications plans which alter the basic information required shall be submitted for approval in the same manner as the original plans.

(c) Written certification of approval by the competent state (or territorial) and federal civil defense authorities of each civil defense communications plan, or of any changes or modifications thereof, shall accompany the copies of such plans, changes, or modifications, which are submitted to the Commission in accordance with the provisions of this part.

§ 12.213 *Certification of Civil Defense Radio Officer.* (a) Certification of the Civil Defense Radio Officer shall be made on FCC Form 482. Such form shall be executed by the civil defense authority responsible for the coordination of all civil defense activities of the area concerned and show: (1) The name, address, and area of responsibility of such civil defense radio officer, (2) statement by him that he has accepted such appointment and agrees to perform faithfully the duties of that office, including those prescribed by this subpart, (3) a certification by the responsible civil defense authority that he has satisfied himself that the named civil defense radio officer is fully qualified in accordance with the provisions of § 12.214, and (4) the effective date of the appointment of the civil defense radio officer and the name of any previous civil defense radio officer whose appointment is terminated.

(b) FCC Form No. 482, when completed in accordance with this section, shall be forwarded to the Commission via the responsible state (or territorial) and federal civil defense officials whose approval (or disapproval) shall be clearly indicated on the form.

§ 12.214 *Qualifications of Civil Defense Radio Officer.* No person shall be considered qualified as a civil defense radio officer until he shall have been found to satisfy the following minimum requirements:

(a) He shall hold either (1) a valid commercial radio operator's license of either first or second class (radiotelegraph or radiotelephone) issued by the Commission, or (2) a valid amateur operator license issued by the Commission, other than the Technician or Novice Class.

(b) A determination shall have been made as to his loyalty to the United States and his general reliability, in accordance with the procedures provided in the approved civil defense communications plan of the area concerned.

(c) It shall have been determined that his technical and administrative qualifications are adequate for the proper performance of his duties.

§ 12.215 *Duties of Civil Defense Radio Officer.* The duties of the Civil Defense Radio Officer shall include among such other duties as may be assigned or as may be required in accordance with the provisions of this subpart.

(a) The direction and supervision of all radio stations forming the radio amateur civil emergency networks in accordance with the approved civil de-

fense communications plan for the area involved.

(b) Provision for adequate monitoring of all transmissions of the stations under his supervision to assure compliance with the rules and regulations of the Commission, and to guard against improper use of the radio stations and intentional or inadvertent transmissions which might jeopardize the defense or security of the United States.

(c) The recommendation to the Commission for the granting of authorizations to individual amateurs for operation in this service, and certification to the Commission as to the loyalty to the United States and reliability of such individuals and the certification required in accordance with § 12.223.

(d) The recommendation to the Commission for cancellation of any authorization previously recommended or certified whenever subsequent investigation or circumstances indicate that the original recommendation or certification should not have been made.

STATION AUTHORIZATIONS

§ 12.221 *Station authorization required.* No radio station may be operated in the Radio Amateur Civil Emergency Service except pursuant to an authorization for such operation issued by the Federal Communications Commission.

§ 12.222 *Eligibility for station authorization.* An authorization to operate a station in the Radio Amateur Civil Emergency Service will be issued only to a person who holds an amateur radio operator license, other than Technician or Novice Class, and an appropriate amateur radio station license.

§ 12.223 *Filing of application.* Each application for a station authorization shall be submitted on FCC Form 481–1, signed under oath or affirmation by the applicant and countersigned by the appropriate civil defense radio officer, who shall certify to the following:

(a) That the applicant has satisfied all requirements (both local and federal) for participation in the civil defense organization and is actually enrolled as a member of the local organization which serves the area where the station will operate.

(b) That the amateur station licensed in the name of the applicant has been approved for and, when authorized by the Commission, will actually constitute a unit of a civil defense communications network in accordance with an approved civil defense communications plan or amendment thereof.

§ 12.224 *Additional data required.* Each application for a station authorization in the Radio Amateur Civil Emergency Service shall be accompanied by the following data unless such material has already been submitted to the Commission, in which case the application shall clearly identify the material previously submitted:

(a) A copy of the approved communications plan (as defined in this part) for the civil defense communications network in which the station will operate, together with a copy of each approved amendment, change or modification of that plan.

(b) The official certification of the Civil Defense Radio Officer as provided in this subpart.

§ 12.225 *Single application for all equipment under one amateur station license.* Only one application need be filed for any one amateur station, including all transmitting equipment under the control of the licensee of that station, even though individual units of such station are capable of being operated and are intended to be operated independently at different locations, or as portable or mobile stations with no fixed locations. No distinction need be made between those units which are personally owned by the amateur station licensee and those units which are otherwise under his technical control for operation in this service.

§ 12.226 *Issuance of station authorization.* An authorization to operate in this service, will be issued in the discretion of the Commission upon satisfactory completion of all requirements of this subpart and proper certification that the requirements of the civil defense organization for which the station will be used have been or are being complied with. The station authorization (Form 481–2) will be forwarded to the Civil Defense Radio Officer for delivery to the applicant. Such authorization will be accompanied by a stub (Form 481–3) which may be retained by the civil defense radio officer for his records.

§ 12.227 *Term of station authorization.* (a) Authorization to operate an amateur station in the Radio Amateur Civil Emergency Service will be issued for a term running concurrently with the term of the amateur radio station license. Application for renewal of such authorization shall be filed concurrently with application for renewal of the basic amateur radio station license.

(b) Whenever, under rules contained in Subpart A of this part, modification of the basic amateur station license becomes necessary, if such modification affects the information submitted with the original application for a license in this service, application for modification of the Radio Amateur Civil Emergency station license shall be submitted concurrently therewith.

(c) Nothing in this section shall be construed to alter or amend the temporary nature of a station authorization in the Radio Amateur Civil Emergency Service and the Commission's authority to cancel or amend it in accordance with the applicant's agreement as indicated on the initial application for station authorization.

§ 12.228 *Cancellation of station authorization.* (a) Each authorization for operation in the Radio Amateur Civil Emergency Service shall be issued with the express provision that such authorization is subject to revocation or cancellation without hearing whenever, in the opinion of the Commission, the security of the United States or the proper functioning of the Radio Amateur Civil Emergency Service would be served thereby, or termination of the national emergency makes it unnecessary to continue the operation of stations in this service.

(b) The station authorization shall be submitted to the Commission (via the Civil Defense Radio Officer) for cancellation under the following circumstances:

(1) The station for which the authorization was issued becomes inactive for a period of three months or it is not planned to use the station in the radio amateur civil emergency network for a period of at least three months.

(2) The basic amateur radio station license of the station has expired and has not been renewed.

(3) In cases where the amateur radio station license and the radio amateur civil emergency station authorization have both been modified, the original authorization of the latter shall be submitted to the Commission immediately upon receipt by the licensee of a new or modified authorization.

TECHNICAL REQUIREMENTS

§ 12.231 *Frequencies available.* (a) The following tabulation indicates the frequency bands, within the regularly allocated amateur frequency bands, which are available for use by stations in the Radio Amateur Civil Emergency Service. These frequency bands may be used, on a non-exclusive basis, by the classes of radio amateur civil emergency stations or units of such stations indicated, and only with the types of omission shown in the right-hand column.

(1) For use only by authorized stations or units of such stations which are operated under the direct supervision of duly designated and responsible officials of the civil defense organization:

Frequency band:		*Authorized emission*
1800–1825 kc [1]	0.1	A1, 6 A3.
1875–1900 kc [1]	0.1	A1, 6 A3.
1900–1925 kc [1]	0.1	A1, 6 A3.
1975–2000 kc [1]	0.1	A1, 6 A3.
3500–3510 kc	0.1	A1, 1.1 F1.
3990–4000 kc	0.1	A1, 1.1 F1, 6 A3, 6 F3

[1] Use of frequencies in the band 1800–2000 kc is subject to the priority of the Loran system or radionavigation in this band and to the geographical, frequency, emission, and power limitations contained in § 12.111 of the rules governing amateur radio stations and operators (Subpart A of this part). The use of these frequencies by stations authorized to be operated in the Radio Amateur Civil Emergency Service shall not be a bar to expansion of the radionavigation (Loran) service, and such use shall be considered temporary in the sense that it shall remain subject to cancellation or to revision, in whole or in part, without hearing, whenever the Commission shall deem such cancellation or revision to be necessary or desirable in the light of the priority within this band of the Loran system of radionavigation.

(2) For use by all authorized stations:

Frequency band:		*Authorized emission*
28.55–28.75 Mc	0.1	A1, 6 A3, 6 A4, 6 F3
29.45–29.65 Mc	0.1	A1, 1.1 F1, 6 A3, 6 A4, 40 F3.
50.35–50.75 Mc	0.1	A1, 6 A2, 6 A3, 6 A4, 6 F3.
53.35–53.75 Mc	0.1	A1, 1.1 F1, 6 A2, 6 F2, 6 A3, 6 A4, 40 F3
145.17–145.71 Mc	0.1	A1, 1.1 F1, 6 A2, 6 F2, 6 A3, 6 A4, 40 F3
146.79–147.33 Mc	0.1	A1, 1.1 F1, 6 A2, 6 F2, 6 A3, 6 A4, 40 F3
220–225 Mc	0.1	A1, 1.1 F1, 6 A2, 6 F2, 6 A3, 6 A4, 40 F3.

(b) The selection and use of specific frequencies within the authorized frequency bands by stations in the Radio Amateur Civil Emergency Service shall be in accordance with a coordinated local area and adjacent area civil defense communications plan and applicable rules of this part.

(c) At such time as any or all of these frequency bands are withdrawn from availability to stations operating in the Amateur Radio Service, such bands shall be jointly available to stations in the Radio Amateur Civil Emergency Service and to stations in the military services for training and tactical operations. At that time, in areas where interference might occur, local mutual arrangements shall be made regarding times of operation such as to preclude or satisfactorily alleviate interference. In time of actual civil defense emergency, stations in the Radio Amateur Civil Emergency Service shall have absolute priority.

§ 12.232 *Classification of emissions.* (a) For the purposes of this subpart, the authorized emissions, as contained in the table of § 12.231, are defined as follows:

0.1 A1—Continuous wave telegraphy.
1.1 F1—Frequency shift telegraphy.
6 A2—Telegraphy amplitude modulated at audio frequency.
6 F2—Telegraphy frequency modulated at audio frequency.
6 A3—Commercial quality amplitude modulated telephony.
6 F3—Narrow band frequency or phase modulated telephony.
40 F3—Wide band frequency or phase modulated telephony.
6 A4—Amplitude modulated facsimile.

(b) On frequencies where wide band frequency or phase modulated telephony (40 F3) is authorized, narrow band frequency or phase modulated telephony (6 F3) may also be employed; similarly, where commercial quality amplitude modulated telephony (6 A3) is authorized, single or double sideband amplitude modulated telephony, with or without carrier or with reduced carrier, may also be employed.

§ 12.233 *Transmitter power.* The transmitting equipment of a radio station in this service shall be adjusted in such manner as to produce the minimum radiation necessary to carry out the communications desired. No station operating in this service shall use a direct current plate power input to the vacuum tube or tubes supplying energy to the antenna in excess of that permitted to be used by a licensed amateur radio station when operated on the same frequencies or in the same frequency bands in accordance with the provisions of the rules governing amateur radio stations and operators (Subpart A of this part).

§ 12.234 *Equipment requirements.* (a) Except under the conditions specified in paragraph (b) of this section, all stations authorized to be operated in the Radio Amateur Civil Emergency Service shall be capable of receiving on the same frequencies or frequency bands utilized for transmission.

(b) When a station in this service is operated only on a single frequency or frequency band for cross-band operation in communication with a station or stations operating on another frequency or in another frequency band, or in other services, such station shall be capable of receiving the station with which it is communicating.

(c) The direct modulation of an oscillator with a frequency stability less than that obtainable with crystal control, or the radiation of a signal having simultaneous amplitude and frequency or phase modulation, is prohibited on frequencies below 220 Mc after December 31, 1952.

§ 12.235 *Alleviation of harmful interference.* (a) When emissions of stations in the Radio Amateur Civil Emergency Service, other than those necessary to carry on the desired communications, cause harmful interference to stations in this or any other service, the Commission may, in its discretion, require appropriate technical changes in the equipment to alleviate the interference.

(b) When the emissions of stations in the Radio Amateur Civil Emergency Service that are necessary to carry on the desired communications cause harmful interference to stations in other radio services, appropriate action shall be taken to alleviate such interference including, if necessary, the suspension (except during times of an actual state of civil emergency) of such emissions as cause the interference.

OPERATING REQUIREMENTS

§ 12.241 *Operator requirements.* (a) No person shall operate a station in the Radio Amateur Civil Emergency Service unless (1) that person holds a valid radio operator license of the proper grade, as described in this section, and (2) that person holds a valid written certification by the chief of the local, regional, or state Civil Defense organization of the area in which he serves that he has satisfied all federal, state, and local requirements for enrollment in the Civil Defense organization as a radio operator and is actually enrolled therein. Such certification shall clearly indicate that a determination has been made as to his loyalty to the United States and general reliability in accordance with the procedures described in the approved civil defense communications plan for the area concerned. (See §§ 12.201 (i) and 12.212).

(b) The person manipulating the key of a manually operated radio-telegraph transmitter of a station authorized to operate in this service shall hold either (1) any class of amateur operator license issued by the Commission, other than the Technician or Novice Class, or (2) any class of commercial radiotelegraph operator license issued by the Commission other than the Temporary Limited Radiotelegraph Second Class Operator License, together with the certification required in accordance with the provisions of paragraph (a) of this section.

(c) Except as specifically provided in paragraphs (a) and (b) of this section, any station in the Radio Amateur Civil Emergency Service may be operated by the holder of any class of amateur or commercial radio operator license issued by the Commission other than a Temporary Limited Radiotelegraph Second Class Operator License or an Aircraft Radiotelephone Operator Authorization: *Provided*, That, when such operation is performed by the holder of a Novice Class amateur operator license or by the holder of a commercial radiotelephone or radiotelegraph third class operator license or restricted operator permit: (1) such operator shall be prohibited from making any adjustments that may result in improper transmitter operation, (2) the equipment shall be so designed and installed that none of the operations necessary to be performed during the course of the normal rendition of the service of the station may cause off-frequency operation or result in any unauthorized radiation, and (3) any needed adjustments of the transmitter that may affect the proper operation of the station shall be regularly made by or under the immediate supervision and responsibility of the holder of either an amateur operator license other than the Novice class or a commercial radiotelephone or radiotelegraph first or second class operator license.

(d) All adjustments or tests during or coincident with the installation, servicing or maintenance of the transmitting equipment of a station in this service shall be made only by or under the immediate supervision and responsibility of the holder of either (1) an amateur operator license other than the Novice class or (2) a commercial radiotelephone or radiotelegraph first or second class operator license issued by the Commission, who in addition holds the certification required in accordance with the provisions of paragraph (a) of this section.

§ 12.242 *Operation at other than licensed location.* A station in this service, or any unit thereof, may be operated at any location in accordance with the approved civil defense communications plan for the area concerned, in the discretion of and as directed by the Civil Defense Radio Officer, without notice to the Commission and without limitation as to the length of time within which such operation takes place: *Provided*, That nothing in this section shall be construed to waive the necessity for modification of the authorization of a station in this service when the address of the licensee or the basic location of the station is changed, or for any other reason where, because of a change of the communications plan or other reason, the information heretofore furnished the Commission with the original application may be materially altered or changed.

§ 12.243 *Availability of station authorizations and operator licenses.* (a) The original station authorization permitting operation of the licensed amateur station in the Radio Amateur Civil Emergency Service, or a photocopy thereof, shall be permanently attached to each transmitter of such station, including each transmitter which is capable of being operated and intended to be operated independently at different locations, if the transmitter is readily accessible, or, if the control position is located

at a place other than the transmitter location, it may be posted at the control position: *Provided*, That, whenever, a photocopy of the station authorization is utilized in compliance with the foregoing requirement, the original station authorization shall be made available for inspection upon reasonable request from any authorized representative of the Federal Government.

(b) The original radio operator license, or a verification card (FCC Form 758–F) in the case of the holder of a commercial radio operator license of the diploma type, of the operator controlling the emissions of a station authorized to be operated in this service together with the certification required by § 12.241 (a), shall be carried on his person or kept immediately available at the place where he is operating the station or any independent unit of a station: *Provided*, That, whenever a verification card (FCC Form 758–F) is utilized in compliance with the foregoing requirement, the original operator license shall be made available for inspection upon reasonable request from any authorized representative of the Federal Government.

(c) When a licensed amateur station, or an independent unit of such station, is operated at a location other than that shown in its license in compliance with the provisions of this subpart, the basic amateur station license required by Subpart A of this part need not be readily available at the station or unit location, but shall be made available for inspection upon reasonable request from any authorized representative of the Federal Government.

§ 12.244 *Radio station log.* (a) Except as otherwise expressly provided in this subpart, there shall be maintained at each radio amateur civil emergency station, or unit of such station, an accurate log of all operations. The following information shall be recorded in such station log:

(1) The name and address of the station licensee, the regularly assigned call sign of the station and unit number if any, the name of the radio amateur civil emergency network or networks in which the station is normally operated, and the d. c. plate power input to the vacuum tube or tubes supplying energy to the transmitting antenna system. This information need be entered only once in the log unless there is a change in any of the above items, but the original entry and each change shall show the date on which the entry was made.

(2) The date and time of beginning and end of each period during which the station was operated, the purpose of such operation, and the frequencies or bands of frequencies on which the operation took place.

(3) The call signs or other identification of all stations or units of such stations with which communications are established or attempted during such period of operation.

(4) The signature of the licensed operator on duty and in charge of the operation of the station or unit of such station during each period of operation, and the signature of each licensed operator who manipulated the key of any manually operated radiotelegraph transmitter of such station or unit. The signature of the operator shall be entered with the date and time at the beginning and end of each period during which he performed the foregoing duties, and at least once on each page additional to the first page, covering the period for which he was the responsible operator. The signatures of any additional operators who operate the transmitter(s) during the regular watch of another operator and details to indicate the periods during which they operated the transmitter(s) shall be entered in the proper form.

(5) Upon completion of each period of operation for any purpose, there shall be entered in the log a summary of such operation describing the nature thereof and, if message traffic or other record communications were exchanged with other stations, an estimate of the amount of such traffic handled together with a report on any unusual delays which were experienced in the delivery of such messages.

(6) There shall be no erasure, obliteration, or destruction of any part of the log of any station or station unit. Corrections shall be made by striking out the erroneous portion and initialing and dating the corrections.

(b) Mobile radio amateur civil emergency stations or station units, and portable radio amateur civil emergency stations or station units, where not being operated at pre-determined fixed locations, shall be exempt from the requirements of maintaining a log to the extent that the entries required under the preceding paragraph of this section are substantially contained in the log of another station or stations operating in the same radio amateur civil emergency networks. All stations or station units operating in accordance with the provisions of this subpart shall be exempt from the requirements concerning station logs contained in Subpart A of this part whenever it is shown that compliance with these requirements would interfere with the expeditious handling of civil defense communications or communication drills.

(c) The current portion of the log shall be kept at the location of the operating or control position of the station or unit. Other portions of the log shall be retained by the licensee for a period of one year, at a place determined by the civil defense Radio Officer to be appropriate and advisable: *Provided*, That the logs of a station in this service shall be made available for inspection upon reasonable request by any authorized representative of the Federal Government: *And provided further*, That those portions of any log covering operation of a station in this service in connection with any actual condition jeopardizing the public safety or affecting the national defense or security shall not be destroyed unless prior approval for such destruction shall have been received from the Commission.

§ 12.245 *Station identification.* (a) Stations operating in the Radio Amateur Civil Emergency Service shall identify themselves in the same manner and under the same conditions as prescribed in the rules governing Amateur Radio Stations and Operators (Subpart A of this part), except that:

(1) Additional designators to indicate portable or mobile operation, or to indicate operation at a location other than that specified in the station license, shall not be used.

(2) When engaged in network operation, after a station or unit has been fully identified at least once, further identification by that station or unit may be accomplished by the use of abbreviated call signs or other distinctive signals prescribed by the civil defense Radio Officer in lieu of the call signs otherwise required to be transmitted by that station or unit. A record of such abbreviated call signs or other distinctive signals shall be maintained by the Radio Officer and shall be made available for inspection upon reasonable request by any authorized representative of the Federal Government.

(b) When two or more separate units of a station, which is authorized to be operated in the Radio Amateur Civil Emergency Service, are operated independently at different locations, each unit shall separately identify itself by the addition of a unit number at the end of its call sign. When transmitting by telegraphy such additional identification shall immediately follow the basic call sign and to avoid confusion with portable or mobile indicators, shall not be separated therefrom by the use of the "slant" or fraction bar, or other punctuation mark or symbol.

§ 12.246 *Tactical call signs.* Stations operating in this service, and independent units of such stations, may be assigned tactical or secret call signs by the Commission or by competent civil defense authority, and may utilize such tactical call signs in lieu of the call signs appearing on the station licenses when such use is directed by competent civil defense authority: *Provided*, That a list of all such tactical call signs assigned stations under his direction shall be maintained by the civil defense Radio Officer and shall be made available for inspection upon reasonable request by any authorized representative of the Federal Government: *And provided further*, That when such tactical call signs are intended to be used at times other than during communications in connection with actual or impending conditions which appear to jeopardize the defense or security of the United States, a list of such tactical call signs and the stations or units to which assigned shall be furnished the Commission prior to such use.

USE OF STATIONS

§ 12.251 *Limitations on use of stations.* (a) No station authorized to be operated in this service, other than a control station as defined in this subpart, shall be operated for the purpose of transmitting any signal, message, or other communications except with the permission and under the operational control of the control station of the network in which it is operating: *Provided*, That nothing in the foregoing shall be construed to prohibit the transmission by any station or unit of a station of such signals as may be necessary for the purpose of alerting or making contact with the control station of the network, or for the purpose of transmitting actual emergency civil defense communications if the control station is disabled or is otherwise inoperative.

(b) Nothing in this section shall be construed to prevent the operation of a station which is authorized to be operated in this service for the purpose of brief tests or adjustments during or coincident with the installation, servicing or maintenance of such station: *Provided*, That the transmissions of that station during such tests or adjustments shall not cause harmful interference to the conduct of communications by any other station.

(c) No station in this service shall be used to transmit or to receive messages for hire, nor to transmit communications for material compensation, direct or indirect, paid or promised.

§ 12.252 *Hours of operation.* Stations in this service may be operated at such times and under such conditions as may be prescribed by the Communications Officer or other responsible official of the civil defense organization having jurisdiction over the area which the station will serve: *Provided*, That the communications of such stations shall at all times be in accordance with the permissible communications authorized in this subpart.

§ 12.253 *Points of communication.* Stations in this service may communicate with each other, with stations in the Disaster Communications Service, and with stations of the United States Government which are authorized to exchange communications with stations in this service by the particular agency having control. In addition, stations in this service may communicate, for the purpose of exchanging civil defense communications, with any other station in any service provided by the Commission's rules, whenever such station is authorized to communicate with stations in the Radio Amateur Civil Emergency Service by the provisions of the Commission's rules governing the class of station concerned or in accordance with the provisions of § 2.405 of this chapter.

§ 12.254 *Permissible communications.* Stations in this service are authorized to transmit only the following types of civil defense communications:

(a) Communications for training purposes: Necessary drills and tests to insure establishment and maintenance of orderly and efficient operation of the radio amateur civil emergency networks and such other radio stations and networks as may be associated therewith for the conduct of civil defense communications, including communications directly concerned with the conduct of practice alerts, practice blackouts, practice mobilization, and other comparable situations as may be ordered or initiated by competent civil defense authority or by the United States governmental or military authority charged with the defense of the area concerned. All messages which are transmitted in connection with such drills and tests shall be clearly identified as such by the use of the words "Drill" or "Test" in the body of such messages.

(b) Communications when there is an impending or actual condition jeopardizing the public safety or affecting the national defense or security:

(1) Communications directly concerning the activation of the radio amateur civil emergency station networks or such other radio stations and networks as may be associated with the networks for the conduct of civil defense communications.

(2) Communications directly concerning the conduct of service by the radio amateur civil emergency networks and such other radio stations and networks as may be associated therewith.

(3) Communications directly concerning safety of life, preservation of property, maintenance of law and order, alleviation of human suffering and need, and combating of armed attack or sabotage.

(4) Communications directly concerning the accumulation and dissemination of public information or instructions to the civilian population essential to the activities of the civil defense organization or that of other authorized governmental or relief agencies.

(5) Communications directly concerning the transaction of business essential to public welfare.

§ 12.255 *Use of codes and ciphers.* Any station in this service is authorized to transmit messages in codes and ciphers and to utilize any method of secret or coded authentication of its transmissions when such method of concealing the contents of messages or such authentication procedure is prescribed by the competent civil defense authority of the area served by the station and is approved by the cognizant federal civil defense authorities.

§ 12.256 *Priority of communications.* The order of priority of communications by stations in this service, when there is an impending or actual condition jeopardizing the public safety or affecting the defense or security of an area, shall be determined by the cognizant civil defense authority of the area concerned or his authorized representative.

§ 12.257 *Operating procedure.* The operating procedure, and the method of circuit control by the control station of each network, shall be determined by the responsible civil defense authority of the area concerned and shall, in general, conform as nearly as possible to the operating procedure normally followed in other services in the expeditious handling of message traffic by the method of transmission in use.

[F. R. Doc. 52-7472; Filed, July 8, 1952; 8:51 a. m.]

[Docket No. 10192]

PART 18—INDUSTRIAL, SCIENTIFIC AND MEDICAL SERVICES

EXISTING EQUIPMENT

In the matter of amendment of § 18.51 of the Commission's rules and regulations,

1. This proceeding was instituted by the adoption on May 14, 1952 of a notice of proposed rule making which proposed to amend § 18.51 of the Commission's rules and regulations, in so far as it is applicable to medical diathermy equipment, the manufacture and assembly of which was completed prior to July 1, 1947, to change the date of the applicability of Part 18 of the rules from June 30, 1952 to June 30, 1953. The proceeding was instituted following receipt of a petition filed by the Council on Physical Medicine and Rehabilitation of the American Medical Association requesting that the applicability date be extended to December 31, 1953.

2. In addition to the petition of the Council on Physical Medicine and Rehabilitation, comments or briefs have been timely filed by the National Chiropractic Association, Inc.; General Electric Company; Raytheon Manufacturing Company; Physical Therapy Manufacturers' Association; the Veterans' Administration; and Shaw Supply Co., Inc. in support of the proposed extension of the date of applicability of Part 18 to medical diathermy equipment. These comments in substance refer to the hardship involved in replacing non-conforming diathermy equipment, and claim that production of new models has been necessarily curtailed by defense needs. It also appears from the comments that sufficient new equipment to replace non-conforming equipment may not be available at the present time.

3. The proposed extension has been opposed by Terma Electric Company, Inc., Paul Luckenbach and Company, Inc., and Nea Spears Company on the ground that the users of medical diathermy equipment have not proceeded diligently to replace non-conforming equipment and that a mere unconditional general extension of the date will invite further procrastination.

4. Upon careful consideration of all of the comments, it appears that a one year's extension will be in the public interest and that compliance by June 30, 1952 may have been prevented, at least in part, by non-availability of equipment. The proposed amendment will therefore be adopted. However, it also appears from the comments that a failure on the part of medical diathermy equipment users to act diligently over a period of time to replace non-conforming equipment has been a contributing cause to the present inability of manufacturers to meet the demand which would be occasioned by a complete replacement of non-conforming equipment in the immediate future. In view of this fact the Commission wishes to advise all interested parties that if further requests for extension of the applicability date are sought, it will give consideration to the advisability of acting upon such requests on an individual basis, taking into consideration the efforts made by the users of non-conforming equipment to replace it during the period for which the present extension is being granted.

5. *Accordingly, it is ordered*, This 25th day of June 1952, that pursuant to the authority contained in sections 4 (i), 301 and 303 (r) of the Communications

Act of 1934, as amended, § 18.51 of the Commission's rules and regulations is amended, effective immediately, to read as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 48 Stat. 1081, 1082; 47 U. S. C. 301, 303)

Released: June 26, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

§ 18.51 *Existing equipment.* The provisions of this part shall not be applicable until June 30, 1953 to diathermy equipment, and until June 30, 1952 to industrial heating equipment, the manufacture and assembly of which was completed prior to July 1, 1947, nor shall they be applicable until April 30, 1953 to miscellaneous equipment, the manufacture and assembly of which was completed prior to April 30, 1948: *Provided*, That the foregoing provisions of this section shall be applicable only if such steps as may be suitable under the circumstances are promptly taken to eliminate interference to authorize radio services resulting from the operation of equipment manufactured prior to the respective dates set forth in this section.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

Subchapter A—General Rules and Regulations

[S. O. 888]

PART 95—CAR SERVICE

MINIMUM LOADING OF CARLOAD TRANSFER FREIGHT REQUIRED

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 3d day of July A. D. 1952.

It appearing, that the Defense Transport Administration has made representations to the Interstate Commerce Commission that the railroads are engaged in the practice of lightly loading transfer part-shipments in box cars at transfer points; that such practice is wasteful and aggravates the car shortage, depleting and diminishing the use, control, supply, distribution and interchange of such cars which are urgently needed for the movement of certain essential defense materials. The Commission is of the opinion an emergency requiring immediate action exists in all sections of the country where this practice is permitted: It is ordered, that:

§ 95.888 *Minimum loading of carload transfer freight required.* (a) No common carrier by railroad, subject to the Interstate Commerce Act, shall permit carload shipments in box cars to be stopped-off in transit to partially unload under tariff provisions where the carrier will, at its convenience, or upon specific request of a shipper, transfer that portion of the shipment consigned to either the stop-off point, or points, or to the final destination, and forward shipment to stop-off point, or points, or the final destination in another box car unless the amount of such freight destined to the stop-off point, or points, equals or exceeds 15,000 pounds for each car. In the event that such car, or cars, is loaded with less than the minimum provided in this paragraph that shipment shall not be transported.

(b) Application: The provisions of this section shall apply to shipments moving in intrastate commerce as well as to those moving in interstate commerce.

(c) Effective date: This section shall become effective at 7:00 a. m., July 7, 1952.

(d) Expiration date: This section shall expire at 11:59 p. m., October 31, 1952, unless otherwise modified, changed, suspended or annulled by order of this Commission.

(e) Rules and regulations suspended: The operation of all rules and regulations insofar as they conflict with the provisions of this section is hereby suspended.

(f) Announcement of suspension: Each of such railroads, or its agent, shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of any of the provisions therein.

It is further ordered, that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] W. P. BARTEL,
Secretary.

[F. R. Doc. 52-7496; Filed, July 8, 1952; 8:55 a. m.]

Subchapter B—Carriers by Motor Vehicle

[Ex Parte MC-39]

PART 167—BROKERS OF PROPERTY

PRACTICES OF PROPERTY BROKERS

Upon further consideration of the record in the above-entitled proceeding; and good cause appearing therefor:

It is ordered, That the effective date, as subsequently modified, of the order of December 27, 1951, and the prior order of May 16, 1949, as modified by the former order, be, and it is hereby, further postponed from June 30, 1952, to July 30, 1952.

(49 Stat. 546, as amended; 49 U. S. C. 304)

Dated at Washington, D. C., this 30th day of June A. D. 1952.

By the Commission.

[SEAL] W. P. BARTEL,
Secretary.

PROPOSED RULE MAKING

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Part 708]

MINIMUM WAGE RATES IN RUBBER, STRAW, HAIR AND RELATED PRODUCTS INDUSTRY IN PUERTO RICO

NOTICE OF PROPOSED DECISION

On December 12, 1951, pursuant to section 5 of the Fair Labor Standards Act of 1938, as amended, hereinafter called the act, the Administrator of the Wage and Hour Division, United States Department of Labor, by Administrative Order No. 417, appointed Special Industry Committee No. 11 for Puerto Rico (hereinafter called the "Committee") and directed the Committee to investigate conditions in a number of industries in Puerto Rico specified and defined in the order, including the rubber, straw, hair and related products industry in Puerto Rico (hereinafter called the "industry"), and to recommend minimum wage rates for employees engaged in commerce or in the production of goods for commerce in such industries.

For purposes of investigating conditions in and recommending minimum wage rates for the industry, the Committee included three disinterested persons representing the public, a like number representing employers, and a like number representing employees in the industry, and was composed of residents of Puerto Rico and of the United States outside of Puerto Rico.

After investigating economic and competitive conditions in the industry, the Committee filed with the Administrator a report containing (a) its recommendation that the industry be divided into separable divisions for the purpose of fixing minimum wage rates, (b) the titles and definitions recommended by the Committee for such separable divisions of the industry; and (c) its recommendations for minimum wage rates to be

paid employees engaged in commerce or in the production of goods for commerce in such divisions of the industry.

Pursuant to notice published in the FEDERAL REGISTER on March 15, 1952 (17 F. R. 2285-2288) and circulated to all interested persons, a public hearing upon the Committee's recommendations was held before Hearing Examiner Clifford P. Grant, as presiding officer, in Washington, D. C., on April 24, 1952, at which all interested parties were given an opportunity to be heard. After the hearing was closed the record of the hearing was certified to the Administrator by the presiding officer.

Upon reviewing all the evidence adduced in this proceeding, and after giving consideration to the provisions of the act, particularly sections 5 and 8 thereof, I have concluded that (1) the recommendation of the Committee for a minimum wage rate of 60 cents per hour for the rubber products division, as defined, was made in accordance with law, is supported by the evidence adduced at the hearing, and, taking into consideration the same factors as are required to be considered by the Committee, will carry out the purposes of sections 5 and 8 of the act; (2) the recommendation of the Committee for a minimum wage rate of 37 cents per hour for the straw, hair and related products division, as defined, is not supported by the evidence adduced at the hearing, and, taking into consideration the same factors as are required to be considered by the Committee, would not, if approved carry out the purposes of sections 5 and 8 of the act.

I have set forth my decision in a document entitled, "Findings and Opinion of the Administrator in the Matter of the Recommendations of Special Industry Committee No. 11 for Puerto Rico for Minimum Wage Rates in the Rubber, Straw, Hair and Related Products Industry in Puerto Rico," a copy of which may be had upon request addressed to the Wage and Hour Division, United States Department of Labor, Washington 25, D. C.

Accordingly, notice is hereby given, pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001) and the rules of practice governing this proceeding, that I propose to approve the recommendations of the Committee for the rubber products division and to issue a wage order as set forth below to carry such recommendations into effect. Notice is also given that I propose to disapprove the minimum wage recommendation of the Committee for the straw, hair and related products division of the industry and to refer the matter of a minimum wage for this division to another special industry committee to be convened within the next several months. All interested parties will have an opportunity to be heard at that time.

Within 15 days from publication of this notice in the FEDERAL REGISTER, interested parties may submit written exceptions to the proposed actions above described. Exceptions should be addressed to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C. They should be submitted in quadruplicate, and should include supporting reasons for any exceptions.

Sec.
708.1 Wage rate.
708.2 Notices of order.
708.3 Definitions of the rubber, straw, hair and related products industry in Puerto Rico and its divisions.

AUTHORITY: §§ 708.1 to 708.3 issued under sec. 8, 63 Stat. 915; 29 U. S. C. 208. Interpret or apply sec. 5, 63 Stat. 911; 29 U. S. C. 205.

§ 708.1 *Wage rate.* (a) Wages at a rate of not less than 60 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the rubber products division of the rubber, straw, hair and related products industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

NOTE: Activities included within the straw, hair and related products division, as defined in § 708.3 (b), are and will, until further order of the Administrator, remain subject to the applicable minimum wage rates provided in the wage order contained in Part 674 of this chapter.

§ 708.2 *Notices of order.* Every employer employing any employees so engaged in commerce or in the production of goods for commerce in the rubber, straw, hair and related products industry in Puerto Rico shall post and keep posted in a conspicuous place in each department of his establishment where such employees are working such notices of this order as shall be prescribed, from time to time, by the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Division may prescribe.

§ 708.3 *Definitions of the rubber, straw, hair and related products industry in Puerto Rico and its divisions.* (a) The rubber, straw, hair and related products industry in Puerto Rico to which this part shall apply, is hereby defined as follows: The manufacture of all products made wholly or chiefly of rubber, and the manufacture of all products (except hand-made or hand-woven) made wholly or chiefly of straw, raffia, sisal, maguey, palm leaves, rushes, grasses, hair, hair bristles, feathers and similar materials: *Provided, however*, That this definition shall not include any product or activity included in the definition of the handicraft products industry, the needlework and fabricated textile products industry, the men's and boys' clothing and related products industry, the textile and textile products industry, the button, buckle, and jewelry industry, the decorations and party favors industry, the artificial flower industry, or the shoe manufacturing and allied industries, as defined in the wage orders for those industries in Puerto Rico.

(b) The separable divisions of the industry, as defined in paragraph (a) of this section, to which this part and its several provisions shall apply, are hereby defined as follows:

(1) *Rubber products division.* This division consists of the manufacture of all products made wholly or chiefly from rubber.

(2) *Straw, hair and related products division.* This division consists of the manufacture of all products (except hand-made or hand-woven) made wholly or chiefly of straw, raffia, sisal, maguey, palm leaves, rushes, grasses, hair, hair bristle, feathers and similar materials.

(See note following § 708.1 (a).)

Signed at Washington, D. C., this 2d day of July 1952.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[P. & S. Docket No. 1598]

JOE ALLISON STOCK YARDS, INC.

NOTICE OF PETITION FOR MODIFICATION OF RATE ORDER

Pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), an order was issued on January 16, 1952 (11 A. D. 12) authorizing the respondent to file a new tariff establishing the rates and charges for stockyard services appearing in the tabulation below under the heading "Current Charges." That order became effective on January 22, 1952, and provided that it should remain in effect to and including April 1, 1953.

By a petition filed on June 26, 1952, respondent has requested an authorization to put into effect the rates and charges appearing under the heading "Proposed Charges" in the tabulation below.

CURRENT CHARGES

SELLING COMMISSIONS

	Commission	Yardage
Hogs bringing $30 or below	$0.40	0
Hogs bringing over $30 up to $75	.65	0
Hogs bringing over $75	.85	0
Cattle, per head (300 pounds and over)	1.00	$0.75
Calves, per head (under 300 pounds)	.75	.25
Sheep and lambs	.25	.15
Springing cows	1.50	1.00
Bulls	1.50	1.00
Cattle—special sales (4-H and FFA Club sales, pure bred and registered sales)	3.00	0
Hogs—special sales (4-H and FFA Club sales, pure bred and registered shows and sales)	1.00	0
On livestock held in yards for more than 24 hours, a feed charge of 25 cents per head, per day, will be assessed.		
Charge for no sales:		
Cattle (300 pounds and over) (per head)		.88
Calves (under 300 pounds) (per head)		.45
Hogs (per head)		.35
Sheep and lambs (per head)		.20

FEED

All feed charged for at cost to the petitioner per 100 pounds or per bale, plus 70 cents.

Corn, per hundredweight, cost plus 70 cents.

Hay, per bale, cost plus 70 cents.

Dairy feed, per hundredweight, cost plus 70 cents.

Straw, per bale, cost plus 70 cents.

PROPOSED CHARGES

Selling Commissions

	Commission	Yardage
Hogs	$0.60	$0.25
Cattle, per head (300 pounds and over)	1.25	.75
Calves, per head (under 300 pounds)	.75	.25
Sheep and lambs	.25	.15
Springing cows	1.50	1.00
Bulls	1.50	1.00
Cattle—special sales (4-H and FFA Club sales, pure bred and registered sales)	3.00	0
Hogs—special sales (4-H and FFA Club sales, pure bred and registered shows and sales)	1.00	0
Charge for no sales:		
Cattle (300 pounds and over) (per head)		.88
Calves (under 300 pounds) (per head)		.45
Hogs (per head)		.35
Sheep and lambs (per head)		.20

FEED

All feed charged for at cost to the petitioner per 100 pounds or per bale, plus 70 cents.

Corn, per hundredweight, cost plus 70 cents.

Hay, per bale, cost plus 70 cents.

Dairy feed, per hundredweight, cost plus 70 cents.

Straw, per bale, cost plus 70 cents.

If authorized, the proposed rates and charges will produce additional revenue for the respondent and increase the cost of marketing livestock. It appears, therefore, that this notice of the filing of the petition and its contents should be given to the public.

All interested persons who desire to be heard in the matter shall notify the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., within 15 days following the publication of this notice.

Done at Washington, D. C., this 3d day of July 1952.

[SEAL] AGNES B. CLARKE,
Hearing Clerk.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 10225]

TELEVISION BROADCAST SERVICES

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of § 3.606 Table of Assignments, Rules Governing Television Broadcast Stations; Docket No. 10225.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. In accordance with a petition filed by Dr. Forbes Farms, Inc., on June 3, 1952, and now made part of this docket, and it appearing that the petition complies with § 3.609 of the Commission's rules in that it proposes an assignment of a television channel in a community which is not listed in the Table and is not within 15 miles of a city so listed nor would the proposed assignment require any other changes in the Table, it is proposed to amend § 3.606 *Table of assignments, rules governing television broadcast stations*, as follows:

Add to Table of Assignments under the State of California:

	Channel No.
Palm Springs	14

3. The purpose of the proposed amendment is to provide a television channel assignment in the community named in paragraph 2 above not otherwise available under the rules.

4. Authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), and 307 (b) of the Communications Act of 1934, as amended.

5. Any interested party who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein may file with the Commission on or before August 11, 1952, a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

6. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: June 25, 1952.

Released: June 26, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

NOTICES

DEPARTMENT OF THE INTERIOR

Petroleum Administration for Defense

VOLUNTARY AGREEMENT RELATING TO SUPPLY OF PETROLEUM TO FRIENDLY FOREIGN NATIONS

NOTICE OF TERMINATION OF PLAN OF ACTION NO. 1

Plan of Action No. 1 dated July 26, 1951, issued under the Voluntary Agreement Relating to the Supply of Petroleum to Friendly Foreign Nations, is hereby terminated at 12:01 a. m., e. s. t., July 8, 1952.

This termination does not relieve any participating company of any obligation, including the carrying out of approved schedules according to the terms, conditions or intent thereof, incurred under Plan of Action No. 1 as originally approved and issued; nor does it deprive such company of any rights received or accrued under said Plan of Action No. 1, including the right to carry out the transactions specified in any schedule approved heretofore; nor does it deprive the Administrator of the authority to change, modify, or amend any schedule heretofore approved, or the right of any such company to carry out transactions in accordance with any such change, modification, or amendment made by the Administrator.

This notice of termination is issued this 2d day of July 1952.

OSCAR L. CHAPMAN,
Secretary of the Interior and Petroleum Administrator for Defense.

ECONOMIC STABILIZATION AGENCY

Office of the Administrator

[Determination No. 114]

FREMONT-WAHOO, NEBRASKA, CRITICAL DEFENSE HOUSING AREA

APPROVAL OF EXTENT OF RELAXATION OF CREDIT CONTROLS

SECTION 1. *Authority.* This action is taken pursuant to the authority conferred by the Housing and Rent Act of 1947, as amended (Pub. Law 129, 80th Cong., as amended by Pub. Laws 422 and 464, 80th Cong., Pub. Laws 31, 574 and 880, 81st Cong.; and Pub. Laws 8, 69 and 96, 82d Cong.); and more particularly section 204 (m) of Public Law 96; and the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong.; as amended by Pub. Law 96, 82d Cong.); and Executive Order 10161 of September 9, 1950 and Executive Order 10276 of July 31, 1951; and as implemented by Economic Stabilization Agency Order No. 9 of July 31, 1951.

SEC. 2. *Determination.* In view of the joint determination and certification by the Acting Secretary of Defense and the Acting Director of Defense Mobilization, dated July 1, 1952, that the Fremont-Wahoo, Nebraska, area (this area consists of all of Saunders County and the Townships of Cotterell, Elkhorn, Maple, Nickerson, Platt, and Union including the Village of Nickerson and the City of Fremont in Dodge County; all in Nebraska) is a critical defense housing area, and in view of the defense housing program announced for the said area on April 29, 1952, by the Administrator of the Housing and Home Finance Agency, with the concurrence of the Board of Governors of the Federal Reserve System, it is hereby determined, after due consideration of relevant factors, that real estate construction credit controls have been relaxed in the Fremont-Wahoo, Nebraska, critical defense housing area to the extent necessary to encourage construction of housing for defense workers and military personnel.

ROSS SHEARER,
Acting Administrator.

DEFENSE MATERIALS PROCUREMENT AGENCY

[Delegation No. 14]

GENERAL SERVICES ADMINISTRATOR

DELEGATION OF AUTHORITY TO PURCHASE MANGANESE ORES AND CONCENTRATES OF DOMESTIC ORIGIN

1. Pursuant to the authority vested in me as Defense Materials Procurement Administrator by Executive Order No. 10281 of August 28, 1951 (16 F. R. 8789), and the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong., and Pub. Laws 69, 96 and 429, 82d Cong.), and other applicable law, I hereby delegate to the Administrator of General Services the authority to purchase, for Government use and resale, manganese ores and concentrates, all of domestic origin, under the terms, conditions and policies set forth in regulations of even date herewith prescribed by the Administrator of General Services for the administration of the functions hereby delegated.

2. The functions delegated hereby shall be carried out in accordance with such policies as may be established by the Defense Materials Procurement Administrator.

3. The authority hereby delegated may be redelegated to officers and employees of the General Services Administration, with or without authority for further redelegation.

4. This delegation is effective as of the date hereof.

Dated: July 7, 1952.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 9996, 10202]

FARMERS BROADCASTING SERVICE, INC. (WELS)

MEMORANDUM OPINION AND ORDER CONTINUING HEARING

In re application of Farmers Broadcasting Service, Inc. (WELS), Kinston, North Carolina, Docket No. 9996, File No. BTC-1111; for transfer of control, and Farmers Broadcasting Service, Inc. (WELS), Kinston, North Carolina, Docket No. 10202, File No. BR-2524; for renewal of license.

1. The Commission has under consideration (1) a motion for continuance filed June 24, 1952, in which the above-entitled applicant requests the continuation of the hearing now scheduled for July 8, 1952, for a period of approximately 45 days from said date and (2) a motion to accept late appearance of counsel employed by the above-entitled applicant on or about June 4, 1952. Oral argument on both motions were heard by the undersigned Examiner on June 26, 1952, in the offices of the Commission in Washington, D. C. There was objection to the granting of the motion for continuance; no objection to the acceptance of late appearance of counsel.

2. Briefly stated, the facts discussed and referred to in the argument on the motion for continuance are as follows: On June 27, 1951, the Commission designated for hearing the application of Farmers Broadcasting Service, Inc., for Commission consent to transfer control of that corporation (File No. BTC-1111, Docket No. 9996), and specified seven issues to be developed at the hearing. Thereafter, Farmers Broadcasting Service, Inc., through its then employed Washington counsel was ably represented at several proceedings before the Commission. On May 21, 1952, the Commission designated for hearing the application of Farmers Broadcasting Service, Inc., for renewal of license of Station WELS and subsequent to that date Commission counsel sought to arrange for a hearing date in June. Before the hearing date could be agreed upon, Farmers Broadcasting Service on June 4, 1952, employed other Washington counsel who prior to such employment advise the applicant herein of the commitments he then had.

3. The Commission by order dated June 11, 1952, released June 13, 1952, scheduled the hearing to be held at Kinston, North Carolina on July 8, 1952, and in that order consolidated and restated the nine issues to be developed. Comparing the nine issues as stated in the

order of June 11, 1952, with the seven issues as originally stated by the Commission in the order of June 27, 1951, we find that five of the issues are the same as those originally specified, that two of the issues are substantially the same as those originally specified; and that while two newly numbered issues have been added, these two issues are based on and arise out of matters pertaining to the transfer of control of the applicant corporation and that the hearing now scheduled for July 8, 1952, is substantially the same hearing and will involve substantially the same evidence and testimony as could have been presented to the Commission had the transfer application gone to hearing at any time subsequent to June 27, 1951.

4. The first reason for the motion for continuance is stated to be that the present stockholders of Farmers Broadcasting Service, Inc. are taking steps to rescind the sale and transfer of stock which led to the alleged transfer of control of the corporation and that after the stock has been returned to the original owners and the status quo ante thereby achieved, a petition to dismiss the transfer of control application will be filed.

5. As a second reason for the motion for continuance, it is alleged that commitments of applicant's Washington counsel are such as will not permit him to devote adequate time to study the past history of the applicant corporation and prepare for the hearing.

6. Commission counsel in opposing the motion for continuance contends that the first reason for the request for continuance is to enable the applicant corporation to effect changes in stock ownership which will in no way affect the issues to be heard at the hearing; that while they were sympathetic to the pleadings of applicant's counsel for additional time, the matter of the alleged unlawful transfer of control has been pending before the Commission for almost a year; and that the present workload of Commission counsel is such that to continue the hearing beyond the week of July 14–18, 1952, would seriously affect the handling of other work to which he has been assigned.

7. Since June 27, 1951, Farmers Broadcasting Service, Inc. has been advised that the Commission desired full information relative to the matters covered by the issues specified in its order of that date. The issues to be heard at the hearing presently scheduled will require the presentation of substantially the same evidence and testimony as could have been presented to the Commission had this case gone to hearing at any time during the past 12 months. To continue the date of the hearing beyond the week of July 14–18, 1952, would not only prolong the date of the hearing but interfere with Commission assignment of work to its personnel. For many months subsequent to June 27, 1951, the applicant herein was ably represented before the Commission by Washington counsel and the applicant was informed by their present Washington counsel of his commitments at the time he was employed. Under those circumstances the Commission must conclude that the applicant was ready to continue to prosecute its applications for transfer of control and renewal of license and to proceed to hearing at a time which would not inconvenience other parties to the proceeding. Under the conditions herein stated we are forced to conclude that good cause has not been shown why the hearing now scheduled to begin on July 8, 1952, should be continued beyond the week of July 14–18, 1952.

It is ordered, This the 26th day of June 1952, that the motion for continuance be denied insofar as it requests a continuance of the hearing for a period of 45 days beyond July 8, 1952, but granted insofar as it requests a continuance for one week and the hearing now scheduled to begin July 8, 1952, is continued to July 15, 1952, beginning at 10:00 a. m. at Kinston, North Carolina, at a place to be subsequently designated.

It is further ordered, That the motion to accept late appearance of counsel for Farmers Broadcasting Service, Inc., be and it is hereby granted.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 52-7473; Filed, July 8, 1952; 8:52 a. m.]

[Docket No. 10226]

HELM COAL CO. (WNOW)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of H. J. Williams, M. E. Cousler and Lowell W. Williams, doing business as the Helm Coal Company (WNOW) York, Pennsylvania, Docket No. 10226, File No. BP-8229; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 25th day of June 1952;

The Commission having under consideration the above-entitled application requesting a construction permit to change facilities from 1250kc, 1kw, daytime only, to 1600kc, 1kw, unlimited time, with a directional antenna at night of Station WNOW, York, Pennsylvania.

It appearing, that the applicant is legally, technically, financially and otherwise qualified to operate Station WNOW as proposed, but that the application may involve interference with one or more existing stations.

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application is designated for hearing at a time and place to be specified by subsequent order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station WNOW as proposed, and the availability of other primary service to such areas and populations.

2. To determine whether the operation of Station WNOW as proposed would involve objectionable interference with the services proposed in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine whether the operation of Station WNOW as proposed would involve objectionable interference with Station WWRL, New York, New York, or with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby and the availability of other primary service to such areas and populations.

4. To determine whether the installation and operation of Station WNOW as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That, Long Island Broadcasting Corporation, licensee of Station WWRL, New York, New York, is made a party to this proceeding.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 52-7474; Filed, July 8, 1952; 8:52 a. m.]

[Docket No. 10227]

KWEM, INC. (KWEM)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of KWEM, Incorporated (KWEM), West Memphis, Arkansas, Docket No. 10227, File No. BML-1503; for modification of license.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 25th day of June 1952;

The Commission having under consideration the above-entitled application of KWEM, Incoporated to change location of its main studio from West Memphis, Arkansas; to Memphis, Tennessee.

Is is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, said application is designated for hearing at a time and place to be specified by subsequent order, on the following issues:

1. To determine the needs of West Memphis, Arkansas, and Memphis, Tennessee, for radio service originating in each city or serving as a medium of expression for the city's inhabitants and to determine the degree to which Station KWEM has met those needs during the current license period.

2. To determine the future program policies of Station KWEM with particular reference to furnishing an outlet to legitimate needs for expression by West Memphis, Arkansas; and Memphis, Tennessee, inhabitants.

3. To determine whether, in the light of evidence adduced under issues 1 and 2 herein, the proposed move of main studio location would serve the public interest.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[Docket Nos. G-996, G-1916, G-1917, G-1429, G-1908, G-1909, G-1526, G-1919, G-1920, G-1816, G-1817, G-1818, G-1918, G-1926, G-1927, G-1921, G-1922, G-1923, G-1924, G-1969]

NORTHWEST NATURAL GAS CO. ET AL.

ORDERS GRANTING MOTIONS FOR SEVERANCE OF CERTAIN PROCEEDINGS AND CONSOLIDATING WITH OTHER SEPARATE PROCEEDINGS

JULY 1, 1952.

In the matters of Northwest Natural Gas Company, Docket Nos. G-996, G-1916, G-1917; Pacific Northwest Pipe Line Corporation, Docket Nos. G-1429, G-1908, G-1909; Westcoast Transmission Company, Inc., Docket Nos. G-1526, G-1919, G-1920; Glacier Gas Company, Docket Nos. G-1816, G-1817, G-1818; Northern Natural Gas Company, Docket Nos. G-1918, G-1926, G-1927; Tennessee Gas Transmission Company, and Niagara Gas Transmission Limited, Docket No. G-1921; Tennessee Gas Transmission Company, Docket No. G-1922; Trans-Northwest Gas, Inc., Docket Nos. G-1923, G-1924; Tennessee Gas Transmission Company, Docket No. 1969.

By its order issued April 2, 1952, the Commission consolidated all of the above-entitled proceedings, with the exception of Docket No. G-1969, and fixed the date of June 16, 1952, for hearings to commence.

On June 17, 1952, during hearings in the consolidated proceedings, counsel for Northwest Natural Gas Company, moved on the record and later on the same date filed a written motion to sever from the other dockets, Docket Nos. G-1921 and G-1922. Basis of this motion was that opening statements in the consolidated proceedings had shown that the issues in Docket Nos. G-1921 and G-1922 were in no way related to or conditioned upon the other dockets and to allow them to remain consolidated would result in confusion and waste of time and money to all parties. On June 20, 1952, Tennessee Gas Transmission Company and Niagara Gas Transmission Limited, joint applicants in Docket No. G-1921, and Tennessee Gas Transmission Company, applicant in Docket No. G-1922, filed a motion to sever Docket Nos. G-1921 and G-1922 from the other proceedings on substantially the same grounds.

On June 27, 1952, National Coal Association, United Mine Workers of America, Fuels Research Council, Inc., Anthracite Institute,, Western States Fuel Policy Council, Montana Coal Operators Association, Utah Coal Operators Association, Coal Producers Association of Washington, Southern Wyoming Coal Operators Association, and Sheridan-Wyoming Coal Company, Inc. filed an answer opposing the foregoing motions to sever, alleging that the applications filed in Docket Nos. G-1921 and G-1922 involve questions of fact common to and related to the applications filed in Docket Nos. G-1526, G-1919 and G-1920.

Tennessee Gas Transmission Company filed on June 2, 1952, an application for a certificate of public convenience and necessity in Docket No. G-1969 for the construction and operation of facilities to be used in the transportation of natural gas proposed to be exported under authorization sought at Docket No. G-1921 and Presidential Permit sought at Docket No. G-1922. A motion was filed on June 2, 1952, concurrently with the Docket No. G-1969 application, that this proceeding be consolidated with the aforementioned consolidated proceedings. By motion filed June 20, 1952, Tennessee Gas Transmission Company now seeks to withdraw its June 2, 1952, motion and moves that the proceeding at Docket No. G-1969 be consolidated for purpose of hearing with those at Docket Nos. G-1921 and G-1922.

Upon consideration of all the foregoing matters, the Commission finds: It is necessary and appropriate to carry out the provisions of the Natural Gas Act that the proceedings at Docket Nos. G-1921 and G-1922 be severed from the aforementioned consolidated proceedings and that said proceedings at Docket Nos. G-1921 and G-1922 be consolidated for purpose of hearing with Docket No. G-1969.

The Commission orders:

(A) The proceedings at Docket Nos. G-1921 and G-1922 be and the same are hereby severed from the consolidated proceedings in Docket Nos. G-996, G-1916, G-1917, G-1429, G-1908, G-1909, G-1526, G-1919, G-1920, G-1816, G-1817, G-1818, G-1918, G-1926, G-1927, G-1923, and G-1924.

(B) The proceedings at Docket Nos. G-1921, G-1922, and G-1969 be and the same are hereby consolidated for purpose of hearing.

(C) In addition to the hearings thus far completed with respect to Docket Nos. G-1921 and G-1922, and pursuant to authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, a hearing with respect to the consolidated proceedings in Docket Nos. G-1921, G-1922, and G-1969 shall be held at a time and place to be fixed by further order of the Commission.

(D) Interested State Commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

(E) The effective date of this order is July 1, 1952, notice of its adoption having been announced by request of the Commission during the hearings currently in progress in the foregoing consolidated proceedings.

Date of issuance: July 2, 1952.

By the Commission. Commissioner Smith dissenting.

[SEAL] LEON M. FUQUAY,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Sec. 5a, Application 40]

KANSAS OIL FIELD AND HEAVY MACHINERY HAULERS

APPLICATION FOR APPROVAL OF AGREEMENT

JULY 3, 1952.

The Commission is in receipt of the above-entitled and numbered application for approval of an agreement under the provisions of section 5a of the Interstate Commerce Act.

Filed June 30, 1952, by: R. C. Williams, Inc., Russell, Kans.; George D. Hutchins, Attorney-in-Fact, Kansas Motor Carriers Association, Inc., Room 301, 214 West 6th Street, Topeka, Kans.

Agreement involved: An agreement between and among motor common carriers, members of the Oil Field and Heavy Machinery Haulers Division, Kansas Motor Carrier Association, Inc., relating to rules and procedures for the joint consideration, initiation, or establishment of rates and charges and practices pertaining thereto governing the transportation in interstate or foreign commerce of oilfield, refinery, and pipeline machinery, materials, supplies and equipment, and of heavy machinery, and heavy or cumbersome commodities, between Arkansas, Colorado, Illinois, Indiana, Kansas, Kentucky, Louisiana, Michigan, Missouri, Nebraska, New Mexico, Ohio, Oklahoma, Texas, Utah, West Virginia, and Wyoming.

The complete application may be inspected at the office of the Commission in Washington, D. C.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 20 days from the date of this notice. As provided by the general rules of practice of the Commission, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise, the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing.

By the Commission, Division 2.

[SEAL] W. P. BARTEL, *Secretary.*

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-1294]

ASBESTOS MANUFACTURING CO.

NOTICE OF APPLICATION TO WITHDRAW FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

JULY 1, 1952.

Asbestos Manufacturing Company, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to withdraw its $1 Par Value Common Stock from registration and listing on the Midwest Stock Exchange.

The application for withdrawal alleges the following:

(1) On or about January 1, 1951, Thermoid Company of Trenton, New Jersey, a Delaware corporation, acquired approximately 379,000 shares, or about 87 percent, of the total of about 437,000 shares of common stock of Asbestos Manufacturing Company.

(2) As a consequence of such concentration of ownership, trading in the above security on the Midwest Stock Exchange became virtually non-existent, or in such small amounts as to be considered not significant.

(3) As a consequence of this concentration of ownership and of the limited amount of trading in this security on the above exchange, the management of Asbestos Manufacturing Company is of the opinion that the trading potential is too small to justify continuing the listing and registration of this security on an auction exchange market.

Upon receipt of a request, prior to July 31, 1952, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms or conditions. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[F. R. Doc. 52-7455; Filed, July 8, 1952; 8:47 a. m.]

[File No. 1-3058]

NATIONAL INVESTORS CORP.

NOTICE OF APPLICATION TO WITHDRAW FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

JULY 1, 1952.

National Investors Corporation, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to withdraw its Capital Stock, $1 Par Value, from registration and listing on the Board of Trade of the City of Chicago.

The application for withdrawal alleges the following:

(1) Applicant is registered as a diversified open-end management investment company under section 8 (a) of the Investment Company Act of 1940.

(2) Continuance of the listing and registration of the above security on the Board of Trade of the City of Chicago is deemed to be inadvisable because of the lack of trading thereon, due to existing restrictive provisions of the Investment Company Act of 1940 and the rules of the National Association of Securities Dealers.

(3) Said provisions and rules make improbable the possibility of any future increase in exchange trading in this security.

Upon receipt of a request, prior to July 31, 1952, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms or conditions. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[File No. 1-3144]

CONSUMERS CO.

NOTICE OF APPLICATION TO WITHDRAW FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

Consumers Company, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to withdraw its Common Stock, No Par Value, from registration and listing on the Midwest Stock Exchange.

The application for withdrawal alleges the following:

(1) On or about May 14, 1952, approximately 32,000 shares, or about 88 percent, of the approximately 36,000 issued and outstanding shares of the above security were held of record by twenty persons.

(2) During the year 1951 transactions were effected on the Midwest Stock Exchange in less than 600 shares of the above security.

(3) From January 1, 1952, until May 23, 1952, no transactions were effected on the Midwest Stock Exchange in the above security.

(4) The Midwest Stock Exchange, in a letter to the applicant dated May 21, 1952, expressed the opinion that the concentration of ownership of the above security "reduces the trading potential in publicly held shares to a point where a national securities exchange market is not warranted."

Upon receipt of a request, prior to July 31, 1952, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms or conditions. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[File No. 70-2887]

GENERAL PUBLIC UTILITIES CORP.

SECOND SUPPLEMENTAL ORDER APPROVING TERMS OF SALE OF FRACTIONAL INTEREST SHARES AND RELEASING JURISDICTION AS TO CERTAIN FEES AND EXPENSES

JULY 2, 1952.

General Public Utilities Corporation ("GPU"), a registered holding company, having filed an application-declaration, with amendments thereto, under the Public Utility Holding Company Act of 1935 ("the act") with respect to the issuance and sale of 531,949 additional shares of common stock through subscription warrants to its common stockholders; and

The Commission, by order entered herein on June 27, 1952, having granted and permitted to become effective said application-declaration as amended, subject to certain reservations of jurisdiction with respect to the terms of sale and with respect to fees and expenses; and

The Commission, by supplemental order entered herein on July 1, 1952, having approved the subscription price and certain other terms relating to such sale, reserving jurisdiction with respect to the price at which GPU will sell to the successful bidder the fractional interest shares (then estimated at not less than 20,000 nor more than 25,000 full shares) and with respect to fees and expenses except as approved for payment to participating dealers and others; and

GPU having filed a further amendment to the application-declaration as amended setting forth that the actual number of full shares represented by the fractional interest shares was found to be 24,613, and that, in response to invitations to seven investment banking houses to submit written proposals therefor, the following proposals were received:

Proposed by:	Price per share
The First Boston Corp	$22.815
Merrill, Lynch, Pierce, Fenner & Beane	22.468
Kidder Peabody & Co. and Laurence M. Marks & Co	22.401
Lehman Bros	22.39

GPU further stating that it has accepted the proposal submitted by The First Boston Corporation as above set out, whereunder GPU will receive the greatest amount for the fractional interested shares; and that the purchaser, The First Boston Corporation, has advised GPU that it would reoffer the shares at a price within the price range fixed for the sale to participating dealers of the shares covered by subscription rights purchased by GPU, as heretofore approved by the Commission—i. e., that the maximum price would be the last previous quoted asked price for GPU common stock on the New York Stock Exchange plus 20 cents per share, and the minimum price would be the higher of (a) the last previous quoted bid price or (b) the subscription price ($21 per share).

The record being also completed with respect to the compensation to be paid to the following: Naylon, Foster, Shepard & Aronson, special counsel for the purchaser of the fractional interest shares, whose legal fee of $1,750 plus expenses not exceeding $100 will be paid by said purchaser; the subscription agent, The Marine Midland Trust Company of New York, the lowest of seven bidders for such work, whose total charges, based on the estimated number of transactions, is stated at $38,500, subject to adjustment on the basis of the actual number of transactions; and the clearing agent, Merrill, Lynch, Pierce, Fenner & Beane, which will receive fees aggregating $4,500 for use of its wire system and telephone lines, the services of its out-of-town office managers and its Syndicate Department, and for computing and preparing confirmations, plus $2 per transaction for the services of its Cashier's Department in handling the delivery and processing of stock certificates to dealers, collecting the amount due, and remitting the proceeds to GPU; and

The Commission having examined said amendment and having considered the record herein, and finding no basis for imposing terms and conditions with respect to the price to be received by GPU for said fractional interest shares, or with respect to the reoffering price thereof; and the Commission also finding that the above-listed fees and expenses incurred and to be incurred in said transactions are not unreasonable, and that jurisdiction with respect to fees and expenses should now be released, excepting only the legal and accounting fees to be paid by GPU:

It is ordered, That the application-declaration as further amended be, and the same hereby is, granted and permitted to become effective forthwith; and that the jurisdiction heretofore reserved with respect to the selling and reoffering prices of the fractional interest shares and with respect to fees and expenses be, and the same hereby is, released, excepting only the legal and accounting fees to be paid by GPU; subject to the provisions of Rule U-24.

It is further ordered, That jurisdiction with respect to the legal and accounting fees to be paid by GPU herein be, and the same hereby is, retained pending the further order of the Commission.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

DEPARTMENT OF JUSTICE

Office of Alien Property

[Vesting Order 18935]

AACHEN AND MUNICH FIRE INSURANCE CO.

In re: Securities owned by and debt owing to Aachen and Munich Fire Insurance Company.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Aachen and Munich Fire Insurance Company, the last known address of which is Aachen, Germany, is a corporation, which on or since December 11, 1941 and prior to January 1, 1947, was organized under the laws of and had its principal place of business in Germany, and is and prior to January 1, 1947 was, a national of a designated enemy country (Germany);

2. That the property described as follows:

a. Those certain Philippine Government 4½ percent Gold Loan of 1922 Bonds, of $25,000 aggregate face value, presently in the custody of The Guaranty Trust Company of New York, 140 Broadway, New York City, in an account in the name of the "Insurance Commissioner of the Philippines, Account Aachen and Munich Fire Insurance Company", numbered 9855, together with any and all rights thereunder and thereto,

b. Seven (7) United States of America 1¼ percent Treasury Series B, 1951 Notes, said notes numbered and in the face amounts listed below:

10024/7 ---------- $1,000 each
22555/7 ---------- $10,000 each

presently in the custody of The Guaranty Trust Company of New York, 140 Broadway, New York City, in an account in the name of the "Insurance Commissioner of the Philippines, Account Aachen and Munich Fire Insurance Company", numbered 9855, together with any and all rights thereunder and thereto, and

c. That certain debt or other obligation of The Guaranty Trust Company of New York, 140 Broadway, New York City, arising out of an account entitled "Insurance Commissioner of the Philippines, Account Aachen and Munich Fire Insurance Company," numbered 9855, maintained with the aforesaid company, together with any and all rights to demand, enforce and collect the same,

subject, however, to any lawful claims of the Philippine Commissioner of Insurance, is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Aachen and Munich Fire Insurance Company, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the person identified in subparagraph 1 hereof be treated as a person who is and prior to January 1, 1947, was a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 2, 1952.

For the Attorney General.

543820/3	£2	299422/3	£5
543820/4	£2	299422/4	£5
543820/5	£2	299422/5	£5
299422/1	£5		

payable to Deutsche Bank Filiale Heilbronn, owned by Carl Wieland and presently in the custody of the Attorney General of the United States together with any and all rights to demand, enforce and collect the aforesaid debts or other obligations, and any and all rights in, to and under said checks,

f. Those certain debts or other obligations evidenced by nineteen (19) American Express Company United States Dollar Travelers' Cheques, numbered F 6027760/9, and F 6027771/9, each in the amount of $10.00, said cheques owned by Friedrich Ellbrueck and presently in the custody of the Attorney General of the United States, together with any and all rights to demand, enforce and collect the aforesaid debts or other obligations, and any and all rights in, to and under said cheques,

g. Those certain debts or other obligations evidenced by eleven (11) American Express Company United States Dollar Travelers' Cheques, three cheques numbered G 2201557 9, in the amount of $10.00 each, and eight cheques H 5353543 9 and H 3671188 in the amount of $20.00 each, all payable to Deutsche Bank Filiale Pforzheim, owned by Firma Louis Schneider and presently in the custody of the Attorney General of the United States, together with any and all rights to demand, enforce and collect the aforesaid debts or other obligations, and any and all righs in, to and under said cheques, and

h. Those certain debts or other obligations evidenced by eight (8) Drafts in the amounts and dated as listed below:

$150.00	1- 2-30
$500.00	8-18-30
$500.00	1- 2-30
$500.00	7- 1-28
$1,000.00	2- 1-28
$1,000.00	5-14-27
$1,000.00	4- 3-26
$1,000.00	1- 3-29

said drafts payable to Otto Moroff, owned by Otto Hermann Moroff, and presently in the custody of the Attorney General of the United States, together with any and all rights to demand, enforce and collect the aforesaid debts or other obligations, and any and all rights in, to and under said drafts,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

7. That the national interest of the United States requires that the persons referred to in subparagraphs 1, 2 and 3 and named in subparagraphs 4 and 5 hereof, be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 2, 1952.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

N. V. INTERNATIONAL PERFUMERY CO.

In re: Debt owing to N. V. International Perfumery Co., also known as N. V. International Perfumerie Maatschappij. D-27-394; D-28-7012.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Supp. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.); and pursuant to law, after investigation, it is hereby found:

1. That the personal representatives, heirs, next of kin, legatees and distributees of Paul Peter Muelhens, deceased, also known as P. P. Mulhens, and is and prior to January 1, 1947, was, a national of a designated enemy country (Germany);

3. That the property described as follows: That certain debt or other obligation of Ferd. Mulhens, Inc., 25 West 45th Street, New York City, arising out of an account payable on the books of said Ferd. Mulhens, Inc. in the name of N. V. International Perfumerie Maatschappij, Amsterdam, Holland, together with any and all accruals to the aforesaid debt or other obligation and any and all rights to demand, enforce and collect the same,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, N. V. International Perfumery Co., also known as N. V. International Perfumerie Maatschappij, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

4. That N. V. International Perfumery Co., also known as N. V. International Perfumerie Maatschappij, is and prior to January 1, 1947, was, controlled by or acting for or on behalf of a designated enemy country (Germany) or persons within such country, and is, and prior to January 1, 1947, was a national of a designated enemy country (Germany);

5. That the national interest of the United States requires that the persons referred to in subparagraph 1 and 2 hereof, be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 2, 1952.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

[Vesting Order 18939]

N. V. SCHENKER & CO., INTERNATIONALE EXPEDITIE

In re: Bank account owned by N. V. Schenker & Co. Internationale Expeditie. F-49-1785.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That N. V. Schenker & Co., G. m. b. H., the last known address of which is Berlin, Germany, is a corporation, partnership, association or other business organization, which on or since December 11, 1941, and prior to January 1, 1947 was organized under the laws of and had its principal place of business in Berlin, Germany and is, and prior to January 1, 1947 was, a national of a designated enemy country (Germany);

2. That N. V. Schenker & Co., Internationale Expeditie, is a corporation, partnership, association or other business organization, organized under the laws of The Netherlands, whose principal place of business is located in Rotterdam, and is or, since December 11, 1941, and prior to January 1, 1947 has been controlled by or a substantial part of the stock of which has been owned or controlled, directly or indirectly by the aforesaid N. V. Schenker & Co., G. m. b. H. and is, and prior to January 1, 1947, was a national of a designated enemy country (Germany);

3. That the property described as follows: That certain debt or other obligation of the Guaranty Trust Company of New York, 140 Broadway, New York, New York, arising out of a deposit account, entitled Mr. Joh. P. Van Dijk and/or Mrs. E. Th. M. Van Dijk nee van der Hart, Hoogeweg 1 Wassenaar, Holland, maintained with the aforesaid bank, together with any and all accruals to the aforesaid debt or other obligation, and any and all rights to demand, enforce and collect the same,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, N. V. Schenker & Co., Internationale Expeditie, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

4. That N. V. Schenker & Co., Internationale Expeditie is and prior to January 1, 1947, was controlled by, or acted on behalf of a designated enemy country (Germany) or persons within such country and is, and prior to January 1, 1947, was a national of a designated enemy country (Germany);

5. That the national interest of the United States requires that the persons referred to in subparagraphs 1 and 2 hereof be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 2, 1952.

WILLIAM SPITZMULLER

In re: Securities owned by and debt owing to William Spitzmuller. F-28-31911-D-1.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR, 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That William Spitzmuller, whose last known address is 14 A Schwenningen A/N, Wurttemberg, Germany, on or since December 11, 1941, and prior to January 1, 1947 was a resident of Germany and is, and prior to January 1, 1947 was, a national of a designated enemy country (Germany);

2. That the property described as follows:

a. Three (3) shares of no par value common stock of Ward Leonard Electric Company, Mount Vernon, New York, a corporation organized under the laws of the State of New York, evidenced by certificate numbered E 305, registered in the name of William Spitzmuller, together with all declared and unpaid dividends thereon, and any and all rights under a plan of reorganization effective October 1944, and

b. That certain debt or other obligation of Ward Leonard Electric Company, Mount Vernon, New York, arising out of income and accumulations on the stock described in subparagraph 2-a hereof, including particularly but not limited to funds allocable to the said William Spitzmuller and charged to the Dividend Payable Account of the Ward Leonard Electric Company, together with any all accruals to the aforesaid debt or other obligation and any and all rights to demand, enforce and collect the same,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, William Spitzmuller, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined;

3. That the national interest of the United States requires that the person identified in subparagraph 1 hereof, be treated as a person who is and prior to January 1, 1947, was a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 2, 1952.

For the Attorney General.

[Vesting Order 18942]

MRS. THEODORE THEDIECK ET AL.

In re: Stock owned by Mrs. Theodore Thedieck, Mrs. Josephone Wassiack and Mrs. Theodore Winter. F-28-31906.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong. 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Mrs. Theodore Thedieck, Mrs. Josephone Wassiack and Mrs. Theodore Winter, each of whose last known address is Germany, on or since December 11, 1941, and prior to January 1, 1947 were residents of Germany are, and prior to January 1, 1947 were, nationals of a designated enemy country (Germany);

2. That the property described as follows:

a. Twenty-five (25) shares of Class "A" capital stock of Sidney Machine Tool Company, Sidney, Ohio, evidenced by a certificate or certificates registered in the name of Mrs. Theodore Thedieck together with all declared and unpaid dividends thereon,

b. Twenty-five (25) shares of Class "A" capital stock of Sidney Machine Tool Company, Sidney, Ohio, evidenced by a certificate or certificates, registered in the name of Mrs. Josephone Wassiack, together with all declared and unpaid dividends thereon, and

c. Twenty-five (25) shares of Class "A" capital stock of Sidney Machine Tool Company, Sidney, Ohio, evidenced by a certificate or certificates, registered in the name of Mrs. Theodore Winter, together with all declared and unpaid dividends thereon,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Mrs. Theodore Thedieck, Mrs. Josephone Wassiack and Mrs. Theodore Winter, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the persons identified in subparagraph 1 hereof, be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 2, 1952.

For the Attorney General.

[Vesting Order 18941]

HUGO STINNES, JR., ET AL.

In re: Securities owned by Hugo Stinnes, Jr., and others.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Hugo Stinnes, Jr., Ernst Stinnes, Otto Stinnes and Hilde Fiedler, each of whose last known address is Germany, on or since December 11, 1941, and prior to January 1, 1947 were residents of Germany and are, and prior to January 1, 1947 were, nationals of a designated enemy country (Germany).

2. That Clare Wagenknecht Stinnes, Sr., who on or since December 11, 1941, and prior to January 1, 1947, was a resident of Germany is, and prior to January 1, 1947, was a national of a designated enemy country (Germany).

3. That the property described as follows: Those certain debts or other obligations, matured or unmatured, evidenced by one hundred and four Hugo Stinnes Industries, Inc., 7 percent 20 year sinking fund gold debentures, due October 1, 1946, with an aggregate face value of $95,000.00, said debentures numbered and in the amounts listed below:

$500.00 each

together with any and all accruals to the aforesaid debts or other obligations, and any and all rights to demand, enforce and collect the same, and any and all rights in and under said debentures,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Hugo Stinnes, Jr., Ernst Stinnes, Otto Stinnes, Hilde Fiedler and Clare Wagenknecht Stinnes, Sr., the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

4. That the national interest of the United States requires that the persons referred to in subparagraphs 1 and 2 hereof be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 2, 1952.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

[F. R. Doc. 52-7488; Filed, July 8, 1952; 8:54 a. m.]

FEDERAL REGISTER

VOLUME 17 NUMBER 134

Washington, Thursday, July 10, 1952

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices), Department of Agriculture

Subchapter A—Commodity Standards and Standard Container Regulations

PART 44—UNITED STATES STANDARDS FOR GRADES OF EDIBLE SUGARCANE MOLASSES[1]

On September 26, 1950, a notice of proposed rule making was published in the FEDERAL REGISTER (15 F. R. 6474) regarding United States Standards for Edible Sugarcane Molasses, and on May 17, 1951, a notice of revised proposed rule making was published in the FEDERAL REGISTER (16 F. R. 4620) regarding these standards. After consideration of all relevant matters presented, including the proposals and revised proposals set forth in the aforesaid notices, the following U. S. Standards for Grades of Edible Sugarcane Molasses are hereby promulgated to become effective thirty (30) days after date of publication in the FEDERAL REGISTER, under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.).

The standards are as follows:

GENERAL

Sec.
44.1 Definition.

GRADES

44.2 Grades of edible sugarcane molasses.
44.3 Grade specifications.

DETERMINATION OF FACTORS

44.4 Quantitative determination of factors.
44.5 Preparation of basic solutions and ESM color standards[2]
44.6 Use of ESM color standards in determining color factor.

AUTHORITY: §§ 44.1 to 44.6 issued under 60 Stat. 1087; 7 U. S. C. 1621.

[1] Compliance with the requirements of these standards will not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

[2] "ESM" is an abbreviation for edible sugarcane molasses.

GENERAL

§ 44.1 *Definition.* "Edible sugarcane molasses" means the liquid product obtained when any part of the commercially crystallizable sugar is extracted from sugarcane grown in the United States.

GRADES

§ 44.2 *Grades of edible sugarcane molasses.* The grades for edible sugarcane molasses are designated as follows:

(a) U. S. Fancy Edible Sugarcane Molasses.

(b) U. S. Choice Edible Sugarcane Molasses.

(c) U. S. Standard Edible Sugarcane Molasses.

(d) "Substandard" Edible Sugarcane Molasses.

§ 44.3 *Grade Specifications.* Specifications for each grade of edible sugarcane molasses are as follows:

(a) U. S. Fancy Edible Sugarcane Molasses consists of edible sugarcane molasses which possesses a flavor characteristic of edible sugarcane molasses of fancy quality; which contains no excess of sediment; which is practically free of foreign matter; which has a Brix solids content of not less than 79 percent when corrected to 20° C. (68° F.); which has a total sugar (sucrose plus reducing sugars) content of not less than 63.5 percent; which has a sulfated ash content of not more than 6.75 percent; which contains not more than 200 parts of total sulfites, calculated as total SO_2, per million parts of sample, and which possesses a color no darker than ESM Color Standard No. 1.

(b) U. S. Choice Edible Sugarcane Molasses consists of edible sugarcane molasses which possesses a flavor characteristic of edible sugarcane molasses of choice quality; which contains no excess of sediment; which is practically free of foreign matter; which has a Brix solids content of not less than 79 percent when corrected to 20° C. (68° F.); which has a total sugar (sucrose plus reducing sugars) content of not less than 61.5 percent; which has a sulfated ash content of not more than 7.5 percent; which contains not more than 200 parts of total sulfites, calculated as total SO_2, per

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

CFR SUPPLEMENTS

(For use during 1952)

The following Supplements are now available:

Title 43 ($0.75)

Titles 47–48 ($2.00)

Title 49: Parts 1–70 ($0.20)

Parts 71–90 ($0.35)

Parts 91–164 ($0.35)

Part 165 to end ($0.35)

Title 50 ($0.40)

million parts of sample; and which possesses a color no darker than ESM Color Standard No. 2.

(c) U. S. Standard Edible Sugarcane Molasses consists of edible sugarcane molasses which possesses a flavor characteristic of edible sugarcane molasses of standard quality; which contains no excess of sediment; which is practically free of foreign matter; which has a Brix solids content of not less than 79 percent when corrected to 20° C. (68° F.); which has a total sugar (sucrose plus reducing sugars) content of not less than 58 percent; which has a sulfated ash content of not more than 9.0 percent; which contains not more than 200 parts of total sulfites, calculated as total SO_2, per million parts sample; and which possesses a color no darker than ESM Color Standard No. 3.

(d) "Substandard" is that quality of edible sugarcane molasses that fails to meet the requirements of U. S. Standard and is the quality of edible sugarcane molasses that may or may not meet the minimum standard of quality for edible sugarcane molasses issued pursuant to the Federal Food, Drug, and Cosmetic Act.

(e) *Table of specifications for grades.* The specifications for the designated grades of edible sugarcane molasses are set forth in summary form in the table which follows:

TABLE I—TABLE OF SPECIFICATIONS FOR GRADES

Factors	Grades and specifications		
	U. S. Fancy Edible Sugarcane Molasses	U. S. Choice Edible Sugarcane Molasses	U. S. Standard Edible Sugarcane Molasses
Brix solids content (corrected to 20° C. [68° F.]).	Not less than 79 percent		
Total sugar (sucrose plus reducing sugars) content.	Not less than 63.5 percent.	Not less than 61.5 percent.	Not less than 58 percent.
Sulfated ash content	Not more than 6.75 percent.	Not more than 7.5 percent.	Not more than 9 percent.
Total sulfites (calculated as total SO_2) per million parts of sample.	Not more than 200.	Not more than 250.	Not more than 280.
Color	Not darker than ESM Color Standard No. 1.	Not darker than ESM Color Standard No. 2.	Not darker than ESM Color Standard No. 3.

(f) *Tolerances for certification of officially drawn samples.* When certifying samples that have been officially drawn and which represent a specific lot of edible sugarcane molasses, the grade for such lot will be determined by averaging the factors of all the samples representing the lot: *Provided*, That not more than ⅙ of such samples shall fail to meet all the requirements of the grade specifications set forth in Table I: *And further provided*, That each of the samples which represent a specific lot of edible sugarcane molasses shall meet the limiting specifications set forth in Table II.

TABLE II—TABLE OF LIMITING SPECIFICATIONS

Factors	Grades and specifications		
	U. S. Fancy Edible Sugarcane Molasses	U. S. Choice Edible Sugarcane Molasses	U. S. Standard Edible Sugarcane Molasses
Brix solids content (corrected to 20° C. [68° F.]).	Not less than 78.5 percent		
Total sugar (sucrose plus reducing sugars) content.	Not less than 63 percent.	Not less than 61 percent.	Not less than 57 percent.
Sulfated ash	Not more than 7 percent.	Not more than 8 percent.	Not more than 10 percent.
Color	Not darker than ESM Color Standard No. 2.	Not darker than ESM Color Standard No. 3.	Darker than ESM Color Standard No. 3.

DETERMINATION OF FACTORS

§ 44.4 *Quantitative determination of factors.* Quantitative determination of the respective factors (other than color) of the grades may be on the basis of any method of analysis adopted by the Association of Official Agricultural Chemists. The results so obtained, however, are to be interpreted in terms of the results obtained when the determination of such factors is made by the methods (also adopted by the Association of Official Agricultural Chemists) set forth in this section for the respective factors:

(a) *Brix solids.* By Brix hydrometer, using the double-dilution method, corrected to 20° C. (68° F.).

(b) *Total sugars*—(1) *Sucrose.* By the Clerget, or double polarization method, using invertase as the inverting agent.

(2) *Reducing sugars.* By the Lane-Eynon volumetric method.

(c) *Sulfated ash.* By the sulfation method, with no deduction.

(d) *Total sulfites.* By the Monier-Williams method, calculated as total SO_2.

§ 44.5 *Preparation of basic solutions and ESM color standards.* Chemicals of reagent grade, at room temperature, are used in the preparation of the solutions described in this section.

(a) *Preparation of basic solution*—(1) *Solution A.* Dissolve 10 grams of

$CuCl_2 \cdot 2H_2O$ in a sufficient quantity of 10 percent hydrochloric acid solution to make 100 milliliters.[1]

(2) *Solution B.* Dissolve 50 grams of $CuCl_2 \cdot 6H_2O$ in a sufficient quantity of 10 percent hydrochloric acid solution to make 500 milliliters.

(3) *Solution C.* Dissolve 50 grams of $FeCl_3 \cdot 6H_2O$ in a sufficient quantity of 10 percent hydrochloric acid solution to make 500 milliliters.

(4) *ESM stock solution.* Mix 50 milliliters of Solution A and 485 milliliters of Solution B with 465 milliliters of Solution C.

(b) *Preparation of ESM color standards*—(1) *ESM Color Standard No. 1.* Dilute 40 milliliters of the ESM stock solution to 100 milliliters with 10 percent hydrochloric acid solution.

(2) *ESM Color Standard No. 2.* Dilute 75 milliliters of the ESM stock solution to 100 milliliters with 10 percent hydrochloric acid solution.

(3) *ESM Color Standard No. 3.* ESM stock solution undiluted.

§ 44.6 *Use of ESM color standards in determining color factor*—(a) *Containers required.* The containers needed to perform the visual color comparison test set forth in paragraph (d) of this section are:

(1) A container for a sample of edible sugarcane molasses for which the color factor is to be determined (such container hereinafter called "sample container"); and

(2) Containers for the respective ESM color standards.

(b) *Description of containers.* The sample container is made of colorless and transparent glass or plastic material and is of such shape and construction as to provide a flat ⅛-inch thickness of the sample to be viewed. The container for each ESM color standard is a colorless and transparent 2-ounce French square water sample bottle having outside base dimensions of 1½ by 1½ inches.

(c) *Comparator; viewing box.* The comparator or viewing box is divided into five compartments approximately 1½ inches square, with each compartment provided with openings approximately 1⅜ inches square in the two parallel sides. Compartments 1, 3, and 5 are adapted to receive the French square water sample bottles containing the ESM color standards and compartments 2 and 4 are adapted to receive the sample containers.

(d) *Visual comparison test.* A sample of edible sugarcane molasses is compared in the following manner with the ESM color standards to determine whether the sample is darker than one or more of such color standards:

(1) Place each of the ESM Color Standards Nos. 1, 2, and 3 in separate 2-ounce French square water sample bottles and place the bottles in compartments 1, 3, and 5 of the comparator;

(2) Place a sample container filled with a sample of edible sugarcane molasses successively in compartments 2 and 4 of the comparator; and

(3) Visually compare the color of the sample with each of the color standards by looking through them at a light colored background in diffuse light. The sample is viewed through its ⅛-inch thickness; and each ESM color standard is viewed at right angles to one of the sides of its container.

Issued this 3d day of July 1952.

[SEAL] ROY W. LENNARTSON,
Assistant Administrator, Production and Marketing Administration.

[F. R. Doc. 52-7571; Filed, July 9, 1952; 8:59 a. m.]

[1] 10 percent hydrochloric acid is made by diluting 242.6 milliliters of reagent grade hydrochloric acid to one liter.

726.428 Application for review.
726.429 Transfer of farm acreage allotments.

AUTHORITY: §§ 726.411 to 726.429 issued under sec. 375, 52 Stat. 66; 7 U. S. C. 1375. Interpret or apply secs. 301, 313, 363, 52 Stat. 38, 47, 63, as amended; 7 U. S. C. 1301, 1313, 1363.

GENERAL

§ 726.411 *Basis and purpose.* The regulations contained in §§ 726.411 to 726.429 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the establishment of 1953 farm acreage allotments and normal yields for fire-cured, dark air-cured, and Virginia sun-cured tobacco. The purpose of the regulations in §§ 726.411 to 726.429 is to provide the procedure for allocating, on an acreage basis, the national marketing quota for fire-cured, dark air-cured, and Virginia sun-cured tobacco for the 1953-54 marketing year among farms and for determining normal yields. Prior to preparing the regulations in §§ 726.411 to 726.429, public notice (17 F. R. 4896) was given in accordance with the Administrative Procedure Act (5 U. S. C. 1003). The data, views, and recommendations pertaining to the regulations in §§ 726.411 to 726.429 which were submitted have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

§ 726.412 *Definitions.* As used in §§ 726.411 to 726.429, and in all instructions, forms, and documents in connection therewith, the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) *Committees.* (1) "Community committee" means the group of persons elected within a community as the community committee of the Production and Marketing Administration to assist in administering the Production and Marketing Administration programs within the community.

(2) "County committee" means the group of persons elected within a county as the county committee of the Production and Marketing Administration to assist in administering the Production and Marketing Administration programs within the county.

(3) "State committee" means the group of persons designated as the State committee of the Production and Marketing Administration, charged with the responsibility of administering Production and Marketing Administration programs within the State.

(b) *Farm.* "Farm" means all adjacent or nearby farm land under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm land which the county committee, in accordance with instructions issued by the Assistant Administrator for Production, Production and Marketing Administration, determines is operated by the same person as part of the same unit with respect to the rotation of crops and with workstock, farm machinery, and labor substantially separate from that of any other lands; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county in which the principal dwelling is situated, or if there is no dwelling thereon it shall be regarded as located in the county in which the major portion of the farm is located.

(c) *New farm.* "New farm" means a farm on which tobacco will be produced in 1953 for the first time since 1947.

(d) *Old Farm.* "Old farm" means a farm on which tobacco was produced in one or more of the five years 1948 through 1952.

(e) *Cropland.* "Cropland" means farm land which in 1952 was tilled or was in regular crop rotation, excluding (1) bearing orchards and vineyards (except the acreage of cropland therein), (2) plowable noncrop open pasture, and (3) any land which constitutes or will constitute, if tillage is continued, a wind erosion hazard to the community.

(f) *Community cropland factor.* "Community cropland factor" means that percentage determined by dividing the total cropland for all old farms in the community in 1952 into the total of the 1952 tobacco acreage allotment for such old farms: *Provided*, That (1) if it is determined that the cropland factors for all communities in the county are substantially the same, the county committee, with the approval of the State committee, may consider the entire county as one community, and (2) if there is only one farm in the county on which tobacco is grown, the community cropland factor of the nearest community in which tobacco is grown shall be used in determining the acreage indicated by cropland.

(g) *Acreage indicated by cropland.* "Acreage indicated by cropland" means that acreage determined by multiplying the number of acres of cropland in the farm by the community cropland factor.

(h) *Operator.* "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(i) *Person.* "Person" means an individual, partnership, association, corporation, estate or trust or other business enterprise or other legal entity, and whenever applicable, a State, a political subdivision of a State, or any agency thereof.

(j) *Tobacco.* "Tobacco" means each one of the kinds of tobacco listed below comprising the types specified, as classified in Service and Regulatory Announcements No. 118 (7 CFR Part 30) of the Bureau of Agricultural Economics of the United States Department of Agriculture:

Fire-cured tobacco, comprising types 21, 22, 23, and 24;

Dark air-cured tobacco, comprising types 35 and 36;

Virginia sun-cured tobacco, comprising type 37.

Any tobacco that has the same characteristics and corresponding qualities, colors, and lengths as either fire-cured, dark air-cured or Virginia sun-cured tobacco shall be considered respectively, either fire-cured, dark air-cured, or Virginia sun-cured tobacco regardless of any factors of historical or geographical nature which cannot be determined by examination of the tobacco.

§ 726.413 *Extent of calculations and rules of fractions.* All acreage allotments shall be rounded to the nearest one-tenth acre. Fractions of fifty-one thousandths of an acre or more shall be rounded upward, and fractions of five-hundredths of an acre or less shall be dropped. For example, 1.051 would be 1.1 and 1.050 would be 1.0.

§ 726.414 *Instructions and forms.* The Director, Tobacco Branch, Production and Marketing Administration, shall cause to be prepared and issued such forms as are necessary, and shall cause to be prepared such instructions as are necessary, for carrying out the regulations in this part. The forms and instructions shall be approved by, and the instructions shall be issued by, the Assistant Administrator for Production, Production and Marketing Administration.

§ 726.415 *Applicability of §§ 726.411 to 726.429.* Sections 726.411 to 726.429 shall govern the establishment of farm acreage allotments and normal yields for tobacco in connection with farm marketing quotas for the marketing year beginning October 1, 1953. The applicability of §§ 726.411 to 726.429 to Virginia sun-cured tobacco is contingent upon the proclamation of national marketing quota for such kind of tobacco by the Secretary and the approval thereof by growers voting in referendum pursuant to section 312 of the Agricultural Adjustment Act of 1938, as amended.

ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR OLD FARMS

§ 726.416 *Determination of 1953 preliminary acreage allotments for old farms.* The preliminary acreage allotment for an old farm shall be the 1952 allotment with the following exceptions:

(a) If the acreage of tobacco harvested on the farm in each of the three years 1950–52 was less than 75 percent of the farm acreage allotment for each of such years, the preliminary allotment shall be the larger of (1) the largest acreage of tobacco harvested on the farm in any one of such three years, or (2) the average acreage of tobacco harvested on the farm in the five years 1948–52: *Provided*, That any such preliminary allotment shall not exceed the 1952 allotment for such farm or be less than 0.1 acre.

(b) If the county committee determines that failure to harvest as much as 75 percent of the acreage alloted to the farm during any one of the three years 1950–52 was due to (1) service in the armed forces on the part of labor regularly engaged in producing tobacco on the farm prior to entry into the armed forces, or (2) black shank infestation on the farm, the preliminary allotment for the farm shall be the 1952 allotment.

(c) If no 1952 allotment was established for the farm, the preliminary allotment shall be the smaller of (1) the average acreage of tobacco harvested on the farm in the five years 1948–52, or (2) the acreage obtained by multiplying the farm's average acreage for the five years 1948–52 by the ratio of the farm's actual yield to the 1951 county average yield: *Provided*, That such preliminary allotment shall not be less than 0.1 acre.

(d) If the acreage of tobacco harvested on the farm in 1952 exceeded the 1952 allotment by more than 10 percent, the preliminary allotment shall be the 1952 allotment plus the smaller of (1) one-fifth of the excess acres, or (2) the acreage obtained by multiplying one-fifth of the excess acreage by the ratio of the farm's actual yield to the 1951 county average yield.

(e) The preliminary allotments determined under subparagraph (c) or (d) of this paragraph shall not exceed the smaller of (1) the acreage indicated by cropland, or (2) the acreage capacity of curing barns located on the farm and suitable for curing tobacco: *Provided*, That no preliminary allotment shall be reduced below the 1952 allotment because of these factors or be less than 0.1 acre.

(f) The preliminary allotment shall not exceed 80 percent of the acreage of cropland on the farm.

§ 726.417 *1953 old farm tobacco acreage allotment.* The preliminary allotments calculated for all old farms in the State pursuant to § 726.416 shall be adjusted uniformly so that the total of such allotments plus the acreage available for adjusting acreage allotments for old farms pursuant to § 726.418 shall not exceed the State acreage allotment.

§ 726.418 *Adjustment of acreage allotments for old farms.* Notwithstanding the limitations contained in § 726.416, except paragraph (f) thereof, the farm acreage allotment for an old farm may be increased if the community and county committees find that such increase is necessary to establish an allotment for such farm which is fair and equitable in relation to the allotments for other old farms in the community, on the basis of the past acreage of tobacco, making due allowances for drought, flood, hail, other abnormal weather conditions, plant bed, and other diseases; land, labor, and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco. The acreage available for increasing allotments under this section shall not exceed one-half of one percent of the total acreage allotted to all tobacco farms in the State for the 1952–53 marketing year in the case of fire-cured and dark air-cured tobacco, and two percent of the total acreage allotted to all tobacco farms in the State for the 1952–53 marketing year in the case of Virginia sun-cured tobacco.

§ 726.419 *Reduction of acreage allotment for violation of the marketing quota regulations for a prior marketing year.* (a) If tobacco was marketed or was permitted to be marketed in any marketing year as having been produced on the acreage allotment for any farm which in fact was produced on a different farm, the acreage allotments established for both such farms for 1953 shall be reduced, as hereinafter provided, except that such reduction for any such farm shall not be made if the county committee determines that no person connected with such farm caused, aided, or acquiesced in such marketing.

(b) The operator of the farm shall furnish complete and accurate proof of the disposition of all tobacco produced on the farm at such time and in such manner as will insure payment of the penalty due at the time the tobacco is marketed and, in the event of failure for any reason to furnish such proof, the acreage allotment for the farm shall be reduced, except that if the farm operator estab-

lishes to the satisfaction of the county and State committees that failure to furnish such proof of disposition was unintentional on his part and that he could not reasonably have been expected to furnish accurate proof of disposition, reduction of the allotment will not be required if the failure to furnish proof of disposition is corrected and payment of all additional penalty is made.

(c) Any such reduction shall be made with respect to the 1953 farm acreage allotment, provided it can be made at least 30 days prior to the beginning of the normal planting season for the county in which the farm is located as determined by the State committee. If the reduction cannot be so made effective with respect to the 1953 allotment, such reduction shall be made with respect to the farm acreage allotment next established for the farm where the reduction can be made within the time specified above. This section shall not apply if the allotment for any prior year was reduced on account of the same violation.

(d) The amount of reduction in the 1953 allotment shall be that percentage which the amount of tobacco involved in the violation is of the respective farm marketing quota for the farm for the year in which the violation occurred. Where the amount of such tobacco involved in the violation equals or exceeds the amount of the farm marketing quota the amount of reduction shall be 100 percent. The amount of tobacco determined by the county committee to have been falsely identified or for which satisfactory proof of disposition has not been furnished shall be considered the amount of tobacco involved in the violation. If the actual production of tobacco on the farm is not known, the county committee shall estimate such actual production taking into consideration the condition of the tobacco crop during production, if known, and the actual yield per acre of tobacco on other farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar: *Provided*, That the estimate of such actual production of tobacco on the farm shall not exceed the harvested acreage of tobacco on the farm multiplied by the average actual yield on farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar. The actual yield of tobacco on the farm as so estimated by the county committee multiplied by the farm acreage allotment shall be considered the farm marketing quota for the purposes of this section. In determining the amount of tobacco for which satisfactory proof of disposition has not been shown in case the actual production of tobacco on the farm is not known, the amount of tobacco involved in the violation shall be deemed to be the actual production of tobacco on the farm, estimated as above, less the amount of tobacco for which satisfactory proof of disposition has been shown.

(e) If the farm involved in the violation is combined with another farm prior to the reduction, the reduction shall be applied to that portion of the allotment for which a reduction is required under paragraph (a) or (b) of this section.

(f) If the farm involved in the violation has been divided prior to the reduction, the reduction shall be applied to the allotments for the divided farms as required under paragraphs (a) and (b) of this section.

§ 726.420 *Reallocation of allotments released from farms removed from agricultural production.* (a) The allotment determined or which would have been determined for any land which is removed from agricultural production for any purpose because of acquisition by any Federal, State, or other agency having a right of eminent domain, shall be placed in a State pool and shall be available to the State committee for use in providing equitable allotments for farms owned or purchased by owners displaced because of acquisition of their farms by such agencies. Upon application to the county committee, within five years from the date of such acquisition of the farm, any owner so displaced shall be entitled to have an allotment for any other farm owned or purchased by him, equal to an allotment which would have been determined for such other farm plus the allotment which would have been determined for the farm so required: *Provided*, That such allotment shall not exceed 20 percent of the acreage of cropland on the farm.

(b) The provisions of this section shall not be applicable if (1) there is any marketing quota penalty due with respect to the marketing of tobacco from the farm or by the owner of the farm at the time of its acquisition by the Federal, State, or other agency; (2) any tobacco produced on such farm has not been accounted for as required by the Secretary; or (3) the allotment next to be established for the farm acquired by the Federal, State, or other agency would have been reduced because of false or improper identification of tobacco produced on or marketed from such farm.

§ 726.421 *Farms divided or combined.* (a) If land operated as a single farm in 1952 will be operated in 1953 as two or more farms, the 1953 tobacco acreage allotment determined or which otherwise would have been determined for the entire farm shall be apportioned among the tracts in the same proportion as the acreage of cropland available for the production of tobacco in each such tract in such year bore to the total number of acres of cropland available for the production of tobacco on the entire farm in such year, except that the tobacco acreage allotment determined or which otherwise would have been determined for the entire farm shall, if the farm to be divided for 1953 consists of two or more tracts which were separate and distinct farms before being combined within the past five years (1948–52), be apportioned among the tracts in the same proportion that each contributed to the farm acreage allotment: *Provided*, That with the recommendation of the county committee and approval of the State committee and with the written agreement of all interested persons the tobacco acreage allotment determined for a tract under the provisions of this paragraph may be increased or decreased by not more than the larger of one-tenth acre or 10 percent of the 1953 acreage allotment determined for the entire farm with corresponding increases or decreases made in the acreage allotment apportioned to the other tract or tracts.

(b) If two or more farms operated separately in 1952 are combined and operated in 1953 as a single farm, the 1953 allotment shall be the sum of the 1953 allotments determined for each of the farms comprising the combination.

(c) If a farm is to be divided in 1953 in settling an estate, the allotment may be divided among the various tracts in accordance with paragraph (a) of this section, or on such other basis as the State committee determines will result in equitable allotments.

§ 726.422 *Determination of normal yields.* The normal yield for any old farm shall be that yield which the county committee determines is normal for the farm taking into consideration (a) the yields obtained on the farm during the five years 1947–51, (b) the soil and other physical factors affecting the production of tobacco on the farm, and (c) the yields obtained on other farms in the locality which are similar with respect to such factors.

ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR NEW FARMS

§ 726.423 *Determination of acreage allotments for new farms.* (a) The acreage allotment other than an allotment made under §726.420, for a new farm shall be that acreage which the county committee determines is fair and reasonable for the farm taking into consideration the past tobacco experience of the farm operator; the land, labor, and equipment available for the production of tobacco; crop-rotation practices, and the soil and other physical factors affecting the production of tobacco: *Provided*, That the acreage allotment so determined shall not exceed 75 percent of the allotments for old tobacco farms which are similar with respect to land, labor, and equipment available for the production of tobacco, crop rotation practices, and the soil and other physical factors affecting the production of tobacco.

(b) Notwithstanding any other provisions of this section a tobacco acreage allotment shall not be established for any new farm unless each of the following conditions have been met:

(1) The farm operator shall have had experience in growing the kind of tobacco for which an allotment is requested either as a share cropper, tenant, or as a farm operator during two of the past five years: *Provided*, That a farm operator who was in the armed services after September 16, 1940, shall be deemed to have met the requirements hereof if he has had such experience during one year either within the five years immediately prior to his entry into the armed services or within the five years immediately following his discharge from the armed services and if he files an application for an allotment within five crop years from date of discharge.

(2) The farm operator shall live on and be largely dependent for his livelihood on the farm covered by the application.

(3) The farm covered by the application shall be the only farm owned or operated by the owner or farm operator for which a fire-cured, dark air-cured or Virginia sun-cured tobacco allotment is established for the 1953–54 marketing year.

(c) The acreage allotments established as provided in this section shall be subject to such downward adjustment as is necessary to bring such allotments in line with the total acreage available for allotment to all new farms. One-half of one percent of the 1953 national marketing quota shall, when converted to an acreage allotment by the use of the national average yield, be available for establishing allotments for new farms. The national average yield shall be the average of the several State yields used in converting the State marketing quota into State acreage allotments.

§ 726.424 *Time for filing application.* An application for new farm allotment shall be filed with the county committee prior to February 1, 1953, unless the farm operator was discharged from the armed services subsequent to December 31, 1952, in which case such application shall be filed within a reasonable period prior to planting tobacco on the farm.

§ 726.425 *Determination of normal yields.* The normal yield for a new farm shall be that yield per acre which the county committee determines is normal for the farm as compared with yields for other farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar.

MISCELLANEOUS

§ 726.426 *Determination of acreage allotments and normal yields for farms returned to agricultural production.* (a) Notwithstanding the foregoing provisions of §§ 726.411 to 726.425, the acreage allotment for any farm which was acquired by any Federal, State, or other agency having the right of eminent domain for any purpose and which is returned to agricultural production in 1953 or which was returned to agricultural production in 1952 too late for the 1952 allotment to be established, shall be determined by one of the following methods:

(1) If the land is acquired by the original owner, any part of the acreage allotment which was or could have been established for such farm prior to its retirement from agricultural production which remains in the State pool (adjusted to reflect the uniform increases and decreases in comparable old farm allotments since the farm was acquired) may be established as the 1953 allotment for such farm by transfer from the pool, and if any part of the allotment for such land was transferred by the original owner through the State pool to another farm now owned by him, such owner may elect to transfer all or any part of such allotment (as adjusted) to the farm which is returned to agricultural production.

(2) If the land is acquired by a person other than the original owner, or if all of the allotment was transferred through the State pools to another farm and the original owner does not now own the farm to which the allotment was transferred, the farm returned to agricultural production shall be regarded as a new farm.

(b) The normal yield for any such farm shall be that yield per acre which the county committee determines is reasonable for the farm as compared with yields for other farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar.

§ 726.427 *Approval of determinations made under §§ 726.411 to 726.426.* The State committee will review all allotments and yields and may correct or require correction of any determinations made under §§ 726.411 to 726.426. All acreage allotments and yields shall be approved by the State committee and no official notice of acreage allotment shall be mailed to a grower until such allotment has been approved by the State committee.

§ 726.428 *Application for review.* Any producer who is dissatisfied with the farm acreage allotment and marketing quota established for his farm, may, within fifteen days after mailing of the official notice of the farm acreage allotment and marketing quota, file application with the county committee to have such allotment reviewed by a review committee. The procedures governing the review of farm acreage allotments and marketing quotas are contained in the regulations issued by the Secretary (7 CFR Part 711) which are available at the office of the county committee.

§ 726.429 *Transfer of farm acreage allotments.* Notwithstanding the foregoing provisions of §§ 726.411 to 726.428 except § 726.427, the owner and operator of a farm for which both a fire-cured tobacco and a dark air-cured tobacco acreage allotment, or both a fire-cured tobacco and a Virginia sun-cured tobacco acreage allotment, are established under §§ 726.411 to 726.428 may voluntarily and permanently surrender in writing to the county committee not later than March 31, 1953, either of such farm acreage allotments. The acreage surrendered for each kind of tobacco shall, upon request in writing to the county committee not later than March 31, 1953, and in the order requested, be used by the county committee for equivalent increases in the acreage allotments for other farms producing such kind of tobacco which surrendered acreage to the county committee under this section. Such increase in the acreage allotment for any farm shall not exceed the acreage surrendered from such farm to the county committee. Acreage surrendered under this section shall, to the extent that it is not transferred hereunder, be returned to the farms from which it was surrendered.

Done at Washington, D. C., this 7th day of July 1952. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 52-7527; Filed, July 9, 1952; 8:50 a. m.]

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 956—MILK IN THE SIOUX FALLS-MITCHELL, SOUTH DAKOTA, MARKETING AREA

ORDER REGULATING HANDLING OF MILK

Sec.
956.0 Findings and determinations.

DEFINITIONS

956.1 Act.
956.2 Secretary.
956.3 Department of Agriculture.
956.4 Person.
956.5 Cooperative association.
956.6 Sioux Falls-Mitchell, South Dakota, marketing area.

MARKET ADMINISTRATOR

956.20 Designation.
956.21 Powers.
956.22 Duties.

REPORTS, RECORDS AND FACILITIES

956.30 Delivery period report of receipts and utilization.
956.31 Producer payroll.
956.32 Other reports.
956.33 Records and facilities.
956.34 Retention of records.

CLASSIFICATION

956.40 Skim milk and butterfat to be classified.
956.41 Classes of utilization.
956.42 Shrinkage.
956.43 Transfers.
956.44 Responsibility of handlers and reclassification of milk.
956.45 Computation of skim milk and butterfat in each class.
956.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

956.50 Class prices.
956.51 Emergency price provisions.

DETERMINATION OF UNIFORM PRICE

956.60 Computation of the value of milk.
956.61 Computation of uniform price.
956.62 Notification of handlers.

PAYMENTS

956.65 Time and method of payments.
956.66 Butterfat differentials.
956.67 Adjustment of errors in payment to producers.
956.68 Producer-settlement fund.
956.69 Payments to producer-settlement fund.
956.70 Payments out of the producer-settlement fund.
956.71 Adjustment of errors in payments.
956.72 Expense of administration.
956.73 Termination of obligations.

EFFECTIVE TIME SUSPENSION OR TERMINATION

Sec.
956.80 Effective time.
956.81 Suspension or termination.
956.82 Continuing obligations.
956.83 Liquidation.

MISCELLANEOUS PROVISIONS

956.90 Agents.
956.91 Separability of provisions.

AUTHORITY: §§ 956.0 to 956.91 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 956.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR, supps., 900.1 et seq.), a public hearing was held at Sioux Falls, South Dakota, on August 27–30, 1951, upon a proposed marketing agreement and a proposed order, regulating the handling of milk in the Sioux Falls-Mitchell, South Dakota, marketing area. Such hearing was reopened on March 24, 1952 upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The said order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices for milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for such milk and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined herein, are in the current of interstate commerce or directly burden, obstruct or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment monthly as his pro rata share of such expense, four cents per hundredweight, or such amount not exceeding four cents per hundredweight as the Secretary may prescribe, by each handler who operates an approved plant with respect to all milk received by him during the month from producers (including such handler's own production) and with respect to other source milk received by him during such delivery period which is classified as Class I, and by each handler who operates an unapproved plant with respect to all milk disposed of by him as Class I milk within the marketing area.

(b) *Additional findings.* In view of the fact that this order will constitute the original imposition of a regulatory program of this nature for the market, the provisions other than those relating to prices and payments to producers should be put into effect prior to the effective date of the provisions relating to prices and payments to producers, in order that handlers may have opportunity to make necessary adjustments in their accounting and other operational procedures to conform with all provisions of the order. It is hereby found and determined, in view of the aforesaid facts and circumstances that good cause exists for making §§ 956.1 through 956.14, 956.20 through 956.22 (h), 956.30 through 956.34, 956.40 through 956.46, 956.72, 956.73, 956.80 through 956.83, 956.90 and 956.91 effective on August 1, 1952 and §§ 956.22 (i), 956.50, 956.51, 956.60 through 956.62 and 956.65 through 956.71 effective on September 1, 1952; and that it would be contrary to the public interest to delay such effective dates to dates later than those specified.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping the milk covered by this order, which is marketed within the Sioux Falls-Mitchell, South Dakota, marketing area) refused or failed to sign the proposed marketing agreement regulating the handling of milk in the Sioux Falls-Mitchell, South Dakota, marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order is the only practicable means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the Sioux Falls-Mitchell, South Dakota, marketing area; and

(3) The issuance of this order is approved or favored by at least two-thirds of the producers, who during the determined representative period (March 1952) were engaged in the production of milk for sale in the Sioux Falls-Mitchell, South Dakota, marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Sioux Falls-Mitchell, South Dakota, marketing area shall be in conformity to and in compliance with the following terms and conditions:

DEFINITIONS

§ 956.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 956.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 956.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions specified in this subpart.

§ 956.4 *Person.* "Person" means any individual, partnership, corporation, association or any other business unit.

§ 956.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) Is qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," and

(b) Has full authority in the sale of milk of its members and is engaged in making collective sales of or marketing milk or its products for its members.

§ 956.6 *Sioux Falls-Mitchell, South Dakota, marketing area.* "Sioux Falls-Mitchell, South Dakota, marketing area," hereinafter called the "marketing area," means all the territory within the corporate limits of the cities of Sioux Falls, South Sioux Falls, and Mitchell, all in the State of South Dakota.

§ 956.7 *Approved plant.* "Approved plant" means a milk plant or other facilities which operate under a permit issued by the health authorities of Mitchell, or Sioux Falls, South Dakota, and which are under regular inspection by these local health authorities, and which are used in the preparation or processing of producer milk any part of which is sold or disposed of in the marketing area as Class I milk.

§ 956.8 *Unapproved plant.* "Unapproved plant" means any milk manufacturing, processing or bottling plant other than an approved plant.

§ 956.9 *Handler.* "Handler" means:

(a) Any person, other than a producer handler, in his capacity as the operator of an approved plant(s).

(b) Any other person in his capacity as the operator of an unapproved plant where milk is processed and packaged and from which milk is disposed of on wholesale or retail routes within the marketing area unless such milk is received at and disposed of from an approved plant, or

(c) Any cooperative association with respect to milk of producers diverted by it from an approved plant to an unapproved plant for the account of such cooperative association.

§ 956.10 *Producer.* "Producer" means any person who produces Grade A milk under a farm permit or rating issued by local health authorities, which milk is (a) received at an approved plant, or (b) diverted from an approved plant to an unapproved plant for the account of a handler. Milk so diverted shall be deemed to have been received by the handler who caused it to be so diverted.

§ 956.11 *Producer milk.* "Producer milk" means all skim milk and butterfat in milk produced by a producer, other

than a producer-handler, which is received by a handler either directly from producers or from other handlers.

§ 956.12 *Other source milk.* "Other source milk" means all skim milk and butterfat which is received by a handler other than that contained in producer milk.

§ 956.13 *Producer-handler.* "Producer-handler" means any person who produces milk which he distributes on wholesale or retail routes within the marketing area and who receives no milk from other producers: *Provided*, That the market administrator has determined that the maintenance, care and management of the dairy animals and other resources necessary to produce the milk, and the processing, packaging and distribution of the milk are the personal enterprise and personal risk of such person.

§ 956.14 *Delivery period.* "Delivery period" means a calendar month or the portion thereof during which this subpart is in effect.

MARKET ADMINISTRATOR

§ 956.20 *Designation.* The agency for the administration of this subpart shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 956.21 *Powers.* The market administrator shall have the following powers with respect to this subpart.

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 956.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 956.72 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this subpart, and, upon request by the Secretary, surrender the same to such person as the Secretary may designate;

(f) Publicly announce, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 10 days after the date upon which he is required to perform such acts, has not made (1) reports pursuant to § 956.30, or (2) payments pursuant to §§ 956.65, 956.69, and 956.71;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) Audit records of all handlers to verify the reports and payments required pursuant to the provisions of this subpart; and

(i) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate, the prices determined for each delivery period as follows:

(1) On or before the 3d day of each delivery period, the minimum prices for skim milk and butterfat (i) in Class I milk computed pursuant to § 956.50 (a) for the current delivery period, and (ii) in Class II milk computed pursuant to § 956.50 (b) for the preceding delivery period; and

(2) On or before the 8th day of each delivery period, the uniform price computed pursuant to § 956.61 and the butterfat differential computed pursuant to § 956.66, both for the preceding delivery period.

REPORTS, RECORDS AND FACILITIES

§ 956.30 *Delivery period reports of receipts and utilization.* (a) On or before the 6th day after the end of each delivery period, each handler who operates an approved plant shall report to the market administrator, in the detail and on forms prescribed by the market administrator, the following information with respect to all milk received from producers, all milk, skim milk, cream, and milk products received from other handlers, and all other source milk (except nonfluid milk products disposed of in the form in which received without further processing or packaging by the handler) received at his approved plants:

(1) The quantities of skim milk and butterfat contained in such receipts and their sources;

(2) The utilization of such receipts; and

(3) Such other information with respect to such receipts and utilization as the market administrator may prescribe.

(b) On or before the 6th day after the end of each delivery period, each handler who operates an unapproved plant shall report to the market administrator, in the detail and on forms prescribed by the market administrator, his total disposition within the marketing area of Class I milk from such plant.

§ 956.31 *Producer payroll reports.* On or before the 20th day after the end of each delivery period each handler who operates an approved plant shall submit to the market administrator his producer payroll for such delivery period, which shall show (a) the pounds of milk and the percentages of butterfat contained therein received from each producer; (b) the amount and date of payment to each producer or cooperative association; and (c) the nature and amount of each deduction or charge involved in the payments made to producers or cooperative associations.

§ 956.32 *Other reports.* Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may request.

§ 956.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator or his representative during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or to establish the correct data with respect to:

(a) The receipts and utilization of all producer milk and other source milk;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and milk products handled;

(c) Payments to producers and cooperative associations; and

(d) The pounds of butterfat and skim milk contained in or represented by all milk, skim milk, cream and milk products on hand at the beginning and end of each delivery period.

§ 956.34 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of 3 years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such 3 year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly, upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 956.40 *Skim milk and butterfat to be classified.* Skim milk and butterfat contained in all milk, skim milk, cream, and milk products received during the delivery period by a handler and required to be reported pursuant to § 956.30 (a) shall be classified by the market administrator pursuant to §§ 956.41 to 956.45, inclusive.

§ 956.41 *Classes of utilization.* Subject to the conditions set forth in §§ 956.43 and 956.44 the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat (1) dis-

posed of in fluid form as milk, skim milk, buttermilk, flavored milk, flavored milk drinks, cream, either sweet or sour (including any mixture of butterfat and skim milk containing more than 6 percent butterfat except mixes for ice cream and frozen desserts) (2) disposed of as or used to produce any other milk product required by the health authorities in the marketing area to be produced from Grade A milk and (3) all skim milk and butterfat not specifically accounted for as Class II milk.

(b) *Class II milk.* Except as provided in paragraph (c) of this section Class II shall be (1) all skim milk which is dumped or disposed of as livestock feed: *Provided*, That in the case of skim milk which is dumped the handler shall notify the market administrator in advance of his intention to dump such skim milk, and (2) all skim milk and butterfat (i) used to produce any milk product not specified in paragraph (a) of this section, (ii) in actual plant shrinkage supported by adequate plant records up to but not in excess of two percent of the total receipts of skim milk and butterfat in producer milk, other than that received from other handlers, (iii) in actual shrinkage of other source milk, and (iv) in inventory variations.

(c) *Class IIA.* Class IIA shall be all skim milk and butterfat which, during the months of February through July, both inclusive, is used to produce butter, American cheddar cheese, casein, animal feed or nonfat dry milk solids, and skim milk which is dumped: *Provided*, That the handler shall notify the market administrator in advance of his intention to dump such skim milk.

§ 956.42 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat for each handler; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat contained in producer milk and in other source milk.

§ 956.43 *Transfers.* (a) Skim milk and butterfat, when transferred or diverted from an approved plant to another approved plant where milk is received from producers, shall be Class I if transferred or diverted in the form of milk, skim milk or cream: *Provided*, That, if the transferring handler, on or before the 6th day after the end of the delivery period during which the transfer or diversion is made, furnishes to the market administrator a statement signed by the buyer indicating that such skim milk or butterfat was used in Class II, or Class IIA such skim milk or butterfat may be assigned to the indicated class up to the amount thereof remaining in such class in the plant of the receiver after the subtraction of other source milk pursuant to § 956.46: *Provided further*, That, if other source milk has been received at either or both plants, such milk so disposed of shall be classified at both plants so as to return the higher class utilization to producer milk.

(b) Skim milk or butterfat, when transferred or diverted from an approved plant to an unapproved plant located more than 100 miles from the marketing area shall be Class I if transferred in the form of milk, skim milk, or cream.

(c) Skim milk and butterfat when transferred or diverted from an approved plant to an unapproved plant located less than 100 miles from the marketing area shall be Class I if transferred in the form of milk, skim milk, or cream unless the transferring handler reports that such skim milk or butterfat was used in Class II or Class IIA: *Provided*, That if the buyer refuses to permit the market administrator to audit his books and records, such milk, skim milk or cream shall be reclassified as Class I: *Provided further*, That if upon audit of the buyer's records, it is found that the use of skim milk and butterfat in the buyer's plant in Classes II and IIA is less than the amount stated to have been used, any amount in excess of such Class II use or Class IIA shall be classified as Class I.

(d) Skim milk or butterfat when transferred or diverted from an approved plant to a producer-handler in the form of milk, skim milk, or cream shall be classified as Class I.

§ 956.44 *Responsibility of handlers and reclassification of milk.* (a) In establishing the classification of skim milk and butterfat as required in § 956.41 the burden rests upon the handler who receives such skim milk or butterfat from producers to prove to the market administrator that such skim milk or butterfat should not be classified as Class I milk.

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 956.45 *Computation of skim milk and butterfat in each class.* For each delivery period the market administrator shall correct for mathematical and other obvious errors the delivery period report submitted by each handler pursuant to § 956.30 (a) and shall compute the respective amounts of skim milk and butterfat in each class for such handler.

§ 956.46 *Allocation of skim milk and butterfat classified.* After computing the classification of all skim milk and butterfat received by a handler pursuant to § 956.45, the market administrator shall determine the classification of milk received from producers as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II, the pounds of skim milk determined pursuant to § 956.41 (b) (2) (ii);

(2) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk contained in other source milk: *Provided*, That if the receipts of skim milk in other source milk are greater than the pounds of skim milk remaining in Class II, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I. If any skim milk has been classified as Class II A, skim milk in other source milk shall be allocated to such Class II A use prior to allocation to other Class II use.

(3) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk contained in receipts from other handlers in accordance with its classification as determined pursuant to § 956.43(a);

(4) Add to the remaining pounds of skim milk in Class II the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph;

(5) Subtract pro rata from the remaining pounds of skim milk in each class the pounds of skim milk contained in such handler's own production;

(6) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk reported as having been received from producers; an amount equal to the difference shall be subtracted from the pounds of skim milk in Class II: *Provided*, That any amount in excess of the pounds remaining in Class II shall be subtracted from Class I. Any amount so subtracted shall be called "overage".

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

MINIMUM PRICES

§ 956.50 *Class prices.* Each handler shall pay at the time and in the manner set forth in § 956.65 not less than the prices set forth in this section for skim milk and butterfat in milk received from producers during the delivery period at such handler's plant.

(a) *Class I milk.* (1) The price per hundredweight for Class I milk containing 3.5 percent butterfat shall be the Class II price computed pursuant to paragraph (b) (1) of this section for the previous delivery period plus $1.25.

(2) The price per hundredweight for butterfat in Class I milk shall be computed by adding $25.00 to the price computed pursuant to paragraph (b) (2) of this section for the preceding delivery period.

(3) The price per hundredweight for skim milk in Class I shall be computed by (i) multiplying by 0.035 the price computed pursuant to subparagraph (2) of this paragraph, (ii) subtracting the result from the price computed pursuant to subparagraph (1) of this paragraph, (iii) dividing the result by 0.965, and (iv) adjusting to the nearest cent.

(b) *Class II milk.* (1) The price per hundredweight for Class II milk containing 3.5 percent butterfat shall be computed by the market administrator as follows: (i) Multiply by 1.25 the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the Department of Agriculture during the delivery period and subtract 5 cents, (ii) multiply by 3.5, (iii) add 21 cents, and (iv) add 3 cents for each full one-half cent that the price of nonfat dry milk solids is above 7 cents per pound. The price of nonfat dry milk solids to be used shall be the arithmetical average of the carlot prices, both spray and roller process, for human consumption delivered at Chicago, as reported by the Department of Agriculture during the delivery period. In the event the Department of Agriculture does not publish carlot prices for nonfat dry milk solids for human consumption delivered at Chicago, the average of the carlot prices for nonfat dry milk solids, spray and roller process, for human consumption, f. o. b. manufacturing plants in the Chicago area as published by the Department of Agriculture for the period from the 26th day of the preceding delivery period through the 25th day of the current delivery period, shall be used and 3 cents shall be added for each full one-half cent that the latter price is above 6 cents per pound.

(2) The price per hundredweight for butterfat in Class II shall be computed by adjusting to the nearest full cent the price computed pursuant to subparagraph (1) (i) of this paragraph and multiplying by 100.

(3) The price per hundredweight for skim milk in Class II shall be computed by (i) multiplying by 0.035 the price computed pursuant to subparagraph (2) of this paragraph, (ii) subtracting the result from the price computed pursuant to subparagraph (1) of this paragraph, (iii) dividing the result by 0.965, and (iv) adjusting to the nearest cent.

(c) *Class II A milk.* (1) The price per hundredweight for Class II A milk containing 3.5 percent butterfat shall be the Class II price computed pursuant to paragraph (b) (1) of this section minus 25 cents.

(2) The price per hundredweight for butterfat in Class II A milk shall be computed by: (i) Determining the percentage that the price computed pursuant to § 956.50 (b) (1) is of the price computed pursuant to § 956.50 (b) (1), (ii) multiplying such percentage by 25 cents, (iii) subtracting the resulting figure from the price computed pursuant to § 956.50 (b) (1), and (iv) multiplying by 100.

(3) The price per hundredweight for skim milk in Class II A shall be computed by (i) multiplying by 0.035 the price computed pursuant to subparagraph (2) of this paragraph, (ii) subtracting the result from the price computed pursuant to subparagraph (1) of this paragraph, (iii) dividing the result by 0.965 and (iv) adjusting to the nearest cent.

§ 956.51 *Emergency price provisions.* Whenever the provisions of this subpart require the market administrator to use a specific price (or prices) for milk or any milk product for the purpose of determining minimum class prices or for any other purpose, and the specified price is not reported or published the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the price specified.

DETERMINATION OF UNIFORM PRICE

§ 956.60 *Computation of the value of milk.* (a) The value of the milk received by each handler from producers during each delivery period shall be a sum of money computed by the market administrator by multiplying the hundredweight of skim milk and butterfat allocated to each class pursuant to § 956.46 by the applicable class prices, adding together the resulting amounts and adding any amounts owed by the handler pursuant to subparagraphs (1) and (2) of this paragraph.

(1) If a handler has overage of either skim milk or butterfat, the market administrator shall add an amount computed by multiplying the pounds of overage by the applicable class prices.

(2) If any skim milk or butterfat in other source milk has been allocated to Class I pursuant to § 956.46, during the months of February through July, both inclusive, the market administrator shall add an amount equal to the difference between the value of such skim milk or butterfat at the Class I price and the Class II price unless the handler can prove to the satisfaction of the market administrator that such other source skim milk or butterfat was used only to the extent that producer milk was not available.

(b) If any handler who operates an unapproved plant has disposed of Class I milk in the marketing area, the market administrator shall determine a value for such handler by multiplying the pounds of such Class I milk by an amount equal to the difference between the Class I price and the Class II price.

§ 956.61 *Computation of uniform price.* For each delivery period the market administrator shall compute a uniform price per hundredweight for milk received from producers as follows:

(a) Combine into one total the values computed pursuant to § 956.60 for all handlers who filed reports pursuant to § 956.30 and who made the payments required pursuant to §§ 956.65 and 956.69 for the previous delivery period;

(b) Subtract if the average butterfat content of the milk included in these computations is greater than 3.5 percent, or add if such average butterfat content is less than 3.5 percent, an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 3.5 percent by the butterfat differential computed pursuant to § 956.66, and multiplying the resulting amount by the total hundredweight of milk included in these computations;

(c) Subtract during each of the delivery periods of May, June and July an amount equal to 8 percent of the resulting sum;

(d) Add during each of the delivery periods of September, October and November one-third of the total amount subtracted pursuant to paragraph (c) of this section;

(e) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(f) Divide the resulting sum by the total hundredweight of producer milk included in these computations; and

(g) Subtract not less than 4 cents nor more than 5 cents per hundredweight for the purpose of retaining in the producer-settlement fund a cash balance to provide against errors in reports or payments or delinquencies in payments by handlers. The result shall be known as the "uniform price" per hundredweight for producer milk of 3.5 percent butterfat content.

§ 956.62 *Notification of handlers.* On or before the 9th day after the end of each delivery period the market administrator shall notify each handler of:

(a) The amount and value of his milk in each class computed pursuant to §§ 956.46 and 956.60 respectively, and the totals of such amounts and values;

(b) The uniform price computed pursuant to § 956.61;

(c) The amount, if any, due such handler from the producer-settlement fund;

(d) The total amounts to be paid by such handler pursuant to §§ 956.65 and 956.71; and

(e) The amount to be paid by such handler pursuant to § 956.72.

PAYMENTS

§ 956.65 *Time and method of payments.* Each handler shall make payment for milk as follows:

(a) On or before the 15th day after the end of the delivery period during which the milk was received, to each producer for milk received from him and for which payment is not made to a cooperative association pursuant to paragraph (b) of this section, at not less than the uniform price computed pursuant to § 956.61, subject to the butterfat differential computed pursuant to § 956.66.

(b) On or before the 12th day after the end of the delivery period during which the milk was received, to a cooperative association for milk which it caused to be delivered to such handler from producers, if such cooperative association is authorized to collect such payments for its member producers and wishes to exercise such authority, an amount equal to not less than the sum of the individual payments otherwise payable to such producers pursuant to paragraph (a) of this section.

§ 956.66 *Butterfat differential.* If, during the delivery period, any handler has received from any producer milk having an average butterfat content other than 3.5 percent, such handler in making the payments prescribed in § 956.65, shall add to the uniform price for each one-tenth of one percent that the average butterfat content of such milk is above 3.5 percent not less than, or shall deduct from the uniform price for each one-tenth of one percent that such average butterfat content is below 3.5 percent not more than, an amount computed by the market administrator as follows: To the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the Department of Agriculture during the delivery period in which the milk was received, add 20 percent, divide the result obtained by 10, and adjust to the nearest cent.

§ 956.67 *Adjustment of errors in payment to producers.* Whenever verification by the market administrator of the payment by a handler to any producer or to a cooperative association discloses payment of an amount less than is required by § 956.65 the handler shall make

up such payment to the producer or cooperative association not later than the time of making payment next following such disclosure.

§ 956.68 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 956.69 and 956.71 and out of which he shall make all payments to handlers pursuant to §§ 956.70 and 956.71: *Provided,* That the market administrator shall offset any payment due any handler against payments due from such handler.

§ 956.69 *Payments to the producer-settlement fund.* On or before the 10th day after the end of each delivery period (a) each handler who operates an approved plant shall pay to the market administrator for payment to producers through the producer-settlement fund the amount, if any, by which the total value computed for him pursuant to § 956.60 (a) for such delivery period is greater than the sum required to be paid by such handler pursuant to § 956.65, and (b) each handler who operates an unapproved plant shall make payment to the market administrator of an amount equal to the value computed for him pursuant to § 956.60 (b).

§ 956.70 *Payments out of the producer-settlement fund.* On or before the 11th day after the end of each delivery period, the market administrator shall pay to each handler, for payment to producers, the amount, if any, by which the sum required to be paid by such handler pursuant to § 956.65 is greater than the total value computed for him pursuant to § 956.60.

§ 956.71 *Adjustment of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors in payments to or from the producer-settlement fund made pursuant to §§ 956.69 and 956.70, the market administrator shall promptly bill such handler for any unpaid amounts and such handler shall, within 5 days of such billing, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler pursuant to § 956.70 the market administrator shall, within 5 days, make such payment to such handler.

§ 956.72 *Expense of administration.* As his pro rata share of the expense of administration of this subpart, each handler who operates an approved plant shall pay to the market administrator, on or before the 15th day after the end of the delivery period, 4 cents per hundredweight or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe with respect to all receipts within the delivery period of (a) milk from producers including such handler's own production, and (b) other source milk which is classified as Class I milk, and each handler who operates an unapproved plant shall make such payment only with respect to Class I milk disposed of within the marketing area.

§ 956.73 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representative all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files pursuant to section (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 956.80 *Effective time.* The provisions of this subpart or any amendment to this subpart shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 956.81.

§ 956.81 *Suspension or termination.* The Secretary may suspend or terminate this subpart or any provision of this subpart whenever he finds this subpart or any provision of this subpart obstructs or does not tend to effectuate the declared policy of the act. This subpart shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 956.82 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations under this subpart the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 956.83 *Liquidation.* Upon the suspension or termination of the provisions of this subpart except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 956.90 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 956.91 *Separability of provisions.* If any provision of this subpart or its application to any person or circumstances, is held invalid, the application of such provision and of the remaining provisions of this subpart to other persons or circumstances shall not be affected thereby.

Issued at Washington D. C., this 3d day of July 1952.

Sections 956.1 through 956.14, 956.20 through 956.22 (h), 956.30 through 956.34, 956.40 through 956.46, 956.72, 956.73, 956.80 through 956.83, 956.90 and 956.91 shall be effective on and after the 1st day of August 1952, and §§ 956.22 (i), 956.50, 956.51, 956.60 through 956.62, and 956.65 through 956.71 shall be effective on and after September 1, 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 24—FORMAL EDUCATION REQUIREMENTS FOR APPOINTMENT TO CERTAIN SCIENTIFIC, TECHNICAL, AND PROFESSIONAL POSITIONS

PLANT QUARANTINE INSPECTOR

Paragraph (a) of § 24.89 is amended to read as follows:

§ 24.89 *Plant Quarantine Inspector, GS-436-5*—(a) *Educational requirement.* Applicants must have successfully completed (1) or (2) of the following:

(1) A full 4-year course in an accredited college or university, leading to a bachelor's degree in biological science, with 20 semester hours in one or in any combination of entomology, botany, or plant pathology, including mycology. (Biological courses which are useful in forming the educational foundation for a career as a Plant Quarantine Inspector, such as plant nematology, plant bacteriology, plant virology, horticulture, and acarology, regardless of the course title, may be accepted toward the required study in biological sciences, as well as courses under the names listed above.)

(2) Courses in biological science, in an accredited college or university, consisting of lectures, recitations, and laboratory work totaling at least 20 semester hours in any one or a combination of the subjects shown under subparagraph (1) of this paragraph; plus additional appropriate experience which, when combined with the above 20 semester hours, will total 4 years of education and experience and give the applicant a technical knowledge comparable to that which would have been acquired through successful completion of a 4-year college course.

(Sec. 11, 58 Stat. 390; 5 U. S. C. 860. Interprets or applies sec. 5, 58 Stat. 388; 5 U. S. C. 854)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] ROBERT RAMSPECK,
Chairman.

Chapter III—Foreign and Territorial Compensation

Subchapter B—The Secretary of State

[Dept. Reg. 108.155]

PART 325—ADDITIONAL COMPENSATION IN FOREIGN AREAS

DESIGNATION OF DIFFERENTIAL POSTS

JUNE 25, 1952.

Section 325.11, *Designation of differential posts,* is amended as follows, effective on the dates indicated:

1. Effective as of the beginning of the first pay period following July 5, 1952, paragraph (a) is amended by the deletion of the following post:

Paramaribo, Surinam.

2. Effective as of the beginning of the first pay period following July 5, 1952, paragraph (d) is amended by the deletion of the following posts:

Naval Station, Trinidad, B. W. I.
Port-of-Spain, Trinidad, B. W. I.
Reykjavik, Iceland.

3. Effective as of the beginning of the first pay period following July 5, 1952, paragraph (b) is amended by the addition of the following posts:

Bogor, Indonesia.
Djogjakarta, Indonesia.
Paramaribo, Surinam.

4. Effective as of the beginning of the first pay period following July 5, 1952, paragraph (d) is amended by the addition of the following post:

Maddalena, Libya.

For the Secretary of State.

W. K. SCOTT,
Deputy Assistant Secretary.

Approved:

LIONEL C. HOLM,
Acting President,
Commodity Credit Corporation.

[F. R. Doc. 52-7570; Filed, July 9, 1952; 8:59 a. m.]

[1] The advance rates quoted above are applicable to tied flue-cured tobacco. Rates for untied flue-cured tobacco are five dollars ($5.00) per hundred pounds less for each grade. The Cooperative Association through which the loans are made is authorized to deduct 12 cents per hundred pounds to apply against the overhead costs to the Association of the loan operation. Tobacco can be placed under loan only by the original producer and only if produced on a cooperating farm. Tobacco graded "W" (unsafe order), "U" (unsound), N2L, N2R, N2GL, N2GR, "Decayed", "Botched", "Nested", or "Off-type" will not be accepted under the regular loan program.

Special loans. Tobacco graded second quality nondescript will have a loan value of $15.00 per hundred pounds; all other nondescript grades and grades qualified by unrestricted special factors will have a loan value of $30.00 per hundred pounds.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 3944]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

HAMILTON MANUFACTURING CO.

Subpart—*Using or selling lottery devices:* § 3.2475 *Devices for lottery selling.* Selling or distributing in commerce, push cards, punchboards, or other lottery devices, designed or intended to be used in the sale or distribution of merchandise to the public by means of a game of chance, gift enterprise or lottery scheme; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Modified cease and desist order, Hamilton Manufacturing Company, Minneapolis, Minn., Docket 3944, April 9, 1952]

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the respondent's substitute answer thereto, in which answer said respondent admitted, with certain exceptions, all of the allegations of fact set forth in the complaint, and briefs and oral argument of counsel, and the Commission having made its findings as to the facts and its conclusion that the respondent has violated the provisions of the Federal Trade Commission Act, on September 7, 1950, issued its order to cease and desist; and

Respondent Hamilton Manufacturing Company, having filed in the United States Court of Appeals for the District of Columbia Circuit its petition to review and set aside the order to cease and desist issued herein, and that Court having heard the matter on briefs and oral argument, having fully considered the matter, and having, thereafter on February 27, 1952, entered its final decree modifying, and affirming and enforcing, as modified, the aforesaid order to cease and desist pursuant to its opinion announced on January 24, 1952; and

Thereafter, the Commission having reconsidered the matter, and being of the opinion that its order should be modified so as to accord with the aforesaid opinion and final decree of the United States Court of Appeals for the District of Columbia Circuit;

It is hereby ordered, That the respondent, Hamilton Manufacturing Company, and said respondent's officers, agents, representatives, and employees, directly or through any corporate or other device, do forthwith cease and desist from:

Selling or distributing in commerce, as "commerce" is defined in the Federal Trade Commission Act, push cards, punch boards or other lottery devices which are designed or intended to be used in the sale or distribution of merchandise to the public by means of a game of chance, gift enterprise or lottery scheme.

It is further ordered, That within the period of time allowed by the aforesaid final decree of the United States Court of Appeals for the District of Columbia Circuit, the respondent shall file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

Issued: April 9, 1952.

By the Commission.

[SEAL] D. C. DANIEL, *Secretary.*

[Docket 4827]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

AMERICAN TOBACCO CO.

Subpart—*Advertising falsely or misleadingly:* § 3.20 *Comparative data or merits;* § 3.25 *Competitors and their products;* § 3.30 *Composition of goods;* § 3.170 *Qualities or properties of product or service;* § 3.195 *Safety;* § 3.205 *Scientific or other relevant facts;* § 3.250 *Success, use or standing.* Subpart—*Disparaging competitors and their products—Competitor's products:* § 3.965 *Composition;* § 3.1010 *Qualities or properties;* § 3.1025 *Safety;* § 3.1033 *Success, use or standing.* In connection with the offering for sale, sale, and distribution in commerce, of respondent's Lucky Strike brand of cigarettes, representing, by any means, directly or by implication, (1) that among independent tobacco experts, Lucky Strike cigarettes have twice as many smokers as all other brands of cigarettes combined; or that any greater proportion or number of independent tobacco experts or of any other group or class of people smoke Lucky Strike cigarettes than is the fact; (2) that independent tobacco experts who smoke Lucky Strike cigarettes do so because of their knowledge of the grades or quality of the tobacco purchased by the respondent for use in the manufacture of Lucky Strike cigarettes; (3) that Lucky Strike cigarettes or the smoke therefrom contains less acid than do the cigarettes or the smoke therefrom of any of the other leading brands of cigarettes; (4) that Lucky Strike cigarettes or the smoke therefrom is less irritating to the throat than the cigarettes or the smoke therefrom of any of the other leading brands of cigarettes; (5) that Lucky Strike cigarettes or the smoke therefrom is easy on one's throat or will provide any protection against throat irritation or coughing; or, (6) that Lucky Strike cigarettes or the smoke therefrom contains less nicotine than do the cigarettes or the smoke therefrom of any of the four other leading brands of cigarettes; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Modified cease and desist order, American Tobacco Company, New York, N. Y., Docket 4827, April 9, 1952]

This proceeding having been heard by the Federal Trade Commission upon the amended complaint of the Commission, the respondent's answer thereto, testimony and other evidence in support of and in opposition to the allegations of said amended complaint, the Trial Examiner's recommended decision and exceptions thereto, and briefs and oral argument of counsel; and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act, and having issued an order to cease and desist; and

The American Tobacco Company, a corporation, the respondent, having filed in the United States Court of Appeals for the Seventh Circuit its petition to review and set aside the order to cease and desist issued herein; and thereafter counsel for respondent and the Commission having entered into a stipulation filed in said Court on March 10, 1952, providing that said petition to review shall be dismissed without hearing on the merits; that upon said dismissal the Commission shall modify said order to cease and desist by eliminating therefrom the words "and its officers, representatives, agents and employees" after the words *"It is ordered,* That the respondent, The American Tobacco Company, a corporation"; and that said voluntary dismissal of said petition to review shall be without prejudice to any subsequent application by respondent to the Commission for any modification of any other provisions of said order to cease and desist and shall not be construed by the Commission to limit its power to make any such modification pursuant to section 5 of the Federal Trade Commission Act and Rule XXVII of the Commission's rules of practice; and the Court having on March 11, 1952, entered an order dismissing the petition to review, without hearing upon the merits, in accordance with the terms of the stipulation of counsel; and

Thereafter, the Commission having reconsidered the matter, and being of the opinion that its order should be modified so as to accord with the aforesaid stipulation of counsel and order of the United States Court of Appeals for the Seventh Circuit;

It is ordered, That the respondent, The American Tobacco Company, a corporation, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of its Lucky Strike brand of cigarettes, do forthwith cease and desist from representing, by any means, directly or by implications:

(1) That among independent tobacco experts, Lucky Strike cigarettes have twice as many smokers as all other brands of cigarettes combined; or that any greater proportion or number of independent tobacco experts or of any other group or class of people smoke Lucky Strike cigarettes than is the fact.

(2) That independent tobacco experts who smoke Lucky Strike cigarettes do so because of their knowledge of the grades or quality of the tobacco purchased by the respondent for use in the manufacture of Lucky Strike Cigarettes.

(3) That Lucky Strike cigarettes or the smoke therefrom contains less acid than do the cigarettes or the smoke therefrom of any of the other leading brands of cigarettes.

(4) That Lucky Strike cigarettes or the smoke therefrom is less irritating to the throat than the cigarettes or the smoke therefrom of any of the other leading brands of cigarettes.

(5) That Lucky Strike cigarettes or the smoke therefrom is easy on one's throat or will provide any protection against throat irritation or coughing.

(6) That Lucky Strike cigarettes or the smoke therefrom contains less nicotine than do the cigarettes or the smoke therefrom of any of the four other leading brands of cigarettes.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this modified order, file with the Commission a report, in writing, showing in detail the manner and form in which it has complied with this order.

Issued: April 9, 1952.

By the Commission.

[SEAL] D. C. DANIEL, *Secretary.*

[F. R. Doc. 52-7568; Filed, July 9, 1952; 8:58 a. m.]

TITLE 22—FOREIGN RELATIONS

Chapter II—Mutual Security Agency

[MSA Reg. 4]

PART 204—GUARANTIES UNDER THE ECONOMIC COOPERATION ACT OF 1948, AS AMENDED

Preamble. In furtherance of the purposes of the Mutual Security Act of 1951, as amended, in order to facilitate and maximize the use of private channels of trade, and pursuant to authority contained in sections 104 (f) and 111 (a) and (b) of the Economic Cooperation Act of 1948, as amended, supplemented and continued (hereinafter called the "act"), the following rules and regulations are prescribed for the making of guaranties of investments pursuant to section 111 (b) (3) of the act, other than guaranties of investments in enterprises producing or distributing informational media (hereinafter called "MSA guaranties").

Sec.
204.1 Scope of this part.
204.2 Application for guaranties and place of filing.
204.3 Designation of Export-Import Bank of Washington as agent.
204.4 Effect of making investment prior to issuance of guaranty.
204.5 Saving clause.

AUTHORITY: §§ 204.1 to 204.5 issued under sec. 104, 62 Stat. 138, as amended, Pub. Law 165, 82d Cong.; 22 U. S. C. Sup. 1503. Interpret or apply sec. 111, 62 Stat. 143, as amended; Pub. Law 165, 82d Cong.; 22 U. S. C. Sup. 1509.

§ 204.1 *Scope of this part.* This part shall cover MSA guaranties.

§ 204.2 *Applications for guaranties and place of filing.* Applications for MSA guaranties should be made in writing to the Industrial Guaranties Branch, Mutual Security Agency, Washington 25, D. C. There is no prescribed form of application, but published information on current policies of the guaranty program, including the contents of applications, may be obtained on request from the Mutual Security Agency. Each applicant will be notified in writing when his application has been found to be complete and is accepted for processing.

§ 204.3 *Designation of Export-Import Bank of Washington as agent.* Export-Import Bank of Washington is hereby designated by the Director as his agent, upon such terms as may be specified by the Director, to issue in its name, and to administer, MSA guaranties.

§ 204.4 *Effect of making investment prior to issuance of guaranty.* The purpose of the guaranty provisions of the act is to stimulate private investment from the United States which contributes to the objectives of the Mutual Security Program. Ordinarily this purpose is not served by issuing a guaranty on an investment which has already been made. Accordingly, the making of an investment by an applicant prior to the issuance of a guaranty covering such investment shall be grounds on which the application may be denied. However, after an application has been filed and accepted as complete, the investor may obtain a statement in writing from the Mutual Security Agency which will permit him to proceed with the investment without prejudice to the application on the above grounds.

§ 204.5 *Saving clause.* The Director for Mutual Security may waive, withdraw, or amend at any time or from time to time any or all of the provisions of this part.

W. JOHN KENNEY,
Deputy Director for Mutual Security.

[F. R. Doc. 52-7522; Filed, July 9, 1952; 8:49 a. m.]

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes

[T. D. 5918; Regs. 111]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

ELECTION AS TO RECOGNITION OF GAIN IN CERTAIN CORPORATE LIQUIDATIONS

In order to conform Regulations 111 (26 CFR Part 29) to the provisions of section 316 of the Revenue Act of 1951, approved October 20, 1951, relating to election as to recognition of gain in certain corporate liquidations, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 29.112 (b) (7)–1 the following:

SEC. 316. ELECTION AS TO RECOGNITION OF GAIN IN CERTAIN CORPORATE LIQUIDATIONS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Amendment of section 112* (b) (7). Section 112 (b) (7) (relating to recognition of gain in certain corporate liquidations) is hereby amended by striking out in subparagraph (A) (ii) "1951" and by inserting in lieu thereof "1951 or 1952".

* * * * *

(c) *Effective date.* The amendments made by this section shall be applicable only to taxable years ending after December 31, 1951.

PAR. 2. Section 29.112 (b) (7)–1, as amended by Treasury Decision 5856, approved September 14, 1951, is further amended as follows:

(A) By striking from the heading and from the section "in 1944 or 1951", wherever "in 1944 or 1951" appears therein, and by inserting in lieu thereof the following: "in 1944, 1951, or 1952".

(B) By inserting in the first and third sentences of paragraph (b) immediately after "in 1951", wherever "in 1951" appears therein, the following: "or 1952".

PAR. 3. Section 29.112 (b) (7)–2, as amended by Treasury Decision 5856, is further amended by inserting in the second parenthetical clause in the first sentence immediately after "in 1951", the following: "or 1952".

PAR. 4. Section 29.112 (b) (7)–4, as amended by Treasury Decision 5856, is further amended as follows:

(A) By inserting in the second parenthetical clause in the first sentence of paragraph (b) (2) immediately after "in 1951" the following: "or 1952".

(B) By striking from the second sentence of paragraph (b) (2) the date "August 15, 1951" and by inserting in lieu thereof the following: "August 15, 1950".

PAR. 5. Section 29.112 (b) (7)–5, as amended by Treasury Decision 5856, is further amended by inserting immediately after "in 1951", where it appears in paragraph (b) of such section, the following: "or 1952".

PAR. 6. There is inserted immediately preceding § 29.113 (a) (18)–1, the following:

SEC. 316. ELECTION AS TO RECOGNITION OF GAIN IN CERTAIN CORPORATE LIQUIDATIONS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * *

(b) *Basis of property.* Section 113 (a) (18) (relating to basis of property received in certain corporate liquidations) is amended by striking out "the Revenue Act of 1950" and by inserting in lieu thereof "any revenue act".

(c) *Effective date.* The amendments made by this section shall be applicable only to taxable years ending after December 31, 1951.

PAR. 7. Section 29.113 (a) (18)–1, as amended by Treasury Decision 5856, is further amended by inserting in paragraph (a) (2) (iii) immediately after "calendar year 1951", the following: "or 1952".

PAR. 8. Section 29.148–2, as amended by Treasury Decision 5856, is further amended as follows:

(A) By striking in the heading of paragraph (b) (2) and in the first sentence of such paragraph "1944 or 1951", wherever "1944 or 1951" appears therein, and by inserting in lieu thereof the following: "1944, 1951, or 1952".

(B) By inserting in the second parenthetical clause in paragraph (b) (2) (iii) immediately after "in 1951", the following: "or 1952".

PAR. 9. Section 29.148–3, as amended by Treasury Decision 5859, approved September 20, 1951, is further amended by striking from the second sentence of

paragraph (b) "1944 or 1951" and by inserting in lieu thereof the following: "1944, 1951, or 1952".

Inasmuch as this Treasury decision merely provides for the extension of the applicability of section 112 (b) (7) of the Internal Revenue Code to liquidations occurring in 1952 and makes a technical correction, it is found that it is unnecessary to issue such Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of the said act.

(53 Stat. 32, 457; 26 U. S. C. 62, 3791)

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

Approved: July 7, 1952.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

[F. R. Doc. 52-7567; Filed, July 9, 1952; 8:58 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 7, Amdt. 21]

CPR 7—RETAIL CEILING PRICES FOR CERTAIN CONSUMER GOODS

FREE DELIVERY OF SMALL PARCELS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 21 to Ceiling Price Regulation 7 (16 F. R. 1897) is hereby issued.

STATEMENT OF CONSIDERATIONS

Ceiling Price Regulation 7 prohibits any act which directly or indirectly increases above the ceiling price the consideration paid for any article. Since the reduction or elimination of a service incidental to the sale of a commodity amounts to an indirect increase in price, diminutions in service are prohibited unless there is a commensurate reduction in the selling price of the commodity. This amendment relaxes that prohibition to the limited extent of permitting the retailer to make changes in his practice of delivering certain small parcels without extra charge. To compel retailers to reduce their prices commensurately with the reduction in such delivery services would be administratively impracticable since the amount of the price reduction would necessarily be minute. Moreover, the impact of this change upon the cost of living would be insignificant compared with the advantages afforded to retailers in enhancing their flexibility of management. Accordingly, by this action, retailers will be permitted to discontinue the practice of making free delivery of parcels provided that this change extends only to parcels which are sufficiently small or light in weight to be carried in hand from the store by purchasers.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISION

Section 55 of Ceiling Price Regulation 7 is amended to add an additional paragraph (g) thereto to read as follows:

(g) *Changing delivery practices.* It shall not be deemed a violation of this section for a retailer to discontinue a practice of delivering parcels which are sufficiently small and light in weight to be carried in hand from the store by the purchaser.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

This amendment to Ceiling Price Regulation 7 shall become effective July 14, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 9, 1952.

[F. R. Doc. 52-7640; Filed, July 9, 1952; 12:02 p. m.]

[Ceiling Price Regulation 7, Amdt. 22]

CPR 7—RETAIL CEILING PRICES FOR CERTAIN CONSUMER GOODS

MISCELLANEOUS AMENDMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 22 to Ceiling Price Regulation 7 is hereby issued.

STATEMENT OF CONSIDERATIONS

The accompanying amendment to Ceiling Price Regulation 7 makes several minor modifications in the provisions of the regulation relating to new sellers, provides an alternative method of chart preparation for sellers whose sales to their most numerous class of purchaser are accommodation sales and corrects certain clerical errors now appearing in the regulation.

Revisions in the new seller provisions have been made in footnote 13a to section 39, and in sections 39a, 39c, and 39d.

Footnote 13a affords sellers whose applications under section 39 made prior to December 31, 1951 had been denied "in whole or in part" the right to reapply under the new seller provisions set forth in Amendment 12 to CPR 7, effective December 31, 1951. This footnote has been amended to make it clear that these provisions may be invoked not only by sellers whose applications have been denied in whole or in part but by all sellers who filed reports or applications under the original section 39.

Sections 39a and 39c have been amended to insure greater speed in the processing of applications made under these sections. Sellers will henceforth be permitted to establish their ceiling prices under these sections upon receipt of OPS acknowledgment of their filed notifications. Heretofore, sellers were required to secure orders before proceeding.

Section 39d has been amended in two respects. The first extends eligibility to apply for markups on the basis of the past experience of managers of individually owned establishments and managers of businesses owned by partnerships. Heretofore, the past experience of managers had been limited to corporate managing officers. The second amendment to this section removes the present limitation on past experience which denies markups in excess of Appendix E if an applicant has operated at or below the prices permitted by Appendix E since the list date.

In view of the corrective and clarifying nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

Ceiling Price Regulation 7 is amended as follows:

1. Footnote 8 to section 17 of Ceiling Price Regulation 7 is amended to read as follows:

⁸ This will be the class containing the greatest number of purchasers. However, if your most numerous class of purchaser is one to whom accommodation sales are made, you may prepare your chart based on your offering prices to the most numerous class other than accommodation purchasers, but you must state in a footnote any differentials you have for your accommodation sales. If you have more than one class of purchaser, use a footnote to show the class of purchaser used in preparing your chart. Section 30 provides that other classes of purchasers must get their customary differentials.

2. The example to section 38b (b) (2) is amended by deleting the figure "$733.00" and substituting therefor the figure "$733.50."

3. Footnote 13a to section 39 which reads as follows:

13a. Any seller to whom an order was issued under section 39 prior to December 31, 1951 denying his application in whole of in part, shall be afforded an opportunity to reapply in accordance with sections 39a through 39d, is redesignated footnote "13b" and is amended to read as follows:

13b. Any seller who prior to December 31, 1951 filed a report or application pursuant to section 39 may apply or report in accordance with sections 39a through 39d inclusive and must add to any report or application otherwise required by these sections a notation that it intends its prior application, report or order to be superseded under whichever one of these sections it applies or reports.

4. Section 39a is amended by substituting for the word "approval" in the first paragraph the word "acknowledgment."

5. Section 39a (b) is amended by substituting for the word "approve" in the first sentence the word "acknowledge" and by substituting for the word "approval" in the second sentence the word "acknowledgment."

6. Section 39c is amended by substituting for the word "approval" in the first paragraph the word "acknowledgment."

7. Section 39c (b) is amended by substituting for the word "approval" the word "acknowledgment."

8. Section 39d (a) (3) is amended to read as follows:

(3) You (if you are an individually owned establishment) or any of the principal stockholders or partners actually engaged in the business or the manager of the business had previous merchandising experience as owner, officer, principal, or employee in an executive or managerial capacity in a business handling articles covered by CPR 7 at prices higher than those yielded by Appendix E markups (or if handling related articles not covered by CPR 7, at prices which for such articles are higher than average). For the purpose of this sub-paragraph, experience for more than a year as a route salesman or door-to-door salesman shall be considered the equivalent of managerial experience in processing applications to establish markups for that type of seller.

9. In section 39e (b) following the word "applicable" in the first sentence add the words "with your OPS office."

10. Footnote 16 to section 53 (a) (2) (i) is amended by substituting for the word "local" the word "district."

11. Footnote 17 to section 53 (b) (2) (i) is amended by substituting for the word "local" the word "district."

12. In section 59 the definition of "Director of Price Stabilization" is amended by substituting for the word "local" the word "district."

13. In Appendix B, Category 803—"Soft Surface Smaller Rugs," delete the words "or larger."

14. Appendix C is amended as follows:

a. In the column headed "Category you are pricing," insert "210'" between the figures "209" and "211."

b. In the column headed "Category you are pricing," between the figures "607" and "701," insert in vertical succession the following: "610'", "615'" and "620'."

c. Opposite "713" in the column headed "Category you are pricing," delete "707" from the column headed "Second" and substitute therefor "715." Delete "715" from the column headed "Third" and substitute therefor "709" and delete "709" from the column headed "Fourth."

d. Opposite "720" in the column headed "Category you are pricing," delete "707" from the column headed "Second" and substitute therefor "704" and delete "704" from the column headed "Third."

e. In the column headed "Category you are pricing," delete "1003" and all comparable categories appearing opposite that figure.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective July 14, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 9, 1952.

[F. R. Doc. 52-7641; Filed, July 9, 1952; 12:02 p. m.]

[Ceiling Price Regulation 11, Amdt. 7]

CPR 11—RESTAURANTS

CURRENT FOOD COST PER DOLLAR OF SALES

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), as amended by Public Law 96 (82nd Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 7 to Ceiling Price Regulation 11 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment relaxes the requirement of CPR 11 that the current food cost per dollar of sales must coincide exactly with that for the base period. The amount by which the current food cost ratio will now be allowed to fall below the base period ratio is five percent.

Under the provisions of Section 3 of CPR 11, prior to this amendment, operators were required to use as their ceiling prices those prices which reflected a current food cost per dollar of sales no lower than their base period food cost per dollar of sales. Each operator was required to be in compliance with this standard at the end of each four month period.

Although maintenance of the food cost per dollar of sales does not impose unreasonable burdens on the majority of eating and drinking establishments subject to CPR 11, it has been found that even the most efficient operator may at times be faced with unforeseen developments, particularly near the end of his compliance period, which will cause his current food cost ratio to be lower than permitted by the regulation. Frequently, the extent of non-compliance may be rather slight. In recognition of this possibility and of the serious consequences which may ensue from it for operators having no intent to violate, this amendment establishes a margin of flexibility by providing that the operator will not be in violation even if his current ratio is reduced as long as the reduction does not go beyond the prescribed limit.

Specifically, section 3 (a) of this regulation is being amended to permit operators subject to this regulation a five percent leeway between their current and their base period food cost per dollar of sales.

In the formulation of this amendment, there has been consultation to the extent practicable with industry representatives, including trade association representatives and consideration has been given to their recommendations. In the judgment of the Director of Price Stabilization, the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended, and comply with all of the applicable standards of that act.

AMENDATORY PROVISIONS

Ceiling Price Regulation 11 is amended in the following respects:

1. Section 3 (a) is amended to read as follows:

(a) *Determination of ceiling prices.* Your ceiling prices for meals, food items and beverages are those prices which reflect a current food cost per dollar of sales no lower than your base period food cost per dollar of sales reduced by five percent (5 percent). (Food cost per dollar of sales is defined in section 14.) You must fix your prices so as to maintain during each four month period (or during each sixteen week period if it was your established practice during your base period to keep your records on the basis of a thirteen period year rather than a twelve month year) beginning April 1, 1951, a food cost per dollar of sales no lower than your base period food cost per dollar of sales reduced by five percent (5 percent).

EXAMPLE: If your base period food cost per dollar of sales was 40 percent, you must now make sure that your food cost per dollar of sales for each four months period is no lower than 38 percent ($0.40 \times 0.05 = 0.02$; $40 - 2 = 38$ percent).

In computing your current food cost per dollar of sales you must use the same methods as those used in your base period. In computing your current food cost per dollar of sales you must treat taxes in the same way as in the base period. You may not add any item of expense in your food cost that you did not include in your base period. However, if it was your custom in the base period to include in your food cost some nominal non-food items such as ice, straws, and napkins you may continue to do so. If you kept separate records showing the cost and gross sales of alcoholic beverages in your base period your ceiling prices for alcoholic beverages must be fixed in accordance with paragraph (b) of this section.

2. Section 14 is amended by adding a new paragraph (e) to read as follows:

(e) "Food cost per dollar of sales" means the ratio between the total cost of food and the total sales. Food includes beverages, both alcoholic and non-alcoholic, unless you kept separate records showing the cost and gross sales of alcoholic beverages in your base period.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 7 to Ceiling Price Regulation 11 is effective July 14, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 9, 1952.

[F. R. Doc. 52-7643; Filed, July 9, 1952; 12:03 p. m.]

[Ceiling Price Regulation 7, Amdt. 12 to Supplementary Regulation 1]

CPR 7—RETAIL CEILING PRICE FOR CERTAIN CONSUMER GOODS

SR 1—SPECIAL PRICING METHODS FOR CERTAIN CHAIN STORES, MAIL ORDER ESTABLISHMENTS AND DEPARTMENTALIZED ESTABLISHMENTS, CONSIGNORS AND CONSIGNEE OUTLETS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No.

2 (16 F. R. 738), this Amendment 12 to Supplementary Regulation 1 to Ceiling Price Regulation 7 is hereby issued.

STATEMENT OF CONSIDERATIONS

Footnote 1 to section 8 of Supplementary Regulation 1 to Ceiling Price Regulation 7 states that any department in a departmentalized establishment to which an order was issued under Ceiling Price Regulation 7 prior to 1952, denying its application "in whole or in part" may apply the pricing rules set forth in section 8. This footnote has been amended to make it clear that the provisions of section 8 may be invoked not only by departments whose applications have been denied in whole or in part but by all departments who may elect to discontinue pricing pursuant to the rules of section 39 of CPR 7.

In view of the clarifying nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISION

Supplementary Regulation 1 to Ceiling Price Regulation 7 is amended as follows:

1. Substitute the following footnote in lieu of footnote 1 to section 8 of Supplementary Regulation 1 to Ceiling Price Regulation 7 now appearing:

[1] Any departmentalized establishment which determined ceiling prices for any category in a department pursuant to section 39 of Ceiling Price Regulation 7 prior to December 31, 1951, or under sections 39a through 39d inclusive of Ceiling Price Regulation 7 prior to February 12, 1952 may continue to do so or, if it so elects, may apply the rules set forth in this section and must add to any report otherwise required by this section a notation that the method being used pursuant to this section is being used in lieu of its prior order or report and must identify the order or report being superseded.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

This amendment to Supplementary Regulation 1 to Ceiling Price Regulation 7 shall become effective July 14, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 9, 1952.

[F. R. Doc. 52-7642; Filed, July 9, 1952; 12:03 p. m.]

[Ceiling Price Regulation 67, Amdt. 9]

CPR 67—RESELLERS' CEILING PRICES FOR MACHINERY AND RELATED MANUFACTURED GOODS

REFRACTORY PRODUCTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment to Ceiling Price Regulation 67 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment places refractory products under the coverage of the regulation. On February 7, 1952 the Office of Price Stabilization issued Ceiling Price Regulation 125—(Manufacturers of Refractory Products) and it is considered appropriate to include all such products in CPR 67 because the pricing practices of resellers of refractory products are similar to those of resellers of the products already covered by the regulation. Because of the similarity of these pricing practices, the Statement of Considerations involved in the issuance of the regulation is equally applicable to this amendment.

In formulating this amendment, the Director consulted with industry representatives, including trade association representatives, to the extent practicable and has given full consideration to their recommendations.

AMENDATORY PROVISIONS

Ceiling Price Regulation 67 is amended by adding the following item to Appendix A:

Refractory products. (This term includes fire clay brick, Silica brick, insulating firebrick, ladle brick, hot top brick, sleeves, nozzles and runners, high alumina brick, basic brick, special refractory brick made from silicon-carbide, kyanite, alumina, zircon, spinel, olivine ormullite, and specialties such as mortars, plastic refractories and castables. It does not include graphite crucibles and accessory or related products of which natural graphite represents 15 percent or more of the total weight.)

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment to Ceiling Price Regulation 67 shall become effective July 14, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 18—INDUSTRIAL, SCIENTIFIC AND MEDICAL SERVICES

EXISTING EQUIPMENT

In the matter of amendment of Part 18 of the Commission's rules and regulations.

The Commission has received various petitions and requests proposing that the effective date of Part 18 of the Commission's rules and regulations, insofar as it applies to industrial heating equipment manufactured prior to July 1, 1947, be suspended for a period of one year.

These petitions and requests allege that the necessary materials, equipment and qualified engineers are not immediately available to effect the necessary compliance with the rules within the rules within the period of time presently allocated.

The petitions and requests further state that the work necessary to effect compliance with the rules is being carried forward as rapidly as materials and man-power permit. Under the present conditions the petitions state that it is expected that a maximum period of one year will be required to permit general compliance with the certification requirement of the rules.

Upon consideration of the petitions and requests it appears that an extension of the effective date of Part 18 as applicable to industrial heating equipment manufactured prior to July 1, 1947, be warranted. However, it also appears that the inability to comply with the rules is, in some measure, the result of a lack of diligence over a period of time to take the necessary steps to effect compliance. In view of this fact, the Commission wishes to advise all interested parties that if further requests for extension are sought, it will give consideration to such requests on an individual basis, taking into consideration the efforts made by the user to achieve compliance.

Therefore, the Commission further advises all interested parties to effectuate certification at the earliest practicable date. In the event interference is caused to any authorized radio service, the operator of the equipment concerned shall take the steps necessary to certify the equipment at the time the interference is eliminated as required by § 18.51 of the rules, or within such period thereafter as the Commission may prescribe.

Because of the imminent effective date of Part 18 for industrial heating equipment manufactured prior to July 1, 1947, it is impractical to give notice and invoke the procedure set forth in section 4 of the Administrative Procedure Act.

Accordingly, it is ordered, This 25th day of June 1952, that pursuant to the authority contained in sections 4 (i), 301 and 303 (r) of the Communications Act of 1934, as amended, § 18.51 of the Commission's rules and regulations, as amended by the report and order in Docket No. 10192, is further amended to read as follows:

§ 18.51 *Existing equipment.* The provisions of this part shall not be applicable until June 30, 1953 to diathermy equipment and industrial heating equipment, the manufacture and assembly of which was completed prior to July 1, 1947, nor shall they be applicable until April 30, 1953 to miscellaneous equipment, the manufacture and assembly of which was completed prior to April 30, 1948: *Provided,* That the foregoing provisions of this section shall be applicable only if such steps as may be necessary are promptly taken to eliminate interference to authorized radio services resulting from the operation of equipment manufactured prior to the respective dates set forth in this section. In the case of industrial heating equipment the operator of the equipment concerned

ADDED BY OCR

shall take the steps necessary to certify the equipment at the time the interference is eliminated as required by this section, or within such period thereafter as the Commission may prescribe.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 48 Stat. 1081, 1082; 47 U. S. C. 301, 303)

Released: June 26, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 52-7470; Filed, July 8, 1952; 8:49 a. m.]

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle

PART 193—PARTS AND ACCESSORIES NECESSARY FOR SAFE OPERATION

BUSSES, AISLE SEATS PROHIBITED; 5-DAY SUSPENSION

Qualifications and maximum hours of service of employees of motor carriers and safety of operation and equipment (Ex Parte No. MC-40).

Upon consideration of a petition of National Association of Motor Bus Operators for a 5-day suspension of § 193.91 of the order heretofore approved April 14, 1952 (17 F. R. 4445), prohibiting the use of aisle seats in busses unless such seats are so designed and installed as to automatically fold and leave a clear aisle when they are unoccupied;

It appearing, that the materials necessary for the construction of the type of folding aisle seats required by the section have not been available and are not now available, and that as a result the carriers which have been unable to obtain equipment of the prescribed type during the present heavy volume of holiday traffic will be forced to choose between requiring passengers to stand, in many cases for periods of several hours, or refusing their transportation, either of which alternative would result in a disservice to the traveling public;

It is ordered, That § 193.91 be, and it is hereby, suspended for the period July 3, 1952, to July 8, 1952, inclusive.

Dated at Washington, D. C., this 3d day of July A. D. 1952.

By the Commission.

[SEAL] W. P. BARTEL,
Secretary.

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

COMPUTATION OF NET INCOME; INVENTORIES UNDER ELECTIVE METHOD

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62 and 3791 of the Internal Revenue Code (53 Stat. 32, 467; 26 U. S. C. 62, 3791).

[SEAL] JUSTIN F. WINKLE,
Acting Commissioner of Internal Revenue.

Section 29.22 (d)-1 of Regulations 111, as amended by Treasury Decision 5756, approved November 2, 1949, is further amended by striking the word "If" at the beginning of paragraph (b) of such section and by inserting in lieu thereof the words "For taxable years beginning before January 1, 1952, if".

[F. R. Doc. 52-7564; Filed, July 9, 1952; 8:57 a. m.]

[26 CFR Part 29]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

DEDUCTION OF STATE GASOLINE TAXES

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any date, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62 and 3791 of the Internal Revenue Code (53 Stat. 32, 467; 26 U. S. C. 62, 3791).

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

In order to conform Regulations 111 (26 CFR Part 29) to the provisions of the act of May 12, 1951 (Public Law 29, 82d Congress), allowing the consumer of gasoline to deduct, for income tax purposes, State taxes on gasoline imposed on the wholesaler and passed on to the consumer, such regulations are hereby amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 29.23 (c)-1 the following:

PUBLIC LAW 29, 82D CONGRESS, APPROVED MAY 12, 1951

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 23 (c) (3) of the Internal Revenue Code (relating to deduction of retail sales taxes) is hereby amended to read as follows:

(3) *Gasoline and retail sales taxes.* In the case of a tax imposed by any State, Territory, District, or possession of the United States, or any political subdivision thereof, upon persons engaged in selling tangible personal property at retail, or upon persons selling gasoline or other motor vehicle fuels either at wholesale or retail, which is measured by the gross sales price or the gross receipts from the sale or which is a stated sum per unit of such property sold, or upon persons engaged in furnishing services at retail, which is measured by the gross receipts for furnishing such services, if the amount of such tax is separately stated, then to the extent that the amount so stated is paid by the consumer (otherwise than in connection with the consumer's trade or business) to his vendor such amount shall be allowed as a deduction in computing the net income of such consumer as if such amount constituted a tax imposed upon and paid by such consumer.

SEC. 2. The amendment made by this act shall apply to taxable years beginning after December 31, 1950.

PAR. 2. Section 29.23 (c)-1, as amended by Treasury Decision 5458, approved June 15, 1945, is further amended as follows:

(A) By revising the heading and subparagraph (1) of paragraph (b) thereof to read as follows:

(b) *State and local sales and gasoline taxes.* (1) Amounts representing sales or gasoline taxes paid by a consumer of services or tangible personal property are deductible by such consumer as taxes, provided they are not paid in connection with his trade or business. The fact that, under the law imposing it, the incidence of the sales or gasoline tax does not fall on the consumer is immaterial. The requirement of section 23 (c) (3) that the amount of the tax must be separately stated will be deemed complied with where it clearly appears that, at the time of sale to the consumer, the tax was added to the sales price and collected or charged as a separate item. It is not necessary, for the purposes of this section, that the consumer be furnished with a sales slip, bill, invoice, or other statement on which the tax is separately stated. Where the law imposing the sales or gasoline tax for which the taxpayer seeks a deduction contains a prohibition against the seller absorbing the tax, or a provision requiring a posted notice stating that the tax will be added to the quoted price, or a requirement that the tax be separately shown in advertisements or separately stated on all bills and invoices, it is presumed that the amount of the sales or gasoline tax was separately stated at the time paid by the consumer; except that such presumption shall have no application to a gasoline tax imposed upon a wholesaler unless such provisions of law apply with respect to both the sale at wholesale and the sale at retail.

(B) By adding at the end of paragraph (b) thereof the following new subparagraphs (3) and (4):

(3) For taxable years beginning after December 31, 1950, the term "gasoline tax" means, for purpose of this section, a tax imposed by such authorities upon persons selling gasoline or other motor vehicle fuels either at wholesale or retail, which is measured by the gross sales price or the gross receipts from the sale, or which is a stated sum per unit of the gasoline or fuel sold; but such term does not exclude from the definition of "sales tax", for taxable years beginning before January 1, 1951, a tax imposed by such authorities upon persons selling such products at retail.

(4) In general, the term "consumer" means the ultimate user, consumer, or purchaser; it does not include a purchaser who acquires the property for resale, such as a retailer.

PAR. 3. The amendments hereby prescribed shall be applicable with respect to taxable years beginning after December 31, 1950.

[F. R. Doc. 52-7565; Filed, July 9, 1952; 8:57 a. m.]

[26 CFR Part 40]

EXCESS PROFITS TAX; TAXABLE YEARS ENDING AFTER JUNE 30, 1950

EFFECT ON EXCESS PROFITS CREDIT OF LOANS TO FOREIGN SUBSIDIARY CORPORATION

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62 and 3791 of the Internal Revenue Code (53 Stat. 32, 467; 26 U. S. C. 62, 3791).

[SEAL] JUSTIN F. WINKLE,
Acting Commissioner of Internal Revenue.

Regulations 130 (26 CFR Part 40) are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding the last sentence of § 40.435-6 (b) (5) the following: "The reduction under section 435 (f) (1) (B) is required whether or not such other member of the controlled group is subject to the excess profits tax, for example, in a case in which such other member is a foreign corporation not engaged in trade or business within the United States."

PAR. 2. There is inserted at the end of § 40.435-7 (c) (5) the following: "The adjustment under section 435 (g) (7) is required whether or not such other corporation is subject to the excess profits tax, for example, in a case in which such other corporation is a foreign corporation not engaged in trade or business within the United States."

PAR. 3. There is inserted immediately after the third sentence of § 40.442-3 (d) (1) the following: "The exclusion from total assets of loans to a member of a controlled group of corporations of which the taxpayer is a member is required whether or not such other member of the controlled group is subject to the excess profits tax, for example, in a case in which such other member is a foreign corporation not engaged in trade or business within the United States."

[F. R. Doc. 52-7566; Filed, July 9, 1952; 8:57 a. m.]

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 973]

[Docket No. AO-178-A3]

MILK IN MINNEAPOLIS-ST. PAUL, MINNESOTA, MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure governing the formulation of marketing agreements and orders, notice is hereby given of a public hearing to be held in Room 307, Federal Courts Building, 4th Street and Marquette Avenue, Minneapolis 2, Minnesota, beginning at 10 a. m., c. s. t., July 16, 1952, for the purpose of receiving evidence with respect to emergency and other economic conditions which relate to the proposed amendments hereinafter set forth or appropriate modifications thereof, to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Minneapolis-St. Paul, Minnesota, marketing area. These proposed amendments have not received the approval of the Secretary of Agriculture.

Amendments to the order, as amended, have been proposed by the Twin City Milk Producers Association as follows:

1. Amend § 973.50 (a) to read as follows:

(a) *For Class I milk.* The price shall be the basic price determined pursuant to § 973.51 for the preceding delivery period plus $0.60 during May and June; plus $1.10 during July, August, September, October and November; and plus $0.80 in all other delivery periods: *Provided*, That such Class I price differentials shall be increased or decreased by application of the supply-demand adjustment established under § 941.52 (a) of Order No. 41, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area for the same delivery period.

2. Amend § 973.50 (b) to read as follows:

(b) *For Class II milk.* The price shall be that determined by the market administrator as follows:

(1) Multiply by 4.24 the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter per pound at Chicago, as reported by the United States Department of Agriculture, during the delivery period: *Provided*, That if no price is reported for Grade AA (93-score) butter, the highest of the prices reported for Grade A (92-score) butter for that day shall be used in lieu of the price for Grade AA (93-score) butter;

(2) Multiplying by 8.2 the weighted average of carlot prices per pound for spray process nonfat dry milk solids for human consumption f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding delivery period through the 25th day of the current delivery period, by the United States Department of Agriculture; and

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph subtract 75.2 cents.

Copies of this notice of hearing may be obtained from D. F. Spencer, Market Administrator, 100 North 7th Street, Minneapolis 3, Minnesota, or from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: July 2, 1952, at Washington, D. C.

[SEAL] F. R. BURKE,
Acting Assistant Administrator.

INTERSTATE COMMERCE COMMISSION

[49 CFR Parts 71, 73, 77, 197]

[Docket Nos. 3366, Ex Parte MC-8, MC-13; Notice 7]

TRANSPORTATION OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

MISCELLANEOUS AMENDMENTS

JULY 7, 1952.

In the matter of regulations for transportation of explosives and other dangerous articles, Docket 3666; regulations governing the transportation of explosives and other dangerous articles by motor vehicle, Docket Ex Parte MC-13; need for establishing reasonable requirements to promote safety of

operation of motor vehicles used in transporting property by private carriers, Docket Ex Parte MC–3.

The Commission, Division 3, of its own motion, pursuant to section 233 of the Transportation of Explosives Act of March 4, 1921 (41 Stat. 1444), and Part II of the Interstate Commerce Act, on April 20, 1943 formulated and published two orders, one in Docket 3666 and the other in Ex Parte MC–13, 3666, and Ex Parte MC–3, amending its regulations governing the transportation of explosives and other dangerous articles by common and contract carriers engaged in interstate or foreign commerce by extending the application thereof (1) to the transportation of explosives and other dangerous articles in interstate or foreign commerce by private carriers, and (2) to the transportation of such articles in intrastate commerce by common, contract, or private carriers.

It appearing, that it is now desirable to vacate that portion of the orders of the Commission of April 20, 1943 (8 F. R. 6479) (8 F. R. 6481), as amended and extended by subsequent orders of June 14, 1943 (8 F. R. 8277), August 27, 1943 (8 F. R. 12143), December 31, 1943 (9 F. R. 540), June 24, 1944 (9 F. R. 7528), December 5, 1944 (9 F. R. 15006), December 30, 1944 (10 F. R. 120), October 8, 1945 (10 F. R. 12967), December 20, 1945 (11 F. R. 33), December 17, 1946 (11 F. R. 14729), May 6, 1947 (12 F. R. 3198), December 15, 1947 (12 F. R. 8868), December 28, 1948 (13 F. R. 9574), December 30, 1949 (15 F. R. 94), November 14, 1950 (15 F. R. 8120), and July 19, 1950 (15 F. R. 8261) (15 F. R. 8823), which made Parts 71–78 of the regulations governing the transportation of explosives and other dangerous articles applicable to every common, contract, and private carrier by motor vehicle engaged in intrastate commerce and also made Parts 190–196 of the Motor Carrier Safety Regulations, Revised, applicable to such carriers to the extent that the vehicles of such carriers were engaged in such transportation, with the exception that private carriers of property were not made subject to regulations governing the reporting of accidents.

Any party desiring to be heard upon any of the proposed amendments shall advise the Commission in writing within 20 days from the date of this notice; otherwise, the Commission may proceed to investigate and determine the matters involved, or may suspend action pending formal hearing in these dockets.

[SEAL] W. P. BARTEL,
Secretary.

PART 71—GENERAL INFORMATION AND REGULATIONS

1. Amend entire § 71.1 (15 F. R. 8261, Dec. 2, 1950) (49 CFR 71.1, 1950 Rev.) to read as follows:

§ 71.1 *Purpose and scope of the regulations in Parts 71–78 of this chapter.* (a) To promote the uniform enforcement of law and to minimize the dangers to life and property incident to the transportation of explosives and other dangerous articles by common, contract or private carriers engaged in interstate or foreign commerce, the regulations in Parts 71–78 of this chapter are prescribed to define these articles for transportation purposes, to state the precautions that must be observed by the shipper in preparing them for shipment and to state the precautions that must be observed by the carrier in handling them while in transit. It is the duty of each such carrier and each such shipper to make the prescribed regulations effective and to thoroughly instruct employees in relation thereto.

(b) Explosives and other dangerous articles, except such as may not be accepted and transported under Parts 71–78 of this chapter, may be offered to and transported by common, contract or private carriers engaged in interstate or foreign commerce provided the articles are in proper condition for transportation, are as defined, and are packed, marked, labeled, certified, and otherwise as provided for in Parts 71–78 of this chapter. Articles must be loaded, stayed, and handled in transit according to regulations applying to service or services used, and otherwise as provided for in Parts 71–78 of this chapter. Shipments that do not comply with Parts 71–78 of this chapter must not be offered for transportation nor be accepted for transportation or transported.

(c) Methods of manufacture, packing and storage, insofar as they affect safety in transportation, must be open to inspection by a duly authorized representative of the initial carrier or of the Bureau of Explosives.

(d) Regulations for equipment and operation of motor vehicles on the highways are published in separate issue of the Commission.

2. Add paragraph (b) to § 71.2 (15 F. R. 8261, Dec. 2, 1950) (49 CFR 71.2, 1950 Rev.) to read as follows:

§ 71.2 *Act of Congress.*

• • •

(b) The regulations in Parts 71–78 of this chapter are applicable to every common carrier subject to the regulatory provisions of section 835 of Public Law 772, 80th Congress (62 Stat. 738), to every contract carrier and private carrier by motor vehicle subject to the regulatory provisions of the Interstate Commerce Act with respect to transportation of explosives and other dangerous articles as defined in Parts 71–78 of this chapter, and to all shippers making shipments of explosives and other dangerous articles via any common, contract or private carrier engaged in interstate or foreign commerce by land or water.

3. Amend § 71.12 paragraph (a) (15 F. R. 8262, Dec. 2, 1950) (49 CFR 71.12, 1950 Rev.) to read as follows:

§ 71.12 *Export shipments by domestic carriers by rail and motor vehicles.* (a) Explosives and other dangerous articles authorized to be exported from the United States when packed, marked, labeled, and described, in accordance with rules and regulations in force at destination ports, must not be offered to any common, contract or private carrier by rail or motor vehicle for domestic transportation unless in full accordance with the regulations in Parts 71–78 of this chapter.

• • • • •

PART 73—SHIPPERS

1. Cancel first three paragraphs and Note 1 appearing under authority citation for Part 73 (15 F. R. 8275, Dec. 2, 1950) (15 F. R. 8824, Dec. 13, 1950) (49 CFR 73, 1950 Rev.)

2. Amend § 73.1 paragraph (a) (15 F. R. 8276, Dec. 2, 1950) (49 CFR 73.1, 1950 Rev.) to read as follows:

§ 73.1 *Purpose of the regulations in Parts 71–78 of this chapter.* (a) To promote the uniform enforcement of law and to minimize the dangers to life and property incident to the transportation of explosives and other dangerous articles by common, contract or private carriers engaged in interstate or foreign commerce, the regulations in Parts 71–78 of this chapter are prescribed to define these articles for transportation purposes, to state the precautions that must be observed by the shipper in preparing them for shipment by rail freight, rail express, rail baggage, highway, or by carrier by water. It is the duty of each such shipper to make the prescribed regulations effective and to thoroughly instruct employees in relation thereto.

• • • • •

PART 77—SHIPMENTS MADE BY WAY OF COMMON, CONTRACT OR PRIVATE CARRIERS BY PUBLIC HIGHWAY

1. Cancel first four paragraphs and Note 1 appearing under authority citation for Part 77 (15 F. R. 8361, Dec. 2, 1950) (15 F. R. 8824, Dec. 13, 1950) (49 CFR 77, 1950 Rev.)

SUBPART A—GENERAL INFORMATION AND REGULATIONS

2. Amend §§ 77.800 paragraph (a) (15 F. R. 8361, Dec. 2, 1950) (49 CFR 77.800, 1950 Rev.) to read as follows:

§ 77.800 *Purpose of regulations in Parts 71–78 of this chapter.* (a) To promote the uniform enforcement of law and to minimize the dangers to life and property incident to the transportation of explosives and other dangerous articles, by common, contract, and private carriers, by motor vehicle engaged in interstate or foreign commerce, the regulations in Parts 71–78 of this chapter are prescribed to define these articles for motor vehicle transportation purposes, and to state the precautions that must be observed by the carrier in handling them while in transit. It is the duty of each such carrier to make the prescribed regulations effective and to thoroughly instruct employees in relation thereto.

3. Amend § 77.801 paragraph (a) (15 F. R. 8361, Dec. 2, 1950) (49 CFR 77.801, 1950 Rev.) to read as follows:

§ 77.801 *Scope of regulations in Parts 71–78 of this chapter.* (a) Explosives and other dangerous articles, except such as may not be accepted and transported under Parts 71–78 of this chapter, may be accepted and transported by common, contract, and private carriers by motor vehicle engaged in interstate or foreign commerce, provided they are in proper condition for transportation and are certified as being in compliance with Parts 71–78 of this chapter, and provided the method of manufacture, packing, and storage, so far as they affect safety in transportation, are open to inspection by a duly authorized representative of the initial carrier or of the Bureau of Explosives.

4. Amend § 77.802 paragraph (a) (15 F. R. 8361, Dec. 2, 1950) (49 CFR 77.802, 1950 Rev.) to read as follows:

§ 77.802 *Application of regulations in Parts 71–78 of this chapter.* (a) The regulations in Parts 71–78 of this chapter are applicable to every common carrier by motor vehicle subject to the regulatory provisions of section 835 of Public Law 772, 80th Congress (62 Stat. 738), and to every contract carrier and private carrier by motor vehicle subpect to the regulatory provisions of the Interstate Commerce Act, with respect to transportation of explosives and other dangerous articles as defined in Parts 71–78 of this chapter. When shipments are accepted by motor vehicle for further transportation by rail express (see also paragraph (c) of this section), rail baggage (see also paragraph (d) of this section), rail freight, or by water on board vessel, they must in addition to Parts 71–78 of this chapter, comply with the applicable regulations for the service by which they are to be transported.

• • • • •

5. Amend § 77.804 paragraph (a) (15 F. R. 8362, Dec. 2, 1950) (49 CFR 77.804, 1950 Rev.) to read as follows:

§ 77.804 *Export shipments by domestic carriers by motor vehicle.* (a) Explosives and other dangerous articles authorized to be exported from the United States when packed, marked, labeled, and described, in accordance with rules and regulations in force at destination ports, must not be offered to any common, contract, or private carrier by motor vehicle for domestic transportation unless in full accordance with Parts 71–78 of this chapter.

• • • • •

6. Amend § 77.807 paragraphs (a) and (a) (3) (15 F. R. 8362, Dec. 2, 1950) (49 CFR 77.807, 1950 Rev.) to read as follows:

§ 77.807 *Emergency shipments.* (a) For the protection of the public against fire, explosion, or other or further hazard, with respect to shipments of explosives or other dangerous articles offered for transportation or in transit by any common, contract, or private carrier by motor vehicle, such carrier shall make immediate report to the Bureau of Explosives, 30 Vesey Street, New York, N. Y., for handling, any of the following emergency matters coming to their attention (see also §§ 77.853 to 77.870 for handling shipments in transit):

• • • • •

(3) Other like emergencies in which any common, contract, or private carrier by motor vehicle is or is likely to become involved, or may offer aid at its command.

• • • • •

7. Amend § 77.814 paragraph (a) Report Form (15 F. R. 8362, 8363, Dec. 2, 1950) (49 CFR 77.814, 1950 Rev.) to read as follows:

§ 77.814 *Accidents to be reported.* (a)

• • •

PART 197—TRANSPORTATION OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES BY MOTOR VEHICLE

Amend § 197.01 paragraphs (a) and (b) (15 F. R. 8120, Nov. 28, 1950) (49 CFR, 1950 Supp., 197.01) to read as follows:

§ 197.01 *Application of regulations.* (a) The regulations in this part shall apply to every common carrier by motor vehicle, contract carrier by motor vehicle, and private carrier of property by motor vehicle, subject to the regulatory provisions of Part II of the Interstate Commerce Act, with respect to the transportation by motor vehicle of explosives and other dangerous articles, as defined in regulations for transportation of explosives and other dangerous articles by land and water in rail freight, express, and baggage services, and by motor vehicle (highway), and water including specifications and shipping containers.

(b) Parts 190 to 196, respectively, of this chapter shall also apply to all motor vehicles and drivers of all motor carriers designated in paragraph (a) of this section, whether or not operating wholly within a municipality or between contiguous municipalities or within a zone adjacent to and commercially a part of any such municipality or municipalities, to the extent that the motor vehicles and drivers of the aforesaid carriers are engaged in the transportation of explosives and other dangerous articles: *Provided, however,* That Part 194 of this chapter relating to the reporting of accidents shall not apply to any private carrier of property.

NOTE: Part 195—Accident Reports, was redesignated Part 194—Reporting of Accidents, in the revision of Motor Carrier Safety Regulations (Parts 190 to 196, inclusive of this chapter) contained in the Commission's order approved April 14, 1952, effective July 1, 1952.

[F. R. Doc. 52–7547; Filed, July 9, 1952; 8:53 a. m.]

NOTICES

EXECUTIVE OFFICE OF THE PRESIDENT

ORGANIZATION AND FUNCTIONS

The statement on Organization and Functions of the Executive Office of the President (14 F. R. 7856), as amended, is hereby amended to read as follows:

SECTION I. *Executive Office of the President in general.* The Executive Office of the President consists of the divisions listed below.

SEC. II. *The White House Office.* The White House Office includes the Secretaries to the President, the Assistant to the President, the Special Counsel to the President, the Executive Clerk, the Administrative Assistants to the President, and such other personnel as are required to serve the President in an intimate capacity in the performance of the many detailed activities incident to his immediate office.

SEC. III. *The Bureau of the Budget*—(a) *Organization.* The Bureau of the Budget, under the general supervision of its Director, serves the President in the preparation and administration of the budget, in the review of legislation and Executive orders, in the improvement of administrative management and organization, and in the coordination and improvement of Federal statistics. The Bureau consists of the Office of the Director, which includes a field service with offices in Chicago, Illinois; Dallas, Texas; Denver, Colorado; and San Francisco, California; four offices, which are the Office of Budget Review, the Office of Legislative Reference, the Office of Management and Organization, and the Office of Statistical Standards; and five divisions, which are the Military Division, the International Division, the Resources and Civil Works Division, the Commerce and Finance Division, and the Labor and Welfare Division.

(b) *Collection of information from the public.* The Federal Reports Act of 1942 (5 U. S. C. 139–139 (f)) provides that no Federal executive agency (except as noted in the act) shall conduct or sponsor the collection of information, upon identical items, from ten or more persons (individuals, business or other organizations, or State or local governments) without having submitted its proposed requests for information to the Director for his approval. Such requests for information include report forms, schedules, questionnaires, or other similar methods of obtaining information. The Director has delegated to the Assistant Director for Statistical Standards the authority conferred upon him by this act. Each approved request for information must include an approval number or a statement indicating the Bureau's approval. An Advisory Council on Federal Reports, composed of representatives of national business organizations, aids the Bureau in reducing the burden of government requests for information. The Assistant Director for Statistical Standards may grant any party having a substantial interest in the collection of information by a Federal agency an opportunity to be heard or to submit written statements on the necessity for collecting such information.

(c) *Restriction upon publication of statistical information.* On instruction by the President dated November 17, 1950, the Director maintains a continuous surveillance of the publication of statistical information by Federal executive agencies, and determines in any instance whether or not such publication would be compatible with the national security. If the Director finds that publication would endanger the national security, the information must be withheld. Unless release is explicitly forbidden, information thus withheld may be released to users authorized by the Director, who has delegated to the Assistant Director for Statistical Standards the authority conferred upon him by this instruction.

SEC. IV. *The Council of Economic Advisers.* The Council of Economic Advisers assists the President in the preparation of his annual and midyear Economic Report to the Congress; prepares for transmission to the Congress semiannual Economic Reviews; studies national economic developments and trends; appraises activities of the Federal Government bearing upon the Nation's economy; develops and recommends national economic policies to foster economic growth and stability; and furnishes the President and the Congress with other studies and reports relating to economic policies and conditions. The Council consults with and advises other Government agencies in matters affecting the national economy. It also consults with advisory committees representing industry, business and finance, agriculture, labor, consumers, State and local governments, and other groups.

SEC. V. *Liaison Office for Personnel Management.* The Liaison Office for Personnel Management, headed by an Administrative Assistant to the President as Liaison Officer for Personnel Management, assists the President in the execution of the duties imposed upon him by the provisions of the Constitution and the laws with respect to personnel management, especially the Civil Service Act of 1883 and the rules promulgated by the President under authority of that act. The Liaison Office also assists the President in maintaining closer contact with all agencies dealing with personnel matters insofar as they affect or tend to determine the personnel management policies of the executive branch of the Government.

SEC. VI. *The National Security Council.* The National Security Council advises the President with respect to the integration of domestic, foreign, and military policies relating to the national security. The statutory members of the Council are the President, the Vice President, the Secretary of State, the Secretary of Defense, the Director for Mutual Security, and the Chairman of the National Security Resources Board. The Council's staff is headed by a civilian Executive Secretary. The Central Intelligence Agency is under the Council's direction.

SEC. VII. *The National Security Resources Board.* The National Security Resources Board, under the general supervision of its Chairman, advises the President concerning the coordination of military, industrial, and civilian mobilization. The Board's activities in the field of resources mobilization planning are carried on by the Natural Resources Office, the Human Resources Office, the Production Resources Office, and the Special Security Programs Office.

SEC. VIII. *The Office of Defense Mobilization.* The Office of Defense Mobilization, under the Director of Defense Mobilization, directs, controls, and coordinates on behalf of the President all defense mobilization activities of the executive branch of the Government. The National Advisory Board on Mobilization Policy, chaired by the Director, advises the President with respect to the defense mobilization program and makes recommendations and reports to the President.

SEC. IX. *The Office of the Director for Mutual Security.* The Director for Mutual Security, on behalf of the President and subject to his direction, coordinates and supervises the military and technical assistance and defense support programs developed and administered by the Department of Defense, the Department of State, and the Mutual Security Agency. The Director gives continuous supervision and general direction to these programs to assure their integration and execution in harmony with the purposes of the Mutual Security Act of 1951 (22 U. S. C. 1651–1712). The Deputy Director for Mutual Security supervises the day-to-day operations of the Mutual Security Agency.

SEC. X. *The Telecommunications Advisor.* The Telecommunications Advisor to the President assist and advises him with respect to telecommunications functions, including the coordination of proposed policies and standards, the improvement of operations, and the assignment of radio frequencies to Government agencies. The Interdepartmental Radio Advisory Committee reports to the Telecommunications Advisor.

SEC. XI. *The Office for Emergency Management.* The Office for Emergency Management, when activated, assists the President in dealing with public emergencies.

WILLIAM J. HOPKINS,
Executive Clerk.

Federal Maritime Board

[Docket Nos. M–14, M–50, M–43, M–42, M–11, M–31, M–24, M–30, M–27, M–32, M–20, M–51, M–52, M–9, M–21, M–35, M–37, M–36, M–10, M–27, M–26, M–34, M–45, M–33]

AMERICAN-FLAG OPERATORS

ANNUAL REVIEW OF BAREBOAT CHARTERS

1. In accordance with section 3 (e) (1) of Public Law 591, 81st Congress, an annual review has been made of the bareboat charters of Government-owned, war-built, dry-cargo vessels recommended for use by American-flag operators during the period June 30, 1951 to June 30, 1952, inclusive. On the basis of the foregoing review the Federal Maritime Board tentatively finds (subject to such finding becoming final as hereinafter provided) that conditions exist justifying the continuance of the following charters under the conditions previously certified by the Federal Maritime Board:

Charterer	Vessel	Docket No.	Date vessel delivered
Luckenbach-Gulf Steamship Co., Inc.	Pine Bluff Victory	M–14	3–28–51
	Wayne Victory	M–14	4–23–51
	Red Oak Victory	M–50	2–11–52
Pacific Atlantic Steamship Co.	Jeremiah S. Black	M–43	5– 1–51
	Elmer A. Sperry	M–43	2–15–51
	Thomas Nuttall	M–43	10–27–51
Pope & Talbot, Inc.	Pere Marquette	M–42	2–23–51
	Albert S. Burleson	M–42	4–10–51
	M. M. Guhin	M–42	4– 2–51
Alaska Steamship Co.	Coastal Monarch	M–11	8– 9–48
	Sailors Splice	M–11	4–27–49
	Coastal Rambler	M–11	8–18–48
	Lucidor	M–11	12–16–48
	Palisana	M–11	12–16–48
	Flemish Knot	M–11	7–26–48
	Square Knot	M–11	7– 6–48
	Square Sinnet	M–11	8– 1–48
	Ring Splice	M–11	1–14–49
	John H. Quick	M–31	6– 4–51
	George D. Prentice	M–31	7– 2–51
Coastwise Line	Tarleton Brown	M–24	4– 3–51

South Atlantic S. S. Line	Anniston Victory	M–33	7–18–51
	High Point Victory	M–33	8–30–51

2. Any interested party may request a hearing with respect to the tentative finding of the Federal Maritime Board made with respect to any charter herein reviewed by filing written objections thereto or for other good cause shown within fifteen (15) days from the date of publication of this notice.

3. Said finding will become final if no objection thereto or request for a hearing is filed, as above provided. If such hearing is granted, said finding will be the subject of a report by the Board.

4. Copies of this notice have been served upon all interested persons.

Dated: June 30, 1952.

By order of the Federal Maritime Board.

[SEAL] A. J. WILLIAMS,
Secretary.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

NOTICE OF FILING OF PLAT OF SURVEY

JUNE 30, 1952.

Notice is given that the plat of dependent resurvey and original survey of certain islands accepted April 30, 1952, will be officially filed in the Land Office, Anchorage, Alaska, effective on the date of this notice as to the dependent resurveyed lands and at 10:00 a. m. on the 35th day after the date of this notice; as to the following described surveyed islands:

SEWARD MERIDIAN

T. 17 N., R. 3 W.:
Sec. 20: Lot 27.
Sec. 28: Lot 11.
Sec. 29: Lots 12, 13, and 14.
Sec. 30: Lots 8, 9, 10, 11, and 12.
Sec. 31: Lot 6.

The area described contains 20.88 acres.

The lands are located on the western end of Fish Lake, approximately 19 miles west of Wasilla, Alaska, and are accessible by automobile over a road which terminates at the eastern end of the lake and thence by boat. The land may also be reached by seaplane directly or by land based aircraft on a nearby field, thence by boat over the lake. There are presently no public facilities in the area. Water for domestic use may be obtained from the lake or by sinking wells. Sewage disposal may be made by cess-pools or septic tanks.

At the hour and date specified above the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this notice shall be subject only to (1) application under the homestead or the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U. S. C. 682a), as amended, home or headquarter site under the act of May 26, 1934 (48 Stat. 809, 48 U. S. C. 461), by qualified veterans of World War II and other qualified persons entitled to preference under the act of Sept. 27, 1944 (58 Stat. 747, 43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) applications under any applicable public land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under the paragraph either at or before 10:00 a. m. on the 35th day after the date of this notice shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this notice, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this notice, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of

service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statement in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office at Anchorage, Alaska, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations to the extent such regulations are applicable. Applications under the homestead and homesite laws shall be governed by the regulations contained in Parts 64, 65, and 166 of Title 43 of the Code of Federal Regulations and applications under the Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Part 257 of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land Office.

CHESTER W. MCNALLY,
Acting Manager.

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Delegation of Authority No. 70]

DIRECTORS OF THE REGIONAL OFFICES.

DELEGATION OF AUTHORITY TO ACT UNDER CPR 26, REVISED

EDITORIAL NOTE: In F. R. Doc. 52-7243, appearing at page 5917 of the issue for Tuesday, July 1, 1952, the section reference "5 (e) (3)" in the headnote of item 1 has been changed to "5 (c) (3)", so that the headnote now reads:

1. *Authority to act under sections 5 (c) (3), 7, 21 (c) and 22 of CPR 26, Revised.*

[Ceiling Price Regulation 83, Section 2, Special Order 11, Amdt. 8]

GENERAL MOTORS CORP.

BASIC PRICES AND CHARGES FOR NEW PASSENGER AUTOMOBILES

Statement of considerations. Special Order 11 established a schedule of prices and charges pursuant to section 2 of Ceiling Price Regulation 83 for sellers of new passenger automobiles and factory installed extra equipment manufactured by the General Motors Corporation. Subsequent to the issuance of Special Order 11 the General Motors Corporation has introduced a new item of factory installed extra, special or optional equipment on its Buick new passenger automobiles and a wholesale ceiling price has been approved for this new item. Special Order 11 is, therefore, amended to include a charge for the new item of factory installed extra, special or optional equipment.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to section 2 of Ceiling Price Regulation 83, this amendment to Special Order 11, is hereby issued.

1. The following charge for factory installed extra, special or optional equipment is added to the list of extra, special or optional equipment contained in paragraph 2 of Special Order 11:

BUICK PASSENGER AUTOMOBILES

Custom Trim No. 78 (body style No. 72R)	$56.88

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 8 to Special Order 11 shall become effective July 9, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 9, 1952.

[F. R. Doc. 52-7645; Filed, July 9, 1952; 12:04 p. m.]

[Ceiling Price Regulation 83, Section 2, Special Order 16, Amdt. 4]

KAISER-FRAZER CORP.

BASIC PRICES AND CHARGES FOR NEW PASSENGER AUTOMOBILES

Statement of considerations. Special Order 16 established a schedule of prices and charges pursuant to section 2 of Ceiling Price Regulation 83 for sellers of new passenger automobiles and factory installed extra equipment manufactured by the Kaiser-Frazer Corporation. At the time Special Order 16 was issued three upholstery items whose wholesale ceiling prices have been approved were inadvertently omitted from the list of factory installed extra, special, or optional equipment. Special Order 16 is, therefore, amended to include the charges for these previously omitted items of factory installed extra, special or optional equipment.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to section 2 of Ceiling Price Regulation 83, this amendment to Special Order 16, is hereby issued.

1. The following charges for factory installed extra, special or optional equipment are added to the list of extra, special or optional equipment contained in paragraph 2 of Special Order 16:

KAISER AUTOMOBILES

Upholstery Dinosaur Vinyl (all Kaiser models)	$125.00
Upholstery Leather Trim (all Kaiser models)	195.00
Upholstery Vinyl Sport Topping (all Kaiser models)	87.00

Effective date. This Amendment 4 to Special Order 16 shall become effective June 30, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JUNE 30, 1952.

FEDERAL POWER COMMISSION

[Docket No. E-6855]

IDAHO POWER CO.

NOTICE OF ORDER EXTENDING TIME FOR CONSUMMATING TRANSACTION

JULY 3, 1952.

Notice is hereby given that on July 2, 1952, the Federal Power Commission issued its order entered July 1, 1952, extending time for consummating transaction authorized by the Commission's order entered June 1, 1951 (16 F. R. 5505) in the above-entitled matter.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 52-7519; Filed, July 9, 1952; 8:47 a. m.]

[Docket Nos. G-1694, G-1695, G-1699, G-1749, G-1777]

CITY GAS CO. OF PHILLIPSBURG, N. J., ET AL.

ORDER GRANTING PETITION TO REINSTATE PROCEEDINGS AND CONSOLIDATING PROCEEDINGS FOR PURPOSE OF HEARING

JULY 1, 1952.

In the matters of City Gas Company of Phillipsburg, New Jersey, Docket No. G-1694; the Manufacturers Light and Heat Company, Docket No. G-1695; Texas Eastern Transmission Corporation, Docket No. G-1699; Penn-Jersey Pipe Line Company (a de facto corporation), Docket No. G-1749; Allentown-Bethlehem Gas Company, Docket No. G-1777.

On March 13, 1952, the Commission issued an order in Docket No. G-1694 dismissing without prejudice the application of City Gas Company of Phillipsburg, New Jersey (City Gas) which was filed on May 25, 1951 pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity adjudging and ordering that the 1,700 Mcf of natural gas per day referred to in the Commission's Opinion No. 206 and accompanying order can be economically delivered to City Gas in the manner proposed in said application. Said application was dismissed without prejudice upon a finding that despite ample opportunity, well beyond 90 days after the issuance of said Opinion No. 206 and accompanying order on February 27, 1951, City Gas had failed to submit appropriate evidence to the Commission that the volumes of natural gas referred to in said Opinion can be economically delivered to it. In the same order the Commission dismissed without prejudice a petition seeking leave to intervene in Docket No. G-1694 filed by The Manufacturers Light and Heat Company (Manufacturers).

On March 13, 1952, the Commission issued an order in Docket No. G-1749, dismissing without prejudice the application of Penn-Jersey Pipe Line Co., a de facto corporation (Penn-Jersey), which was submitted for filing pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing the construction and operation of approximately 6 miles of 6-inch pipe, or in part 8-inch pipe, between the facilities of Manufacturers and the distribution system of City Gas. Said application was dismissed without prejudice upon a finding, among others, that despite ample opportunity to do so, Penn-Jersey had not filed a supplement to its application containing Articles of Incorporation showing the corporation to be a de jure corporation qualified to make application pursuant to section 7 of the Natural Gas Act, and upon a further finding that the dismissal without prejudice of the application filed by City Gas in Docket No. G-1694, hereinbefore referred to, would make nugatory a hearing on the application submitted for filing by Penn-Jersey in Docket No. G-1749. In the same order, the Commission dismissed without prejudice a petition seeking leave to intervene in Docket No. G-1749 filed by Allentown-Bethlehem Gas Company (Allentown-Bethlehem).

On March 13, 1952, the Commission issued orders in Docket Nos. G-1699, and G-1695, dismissing without prejudice applications filed by Manufacturers and Texas Eastern Transmission Corporation (Texas Eastern) pursuant to section 7 of the Natural Gas Act for certificates of public convenience and necessity authorizing the sale and delivery of natural gas by Texas Eastern to Manufacturers and the installation and operation by Manufacturers of a connection, meter, and regulator station for the receipt and delivery of natural gas to be transported and sold to City Gas; and an order in Docket No. G-1777, dismissing without prejudice an application filed by Allentown-Bethlehem pursuant to section 7 (b) of the Natural Gas Act for an order authorizing and approving the abandonment of its present natural-gas service to City Gas. In each of said orders the Commission found, among other findings, that the dismissal without prejudice of the application filed by City Gas in Docket No. G-1694, hereinbefore referred to, would make nugatory a hearing upon the application filed by Manufacturers in Docket No. G-1695, by Texas Eastern in Docket No. G-1699, and by Allentown-Bethlehem in Docket No. G-1777. In the same orders, the Commission dismissed without prejudice petitions seeking leave to intervene filed by Allentown-Bethlehem in Docket Nos. G-1695 and G-1699, and by City Gas in Docket Nos. G-1695, G-1699, and G-1777.

On March 24, 1952, City Gas and Penn-Jersey filed a joint petition in the above-entitled proceedings to have said orders of the Commission issued on March 13, 1952, vacated, and the applications and petitions to intervene in said proceedings reinstated.

In support of said petition, City Gas and Penn-Jersey state that the failure to file the supplement to the application submitted for filing by Penn-Jersey in Docket No. G-1749 was not due to lack of diligence on the part of said petitioners, but was due to causes beyond their control. Said petitioners state that the failure to file said supplement was caused by the pendency of an application filed on June 29, 1951, with the Pennsylvania Public Utility Commission for approval of the incorporation, organization, and creation of Penn-Jersey Pipe Line Company, upon which hearing by that Commission was held on October 24, 1951, and which application was, on January 21, 1952, refused. Thereafter, by applications filed on February 2, 1952, rehearing of said denial was requested, and the same was granted by the Pennsylvania Commission. Such rehearing was held on March 17, 1952.

On June 6, 1952, Penn-Jersey filed a supplement to the application submitted for filing in Docket No. G-1749, which supplement contains Articles of Incorporation showing Penn-Jersey to be a de jure corporation qualified to make application pursuant to section 7 of the Natural Gas Act.

The principal ground for dismissal of said applications and petitions seeking leave to intervene was the failure of Penn-Jersey to submit appropriate data to show that it is a proper applicant for the authorization requested in its application in Docket No. G-1749, and such failure rendered the proposed plan for economical delivery of the natural gas referred to in Opinion No. 206 to City Gas unfeasible. It now appears from additional information furnished to the Commission and the data submitted by Penn-Jersey, that the proposal of City Gas may constitute appropriate evidence that said volume of natural gas can be delivered to it economically.

It further appears that the proceedings in all the above-entitled Dockets involve substantially similar issues of law and fact.

On April 7, 1952, Manufacturers filed a petition in the above-entitled proceedings, requesting that the Commission reconsider its action in dismissing without prejudice the applications and petitions seeking leave to intervene herein, that said orders be vacated, and that said applications and petitions be reinstated.

On April 25, 1952, Allentown-Bethlehem filed a petition in the above-entitled proceedings, requesting that the Commission reconsider its action in dismissing without prejudice the application in Docket No. G-1777 and the Petition to Intervene in Docket No. G-1749, that said orders be vacated, and that said application and petition to intervene be reinstated.

On May 15, 1952, Texas Eastern filed a motion in the proceeding in Docket No. G-1699, requesting that the Commission reconsider its action in dismissing without prejudice the application in Docket No. G-1699, that it vacate its order therein, and that said application be reinstated.

The Commission finds:

(1) It is appropriate and in the public interest to grant the petitions filed, jointly, by City Gas and Penn-Jersey, and by Manufacturers, Allentown-Bethlehem, and Texas Eastern to reinstate the applications filed by City Gas, Manufacturers, Texas Eastern, and Allentown-Bethlehem, in Docket Nos. G-1694, G-1695, G-1699, and G-1777, and to permit the formal filing and docketing of the application submitted for filing by Penn-Jersey in Docket No. G-1749.

(2) It is appropriate and in the public interest to permit the reinstatement of the various petitions seeking leave to intervene filed in the above-entitled proceedings to which reference heretofore has been made.

(3) It is appropriate and in the public interest and orderly procedure requires that the above-entitled proceedings be consolidated for purpose of hearing.

(4) Although the Motion filed by Texas Eastern on May 15, 1952, was not filed within the time prescribed by the Commission's rules of practice and procedure, good cause exists to permit the late filing.

The Commission orders:

(A) The application filed by City Gas Company of Phillipsburg, New Jersey, on February 27, 1951, in Docket No. G-1694 which was dismissed without prejudice by order of the Commission issued on March 13, 1952, together with the petition seeking leave to intervene in said docket filed on June 19, 1951, by the Manufacturers Light and Heat Company, be and the same hereby are reinstated.

(B) The application submitted for filing by Penn-Jersey Gas Company, a de facto corporation, on July 17, 1951, and tentatively assigned Docket No. G-1749, which was dismissed without prejudice by order of the Commission issued on March 13, 1952, be and the same hereby is accepted for filing as a formal application in Docket No. G-1749, and the petition seeking leave to intervene in said Docket No. G-1749, filed on August 24, 1951, by Allentown-Bethlehem Gas Company be and the same hereby is reinstated.

(C) The application filed by the Manufacturers Light and Heat Company on May 28, 1951, in Docket No. G-1695, together with the supplement thereto filed on June 5, 1951, which said application was dismissed without prejudice by order of the Commission issued on March 13, 1952, and the petitions seeking leave to intervene in said docket filed on June 26, 1951, by Allentown-Bethlehem Gas Company and on July 17, 1951, by City Gas Company of Phillipsburg, New Jersey, be and the same hereby are reinstated.

(D) The application filed by Texas Eastern Transmission Corporation on May 31, 1951, in Docket No. G-1699 which was dismissed without prejudice by order of the Commission issued on March 13, 1952, together with the petitions seeking leave to intervene in said docket filed on June 26, 1951, by Allentown-Bethlehem Gas Company and on July 17, 1951, by City Gas Company of Phillipsburg, New Jersey, be and the same hereby are reinstated.

(E) The application filed by Allentown-Bethlehem Gas Company on August 24, 1951, in Docket No. G-1777 which was dismissed without prejudice by order of the Commission issued on March 13, 1952, together with the petition seeking leave to intervene in said docket filed on September 19, 1951, by City Gas Company of Phillipsburg, New Jersey be and the same hereby are reinstated.

(F) The proceedings in Docket Nos. G-1694, G-1695, G-1699, G-1749, and G-1777 be and the same hereby are consolidated for purpose of hearing, which hearing shall be held at a time and place

to be fixed by further order of the Commission.

(G) Public notice of this order be given, including publication in the FEDERAL REGISTER, and protests or petitions seeking leave to intervene may be filed in accordance with the rules of the Commission (18 CFR 1.8 or 1.10) on or before the 23d day of July 1952.

Date of issuance: July 3, 1952.

By the Commission.

[Docket No. G-1881]

NORTHERN NATURAL GAS CO.

ORDER FIXING DATE FOR ORAL ARGUMENT ON MOTION AND BRIEFS

JULY 3, 1952.

On June 26, 1952, Commission staff counsel filed a motion in the above-entitled proceedings to dismiss said proceedings to the extent that issues disposed of adversely to Northern Natural Gas Company's contentions in Opinion No. 228 and order issued June 11, 1952, are involved in Docket No. G-1881, without prejudice to submission by Northern of substitute tariff sheets based upon said Opinion No. 228 and order issued June 11, 1952, and the issues in Docket No. G-1881 which were not disposed of in that opinion and order. Additionally, staff counsel prayed that the motion be set for oral argument at the earliest possible date.

The Commission finds: It is necessary or appropriate to carry out the provisions of the Natural Gas Act that the motion of Commission staff counsel be set for oral argument and that Commission staff counsel and each party to the proceeding in Docket No. G-1881 be given an opportunity to file a memorandum of law or brief with respect to said motion as hereinafter ordered.

The Commission orders:

(A) The motion of Commission staff counsel filed June 26, 1952, be set for argument before the Commission and orally argued on July 17, 1952, at 10 a. m., e. d. s. t., in the Hearing Room, Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., and that Commission staff counsel and each party to the proceeding may file a memorandum of law or brief with respect to said motion on or before July 14, 1952.

(B) Parties to this proceeding who intend to participate in the oral argument shall so notify the Secretary of the Commission on or before July 14, 1952, and of the time requested for presentation of their argument.

Date of issuance: July 3, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52-7517; Filed, July 9, 1952; 8:47 a. m.]

[Docket No. G-1979]

ARKANSAS LOUISIANA GAS CO.

NOTICE OF APPLICATION

JULY 3, 1952.

Take notice that on June 23, 1952, Arkansas Louisiana Gas Company (Applicant), a Delaware corporation having its principal office in Shreveport, Louisiana, filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of the following described natural-gas facilities:

(1) Approximately 6 miles of 12¾-inch O. D. welded pipe line parallel to existing Line LM-2 northwestwardly from existing Perla Regulating Station in Hot Spring County, Arkansas, together with necessary meter and scrubber facilities.

(2) New 7500 hp. Compressor Station (identified as Beirne Compressor Station) to be located in Clark County, Arkansas, approximately 2.5 miles southwest of Gurdon, Arkansas.

Applicant proposes by the use of the facilities described in (1) above to provide natural gas service to Arkansas Power and Light Company. Applicant also proposes to connect the facilities described in (2) above to its presently existing Line S at approximately Station 6608+34.

The application recites that Arkansas Power & Light Company is installing an additional electric generating unit at its Lake Catherine Steam Electric Generating Station, and has contracted with Applicant for an additional 38,000 Mcf daily. Line LM-2 is supplying 47,000 Mcf daily to Reynolds Metals Company and Arkansas Power & Light Company, with the major portion being used by Arkansas Power & Light Company.

The application further recites the present load and pressure conditions between Perla and Little Rock require the construction of the Beirne Station; and the proposed compressor station will increase average winter-day deliveries at Perla Regulating Station by approximately 25,000 Mcf per day, and peak-day deliveries to the Central Arkansas area by approximately 40,000 Mcf daily.

The estimated over-all capital cost of the proposed facilities is $2,353,116 (pipeline construction, $205,646; compressor station, $2,147,470). Pipeline construction will be financed in part from funds to be advanced by Arkansas Power & Light Company and refunded according to the terms of a "Fuel Contract" covering the sale and delivery of gas to Arkansas Power for use as fuel in 5 generating plants. Applicant's over-all 1952 construction program requires additional financing in the form of additional borrowing of $3,000,000 from the Guaranty Trust Company of New York.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 23d day of July 1952.

The application is on file with the Commission for public inspection.

[Docket No. ID-1176]

FRED R. RAUCH

NOTICE OF ORDER AUTHORIZING APPLICANT TO HOLD CERTAIN POSITIONS

JULY 3, 1952.

Notice is hereby given that on July 2, 1952, the Federal Power Commission issued its order entered July 1, 1952, authorizing applicant to hold certain positions pursuant to section 305 (b) of the Federal Power Act in the above-entitled matter.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52-7521; Filed, July 9, 1952; 8:48 a. m.]

GENERAL SERVICES ADMINISTRATION

ATTORNEY GENERAL

DELEGATION OF AUTHORITY TO NEGOTIATE CERTAIN CONTRACTS AND PURCHASES WITHOUT ADVERTISING

1. Pursuant to the authority vested in me by section 302 (a) of the Federal Property and Administrative Services Act of 1949, as amended (Pub. Laws 152 and 754, 81st Cong.), hereinafter called the act, authority is hereby delegated to the Attorney General to negotiate contracts and purchases, in accord with section 302 (c) (12) of the act, without advertising, for the purchase of 64 portable two-way radio sets and 50 FM transmitter and receiver units, provided that the Attorney General shall determine such material to be technical equipment, that such procurement without advertising is necessary in order to assure standardization of equipment and interchangeability of parts and that such standardization and interchangeability are necessary in the public interest.

2. This authority shall be exercised strictly in accordance with the act, particularly section 307 requiring written findings and preservation of data, and reports to the General Accounting Office.

3. The authority herein delegated may not be redelegated to any other person.

4. This delegation of authority shall be effective as of June 30, 1952.

Dated: July 2, 1952.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2889]

UNITED GAS CORP.

ORDER REGARDING SUBORDINATION OF LOANS

JULY 3, 1952.

United Gas Corporation ("United"), a gas utility subsidiary of Electric Bond and Share Company, a registered holding company, having filed an application, and an amendment thereto, pursuant to the Public Utility Holding Company Act of 1935, particularly sections 9 (a) (1), 10 (a) (1), 10 (b) and 10 (c) thereof, with respect to the following proposed transactions:

Carthage Hydrocol, Inc. ("Hydrocol"), a Delaware corporation, has completed the construction of a plant near Brownsville, Texas, for the manufacture of gasoline from natural gas by a synthetic process known as the "Hydrocol Process." Hydrocol's capital structure consists of a loan in the approximate principal amount of $18,500,000 due the Reconstruction Finance Corporation ("RFC"), $28,000,000 principal amount of 6 percent Promissory Notes of various classes, and 241,875 shares of common stock. The 6 percent Promissory Notes are subordinate to the loan due the RFC. Of the outstanding securities of Hydrocol, United owns $3,747,000 principal amount of 6 percent Promissory Notes of various classes and 28,170¾ (11.62 percent) shares of common stock, all of which were acquired pursuant to previous authorizations of this Commission.

The proposed transactions involve the subordination by United and all other holders of the outstanding 6 percent Promissory Notes of Hydrocol to borrowings to be made by Hydrocol prior to August 1, 1952, in the aggregate principal amount of not to exceed $2,000,000. The proposed borrowings will be preferred as to payment of principal and interest over the outstanding 6 percent Promissory Notes.

The application states that Hydrocol's need for the funds which it proposes to borrow is immediate and urgent in order to enable it to continue its operations and to allow it sufficient time to work out a plan of reorganization.

Said application having been filed on June 9, 1952, an amendment having been filed on June 27, 1952, notice of said filing having been given in the form and manner required by Rule U-23 promulgated pursuant to said act, the Commission not having received a request for hearing within the time specified in said notice, or otherwise, and the Commission not having ordered a hearing thereon; and

The Commission finding that the proposed transactions are in accordance with the applicable standards of the act, that no conditions need be imposed in connection therewith, and that no adverse findings are necessary thereunder, and the Commission deeming it appropriate to grant said application, as amended, said order to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and subject to the terms and conditions contained in Rule U-24, that said application, as amended, be and the same hereby is, granted, effective forthwith.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[F. R. Doc. 52-7523; Filed, July 9, 1952; 8:49 a. m.]

[File No. 811-496]

BANKERS SECURITIES CORP.

NOTICE OF APPLICATION

JULY 3, 1952.

Notice is hereby given that Bankers Securities Corporation ("Bankers"), located at No. 1315 Walnut Street, Philadelphia 7, Pennsylvania, an investment company registered under the Investment Company Act of 1940, has filed an application pursuant to section 8 (f) of the act for an order of the Commission declaring that Bankers has ceased to be an investment company as defined by the act.

The application makes the following representations:

Bankers was incorporated under the laws of Pennsylvania on April 3, 1928, and registered under the act as a closed-end, non-diversified, management investment company on February 22, 1945. Bankers' capitalization consists of 200,000 shares of 6 percent participating preferred stock ($50 par value) of which 162,987 are issued and outstanding and 60,000 shares of common stock ($50 par value) are authorized, issued and outstanding. A total of 39,643 shares of common stock or 66.07 percent thereof are deposited in a voting trust of which A. M. Greenfield is the trustee and which expires in October 1952.

Albert M. Greenfield owns beneficially in his own name and through his wholly-owned subsidiary, Albert Co., 1.22 percent of the 6 percent participating preferred stock and 52.97 percent of the common stock (sole voting) issued and outstanding (including shares of the common stock deposited under the voting trust). In addition, Albert M. Greenfield & Co. (Delaware) and its wholly-owned subsidiary, Realty Owning Company (controlled companies of Albert M. Greenfield), own 5.67 percent of the preferred stock and 4.87 percent of the common stock issued and outstanding (including shares of the common stock deposited under the voting trust). All Continent Corporation, a Delaware corporation, not affiliated either with Bankers or Albert M. Greenfield & Co., except through the ownership of the equity securities of Bankers and except that its nominee, Mr. Murray C. Becker, is represented on the Board of Directors of Bankers and City Stores Company (a controlled company of Bankers), owns of record 36.44 percent of the preferred stock and 23.42 percent of the common stock issued and outstanding.

Section 8 (f) of the act provides, in part, that whenever the Commission finds that a registered investment company has ceased to be an investment company, it shall so declare by order and upon the taking effect of such order, the registration of such company shall cease to be in effect.

Section 3 (a) of the act provides that investment company means any issuer which (1) is or holds itself out as being engaged primarily, or proposes to engage primarily in the business of investing, reinvesting, or trading in securities; (2) is engaged or proposes to engage in the business of issuing face-amount certificates of the installment type, or has been engaged in such business and has any such certificate outstanding; or (3) is engaged or proposes to engage in the business of investing, reinvesting, owning, holding, or trading in securities, and owns or proposes to acquire investment securities having a value exceeding 40 per centum of the value of such issuer's total assets (exclusive of Government securities and cash items) on an unconsolidated basis. As used in this section, investment securities includes all securities except (a) Government securities, (b) securities issued by employees' securities companies and (c) securities issued by majority-owned subsidiaries of the owner which are not investment companies.

In its registration statement filed under the act on Form N-8B-1, Bankers stated that its investment policy was to invest primarily in department and retail store and real estate businesses and that it intended to concentrate a large part of its investments in such businesses and, further, to own and manage department and retail stores and real estate and mortgages and liens on and interests in the same. In subsequent annual reports filed by Bankers with the Commission, Bankers indicated no change in its investment policy.

(1) To remove the representation that Bankers is or holds itself out to be an investment company, the holders of a majority of its outstanding preferred and common stock, voting by classes adopted, pursuant to section 13 (a) of the act, a resolution at a regular meeting of stockholders held on May 26, 1952, authorizing Bankers to change the nature of its business so as to cease to be an investment company.

(2) Bankers is not engaged and does not propose to engage in the business of issuing face-amount certificates of the installment type nor has it been engaged in such business and does not have any such certificates outstanding.

(3) With respect to the business of investing, reinvesting, owning, holding or trading in securities, Bankers repre-

sents that as at December 31, 1951 a total of 55.23 percent of the total assets of Bankers at value were invested in majority or wholly-owned subsidiaries engaged in the mercantile and real estate businesses (including hotels), 22.31 percent of the total assets at value were invested in operating divisions engaged in the mercantile and real estate businesses (including hotels) and 5.06 percent of the total assets were invested in real estate owned in fee. At such date, a total of 17.22 percent of the total assets at value (including mortgages of companies not majority or wholly-owned) was invested in "investment securities" as defined in the act. (The term "value" as used herein represents value as computed in accordance with the definition of value contained in section 2 (a) (39) of the act. The phrase "total assets at value" represents all assets at value exclusive of government securities and cash items. See the table on the comparative classifications of Bankers' assets on an unconsolidated basis as at June 30, 1945 and as at December 31, 1951, attached hereto as "Exhibit A".)

During the year ending December 31, 1951, substantially all of Bankers' income exclusive of profits on sales of real estate and other assets was realized from its majority and wholly-owned subsidiaries and primary business activities. A total of 97.21 percent of Bankers' consolidated gross income for its last fiscal year exclusive of profits on sales was derived from Bankers' real estate and its investments in majority and wholly-owned subsidiaries and its operating divisions (including hotels) with only 2.10 percent being derived from investment securities as defined in the act.

With respect to its interest in the mercantile field, Bankers as at December 31, 1951 (through its majority or wholly-owned subsidiaries which were engaged in the mercantile business with a total investment at value of $31,609,090) controlled and operated a chain of 37 department and specialty stores (City Stores Company) and a department store with three units in New York State (Hearn Department Stores, Inc.). (As at May 1, 1952, Bankers owned a majority of the common stock of Hoving Corporation, a specialty holding company, thereby increasing slightly the percentage of assets at value invested in majority-owned subsidiaries and decreasing the percentage of assets invested in "investment securities" indicated above.) In addition, Bankers operated a mercantile division representing an investment at value of $10,035,454 including the department store known as "Snellenberg's" in Philadelphia, Pennsylvania. (On June 19, 1951, Bankers acquired all of the outstanding stock of Lousols-Philadelphia, a specialty store, including the real estate occupied thereby, which thereafter was operated as a part of its mercantile division and is carried under the caption of "mercantile division" in "Exhibit A" set forth below.)

Bankers represents that its investments in the mercantile field through majority and wholly-owned subsidiaries, all of which have been retained since acquisition, are permanent and not temporary investments. It has maintained its investment in City Stores Company for a period in excess of 17 years.

With respect to its real estate interests, Bankers, as at December 31, 1951 (through its majority or wholly owned subsidiaries which were engaged in the real estate business (including hotels) with a total investment at value of $5,890,755), controlled and operated two office buildings in Philadelphia, one office building in Atlantic City, New Jersey, two hotels in Philadelphia, a real estate mortgage company, an apartment house in Philadelphia (Touraine Apartments) and two real estate holding companies. Bankers also owned in addition to the real estate held in its hotel and mercantile divisions which included the Snellenburg warehouse, certain other real estate in fee amounting to $3,438,345 at value. This real estate included four office buildings, the apartment house (The Latham) and a half interest in the Rittenhouse-Plaza apartments in Philadelphia, Pennsylvania.

Bankers represents that such investments as it now has or may make other than in the mercantile and real estate fields will simply provide a means of realizing additional income through the utilization of cash resources not immediately required for the conduct or expansion of its primary businesses.

Bankers represents that it will continue its listing and registration under the Securities Exchange Act of 1934 of the 6 percent participating preferred stock and the common stock presently listed and registered on the Philadelphia-Baltimore Stock Exchange and that it will file reports with the Commission as required by such act and furnish periodic reports to stockholders.

All interested persons are referred to said application which is on file at the Washington, D. C. office of this Commission for a more detailed statement of the matters of fact and law therein asserted.

Notice is further given that an order granting the application may be issued by the Commission at any time on or after July 24, 1952, unless prior thereto a hearing on the application is ordered by the Commission as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than July 22, 1952, at 5:30 p. m., e. d. s. t., submit in writing to the Commission his views or any additional fact bearing upon the application or the desirability of a hearing thereon or request the Commission, in writing, that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, No. 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27197]

PETROLEUM PRODUCTS FROM CHICO, TEX., TO SOUTHWEST

APPLICATION FOR RELIEF

JULY 7, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariff ICC No. 3585.

Commodities involved: Petroleum products, in carloads.

From: Chico, Tex.

To: Points in Arkansas, Kansas, Louisiana, Missouri and Oklahoma.

Grounds for relief: Competition with rail carriers, circuitous routes, to maintain grouping.

Schedules filed containing proposed rates; F. C. Kratzmeir, Agent, ICC No. 3585, sup. 513.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 27198]

CRUDE SULPHUR FROM POINTS IN LOUISIANA AND TEXAS TO NASHVILLE, TENN.

APPLICATION FOR RELIEF

JULY 7, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariff ICC No. 3862.

Commodities involved: Sulphur (brimstone), crude (unground and unrefined), carloads.

From: Points in Louisiana and Texas.

To: Nashville, Tenn.

Grounds for relief: Competition with water, circuitous routes, additional rail routes.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, ICC No. 3862, supl. 146.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

GRAIN AND GRAIN PRODUCTS FROM NORTH AND SOUTH CAROLINA TO POINTS IN TRUNK-LINE AND NEW ENGLAND TERRITORIES

APPLICATION FOR RELIEF

JULY 7, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Agent C. A. Spaninger's tariff ICC No. 1161.

Commodities involved: Grain, grain products, and feed, carloads.

From: Points in North Carolina and South Carolina.

To: Points in trunk-line and New England territories.

Grounds for relief: Competition with rail carriers, circuitous routes, to maintain grouping.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, ICC No. 1161, supl. 4.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL, *Secretary.*

FEDERAL REGISTER

VOLUME 17 NUMBER 135

Washington, Friday, July 11, 1952

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10371

CREATING AN EMERGENCY BOARD TO INVESTIGATE A DISPUTE BETWEEN THE TRANS WORLD AIRLINES, INC., AND CERTAIN OF ITS EMPLOYEES

WHEREAS a dispute exists between the Trans World Airlines, Inc., a carrier, and certain of its employees represented by the Flight Engineers' International Association, TWA Chapter, a labor organization; and

WHEREAS this dispute has not heretofore been adjusted under the provisions of the Railway Labor Act, as amended; and

WHEREAS this dispute, in the judgment of the National Mediation Board, threatens substantially to interrupt interstate commerce to a degree such as to deprive a section of the country of essential transportation service:

NOW, THEREFORE, by virtue of the authority vested in me by section 10 of the Railway Labor Act, as amended (45 U. S. C. 160), I hereby create a board of three members, to be appointed by me, to investigate the said dispute. No member of the said board shall be pecuniarily or otherwise interested in any organization of employees or any carrier.

The Board shall report its findings to the President with respect to the said dispute within thirty days from the date of this order.

As provided by section 10 of the Railway Labor Act, as amended, from this date and for thirty days after the board has made its report to the President, no change, except by agreement, shall be made by the Trans World Airlines, Inc., or its employees in the conditions out of which the said dispute arose.

In performing its functions under this order the Board shall comply with the requirements of section 502 of the Defense Production Act of 1950, as amended.

HARRY S. TRUMAN

THE WHITE HOUSE,
July 9, 1952.

EXECUTIVE ORDER 10372

CREATING AN EMERGENCY BOARD TO INVESTIGATE A DISPUTE BETWEEN THE NORTHWEST AIRLINES, INC., AND CERTAIN OF ITS EMPLOYEES

WHEREAS a dispute exists between the Northwest Airlines, Inc., a carrier, and certain of its employees represented by the International Association of Machinists, a labor organization; and

WHEREAS this dispute has not heretofore been adjusted under the provisions of the Railway Labor Act, as amended; and

WHEREAS this dispute, in the judgment of the National Mediation Board, threatens substantially to interrupt interstate commerce to a degree such as to deprive a section of the country of essential transportation service:

NOW, THEREFORE, by virtue of the authority vested in me by section 10 of the Railway Labor Act, as amended (45 U. S. C. 160), I hereby create a board of three members, to be appointed by me, to investigate the said dispute. No member of the said board shall be pecuniarily or otherwise interested in any organization of employees or any carrier.

The Board shall report its findings to the President with respect to the said dispute within thirty days from the date of this order.

As provided in section 10 of the Railway Labor Act, as amended, from this date and for thirty days after the board has made its report to the President, no change, except by agreement, shall be made by the Northwest Airlines, Inc., or its employees in the conditions out of which the said dispute arose.

In performing its functions under this order the Board shall comply with the requirements of section 502 of the Defense Production Act of 1950, as amended.

HARRY S. TRUMAN

THE WHITE HOUSE,
July 10, 1952.

TITLE 7—AGRICULTURE

Chapter III—Bureau of Entomology and Plant Quarantine, Department of Agriculture

PART 354—OVERTIME SERVICE RELATING TO IMPORTS AND EXPORTS

ADMINISTRATIVE INSTRUCTIONS PRESCRIBING COMMUTED TRAVEL TIME ALLOWANCES

Pursuant to the authority conferred upon the Chief of the Bureau of Entomology and Plant Quarantine by § 354.1 of the regulations concerning overtime services relating to imports and exports, effective May 5, 1951, as amended effective May 13, 1952 (7 CFR Supp. 354.1; 16 F. R. 3972, 17 F. R. 4317), administrative instructions (7 CFR Supp. 354.2; 17 F. R. 5055) issued May 23, 1952, to prescribe the commuted travel time that shall be included in each period of overtime duty are hereby amended to add Savannah, Georgia, to the "One Hour" list therein and to add St. Louis, Missouri, to the "Two Hour" list therein.

These commuted travel time periods have been established as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from the place at which the employee performs such overtime duty when such travel is performed solely on account of such overtime duty. Such establishment depends upon facts within the knowledge of the Bureau of Entomology and Plant Quarantine. It is to the benefit of the public that these instructions be made effective at the earliest practicable date. Accordingly, pursuant to the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238), it is found upon good cause that notice and public procedure on these instructions are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making these instructions effective less than 30 days after publication.

This amendment shall be effective July 11, 1952.

(64 Stat. 561; 5 U. S. C. 576)

Done at Washington, D. C., this 30th day of June 1952.

[SEAL] W. L. POPHAM,
Acting Chief, Bureau of Entomology and Plant Quarantine.

[F. R. Doc. 52-7611; Filed, July 10, 1952; 8:51 a. m.]

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 983—TYPE 62 SHADE-GROWN CIGAR-LEAF TOBACCO GROWN IN DESIGNATED PRODUCTION AREA OF FLORIDA AND GEORGIA

SUBPART—EXPENSES AND RATE OF ASSESSMENT

FISCAL PERIOD JUNE 3, 1952, THROUGH JANUARY 1953

In accordance with Marketing Agreement 112 and Order No. 83 (17 F. R. 4971, 5002, 5058; 7 CFR Part 983), regulating the handling of Type 62 shade-grown cigar-leaf tobacco grown in the designated production area of Florida and Georgia, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the proposals and report thereon submitted by the Control Committee, established pursuant to said marketing agreement and order, with respect to its expenses and a proposed rate of assessment, it is hereby found and determined that:

§ 983.300 *Expenses and rate of assessment for the fiscal period June 3, 1952, through January 1953*—(a) *Expenses.* Expenses in the amount of $10,000 are reasonable and are likely to be incurred by the Control Committee for its maintenance and functioning during the fiscal period beginning June 3, 1952, and ending January 31, 1953, inclusive.

(b) *Rate of assessment.* The following rate of assessment which each handler shall pay, in accordance with the applicable provisions of the said marketing agreement and order, is hereby fixed as the respective handler's pro rata share of the aforesaid expenses: $2.00 per 1,000 pounds of tobacco handled by such handler as the first handler thereof during the fiscal period beginning June 3, 1952, and ending January 31, 1953, inclusive.

(c) *Terms.* Terms used in this section shall have the same meaning as when used in said marketing agreement and order.

It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, or postpone the effective date hereof until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, in addition to the findings heretofore made with respect to the issuance of said Order No. 83 (effective June 3, 1952) and the rules and regulations (17 F. R. 5454, 5540) thereunder, (a) since the commencement of this regulatory program, the Control Committee has been performing its duties and functions and giving consideration to applications for handling certificates and exemption certificates, and the issuance thereof in eligible cases and expenses have been incurred in that regard; (b) the handling of tobacco is already under way in the production area; (c) the provisions hereof do not impose any obligation on a handler until such person handles tobacco; (d) according to the marketing agreement and order, assessments are applicable to tobacco handled during a fiscal period; and (e) it is essential that the specification of the assessment rate be issued immediately so that the aforesaid assessment may be collected and thereby enable the said Control Committee to continue to perform its duties and functions in accordance with said marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 8th day of July 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 52-7612; Filed, July 10, 1952; 8:52 a. m.]

Chapter II—Corps of Engineers, Department of the Army

PART 202—ANCHORAGE REGULATIONS

LOS ANGELES AND LONG BEACH HARBORS, CALIF.

Pursuant to the provisions of the act of Congress approved April 22, 1940 (54 Stat. 150; 33 U. S. C. 180, 258, and 318), the special anchorage Area A–2 in Los Angeles Harbor (Fish Harbor) is hereby modified and redefined as follows:

§ 202.100 *Los Angeles and Long Beach Harbors, Calif.* • • •

(b) *Area A–2.* Consisting of three parts in the outer basin of Fish Harbor, on the east and west sides of Fish Harbor Entrance Channel, described as follows:

(1) *Part 1.* Beginning at a point at the intersection of westerly side of Fish Harbor Entrance Channel and the outer jetty; thence southwesterly along the jetty about 900 feet to the shore; thence northerly about 500 feet; thence northeasterly about 650 feet, on a line parallel to jetty; thence southeasterly about 500 feet, along the westerly side of Fish Harbor Entrance Channel to the point of beginning.

(2) *Part 2.* Beginning at a point at the intersection of the east side of Fish Harbor Entrance Channel and Fish Harbor mole (outer Fish Harbor); thence northwesterly along channel line about 850 feet to the southerly side of the Fairway; thence northeasterly and easterly along the southerly side of the Fairway, about 478 and 565 feet respectively to its intersection with Fish Harbor mole; thence southerly and southwesterly along the mole to the point of beginning.

(3) *Part 3.* Beginning at a point at the intersection of the east side of Fish Harbor Entrance Channel and the northerly side of the Fairway; thence along the northerly side of the Fairway about 565 feet; thence northerly about 129 feet; thence about 138 feet along a line perpendicular to the inner jetty; thence southwesterly along the inner jetty to the east side of Fish Harbor Entrance Channel; thence southeasterly along the east side of the channel to the point of beginning.

MISCELLANEOUS AMENDMENTS

The introductory paragraph of Circular No. 1821, as published in 17 F. R. 5566 of June 20, 1952, is hereby amended to read as follows:

The following amendments of certain sections of Part 200 are necessary to show in that part a change from the practice of issuing a noncompetitive lease for acquired lands on a form separate and distinct from the lease application, to a procedure by which a standardized noncompetitive oil and gas lease offer form for acquired lands becomes a lease when signed on behalf of the United States. The change will make the handling of noncompetitive leases for acquired lands substantially similar to that for public domain lands and will eliminate some of the steps now necessary in issuing such leases. In addition, certain minor changes are being made in Parts 191 and 192. The amendments of Parts 191 and 192 will become effective July 16, 1952. The amendments to Part 200 will not become effective until after a hearing has been held upon objections which have been offered to the regulations. The amendments are as follows:

OSCAR L. CHAPMAN,
Secretary of the Interior.

JULY 8, 1952.

[F. R. Doc. 52–7578; Filed, July 10, 1952; 8:46 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 156]

CPR 156—FABRICATED STRUCTURAL STEEL, MISCELLANEOUS AND ORNAMENTAL IRON, AND VESSEL SHOP PRODUCTS FOR FIELD ASSEMBLY OR ERECTION

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes ceiling prices for fabricators of structural steel, miscellaneous and ornamental iron, and vessel shop products for field assembly or erection. The regulation covers only products which are listed in its Appendix A and which are (1) fabricated principally from ferrous or non-ferrous structural shapes, plates, bars, sheets, pipe-mill products or tubing and (2) custom-engineered and custom-fabricated.

In general, the products covered by this regulation are the structural components of buildings, bridges, and other construction projects and large equipment and facilities used in various industrial processes. These products are important in the erection of industrial plants and atomic energy installations and in the operations of the chemical, iron and steel, petroleum, public utility, and other basic industries. All of the products included are "tailormade" to fit the plans of the individual project of which they are a part and all involve both shop fabrication and assembly or erection in the field.

There are about 2,500 fabricators engaged in the fabrication of structural steel, miscellaneous and ornamental iron, and vessel shop products for field assembly or erection and the industry annually consumes over 6,000,000 tons of structural shapes, plates, bars, and related products. The industry is composed of firms ranging in size from small organizations employing only a few persons to large organizations with millions of dollars in assets and thousands of employees. A number of the larger fabricators are operating divisions or wholly owned subsidiaries of steel companies, but most fabricators are not so affiliated.

To a large extent, the products covered by this regulation are sold pursuant to contracts entered into on a competitive basis and which call for deliveries over months or even years. Selling prices are ordinarily determined by flexible formulas involving estimates of the cost of material and labor which may vary greatly from job to job. Because of the kind of equipment required and the necessity of maintaining engineering staffs to prepare plans to meet the individual requirements of each buyer, overhead is an unusually important factor in cost estimation and the long period of time involved in many projects sharply enhances the risk factor. Increases in costs, interruptions in production, adverse weather conditions, and other unforeseeable occurrences may sharply reduce and even eliminate the profit included in the original estimate of a particular job.

Heretofore fabricators covered by this regulation determined their ceiling prices under Ceiling Price Regulation 30—Machinery and Related Manufactured Goods, or, if they so elected, under the General Ceiling Price Regulation. Because of the nature of the products and the manner in which the industry ordinarily conducts its business, neither of these regulations provides appropriate pricing techniques. Since these products are fabricated to the individualized specifications of each buyer, there are no two products exactly alike and it is extremely difficult for a fabricator to apply the provisions of a regulation like the GCPR which requires that ceiling prices be determined by reference to prices charged during a base period. Although CPR 30 permits a fabricator to determine ceiling prices by reference to the pricing formula which he had in effect during a specified base period, this method also was not satisfactory. While most fabricators ordinarily have rather definite formulas by which they estimate costs, it cannot be said that these are pricing formulas because the amount included for profit is seldom if ever determined according to a fixed rule, but rather is established with respect to each project on the basis of its size, the kind of material and complexity of the fabrication involved, the extent to which the fabricator's plant is occupied with other projects, the competition involved, and other like elements entering into a business judgment as to the amount of the bid which should be made.

The ceiling price determining method set forth in this regulation is adapted to meet the needs of the industry covered. The regulation provides, in general, that a fabricator must determine his ceiling price for the product involved by estimating his costs (on the basis of prices and rates in effect at the time he submits his bid) and adding nine-tenths of the percentage markup for profit which he received for a comparable product during the base period. "Comparable product" is defined as that product with respect to which the fabricator submitted a bid, entered into a contract, or made delivery (in whole or in part) during the base period or for which he had an established pricing method in effect during the base period; which is in the same category as the product he is pricing; and which is most nearly like such product in terms of total unit costs.

The base period specified in this regulation is the period between July 1, 1950, and March 31, 1951, inclusive. Information submitted to the Office of Price Stabilization indicates that during the period preceding the outbreak of hostilities in Korea, operations in the fabricating industry covered by this regulation were at a relatively low level, in comparison with the operations of other similar industries, and that jobs were undertaken at little, and in some cases, no profit. The pre-Korea period, therefore, is considered unrepresentative for this industry. While it might have been possible to use some earlier period as a base period, this would have presented administrative difficulties because of the unavailability of records. Data has been received showing that the profit markups, during the base period selected were approximately equivalent to those prevailing in 1948, a year generally considered to be representative for this industry as a whole. Since the cost of labor and materials have risen somewhat since the beginning of the base period, the reduction in the base period percentage markup required by the regulation will generally limit fabricators to the dollar markups they received in the base period.

In the judgment of the Director of Price Stabilization the provisions of this ceiling price regulation are generally fair and equitable and are necessary to effectuate the purpose of the Defense Production Act of 1950, as amended.

So far as practicable, the Director has given due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended, and to relevant factors of general applicability. In the judgment of the Director the provisions of this regulation comply with all of the requirements with respect to the establishment of ceiling prices set forth in the Defense Production Act of 1950, as amended.

In formulating this regulation the Director consulted with industry representatives, including trade association representatives, and has given full consideration to their recommendations.

In particular the Director has consulted at several meetings with the Industry Advisory Committee with respect to the trade practices as affected by the pricing techniques and with respect to the coverage of this regulation and has in general adopted the recommendations of the Committee.

The provisions of this ceiling price regulation and their effect upon business practices, cost practices, or means or aids to distribution in the industry have been considered. It is believed that no changes in such practices or methods have been effected. To the extent, however, that the provisions of this regulation may operate to compel changes in such practices or methods, such provisions are necessary to prevent circumvention or evasion of the regulation and effectuate the policies of the act.

REGULATORY PROVISIONS

Sec.
1. What this regulation does.
2. Contracts and bids made prior to the issuance of this regulation.
3. General pricing provisions.
4. Calculation of ceiling prices.
5. Applications for establishment of ceiling prices.
6. Petitions for amendment.
7. Adjustable pricing.
8. Excise, sales, and similar taxes.
9. Transfers of business.
10. Records
11. Interpretations.
12. Prohibitions.
13. Evasions.
14. Supplementary regulations.
15. Definitions.

AUTHORITY: Sections 1 to 15 issued under sec. 704, 64 Stat. 816 as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this regulation does*—(a) *Persons covered.* (1) This regulation applies to you if you are a fabricator of the products covered by this regulation and if you are located in the 48 States of the United States, the District of Columbia, or in Alaska, Guam, Hawaii, Puerto Rico, or the Virgin Islands.

(i) The term "fabricator" means a person who produces fabricated structural steel, miscellaneous and ornamental iron, and vessel shop products for field assembly or erection. The term includes persons who are engaged in the process of forming, shaping, and joining structural shapes, plates, bars and related products for field assembly or erection, as well as purchasing and integrating other products with the fabricated product. It also includes a parent, affiliate or wholly owned subsidiary of the producer of such products who performs the operations of field assembly or erection.

(2) This regulation also applies to you if you are a parent, affiliate, or wholly owned subsidiary of a person who fabricates any products covered by this regulation and if you perform the operations of field assembly or erection of such products produced by such fabricator.

(3) This regulation also applies, insofar as his purchases are concerned, to any person who participates as a buyer in any transaction covered by this regulation.

(b) *Transactions covered.* This regulation applies to the following transactions, including any such transactions which may be export sales:

(1) All sales by a fabricator of fabricated structural steel, miscellaneous and ornamental iron, and vessel shop products for field assembly or erection. The term "fabricated structural steel, miscellaneous and ornamental iron, and vessel shop products" is defined in Appendix A of this regulation;

(2) All sales of fabricated structural steel, miscellaneous and ornamental iron, and vessel shop products for field assembly or erection by a parent, affiliate, or wholly owned subsidiary of the producer of such products;

(3) All sales by a fabricator of the service of fabricating structural steel, miscellaneous and ornamental iron, and vessel shop products for field assembly or erection.

SEC. 2. *Contracts and bids made prior to the issuance of this regulation.* If you so elect, you do not have to redetermine under this regulation the ceiling prices which you have established under the General Ceiling Price Regulation or Ceiling Price Regulation 30 for any transaction covered by this regulation undertaken pursuant to a written contract entered into prior to July 10, 1952, or pursuant to a written contract executed as the result of a written bid submitted prior to July 10, 1952.

SEC. 3. *General pricing provisions.*—(a) *Basic terms.* In order to understand this regulation, it will be necessary for you to become familiar with the way in which the following terms are used:

(1) *Base period.* This term refers to the period from July 1, 1950, to March 31, 1951, inclusive;

(2) *Base period markup.* This term refers to the percentage markup for profit and general overhead which you applied to the cost base in determining your price for the comparable product;

(3) *Base period profit markup.* This term refers to the portion of your "base

period markup" which was for profit only;

(4) *Comparable product.* This term refers to that product with respect to which you submitted a bid, entered into a contract, or made delivery (in whole or in part) during the base period or for which you had an established pricing method in effect during the base period; which is in the same category as the product you are pricing; and which is most nearly like such product in terms of total unit costs. Category means a group of products which you normally classify together for purposes of production, accounting, and sales;

(5) *Cost base.* This term refers to the group of costs to which you have customarily added your markup;

(6) *Current cost.* This term refers to the cost of:

(i) Direct shop labor and its overhead and expenses;

(ii) Engineering labor and its overhead and expenses;

(iii) Field labor and its overhead and expenses;

(iv) Material;

(v) Field equipment and equipment rental;

(vi) Sub-contract charges; and

(vii) Outgoing transportation, packing, and other necessary operating expenses you are required to incur in the fabrication and erection of your product, but excluding any direct or indirect costs included in or covered by your "base period markup".

(b) *Pricing instructions.* Section 4 of this regulation tells you how to calculate your ceiling price for any transaction covered by this regulation and in general provides that you do so by adding to your current costs your base period markup with the profit markup reduced by approximately 10 percent. In computing your ceiling price you must comply with the following provisions:

(1) In estimating costs and determining the cost base for any product, you must follow your customary base period practice;

(2) You must compute your current costs on the basis of the prices and rates in effect for you as of the date you submit your bid but they may not be in excess of applicable Wage Stabilization Board or OPS ceilings, or in excess of costs from your normal sources of supply. If you use material obtained from your own production facilities, you may not employ, in determining your current costs, a price in excess of the ceiling price applicable to the sale of such material to an independent fabricator;

(3) If as a result of any government allocation or similar order you are required to use materials from sources other than your normal sources of supply, you may add to the ceiling price otherwise established the amount by which the cost of the material used exceeds the estimated cost of material employed in computing such ceiling price pursuant to subparagraph (2) of this paragraph. If the cost of material from a source other than your normal source of supply is less than the cost of material used in computing your ceiling price, you must deduct the difference from such price;

(4) If the ceiling price of material or labor rates increase after you have submitted your bid but before you have completed delivery under a contract and such contract permits, you may add to the ceiling price otherwise established the amount by which the cost element for material or the cost element for labor computed on the basis of the increased prices or rates exceeds the cost of material or labor used in computing your ceiling price;

(5) In computing your ceiling price, you must use rates for overhead and burden computed in accordance with your customary base period practice.

SEC. 4 *Calculation of ceiling prices.* You must determine your ceiling price for any product or service covered by this regulation in accordance with the following provisions:

(a) Determine the cost base for the product or service you are pricing on the basis of your current costs calculated in accordance with section 3 (b) (2);

(b) Find your base period markup for the comparable product;

(c) Find a revised markup in accordance with the following provisions:

(1) If you are able to separate your base period markup into the portion representing profit and the portion representing recovery of general overhead, diminish your base period profit markup by 10 percent and add the figure so obtained to the overhead portion;

Example: Assume a base period profit markup of 5 percent and a markup for general overhead of 15 percent. 5 percent reduced by 10 percent equals 4.5 percent and this figure added to the markup for general overhead results in a total revised markup of 19.5 percent.

(2) If you are unable to separate your base period markup as provided in subparagraph (1) of this paragraph, diminish your base period markup by 10 percent;

Example: Assume a base period markup of 20 percent. This figure diminished by 10 percent results in a revised total markup of 18 percent.

(d) Multiply the cost base determined in accordance with paragraph (a) by the applicable percentage figure determined in accordance with paragraph (c) of this section;

(e) Add the figure obtained in paragraph (a) to the figure obtained in paragraph (d) of this section.

This is your ceiling price.

SEC. 5. *Applications for establishment of ceiling prices or pricing methods.*—(a) If you are a fabricator who was not in business during the base period (other than a transferee described in section 9), or if for any other reason you cannot determine a ceiling price under Section 4 of this regulation you must apply to OPS for establishment of a ceiling price or pricing method.

(b) Any application pursuant to this section must be filed by registered mail, return receipt requested, with the Industrial Materials and Manufactured Goods Division, Office of Price Stabilization, Washington 25, D. C. and must contain the following information: Your name and address; a detailed description of the products and services you propose to sell; the address at which each of your plants is located; a statement of the reasons why you cannot determine a ceiling price under Section 4 of this regulation; your proposed ceiling price; a description of your proposed pricing method including all of the factors used and the manner in which they were determined and are to be applied.

(c) Any ceiling price or pricing method established by OPS pursuant to this section will be in line with the ceiling price or pricing methods otherwise established in this regulation.

(d) After receipt of an application pursuant to this section, OPS will by letter order approve or disapprove your proposed ceiling price or pricing method, establish a different ceiling price or pricing method, or request additional information. Pending any such action, you may submit bids or enter into contracts with respect to the product or services covered by your application at the ceiling price proposed therein provided that you agree with the purchaser to refund the amount, if any, by which such price exceeds the ceiling price established by OPS. If OPS has not acted upon your application within 30 days after the receipt thereof, your proposed ceiling price shall be deemed to be established with respect to any contracts entered into between the date you mailed your application to OPS and the date of any letter order issued by OPS disposing of your application or with respect to any contracts entered into as the result of bids submitted between such dates.

(e) If you are required to file an application pursuant to paragraph (a) of this section and do not do so, OPS may issue an order establishing a ceiling price or pricing method for you. Any ceiling price provided for by such order will be in line with the ceiling prices otherwise established in this regulation and will apply to all transactions for which a ceiling price was not otherwise established by this regulation, including transactions completed prior to the date of the order. The issuance of such an order will not relieve you of your obligation to comply with the requirements of this regulation or of the various penalties for your failure to do so.

SEC. 6. *Petitions for amendment.* Any persons seeking an amendment of any provisions of this regulation may file a petition for amendment in accordance with the provisions of Price Procedural Regulation No. 1, Revised.

SEC. 7. *Adjustable pricing.* Nothing in this regulation shall be construed to prohibit any person making a contract or offer to sell a product or service covered by this regulation at (a) the ceiling price in effect at the time of delivery or (b) the lower of a fixed price or the ceiling price in effect at the time of delivery. No person, however, may deliver or agree to deliver such product or service at a price to be adjusted upward in accordance with any increase in a ceiling price after delivery.

SEC. 8. *Excise, sales, and similar taxes.* Any person may collect, in addition to the ceiling price established by this regulation, any excise, sales, or similar tax imposed upon him by reason of his sale of any product or service covered by this regulation if he is not prohibited by law from making such collection and if he states separately from his selling price the amount of the tax collected and provided such separate statement and collection of the amount of tax is not prohibited by law.

SEC. 9. *Transfers of business.* If the business, assets or stock in trade of a fabricator are sold or otherwise transferred after the issuance of this regulation, and the transferee does not operate other fabricating plants producing similar products and carries on the business, or continues to deal in the same product, in an establishment separate from any other establishment previously owned or operated by him, the ceiling prices of the transferee shall be the same as those which his transferor would have been subject, if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over to the transferee, all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the provisions of this regulation.

SEC. 10. *Records*—(a) *Base period records.* You must prepare and preserve for the life of the Defense Production Act of 1950, as amended, and for two years thereafter, all records necessary to determine whether you have computed your ceiling prices correctly, including but not limited to:

(1) Records showing the method for estimating costs used by you during the base period in pricing products covered by this regulation. These records must clearly establish the "cost base" you used in accordance with your regular base period accounting and estimating procedures;

(2) Records showing the percentage markup used by you in pricing such products during the base period. Where possible, these records should show the percentage of the markup used for profit and that representing recovery of general overhead expenses.

(b) *Current records.* You must keep for a period of two years records of all of your sales of products, or products and services, covered by this regulation showing: Your name, and address; the name and address of the buyer; date of sale; a description of the product, or product and service sold; the place where such product was fabricated, assembled, or erected; the price charged by you; the cost base showing the elements of cost as defined in Section 3 (a) (6); and the markup for profit and/or general overhead used in computing your price.

SEC. 11. *Interpretations.* If you want an official interpretation of this regulation, you should write the Division Counsel, Industrial Materials and Manufactured Goods Division, Office of Price Stabilization, Washington 25, D. C. Any action taken by you in reliance upon and in conformity with a written official interpretation will constitute action in good faith pursuant to this regulation. Further information regarding the obtaining of official interpretations is contained in Price Procedural Regulation 1, Revised.

SEC. 12. *Prohibitions.* No person shall do any act prohibited or omit to do any act required by this regulation, nor shall any person offer, solicit, attempt, or agree to do or omit to do any such acts. Specifically (but not in limitation of the above), no person shall, regardless of any contract or other obligation, sell, deliver or negotiate the sale or delivery of any product and no person in the regular course of trade or business shall buy or receive any product at a price higher than the ceiling price established by this regulation. Every person covered by this regulation shall keep, make and preserve true and accurate records and reports, required by this regulation. If any person violates any provisions of this regulation, he is subject to criminal penalties, enforcement action, and action for damages.

SEC. 13. *Evasions.* Any means or device which results in obtaining indirectly a higher price than is permitted by this regulation or in concealing or falsely representing information as to which this regulation requires records to be kept is a violation of this regulation. This prohibition includes, but is not limited to means or devices making use of commissions, fees, services, cross sales, transportation arrangements, premiums, discounts, special privileges, upgrading, tie-in agreements and trade understandings, as well as the omission from records of true data and the inclusion in records of false data. No seller shall require a purchaser to subdivide a requirement into small or partial orders for the purpose of enabling the seller to obtain a higher unit price.

SEC. 14. *Supplementary regulations.* The Director of Price Stabilization may issue supplementary regulations modifying this regulation as he deems appropriate.

SEC. 15. *Definitions.* When used in this regulation, the term:

(a) "Base period", "base period markup", "base period profit markup", "comparable products", "cost base", and "current cost" shall have the meaning set forth in Section 3 (a);

(b) "For field assembly or erection" refers to products which are shipped from a fabricator's plant in a condition which requires assembling or erecting operations in the field. The term does not include products which are substantially assembled at a fabricator's plant;

(c) "OPS" means the Office of Price Stabilization;

(d) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing;

(e) "You" means any person subject to this regulation.

Effective date. This regulation is effective July 15, 1952.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 10, 1952.

APPENDIX A—FABRICATED STRUCTURAL STEEL, MISCELLANEOUS AND ORNAMENTAL IRON, AND VESSEL SHOP PRODUCTS

The term "fabricated structural steel, miscellaneous and ornamental iron, and vessel shop products" includes any product in the following classifications which are (i) fabricated principally from ferrous or non-ferrous structural shapes, plates, bars, sheets, pipe-mill products or tubing and (ii) custom-engineered and custom-fabricated. It includes any such product even though other materials are added (i. e. brick to a coke oven, stirring mechanism to autoclave, etc.). It does not include sheet metal shop products such as sheet metal duct work, flues and breechings, gutters, downspouts, etc.

Annealing boxes and pots.
Autoclaves (excluding those for laboratory use).
Barges, river; commonly made by fabricators but excluding power driven ship structures and barges made in shipyards.
Bins and hoppers, for industrial storage but not including bins, hoppers, or batchers made by manufacturers of concrete and bituminous mixing and batching plants.
Boiler drums, shells and headers; industrial and marine, commonly made by fabricators, but excluding auxiliary equipment, packaged units and low pressure heating units, under 100 p. s. i. working pressure.
Breechings.
Buoys.
Cars, special purpose; commonly made by fabricators; including ladle and transfer, converter, jack bottom, scrap transfer, but excluding mine standard product lines and railroad rolling stock.
Chlorinators, excluding standard product lines and packaged units.
Collapsible tunnel forms.
Crane and derrick steelwork commonly made by fabricators.
Culverts.
Doors; airplane hangar, commercial, and industrial.
Elevated water towers.
Evaporators, commonly made by fabricators.
Fermenters, industrial.
Filters, steel work for industrial.
Furnace and oven steel work, industrial; including blast furnaces, electric furnaces, kiln, gas producers, annealing and open hearth furnaces, coke oven, etc., but excluding steel work for standard manufactured lines of furnaces and ovens.
Gas holders.
Gates; taintor, crest, fixed wheel, lock and such water control steelwork.
Head frames, mining, excluding operating machinery.
Heads, pressed or spun.
Heat exchangers, industrial, commonly made by fabricators, such as heat exchangers for refineries, power plants, paper mills, chemical, sugar and plastic plants.
Kettles, industrial.
Ladles, industrial, melting.
Mixers; hot metal.
Oil well derricks and platforms, commonly made by fabricators, excluding operating machinery and equipment.
Penstocks and siphons.
Piping and special fittings; including water and gas pipe, power and process plant piping; but excluding mill products and standard lines of manufactured fittings and valves.
Pots, melting and smelting.

Pressure vessels and process vessels, such as absorbers, accumulators, air receivers, anhydrous ammonia, bubble towers and trays, catalytic cracking, coke drums, columns (distilling and fractionating), contact towers, creosoting cylinders, digesters, fractionating towers, gas scrubbers, gas separators, process, regenerators, retorts, stills, stripping columns, synthesis converters.
Retorts, smelting.
Structural steel for bridges.
Structural steel for industrial, commercial, institutional, and residential buildings, power plants, sub-stations, permanent grandstands, airplane hangars, and other structures.
Structural steel, light, architectural and miscellaneous iron work; this includes angle irons, fire escapes, balconies, marques, stairs, bank fixtures, expansion joint or load transferring devices, ladders, walk-ways and platforms, railings.
Smoke stacks.
Stand pipes.
Surge tanks.
Tanks; pressure and non-pressure, such as accumulator, air receivers, anhydrous ammonia, barge and railroad car (excluding those made by railroad car and ship building companies), beer storage, blowdown, brine, butane and propane (L. P. gas), chemical processing, floating roof and roof expansion, gasoline and oil storage, processing and storage.
Towers; radio, radar, television and transmission, including galvanized towers.
Tunnel linings.
Steel work for turntables—commonly made by fabricators.
Weldments except when made as component of machinery by the machinery manufacturer.
Wind tunnels.

[F. R. Doc. 52-7697; Filed, July 10, 1952; 12:01 p. m.]

[Ceiling Price Regulation 17, Supplementary Regulation 11]

CPR 17—GASOLINES, NAPHTHAS, FUEL OILS AND LIQUEFIED PETROLEUM PRODUCTS, NATURAL GAS, PETROLEUM GAS, CASINGHEAD GAS AND REFINERY GAS

SR 11—SPECIFIC CEILING PRICES AT WEST COAST POINTS FOR AUTOMOTIVE GASOLINES, KEROSENE, DIESEL FUELS, FURNACE AND STOVE OILS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Supplementary Regulation 11 to Ceiling Price Regulation 17 (16 F. R. 3033), is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation to Ceiling Price Regulation 17 establishes specific dollars and cents ceiling prices for tank wagon sales of automotive gasolines, kerosene, diesel fuels, furnace oil and stove oil at the majority of bulk plants and areas adjacent to such bulk plants in the States of California, Oregon, Washington, Arizona, and Nevada. It also establishes specific ceiling prices for bunker grade diesel fuel for delivery by pipe line into barges, or bunker tanks of ocean-going vessels at major bunkering ports in the States of California, Oregon, and Washington. It is issued to implement the previously announced intent of the Director of Price Stabilization to establish specific ceiling prices wherever possible and as quickly as possible.

Specific ceiling prices are administratively desirable because they are precise, easily understood, and readily enforceable. They result in substantial savings in manpower and cost of administration to government and to business. They help consumers readily to ascertain the ceiling prices of products. It is particularly appropriate to take this action in the aforementioned States where the impact of procurement of petroleum products for military use and for the general defense program is resulting in extreme economic pressures, and where there have been many requests for the establishment of specific ceiling prices.

To determine the specific ceiling prices enumerated in this regulation, the Office of Price Stabilization, with the assistance of the West Coast Petroleum Wholesale Industry Advisory Committee, undertook in June 1951 a survey of the wholesale ceiling prices for selected products and types of delivery in representative communities. It was anticipated that, by gathering complete information on a substantial portion of the market, data would be secured which could be used as a basis for determining ceiling prices at all bulk plants in the area. For this survey sixty-six communities were selected on the basis of population density, geographical and trade area significance, and importance as petroleum distribution points.

In furtherance of this survey, Office of Price Stabilization Public Form No. 68 was sent to the Pacific Coast wholesale petroleum marketers doing business at the communities selected. These marketers represented all types of wholesale seller, including refiner-marketers, brokers, jobbers, purchase and sale distributors, and heating oil distributors. The questionnaire asked for information on each product with respect to ceiling prices; the length of time such ceiling prices had been in effect; the current posted prices of reporting companies; and information on the current "going" prices if such "going" prices applied to more than 50 percent of the sales. Additionally, the marketers were requested to file their current posted prices and ceiling prices for all points where they sold the products surveyed.

To permit quantitative analyses of the sales volumes of each product and their relationship to ceiling prices, data as to the 1950 sales volumes were requested. The 1,100 reports received covered distribution of products of which 2,041,000,000 gallons were gasoline representing 42.1 percent of all motor gasoline sold in the five Western States during the year 1950.

From the analysis of the replies to the questionnaire it was concluded that the results of the survey were sufficient to establish the ceiling prices spelled out in this regulation. This was accomplished by an intensive review of the prices and sales volumes within the sixty-six points which conclusively indicated that ceiling prices could be spelled out on the basis of representative ceiling prices of certain marketers. Thus, the balance of the ceiling prices for all other bulk plant points was arrived at by analysis of the representative ceiling prices of the same marketers.

Ceiling prices are spelled out at those points only where evidence collected is adequate and is truly representative of specific ceiling prices. As further information is accumulated action will be taken in spelling out ceiling prices at other points.

Since sometime has elapsed between the accumulation of the information and its analysis, the ceiling prices enumerated do not include permissible transportation cost increases since September 1, 1951 but provision is made whereby these increases may be added to the specific prices. The Office of Price Stabilization will issue revised specific ceiling prices to reflect permissible transportation cost adjustments as soon as the necessary information is assembled. This supplementary regulation is not intended to roll back higher existing ceiling prices which reflect a customary differential over the market price. A provision is included to permit a seller having such a ceiling price which is higher than the specific ceiling price enumerated herein, to apply for the retention of such ceiling price. If such a ceiling is not reflective of a customary differential over the market it will be disapproved.

The issuance of this supplementary regulation will not result in increases in ceiling prices beyond increases already available to sellers under existing regulations. The primary purpose of this supplementary regulation is to eliminate the difficulties inherent in establishing ceiling prices by formula.

In the formulation of this supplementary regulation there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

FINDINGS OF THE DIRECTOR OF PRICE STABILIZATION

In the judgment of the Director of Price Stabilization the prices established by this supplementary regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Ceiling prices for motor gasoline, kerosene, premium automotive diesel fuel, regular diesel fuel, heating furnace oil and stove oil.
3. Ceiling prices for bunker grade diesel fuel.
4. Ceiling prices higher than specific prices.
5. Applicability of Ceiling Price Regulation 17.

AUTHORITY: Sections 1 to 5 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR, 1950 Supp.

SEC. 1. *What this supplementary regulation does.* This supplementary regulation spells out specific ceiling prices at certain bulk plant points located in the States of California, Washington, Oregon, Arizona, and Nevada for tank

wagon deliveries of motor gasoline, kerosene, premium automotive diesel fuel (P. S. 100), diesel fuel (P. S. 200), heating furnace oil (P. S. 200), and stove oil (P. S. 100). Also spelled out are specific ceiling prices for bunker grade diesel fuel (P. S. 200) at 4 points. These specific prices will be your ceiling prices subject to permissible adjustments made to reflect transportation increases effective after September 1, 1951. If your ceiling price prior to the effective date of this regulation was higher than the ceiling price set forth in this regulation, but your prior ceiling price reflects a customary differential over the market, you may apply to the Office of Price Stabilization for permission to retain such a higher ceiling price.

SEC. 2. *Ceiling prices for motor gasoline, kerosene, premium automotive diesel fuel, regular diesel fuel, heating furnace oil and stove oil.* (a) Your ceiling prices exclusive of all taxes in cents per gallon for tank wagon deliveries to all consumers and dealers at the points indicated and for the products listed shall be as follows:

(b) All tank wagon prices specified herein are applicable only within each seller's customary free delivery zone at each point. For deliveries outside of such free delivery zones to points not specifically set out herein, sellers' customary delivery differentials shall apply.

(c) Quantity differentials that may be added and must be deducted are as follows:

	400 gallons and over	200–399 gallons	40–199 gallons	Under 40 gallons
Second grade gasoline.	Base price	Add 0.5 cent/gallon	Add 1 cent/gallon	Add 4 cents/gallon.
Kerosene	Deduct 4 cents/gallon	Deduct 3 cents/gallon	Base price	Do.
Premium automotive diesel.	Base price	Add 0.5 cent/gallon	Add 1 cent/gallon	Add 5 cents/gallon.
Diesel fuel	do	do	do	Do.
Furnace oil	do	do	do	Do.
Stove oil	do	do	do	Do.

(d) For premium grades of gasoline you shally apply your customary differential between regular and premium grades. For third grade gasoline you shall apply your customary differential between regular and third grade gasoline.

(e) The specific ceiling prices set forth in this section may be adjusted to reflect any increases in transportation costs occurring since September 1, 1951 in accordance with section 25 of Ceiling Price Regulation 17.

SEC. 3. *Ceiling prices for bunker grade diesel fuel.* Ceiling prices for pipeline deliveries into barges or bunkering tanks of ocean-going motor ships f. o. b. refineries or marine terminals for the enumerated localities shall be as follows:

	Excluding all taxes (per barrel)
Los Angeles Harbor	$3.44
San Francisco Harbor	3.65
Portland, Oreg	3.86
Seattle, Wash	3.86

To the above ceiling prices each seller may apply his customary differentials for quantity or method of delivery at facilities or points other than those enumerated. These ceiling prices shall not apply for cargo deliveries.

SEC. 4. *Ceiling prices higher than specific prices.* You may apply for a higher ceiling price if your ceiling price prior to the effective date of the regulation was higher than the ceiling price set forth in this regulation, and if such higher ceiling price reflects the maintenance of a customary differential over the market price. This application shall be filed with the Regional Office of the Office of Price Stabilization for that region in which is located the point where such higher ceiling price is applicable and shall include your name and address, product, the higher ceiling price, the delivery point and a showing that the differential over the market has been customarily applied by you at this point. Your application must be filed by regis-

tered mail, return receipt requested. When your application has been received by the appropriate Regional Office of the Office of Price Stabilization, as shown by your return postal receipt, you may continue to use such higher ceiling price until it is disapproved or modified by the Office of Price Stabilization.

SEC. 5. *Applicability of Ceiling Price Regulation 17.* Sellers subject to this supplementary regulation shall be subject to all the provisions of Ceiling Price Regulation 17, not inconsistent herewith.

Effective date. This supplementary regulation shall become effective July 15, 1952.

NOTE: The reporting and record keeping requirement of this regulation have been approved by the Bureau of the Budget in Accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 10, 1952.

[F. R. Doc. 52-7698; Filed, July 10, 1952; 4:00 p. m.]

[Ceiling Price Regulation 155]

CPR 155—CEILING PRICES FOR WESTERN RED CEDAR AND INTER-MOUNTAIN POLES AND PILING

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Ceiling Price Regulation 155 is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes producers' dollar and cent ceiling prices for sales of untreated Western Larch and Inland Douglas Fir poles, piling, anchor logs, reinforcing stubs and short round material produced in the portion of the United States west of the 100th Meridian and east of the crest of the Cascade Mountains. It also establishes producers' ceiling prices for similar items of Western Red Cedar produced in the United States west of the 100th Meridian. Further, it provides a method for determining ceiling prices for the sales of those items after they have been preservatively treated.

Nature of the industry. Western Red Cedar pole production in the coast region is principally in the longer lengths, while production in the inland region is mainly in the shorter and intermediate lengths. Harvesting of the longer poles in the coast region, where the terrain is more rugged, requires greater care and heavier equipment than is necessary in the inland region. To maintain the historical differential between the prices of Western Red Cedar poles produced in the coast and inland regions, separate ceiling prices for each of those regions are established.

Poles and pilings are select peeled logs generally cut in longer lengths than saw logs. Poles are used to support telephone and electric distribution and transmission lines. Piling is used in the foundation of buildings, and in the construction of bridges, docks, and wharves. Specifications of the American Standards Association for poles and of the American Society for Testing Materials for piling require that these items be selected from trees that are free from defects and of a degree of straightness not required of saw logs. Because of these strict requirements, trees suitable for production into poles or piling are generally limited in number and scattered throughout a tract of timber. For this reason, and because poles and piling are cut and handled in longer lengths than saw logs, the entire operation of producing poles and piling is at every step more expensive than that involved in the production of saw logs. As a result, the prices paid for poles and piling normally are higher than those paid for saw logs.

An unusually small demand for poles and piling during the first half of 1950, accentuated by competition from light weight steel towers, served to depress the market price of poles and piling. The production of poles for 1950, in the principal production area, was only about two-thirds of the 1949 total.

A long period normally intervenes in this industry between the contract date and the delivery date. Hence, in the case of pole companies accounting for a major portion of the output, the freeze prices established by the General Ceiling Price Regulation, issued January 26, 1951, were generally the price quotations of the third and fourth quarters of 1950.

Because of the freeze of prices at the abnormally low level prevailing when the General Ceiling Price Regulation was issued, production of poles and piling has been less profitable than the production of saw logs. During 1951 production of poles, particularly of the longer lengths required for transmission lines, fell considerably below normal, and recently the sale of Western Red Cedar poles of the transmission lengths has almost stopped.

During the past year, the demand for transmission poles has increased because of the government's efforts to encourage substitution of wood poles for steel. Of late, the requirements are being met through use of pressure-treated Douglas Fir poles produced in the coast region, the ceiling prices of which were raised 20 to 40 percent above GCPR levels by Ceiling Price Regulation 126, issued February 21, 1952. Pressure-treated Douglas Fir poles are currently selling in the midwestern states, which constitute the normal market area for Western Red Cedar poles, at prices 40 to 50 percent higher than the ceilings for Western Red Cedar poles which meet the same specifications.

Nature of this regulation. This regulation partially restores the long-term relationship, in the area affected, between the prices of poles and piling and the prices of saw-logs. Ceiling prices for Western Larch and Inland Douglas Fir poles are established at the GCPR levels. Ceiling prices for Western Red Cedar of lengths through 50 feet are approximately the GCPR average prices prevailing in the coast and inland regions. The GCPR prices on transmission lengths, 55 feet and longer, are considered by the industry as being inadequate to obtain necessary production for essential users. For such lengths ceiling prices averaging 10 percent above the GCPR level are established. It is estimated that, on a weighted average basis, the ceiling prices established by this regulation for Western Red Cedar poles of all lengths are approximately three percent above the GCPR ceilings.

The basic ceiling prices established by this regulation are for untreated poles and piling, f. o. b. carload or boomed and rafted in towable waters. In addition, the regulation makes provision for delivered sales, with transportation charges computed on the basis of established weights set forth in the regulation. In recognition of industry practices, the regulation permits the use of basing points in calculating transportation charges on delivered sales.

Almost all untreated poles and piling are purchased by wood preserving plants, and are thereafter preservatively treated and resold before they are ultimately used. Thus, untreated poles and piling are the raw products from which the items actually used are produced. Therefore, if an adequate supply of poles and piling is to be made available to ultimate users, the prices for treated items must reflect, and be in line with, the prices of untreated items. To achieve this result, the regulation provides a method whereby sellers of treated items shall adjust their present ceiling prices to reflect the ceiling prices established by the regulation for untreated poles and piling.

FINDINGS OF THE DIRECTOR OF PRICE STABILIZATION

In the judgment of the Director of Price Stabilization the ceiling prices established by this regulation are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended.

So far as practical in the formulation of this regulation, the Director of Price Stabilization has given due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended; to prices prevailing during the period from May 24, 1950 to June 24, 1950, inclusive; to those prevailing during the period January 25 through February 24, 1951, as well as to the level of prices prevailing just before the issuance of this regulation; and to all relevant factors of general applicability.

In formulating this regulation, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. This consultation included a meeting with the Intermountain Poles and Piling Industry Advisory Committee.

Every effort has been made to conform this regulation to business practices existing with respect to the production, sale and distribution of poles and piling covered in the regulation. Insofar as any provisions of this regulation may operate to compel changes in those business practices, such provisions are found by the Director of Price Stabilization to be necessary to prevent circumvention or evasion of this regulation.

REGULATORY PROVISIONS

Sec.
1. What this regulation does.
2. Geographical applicability.
3. Explanation of ceiling prices.
4. Ceiling prices for untreated Inland Douglas Fir and Western Larch poles and piling.
5. Ceiling prices for untreated Western Red Cedar poles and piling.
6. General additions to basic ceiling prices in sections 4 and 5.
7. Ceiling prices for untreated anchor logs, reinforcing stubs, and short round material.
8. Additions for less than carload sales.
9. Inspection service.
10. Transportation charges.
11. Preservatively treated items.
12. Application for ceiling prices for untreated items.
13. Invoices.
14. Modification of proposed ceiling prices by the Director of Price Stabilization.
15. Petitions for amendment.
16. Adjustable pricing.
17. Records.
18. Interpretations.
19. Prohibitions and violations.
20. Evasions.
21. Definitions.

AUTHORITY: Sections 1 to 21 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this regulation does.* (a) This regulation establishes producers' ceiling prices for all sales of untreated Inland Douglas Fir and Western Larch poles, piling, anchor logs, reinforcing stubs, and short round material produced in the portion of the United States west of the 100th meridian and east of the crest of the Cascade Mountains. It also establishes producers' ceiling prices for all sales of the same items of Western Red Cedar produced in the entire portion of the United States west of the 100th meridian. Further, this regulation establishes ceiling prices for the sales by treaters of those items after they have been preservatively treated.

(b) Except as provided in section 11, this regulation supersedes the General Ceiling Price Regulation insofar as it pertains to the transactions covered by this regulation.

SEC. 2. *Geographical applicability.* The provisions of this regulation are applicable in the 48 States of the United States and the District of Columbia.

SEC. 3. *Explanation of ceiling prices.* (a) The basic ceiling prices for untreated Inland Douglas Fir, Western Larch, and Western Red Cedar poles, piling, anchor logs, reinforcing stubs and short round material set out in sections 4, 5, and 7 are f. o. b. carload ceiling prices at your normal loading out point, or are ceiling prices that apply when the items you sell are boomed and rafted in towable waters at your normal loading out point. The term "normal loading out point" means the siding or point on a railroad, or the booming and rafting grounds in towable waters, to which the items can be most cheaply transported from their place of production for shipment by rail or raft to the point of destination. If you make delivery beyond your normal loading out point, section 10 permits you to make certain transportation charges.

(b) *Reduction for nondelivery at normal loading out point and nonperformance of services.* (1) If you do not deliver your untreated items to a normal loading out point, the established ceiling prices are reduced by an amount equal to the sum of (i) the cost of transporting the untreated items from the place of delivery to a normal loading out point, and (ii) the cost of loading on cars or of booming and rafting the items involved. In computing the transportation cost, you must apply applicable commercial trucking or common carrier railroad rates; and in computing the loading or booming and rafting cost, you must apply applicable commercial rates for such services.

(2) If, when you deliver your items to a normal loading out point you do not load them on cars or boom and raft them, the established ceiling prices are reduced by an amount equal to the cost of the service or services you do not perform, computed by applying appropriate commercial rates.

SEC. 4. *Ceiling prices for untreated Inland Douglas Fir and Western Larch poles and piling.* (a) Basic Ceiling Price and Established Weight Table for Untreated Clean Peeled Inland Douglas Fir and Western Larch poles: (Specifications and dimensions are those shown in "American Specifications and Dimensions for Wood Poles 05.1—1948", published by American Standards Association, called A. S. A.)

Length in feet	Class	Established weight in pounds per pole: Inland Douglas Fir	Established weight in pounds per pole: Western Larch	Basic ceiling price per pole
40	1	1,515	1,590	$13.35
	2	1,340	1,410	13.05
	3	1,185	1,245	12.25
	4	995	1,045	11.50
	5	790	830	10.70

	4	1,375	1,680	17.15
	5	1,120	1,365	15.75
55	1	2,460	3,005	29.65
	2	2,130	2,600	27.60
	3	1,845	2,250	28.80
	4	1,590	1,945	20.90
	5	1,325	1,615	17.60
60	1	2,860	3,500	33.70
	2	2,425	2,960	32.20
	3	2,115	2,585	28.70
	4	1,755	2,140	25.65
	5	1,495	1,825	24.20
65	1	3,305	4,025	39.85
	2	2,795	3,410	36.80
	3	2,405	2,935	33.70
	4	2,010	2,455	30.25
	5	1,700	2,055	27.60
70	1	3,750	4,555	44.60
	2	3,130	3,820	37.25
	3	2,650	3,235	34.00
	4	2,225	2,720	30.30

NOTE.—A heavy duty pole having a minimum circumference 6 feet from the butt equal to that of a class 1 pole 15 feet longer may be priced at the same ceiling price and the established weight of a class 1 pole 15 feet longer.

(b) Piling: The ceiling prices and established weights for piling shall be the same as those set out in paragraph (a) for a pole of the same species and the nearest comparable measurement.

SEC. 5. *Ceiling price for untreated Western Red Cedar poles and piling.* (a) Basic Ceiling Prices and Established Weight Table for Untreated Clean Peeled Western Red Cedar Poles: Specifications and dimensions are those shown in American Specifications and Dimensions for Wood Poles, 05.1—1948, published by American Standards Association called A. S. A.)

Length in feet	Class	Established weight in pounds per pole	Basic ceiling price per pole produced in coast region	Basic ceiling price per pole produced in inland region

	2	4,930	187.95	183.80
	3	4,225	154.65	154.65

NOTE.—A heavy duty pole having a minimum circumference 6 feet from the butt equal to that of a class 1 pole 15 feet longer may be priced at the same ceiling price and established weight of a class 1 pole 15 feet longer.

(b) Piling: The ceiling prices and established weights for Western Red Cedar piling shall be the same ceiling prices and established weights as set out in paragraph (a) for a Western Red Cedar pole of the nearest comparable measurement.

SEC. 6. *General additions to basic ceiling prices in sections 4 and 5.* Under the circumstances indicated in this section, you may make the following additions to the basic ceiling prices for poles and piling set forth in sections 4 and 5:

(a) For specified length groups in four consecutive lengths of A. S. A. multiples, you may add as much as $0.01 per lineal foot.

(b) For specified length groups in three consecutive lengths of A. S. A. multiples, you may add as much as $0.02 per lineal foot.

(c) For specified length groups in two consecutive lengths of A. S. A. multiples, you may add as much as $0.03 per lineal foot.

(d) For two or more consecutive length groups requiring restricted loading, you may add an additional two-thirds of the appropriate additions permitted by paragraphs (a), (b), and (c).

(e) For specified single lengths, you may add as much as $0.04 per lineal foot.

NOTE: For specified length groups of five or more consecutive lengths in A. S. A. multiples, no addition is allowed.

(f) For clean peeled poles or piling which are produced during the winter peeling or bark stuck season (October 1st to May 1st, inclusive), you may add as much as $0.05 per lineal foot.

(g) For rough peeled poles or piling which are produced during the winter peeling or bark stuck season (October 1st to May 1st, inclusive), you may add as much as $0.035 per lineal foot.

(h) When a buyer's request exceeds your supply of a specific class and length of pole, you may fill the request by cutting off no more than five feet from a pole 45 feet or shorter of a lower class, and by cutting off no more than ten feet from a pole 50 feet or longer of a lower class. You may charge the ceiling price for the pole that was cut back without a deduction for the reduced footage. However, any additions for transportation on the cut-back poles shall be those additions applicable to the class and length of pole ordered by the buyer, and no addition may be made for labor involved in the cutting-back operations.

SEC. 7. *Ceiling prices for untreated anchor logs, reinforcing stubs, and short round material.* (a) Basic Ceiling Prices and Established Weight Table for Untreated Anchor logs, Reinforcing Stubs and Short Round Material of all Species covered by this regulation:

Minimum diameter in inches at small end	Minimum circumference in inches at small end	Established weight in pounds per lineal foot	Basic ceiling price per lineal foot or fraction thereof

14	44	45	.52
15	47	50	.56
16	50	55	.60

SEC. 8. *Addition for less than carload sales.* On shipments of less than carload minimum weights (as defined by railroad tariffs), when the total established weight is less than 75 percent of applicable railroad car minimum weight, you may add a service charge of not more than 25 percent of the appropriate ceiling prices.

SEC. 9. *Inspection service.* When a buyer requests special inspection service to be furnished by an inspection agency designated by the buyer, you may add the actual cost to you of such service to the selling price of the item inspected.

SEC. 10. *Transportation charges.* If you make delivery beyond your normal loading out point, you may add to the ceiling prices established by this regulation a transportation addition determined as follows:

(a) *Common or contract carrier shipments.* (1) When established weights are used, multiply the applicable published rate (through or in transit, as the case may be) in effect at the time of shipment by the appropriate established weight. You should note that weights higher than those set forth in this regulation may not be used in making this computation.

(2) When established weights are not used, the amount added for transportation must not be more than the amount actually paid to the common or contract carrier.

(3) If an in transit rail rate is applicable which results in a lower total cost of transportation, the in transit rate must be used in computing the transportation addition authorized in this section.

(4) The transportation addition must be evened out to the nearest quarter cent per lineal foot, or five cents per pole, whichever is applicable.

(b) *Basing points.* You may compute the transportation addition on delivered sales by using one of the following basing points:

(1) On east bound shipments by rail of Western Red Cedar, the transportation addition may be computed by multiplying the appropriate established weight by the rail freight rate from Seattle, Washington, in effect at the time of shipment.

(2) On east bound shipments by rail of Western Larch and Inland Douglas Fir, the transportation addition may be computed by multiplying the appropriate established weight by the rail freight rate from Spokane, Washington, in effect at the time of shipment.

(3) On shipments of Western Red Cedar originating west of the crest of the Cascade Mountains, the transportation addition may be computed by multiplying the appropriate established weight by the rail freight rate from Bellingham, Washington, in effect at the time of shipment.

(c) *Private truck shipment.* When shipment is by truck, which you own or control, you may add as much as the published commercial transportation rates. If there is no published rate, the actual cost of transportation may be charged. This means your out-of-pocket cost.

SEC. 11. *Preservatively treated items.* (a) (1) You shall determine your ceiling prices for preservatively pressure or non-pressure treated items by taking your General Ceiling Price Regulation ceiling price for a purchaser of the same class for the treated item and adjusting it to reflect the dollar and cent difference between the highest price at which you contracted to purchase the item in its untreated form during the period from January 25 through February 24, 1951, and the ceiling price established by this regulation for the identical untreated item.

For example, assume that your General Ceiling Price Regulation ceiling price for a treated pole is $14.00 per pole, that your highest contract to purchase price of the pole in its untreated form was $9.50 per pole, and that the ceiling price for the identical untreated pole is $10.15 under this regulation. Your ceiling price for the treated pole is now $14.65 ($10.15−$9.50=$0.65; $0.65 added to $14.00=$14.65).

(2) If you did not contract to purchase an item in its untreated form during the period from January 25 through February 24, 1951, then you shall adjust your GCPR ceiling price for the item to reflect the dollar-and-cent difference between the highest price at which you contracted to purchase the nearest length untreated item of the same kind and the ceiling price established by this regulation for that nearest length untreated item. (The term "kind" refers to poles, piling, and the other items covered by this regulation. For poles, the term "same kind" means a pole of the same class; for piling, the term "same kind" means piling with the same minimum butt dimensions. "Class" has the meaning given in American Standard Specifications and Dimensions for Wood Poles, 05.1—1948.)

(3) In applying the provisions of paragraphs (1) and (2) of this section, if your contract to purchase price is higher than the ceiling price established by this regulation, you must adjust your GCPR ceiling price to reflect such decrease.

(b) Application for establishment of a ceiling price: If you cannot ascertain your ceiling price for a treated item under paragraph (a) of this section, you must apply by registered mail, return receipt requested, to the Director of Price Stabilization, Washington 25, D. C., for the establishment of a ceiling price. Your application must set forth the following:

(1) As complete a description as possible of the item. This should include the species, class, length, and specifications.

(2) A statement explaining why you are unable to ascertain a ceiling price under paragraph (a) of this section.

(3) The ceiling price of your most closely competitive seller ("Your most closely competitive seller" is the seller of treated items subject to this regulation with whom you are in most direct competition even though he may perform a different function with respect to the items he is selling).

(4) Your proposed ceiling price.

(5) A statement explaining why you believe your proposed ceiling price is in line with the level of ceiling prices established by this regulation.

(c) If you cannot determine a ceiling price under paragraph (a) of this section and file an application for the establishment of your ceiling price, you may not sell the item in question until the Director of Price Stabilization establishes a ceiling price for you. If the Director of Price Stabilization does not notify you to the contrary or request further information from you within 20 days after the date on the return receipt of your application, or within 15 days after the receipt of requested further information, your proposed ceiling price shall be deemed to have been approved, subject to non-retroactive disapproval or modification at a later date.

(d) All provisions of the General Ceiling Price Regulation which are not inconsistent with the provisions of this section, remain in effect with respect to sellers of the preservatively treated items covered by this section.

SEC. 12. *Application for ceiling prices for untreated items.*—(a) *Application.* If you cannot ascertain a ceiling price for untreated items subject to this regulation, as for example, should you wish to sell items with specifications or other extras not specifically mentioned in this regulation, you must file an application with the Director of Price Stabilization, Washington 25, D. C., for approval of a ceiling price. Your application must be made by registered letter, return receipt requested, and must set forth the relevant facts, including the following:

(1) As complete a description as possible of the untreated items for which the application is filed. This should include, the species, class, length, specifications, or other extras involved.

(2) Your proposed ceiling price, together with a statement indicating why you believe it is in line with the level of ceiling prices established under this regulation.

(3) The most nearly comparable untreated item for which a ceiling price is established by this regulation.

(4) The proposed use to which the buyer will put the item for which you are proposing a special ceiling price.

(b) *Quotation of proposed prices.* After an application has been filed under this section, and before action by the Director of Price Stabilization, you may sell your items at a price not higher than the ceiling price proposed in your application, provided that you agree to refund, and later refund, to the buyer, the amount, if any, by which your proposed ceiling price exceeds the ceiling price established by the Director of Price Stabilization.

(c) *Action by the Director of Price Stabilization.* (1) After receipt of an application made under this section, the Director of Price Stabilization will approve or disapprove your proposed ceiling price, will request additional information about it, or will establish a different ceiling price for the item that is the subject of your application.

(2) If the Director does not notify you to the contrary or request additional information from you within 20 days after the receipt of your application or within 15 days after the receipt of requested additional information, your proposed ceiling price shall be deemed to have been approved, subject to non-retroactive disapproval or modification at a later time.

SEC. 13. *Invoices.* On all sales of items covered by this regulation you must submit an invoice to the buyer which as a minimum shows:

(a) The prices charged by you for each item, together with the quantity involved;

(b) A description of the item, including the species, class, length, and type of treatment, if any involved;

(c) Transportation charges, extras, and services that bear on the price charged by you (the charges need not be shown separately for such items);

(d) On delivered sales involving a rail or truck shipment, the point of destination of the shipment and the applicable rail or truck rate.

SEC. 14. *Modification of proposed ceiling prices by the Director of Price Stabilization.* The Director of Price Stabilization may at any time disapprove or reduce ceiling prices proposed under sections 11 and 12 of this regulation so as to bring them into line with the level of ceiling prices otherwise established by this regulation.

SEC. 15. *Petitions for amendment.* If you wish to have this regulation amended, you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation 1, Revised.

SEC. 16. *Adjustable pricing.* Nothing in this regulation prohibits you from making a contract or offer to sell at (a) the ceiling price in effect at the time of delivery, or (b) the lower of a fixed price or the ceiling price in effect at the time of delivery. You may not, however, deliver, or agree to deliver, at a price to be adjusted in accordance with any increase in ceiling prices after delivery.

SEC. 17. *Records.*—(a) *Existing records.* On and after the effective date of this regulation, for so long as the Defense Production Act of 1950, as amended, shall remain in effect and for two years thereafter, you shall maintain, and keep for examination by the Director of Price Stabilization, all your existing records relating to prices charged by you for the untreated and treated items covered by this regulation which you sold or contracted to sell during the period from December 19, 1950 through February 24, 1951, as well as all records pertaining to the untreated and treated items covered by this regulation which you were required to keep under the provisions of section 16 (a) of the General Ceiling Price Regulation. If you are a seller of treated items covered by this regulation, you must, in addition, maintain, and keep for examination of the Director of Price Stabilization, all your existing records relating to the prices at which you purchased or contracted to purchase untreated items covered by this regulation during the period from December 19, 1950 through February 24, 1951.

(b) *Current records.* After the effective date of this regulation, every person who sells and every person who, in the regular course of business, buys items subject to this regulation shall make and keep for inspection by the Director of Price Stabilization, for a period of two years after each sale, accurate records or invoices of each sale or purchase made in any month in which the seller sold or the buyer bought more than $1,000 worth of items subject to this regulation. The records must show:

(1) The dates of sales or purchases;

(2) The names and addresses of the sellers and buyers;

(3) The kind of sales involved, i. e., delivered or f. o. b.;

(4) A description of the items sold or bought, including the species, class, length, specifications, and any extras involved.

(5) The prices charged or paid, including all additions, extras, and discounts;

(6) The point of origin and point of destination of the shipment, the means of transportation used, the amount of any additions for transportation, and the basing point, if any, upon which the transportation addition may have been computed.

(c) *Compliance.* The retention by a buyer of an invoice furnished by a seller, which includes the factual information required to be made a matter of record by this section, shall be considered as compliance with the provisions of this section.

SEC. 18. *Interpretations.* If you want an official interpretation of this regulation, you should write to the District Counsel of your local OPS District Office. Any action taken by you in reliance upon, and in conformity with a written official interpretation, will constitute action in good faith pursuant to this regulation. Further information on obtaining official interpretations is contained in Price Procedural Regulation 1, Revised.

SEC. 19. *Prohibitions and violations.* (a) You shall not do any act prohibited or omit to do any act required by this regulation, nor shall you offer, solicit, attempt, or agree to do or omit to do any such acts. Specifically, but not in limitation of the above, you shall not, regardless of any contract or other obligation, sell and no person in the regular course of trade or business shall buy from you at a price higher than the ceiling prices established by this regulation, and you and buyers from you shall keep, make and preserve true and accurate records and reports required by this regulation.

(b) If you violate any provisions of this regulation, you are subject to criminal penalties, enforcement action, and actions for damages. Prices lower than the ceiling prices may be charged, paid, or offered.

(c) If any person subject to this regulation fails to prepare or keep any record or file any report required by this regulation in connection with the establishment of his ceiling price, or if any person subject to this regulation fails to establish a ceiling price or apply to the Office of Price Stabilization for the establishment of a ceiling price, if he is required to do so, the Director of Price Stabilization may issue an order fixing his ceiling prices. Any ceiling price fixed in this manner will be in line with ceiling prices generally established by this regulation. The order fixing the ceiling price may apply to all deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of this regulation or of the various penalties for failure to do so.

SEC. 20. *Evasions.* Any means or device which results in obtaining indirectly a higher price than is permitted by this regulation, or in concealing or falsely representing information as to which this regulation requires records to be kept, is a violation of this regulation. This prohibition includes, but is not limited to, means or devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, up-grading, tie-in agreements and trade understandings, as well as the omission from records of true data and the inclusion in records of false data.

SEC. 21. *Definitions.* (a) The terms used in this regulation shall be construed as follows:

(1) *Anchor logs.* This term means a peeled or unpeeled section of a tree longer than one foot in length, suitable for burying in the ground and to which a cable may be attached.

(2) *Coast region.* This term means the portion of the United States west of the crest of the Cascade Mountains.

(3) *Director of Price Stabilization.* This term extends to any official, including officials of Regional or District offices, to whom the Director of Price Stabilization, by order, delegates a function, power, or authority referred to in this regulation.

(4) *Inland region.* This term means the portion of the United States west of the 100th meridian and east of the crest of the Cascade Mountains.

(5) *Most closely competitive seller.* This term is defined in section 11.

(6) *Normal loading out point.* This term is defined in section 3.

(7) *Person.* This term means an individual, corporation, partnership, association, or any other organized group of persons, or the legal successors or representatives of the foregoing, and the United States and any other government or their political subdivisions or agencies.

(8) *Piling.* This term means any round, peeled or unpeeled, section of a tree longer than 14 feet, suitable for driving in the ground to form a foundation for construction purposes, such as for wharves, bulkheads, and buildings.

(9) *Pole.* This term means any round, peeled or unpeeled, section of a tree longer than 14 feet, suitable for the support of transmission or communication lines at varying heights above the ground.

(10) *Purchaser of the same class.* The meaning of this term is determined by reference to your own practice of setting different prices for sales to different purchasers or groups of purchasers. The practice may, but need not, be based on the characteristics or distributive level of the buyer; for instance, manufacturer, wholesaler, individual retail store, retail chain, mail order house, government agency, or public institution. It may, but need not, be based on the location of the purchaser or the quantity or kinds of lumber purchased by him. It may, but need not, be based on differing terms or conditions of sale or delivery. If you have followed the practice of giving an individual customer a price differing from that charged others, that customer is a separate class of purchaser.

(11) *Records.* This term includes books of account, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and other papers and documents.

(12) *Reinforcing stub.* This term means a peeled or unpeeled section of a tree longer than four feet in length, suitable for reinforcing a pole at the ground line.

(13) *Sell.* This term includes sell, supply, dispose, barter, trade, lease, exchange, transfer, deliver, and contracts and offers to do any of the foregoing. The term "buy" and "purchase" shall be construed accordingly.

(14) *Short round material.* This term means a peeled or unpeeled section of a tree longer than one foot in length, which may be used for miscellaneous purposes, including fence posts, corral posts, and highway guard rail posts.

(15) You. The pronoun "you" indicates a producer selling an untreated item, or a treater selling a treated item, subject to this regulation. The term "your" and "yours" shall be construed accordingly.

Effective date. This Ceiling Price Regulation 155 is effective July 15, 1952.

NOTE: The reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 10, 1952.

Chapter VI—National Production Authority, Department of Commerce

[NPA Reg. 2, Direction 5 of July 10, 1952]

NPA REG. 2—BASIC RULES OF THE PRIORITIES SYSTEM

DIR. 5—RESCHEDULING OF DELIVERIES UNDER NPA DIRECTIVES AFFECTED BY WORK STOPPAGE IN STEEL INDUSTRY

This direction to NPA Reg. 2, as amended, is found necessary and appropriate to promote the National Defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the direction affects many different industries.

Sec.
1. What this direction does.
2. Postponement of delivery date.
3. Rescheduling of delivery.
4. Notification to customers and to NPA.

AUTHORITY: Sections 1 to 4 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this direction does.* This direction permits any producer of steel or of any other product containing steel to postpone, and requires him to reschedule, the delivery date specified in any NPA directive issued to him where his inability to meet the specified delivery date is due to the current work stoppage in the steel industry. The effect of this direction is thus to amend such NPA directives with respect to their delivery dates.

SEC. 2. *Postponement of delivery date.* Whenever any producer of steel or of any other product containing steel finds that, due to a shortage of steel resulting from the current work stoppage in the steel industry, he is unable to meet the delivery date specified in any NPA directive issued to him, he is hereby authorized to postpone such delivery date until such time as he is able to make delivery in accordance with section 3 of this direction.

SEC. 3. *Rescheduling of delivery.* As soon as practicable after resumption of steel production (in the case of steel producers) or after resumption of receipts of steel (in the case of producers of other products containing steel), each producer shall reschedule his operations in such a manner as to accomplish delivery on all orders covered by NPA directives in the sequence of their originally specified delivery dates.

SEC. 4. *Notification to customers and to NPA.* Upon determination of the rescheduled delivery dates on orders covered by NPA directives, the producer shall immediately give written notice of such rescheduled dates to his customers, specifying the NPA directive numbers. Copies of such notices shall be promptly forwarded to the National Production Authority, Washington 25, D. C. The giving of such notice shall have the effect of amending the NPA directives as to delivery date.

This direction shall take effect July 10, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[F. R. Doc. 52-7696; Filed, July 10, 1952; 11:45 a. m.]

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5917]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

NATIONAL COLLEGE OF AUDIOMETRY AND FRANK KEEFE

Subpart—*Advertising falsely or misleadingly:* § 3.15 *Business status, advantages, or connections—Individual or private business as educational, religious or research institution: Non-profit character: Qualifications and abilities:* § 3.205 *Scientific or other relevant facts.* Subpart—*Using misleading name—Vendor:* § 3.2410 *Individual or private business being educational, religious or research institution or organization.* In connection with the offering for sale, sale and distribution in commerce, of respondents' course of study and instruction, (1) representing by offering to grant or confer or through granting or conferring upon purchasers of respondents' course of home study and instruction through correspondence any so-called academic degrees, or by any other means, that corporate respondent is an accredited and standard college or institution of higher learning; (2) using the word "college" or any abbreviation or simulation thereof, to designate, describe or refer to respondents' school; or otherwise representing, directly or by implication, that the business conducted by respondents is a college or institution of higher learning; (3) representing, directly or by implication, that respondent Frank Keefe is the holder of any accredited and recognized academic degrees pertaining to the subject of audiometry; (4) representing that respondents' school is recognized and accepted or approved as a non-profit educational institution by the Treasury Department of the United States; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, National College of Audiometry et al., Chicago, Ill., Docket 5917, April 7, 1952]

In the Matter of National College of Audiometry, a Corporation, and Frank Keefe, Individually and as Officer of Said Corporation

This proceeding was heard by William L. Pack, hearing examiner, theretofore duly designated by the Commission, upon the complaint of the Commission, respondents' answer, and a hearing at which a stipulation of facts, which was duly filed in the office of the Commission, and which provided that the facts set forth therein should constitute the statement as to the facts in the proceeding and be the basis for the findings as to the facts and conclusion and an order disposing of the proceeding, was entered into by counsel supporting the complaint and counsel for respondents and incorporated in the record.

Thereafter the proceeding regularly came on for final consideration by said examiner upon the complaint, answer, and stipulation, which had been approved by said examiner, and said examiner, counsel having elected not to submit proposed findings and conclusions for consideration by him or to argue the matter orally, after duly considering the matter and finding the proceeding was in the interest of the public, made his initial decision comprising certain findings as to the facts,[1] conclusion drawn therefrom[1] and order to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII became the decision of the Commission on April 7, 1952.

[1] Filed as part of the original document.

The said order to cease and desist is as follows:

It is ordered, That the respondents, National College of Audiometry, a corporation, and its officers, and Frank Keefe, individually and as an officer of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of respondents' course of study and instruction, do forthwith cease and desist from:

1. Representing by offering to grant or confer or through granting or conferring upon purchasers of respondents' course of home study and instruction through correspondence any so-called academic degrees, or by any other means, that corporate respondent is an accredited and standard college or institution of higher learning.

2. Using the word "college" or any abbreviation or simulation thereof, to designate, describe or refer to respondents' school; or otherwise representing, directly or by implication, that the business conducted by respondents is a college or institution of higher learning.

3. Representing, directly or by implication, that respondent Frank Keefe is the holder of any accredited and recognized academic degrees pertaining to the subject of audiometry.

4. Representing that respondents' school is recognized and accepted or approved as a non-profit educational institution by the Treasury Department of the United States.

By "Decision of the Commission and order to file report of compliance", Docket 5917, April 7, 1952, which announced and decreed fruition of said initial decision, report of compliance with the said order was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: April 7, 1952.

By the Commission.

[SEAL] D. C. DANIEL,
Secretary.

[F. R. Doc. 52-7608; Filed, July 10, 1952; 8:50 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 1—PRACTICE AND PROCEDURE

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

MISCELLANEOUS AMENDMENTS

In the matter of amendment of Part 1 of the Commission's rules by adding thereto §§ 1.301 (b) and 1.310 and

Amendment to Appendix A to Part 2 of the Commission's rules by listing therein a Treaty between the United States and Canada.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 2d day of July 1952;

The Commission having under consideration the above-captioned amendments of its rules for the purpose of listing therein the above Treaty and establishing a registration procedure thereunder:

It appearing, that a Treaty between the United States and Canada relating to mutual recognition of certain radio station and operator licenses issued by either country and providing for a certain registration procedure became effective on May 15, 1952; and

It further appearing, that the amendment to Part 2 of the Commission's rules is purely informative in nature and not subject to the rule making process prescribed by section 4 (a) of the Administrative Procedure Act, and that such process with respect to the amendment to Part 1 establishing a registration procedure would be contrary to the public interest because under the terms of the Treaty the Canadian radio station subject thereto may presently operate in the United States without registering or obtaining a permit from the Commission, since the registration provisions of the Treaty are not mandatory, and for the same reasons these amendments may be made effective immediately; and

It further appearing, that authority for these amendments is contained in sections 4 (i) and 303 (r) of the Communications Act of 1934, as amended, and in the previously mentioned treaty:

It is ordered, That effective immediately, Part 1 and Part 2 of the Commission's rules are amended as set forth below.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082; 47 U. S. C. 303)

Released: July 3, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

1. Amend Part 1, rules relating to Practice and Procedure, as follows:

a. Add the following to the "Table showing forms currently in effect and where they are referred to in Part 1 of Rules and Regulations":

FCC Form 410---------- 1.310

b. Designate the first paragraph of § 1.301 under the title "General Requirements as to Applications", as "(a)" and add paragraph (b) as follows:

(b) Canadian licensees desiring to operate in the United States under the terms of Articles 2 and 3 of the Treaty between United States and Canada, effective May 15, 1952, are required to register and obtain a permit.

c. Add § 1.310 under the title "Rules relating to filing of applications and description of application forms", as follows:

§ 1.310 *FCC Form 410, Application of Canadian Radio Station Licensees for Registration and Permit to Operate in the United States.* For use of Canadian licensees applying for a permit for operation in the United States in accordance with the terms of the treaty between the United States and Canada relating to mutual recognition of certain radio station and operator licenses issued by either country.

2. Amend Appendix A of Part 2—Frequency Allocations and Radio Treaty Matters as follows:

a. Under the title of the Appendix, delete "as of April 15, 1952" and insert "as of May 15, 1952".

b. Add the following entry chronologically to the tabulation in paragraph 1:

1952 ---- Treaty with Canada effective May 15, 1952 relating to mutual recognition by the United States and Canada of certain radio station and operator licenses issued by either country. Not available from the Government Printing Office.

[F. R. Doc. 52-7621; Filed, July 10, 1952; 8:52 a. m.]

PART 3—RADIO BROADCAST SERVICES

PART 4—EXPERIMENTAL AND AUXILIARY BROADCAST SERVICES

MISCELLANEOUS AMENDMENTS

In the matter of amendment of Parts 3 and 4 of the Commission's rules and regulations and the Standards of Good Engineering Practice concerning Standard Broadcast and FM Broadcast Stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 2d day of July 1952;

The Commission having under consideration Part 3 (Radio Broadcast Services) and Part 4 (Experimental and Auxiliary Broadcast Services) of its rules and regulations and the Standards of Good Engineering Practice Concerning Standard Broadcast Stations and the Standards of Good Engineering Practice Concerning FM Broadcast Stations, to the extent that such refer to the construction, marking and lighting of antenna structures; and

It appearing, that the Commission heretofore on December 13, 1950, adopted in Part 17 of its rules and regulations uniform requirements concerning the construction, marking and lighting of antenna structures for all radio stations licensed by the Commission, including stations licensed pursuant to the provisions of the above-entitled rules and engineering standards; and

It further appearing, that certain sections of the above-entitled rules and engineering standards are no longer necessary in light of the adoption of Part 17 of the rules; or are in some respects inconsistent therewith; and

It further appearing, that uniformity, clarity and consistency in the Commission's rules would be furthered by amendment of the above-entitled rules and engineering standards in order to reflect more accurately the provisions of Part 17 of the rules; and

It further appearing, that in light of the nature of the amendments adopted herein the provisions of section 4 of the Administrative Procedure Act with respect to notice of proposed rule making are inapplicable, and that the amendment may be effective immediately; and

It further appearing, that authority for the amendments adopted herein is contained in sections 4 (i), 301 and 303 of the Communications Act of 1934, as amended;

It is ordered, That, effective immediately, Part 3 (Radio Broadcast Services) and Part 4 (Experimental and Auxiliary Broadcast Services) of the Commission's rules and regulations, and the Standards of Good Engineering Practice Concerning Standard Broadcast Stations, and the Standards of Good Engineering Practice Concerning FM Broadcast Stations are amended as set forth below.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082; 47 U. S. C. 303)

Released: July 3, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

1. Section 3.45 is amended as follows:

Delete the parenthetical reference at end of paragraph (d) which reads: "(See Standard Lamps and Paints)" and substitute therefor: "(See Part 17 of Commission rules; Rules Concerning the Construction, Marking, and Lighting of Antenna Structures)."

2. Sections 3.65, 3.270, 3.570, 3.662, 3.768, 4.167, 4.267, 4.367, 4.466, 4.566 and 4.666 are amended as follows:

Delete present language and substitute the following:

Antenna structure, marking and lighting. Where an antenna structure(s) is required to be painted or lighted see § 17.29, *Inspection of tower lights and associated control equipment;* § 17.31, *Cleaning and repainting;* § 17.32, *Time when lights shall be exhibited;* § 17.33, *Spare lamps;* and § 17.34, *Lighting equipment;* of Part 17 of this chapter (rules concerning the construction, marking and lighting of antenna structures).

3. Sections 3.181 (c), 3.281 (c), 3.581 (c), 3.663 (c), 3.781 (d), 4.181 (b), 4.281 (b), 4.381 (b), 4.481 (b), 4.581 (b), 4.681 (b) are amended as follows:

Delete present language and substitute the following:

Where an antenna structure(s) is required to be illuminated see § 17.30, *Recording the tower light inspections in the station record,* of Part 17 of this chapter (rules concerning the construction, marking and lighting of antenna structures).

4. Section 4 of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations is amended as follows:

Delete present language of paragraph 23 which begins "Another factor to be considered * * *" and substitute the following:

23. Another factor to be considered is the relation of the site to airports and airways. Procedures and standards with respect to the Commission's consideration of proposed antenna structures which will serve as a guide to persons intending to apply for radio station licenses are contained in Part 17 of the Commission rules (rules concerning the construction, marking and lighting of antenna structures).

5. Section 6 of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations is amended as follows: Delete present section entirely.

6. Section 6 of the Standards of Good Engineering Practice Concerning FM Broadcast Stations is amended as follows:

Delete the present language of subsection E and substitute the following:

E. Cognizance must of course be taken regarding the possible hazard of the proposed antenna structure to aviation and the proximity of the proposed site to airports and airways. Procedures and standards with respect to the Commission's consideration of proposed antenna structures which will serve as a guide to persons intending to apply for radio station licenses are contained in Part 17 of the Commission rules (rules concerning the construction, marking and lighting of antenna structures).

7. Section 7 of the Standards of Good Engineering Practice Concerning FM Broadcast Stations is amended as follows: In Subsection E delete second, third and fourth paragraphs.

[F. R. Doc. 52-7623; Filed, July 10, 1952; 8:52 a. m.]

[Docket No. 10180]

PART 18—INDUSTRIAL, SCIENTIFIC AND MEDICAL SERVICE

OPERATION OUTSIDE OF ASSIGNED FREQUENCY BANDS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 2d day of July 1952;

It appearing, that on April 17, 1952, the Commission issued a notice of proposed rule making in the above entitled matter. Interested persons were given until May 17, 1952, to file comments. Comments were received from three interested parties.

It further appearing, that these comments favor adopting of the proposed amendment without change.

Accordingly it is ordered, That effective August 4, 1952, § 18.12 be and the same is hereby amended as follows:

a. In introductory paragraph of § 18.12 *Operation outside of assigned frequency bands*, change "required in paragraph (c) of this section" to read "required in paragraph (b) of this section".

b. In § 18.12 (a), change text to read as follows:

(a) The equipment used in such operation shall be provided with a rectified and filtered plate power supply, power line filters and shall be provided with sufficient shielding so that the emission of radio frequency energy generated by such operation, including spurious and harmonic emissions, shall not exceed a strength of fifteen microvolts per meter at a distance of 1,000 feet or more from the medical diathermy equipment on frequencies other than those specified in § 18.11 (a) under any conditions of operation.

c. Delete present § 18.12 (b).

d. Change present § 18.12 (c) to § 18.12 (b).

e. Change present § 18.12 (d) to § 18.12 (c).

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies sec. 301, 48 Stat. 1081; 47 U. S. C. 301; sec. 303, 48 Stat. 1082; 47 U. S. C. 303)

Released: July 3, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

ALMA SALE BARN ET AL.

POSTING OF STOCKYARDS

The Secretary of Agriculture has information that the stockyards listed below are stockyards as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 202), and should be made subject to the provisions of that act:

NEBRASKA

Alma Sale Barn, Alma, Nebr.
Ericson Livestock Market, Ericson, Nebr.

WEST VIRGINIA

Spencer Live Stock Exchange Co., Spencer, W. Va.

Therefore, notice is hereby given that the Secretary of Agriculture proposes to issue a rule designating the stockyards named above as posted stockyards subject to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), as is provided in section 302 of that act. Any interested person who desires to do so may submit, within 15 days of the publication of this notice, any data, views or arguments, in writing, on the proposed rule to the Director, Livestock Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

Done at Washington, D. C., this 8th day of July 1952.

[SEAL] H. E. REED,
Director, Livestock Branch, Production and Marketing Administration.

[F. R. Doc. 52-7613; Filed, July 10, 1952; 8:52 a. m.]

PEAK AND HATCHER STOCKYARDS

POSTING OF STOCKYARD

The Secretary of Agriculture has information that the Peak and Hatcher Stockyards, Emporia, Kansas, is a stockyard as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 202), and should be made subject to the provisions of that act.

Therefore, notice is hereby given that the Secretary of Agriculture proposes to issue a rule designating the stockyard named above a posted stockyard subject to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), as is provided in section 302 of that act. Any interested person who desires to do so may submit, within 15 days of the publication of this notice, any data, views or arguments, in writing, on the proposed rule to the Director, Livestock Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

Done at Washington, D. C., this 8th day of July 1952.

[SEAL] H. E. REED,
Director, Livestock Branch, Production and Marketing Administration.

NOTICES

DEPARTMENT OF DEFENSE

Office of the Secretary

CORRECTION OF MILITARY OR NAVAL RECORDS

TEMPORARY APPROVAL OF PROCEDURES

JUNE 30, 1952.

Except as otherwise provided herein the procedures set up by the Secretaries of the Army, Navy, and Air Force pursuant to section 207 of the act of August 2, 1946, prior to amendment of that act by Public Law 220, 82d Congress, are approved as of October 25, 1951, for the period of time required to develop new procedures, but in no event shall this approval extend beyond September 30, 1952.

The provisions of present regulations authorizing rejection of an application for correction of a military record on the ground there has been undue delay in filing such applications are not approved, and no application shall be rejected on this ground alone.

For the Secretary of Defense.

MARSHALL S. CARTER,
Brigadier General, U. S. Army,
Director, Executive Office of the Secretary.

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

WALL COMMISSION CO.

DEPOSTING OF STOCKYARD

It has been ascertained that the Wall Commission Company, Wall, South Dakota, originally posted on June 6, 1950, as being subject to the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), no longer comes within the definition of a stockyard under said act for the reason that it no longer is being operated as a public market. Therefore, notice is given to the owner of such stockyard and to the public that such stockyard is no longer subject to the provisions of said act.

Notice of public rule making has not preceded promulgation of the foregoing rule since it is found that the giving of such notice would prevent the due and timely administration of the Packers and Stockyards Act and would, therefore, be impractical. There is no legal warrant or justification for not depositing promptly a stockyard which is no longer being operated as a public market and is, therefore, no longer a stockyard within the definition contained in said act.

The foregoing rule is in the nature of a rule granting an exemption or relieving a restriction and, therefore, may be made effective in less than 30 days after publication thereof in the FEDERAL REGISTER. This notice shall be made effective upon publication in the FEDERAL REGISTER.

(42 Stat. 159, as amended; 7 U. S. C. 181 et seq.)

Done at Washington, D. C., this 8th day of July 1952.

[SEAL] H. E. REED,
Director, Livestock Branch, Production and Marketing Administration.

BONDING AND NET ASSETS REQUIREMENTS UNDER THE UNITED STATES WAREHOUSE ACT AND UNDER COMMODITY CREDIT CORPORATION AUTHORIZATIONS

NOTICE REGARDING UNIT PRICES

Correction

In F. R. Doc. 52-7010, appearing at page 5738 of the issue for Thursday, June 26, 1952, the following change should be made:

For the last item in the list, Cottonseed, the unit price should be for a "ton" rather than a "bale".

DEPARTMENT OF COMMERCE

Civil Aeronautics Administration

RADAR PROCEDURES FOR CONTROL OF AIR TRAFFIC

Notice is hereby given that in order to expedite the flow of air traffic wherever radar facilities are operated by the Civil Aeronautics Administration, procedures may be established to utilize radar in controlling the flight paths of arriving and departing aircraft.

In operating radar facilities the Civil Aeronautics Administration will observe the following:

(a) Air traffic control will provide, by means of radar, a minimum of 3 miles horizontal separation between an aircraft arriving and/or departing on an IFR flight plan and all other known IFR traffic unless vertical, lateral, or longitudinal separation, as required by the ANC/PCAT Manual of Operations, exists.

(b) As additional services, insofar as practicable,

(1) An aircraft operating on an IFR flight plan will be provided essential traffic information on all observed targets unless the pilot advises that he does not wish the service. (The controller may initiate a call to the aircraft to determine if the flight conditions are such as to no longer require this service, or such information may be volunteered by the pilot.) Essential traffic information, as used herein, is defined as any aircraft target observed on the radar scope which, in the opinion of the controller, might constitute a hazard to the operation of the aircraft concerned. If, upon receipt of essential traffic information, the pilot requests radar separation the request shall be complied with, subject to the provisions of paragraphs (c) and (d) below and,

(2) An aircraft not operating on an IFR flight plan may request essential traffic information. The controller will supply such information subject to the provisions of paragraph (c) and (d) below.

(c) Many factors (such as limitations of radar, volume of traffic, controller's workload, and frequency congestion) may prevent the controller from providing the additional services mentioned in paragraph (b) above. The controller will have complete discretion in determining whether he is able to provide, or to continue to provide, these additional services in a specific case. His decision against providing, or continuing to provide, these services in a particular case will not be subject to question and need not be communicated to the aircraft. In other words, the provision of these additional services will be dependent entirely upon whether the controller believes he is in a position to provide them.

(d) In those areas where arriving aircraft are being positioned and spaced to establish an approach interval which requires the issuance of precise navigational guidance, it is not considered practicable to attempt to provide the additional services outlined in paragraph (b) above, if, in so doing, the primary function of separating known IFR aircraft would be compromised.

The locations where radar is installed and operated by the Civil Aeronautics Administration are listed in the Flight Information Manual and the Airman's Guide. When procedures are established for a particular radar facility, to provide the separation specified in paragraph (a) above, due notice will be given by the issuance of a Special Notice to Airmen advising the effective date and whether the procedures apply to arriving or departing aircraft or both.

This notice supersedes the notice entitled "Radar Procedures for Control of IFR Traffic departing from Washington Control Zone" published on January 5, 1952, in 17 F. R. 166.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics

Federal Maritime Board

MEMBER LINES OF TRANS-PACIFIC FREIGHT CONFERENCE (HONG KONG ET AL.)

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended.

Member Lines of the Trans-Pacific Freight Conference (Hong Kong) and China Navigation Company, Ltd., Bruusgaard Kiosteruds Skibs. A/S (China Siam Line), Indo-China Steam Navigation Company, Ltd.:

Agreement No. 7849 between the member lines of the conference and the companies named above covers the transportation of cargo under through bills of lading from Saigon, French Indo-China, to United States and Canadian Pacific Coast ports and to Honolulu, Hawaii, with transhipment at Hong Kong. Agreement No. 7849 was filed to cancel and supersede Agreement No. 7752.

Grace Line Inc., and Cia Sud-Americana de Vapores:

Agreement No. 7796-3 between the above mentioned parties modifies pooling Agreement No. 7796 in the trade between U. S. Atlantic ports and Chilean ports, to provide that prior to pooling a handling charge of $11.00 rather than $9.00, per revenue ton, is to be deducted from the gross freight earnings on all southbound pool tonnage, and a handling charge of $7.50 rather than $6.50, per revenue ton, is to be deducted from the gross freight earnings on all northbound pool tonnage.

Salen-Skaugen Line, Joint Service of: D S A/S Eikland, Rederi A. B. Pulp; Salamis A/S, Rederi A. B. Jamaica:

Agreement No. 7598-C between the above-named carriers provides for the cancellation of Agreement No. 7598 which covers the establishment and maintenance of a joint service (with limited passenger accommodations) under the trade name Salen-Skaugen Line, in the trade between United States Pacific, Atlantic and Gulf ports and Canadian Pacific and Atlantic ports and the Far East.

Concordia Line, Joint Service of: Dampskibsaktieselskabet Alaska, Aktiesaiskabet Atlas, Dampskibsaktieseiskabet Idaho, Skipsaksjeselskapet Hilda Knudsen, Skipsaksjeselskapet Samuel Bakke:

Agreement No. 7631-2 between the above-named carriers modifies the approved joint service agreement (No. 7631, as amended) by extending its geographical scope to include service between East Coast and Gulf ports of North America to the Persian Gulf, Red Sea, Gulf of Aden, India, Pakistan, Ceylon, and Burma.

Member Lines of the Trans-Pacific Freight Conference (Hong Kong) and China Navigation Company, Ltd., Bruusgaard Kiosteruds Skibs. A/ (China Siam Line), Indo-China Steam Navigation Company, Ltd.:

Agreement No. 7851 between the member lines of the conference and the companies named above covers the transportation of cargo under through bills of lading from Bangkok, Siam, and from Bangkok's outer harbor of Kohsichang, to United States and Canadian Pacific Coast ports and to Honolulu, Hawaii, with transhipment at Hong Kong. Agreement No. 7851 was filed to cancel and supersede Agreement No. 7751.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to any of the [illegible] and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

By order of the Federal Martime Board.

Dated: July 8, 1952.

FEDERAL POWER COMMISSION

[Docket No. G-1743]

PENN-JERSEY PIPE LINE CO.

NOTICE OF APPLICATION

JULY 7, 1952.

Take notice that Penn-Jersey Pipe Line Co. (Applicant) address, Easton, Pennsylvania, submitted for filing on July 17, 1951, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural-gas transmission pipeline facilities. By order issued March 13, 1952, and for reasons set forth therein, said application was dismissed without prejudice. On March 24, 1952, Applicant petitioned to have said order of March 13, 1952, vacated. On June 6, 1952, Applicant filed a supplement containing, among other things, a copy of Articles of Incorporation of Penn-Jersey Pipe Line Co. By order issued July 3, 1952, the Commission ordered that the foregoing application, as supplemented, be accepted for filing.

Applicant proposes to construct and operate approximately 6 miles of 6-inch

(or in part 8-inch) pipeline extending from a point of connection on the Coatesville-Port Jervis pipeline of The Manufacturers Light and Heat Company in Forks Township, Northampton County, Pennsylvania, to the distribution system of City Gas Company of Phillipsburg, New Jersey, at Phillipsburg.

Applicant proposes, by means of said facilities, to transport natural gas to be sold by The Manufacturers Light and Heat Company to City Gas Company of Phillipsburg, New Jersey, as part of the plan for delivery of a maximum daily volume of 1,700 Mcf of Natural gas authorized in Docket No. G–1012 to be made available by Texas Eastern Transmission Corporation to City Gas Company of Phillipsburg upon the condition that the latter submit evidence to the Commission that such volumes can be economically delivered to it.

Applicant states that it has been organized for the particular purpose of transporting natural gas between the facilities of The Manufacturers Light and Heat Company and the facilities of City Gas Company of Phillipsburg and proposes to render such service for a fixed fee to be computed upon actual cost of service.

The estimated total overall capital cost of the proposed facilities is $210,000. The proposed financing includes issuance of bonds, and bank loans.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 25th day of July 1952. The application, as supplemented, is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 52–7601; Filed, July 10, 1952; 8:47 a. m.]

[Docket No. G–1963]

EL PASO NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

JULY 3, 1952.

On May 27, 1952, El Paso Natural Gas Company (Applicant), a Delaware corporation having its principal place of business at El Paso, Texas, filed an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural gas transmission facilities, subject to the jurisdiction of the Commission, as described in the application on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that the application be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest, or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER of June 11, 1952 (17 F. R. 5333).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on July 24, 1952 at 9:45 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, NW., Washington, D. C., concerning the matters involved and the issues presented by such application as supplemented: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: July 7, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 52–7576; Filed, July 10, 1952; 8:45 a. m.]

[Docket No. G–1986]

GAS LATERAL CO.

NOTICE OF APPLICATION

JULY 7, 1952.

Take notice that Gas Lateral Company (Applicant), an Illinois corporation, having its principal place of business at 134 East Main Street, Decatur, Illinois, filed on June 30, 1952, an application for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act authorizing the construction and operation of a 4-inch gas pipeline, approximately 1.6 miles in length, extending from a point of connection with the natural-gas pipeline of Texas Illinois Natural Gas Pipeline Company (Texas Illinois) near Monticello, Illinois, to a point of connection with the distribution system to be constructed by Illinois Power Company (Illinois Power) in Monticello, Illinois, all of the aforementioned facilities being more fully described in said application.

By means of the proposed facilities, Applicant proposes to transport natural gas from the pipeline of Texas Illinois to the facilities of Illinois Power for ultimate distribution by the latter in Monticello, Illinois. Applicant states that it does not propose to sell natural gas to or interchange natural gas with any other natural-gas company and will not render service except as stated.

Applicant estimates the total overall capital cost of constructing the proposed natural-gas line and related facilities will be approximately $20,610.00.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 25th day of July 1952. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 55–94]

INTERNATIONAL HYDRO-ELECTRIC SYSTEM

NOTICE OF FILING OF APPLICATION FOR APPROVAL OF MAXIMUM INTERIM COMPENSATION

JULY 7, 1952.

Notice is hereby given that Oliver R. Waite of Brickley, Sears & Cole, 1 Federal Street, Boston, Massachusetts, has filed with this Commission on application pursuant to Rule U-63 promulgated under section 11 (f) of the Public Utility Holding Company Act of 1935 ("the act") for approval of $10,000 as the maximum amount for which application may be made to the United States District Court for the District of Massachusetts for interim compensation for his services rendered as counsel to Bartholomew A. Brickley, Trustee of International Hydro-Electric System ("IHES"), a registered holding company, for the period from January 28, 1950, to March 31, 1951, inclusive.

All interested persons are referred to said application for a statement of the services rendered, which are summarized as follows:

By authorization of said Court, applicant has served as counsel to the Trustee of IHES continuously since May 19, 1947. Pursuant to prior orders of the Commission (Holding Company Act Release Nos. 8598, 10127) and of the Court, applicant has received compensation for his services from May 19, 1947, to January 27, 1950, inclusive. During the period covered by the instant application, Part II of the Trustee's Second Plan for the liquidation and dissolution of IHES was consummated, whereunder the IHES debentures were retired (Holding Company Act Release Nos. 9535, 9917, 10642); hearings were held and the record closed on Part III of said plan, relating to allocation of the residual estate of IHES between the preferred and the Class A stockholders; and on March 21, 1951 the Trustee filed an application to make quarterly payments in liquidation on the IHES preferred stock. Applicant states that in all said matters he participated as counsel to the Trustee. His detailed statement of recorded time indicates work on the registration statement of Gatineau Power Company, a subsidiary of IHES, the underwriting agreement relating to Gatineau shares, the bank loan agreement, various legal papers for presentation to the Commission and the Court, the preparation for and attendance upon hearings, and numerous conferences with interested persons.

Notice is further given that any interested person may, not later than July 17, 1952 at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law raised by said application which he proposes to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date said application, as filed or as amended, may be granted without public hearing; or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 of the general rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 54–191]

STANDARD GAS AND ELECTRIC CO. AND PHILADELPHIA CO.

NOTICE OF FILING OF AMENDMENTS TO PLAN; NOTICE OF AND ORDER REOPENING RECORD AND RECONVENING HEARING

JULY 7, 1952.

Standard Gas and Electric Company ("Standard"), a registered holding company and a subsidiary of Standard Power and Light Corporation ("Power"), also a registered holding company, having filed with the Commission an application for approval of a plan dated February 8, 1951, for compliance with sections 11 (b) (1) and 11 (b) (2) of the act; and

The Commission in its notice of filing and order for hearing issued March 1, 1951 (Holding Company Act Release No. 10413), having consolidated proceedings on said plan with certain prior proceedings and said order having contained a summary of the terms of said plan and a direction that Standard mail to its security holders a copy of said notice and order prior to the date set for hearing, and the Commission having ordered a hearing on Step I of such plan, and hearings having been held pursuant to said notice, at which all the various classes of security holders of Standard were represented, extensive testimony was taken and numerous exhibits were introduced; and

Subsequent to the closing of the record herein, representatives of Standard, Power and Standard's security holders having agreed to a compromise proposal with respect to a modification of the said plan, and the Division of Public Utilities of the Commission having indicated that it would support the compromise as to Step I of the plan and that, on the basis of the facts presently known to it, it would also support the proposed allocations under Step II of the plan;

Notice is hereby given that on July 7, 1952, Standard filed amendments to its plan, dated February 8, 1951, designed to modify Step I of such plan in accordance with the aforesaid compromise proposal. Such amendments state that Standard intends to amend Step II of the plan, in accordance with the compromise, at or about the termination of the hearings on Step I, as further amended, and that the separation of the plan into various steps is intended to expedite the dissolution of Standard and not to affect the investment value of any of Standard's outstanding securities.

All interested persons are referred to said amendments, which are on file at the offices of the Commission, for a full statement of the proposals contained therein which, insofar as they differ materially from the proposals contained in the plan filed February 8, 1951, are summarized as follows:

Under Step I of the plan, as now amended, the holders of each share of $7 Prior Preference Stock would receive 4.8 shares, approximately, of common stock of Wisconsin Public Service Corporation (instead of 4.3 shares previously proposed), 2.9 shares of common stock of Oklahoma Gas and Electric Company (the same amount heretofore proposed) and 2.1 shares of common stock of Duquesne Light Company (the same amount as before). The holders of each share of $6 Prior Preference Stock would receive 4.5 shares, approximately, of common stock of Wisconsin Public Service Corporation (instead of 4.0 shares), 2.6 shares of common stock of Oklahoma Gas and Electric Company (the same as before), and 1.8 shares of common stock of Duquesne Light Company (instead of 1.7 shares).

If Step I is consummated after October 31, 1952, the holders of Prior Preference Stock will also receive in cash an amount equal to the excess of (a) 90 percent of the aggregate dividends accruing after that date and until the date of consummation on the said common stocks to be distributed to the Prior Preference Stockholders, over (b) the Prior Preference Stock dividends accruing after that date and until the consummation date of the plan.

The additional shares of Wisconsin Public Service Corporation to be distributed, as aforesaid, to holders of the Prior Preference Stock are to be provided by the investment by Standard of $2,600,000 in the common stock of Wisconsin Public Service Corporation. That company will issue therefor 218,070 shares of its common stock or such lesser number of shares as the Wisconsin Public Service Commission may approve. If that Commission reduces the number of shares below 218,070, the shares to be distributed per share of Prior Preference Stock shall be reduced by a multiple of one-tenth of a share to the end that Standard will retain no undistributed shares of Wisconsin Public Service Corporation.

In connection with Step I of the plan, Standard and Philadelphia Company, on the one hand, propose to enter into agreements with Wisconsin Public Service Corporation and Duquesne Light Company and their respective subsidiaries, on the other hand, relating to the apportionment of Federal income and excess profits taxes, and refunds thereof, if any, covering the periods for which said companies filed consolidated Federal tax returns.

As indicated above, Standard intends to amend Step II in accordance with the compromise agreement. The amendment when filed will provide for the retirement of Standard's $4 Cumulative Preferred Stock by the delivery of 4 shares of common stock of Duquesne Light Company in exchange for each share thereof. The consummation of Step II will be timed in such a manner so that Standard or its subsidiary Philadelphia Company, also a registered holding company, will receive all dividends to and including the dividend payable on April 1, 1953, on the common stock of Duquesne ultimately distributable to the $4 Cumulative Preferred Stockholders under Step II. No dividends would be paid on the $4 Cumulative Preferred Stock of Standard pending its retirement.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that the record in these proceedings be reopened and that the hearing be reconvened, but solely for the limited purposes hereinafter set forth:

It is ordered, That:

1. The record in these proceedings be and it hereby is reopened and a hearing shall be held, for the limited purposes hereinafter provided, on the 24th day of July 1952, at 10:00 a. m., at the offices of this Commission, 425 Second Street NW., Washington 25, D. C. On such date the hearing room clerk in Room 193 will advise as to the room in which such hearing shall be held.

2. The evidence to be adduced at such reconvened hearing shall be limited to matters bearing upon the circumstances leading up to the aforesaid compromise proposal and to the filing by Standard of the amendments to the plan on July 7, 1952, and to the nature and consequences of the proposed tax agreements to be entered into among Standard and its subsidiary companies.

3. Any person desiring to be heard or otherwise wishing to participate in these proceedings and who has not previously been granted leave therefor shall notify the Commission to that effect in the manner provided in Rule XVII of the Commission's rules of practice on or before July 21, 1952.

It is further ordered, That William W. Swift or any other officer or officers of the Commission designated by it for that purpose shall preside at the reconvened hearing in such matter. The officer so designated is hereby authorized to exercise all power granted to the Commission under section 18 (c) of said act and to a hearing officer under the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve notice of the matters contained herein by mailing forthwith a copy of this notice and order by registered mail to Standard and to all parties and persons

who were heretofore granted leave to be heard and to participate in these proceedings or to their respective counsel of record herein, and that notice shall be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to persons on the mailing list for releases under the act, and that further notice shall be given to all persons by publication of this notice and order in the FEDERAL REGISTER.

It is further ordered, That Standard shall give further notice of this hearing to all of its security holders (insofar as the identity of such security holders is known or available to it) by mailing to each of said persons a copy of this notice and order to his last known address at least 14 days prior to the date of the reconvened hearing.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27202]

LIME FROM WEST STOCKBRIDGE AND LEE, MASS., TO SOUTHERN TERRITORY

APPLICATION FOR RELIEF

JULY 7, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: I. N. Doe, Agent, for carriers parties to his tariff ICC No. 610.

Commodities involved: Lime, common, hydrated, quick or slaked, carloads.

From: West Stockbridge and Lee, Mass.

To: Specified points in southern territory.

Grounds for relief: Competition with rail carriers, circuitous routes, to apply over short tariff routes rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: I. N. Doe, Agent, ICC No. 610, supl. 15.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 27203]

GYPSUM BOARD FROM KALAMAZOO, MICH., TO PORT WENTWORTH, GA.

APPLICATION FOR RELIEF

JULY 7, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: L. C. Schuldt, Agent, for carriers parties to his tariff ICC No. 4300, pursuant to fourth section order No. 9800.

Commodities involved: Paper, gypsum board, in rolls, carloads.

From: Kalamazoo, Mich.

To: Port Wentworth, Ga.

Grounds for relief: Circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[Rev. S. O. 562, Taylor's I. C. C. Order 3]

ANN ARBOR RAILROAD CO. ET AL.

REROUTING OR DIVERSION OF TRAFFIC

In the opinion of Charles W. Taylor, Agent, the Ann Arbor Railroad Company; the Chesapeake and Ohio Railway Company, Pere Marquette District; Grand Trunk Western Railroad Company; the Pennsylvania Railroad Company and the Wabash Railroad Company, because of work stoppage on the Lake Michigan and Detroit River car ferries, are unable to transport traffic routed over their lines across Lake Michigan and the Detroit River: *It is ordered*, That:

(a) Rerouting traffic: The Ann Arbor Railroad Company; the Chesapeake and Ohio Railway Company, Pere Marquette District; Grand Trunk Western Railroad Company; the Pennsylvania Railroad Company and the Wabash Railroad Company, being unable to transport traffic to points reached via Lake Michigan and Detroit River car ferries, because of work stoppage, are hereby authorized to divert or reroute such traffic over any available route to expedite the movement, regardless of routing shown on the waybill. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) Concurrence of receiving roads to be obtained: The railroads desiring to divert or reroute traffic under this order shall confer with the proper transportation officer of the railroad or railroads to which such traffic is to be diverted or rerouted, and shall receive the concurrence of such other railroads before the rerouting or diversion is ordered.

(c) Notification to shippers: The carriers rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said Agent is deemed to be due to carriers' disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective 12:01 a. m., July 4, 1952.

(g) Expiration date: This order shall expire at 11:59 p. m., August 3, 1952, unless otherwise modified, changed, suspended or annulled.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., July 3, 1952.

INTERSTATE COMMERCE COMMISSION.
CHARLES W. TAYLOR, *Agent.*

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Sup. 214), and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners, and learning period for certificates issued under the general learner regulations (§§ 522.1 to 522.14) are as

indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Single Pants, Shirts and Allied Garments, Women's Apparel, Sportswear and Other Odd Outerwear, Rainwear, Robes and Leather and Sheep-Lined Garments Divisions of the Apparel Industry Learner Regulations (29 CFR 522.160 to 522.166, as amended December 31, 1951; 16 F. R. 12043, and June 2, 1952; 17 F. R. 3818).

Bestform Foundations of Pennsylvania, Inc., Baumer and Cherry Streets, Johnstown, Pa., effective 6-25-52 to 6-24-53; 10 percent of the productive factory force (foundation garments).

Brookdale Corporation, 412 North Street, West Pittston, Pa., effective 6-25-52 to 6-24-53; 10 percent of the productive factory force (infants' and children's wear).

Ehrenreich's Sportswear, Inc., 701 Southeast First Avenue, Hallandale, Fla., effective 6-23-52 to 6-22-53; five learners (men's pants).

Fredericksburg Shirt Co., 404 Willis Street, Fredericksburg, Va., effective 6-25-52 to 6-24-53; 10 percent of the productive factory force (work shirts).

Hunter-Sadler Co., Tupelo, Miss., effective 7-16-52 to 7-15-53; 10 percent of the productive factory force (sport shirts).

Hunter-Sadler Co., Tupelo, Miss., effective 6-24-52 to 12-23-52; 20 learners for expansion purposes (sport shirts).

McNeer Dillion Co. (plant No. 2), 433½ Western Avenue, Statesville, N. C., effective 6-25-52 to 12-24-52; 50 learners for expansion purposes (shirt manufacturers).

Plains Manufacturing Co., Inc., 61 Hudson Road, Plains, Pa., effective 6-30-52 to 6-29-53; 10 percent of the productive factory force (ladies' undergarments).

H. A. Satin & Co., Inc., 2013 West Iowa Street, Evansville, Ind., effective 6-26-52 to 12-25-52; 15 learners for expansion purposes (cotton dresses).

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.51, as revised November 19, 1951; 16 F. R. 10733).

Park Knitting Co., Little Chute, Wis., effective 6-25-52 to 6-24-53; three learners.

Knitted Wear Industry Learner Regulations (29 CFR 522.68 to 522.79, as amended January 21, 1952; 16 F. R. 12866).

Keyser Undergarment Co., Inc., Keyser, W. Va., effective 6-25-52 to 12-24-52; 25 learners for expansion purposes (ladies' undergarments).

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.14).

The following special learner certificate was issued to the school operated industry listed below:

Auburn Academy, Auburn, Wash., effective 7-1-52 to 8-31-52; 40 learners. Industry: woodwork shop. Occupations: assembler (furniture), machine operator, furniture finisher helper, and related skilled and semi-skilled occupations, 250 hours at 55 cents; 250 hours at 60 cents, and 250 hours at 70 cents.

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 2d day of July 1952.

MILTON BROOKE,
Authorized Representative of the Administrator.

Levi Strauss & Co., 501 Travis Street, Wichita Falls, Tex., effective 6-23-52 to 12-22-52; 35 learners for expansion purposes (overalls).

T & T Pants Co., Inc., 1101 Wyoming Avenue, Scranton, Pa., effective 6-20-52 to 6-19-53; 10 learners (men's and boys' trousers).

Weldon Manufacturing Co., Dushore, Pa., effective 6-23-52 to 6-22-53; 10 percent of the productive factory force (men's cotton pajamas).

Glove Industry Learner Regulations (29 CFR 522.220 to 522.231, as amended October 26, 1950; 15 F. R. 6888).

Artcraft Co., Inc., Johnson City, Tenn., effective 6-24-52 to 6-23-53; 10 percent of the productive factory force engaged in the learner occupations (knit fabric gloves).

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.51, as revised November 19, 1951; 16 F. R. 10733).

Acca Hosiery Mills, Henderson, N. C., effective 6-20-52 to 6-19-53; five learners.

Drexel Knitting Mills Co., Drexel, N. C., effective 6-17-52 to 6-16-53; 5 percent of the productive factory force.

The Batesville Co., Batesville, Miss., effective 6-18-52 to 6-17-53; 5 percent of the productive factory force.

Southdown Hosiery Mill, Chipley, Ga., effective 6-20-52 to 6-19-53; three learners.

Walridge Knitting Mills, Inc., Marvell, Ark., effective 6-24-52 to 2-20-53; 15 additional learners for expansion purposes (supplemental certificate).

Knitted Wear Industry Learner Regulations (29 CFR 522.68 to 522.79, as amended January 21, 1952; 16 F. R. 12866).

Beeron Knitwear, Inc., Hickory Grove, S. C., effective 6-20-52 to 12-19-52; 38 learners for expansion purposes (knitted outerwear and underwear).

Narragansett Knitting Mills, Inc., 148 Bernon Street, Woonsocket, R. I., effective 6-19-52 to 6-18-53; 5 percent of the productive factory force (knitted outerwear).

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.14).

Cherokee Togs Co., 6 Archer Street, Pryor, Okla., effective 6-20-52 to 6-19-53; 10 learners; Sewing machine operators; 240 hours at 65 cents per hour (garrison caps).

H. Daroff and Sons, Inc., 2500 Walnut Street, Philadelphia, Pa., effective 6-24-52 to 6-23-53; 7 percent of the productive factory force; machine operators (except cutting), pressers, handsewers; each 480 hours; 60 cents per hour for the first 240 hours and 65 cents per hour for the remaining 240 hours (men's clothing).

France Neckwear Manufacturing Corp., Wilmington, N. C., effective 6-16-52 to 9-15-52; 10 additional learners for expansion purposes; machine operators (except cutting), pressers, handsewers; each 320 hours at 65 cents per hour (men's neckwear) (supplemental expansion certificate).

The following special certificates were issued in Puerto Rico to the companies hereinafter named. The effective and expiration dates, the number of learners, the learner occupations, the length of the learning period and the learner wage rates are indicated, respectively.

Puerto Rico Precision Tool Corp., Vega Alta, P. R., effective 6-16-52 to 11-19-52; 60 learners; machine tenders, maintenance, mechanics, tool, gauge, machine repairman and inspector operators; 160 hours at 25 cents per hour, 160 hours at 30 cents per hour, 160 hours at 35 cents per hour (filing card pockets).

St. Regis Paper & Bag Corp. of Puerto Rico, Ponce, P. R., effective 6-16-52 to 12-15-52; 10 learners; valving, sewing, sleeving operators; 300 hours at 41 cents per hour, 300 hours at 43 cents per hour (paper bags).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 24th day of June 1952.

MILTON BROOKE,
Authorized Representative of the Administrator.

FEDERAL REGISTER

VOLUME 17 NUMBER 136

Washington, Saturday, July 12, 1952

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

DEPARTMENT OF THE ARMY

Effective upon publication in the FEDERAL REGISTER § 6.105 (l) (1) is amended to read as follows:

§ 6.105 *Department of the Army.*

* * *

(l) *Medical Department.* (1) Until June 30, 1953, the position of Technical Director of Research.

(R. S. 1753, sec. 2, 22 Stat. 403; 5 U. S. C. 631, 633. E. O. 9830, Feb. 24, 1947, 12 F. R. 1259; 3 CFR, 1947 Supp. E. O. 9973, June 28, 1948, 13 F. R. 3600; 3 CFR, 1948 Supp.)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] ROBERT RAMSPECK,
Chairman.

[F. R. Doc. 52-7632; Filed, July 11, 1952; 8:48 a. m.]

Chapter II—The Loyalty Review Board

PART 210—THE OPERATIONS OF THE LOYALTY REVIEW BOARD

MISCELLANEOUS AMENDMENTS

1. Paragraph (g) of § 210.9 is amended to read as follows:

§ 210.9 *Action on appeals.* * * *

(g) *Review of decision of panel.* No review by this Board of a decision of a panel will be permitted except upon the concurrence of a majority of the members present at a duly called meeting of the Board.

2. Appendix A to Part 210; List of Organizations Designated by the Attorney General Pursuant to Executive Order No. 9835 is amended as follows:

a. Under the heading Communist—9, the item "American Russian Institute, New York—11" is amended to read as follows:

American Russian Institute, New York—11, also known as the American-Russian Institute for Cultural Relations with the Soviet Union—28.

b. Insert under the item "Communist Political Association—2, its subdivisions, subsidiaries and affiliates, including—14, 23; after the item "Florida Press and Educational League—14," the following:

Oklahoma League for Political Education—29.

c. Under the heading Subversive—9, insert under the item "Communist Political Association—2, its subdivisions, subsidiaries and affiliates, including—14, 23;" after the item "Florida Press and Educational League—14," the following:

Oklahoma League for Political Education—29.

d. Under the heading Organizations Which "Seek to Alter the Form of Government of the United States by Unconstitutional Means—9," insert under the item "Communist Political Association—2, its subdivisions, subsidiaries, and affiliates, including—14, 23;" after the item "Florida Press and Educational League—14," the following:

Oklahoma League for Political Education—29.

e. Under the heading Notes, add the following notes No. 28 and No. 29:

28. On April 23, 1952, the Department of Justice stated this is another name for the organization, which has used the two names interchangeably, and that the Attorney General's designation of the American-Russian Institute, New York (see note 11), covered the organization under any name by which it was known or self-described. Information disseminated April 30, 1952.

29. In his letter of May 22, 1952, disseminated May 28, 1952, the Attorney General referred to previous statements (see notes 25, 23, 14) that the designations of the Communist Party, U. S. A. and of the Communist Political Association include all subdivisions thereof; and stated that the Oklahoma League for Political Education which operated for a period of time as the subdivision in Oklahoma of the Communist Political Association was, therefore, designated within the same three categories as the parent organization.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

CFR SUPPLEMENTS

[Lemon Reg. 443]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.550 *Lemon Regulation 443*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified in this section was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on July 9, 1952; such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., July 13, 1952, and ending at 12:01 a. m., P. s. t., July 20, 1952, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 600 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meanings as when used in the said amended marketing agreement and order.

(48 Stat. 31, as amended; 7 U. S. C. 601)

Done at Washington, D. C. this 10th day of July 1952.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 42-13]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

SPECIAL OPERATION RULES FOR NIGHT VFR FLIGHTS; FLIGHT PLANS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 7th day of July 1952.

At the present time Part 42 of the Civil Air Regulations requires neither the use of navigational aids nor the making of position reports for night VFR flights. Since the regulations do not prohibit off-airway flights, a correct track over the ground is especially important for such flights with respect to terrain clearance. On off-airway flights large deviations from the intended track are very possible due to the limited navigational facilities available which thereby increase the danger of flying into unexpected high terrain.

Although it was recently proposed to restrict night VFR flights in large passenger-carrying airplanes to civil airways and approved ADF routes, constructive comment received by the Board has indicated that such a regulation would be unduly restrictive. Accordingly, this amendment will allow the use of off-airway routes for which the Administrator has established minimum en route instrument altitudes, provided that flight is conducted at or above such established altitudes. In addition, the Administrator may authorize operations at airports not equipped with radio navigational aids when he finds that safe transition between the route and the airport may be made visually under specified weather minimums.

The Board considers that night operations in large passenger-carrying aircraft are sufficiently similar to instrument operations to justify requiring a radio listening watch to be maintained as well as position reports at designated reporting points. These requirements are also included in the new regulation.

An additional problem has been met with respect to the filing of flight plans for the operation of any large aircraft. Present § 42.61 does not prevent an IFR flight plan from being cancelled while en route without refiling a VFR flight plan. Accordingly this amendment will require either an IFR or VFR flight plan to be in effect during the entire flight. This, then, will insure that the proper personnel will be advised when a plane is overdue or missing so that search and rescue facilities may be alerted and dispatched with a minimum of delay.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 42 of the Civil Air Regulations (14 CFR Part 42, as amended) as follows, effective August 11, 1952:

1. By adding the following sentence at the end of § 42.61: "An IFR or VFR flight plan must thereafter be in effect for all portions of the flight."

2. By inserting a new § 42.63 to read as follows:

§ 42.63 *Night VFR operations for large passenger-carrying aircraft; special rules.* (a) Night VFR passenger operations in large aircraft shall be conducted only over civil airways or over off-airway routes for which the Administrator has established minimum en route instrument altitudes. Night VFR operations over such off-airway routes shall be conducted at or above such established altitudes. In addition, night VFR operations may be conducted only at airports equipped with satisfactory radio navigational facilities for which the Administrator has established approach procedures: *Provided*, That the Administrator may authorize operations at other airports upon finding that safe transition between the route and the airport may be made visually under weather minimums which he may establish, but which will in no case be lower than those provided in § 42.55 (a).

NOTE: Minimum en route instrument altitudes which have been established by the Administrator are published in the Flight Information Manual.

(b) During night VFR passenger operations in large aircraft the pilot-in-command of the aircraft shall ensure that a continuous watch is maintained on the appropriate radio frequencies and shall report by radio as soon as possible the time and altitude of passing each designated reporting point together with weather conditions and any other information which the pilot considers important to the safety of flight. In addition, in operations over off-airway routes the pilot-in-command shall report as soon as possible the time and altitude of passing over each check point specified in the flight plan.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 52 Stat. 1007, 1010; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

[F. R. Doc. 52-7672; Filed, July 11, 1952; 8:57 a. m.]

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 516—RECORDS TO BE KEPT BY EMPLOYERS

MISCELLANEOUS AMENDMENTS

Notice was published in the FEDERAL REGISTER on March 20, 1952, of a proposal to amend the regulations contained in this part by adding certain provisions as to records to be kept with respect to minors whose employment may be subject to the child labor provision of the Fair Labor Standards Act. The notice pointed out that by virtue of the provisions of section 13 (c) of the act the child labor prohibitions of the act do not apply to any employee employed in agriculture "outside of school hours for the school district where such employee is living while so employed," and that experience in applying this exemption has demonstrated the need for maintenance of records which would show compliance or non-compliance with the conditions of the exemption. The notice invited interested persons to submit data, views or arguments pertaining to the proposed record-keeping requirements.

Following publication of this notice comments were received from a large number of individuals and groups interested in this matter. A number of submissions expressed opposition to the proposed record-keeping requirements, particularly the requirement of keeping a daily record of starting and stopping time of each period of work, on the ground that keeping of such detailed records would be burdensome to farmers, and that their practical effect would be to deny to many young workers the opportunity for occasional employment.

After consideration of all of the views and comments submitted, and after a thorough review of the existing record-keeping regulations as they affect employers of agricultural labor, the conclusion has been reached that those records which are currently required under § 516.15 for employees employed in agriculture are not essential to proper enforcement of the Fair Labor Standards Act and should therefore be eliminated. The elimination of this requirement will relieve farm employers of the obligation which they previously had for the maintenance of records for adult employees generally.

It has also been concluded that in regard to the proposed child labor record-keeping requirements contained in the FEDERAL REGISTER notice of March 20, 1952, adequate enforcement of the act can probably be achieved through employment records listing certain minimum data such as name, address and date of birth. The additional requirements, contained in the March 20 proposal, as to occupation, place of employment and starting and stopping time of each period of work, will not therefore be adopted.

Accordingly, by virtue of authority conferred by sections 11 (c) and 12 of the Fair Labor Standards Act, as amended (52 Stat. 1066; 29 U. S. C. 211), Reorganization Plan No. 6 of 1950 (64 Stat. 1236; 5 U. S. C. 1332-15) and Reorganization Plan No. 2 of 1946 (60 Stat. 1095) the regulations in this part are hereby amended as follows:

1. Section 516.15 is amended by deleting the reference to section 13 (a) (6) in both the section heading and the text.

2. A new section designated § 516.24 is added as follows:

§ 516.24 *Minors employed in agriculture—(a) Items required.* Every employer (other than a parent or guardian standing in the place of a parent employing his own child or a child in his custody) who employs in agriculture any minor under 18 years of age shall maintain and preserve records containing the following data with respect to each and every such minor so employed:

(1) Name in full.

(2) Place where minor lives while employed. If the minor's permanent address is elsewhere give both addresses.

(3) Date of birth.

Provided, however, That such data need not be maintained for any minor employee who works only on days when school is not in session.

These amendments shall be effective 30 days from date of publication of this notice in the FEDERAL REGISTER.

(Sec. 11, 52 Stat. 1066; 29 U. S. C. 211)

Signed at Washington, D. C., this 1st day of July 1952.

MICHAEL J. GALVIN,
Acting Secretary of Labor.
WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

[F. R. Doc. 52-7655; Filed, July 11, 1952; 8:54 a. m.]

PART 672—CONSTRUCTION, BUSINESS SERVICE, MOTION PICTURE, AND MISCELLANEOUS INDUSTRIES IN PUERTO RICO, MINIMUM WAGE ORDER

Pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001), notice was published in the FEDERAL REGISTER on June 21, 1952 (17 F. R. 5615) of my decision to approve the minimum wage recommendations of Special Industry Committee No. 11 for Puerto Rico for the Construction, Business Service, Motion Picture, and Miscellaneous Industries in Puerto Rico, and the revised wage order for that industry which I proposed to issue to carry such recommendations into effect was published therewith. Interested parties were given an opportunity to submit exceptions within 15 days from the date of publication of the notice.

No exceptions have been received within the 15-day period.

Accordingly, pursuant to authority under the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended; 29 U. S. C. 201), the said decision is hereby affirmed and made final, and the wage order contained in this part is hereby revised to read as set forth in the June 21, 1952, issue of the FEDERAL REGISTER (17 F. R. 5615), and as set forth below, to become effective on August 11, 1952.

Sec.
672.1 Wage rates.
672.2 Notices of order.
672.3 Definitions of the construction, business service, motion picture, and miscellaneous industries in Puerto Rico and its divisions.

AUTHORITY: §§ 672.1 to 672.3 issued under sec. 8, 63 Stat. 915; 29 U. S. C. 208. Interpret or apply sec. 5, 63 Stat. 911; 29 U. S. C. 205.

§ 672.1 *Wage rates.* (a) Wages at a rate of not less than 50 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the construction division of the construction, business service, motion picture, and miscellaneous industries in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(b) Wages at a rate of not less than 55 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the motion picture division of the construction, business service, motion picture, and miscellaneous industries in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(c) Wages at a rate of not less than 65 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the business service, and miscellaneous industries division of the construction, business service, motion picture, and miscellaneous industries in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

§ 672.2 *Notices of order.* Every employer employing any employees so engaged in commerce or in the production of goods for commerce in the construction, business service, motion picture, and miscellaneous industries in Puerto Rico shall post and keep posted in a conspicuous place in each department of his establishment where such employees are working such notices of this order as shall be prescribed from time to time by the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Division may prescribe.

§ 672.3 *Definitions of the construction, business service, motion picture, and miscellaneous industries in Puerto Rico and its divisions.* (a) The construction business service, motion picture, and miscellaneous industries in Puerto Rico to which this part shall apply is hereby defined as follows:

Construction of buildings, structures and other improvements (including designing; reconstruction; alteration; repair and maintenance; assembling and installation at the construction site of machinery and other facilities; and dismantling, wrecking or other demolition); the production and distribution of motion pictures; the production of photographs and blueprints; the activity carried on by any business or non-profit enterprise performing real estate, professional, advertising, education or research activities, or engaged in the furnishing of other facilities or services to industrial or commercial establishments or the consumer; and all activities which are not included in the definitions of other industries in Puerto Rico for which wage orders have been issued:

Provided, however, That the definition shall not include (1) construction carried on by persons, for their own use or occupancy, who are principally engaged in another industry, or (2) any activity included in the definition of any industry in Puerto Rico for which a wage order has been issued.

(b) The separable divisions of the industry, as defined in paragraph (a) of this section, to which this part and its several provisions shall apply, are hereby defined as follows:

(1) *Construction division.* This division consists of the construction (except when carried on by persons, for their own use or occupancy, who are principally engaged in another industry) of buildings, structures, and other improvements, including, but without limitation, designing, reconstruction, alteration, repair and maintenance, assembling and installation at the construction site of machinery and other facilities, and dismantling, wrecking, or other demolition.

(2) *Motion picture division.* This division consists of the production and distribution of motion pictures.

(3) *Business service and miscellaneous industries divisions.* This division consists of the production of photographs and blueprints; the activity carried on by any business or nonprofit enterprise performing real estate, professional, advertising, education or research activities, or engaged in the furnishing of other facilities or services to industrial or commercial establishments or the consumer; and all activities which are not included in the definition of other industries in Puerto Rico for which wage orders have been issued.

Signed at Washington, D. C., this 9th day of July 1952.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

[F. R. Doc. 52-7656; Filed, July 11, 1952; 8:54 a. m.]

PART 675—LUMBER AND WOOD PRODUCTS INDUSTRIES IN PUERTO RICO, MINIMUM WAGE ORDER

Pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001), notice was published in the FEDERAL REGISTER June 18, 1952 (17 F. R. 5480-5481), of my decision to approve the minimum wage recommendations of Special Industry Committee No. 11 for the Lumber and Wood Products Industry in Puerto Rico, and the revised wage order for that industry which I proposed to issue to carry such recommendations into effect was published therewith. Interested parties were given an opportunity to submit exceptions within 15 days from the date of publication of notice.

Exceptions were filed by the United Furniture Workers of America (CIO). The exceptions raised no new matters which would require any change or modification of my previous decision.

Accordingly, pursuant to authority under the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended; 29 U. S. C. 201), the said decision is hereby affirmed and made final, the recommendations of the Committee for the Lumber and Wood Products Industry in Puerto Rico are hereby approved, and the wage order contained in this part is hereby revised to read as set forth in the June 18, 1952 issue of the FEDERAL REGISTER (17 F. R. 5480-5481), and as set forth below, to become effective August 11, 1952.

Sec.
675.1 Wage rates.
675.2 Notices of order.
675.3 Definitions of the lumber and wood products industry in Puerto Rico and its divisions.

AUTHORITY: §§ 675.1 to 675.3 issued under sec. 8, 63 Stat. 915; 29 U. S. C. 208. Interpret or apply sec. 5, 63 Stat. 911; 29 U. S. C. 205.

§ 675.1 *Wage rates.* (a) Wages at a rate of not less than 42 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the lumber and millwork division of the lumber and wood products industry in Puerto Rico, who is engaged in commerce or in the production of goods for commerce.

(b) Wages at a rate of not less than 38 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the furniture, woodenware, and miscellaneous wood products division of the lumber and wood products industry in Puerto Rico, who is engaged in commerce or in the production of goods for commerce.

§ 675.2 *Notices of order.* Every employer employing any employees so engaged in commerce or in the production of goods for commerce in the lumber and wood products industry in Puerto Rico shall post and keep posted in a conspicuous place in each department of his establishment where such employees are working such notices of this order as shall be prescribed, from time to time, by the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Division may prescribe.

§ 675.3 *Definitions of the lumber and wood products industry in Puerto Rico and its divisions.* (a) The lumber and wood products industry in Puerto Rico, to which this part shall apply, is hereby defined as follows:

Logging and the manufacture of all products made from lumber, wood and related materials, including but without limitation, sawmill and planning and plywood mill products; furniture and office and store fixtures; boxes and containers; cooperage; window and door screens and blinds; caskets and coffins; matches; wood preserving; trays, bowls and other wooden ware; excelsior, cork, bamboo, rattan, and willowware articles such as hampers, baskets, coasters, and table pads; and charcoal: *Provided, however,* That the definition shall not include any product or activity included in the rubber, straw, hair and related products industry (as defined in Administrative Order No. 417 (16 F. R. 12912) appointing Special Industry Committee No. 11 for Puerto Rico), or in the metal, plastics, machinery, instrument, transportation equipment, and allied industries; the handicraft products industry; the paper, paper products, printing, publishing, and related products industry; the construction, business service, motion picture, and miscellaneous industries; or the button, buckle, and jewelry industry (as defined in the wage orders for these industries in Puerto Rico).

(b) The separable divisions of the industry, as defined in paragraph (a) of this section, to which this part and its several provisions shall apply, are hereby defined as follows:

(1) *Lumber and millwork division.* This division consists of logging and the manufacture of sawmill and planing and plywood mill products; millwork including sash, doors, moldings, window frames, window and door screens and blinds, and similar building materials.

(2) *Furniture, woodenware and miscellaneous wood products division.* This division shall consist of the manufacture of all products in the lumber and wood products industry as defined in paragraph (a) of this section, except those products coming within the lumber and millwork division as defined in subparagraph (1) of this paragraph.

Signed at Washington, D. C., this 9th day of July 1952.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

[F. R. Doc. 52-7657; Filed, July 11, 1952; 8:54 a. m.]

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter II—Fiscal Service, Department of the Treasury

Subchapter B—Bureau of the Public Debt

[1952 Dept. Circ. 750, Revised, Amdt. 2]

PART 321—REGULATIONS GOVERNING PAYMENTS BY BANKS AND OTHER FINANCIAL INSTITUTIONS IN CONNECTION WITH THE REDEMPTION OF UNITED STATES SAVINGS BONDS

MISCELLANEOUS AMENDMENTS

JULY 7, 1952.

Sections 321.4 (b), 321.9 (a) and 321.12 (first sentence) of Department Circular No. 750, Revised, dated June 30, 1945, as amended (31 CFR 321), are hereby amended to read as follows:

§ 321.4 *Meaning of terms in this part.* • • •

(b) "Bond(s)" shall include only United States Savings Bonds of Series A, B, C, D or E, including bonds of Series E designated Defense Savings Bonds or War Savings Bonds. (Savings Bonds of Series F, G, H, J and K are not included.)

• • • • • •

§ 321.9 *Specific limitations of payment authority.* • • •

(a) If the bond is presented for payment less than two months from the issue date (the issue date should not be confused with the date appearing in the issuing agent's dating stamp). Any payment or advance to a bond owner before a bond is eligible for redemption is not authorized in any circumstance.

• • • • • •

§ 321.12 *Determination of redemption values and payment of bonds.* The redemption value of a bond is determined according to the period of time that it has been outstanding, and the table of redemption values applicable to each bond. • • •

(Sec. 22, 49 Stat. 41, as amended; 31 U. S. C. 757c)

Compliance with the notice, public procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is found to be impracticable and unnecessary with respect to this amendment since it is issued to conform with the savings bond regulations 17 F. R. 4871.

[SEAL] JOHN W. SNYDER,
Secretary of the Treasury.

[F. R. Doc. 52-7659; Filed, July 11, 1952; 8:54 a. m.]

TITLE 32—NATIONAL DEFENSE

Subtitle C—Other Regulations Relating to National Defense

Chapter XVII—Federal Civil Defense Administration

PART 1707—UNITED STATES CIVIL DEFENSE CORPS

The following regulations, which consist of Part 1707, United States Civil Defense Corps, are hereby issued.

Sec.
1707.1 Purpose.
1707.2 Definitions.
1707.3 Establishment of the United States Civil Defense Corps.
1707.4 Basic civil defense services.
1707.5 Eligibility.
1707.6 Registration, training, appointment and status.
1707.7 Suspension or termination of membership.
1707.8 Organization and command.
1707.9 Supplementary rules, regulations and orders.
1707.10 Certification of qualification.

AUTHORITY: §§ 1707.1 to 1707.10 issued under sec. 401, 64 Stat. 1254; 50 U. S. C. App. Sup. 2253. Interpret or apply sec. 405, 64 Stat. 1256; 50 U. S. C. App. Sup. 2257.

§ 1707.1 *Purpose.* The purpose of the regulations in this part is to provide minimum standards for State and local civil defense organizations in order to achieve the degree of uniformity necessary for effective and coordinated civil defense planning and operations. State and local civil defense organizations meeting such standards will be known collectively as the United States Civil Defense Corps and such organizations and the members thereof will be eligible for such benefits as may derive from Federal civil defense legislation applicable thereto.

§ 1707.2 *Definitions.* The terms which appear in these regulations shall be construed in the following manner unless otherwise clearly required by the context:

(a) "Administrator" means the Federal Civil Defense Administrator.

(b) "Civil Defense Corps" means a civil defense organization meeting the standards prescribed in this part, duly established or authorized by a State or any political subdivision thereof.

(c) "Civil Defense Director" means the person or body having authority over a Civil Defense Corps and any duly authorized designee of such person or body. Such term shall refer to a State or local civil defense director, or both, depending upon the applicability of the reference under the State's laws or requirements thereunder.

(d) "Member" means a person who has been duly appointed to membership in a Civil Defense Corps and whose membership has not been suspended or terminated, or a person obligated to perform civil defense duties by reason of service or employment pursuant to State laws or requirements thereunder. A person who is a member of a Civil Defense Corps shall be deemed to be a member of the United States Civil Defense Corps.

(e) "Registrant" means a person who has registered for membership in a Civil Defense Corps, but who has not qualified and been appointed a member and whose registrant status has not been suspended or terminated.

(f) "State" means any State, Territory or possession of the United States and the District of Columbia.

(g) "The United States Civil Defense Corps" means the aggregate of the Civil Defense Corps and includes the individuals who are members of such Civil Defense Corps.

§ 1707.3 *Establishment of the United States Civil Defense Corps.* States empowered by State authority to establish civil defense organizations or forces are hereby authorized to qualify them pursuant to § 1707.10 as Civil Defense Corps, to be known collectively as the United States Civil Defense Corps.

§ 1707.4 *Basic civil defense services.* (a) The basic operational services of members may consist of the following:

(1) *Communications.* Operates civil defense attack warnings and communications systems.

(2) *Engineering.* Provides for the emergency restoration of facilities for essential utilities, transportation and other vital community services.

(3) *Fire.* Contains and extinguishes fires resulting from enemy attack.

(4) *Health.* Renders necessary civilian health and medical services in event of enemy attack; monitors, detects, identifies and measures the presence and minimizes the effect of atomic, radiological, chemical or biological agents and materials in attacked areas.

(5) *Police.* Protects life and property, maintains law and order; regulates and controls traffic to expedite the movement of emergency vehicles and personnel; detects, isolates and reports unexploded ordnance.

(6) *Rescue.* Removes entrapped and injured persons from damaged buildings and structures; administers necessary first-aid to victims.

(7) *Staff.* Performs executive and administrative functions of a Civil Defense Corps, and includes public affairs, training and education, and volunteer manpower.

(8) *Supply.* Executes program for procurement, warehousing and release of civil defense supplies, equipment and materials.

(9) *Transportation.* Mobilizes and utilizes transportation resources required for the movement of persons, materials and equipment necessary for civil defense emergency operations.

(10) *Warden.* Directs organized self-protection at the family and neighborhood level, and supports and supplements all other civil defense services.

(11) *Welfare.* Provides emergency feeding, clothing, bedding, shelter and rehabilitation aid; provides for welfare services in evacuation where required.

(12) *Other services.* Such other or supplementary civil defense services as may be authorized by the Civil Defense Director.

(b) *Related service of members.*

(1) *Ground Observer Corps.* Observes, detects and reports enemy aircraft. (Recruiting and administration of the Ground Observer Corps are functions of the Civil Defense Corps. Training and operational control of this service are under the control of the Department of the Air Force.)

(c) Detailed qualifications and duties, not inconsistent with the preceding general functional statements, may be prescribed by the Civil Defense Director for members engaged in the several civil defense services.

§ 1707.5 *Eligibility.* The Civil Defense Director may determine policies and issue regulations regarding eligibility for membership in a Civil Defense Corps: *Provided,* That:

(a) No person shall be considered ineligible for membership by virtue of race, color, creed or national origin.

(b) Membership in any other organization of any character shall not be a requirement of eligibility for membership.

(c) No person shall become a member solely by virtue of membership in any other organization, unless such person's organizational functions include civil defense responsibilities required by State law or requirements thereunder.

(d) No fee of any kind shall be required to be paid as a condition to registration or continued membership.

§ 1707.6 *Registration, training, appointment and status.* (a) Each person desiring membership in a Civil Defense Corps shall so indicate by registering and furnishing such information and data as may be required by the Civil Defense Director except those persons obligated to perform civil defense duties by reason of service or employment pursuant to State law or requirements thereunder.

(b) Each person who shall register for membership in a Civil Defense Corps shall, prior to entering upon duty or into a course of training or instruction, take an oath of the character and in the manner provided for in subsection 403 (b) of the Federal Civil Defense Act of 1950, as amended.

(c) Each person included in the Civil Defense Corps by reason of his service or employment shall take an oath of

the character and in the manner provided for in subsection 403 (b) of the Federal Civil Defense Act of 1950, as amended, unless the Civil Defense Director shall find that an oath of equivalent character has been taken by such person or a combination of an oath plus requirements of State law imposes on such person an obligation equivalent to that imposed by the oath contained in subsection 403 (b) of the Federal Civil Defense Act of 1950, as amended.

(d) Each registrant shall be given such training or instructions as may be prescribed and approved by the Civil Defense Director for the civil defense service for which he is registered, unless he shall have demonstrated his qualifications for such service in accordance with such standards as may be prescribed by the Director.

(e) Any registrant who has completed, in a manner satisfactory to the Civil Defense Director, the prescribed course of training or instruction for the civil defense service for which he is registered, or who has demonstrated to the satisfaction of such Civil Defense Director his qualifications for such service, shall be appointed, or, in the case of persons included in the Corps by virtue of their employment, deemed appointed, to membership in the Civil Defense Corps.

(f) A membership card, in form specified by the Civil Defense Director, may be issued to each member as his official identification. In the event of termination or suspension of membership, the membership card shall be returned to the issuing authority.

(g) Members shall take such additional training and instruction and shall participate in such drills and field training as may be required or authorized by the Civil Defense Director.

(h) No member, solely by reason of such membership, shall be deemed to be an appointee or employee of the United States.

(i) All registrations of persons for membership and all appointments of persons as members shall be made in accordance with these regulations after the date hereof, and all registrations and appointments heretofore made shall be deemed to have been made in accordance with these regulations upon compliance with paragraphs (a) through (e) of this section.

§ 1707.7 *Suspension or termination of membership.* (a) Any member or registrant who fails or refuses to comply with any applicable law, regulation, order or requirement made or issued by his State or local Civil Defense Director, or who fails or refuses faithfully to perform his duties, may have his membership or training status suspended or terminated.

(b) Procedures with respect to suspension or termination shall be in accordance with applicable law or regulations.

§ 1707.8 *Organization and command.* (a) Unless otherwise provided by State law or requirements thereunder, the organization and command of the Civil Defense Corps shall be as follows:

(1) A local Civil Defense Corps shall consist of members engaged in such of the basic civil defense operational services described in § 1707.4 as may be necessary to meet State and local civil defense requirements. It shall be under the authority of the local Civil Defense Director who shall have responsibility and authority for its operation and command.

(2) A State Civil Defense Corps shall include the local Civil Defense Corps of the State. It shall be under the authority of the State Civil Defense Director, who shall supervise and coordinate its activities and who may assume directional or operational control of any local Civil Defense Corps.

(b) The Administrator shall coordinate the civil defense activities of the several departments and agencies of the Federal Government with the activities of the United States Civil Defense Corps; shall assist and coordinate interstate and international civil defense planning and operations consistent with the provisions of compacts and laws relating thereto; and may, at the request of any State, assume operational control over the Civil Defense Corps of such State.

(c) Members of the Ground Observer Corps, which Corps is under the operational control of the Department of the Air Force, shall be exempt from the application of this section.

§ 1707.9 *Supplementary rules, regulations and orders.* Each Civil Defense Director may, consistent with State laws and requirements thereunder, issue such rules, regulations, orders, or requirements not inconsistent with this part, as may be appropriate to effectuate the purposes and provisions of this part.

§ 1707.10 *Certification of qualification.* A State or local civil defense organization shall be deemed to be a Civil Defense Corps and a component of the United States Civil Defense Corps within the meaning of this part upon certification by the State Civil Defense Director to the Administrator that such organization meets the standards prescribed in this part. Such certification shall be made in the manner to be prescribed by the Administrator.

These regulations shall be effective on July 12, 1952.

J. J. WADSWORTH,
Acting Administrator,
Federal Civil Defense Administration.

[F. R. Doc. 52-7646; Filed, July 11, 1952; 8:51 a. m.]

PART 1708—OFFICIAL CIVIL DEFENSE INSIGNE

The following regulations, which consist of Part 1708, Official Civil Defense Insigne, are hereby issued.

Sec.
1708.1 Purpose.
1708.2 Definitions.
1708.3 Prescribed insigne.
1708.4 Official articles.
1708.5 Manufacture, reproduction and display of the prescribed insigne.
1708.6 Issuance, distribution and retail sale of the prescribed insigne.
1708.7 Prohibited use of the prescribed insigne.
1708.8 Violations.

AUTHORITY: §§ 1708.1 to 1708.8 issued under sec. 401, 64 Stat. 1254; 50 U. S. C. App. Sup. 2253. Interpret or apply sec. 204, 64 Stat. 1251; 50 U. S. C. App. Sup. 2284.

§ 1708.1 *Purpose.* The purpose of the regulations in this part is to prescribe the official insigne of the United States Civil Defense Corps and to establish requirements for the reproduction, manufacture, sale, possession, and wearing thereof.

§ 1708.2 *Definitions.* Except as otherwise stated, the following terms shall have the following meanings when used in the regulations in this part:

(a) "Administrator" means the Federal Civil Defense Administrator.

(b) "Civil Defense Corps" means a civil defense organization meeting the standards prescribed in Part 1707 of this chapter, duly established or authorized by a State or any political subdivision thereof.

(c) "Civil Defense Director" means the person or body having authority over a Civil Defense Corps and any duly authorized designee of such person or body. Such term shall refer to a State or local civil defense director, or both, depending upon the applicability of the reference under the State's laws or requirements thereunder.

(d) "Member" means a person who has been duly appointed to membership in a Civil Defense Corps and whose membership has not been suspended or terminated, or a person obligated to perform civil defense duties by reason of service or employment pursuant to State laws or requirements thereunder. A person who is a member of a Civil Defense Corps shall be deemed to be a member of the United States Civil Defense Corps.

(e) "Official articles" means articles designated as such by the Administrator and embodying the prescribed insigne.

(f) "Organizational equipment" means equipment (other than personal equipment) which the Administrator determines is necessary to a civil defense organization for civil defense purposes and which is of such a nature as to require the contribution of Federal funds, but not including items of equipment which the local community normally utilizes in combating local disasters except when required in unusual quantities dictated by the requirements of civil defense plans.

(g) "Registrant" means a person who has registered for membership in a Civil Defense Corps, but who has not qualified and been appointed a member and whose registrant status has not been suspended or terminated.

(h) "State" means any State, Territory, or possession of the United States and the District of Columbia.

(i) "The United States Civil Defense Corps" means the aggregate of the Civil Defense Corps, and includes the individuals who are members of such Civil Defense Corps.

§ 1708.3 *Prescribed insigne.* (a) The prescribed insigne shall be the design covered under Letters Patent A. D. 129797, October 7, 1941, consisting of the "CD" symbol in bright red, centered within a white equilateral triangle superimposed upon a dark blue circle.

(b) The prescribed insigne may be reproduced in the above colors, in black and white, or in the color of the surface upon which reproduced and one other color.

(c) Where appropriate, the name of the particular civil defense service, as designated in § 1707.4 of this chapter (United States Civil Defense Corps Regulations), shall be spelled out in block letters on a horizontal or curved line immediately above the prescribed insigne or across the apex of the triangle within the blue circle. The name of the state or city should appear, either immediately below the insigne or within the blue circle below the triangle. When it is desired to use both the name of the state and the name of the city or other civil defense organizational unit, one should appear immediately below the insigne and the other within the blue circle below the triangle.

(d) The dimensions of the components of the prescribed insigne when the blue circle is 3" in diameter will approximate the following: The triangle will be equilateral 2¼" on a side, each of the letters in the "CD" symbol will be $\frac{3}{16}$" in thickness and will occupy a circle $1\frac{1}{8}$" in diameter centered in the triangle. Other sizes of the prescribed insigne will be established by diameter of the blue circle only; to the extent that the diameter of the blue circle is greater or less than 3", the dimensions of the other components shall be proportionately increased or decreased.

§ 1708.4 *Official articles.* (a) Official articles shall consist of the following articles embodying the insigne:

(1) Arm bands.
(2) Badges.
(3) Hat bands.
(4) Helmets.
(5) Pennants, placards, plates or stickers for aircraft, vehicles or vessels.
(6) Membership cards.

(b) No person shall possess, display, wear, or use an official article unless he or she is a member of or registrant for membership in a Civil Defense Corps, and no person shall display, wear, or use such an article unless he or she has on his or her person a membership card or other identification evidencing such status: *Provided*, That during a period of emergency operations these prohibitions shall not apply to any person who is performing a civil defense function pursuant to instructions of a Civil Defense Director; *Provided further*, That this prohibition shall not apply to the possession or display of official articles by a manufacturer, wholesaler or retailer in the normal course of business, or to display of pennants, placards, plates or stickers on aircraft, vehicles or vessels designated for operational use by a Civil Defense Director.

§ 1708.5 *Manufacture, reproduction and display of the prescribed insigne.* (a) Any individual, association or business entity may manufacture the prescribed insigne and official articles in compliance with these regulations.

(b) The prescribed insigne may be manufactured, reproduced, and displayed only:

(1) On official articles.
(2) On organizational equipment.
(3) On items of identification issued by the Civil Defense Director to permit necessary movement of persons, vehicles and equipment during a period of emergency operations.
(4) On facilities and equipment designated for emergency operational use by the Civil Defense Director.
(5) On official letterheads, publications, posters, signs, advertisements, lapel pins, pennants, placards, flags and banners, used, issued, or authorized by a Civil Defense Corps or Director.
(6) In connection with articles or advertisements in newspapers, magazines or other publications, or in connection with television or other public information media, provided such use is not intended to discredit the Federal Civil Defense Administration or a Civil Defense Corps, or to mislead, confuse, misrepresent, defraud, or does not erroneously confer the impression of indorsement, approval or relationship to the Federal Civil Defense Administration or a Civil Defense Corps.
(7) On such other items, whether official articles or not, as may be designated or approved by the Administrator in writing.
(8) Without limitation of the foregoing, the reproduction of the prescribed insigne in connection with any publication or article used for political purposes is prohibited.

(c) No alteration or modification of the prescribed insigne may be made except as the Administrator may from time to time authorize.

§ 1708.6 *Distribution, issuance, and retail sale of the prescribed insigne.* No distribution, issuance, or retail sale of the prescribed insigne or official articles shall be made except upon the authorization of the Civil Defense Director.

§ 1708.7 *Prohibited use of the prescribed insigne.* No person shall possess or wear the prescribed insigne or any device in colorable imitation thereof with intent to deceive or mislead, or for the purpose of inducing the false impression that such person is engaged in the performance of an authorized civil defense service or activity.

§ 1708.8 *Violations.* The manufacture, possession, or wearing of the prescribed insigne or any device in colorable imitation thereof otherwise than in accordance with these regulations by any person shall be unlawful and shall subject such person to a fine of not more than $1,000 or imprisonment of not more than one year, or both.

These regulations shall be effective on July 12, 1952.

J. J. WADSWORTH,
Acting Administrator,
Federal Civil Defense Administration.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 14, Amdt. 15]

CPR 14—CEILING PRICES OF CERTAIN FOODS SOLD AT WHOLESALE

DIETETIC FOOD WHOLESALERS, CLARIFICATION OF SERVICE FEE WHOLESALERS, MISCELLANEOUS PROVISIONS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 15 to Ceiling Price Regulation 14 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment exempts "health food wholesalers" and "health food departments" of wholesalers from the provisions of Ceiling Price Regulation 14. As a result, they will now be under the provisions of the General Ceiling Price Regulation. Further this amendment clarifies the definition of service fee wholesalers and changes the method they must use when computing their ceiling prices and when establishing net cost for their retailers. Finally, it corrects certain clerical errors and incorrect classification of commodities within Table A.

Following are the considerations supporting the more important changes made by this amendment.

1. Section 1 of CPR's 15 and 16 exempts "health food retail stores" or "health food departments" of retail stores from coverage by the provisions of these regulations. This was deemed advisable since historically these specialized stores or departments obtained markups substantially higher than those realized in regular grocery operations. This exemption followed the pattern set by the OPA, and OPA experience indicates that such operations were covered satisfactorily by the provisions of the General Maximum Price Regulation.

However, the same treatment was not accorded wholesalers whose business was primarily the sale of "health foods" or wholesalers who operated a separate "health food" department. While OPA was in existence, health foods were either distributed as a side line by regular food wholesalers or were distributed directly by processors to retailers. Further, at that time a large segment of the health food field was largely eliminated as a special line, since a considerable amount of canned fruits and vegetables were packed without sugar due to the sugar shortage. OPS has up to now followed the OPA pattern in regard to health food wholesalers.

It has now been brought to the attention of this Agency that there are a number of health food wholesalers whose entire business is in this specialized field, as well as a number of regular wholesalers who operate separate health food departments. Several of these operators, who represent a large portion of the total business in this field, have submitted financial data and other economic in-

formation which indicate that the margins provided for wholesalers in CPR 14 are far lower than those historically realized by this special group, and that the costs of operation of this group are not comparable to those of regular food wholesalers.

Accordingly, this amendment excludes wholesalers whose business is predominantly the sale of "health foods", and "health food departments" (when operated as separate departments) of regular food wholesalers, from the provisions of CPR 14 and places them under the GCPR.

2. This amendment also clarifies the definition of a service fee wholesaler and changes the method they must use when computing ceiling prices and when estimating new cost for their retailers. Section 26a of CPR 14 defines a service fee wholesaler as one, who among other things, makes a substantial part of his sales in dollar volume by delivery. It has been found that not all service fee wholesalers make delivery, and further, that the delivery term is not necessary to the definition of service fee wholesalers. It has also been found that the present pricing method for service fee wholesalers has raised some questions of interpretation. Therefore, this amendment makes the definition of a service fee wholesaler equally applicable to a wholesaler who does not make deliveries as well as one who does. It further provides a pricing method based on the wholesaler's delivery practice. This amendment also modifies Section 28a to permit wholesalers to take advantage of this change in definition of a service fee wholesaler. Of course, the new method for establishing ceiling prices and for estimating new cost to the retailer is applicable to all service fee wholesalers.

3. When this regulation was issued flour jobbers were exempted except for their sales of flour to retail stores. However, the limitation of the coverage of the regulation to the jobbers' sales of flour to retail stores was inadvertent. This amendment corrects that error and provides that all sales to retailers by flour jobbers of Table A commodities shall be subject to this regulation.

In the judgment of the Director of Price Stabilization, the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended. In the judgment of the Director of Price Stabilization, they also comply with all the applicable standards of the Defense Production Act of 1950, as amended. In formulating this amendment, the Director has consulted with representatives of industry, including trade association representatives, to the extent practicable, and has given consideration to their recommendations.

AMENDATORY PROVISIONS

Ceiling Price Regulation 14 is amended in the following respects:

1. Section 2, paragraph (a) is amended by changing the last sentence to read as follows:

This regulation does not apply, however, to "health food wholesalers" or "health food departments", "wagon wholesalers", Great Lakes marine suppliers, to sales by "flour jobbers" to commercial, industrial or institutional users, or to sales of "cookies, crackers, toast and crumbs" by "cookie and cracker wholesalers". (See sec. 33, Definitions.)

2. Section 7 is revised by substituting in the first sentence for the words "next cost" the words "net cost".

3. Section 26a is revised to read as follows:

SEC. 26a. *How a Service Fee Wholesaler figures his Ceiling Prices.* (a) You are a service fee wholesaler if, prior to April 5, 1951, and at the present time: (1) services are rendered through outside salesmen or fieldmen; (2) your selling prices to retail stores are figured by the addition to your cost of a stated service fee and charges for additional services rendered; and (3) your sales are made to retail stores only after the retail stores have agreed to become affiliated with your plan.

(b) If you are a service fee wholesaler, you shall figure your ceiling prices in accordance with sections 3 and 4 of this regulation for all items covered by this regulation by adding to your "net cost" as defined in Section 4, the fee and service charges (except optional charges) made by you during the month prior to the effective date of this regulation. These "fee and service charges" shall not include any charges optional to your retail customer, but shall include all stated fees and charges for services rendered which are a compulsory part of your plan of operation. However, during each consecutive four-week period after May 14, 1951, your "net cost" for all items subject to this regulation sold by you to any retail customer, plus the total of the fee and service charges made to that customer, may not exceed what your ceiling prices would have been if you had figured your ceiling prices by using Class 2 (cash-and-carry) markups where your delivery charge is optional or where you make no deliveries or by using Class 3 (service) markups where you have a compulsory charge for deliveries or where you make free delivery or if you are a Class 1 wholesaler (retailer-owned cooperative) by using Class 1 markups for all sales to members of your cooperative organization, provided that you must reduce to 1.10 all categories of commodities that have a markup above 1.10, except category 10 which shall be reduced to a markup of 1.19.

(c) On all sales made by you as a service fee wholesaler of items covered by this regulation you must furnish the retailer an estimated ceiling price for each item. This estimated ceiling price shall be what your ceiling price would have been if you had figured your ceiling price by adding to your "net cost", as defined in section 4 of this regulation, the markup provided for Class 2 wholesalers where your delivery charge is optional or where you make no delivery or the markup provided for Class 3 wholesalers where you have a compulsory charge for delivery or where you make free delivery or the markup provided for Class 1 wholesalers for sales to members of your cooperative organization, but reducing to 1.10 all categories of commodities that have a markup above 1.10 except category 10 which shall be reduced to a markup of 1.19. This information must be furnished to the retailer on the invoice or order form, or other written document furnished at or before the time of delivery of the items.

(d) You must notify the OPS district office for your area not later than May 31, 1951, of all fee and service charges used by you during the month prior to the effective date of this regulation which are a compulsory part of your plan of operation, and of all charges which are optional to the retailer, together with all information necessary to obtain a complete description of your type of operation. You may begin using the provisions of this section as soon as you have furnished your OPS district office for your area the information required by this section. This authority may be withdrawn if it is determined that you do not qualify for adjustment under this section.

(e) If you figure your ceiling prices for any items under this section, you must figure your ceiling prices for all sales of items covered by this regulation to retail stores affiliated with your plan in accordance with this section.

4. Section 28a is revised to read as follows:

SEC. 28a. *How certain wholesalers may apply for permission to operate as service fee wholesalers.* If you were not operating as a service fee wholesaler prior to April 5, 1951, or if you were so operating but were unable to qualify under section 26a prior to May 31, 1951, because you could not meet the delivery requirement of the former paragraph (a) (1) of section 26a, you may file an application for permission to operate as a service fee wholesaler. Your application must contain the following information:

(1) The names and addresses of the retailers who agree to become affiliated with your plan.

(2) A description of the services covered by your proposed fees and charges which you will offer to your retailers.

(3) A statement of your proposed fees and charges for the services which you will offer to your retailers.

(4) The number of salesmen or fieldmen that you plan to use.

(5) A complete description of your proposed type of operation, including your method of invoicing.

Your application must be filed in duplicate with the OPS district office for your area. You may not operate as a service fee wholesaler until you have received specific authorization from that OPS office. Applications for adjustments are governed by Price Procedural Regulation 1, Revised.

5. Section 33, paragraph (g), is revised by deleting from the second sentence the words "for flour".

6. Section 33, "Definitions", is further revised by adding a new paragraph (j) to read as follows:

(j) *Health food wholesalers.* A "health food wholesaler" or "health food department" is one whose sales to retailers consist principally of specially prepared dietetic foods. For the purpose of this regulation, a "health food department" is a separate and distinct department operated as a special unit for which separate records and accounts are maintained. "Specially prepared dietetic foods" are foods manufactured and sold for restricted diets and for dietetic purposes including, but not limited to, specially prepared foods for diabetic or arthritic conditions, or high blood pressure, specially prepared weight building, reducing and tonic foods, and vitamin or mineral supplements.

7. Section 33, "Definitions", is further revised by adding a new paragraph (k) to read as follows:

(k) *Canned.* "Canned" means processed and packaged in any container, whether or not hermetically sealed.

8. Section 35, paragraph (d) (4) is revised to read as follows:

(4) "Coffee". Excluded are: Imported coffee if imported in consumer size containers (2 lbs. or less) and coffee packed in bags, each containing only the amount necessary to make one ordinary cup of coffee.

9. Section 35, paragraph (b) (8) is amended by deleting the word "clams".

10. Section 35, paragraph (c) (8) is amended to read as follows:

(8) "Fish, processed". Excluded are Canned clams (except canned Maine whole soft shell clams); and kippered, marinated, dried or smoked fish and seafood (except sardines).

11. Section 35, paragraph (d) (8) is amended to read as follows:

(8) Excluded are: Canned Maine whole soft shell clams, frozen fish and seafood, fresh fish and seafood, canned clam juice, fish and seafood pates, pastes and purées, sauce containing fish and seafood, fish roe, caviar, fish and seafood hors d'oeuvres, and imported "fish, processed" if imported in consumer size containers, except tuna, crabmeat and salmon.

12. Section 35, paragraph (c) (10) is amended by deleting the words "frozen fish and seafood".

13. Section 35, paragraph (d) (10) is amended to read as follows:

(10) "Frozen foods". Excluded are: Frozen hollandaise sauce and frozen fish and seafood.

14. Section 35, paragraph (b) (12) is amended by deleting the words "'Canned' means processed and packaged in any container whether or not hermetically sealed".

15. Section 35, paragraph (b) (19) is amended by adding after the word "tamales" the word "enchiladas".

16. Section 35, paragraph (b) (32) is amended by deleting the words "'Canned' means processed and packaged in any container whether or not hermetically sealed".

17. Section 35, paragraph (d) (32) is amended by adding after the words "consumer size containers" the words "and canned artichoke products".

18. Section 35, paragraph (b) (33) is amended by deleting the words "'Canned' means processed and packaged in any container whether or not hermetically sealed".

19. Section 35, paragraph (b) (36) is amended by deleting the words "Tom and Jerry batter (bottled)" and the words "popcorn, not popped", and by adding after the words "date products" the words "Enchiladas (tins, jars, paper or corn wrapped)".

20. Section 35, paragraph (c) (36) is amended by deleting the words "Frozen fish and seafood".

21. Section 35, paragraph (c) (36) is amended by adding after the word "Eggs" the words "Egg-nog (non-alcoholic) bottled", by adding after the words "Tamales, bulk" the words "Tom and Jerry batter (bottled)", by deleting the words "Popcorn, popped", and changing the words "Fruit cake" to read "Fruit cake, except holiday fruit cake".

22. Section 35, paragraph (c) (36) is amended by deleting the words "Fresh fruits and vegetables" and inserting after the words "Potato chips" the words "Potatoes, white flesh".

23. Section 35, paragraph (c) (36) is amended by adding after the word "Wine" the word "Yogurt".

24. Section 35, paragraph (d) (36) is amended to read as follows:

(36) "Miscellaneous foods". Excluded are: Truffles, capers, canned snails, cane or beet sugar, rattlesnake meat, easter egg dye, olive oil, popcorn (popped or not), holiday fruit cake and fresh fruits and vegetables except white potatoes.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective July 16, 1952.

NOTE: The record-keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 11, 1952.

[F. R. Doc. 52-7776; Filed, July 11, 1952; 10:42 a. m.]

[Ceiling Price Regulation 34, Supplementary Regulation 22]

CPR 34—SERVICES

SR 22—SERVICE CHARGES FOR BANKS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Supplementary Regulation 22 to Ceiling Price Regulation 34 is hereby issued.

STATEMENT OF CONSIDERATIONS

This Supplementary Regulation 22 to Ceiling Price Regulation 34, as amended, adapts ceiling price regulation of bank service charges more nearly to the operations of the banking industry.

Generally, this regulation covers two classes of situations. First, it provides, to the extent consistent with fair treatment of small as well as large depositors, flexibility for changes in certain service charges within individual banks so long as the total revenue to the bank from service charges remains approximately the same as it was during the most recent fiscal year. More specifically, this regulation contains a provision for simplifying the method of determining earnings credit on depositors' checking accounts. It also permits a realignment of service charges and at the same time assures that the services which were available during the base period will remain available to all classes of depositors. Also included in this part of the regulation is a provision which will permit nonpar banks with an exchange charge system to change to par banks with a schedule of service charges in lieu of the exchange charges.

Secondly, this regulation provides a means for realigning service charges where such a realignment is necessary to permit the customary uniformity of ceiling prices and sound banking operation in certain cases where a bank has branch offices.

A provision is included in this part of the regulation to permit those banks which had a trial service charge in effect during the base period to price uniformly at all of their branch offices if those banks customarily had a substantially uniform system of pricing at all of their branch offices. Consideration has also been given to the special pricing problems of merging and consolidating banks and to new branch offices of old banks. With respect to the merger or consolidation situation, this supplementary regulation authorizes the smaller merging bank to adopt entirely, but not in part, the schedule of service charges of the larger merging bank where the larger bank is accountable for 66⅔ percent or more of their aggregate total time and demand deposits. If the necessary two-thirds ratio is not present, the merging or consolidating banks either may continue their individual lawful ceiling prices for service charges in effect at the time of the merger or may apply under section 4 of this supplementary regulation for an appropriate changed schedule of service charges. The provision for branch offices permits new bank branches to adopt the schedule of service ceiling charges in effect at the principal bank if the principal bank had a substantially uniform system of service charges during the base period or did not, prior to the base period, have any branch offices.

This supplementary regulation also states additional requirements and special factors to be taken into account in respect to banks which seek to qualify for and obtain a ceiling price adjustment under section 20 (a) of Ceiling Price Regulation 34, as amended.

There is nothing in this supplementary regulation which would prohibit any bank from determining its schedule of service charge ceilings pursuant to any of the provisions of Ceiling Price Regu-

lation 34, as amended. The provisions of this supplementary regulation are alternatives which a bank may utilize, if it wishes, in lieu of the otherwise applicable provisions of Ceiling Price Regulation 34.

In the formulation of this supplementary regulation there was consultation with representatives of the banking industry as well as members of bankers' trade associations and consideration was given to their recommendations. In the judgment of the Director of Price Stabilization the provisions of this regulation are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended.

REGULATORY PROVISIONS

Sec.

1. What this regulation does.
2. Relationship to Ceiling Price Regulation 34.
3. Alternative methods of computing earnings credit on depositors' checking accounts.
4. Changing schedule of service charges on depositors' checking accounts.
5. Nonpar banks changing to par banks.
6. Base period trial service charges.
7. Mergers and consolidations.
8. New branch offices.
9. Applications for adjustment under section 20 (a) of Ceiling Price Regulation 34.
10. Definitions.

AUTHORITY: Sections 1 to 10 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Supp. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Supp. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR 1950 Supp.

SECTION 1. *What this regulation does.* This supplementary regulation to Ceiling Price Regulation 34 authorizes banks to institute a new method or to change their present method of computing depositors' earnings credits in connection with service charge ceilings on depositors' checking accounts. It permits banks to change their schedule of service charge ceilings if certain requirements are met. It also authorizes banks desiring to change from a nonpar check clearance system to a par check clearance system to institute service charges in lieu of exchange charges. It further provides a method by which banks may establish uniform service charge ceilings where two or more banks merge or consolidate and in certain other instances where banks operate branch offices.

This supplementary regulation also states additional requirements and special factors to be taken into account in respect to banks which seek to qualify for and obtain a ceiling price adjustment under section 20 (a) of Ceiling Price Regulation 34, as amended.

SEC. 2. *Relationship to Ceiling Price Regulation 34.* The provisions of this supplementary regulation give banks the option to determine certain ceiling prices for service charges differently than permitted by the provisions of Ceiling Price Regulation 34, as amended. Except for such option, all provisions of Ceiling Price Regulation 34 remain in effect for service suppliers affected by this regulation.

SEC. 3. *Alternative methods of computing earnings credit on depositors' checking accounts.* This section applies to you if you are a bank and wish to modify your service charge ceilings by changing your present method of computing earnings credit on depositors' checking accounts. In this event you may apply to the Director of Price Stabilization, Attention: Chief, Service Trades Branch, Washington 25, D. C., for permission to change your method of computing the earnings credit on depositors' checking accounts from one of the following methods to another of the following methods: (a) An average daily balance for the month, with customary deductions for float and reserve; or (b) the depositors' minimum balance for the month, without deduction for float and reserve; or (c) by adding the highest balance appearing during a month and the lowest balance appearing during the same month, dividing the total by two, and making customary deductions for float and reserve. Your application under this section must contain an explanation of your present method (included in the foregoing list of alternatives) of computing earnings credit on depositors' checking accounts and a statement of which of the alternative methods provided for herein you propose to use in lieu of your present method. You may not change your method of computing your earnings credit on depositors' checking accounts under this section until you are advised in writing of OPS approval. Nothing in this section shall be construed to authorize any bank to lower the rate it allows to its depositors with respect to credit on depositors' checking accounts.

SEC. 4. *Changing schedule of service charges on depositors' checking accounts.* (a) Banks which now have a schedule of service charges on depositors' checking accounts may apply to the Director of Price Stabilization, Attention: Chief, Service Trades Branch, Washington 25, D. C., for permission to substitute another schedule therefor, provided:

(1) The aggregate proceeds that would have been received from the proposed schedule of service charges on depositors' checking accounts had that schedule been in effect during the last preceding fiscal year do not exceed the aggregate proceeds actually received from the service charges on depositors' checking accounts in effect during that period;

(2) The proposed schedule of service charges on depositors' checking accounts will not result in the discontinuance of any service rendered during the base period to any class of depositor; and

(3) The requested plan is fair and equitable to all classes of depositors and particularly that smaller depositors will not be subjected to an unreasonable increase in charges under the requested plan.

(b) If you are a bank applying for permission to change your schedule of service charges on depositors' checking accounts under this section, your application must contain the following information:

(1) An explanation of your present service charge plan, including rates on depositors' checking accounts of various categories.

(2) An explanation of the requested plan and rates of service charges on your depositors' checking accounts of various categories.

(3) A statement of (i) the total income actually received from the service charges on your depositors' checking accounts during the last preceding fiscal year, (ii) the total income actually received from service charges on your depositors' checking accounts in each of every third month of the last preceding fiscal year and (iii) the total income that you would have received from service charges on your depositors' checking accounts in each of the same months as in subdivision (ii) if the requested schedule of service charges described in paragraph (b) (2) of this section had been in effect. The statement of income required by this subparagraph must include an analysis of all established categories of depositors' checking accounts that would have been affected under the proposed schedule but must exclude income received from other service charges not included in the present or proposed service charge schedule.

(4) If you have ever been authorized to adjust your service charges by the Office of Price Stabilization, you must adequately identify the order in which you were authorized to make such adjustment.

(5) If you have changed from a nonpar bank to a par bank under section 5 of this regulation, you must adequately identify your application therefor, and any order issued with respect thereto.

You may not change the schedule of service charges on depositors' checking accounts under this section until you are advised in writing of OPS approval, which will be given only where granting such approval is consistent with the purposes of the Defense Production Act of 1950, as amended.

SEC. 5. *Nonpar banks changing to par banks.* (Substitution of a check clearance service charge to the maker in place of an exchange charge to the payee or endorser).

(a) If you are a bank which now imposes an exchange charge for check clearance on the payee or endorser of a check (nonpar system) and you now wish to impose a service charge on the maker of the check (par system), you may, under this section, apply to OPS for permission to change from the nonpar system to a system of service charges applicable to depositors' checking accounts. However, you must make a showing that the total calculated income from the application of proposed service charges to depositors' checking account, had they been in effect during the last preceding fiscal year, would not have exceeded the total income actually received from the service charges on depositors' checking accounts and exchange charges in effect during that fiscal year.

(b) Your application under this section must be submitted to the Director of Price Stabilization, Attention: Chief, Service Trades Branch, Washington 25, D. C., and must contain the following information:

(1) An explanation of your present schedule of exchange charges and service charges on depositors' checking accounts, if any.

(2) An explanation of the service charge plan and schedules applicable to depositors' checking accounts which you propose to institute in lieu of the exchange charges.

(3) A statement of (i) the total income actually received from exchange charges and service charges on depositors' checking accounts, if any, during the last preceding fiscal year, (ii) the total income actually received from exchange charges and service charges on depositors' checking accounts, if any, in each of every third month of the last preceding fiscal year, and (iii) the total income that you would have received from service charges applicable to depositors' checking accounts in each of the same months as in subdivision (ii) if the requested plan described in subparagraph (2) of this section had been in effect, with an explanation, including wherever feasible, item counts of how you arrived at such totals.

(4) If you have ever been authorized to change your schedule of service charges on depositors' checking accounts under any section of Ceiling Price Regulation 34, as amended, or this supplementary regulation, you must adequately identify your application and any order issued with respect thereto.

If your application, under this section is approved by OPS as hereinafter provided you must discontinue your exchange charges before instituting your approved schedule of service charges. You may not change from a nonpar system to a system of service charges applicable to depositors' checking accounts under this section however, until you are advised in writing of OPS approval, which will be given only where granting such approval is consistent with the purposes of the Defense Production Act of 1950, as amended.

SEC. 6. *Base period trial service charges.* (a) If you have one or more branch offices and during the base period the prices for your service charges were centrally determined and had substantially uniform application in your principal bank and your branch offices, but during the base period you were supplying a service at a new charge (trial service charge) at your principal office or at a branch office to determine the feasibility of installing that charge in your other offices, you may apply to the Director of Price Stabilization, Attention: Chief, Service Trades Branch, Washington 25, D. C., for permission to supply such service at the trial service charge price established for its supply in all of your offices, provided you submit a statement indicating (1) that you price centrally out of your principal office, (2) during the base period the ceiling prices or pricing methods for all of your services were substantially uniform in all of your offices, (3) that the service was being supplied at the trial service charge price during the base period at an office which you shall identify by name and address, (4) a description of the service for which you are requesting permission to change your ceiling price and a statement of the present ceiling price and the base period trial charge therefor, and (5) that you desire to apply this trial service charge in all of your offices.

You may not institute the charge under this section until you are advised in writing of OPS approval, which will be given only where granting such approval is consistent with the purposes of the Defense Production Act of 1950, as amended.

SEC. 7. *Mergers and consolidations.* (a) Two or more banks which have merged or consolidated since January 25, 1951, may determine the ceiling prices for their services pursuant to this section if, during the base period, one of the banks involved in the merger or consolidation had a uniform schedule of service charges in all of its offices and on the next preceding June 30 or December 31, whichever date is closer to the date of the merger or consolidation, was alone or with its branches, as the case may be accountable for 66⅔ percent or more of the total time and demand deposits of the merging or consolidating banks. In such event, the bank resulting from the merger or consolidation may apply to the Director of Price Stabilization, Attention: Chief, Service Trades Branch, Washington 25, D. C., for permission to establish as the ceiling prices for its services, the ceiling prices which the bank accountable for 66⅔ percent or more of the total time and demand deposits had in effect on the date of the merger or consolidation.

(b) If you are a bank applying for permission to establish the ceiling prices for your services provided for in paragraph (a) of this section, your application must contain a statement showing how you are eligible to establish your ceiling prices as provided therein together with schedules of the service charges in effect at each of the merged or consolidated banks on the date of your application. You may not establish your ceiling prices under this section until you are advised in writing of OPS approval, which will be given only where granting such approval is consistent with the purposes of the Defense Production Act of 1950, as amended.

SEC. 8. *New branch offices.* (a) If during the base period, December 19, 1950 to January 25, 1951, inclusive, you had a branch office or offices with a substantially uniform schedule of service charges and subsequent to January 25, 1951, you open or plan to open a new branch office, you may apply to the Director of Price Stabilization, Attention: Chief, Service Trades Branch, Washington 25, D. C., for permission to establish at the new branch office the uniform schedule of service charges in effect at your other branch office or offices during the base period.

(b) Banks without branch offices during the base period: If you are a bank which did not have any branch offices during the base period, December 19, 1950 to January 25, 1951, inclusive, and subsequent thereto you open or plan to open a new branch office, you may apply to the Director of Price Stabilization, Attention: Chief, Service Trades Branch Washington 25, D. C., for permission to charge in the new branch office the ceiling prices for services which the principal office charges for the same services supplied therein.

(c) If you are applying for permission to establish ceiling prices for your services under paragraph (a) or (b) of this section your application must contain a list of the addresses of the principal bank and all branch offices together with a schedule of the ceiling prices for services in effect at the principal office on the date of your application and if you have ever been authorized to adjust your service charges by the Office of Price Stabilization, you must adequately identify the order under which you were authorized to make such adjustment. You may not supply the services for which you are requesting a ceiling price under this section until you are advised in writing of OPS approval, which will be given only where granting such approval is consistent with the purpose of the Defense Production Act of 1950, as amended.

SEC. 9. *Application for adjustment under section 20 (a) of Ceiling Price Regulation 34.* If you are eligible for an adjustment under section 20 (a) of Ceiling Price Regulation 34, as amended, your application must contain in addition to the information required by OPS Public Form 43, Revised, a statement of the total demand and time deposits of the bank on the next preceding June 30 or December 31, whichever is closer to the date of application. OPS in granting relief under section 20 (a) will take into account in addition to the matters referred to in that adjustment provision: (1) The United States ratio of average percentage of service charge revenue to total income for banks of various sizes as measured by demand and time deposits; (2) whether your ratio of average percentage of service charge revenue to total income is more or less than the United States ratio on insured banks, as computed on the basis of the 1949 report of the Federal Deposit Insurance Corporation; and (3) the reasonable dollar amount of allowable increased revenue from service charges to offset, in whole or in part, impairment of your normal pre-Korean earnings to meet the needs of smaller banks and to cover costs of installing or modifying your service charge schedule.

SEC. 10. *Definitions.* (a) As used in this supplementary regulation: The term "bank" shall include any person, firm or corporation engaged in the business of receiving and paying deposits of money or its equivalent, and which is authorized or permitted to engage in such business by the laws of the United States or any State, Territory or District.

(b) The term "service charges" means those charges made by the banks for services which are subject to price regulation, including, but not limited to, service charges on depositors' checking accounts, safety deposit box rentals, bank money orders, cashiers' checks, and other miscellaneous services.

(c) The term "service charges on depositors' checking accounts" means only those charges which the bank imposes against its depositors for the services it renders the depositors in connection with the depositors' checking accounts.

(d) The term "uniform schedule of service charges" means that the same ceiling price is charged for the same services at all offices of a bank.

(e) The term "exchange" means the charge that nonpar banks deduct for paying checks drawn upon themselves when they are presented through the mails from out-of-town points for the service of remitting the proceeds of the checks to distant points.

(f) The term "par bank" refers to those banks which will remit in full items payable by them.

(g) The terms "merger and consolidation" refers to the combining of two or more banks under the charter of one of such banks or under a new charter with or without the dissolution of any such banks.

(h) The term "earnings credit" is the allowance to checking account depositors as a partial or full offset against certain service charges.

(i) The term "float" means items in transit which are in the process of collection but not actually collected.

(j) The term "reserve" means funds set aside by the bank as required by law and as deemed necessary by the bank to enable it to meet its depositors' demands.

(k) The term "new branch" means a bank which is established in a separate location from that of the principal office and any previously established branch office or offices. It does not include the previously established branch of a bank which has moved to a new location.

(l) The term "average daily balance" means the average amount of money that customer keeps on deposit, determined by adding the daily balances of his account for any given period and dividing the total by the number of days in such period.

Effective date. This Supplementary Regulation 22 to Ceiling Price Regulation 34 shall become effective July 11, 1952.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 11, 1952.

[Ceiling Price Regulation 93, Interpretation 23]

CPR 93—CONSTRUCTION AND RELATED SERVICES AND SALES OF INSTALLED MATERIALS

INT. 23—CHANGE FROM TIME AND MATERIALS TO LUMP-SUM BASIS (SECTION 37)

Some contractors who, during the base period, set prices for their services on a time and materials basis have indicated a desire to discontinue this method of pricing and begin pricing on a lump-sum basis, thereby eliminating the necessity for reporting on OPS Form 101 under section 32. They have inquired whether this change is permissible in view of section 37.

A contractor may change to the lump-sum method of pricing if he makes application, as provided by section 16 for sellers without base period experience. However, if, by reason of the change from a time and materials to a lump-sum pricing basis, a service having the same general purpose which formerly was offered at a lower price would not now be available except at a higher price, the contractor may not thereafter refuse to sell on his former time and materials basis except under the circumstances permitted by section 37.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

HERBERT N. MALETZ,
Chief Counsel,
Office of Price Stabilization.

[Ceiling Price Regulation 24, Amdt. 15]

CPR 24—CEILING PRICES OF BEEF SOLD AT WHOLESALE

MISCELLANEOUS AMENDMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, Economic Stabilization Agency General Order 2, Delegation of Authority by the Secretary of Agriculture to the Economic Stabilization Agency with respect to meat, as amended, and Economic Stabilization Agency General Order 5, Revision, this Amendment 15 to Ceiling Price Regulation 24 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment makes the following changes in CPR 24:

1. The requirements which have to be met in order to qualify for sales of prefabricated retail cuts have been somewhat liberalized in order to aid small independent stores, which do not have meat cutting facilities, in obtaining beef. This modification makes it possible for such a retailer to obtain a new source of supply where his customary source is no longer available or to obtain such prefabricated cuts for the first time if he has not done so before. At the same time sufficient safeguards are still provided to prevent the abuses which the original restrictions were designed to prevent.

Moreover, in order to enable the Office of Price Stabilization to deal equitably with exceptional situations, an adjustment provision has been added which sets forth a method whereby individual authorizations to buy and sell prefabricated retail cuts may be approved at the local level, subject to certain generally applicable standards and limitations, designed to keep under control the economic consequences of this relaxation of the restrictions on this type of sales.

2. Ceiling prices are established for sales of ungraded or improperly graded beef, and for unauthorized sales of any beef product, either by an unauthorized seller or to an unauthorized buyer. A new section is added, containing these ceiling prices as well as the provisions for ceiling prices for miscuts, which have been expanded so as to apply to all schedules. The purpose of all of these provisions is not, of course, to sanction any of these illegal sales, but merely to provide a yardstick for the measuring of damages under the provisions of the Defense Production Act of 1950, as amended.

3. The schedules for fabricated cuts have been amended so as to add two new items, namely, strip steaks (bone-in) and boneless strip loins or boneless strip steaks. New definitions have been added for these items which will permit considerably closer trim than was heretofore required. Concurrently, "club steak" has been redefined so as to permit this item to be made from an untrimmed portion of the short loin. These changes are made in response to request from the trade for authorization of a better quality steak than heretofore defined in this regulation. The Office of Price Stabilization has been advised by the industry that some sellers have historically sold steaks trimmed more finely than was previously required under the cutting standards incorporated in CPR 24. In order to accommodate these sellers who cater primarily to the banquet trade, the aforementioned changes have been made, which should have no effect on the prices of staple beef items bought by the average consumer. If there is any indication of an undue diversion of beef into these luxury items, the Office of Price Stabilization will reconsider this action.

4. Section 22, Schedule III, Boneless beef cuts, has been revised so as to permit sales of boneless cuts derived from the better grades of beef. This was done in response to a recommendation of the Industry Advisory Committee, in order to permit sellers in certain areas, particularly New England, to return to their historical practice of selling boneless beef cuts made from the top grades of beef. An exception has been made in the case of certain boneless beef cuts which are used predominantly by processors and which are customarily derived from the lower grades of beef. There are no counterparts of these cuts at the retail level. Moreover, in the case of those boneless items which, as a rule, do not bear the grademark and the value of which does not necessarily depend upon the grade of the carcass from which it was derived, such as flank steaks or skirt steaks, the same ceiling prices have been provided across the board for all grades.

An additional item has been added to Schedule III, namely, "peeled tenderloin". This was done in response to a request from the trade to permit sellers to supply, in the customary manner, certain segments of the restaurant trade which specialize in filets mignon or tenderloin steaks. This will permit these sellers to trim off all fat, sinew, and connective tissue, so as to allow the restaurants to utilize all the meat for steaks without a large additional amount of trimmings which can only be used for hamburger—for which these restaurants have only a limited outlet. A definition for "peeled tenderloin" has been added which provides that only the larger tenderloins may be used in their preparation. This meets the customary specifications of the major users of this product. In response to a recommendation by the Industry Advisory Committee, separate ceiling prices for tenderloins based on a weight breakdown have been established in the revised Schedule III. Also, in connection with special addition (3) to Schedule III, a revised definition of the term "independent frozen food distributor" has been added.

5. The title of Section 28 has been corrected to read *Specialty products, prefabricated, quick frozen, and packaged.* This conforms the title of this section with the terminology used in Appendix 8 (f), which contains the definitions for the items covered by section 28. It also conforms this title with the corresponding form used in CPR 25 and serves to avoid any unintentional confusion between the items listed in section 28 of this regulation and "specialty beef products" or "specialty steak products" as defined in section 50 (aa). While some of the items covered by section 28 may also comply with the requisites of section 50 (aa), others, like, e. g. ground beef patties, clearly do not. Accordingly, to avoid misunderstandings, a separate and distinct generic term "specialty products, prefabricated, quick frozen, and packaged" is used to distinguish the items covered by section 28 from any other product covered by this regulation.

Moreover, a new item, "flake steak", has been added to the schedule of prefabricated, quick frozen, and packaged specialty products. This adds to the products for which dollars-and-cents ceiling prices were heretofore established, a new and important item which constitutes a considerable portion of the total volume of sales of such products. A definition for this product is also added to Appendix 8.

6. A new modified definition has been provided for "oven-prepared rib", in response to requests by the trade, in order to provide for a more readily saleable product. In addition, minor clerical and language changes have been made in the course of the revision of various sections. These latter changes will have no effect on the substantive provisions of this regulation.

In the judgment of the Director of Price Stabilization, the ceiling prices established by this regulation are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of that act, and are necessary and appropriate to promote the national defense.

In formulating this amendment, the Director of Price Stabilization has consulted so far as practicable with industry representatives, including trade association representatives, and has given full consideration to their recommendations. In his judgment the provisions of this regulation are generally fair and equitable, are necessary to effectuate the purposes of Title I and IV of the Defense Production Act of 1950, as amended, are necessary and appropriate to promote the National Defense, and comply with all the applicable standards of the act.

All standards prescribed in this amendment were, prior to the issuance of Ceiling Price Regulation 24, in general use in the meat industry. Such standards as are prescribed are indispensable to price control of beef, since no practicable alternative to such standardization exists for securing effective price control of this commodity. It is not believed that this amendment will cause any substantial changes in business practices; however, to the extent that such changes may be compelled, they are necessary to prevent circumvention or evasion of Ceiling Price Regulation 24, as amended.

AMENDATORY PROVISIONS

Ceiling Price Regulation 24 is amended in the following respects:

1. Section 11 (b) (1) is amended to read as follows:

(b) *Selling other than defined cuts.* (1) Regardless of any contract, agreement or other obligation, except for beef products, the ceiling prices of which are controlled by sections 3 (g), 3 (h), and 4 of this regulation, you shall not buy or receive in the regular course of trade or business and you shall not sell or deliver any beef product or any part or portion thereof unless such beef product is listed in Appendices 2 through 8, inclusive. Moreover, you shall not sell any prefabricated retail cut to a retail selling establishment unless (i) you have customarily sold prefabricated retail cuts to this establishment, or (ii) some other seller at wholesale has customarily sold prefabricated retail cuts to this establishment, or (iii) such selling establishment is a store which does not have adequate facilities for the preparation of retail cuts. Regardless of the foregoing, you shall not sell any prefabricated retail cut to a retail selling establishment unless in addition to qualifying under (i), (ii), or (iii) above, the retailer requests you in writing to sell him prefabricated retail cuts.

2. Section 11 (b) is amended by redesignating section 11 (b) (2) as section 11 (b) (3), and by adding the following new section 11 (b) (2):

(2) If you desire to sell prefabricated retail cuts as set forth in section 11 (b) (1) but you fail to meet one or more of the required qualifications, you may apply for special authorization, by writing to the appropriate District Office of Price Stabilization for the District in which your principal place of business is located, setting forth the following information: (i) the reasons why you desire to sell prefabricated retail cuts; (ii) the name and address of the retailer to whom you desire to sell; (iii) a statement, supported by such figures of proposed volume of sales, selling prices, and costs, as you may be able to supply, that the authorization requested will not cause an undue diversion of available meat supplies, and will not increase the overall cost of meat to this retailer; and (iv) a signed statement from this retailer that he joins in your application for such special authorization and that if the application is granted, he will not, as a result, apply thereafter to the Office of Price Stabilization for an increase in his ceiling prices.

The District Director of Price Stabilization may thereafter issue an order, authorizing you to sell prefabricated cuts to the designated retailer, subject to any appropriate conditions and limitations, provided the District Director finds that such authorization (i) will not cause an undue diversion of available meat supplies into prefabricated retail cuts; (ii) will not increase the overall cost of meat to such retailer or to ultimate consumers; and (ii) will not otherwise have any inflationary effect or produce economic results inconsistent with the provisions and purposes of this regulation. The District Director may, at any time thereafter, modify, suspend, or revoke such order, if he finds that any material information contained in the application was incorrect, or that the economic consequences of the authorization, upon actual operation, appear to be inflationary or otherwise inconsistent with the provisions or purposes of this regulation.

3. Section 11 (b) is further amended by adding the following new Section 11 (b) (4):

(4) This regulation establishes ceiling prices for unauthorized sales of these or other items either by unauthorized sellers or to unauthorized buyers. The purpose of the provision establishing such ceiling prices is not to sanction such unauthorized sale or to excuse the violation of this section 11, but simply to establish ceiling prices for the purpose of measuring damages under the provisions of the Defense Production Act of 1950, as amended. Such unauthorized sales violate this section 11 (b), and such unauthorized sales at prices higher than those prescribed by this regulation for corresponding authorized sales also violate section 11 (a).

4. Section 11 is amended by adding a new section 11 (f) to read as follows:

(f) *Selling ungraded (or improperly graded) beef.* (1) Regardless of any contract, agreement, or other obligation, you shall not buy or receive in the regular course of trade or business and you shall not sell or deliver any beef which does not clearly bear a correct grade mark, as required by Distribution Regulation 2, as amended.

(2) This regulation establishes ceiling prices for beef which does not clearly bear a correct grade mark, as required by Distribution Regulation 2, as amended. The purpose of the provision establishing ceiling prices for ungraded (or improperly graded) beef is not to sanction the sale of such ungraded (or improperly graded) beef or to excuse the violation of this section 11 (f) or of Distribution Regulation 2, but simply to establish ceiling prices for the purpose of measuring damages under the provisions

of the Defense Production Act of 1950, as amended.

The sale of ungraded (or improperly graded) beef violates this section 11 (f), and the sale of ungraded (or improperly graded) beef at prices higher than those prescribed by this regulation also violates section 11 (a).

5. Section 20, Schedule I is amended by deleting special adjustments (1) and (2), and by re-numbering special adjustments (3), (4), (5), and (6) as special adjustments (1), (2), (3) and (4), respectively. See section 29 for ceiling prices for miscuts and ungraded (or improperly graded) beef.

6. Section 21 is amended by deleting item 10—Strip loin (boneless) and item 30—Boneless strip steak and the prices for these items in Schedules II (a), II (b), II (c), and II (d), and substituting the following:

[Ceiling prices by grade, per hundredweight]

	Prime	Choice	Good	Commercial	Utility
Schedule II (a)					
10. Strip steaks (bone-in)	$233.00	$199.50	$166.00	$122.20	$120.90
30. Boneless strip loin or boneless strip steak	290.80	249.10	207.10	152.40	150.70
Schedule II (b)					
10. Strip steaks (bone-in)	226.50	194.00	161.50	118.80	117.40
30. Boneless strip loin or boneless strip steak	282.80	242.10	201.30	148.10	146.40
Schedule II (c)					
10. Strip steaks (bone-in)	220.10	188.50	156.70	115.20	113.80
30. Boneless strip loin or boneless strip steak	274.70	235.20	195.50	143.60	141.90
Schedule II (d)					
10. Strip steaks (bone-in)	210.80	181.00	150.40	110.50	109.20
30. Boneless strip loin or boneless strip steak	263.10	225.80	187.60	137.80	136.10

7. Section 22 is amended to read as follows:

SEC. 22. *Schedule III—Boneless beef cuts.* The ceiling prices for the boneless beef cuts listed in columns (7) and (8) apply to both bull meat and other beef. The prices listed in columns (3), (4), (5), and (6) do not apply to bull meat.

[All prices are on a dollars per hundredweight basis. The price for any fraction of a hundredweight shall be reduced proportionately. You may not add the additions set forth in sections 40, 43, 44, 47, and 48]

No.	Boneless cuts	Ceiling prices by grades: Prime	Choice	Good	Commercial	Utility	Cutter and canner	Zone differential allowance
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)
1	Insides and knuckles	$84.00	$84.00	$84.00	$76.00	$74.00	$65.00	The zone differential for sales of boneless beef cuts listed in this sec. 22, shall be 1.1 times the zone differential listed in appendix 11 for the particular grade of beef sold. The zone differential shall be rounded to the nearest 10 cents per hundredweight.
2	Clods	77.50	77.50	77.50	72.00	72.00	63.00	
3	Strips				72.00	72.00	63.00	
4	Sirloin butts	88.00	82.00	76.00	71.00	70.00	63.00	
5	Regular rolls				100.00	100.00	76.00	
6	Tenderloin: [1]							
	a. Regular—Under 3 pounds				100.00	100.00	75.00	
	b. Regular—3 to 5 pounds				120.00	110.00	85.00	
	c. Regular—Over 5 pounds	120.00	140.00	130.00	130.00	120.00	95.00	
	d. Peeled				140.00	140.00	140.00	
7	Flank steak	65.00	65.00	65.00	65.00	65.00	65.00	
8	Chucks	67.00	67.00	67.00	62.00	62.00	57.00	
9	Rump	82.00	82.00	82.00	74.00	70.00	60.00	
10	Rounds	82.00	82.00	82.00	74.00	72.00	63.00	
11	Ground beef (bulk)[2]	55.00	55.00	55.00	55.00	55.00	55.00	
12	Ground beef in casings	56.00	56.00	56.00	56.00	56.00	56.00	
13	Ground beef patties	60.00	60.00	60.00	60.00	60.00	60.00	
14	Stewing beef	61.00	61.00	61.00	61.00	61.00	61.00	
15	Regular trimmings	47.00	47.00	47.00	47.00	47.00	47.00	
16	Sterilized trimmings	40.00	40.00	40.00	40.00	40.00	40.00	
17	Shank meat	58.00	58.00	58.00	58.00	58.00	58.00	
18	Tenderlion (military specifications)					115.00		
19	Lean ground beef (bulk)[2]	65.00	65.00	65.00	65.00	65.00	65.00	
20	Lean ground beef in casings	66.00	66.00	66.00	66.00	66.00	66.00	
21	Lean ground beef patties	70.00	70.00	70.00	70.00	70.00	70.00	
22	Outsides	82.00	82.00	82.00	74.00	72.00	63.00	
23	Skirt steaks	65.00	65.00	65.00	65.00	65.00	65.00	
24	Spencer rolls				85.00	85.00	70.00	
25	Plate and brisket trimmings (kosher and nonkosher)	34.00	34.00	34.00	34.00	34.00	34.00	

[1] Bull tenderloins shall be regarded as cutter and canner grade tenders for the purpose of pricing under Schedule III.
[2] If, at any time, a purchaser requests you to sell him ground beef (bulk) or ground beef patties, and you are unable to supply his demand, you may not sell him lean ground beef (bulk) or lean ground beef patties at a price in excess of the ceiling price for ground beef (bulk) or ground beef patties.

SPECIAL ADDITIONS

(1) If you are a hotel supply house, you may add $1.50 per cwt. to the prices listed above. You may not charge the amount permitted in this special addition unless the item sold was physically within the cooler of your selling establishment prior to delivery.

(2) If you are a combination distributor, you may add $2.00 per cwt. to the prices listed above. You may not charge the amount permitted in this special addition unless the item sold was physically within the cooler of your selling establishment prior to delivery.

(3) If you are an independent frozen food distributor (as defined in section 50 (cc) of this regulation) and you sell frozen ground beef, frozen lean ground beef, or frozen lean ground beef patties, which you purchase already processed and packaged for resale, from an unaffiliated source, you may add $5.00 per cwt. to the ceiling prices listed above on sales to retailers and purveyors of meals only.

8. Section 28 is amended by changing the title thereof to read as follows:

SEC. 28. *Schedule IX—Specialty products, prefabricated, quick frozen and packaged.*

9. Section 28, Schedule IX is amended by adding a new item 7 as follows:

Item	Price per hundredweight in zone 1
7. Flake steaks:	
(a) 1 pound or less package	$93.40
(b) Over 1 pound package	88.40

10. Article II is amended by adding a new section 29 to read as follows:

SEC. 29. *Miscuts, ungraded (or improperly graded) beef, and unauthorized sales.* For the sole purpose of measuring the amount of damages in civil actions under the provisions of the Defense Production Act of 1950, as amended, for violations of Section 11 of this regulation involving sales of other than defined cuts (miscuts), sales of ungraded (or improperly graded) beef, or unauthorized sales (either by unauthorized sellers or to unauthorized buyers) the following ceiling prices shall apply:

(a) *Miscuts.* The ceiling price for any beef product or part or portion thereof which has not been prepared in accordance with the standards prescribed in Appendices 2 through 8, inclusive, is 50 percent of the ceiling price for the most nearly similar beef product listed in this regulation. If the miscut is of such nature as to render the product unidentifiable, the ceiling price is equal to that for "flank", as listed in Schedule I.

(b) *Ungraded (or improperly graded) beef.* The ceiling price for any beef product (other than tenderloins) listed in section 20, 21 or 22 of this regulation, which does not clearly bear a correct grade mark as required by Distribution Regulation 2, as amended, is the ceiling price established by this regulation for the lowest grade of such beef product.

(c) *Unauthorized sales.* The ceiling price for any beef product sold in violation of section 11 (b) by an unauthorized seller or to an unauthorized buyer, is 50 percent of the ceiling price applicable to the same or most nearly similar class of buyer.

The ceiling price for any grade of beef sold when no specific ceiling price for beef of this grade has been established by the regulation, is the ceiling price of the nearest lower grade of the same item for which a specific ceiling price has been established by this regulation. If no specific ceiling price has been established for any lower grade, the ceiling price is 50 percent of the ceiling price for the lowest grade of the same item for which a specific ceiling price has been established by this regulation.

11. Section 50 is amended by adding a new section 50 (cc) to read as follows:

(cc) *Independent frozen food distributor* means a person who, (1) sells a frozen food item which is packaged, (2) buys this item already processed and packaged from a person with whom he is not affiliated, and (3) is not a processor of this particular type of frozen food item.

12. Appendix 3 (a) is amended by changing the first paragraph thereof to read as follows:

(a) Boneless beef cut means any of the following cuts derived from any grade of beef:

12a. Appendix 3 (a) (6) is amended to read as follows:

(6) *Boneless beef tenderloin* shall be removed from the loin in the manner prescribed in Appendix 4 (a) (11), and the same specifications for trimming the tenderloin, as outlined in that paragraph shall apply. A peeled tenderloin shall be prepared only from tenderloins weighing more than 5 pounds each. All skin and fat and large blood vessels are to be removed. The strip of lean meat lying along the edge of the tenderloin is to be completely removed to within 4½ inches from the butt of the tenderloin. Knife-gashed and hook-torn tenderloins are to be completely trimmed free of rough ends and slivers of thin meat. The trimmed weight of the completely peeled tenderloin shall not be less than 2¾ pounds each.

13. Appendix 4 (a) (19) is amended to read as follows:

(19) *Oven-prepared rib* means that part of seven-bone rib remaining after the chine bone and short ribs have been removed. The chine bone, or bodies of the thoracic vertebrae, shall be entirely removed by cutting to the point at which they join the feather bones, exposing the lean meat, but leaving the feather bones attached to the rib cut. The short ribs shall be removed by a cut which begins at a point on the twelfth rib not more than 8 inches from the protruding edge of the twelfth thoracic vertebra and continuing in a straight line to a point on the sixth rib which is not more than 8 inches from the protruding edge of the sixth thoracic vertebra (chine bone). All the blade bone including the cartilage shall be removed.

14. Appendix 4 (a) (27) is amended to read as follows:

(27) *Club steak (bone-in)* means a steak cut from that portion of a short loin extending from a point opposite the juncture of the first and second lumbar vertebrae to the forward end of the short loin. The chine bone shall be removed by chopping or sawing through the inner extremity of the spinal cord groove. Only complete club steaks shall be made. Not more than one inch of fat shall remain on the outside skin surface.

15. Appendix 4 (a) (10) is amended to read as follows:

(10) *Strip steak (bone-in)* means a steak cut from the bone-in strip loin. No further cutting or trimming is required.

16. Appendix 4 (a) (30) is amended to read as follows:

(30) *Boneless strip loin or boneless strip steaks.* A boneless strip loin shall be prepared by removing all bones from a bone-in strip loin. The flank end of the loin shall be removed to a point measured two inches downward from the lower end of the eye muscle. Not more than one-half inch of fat shall remain on the outside skin surface. The backstrap and all fat lying on the inside of the loin shall be removed. Boneless strip steaks shall be cut from a boneless strip loin as prescribed herein. In trimming the fat from the outside surface, the grade mark shall not be removed.

17. Appendix 8 (f) is amended by adding the following new item:

7. *"Flake steak"* means a product prepared from unground boneless beef which has been thoroughly frozen at quick freezing temperatures; which has been flaked and molded into individual steaks; which does not have a fat content of more than 15 percent by chemical analysis; and which is packaged in the same manner as wafer steaks.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective July 16, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

[Ceiling Price Regulation 93, Interpretation 13]

CPR 93—CONSTRUCTION AND RELATED SERVICES AND SALES OF INSTALLED MATERIALS

INT. 13—SALES OF REAL PROPERTY BY BUILDING CONTRACTORS (GENERAL)

Builders who sell both land and buildings which they have erected on such land have inquired as to when the construction services involved are exempt and when they are controlled by CPR 93.

"Prices or rentals for real property" are exempted from price control by the Defense Production Act, as amended (section 402 (1) (j)). On the other hand, sales of construction services are subject to price controls under CPR 93. In some instances, owners of land sell or contract to sell the land and also perform or contract to perform construction services in erecting buildings upon the land. In dealing with such situations OPS has interpreted the statute and regulation to mean that construction services which are rendered by a seller of land after he has transferred the legal title to the land to a purchaser are subject to price controls under CPR 93. In such a case a seller of land is treated like any other person who renders construction services in erecting buildings on land owned by another. On the other hand, where the seller transfers the land after he has erected a building thereon, the sale of the land and the building to a purchaser, is exempt from price control.

The following examples illustrate the application of the foregoing principle:

(1) A builder, who owns the land, enters into a contract with a purchaser to build a house upon the land. Title to the land and the building is to pass to the purchaser upon the completion of the house. The transaction is exempt from price control. The fact that equitable title to the land passed upon the making of the contract is immaterial.

(2) A builder owns land on which he has started construction of a house. He enters into a contract for the sale of both the house and land to the purchaser, title to pass at the completion of the construction. Questions have been raised as to the proper interpretation of the law if the contract is entered into at various stages of completion, to wit:

a. After the foundation is in.
b. After the house is roughed in.
c. After the first FHA inspection.
d. After the second FHA inspection.

In each of the aforementioned situations the builder is exempt from price control, since legal title to the property does not pass to the purchaser until the construction has been completed.

(3) A builder owns land upon which there has been no construction. He enters into a contract with a purchaser to construct a house upon the land. Under the contract, title to the land passes to the purchaser at the time the builder and the purchaser enter into the contract for construction. Since title to the land passes to the purchaser at the time of entrance into the contract for construction the builder is subject to CPR 93.

(4) A completed new house that has never been lived in is sold by the builder who owns the land and the house. The builder who owns land and did the construction work is exempt from price control when he sells the property.

(5) Where the land is owned by one who hires a builder to build a house on the land, the builder is performing a construction service and is required to comply with the provisions of CPR 93.

(6) X corporation is the owner of a parcel of land and Y corporation is a builder. X corporation and Y corporation are owned and controlled by the same individual. X corporation (the land owner) enters into a contract for construction with the purchaser, the construction services to be performed by Y corporation. When land is owned by one corporate entity or individual, and construction services are performed by another corporation or individual, the construction services are covered by CPR 93. In the absence of fraud or other facts which would justify "piercing the corporate veil" under the common law, the OPS will not pierce the corporate veil, even though both corporations are actually owned or controlled by one individual.

(7) The situation is the same as in (6) above, except that the purchaser enters into the contract for the purchase of the land with X corporation (the land owner) and enters into a separate contract to construct the building with Y corporation (the building corporation), instead of with X corporation (the landowning corporation). Y corporation is governed by CPR 93, since Y corporation does not itself own the land.

[Ceiling Price Regulation 93, Interpretation 15]

CPR 93—Construction and Related Services and Sales of Installed Materials

INT. 15—EXEMPTION OF "ONE-MAN SHOPS"—VIOLATION OF CPR 34 (SECTION 1 (B)), AS AMENDED

The exemption granted "one-man shops" went into effect November 20, 1951 when CPR 93 became effective. Acts which occurred prior to that date and which violated CPR 34 were not legalized by the issuance of CPR 93. The language of section 1 (b) "neither this regulation nor any other regulation heretofore or hereafter issued by OPS" is applied only prospectively. However, the "one-man shop" exemption of CPR 93 would apply to regulations previously issued.

[Ceiling Price Regulation 157]

CPR 157—Ceiling Prices for the Eastern Wood Preserving Industry

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this Ceiling Price Regulation 157 is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes ceiling prices for the service of preservatively treating forest products, by pressure or non-pressure processes, when the treatment is done in the part of the United States east of the 100th meridian, except North Dakota and South Dakota; it also establishes ceiling prices for sales by treaters of all preservatively treated forest products treated by pressure or non-pressure processes in the part of the United States east of the 100th meridian, except North Dakota and South Dakota.

The industry covered is essentially of the service type. No basic change in the form of the products treated is made; in each case the product is prepared, incident to treatment, and treated according to specifications set by the purchaser.

Forest products such as lumber, poles, piling, posts, bridge materials, railroad ties, railroad crossings, and wood block flooring are treated with a preservative or fire retardant to protect the wood against decay, insect damage, and fire hazard. Considerable quantities of these treated products are used in the Defense Program.

Pressure and non-pressure treatment processes are covered by this regulation. In the pressure process an oil or water borne preservative, or a fire retardant is forced into the material in a closed cylinder (retort) under pressure, the amount of preservative injected and left in the wood in each case being specified by the purchaser. In the non-pressure process, mainly an open tank or vat process, the products to be treated are immersed in a hot preservative; this is followed by immersion in a cold preservative, for varying lengths of time, depending on the degree of absorption which is desired.

According to statistics compiled by the U. S. Forest Service in cooperation with the American Wood Preservers' Association, there were on July 15, 1951, in the area covered by this regulation, 190 commercial treating plants. Of this total, 149 were pressure plants, 34 were non-pressure plants, and 7 were combined pressure and non-pressure plants. The U. S. Census of Manufacturers for 1947 indicated the value of the product shipped as approximately 250 million dollars annually.

The wood preserving industry has two classes of sales, (1), the sale of treated forest products in which the treater furnishes the untreated product as well as the treating service, and (2), the sale of the treating service only, referred to in the industry as "TSO", in which the customer provides the untreated forest products, and the treater provides the treatment service, including the preservative and miscellaneous services incidental to the treatment.

Under this regulation, ceiling prices are determined by treaters by the use of either the formula that they were using during the base period, January 25 through February 24, 1951, inclusive; or, if they were using an established price list or a contract listing prices during the base period, they must use such price list or contract listing prices, adjusted to reflect current costs for the untreated forest products supplied if any, and reflecting any changes in cost of the preservative up to July 11, 1952.

In using the formula method, producers apply their raw material, treatment, margin, and transportation factors in the same manner as they did during the base period reflecting current costs for untreated forest products and costs for preservatives incurred up to July 11, 1952.

The treatment factor cannot exceed costs during the base period for the elements comprising the treatment factor.

The margin factor is the base period margin, computed on a dollar and cent basis and converted to a rate per unit of material.

The transportation factor is determined by the actual transportation cost, if known; otherwise, it is determined by multiplying the established weights of the products by the applicable freight rate in effect at the time of shipment. If the untreated material originates at several loading out points, an average inbound or through freight rate may be used.

The ceiling prices established by this regulation may thus exceed the GCPR level to the extent of increases in the cost of raw materials and transportation costs since the GCPR base period. Current costs of preservatives are not generally higher than they were in the base period. The treating costs and margin factor are limited to the GCPR level.

FINDINGS OF THE DIRECTOR OF PRICE STABILIZATION

In the judgment of the Director of Price Stabilization the ceiling prices established by this regulation are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended.

As far as practical, in the formulation of this regulation, the Director of Price Stabilization has given due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended; to prices prevailing during the period from May 24, 1950 to June 24, 1950, inclusive; to those prevailing during the period January 25 through February 24, 1951, as well as to the level of prices prevailing just before the issuance of this regulation; and to all relevant factors of general applicability.

In formulating this regulation, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. This consultation included two meetings with the Industry Advisory Committee for the Eastern wood preserving industry.

Every effort has been made to conform this regulation to business practices existing with respect to the treatment, sale, and distribution of preservatively treated forest products covered in the regulation. Insofar as any provisions of this regulation may operate to compel changes in those business practices, such provisions are found by the Director of Price Stabilization to be necessary to prevent circumvention or evasion of this regulation.

REGULATORY PROVISIONS

Sec.
1. What this regulation does.
2. What regulations are superseded.
3. Geographical applicability.
4. Base period.
5. Ceiling prices.
6. Established weights for treated forest products.
7. Ceiling prices for new treaters.
8. Adjustable pricing.
9. Records.
10. Application for approval of new formulas or factors.
11. Interpretations.
12. Modification of proposed ceiling prices by the Director of Price Stabilization.
13. Prohibitions and violations.
14. Evasions.
15. Petitions for amendment.
16. Definitions and explanations.

AUTHORITY: Sections 1 to 16 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or Apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this regulation does.* (a) This regulation establishes ceiling prices for the service of preservatively treating forest products, by pressure or non-pressure processes, when the treatment is done in the part of the United States east of the 100th meridian, except North Dakota and South Dakota; it also establishes ceiling prices for sales by treaters of all preservatively treated forest products treated, by pressure or non-pressure processes, in the part of the United States east of the 100th meridian, except North Dakota and South Dakota.

(b) The sales covered by this regulation fall into two divisions: (1) Sales of treatment services only, where the forest products are not supplied by the seller of the treatment; and (2) sales of treated forest products, where both forest products and treatment are supplied by the seller. Among the forest products covered by this regulation, but not limited thereto, are bridges, poles, piling, lumber, railroad crossings, railroad ties, and wood block flooring.

(c) Your ceiling prices are established by the application of the pricing method used by you during the base period of this regulation. If you used a price list, or a contract listing prices, or a formula during the base period, you must use the same method to determine your ceiling prices to each class of purchaser under this regulation. Limitations upon the use of these pricing methods are contained in section 5. Lower prices than those established by this regulation may be offered, charged, demanded, or paid.

SEC. 2. *What regulations are superseded.* This regulation supersedes the General Ceiling Price Regulation, Ceiling Price Regulation 34, Ceiling Price Regulation 126, Ceiling Price Regulation 155, and Supplementary Regulation 102 to the GCPR, insofar as they pertain to the transactions covered by this regulation.

SEC. 3. *Geographical applicability.* The provisions of this regulation shall apply within the forty-eight States of the United States and the District of Columbia.

SEC. 4. *Base period.* Your ceiling prices to each class of purchaser for the products and services covered by this regulation are ascertained by using your price list, or contract listing prices, or formula, in effect during the period from January 25, 1951, through February 24, 1951, hereinafter called the "base period".

SEC. 5. *Ceiling prices.*—(a) *Formula method.* If you use the formula method, it shall contain the following factors: Raw material, treatment, margin, and transportation. To establish a ceiling price for your product or service by the formula method, you apply these factors just as you would have done during the base period. However, in determining each factor, you shall comply with the following limitations:

(1) *Raw material factor.* (i) Except as provided in subdivision (ii) below, in calculating your raw material factor, you shall use the current actual cost to you of the untreated forest product from your normal source of supply and the highest cost to you from your normal source of supply between December 19, 1950 and July 11, 1952 for the preservative used by you, but such costs may not exceed applicable ceiling prices under Office of Price Stabilization regulations. Your raw material costs shall be calculated in your base period manner: If you used the practice of averaging your raw material costs during the base period, you shall continue such practice.

(ii) If you are a treater who is fully or partially owned or controlled by, or financially connected with your raw material supplier, your raw material factor with respect to your untreated forest product and the preservative used by you shall be based upon a transfer price computed in the same manner as during the base period using the same accounting method (for example, transfer the cost or the market price), classification, and quantity variation. However, the transfer price may not exceed either the highest transfer price of such raw materials during the base period, or, with respect to the untreated forest product, the supplier's current applicable ceiling price, or with respect to the preservative used by you, your supplier's ceiling price on July 11, 1952.

(iii) If you are a treater who is fully or partly owned or controlled by, or financially connected with your raw material supplier or suppliers, and you also purchase raw materials from a supplier or suppliers not fully or partially owned by, or not financially connected with you, you may, within the limitations set out in subdivisions (i) and (ii) above, compute your raw material factor just as you did during the base period.

(iv) If you included amounts for cullage and carrying charges in computing your raw material factor during the base period, you may continue to do so in your base period manner. However, you may not add more than the same percentage allowed during the base period, and you must subtract credits received from the sale or other disposition of culled material in the same manner in which such credits were subtracted during the base period.

(2) *Treatment factor.* Your treatment factor shall include charges for the actual treatment, as well as charges incident to the treatment of the product such as, but not limited to, yarding, framing, fabricating, kiln drying, incising, inspection, adzing, and boring. These charges may not exceed your actual costs during the base period for the elements that constitute your treating factor. The treatment factor for a product or service which was not offered or sold by you during the base period shall be determined in the same manner as you determined the treatment factor for the most comparable product or service contracted to be sold during the base period.

(3) *Margin factor.* (i) Your margin factor is the difference between your selling price f. o. b. shipping point and the sum of your raw material and treatment factors, as applied during the base period. Your margin factor for each group of products (such as poles, piling, or railroad ties) to each class of purchaser shall be the highest dollar and cents margin used by you on sales to that class of purchaser during the base period with respect to any item in that group of products, and converted to a rate per unit of material.

(ii) You shall continue to figure your margins by the same accounting and costing practices used by you during the base period, or you may change such practices provided a higher price does not result than that which would have resulted by the use of your base period practices.

(iii) If you were not engaged during the base period in treating or selling a group of products covered by this regulation, your margin shall not be greater than the margin determined under section 7 of this regulation.

(4) *Transportation factor.* You shall continue to sell f. o. b. original loading out point of the untreated material, f. o. b. treating plant, or on a delivered price basis, in accordance with your customary practices during the base period.

(i) *F. o. b. treating plant.* In such sales, if known, the actual transportation cost of the untreated forest product from loading out point to treating plant must be used; if unknown, the cost may be calculated by multiplying the weight (as established in the applicable Office of Price Stabilization regulation, or, if none is established by regulation, the estimated weight used by you during the base period) for the untreated material by the applicable freight rate in effect at the time of shipment. If the untreated material is received from several loading out points, an average inbound freight rate may be used.

(ii) *Sales on delivered basis.* (a) Where treating in transit rates are available, the transportation addition must be figured by multiplying the through freight rate from the original loading out point by the appropriate established weights in section 6. If the untreated forest product is received from several loading out points, an average through freight rate may be used. You may add the transit charge to the through freight charge. When transit privileges do not apply, the transportation addition is the freight charge from loading out point to treating plant (computed as provided in subdivision (i) of this subparagraph) plus the freight charges from the treating plant to the point of destination (calculated by multiplying the established weight of the treated material, as set forth in section 6, by the applicable freight rate in effect at the time of shipment).

(b) If shipment is by truck owned or controlled by you, a charge not in excess of the common carrier published rate may be made. If there is no published rate, the actual cost of transportation may be charged.

(c) When truck delivery follows a rail haul, as specified by the purchaser, the actual cost of truck delivery may be added. This may include the cost of unloading, handling, and reloading involved in the transfer from rail car to the truck and the cost of unloading the truck at the point of destination, if actually performed by you. When an all truck haul ends in delivery to a job site or a storage yard and the unloading is performed by you, you may add the actual cost of unloading.

(b) *Price list.* (1) If you used a price list for the sale of your services or products, or both, during the base period, which you published or circulated to the trade, you must use as the ceiling prices

to the class of purchaser involved, the prices contained in that list, subject to the discounts and allowances then in effect, but adjusted up or down to reflect (1) the dollar-and-cent difference between the highest price at which you contracted during the base period to purchase the untreated forest product supplied by you, if any, from your normal source of supply, and the current actual cost to you of such untreated forest product from your normal source of supply, and (2) the dollar-and-cent difference between the highest price at which you contracted during the base period to purchase the preservative used by you from your normal source of supply and the highest cost to you for such preservative between December 19, 1950 and July 11, 1952 from your normal source of supply. If you did not contract to purchase the untreated forest product during the base period, you use in making the adjustment, up or down, the dollar-and-cent difference between the highest price at which you contracted during the base period to purchase from your normal source of supply the most comparable untreated forest product for which you made a base period purchase contract and the current actual cost to you from your normal source of supply of such untreated forest product. Your current actual cost of untreated forest products may not exceed applicable ceiling prices under current OPS regulations and your highest cost for a preservative between December 19, 1950 and July 11, 1952 may not exceed the applicable ceiling price on July 11, 1952.

(2) The ceiling prices established by such a price list shall be subject to nonretroactive disapproval or adjustment, at any time, by the Director of Price Stabilization to bring said prices into line with the general level of ceiling prices established by this regulation.

(c) *Contract listing prices.* If you had a written contract listing prices for the sales of your services or products, or both, in effect during the base period, you may use as your ceiling prices to the class of purchaser involved, the prices contained in that contract, subject to the discounts and allowances then in effect, but adjusted up or down, in the same manner as prescribed in paragraph (b) of this section, to reflect differences between contract to purchase prices and costs of both the untreated forest product, supplied by you, if any, and the preservative used by you. The ceiling prices established by such contract shall be subject to nonretroactive disapproval or adjustment, at any time, by the Director of Price Stabilization to bring said prices into line with the general level of ceiling prices established by this regulation.

SEC. 6. *Established weights for treated forest products.* The following are the established weights in pounds, per piece or measure, as indicated, for preservatively treated products covered by this regulation.

(a) *Poles.*

TABLE I—DOUGLAS FIR POLES

[Established weights in pounds per pole, classed according to American Standard Association specifications, in effect, on the effective date of this regulation]

Lengths (feet)	Classes									
	1	2	3	4	5	6	7	8	9	10
16					205	175	145	165	120	95
18			330	285	240	205	165	185	130	110

TABLE IV—SOUTHERN YELLOW PINE POLES

[Established weights in pounds per pole, classed according to American Standard Association specifications, in effect, on the effective date of this regulation]

Lengths (feet)	Classes									
	1	2	3	4	5	6	7	8	9	10
16					186	160	131	150	109	87
18			302	254	218	186	159	167	129	103
20	564	448	371	313	262	220	180	202	160	128
22	655	535	444	368	317	270	226	244	185	
25	802	655	546	462	395	336	277	294	231	
30	1,083	890	739	630	529	441	363	403	315	
35	1,364	1,079	958	802	685	592	512	483	420	
40	1,529	1,302	1,129	970	844	735	638			
45	1,780	1,529	1,327	1,155	1,008	882	733			
50	2,075	1,764	1,537	1,336	1,184	1,046	920			
55	2,373	2,045	1,747	1,525	1,361	1,231				
60	2,755	2,357	1,963	1,730	1,537					
65	3,190	2,655	2,220							
70	3,670	2,985	2,470							
75	4,110	3,350								

NOTE: The weights in this table are based on treatment with a final retention of 8-pound grade 1 creosote oil. For other retentions add to or subtract from the basic weights 1 pound per cubic foot for each 1 pound variation in the retention of the preservative specified.

TABLE V—WESTERN LARCH POLES

[Established weights in pounds per pole, classed according to American Standard Association specifications, in effect, on the effective date of this regulation]

Lengths (feet)	Classes									
	1	2	3	4	5	6	7	8	9	10
16										
18										
20										
22										
25										
30										
35										
40										
45										
50										
55										
60										
65										
70										
75										

NOTE: The weights in this table are based on treatment with a final retention of 8-pound grade 1 creosote oil. For other retentions add to or subtract from the basic weights 1 pound per cubic foot for each 1 pound variation in the retention of the preservative specified.

For example: (1) A pile measuring 12" 7' from the butt would be figured as follows:

	Inches
Diameter 7' from butt	12
7' exceeds 6' by 1' add for 1' (fraction of 10')	1
	13

Diameter 6' from butt

The weight is found under column headed 13" minimum butt which includes weight for 13" 6' from the butt.

(2) A 70' pile measuring 12" one-quarter of the length from the butt would be figured as follows:

	Inches
Diameter 17½' from the butt (1' of 70')	12
17½' exceeds 6' by 11½' add for 10'	1
Add for 1½' (fraction of 10')	
	13

Diameter 6' from butt

The weight is found under column headed 15" minimum butt, which includes weight for 14' 6' from the butt.

(3) For retention of preservative other than 10 pounds per cubic foot, add to or subtract from the weights for 10 pounds retention 1 pound per cubic foot for each pound variation in the retention of preservative specified.

TABLE II—SOUTHERN YELLOW PINE PILING

[Established weights in pounds per lineal foot for 12-pound final retention]

Lengths (feet)	9" minimum butt includes 8' 3" to 9' 3"	10" minimum butt includes 9' 4" to 10' 3"	11" minimum butt includes 10' 4" to 11' 3"	12" minimum butt includes 11' 4" to 12' 3"	13" minimum butt includes 12' 4" to 13' 3"	14" minimum butt includes 13' 4" to 14' 3"	15" minimum butt includes 14' 4" to 15' 3"	16" minimum butt includes 15' 4" to 16' 3"	17" minimum butt includes 16' 4" to 17' 3"	18" minimum butt includes 17' 4" to 18' 3"
15-17	33	39	46	53	61	69	78	87	97	107
18	35	41	48	56	64	73	82	92	102	113

30	54	65	76	88	101	115	130	146	162	179
31	56	67	79	91	104	119	134	150	167	184
32	58	69	81	94	108	122	138	155	172	190
33	59	71	83	97	111	126	142	159	177	195
34	61	73	86	100	114	130	146	164	182	201
35	62	75	88	102	117	133	150	168	187	206
36	64	77	90	105	120	137	154	173	192	212
37	66	79	93	108	123	140	158	177	197	217
38	67	81	95	110	126	144	162	182	202	223
39	69	83	97	113	129	147	166	186	207	228
40	70	84	99	116	133	151	170	191	212	234
41	72	86	102	119	136	155	174	196	217	240
42	74	88	104	122	139	158	178	200	222	245

Notes

(1) Where top diameter controls the size of the pile to be furnished, the butt diameter may be determined by adding to the minimum top of 10" the product of the number of feet in the length of the pile multiplied by 0.4" for each foot of length. For example, if a 50' pile is ordered measuring not less than 12" at the butt with a minimum top of 10", figuring a natural taper of 1" for each 10' of length, the butt diameter would be 10" top plus 4" or 14".

(2) To arrive at the weight for piling with a minimum diameter at a specified point more than 6' from the butt: Convert this specified diameter to a diameter 6' from the butt by adding 1" for each 10' or fraction thereof by which the length from the butt to the specified point exceeds 6'.

(3) Select the weight in the tables applicable to the diameter 6' from the butt determined in (2) above. For example:

(i) A pile measuring 12" 7 feet from the butt would be figured as follows:

	Inches
Diameter 7' from butt	12
7' exceeds 6' by 1' add for 1' (fraction of 10')	1
	13

Diameter 6' from butt

(ii) A 70' pile measuring 12" one-quarter of the length from the butt would be figured as follows:

	Inches
Diameter 17½' from the butt (1' of 70')	12
17½' exceeds 6' by 11½' add for 10'	1
Add for 1½' (fraction of 10')	
	13

Diameter 6' from butt

(4) For retention of preservative other than 12 pounds per cubic foot, add to or subtract from the weights for 12 pounds retention 1 pound per cubic foot for each pound variation in the retention of preservative specified.

(b) *Piling.*

TABLE I—DOUGLAS FIR PILING AND OTHER WEST COAST SPECIES

[Established weight in pounds per lineal foot for 10-pound final retention]

42	138	158	179	200	224	248	273	298	324	350

Notes

(1) Where top diameter controls the size of the pile to be furnished, the butt diameter may be determined by adding to the minimum top of 10" the product of the number of feet in the length of the pile multiplied by 0.4" for each foot of length. For example, if a 50' pile is ordered measuring not less than 12" at the butt with a minimum top of 10", figuring a natural taper of 1" for each 10' of length, the butt diameter would be 10" top plus 4" or 14".

(2) To arrive at the weight for piling with a minimum diameter at a specified point more than 6' from the butt: Convert this specified diameter to a diameter 6' from the butt by adding 1" for each 10' or fraction thereof by which the length from the butt to the specified point exceeds 6'.

(3) Select the weight in the tables applicable to the diameter 6' from the butt determined in (2) above. For example:

(i) A pile measuring 12" 7 feet from the butt would be figured as follows:

	Inches
Diameter 7' from butt	12
7' exceeds 6' by 1' add for 1' (fraction of 10')	1
	13

Diameter 6' from butt

(ii) A 70' pile measuring 12" one-quarter of the length from the butt would be figured as follows:

	Inches
Diameter 17½' from the butt (1' of 70')	12
17½' exceeds 6' by 11½' add for 10'	1
Add for 1½' (fraction of 10')	
	13

Diameter 6' from butt

(4) For retention of preservative other than 12 pounds per cubic foot, add to or subtract from the weights for 12 pounds retention 1 pound per cubic foot for each pound variation in the retention of preservative specified.

13	41	40
14	44	45
15	47	50
16	50	55

TABLE II—YELLOW PINE REINFORCING STUBS AND ANCHOR LOGS 14 FEET AND SHORTER

[Established weights per lineal foot]

Minimum diameter at small end in inches	Weight
5	12
6	17
7	23
8	30
9	37
10	39
11	45
12	55
13	63
14	72
15	82
16	92

NOTE: The weights in this table are based on treatment with a final retention of 8 pounds of creosote oil per cubic foot. For other retentions add to or subtract from the base weights 1 pound per cubic foot for each 1 pound variation in the retention of preservative specified.

(g) *Lumber.* (1) *Preservative treatment.* (i) The established weight in the applicable ceiling price regulation for untreated lumber (rough green or surfaced green), may be increased by adding 50 pounds per MFBM for each pound retention per cubic foot of creosote, creosote mixture or oil mixture treatment.

(ii) For salt treatment 900 pounds per MFBM may be added to rough or surfaced green weights, when shipped wet from retort. When kiln or air dried after treatment, an addition of 225 pounds per MFBM may be made.

(2) *Fire retardment treatment.* (i) Grade H (5 to 6 pound retention), when shipped wet from the retort 1,500 pounds per MFBM may be added to the rough or surfaced green weights. When kiln or air dried after treatment an addition of 800 pounds per MFBM may be made to the rough or surfaced green weights.

(ii) Grade M (2½ to 3 pounds retention), when shipped wet from the retort 1,200 pounds per MFBM may be added to the rough or surfaced green weights. When kiln or air dried after treatment an addition of 600 pounds per MFBM may be made to the rough or surfaced green weights.

The established weights of treated products not specifically set out in this section are the estimated weights you used for such products during the base period.

SEC. 7. *Ceiling prices for new treaters.* (a) If you are a treater who started business after February 24, 1951, and before the effective date of this regulation, your ceiling prices shall be determined under the provisions of this regulation, except that, insofar as you are concerned, the term "base period" wherever used in this regulation shall refer to the thirty day period, or that part of that period, during which you operated your business immediately preceding the issuance of this regulation. You shall maintain a record of your formula under section 9 of this regulation, and you shall be subject to nonretroactive adjustment by the Office of Price Stabilization.

(b) If you are a treater who starts in business after the effective date of this regulation, you shall file a proposed formula conforming to section 5 (a) with the Forest Products Division, Office of Price Stabilization, Washington 25, D. C. When you file, you must itemize each step of the treating factor for the product treated, including items incident to the actual treatment such as yarding, framing, fabricating, incising, adzing and boring, computed according to monthly, hourly, or piece rate, or a combination of any of these in effect the date the plant started operations; you must also submit a complete range of margins to be employed in determining the ceiling prices of each product or service, as well as three sample estimates showing the application of your formula.

(c) *Quotation of proposed prices.* After an application has been filed under this section, and before action by the Director of Price Stabilization, you may sell your products or services at a price not higher than the ceiling price proposed in your application: Provided, that you agree to, and later, refund to the buyer, the amount, if any, by which your price exceeds the ceiling price established by the Director of Price Stabilization.

(d) *Action by the Director of Price Stabilization.* (1) After receipt of an application made under this section, the Director of Price Stabilization will approve or disapprove your proposed ceiling price, will request additional information about it, or will establish a different ceiling price for the item that is the subject of your application.

(2) If the Director does not notify you to the contrary or request additional information from you within 20 days after the receipt of your application, or within 15 days after the receipt of requested additional information, your proposed ceiling price shall be deemed to have been approved, subject to nonretroactive disapproval or modification at a later time.

(3) Approval of applications by the Director under this section are subject to a finding by the Director that the proposed ceiling prices are in line with the level of ceiling prices otherwise established by this regulation.

SEC. 8. *Adjustable pricing.* Nothing in this regulation shall be construed to prohibit you from making a contract or offer to sell a product or service covered by this regulation at (a) the ceiling price in effect at the time of delivery, or (b) the lower of a fixed price or the ceiling price in effect at the time of delivery. You may not, however, deliver or agree to deliver a product or sell a service covered by this regulation at a price to be adjusted upward in accordance with any increase in a ceiling price after delivery.

SEC. 9. *Records.*—(a) *Base period records.* On and after the effective date of this regulation, for so long as the Defense Production Act of 1950, as amended, shall remain in effect, and for two years thereafter, you shall keep and preserve for examination by representatives of the Office of Price Stabilization, all your existing records relating to your prices for products or services which you contracted to sell at a definite price during the base period, or, if you were not in business during the base period, the period upon which your formula is based. These records shall include all information which would enable the Office of Price Stabilization to compute your raw material, treatment, margin, and transportation factors as set forth in section 5 of this regulation.

(b) *Formula records.* Within 45 days after the effective date of this regulation, you shall have on record in your office, for inspection by authorized representatives of the Office of Price Stabilization, your pricing formulas as determined under section 5 of this regulation. Records of such formulas shall be kept for so long as the Defense Production Act of 1950, as amended, shall remain in effect, and for two years thereafter.

(c) *Current records.* Every person who sells and every person who in the regular course of business buys the products or services covered by this regulation shall make and keep for inspection by representatives of the Office of Price Stabilization for so long as the Defense Production Act of 1950, as amended, shall remain in effect, and for two years thereafter accurate records or invoices of each sale or purchase made after the effective date of this regulation, showing (1) the date of the sale or purchase; (2) the name and address of the seller and purchaser; (3) the price charged or paid; (4) the quantity and description of the products or services sold. In addition thereto, you, the treater, shall also keep and maintain for two years your calculations by which you determine the ceiling price for each product or service sold by you under this regulation.

The retention by a buyer of an invoice furnished by a seller, which includes the factual information required to be made a matter of record by this section, shall be considered as compliance with the provisions of this section.

SEC. 10. *Application for approval of new formulas or factors.* (a) If you are a treater who was in business during the base period and who has subsequently installed new equipment or methods requiring new treatment or margin factors, you shall submit your proposed factors to the Office of Price Stabilization, Forest Products Division, Washington 25, D. C., for approval, disapproval or adjustment.

(b) Your application for approval of a new treatment factor shall include (1) the hour or piece rates for similar hand or machine operations generally prevailing in your immediate competitive area during the base period, and (2) an explanation for any variance between such generally prevailing rate and the rate you now wish to apply.

(c) Your application for approval of a new margin factor shall include: (1) the location of your plants; (2) the type of equipment you use; (3) the capacity of your equipment; (4) a list of the products you intend to treat; (5) the range of margins proposed; and (6) a statement of the method you use to determine special differentials.

(d) After an application has been filed under this section, and before action by the Director of Price Stabilization, you may sell your products or services at a price not higher than the ceiling price proposed in your application: *Provided*, that you agree to, and later, refund to the buyer, the amount, if any, by which your price exceeds the ceiling price established by the Director of Price Stabilization.

(e) After receipt of an application made under this section, the Director of Price Stabilization will approve or disapprove your proposed ceiling price, will request additional information about it, or will establish a different ceiling price for the item that is the subject of your application.

(f) If the Director does not notify you to the contrary or request additional information from you within 20 days after the receipt of your application, or within 15 days after the receipt of requested additional information, your proposed ceiling price shall be deemed to have been approved, subject to nonretroactive disapproval or modification at a later time.

(g) Approval of applications by the Director under this section are subject to a finding by the Director that the proposed ceiling prices are in line with the level of ceiling prices otherwise established by this regulation.

SEC. 11. *Interpretations.* If you want an official interpretation of this regulation, you should write to the District Counsel of your local OPS Office. Any action taken by you in reliance upon and in conformity with a written official interpretation will constitute action in good faith pursuant to this regulation. Further information on obtaining official interpretations is contained in Price Procedural Regulation 1, revised.

SEC. 12. *Modification of proposed ceiling prices by the Director of Price Stabilization.* The Director of Price Stabilization at any time may disapprove or reduce ceiling prices reported or proposed under sections 7 and 10 of this regulation so as to bring them into line with the level of ceiling prices otherwise established by this regulation.

SEC. 13. *Prohibitions and violations.* (a) You shall not do any act prohibited or omit to do any act required by this regulation, nor shall you offer, solicit, attempt, or agree to do or omit to do any such acts. Specifically, but not in limitation of the above, you shall not, regardless of any contract or other obligation, sell and no person in the regular course of trade or business shall buy from you at prices higher than the ceiling prices established by this regulation, and you and buyers from you shall keep, make, and preserve true and accurate records required by this regulation. Prices lower than the ceiling prices may be charged, paid, or offered.

(b) If you violate any provisions of this regulation, you are subject to criminal penalties, enforcement action, and actions for damages.

(c) If any person subject to this regulation fails to prepare or keep any record or file any report required by this regulation in connection with the establishment of his ceiling price, or if any person subject to this regulation fails to establish a ceiling price or apply to the Office of Price Stabilization for the establishment of a ceiling price, if he is required to do so, the Director of Price Stabilization may issue an order fixing his ceiling prices. Any ceiling price fixed in this manner will be in line with ceiling prices generally established by this regulation. The order fixing the ceiling price may apply to all deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of this regulation or of the various penalties for failure to do so.

SEC. 14. *Evasions.* Any means or device which results in obtaining indirectly a higher price than is permitted by this regulation, or in concealing or falsely representing information as to which this regulation requires records to be kept, is a violation of this regulation. This prohibition includes, but is not limited to, means or devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, upgrading, tie-in agreements and trade understandings as well as the omission from records of true data and the inclusion in records of false data.

SEC. 15. *Petitions for amendment.* If you wish to have this regulation amended, you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation No. 1, Revised.

SEC. 16. *Definitions and explanations.* The terms appearing in this regulation, unless the context clearly requires a different meaning, shall be construed as follows:

(a) *Base period.* This term means the period January 25, 1951, to February 24, 1951, inclusive.

(b) *Product.* This term means any item, object, material, article, commodity or supply covered by this regulation and includes the service rendered in connection therewith. Wherever in this regulation the word "product" or "products" is used, it means "product or service, or both" or "products or services, or both".

(c) *Contracted to be sold.* This term means the written or oral acceptance of any written or oral order.

(d) *Treatment.* This terms means the actual treating, and any hand or machine operation incident to the preservative treatment of forest products, such as, but not limited to, yarding, framing, fabricating, kiln-drying, incising, inspection, adzing, and boring.

(e) *Margin.* This term means the selling price f. o. b. shipping point minus the sum of your raw material and treatment factors.

(f) *Most comparable product or service.* This term is defined in section 5.

(g) *Office of Price Stabilization.* This term means the Director of Price Stabilization and also applies to any official (including officials of regional or district offices) to whom the Director of Price Stabilization delegates a function, power or authority referred to in this regulation.

(h) *Person.* This term includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successors or representatives of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions or any agency of the foregoing.

(i) *Purchaser of the same class.* The meaning of this term is determined by reference to your own practice of setting different prices for sales to different purchasers or groups of purchasers. The practice may, but need not be, based on the characteristic or distributive level of the buyer, for example, railroads, wholesalers, contractors, utilities, municipalities, government agencies. It may, but need not, be based on the location of the purchaser or the quantity of the item purchased by him. It may, but need not, be based on differing terms or conditions of sale or delivery. If you have followed the practice of giving an individual customer a price differing from that charged others, that customer is a separate class of purchaser.

(j) *Rate per unit of material.* This term refers to the method adopted by the treater in computing the margin on each product. For example, per item, board feet, linear feet, cubic feet and square yards.

(k) *Raw materials.* This term means untreated forest products and all materials used in the treatment process to produce the finished treated product.

(l) *Records.* This term includes without limitation, books of account, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and other papers, documents, letters and correspondence.

(m) *Sell.* This term means sell, supply, dispose, barter, exchange, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "sale", "sold", "buy", "purchase", and "purchaser", shall be construed accordingly.

(n) *Services.* This term means any service rendered, or supplied, otherwise than as an employee, in connection with the treatment and processing of any of the forest products covered by this regulation.

(o) *Treater.* This term means (1) a person who impregnates forest products with a wood preservative, either by a pressure or non-pressure process; or (2) a person who supplies his own untreated forest products but contracts for the treating service and sells the product in its treated form.

(p) *You.* This term means a treater subject to this regulation.

Effective date. This regulation shall become effective July 16, 1952.

NOTE: The reporting and record keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 11, 1952.

[F. R. Doc. 52-7791; Filed, July 11, 1952; 4:01 p. m.]

[Ceiling Price Regulation 93, Interpretation 14]

CPR 93—CONSTRUCTION AND RELATED SERVICES AND SALES OF INSTALLED MATERIALS

INT. 14—EXEMPTION OF "ONE-MAN SHOP"—SCOPE OF EXEMPTION (SECTION 1 (B))

CPR 93, section 1 (b) as amended, provides that "Neither this regulation, nor any other regulation heretofore or hereafter issued . . . shall apply to the sale of construction services by an individual man or woman who neither employs or uses the construction services of one or more persons nor employs or uses the construction services of one or more subcontractors . . ." Inquiries have been received whether such sellers are exempt only from CPR 93 and still covered under the provisions of CPR 34. Section 1 (b) of CPR 93 provides for complete exemption from price control of sales of construction services by one who meets the requirements of this section and he is, therefore, not only exempt from the provisions of CPR 93 but also from those of CPR 34.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

HERBERT N. MALETZ,
Chief Counsel,
Office of Price Stabilization.

[F. R. Doc. 52-7781; Filed, July 11, 1952; 4:00 p. m.]

[Ceiling Price Regulation 93, Interpretation 16]

CPR 93—CONSTRUCTION AND RELATED SERVICES AND SALES OF INSTALLED MATERIALS

INT. 16—EXEMPTION OF "ONE-MAN SHOP"—OCCASIONAL EMPLOYEES (SECTION 1 (b) AS AMENDED)

In the plumbing and heating branch of the construction industry, persons who customarily operate as "one man shops" and thus would be exempt from price control, occasionally utilize one or more employees for varied intervals. During the periods when such occasional employees are engaged the exemption from price control no longer applies, and ceiling prices for work done during such periods must be established under CPR 93.

Where a contract for construction services is entered into at a time when occasional employees are engaged, and thereafter, but before performance is completed, there is a reversion to the "one man shop" status, CPR 93 is no longer applicable. However, this does not have the effect of abrogating any contract already in existence.

On the other hand, where a contract is entered into while the "one man shop" has no occasional employees, and subsequently, before performance is completed, occasional employees are engaged, CPR 93 thereupon becomes applicable, including all applicable reporting and record keeping requirements, and the price provided in the contract must be recomputed to the extent that it is inconsistent with the applicable provisions of the regulation.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

HERBERT N. MALETZ,
Chief Counsel,
Office of Price Stabilization.

[Ceiling Price Regulation 93, Interpretation 18]

CPR 93—CONSTRUCTION AND RELATED SERVICES AND SALES OF INSTALLED MATERIALS

INT. 18—CONTINUED USE OF CPR 34 PRICES (SECTION 5)

Section 5 (a) of CPR 93 permits a seller of construction services to continue to determine his ceiling prices for sales of those services under CPR 34 if his (higher) ceiling prices have been properly reported pursuant to CPR 34. A seller who desires to continue to use prices determined under CPR 34, must, among other things:

(a) Have filed the appropriate reports of CPR 34 ceiling prices with the proper district office of OPS.

(b) Have filed reports required by CPR 34 on or before the dates required by that regulation and before November 20, 1951 the effective date of CPR 93, for construction services which he desires to continue pricing under CPR 34. Unless the reports were filed prior to the applicable date, the seller may not retain his ceiling prices for such construction services under CPR 34.

(c) Have filed the reports required by section 32 of CPR 93. A seller who under section 5 of CPR 93 is accorded a right to continue pricing some construction services under CPR 34 may subsequently change to CPR 93 ceiling prices for such services. However, once he has put into effect prices under CPR 93 for such services he may not subsequently revert back to CPR 34 ceiling prices.

[F. R. Doc. 52-7785; Filed, July 11, 1952; 4:01 p. m.]

[Ceiling Price Regulation 93, Interpretation 20]

CPR 93—CONSTRUCTION AND RELATED SERVICES AND SALES OF INSTALLED MATERIALS

INT. 20—DISTINCTION BETWEEN LUMP-SUM CONTRACTS AND INSTALLED SALES (SECTIONS 12 AND 22)

Questions have been raised as to how to distinguish lump-sum contracts, which are subject to section 12, from installed sales, which are subject to section 22 (a) or installed sales subject to section 22 (c).

Installed sales may be made on the basis of any of the methods prescribed in section 22, including section 22 (a), which is an installed sale on a lump-sum basis. There is no difference in the pricing method between a lump-sum contract as defined in section 12 and an installed sale on a lump-sum basis defined in section 22 (a). The differentiation between installed sales generally and the other types of transactions covered by CPR 93 is that an installed sale is primarily the sale of a commodity which becomes an integral part of the structure, such as a furnace or hot water heater together with the services required to install that commodity.

Installed sales subject to section 22 (c) are distinguished from lump-sum contracts and installed sales subject to section 22 (a) in that the price is not separately formulated for each sale and will consequently represent a generally offered or advertised price for a certain commodity on an installed basis.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

HERBERT N. MALETZ,
Chief Counsel,
Office of Price Stabilization.

[F. R. Doc. 52-7787; Filed, July 11, 1952; 4:01 p. m.]

[Ceiling Price Regulation 93, Interpretation 19]

CPR 93—CONSTRUCTION AND RELATED SERVICES AND SALES OF INSTALLED MATERIALS

INT. 19—CONTRACTS IN PROGRESS ON NOVEMBER 20, 1951 (SECTION 5 (a) AND (c))

Section 5 (c) specifically provides that, with respect to jobs which were in progress on the effective date of CPR 93, sellers with ceiling prices established in accordance with CPR 34 are not required to change contract prices to comply with ceiling prices determined under CPR 93. The purpose of this provision is to make it clear that where a job is in progress pursuant to a contract, the seller is not required to change his prices and, in effect, change the contract. The seller may, however, change his prices to comply with CPR 93 prices if the other contracting parties agree. In other words the regulation does not contemplate overriding preexisting contractual obligations. Modification of an existing contract, in order to conform to ceiling prices under CPR 93, is conditioned upon the voluntary relinquishment of prior contractual rights.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

[Ceiling Price Regulation 93, Interpretation 21]

CPR 93—CONSTRUCTION AND RELATED SERVICES AND SALES OF INSTALLED MATERIALS

INT. 21—TRADE ASSOCIATION DUES—RECOVERY IN HOURLY RATE (SECTIONS 20 (b) (2), 21 AND 45 (a) (12))

OPS has received inquiries from persons who supply construction services on a time and materials or hourly rate basis as to whether trade association dues paid by sellers may be recovered as part of their hourly costs.

Such sellers compute ceiling prices by adding together their ceiling hourly charges for labor, ceiling charges for materials, expended, and ceiling charges for the use of construction equipment

Trade association dues may not be included in the ceiling hourly charges for labor. Hourly charges for labor are determined by adding together current wage rates, payroll costs, and the dollars and cents margin between labor hourly costs during the base period and current labor hourly costs. Payroll costs, an element in hourly costs, are defined in section 20 (b) (2) and section 45 (a) (12) as follows: "Payroll taxes; cost of pension and insurance plans; and premiums for compensation, labor, and other required insurance based upon your payroll; but do not include association dues even if based upon your payroll." It is thus expressly provided that trade association dues may not be included in payroll costs.

CPR 93 contemplates that the seller on a time and materials or hourly rate basis may recover the same dollars and cents margin over hourly costs that he recovered during the base period. If trade association dues were included in this margin during the base period they would at the present time be included in his current margin. To the extent, however, that these dues have increased, under CPR 93 he must now absorb any increases of these dues in his margin.

[Ceiling Price Regulation 98, Amdt. 4]

CPR 98—RESELLERS OF IRON AND STEEL PRODUCTS

CEILING PRICES OF NEW STEEL PRODUCTS WHICH HAVE NOT BEEN WAREHOUSED

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 4 to Ceiling Price Regulation 98, is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment is designed to permit certain warehouse resellers of iron and steel products to charge their customary warehouse price for steel products under CPR 98 during the present steel strike even though as a result of the strike they are unable to perform completely the required warehousing operations.

A number of major steel producers distribute part of their output through their own distributive channels, and have organized separate warehousing outlets for this purpose. These warehousing outlets are subject to CPR 98 and under that regulation they are permitted a warehouse reseller's markup provided they perform certain steel warehousing operations. The steel strike has extended not only to the steel producers, but also to those warehousing outlets affiliated with them, thus making it impossible to perform some of these warehouse resellers functions.

Carload quantities of steel products that were in transit when the strike began are now on railroad sidings and in various yards. Consumers have expressed great need for the steel available. These consumers would ordinarily pay the warehouse price, and, requiring warehouse resellers to sell at mill price would upset their customary and historical price relations during this interim strike period.

In these emergency circumstances it is considered advisable to permit such warehouse resellers to charge their markup permitted under CPR 98 during the strike period even though the warehouse function is not fully performed.

In view of the emergency nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

Ceiling Price Regulation 98 is amended in the following respect:

1. Section 16 (c) is amended to read as follows:

(c) *Emergency exceptions.* (1) Notwithstanding the provisions of paragraphs (a) and (b) of this section, the Director of Price Stabilization may grant permission, upon application, to any warehouse reseller to charge ceiling prices determined in accordance with this regulation for new steel products which have not been put through the operations commonly known as the warehousing of iron or steel products where it is shown that all of the special circumstances set forth in subparagraphs (2) or (3) of this paragraph are present and that they are not being used as a means of circumventing the limitations of this regulation.

(2) In order to apply under this subparagraph, you must meet all of the following requirements:

(i) You propose to make delivery of new steel products from stock which you have stored at premises regularly maintained and operated for such storage by any person other than a producer or holder of excess stock.

(ii) Emergency circumstances do not permit you to receive and store material at premises which you regularly maintain and operate for the warehousing of iron or steel products.

(3) In order to apply under this subparagraph, you must meet all of the following requirements:

(i) You must be involved in a labor dispute, resulting in a strike by the employees at your warehouse;

(ii) The strike arising from the labor dispute must be in progress at the time you propose to charge ceiling prices determined in accordance with the regulation;

(iii) The new steel products for which you propose to charge ceiling prices determined in accordance with this regulation must be located at your railroad siding or must have been shipped to you and have been in transit between the mill and your warehouse before the beginning of the strike.

(4) Your signed application under this paragraph must be directed either by letter or telegram to the appropriate OPS office and must contain the following information:

(i) Your name and address and the name and location of your regularly maintained warehouse;

(ii) The name and address of the warehouse, if any, which you propose to use during the emergency;

(iii) A description of the emergency circumstances under subparagraphs (2) or (3), as the case may be, which make it impossible for you to put the material through your regularly established warehouse and a statement as to their expected duration, where you are applying under subparagraph (2).

(5) After receipt of your application the Director may grant or deny permission to charge a warehouse markup or request further information. Pending any such action, you may sell at a ceiling price determined in accordance with the provisions applicable to sales out of warehoused stock, provided that you agree with the purchaser to refund the amount, if any, by which such price exceeds the ceiling price applicable to sales of such material which have not been put through the warehousing operations should the Director deny your application. The Director will not grant such authorization, where the facilities you propose to use are outside of the trade area normally served by your regularly maintained warehouse or warehouses at which the emergency exists. The Director may revoke the permission granted hereunder when he finds that circumstances have so changed as to warrant such action.

Effective date. This amendment to Ceiling Price Regulation 98 shall become effective July 9, 1952.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

NOTE: The reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 9, 1952.

[F. R. Doc. 52-7670; Filed, July 9, 1952; 4:40 p. m.]

[General Ceiling Price Regulation, Supplementary Regulation 99, Interpretation 1]

GCPR, SR 99—ADJUSTED CEILING PRICES FOR MANUFACTURERS OF CERTAIN GLASS CONTAINERS

INT. 1—APPLICABILITY OF CEILING PRICE INCREASES TO DECORATED AND UNDECORATED GLASS CONTAINERS, AND TO SHIPPING CARTONS (SECTION 3)

It appears that prior to January 26, 1951, and since that date, certain glass container manufacturers delivered decorated or undecorated glass containers,

as ordered by their customers. Also, it was the base period practice and is the practice now of manufacturers of decorated and undecorated glass containers to package them in shipping cartons for delivery to purchasers. In some instances such shipping cartons were designed for local delivery of the bottles only. In other instances, the bottles were shipped in so-called "reshipping" cartons. These were used by the bottlers to ship their products after bottling was complete. In each instance a single price was quoted by the manufacturers, which included the glass containers, as ordered, and the particular type of shipping carton involved.

The question has now been raised whether in the case of decorated bottles the permissible 4 percent increase under SR 99 to the GCPR is 4 percent over the GCPR ceiling price of decorated or of undecorated bottles.

The question has also been raised whether the permissible 4 percent increase may be applied to the lump sum GCPR ceiling price which included the shipping carton or whether it must be applied to such ceiling price reduced by an appropriate amount to reflect the price of the particular carton.

The Statement of Considerations to SR 99 declares: "This regulation provides a uniform industry adjustment of 4 percent over GCPR ceilings for manufactured glass containers." Section 3 of SR 99 provides that the ceiling price of such manufacturers for the sale of any commodity manufactured by them and covered by the Supplementary Regulation shall be their GCPR ceiling price for such commodity, increased by 4 percent.

(1) Where the commodity sold is a decorated bottle and the manufacturer has a specific GCPR ceiling price for decorated bottles, he may apply the 4 percent increase to his GCPR ceiling price for that commodity. The application of decoration is considered as a part of the manufacturing process of the finished commodity.

(2) Similarly, where shipping cartons were furnished by the manufacturer as part of the unit price of the commodity, without a separately stated charge for the carton, the manufacturer's GCPR ceiling price covered the glass containers packed in shipping cartons as ordered by the customer. This would be true even though one price was quoted for glass containers in local delivery type cartons, and another price for containers in so-called "re-shipping" cartons. The increase permitted by SR 99 therefore applies to the lump sum ceiling price for the glass containers packed in shipping cartons as ordered by the customer.

Any contrary conclusion would defeat the expressed purpose of SR 99, as indicated in its Statement of Considerations.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154.)

HERBERT N. MALETZ,
Chief Counsel,
Office of Price Stabilization.

JULY 11, 1952.

[F. R. Doc. 52-7792; Filed, July 11, 1952; 4:01 p. m.]

[General Overriding Regulation 8, Amdt. 5]

GOR 8—PAPER, PAPERBOARD, CONVERTED PAPER AND PAPERBOARD PRODUCTS, ALLIED PRODUCTS AND SERVICES

EXEMPTION OF SALES OF PAPER GARMENT PATTERNS AND PATTERN TRANSFERS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 5 to General Overriding Regulation 8 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment exempts from all price control the sales of paper garment patterns and pattern transfers.

Paper garment patterns and pattern transfers are copyrighted material consisting of printed and perforated instruction sheets of paper accompanied by printed assembly charts, all of which are enclosed in an envelope upon which is printed additional description and instructive matter. The paper garment pattern sheets and instruction sheets provide complete information for the making of the particular garment. The pattern transfers provide the same information with respect to accessories plus a paper sheet printed with a wax material for outlining embroidery or decorative designs on the accessories.

The production of paper garment patterns and pattern transfers calls for a highly specialized combination of creation, design and printing. Each of the seven firms constituting the Pattern Industry, which sells from 80 percent to 90 percent of all patterns sold in the United States (the other being sold through newspapers), produces on an average 35 new patterns a month. Although the creation and designing in the paper pattern industry is more a matter of statistics based on historic style trends than a matter of inspiration, pricing in this field is purely a matter of judgment and the usual technique of in-line pricing or pricing based on the costs of a comparable product are not applicable.

Sales of paper garment patterns and pattern transfers are closely connected with the magazines that feature the patterns. The magazines play the paramount part in the sale of the patterns and retail stores do not promote patterns primarily to sell materials but sell patterns as a service feature. The price of paper garment patterns and transfer patterns ranges from 15 cents to $2.50, with the overwhelming majority being priced under $1.00. These prices have been stable over a long period of time and it is not anticipated that exemption from price control will result in price increases to the consumer.

The exemption of paper garment patterns and pattern transfers cannot materially affect the cost of living nor add to the cost of the defense effort. Moreover, the nature of the product is such that the establishment of control would present administrative and enforcement difficulties for the Office of Price Stabilization out of all proportion to any possible gain from a stabilization viewpoint.

On the above-indicated grounds, it has therefore been determined that the sale of paper garment patterns and pattern transfers should be exempt from price control.

Accordingly, in consideration of the above facts, the Director of Price Stabilization finds that Amendment 5 to General Overriding Regulation 8 is generally fair and equitable and in his opinion is necessary to effectuate the purposes of the Defense Production Act of 1950, as amended. In the formulation of this regulation there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

1. Subparagraph (2) of section 1 (a) of General Overriding Regulation 8 is amended to read as follows:

(2) Sales of commodities whose primary value depends upon editorial content, expression of ideas or dissemination of information and the rates, fees, charges, or compensation for the services of printing, publishing, typesetting, platemaking, binding, or related services in connection with such commodities, including, but not limited to, books, magazines, periodicals, newspapers, material furnished for publication by any press association or feature service, pamphlets, leaflets, sheet music, music rolls, stamp albums, globes, maps, charts, catalogs, directories, programs, house organs, menus, advertising matter printed on paper (except such articles as containers, labels, and book matches, not including special reproduction book matches and the packaging thereof, the form of which serves a purpose other than that of advertising) time tables, tariffs, price lists, and paper garment patterns and pattern transfers.

2. Section 2 (a) is amended by the addition of subparagraph (7) which reads as follows:

(7) Paper garment patterns and pattern transfers involve copyrighted material and consist of printed or perforated instruction sheets of paper, some printed with a wax material for outlining embroidery or decorative designs on accessories, accompanied by printed assembly charts. Each of these patterns is enclosed in an envelope upon which is printed additional descriptions and instructive material.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective July 16, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 11, 1952.

Chapter XVI—Production and Marketing Administration, Department of Agriculture

[Defense Food Order 3, Sub-Order 3]

DFO-3—AGRICULTURAL IMPORTS

SO 3—STATEMENT OF POLICIES AND PROCEDURES RE IMPORT AUTHORIZATIONS FOR CERTAIN COMMODITIES

Sub-Order 3 containing a statement of the policies and procedures relating to import authorizations for certain commodities under Defense Food Order 3, as amended (17 F. R. 6088) is hereby issued pursuant to the authority vested in me by said Defense Food Order 3, under sections 101, 104 and 704 of the Defense Production Act of 1950, as amended (64 Stat. 798, 65 Stat. 131, Pub. Law 429, 82d Cong., 50 U. S. C. App. Sup. 2061 et seq.)

The Defense Production Act of 1950, as amended, was extended in effect on June 30, 1952. Defense Food Order No. 3 was amended on July 3, 1952 to effectuate the determinations under the act and to impose the import controls contemplated by the act. This Sub-Order 3 under the order must be issued promptly in order to inform affected persons as soon as possible concerning the policies and procedures relating to import authorizations under the order. This Sub-Order affects several segments of the economy and time is not available to permit consultation with all affected segments. Accordingly, consultation with industry representatives has been held only where feasible in the limited time available.

Sub-Order 3 under Defense Food Order 3, is hereby issued to read as follows:

Sec.
1. Policy statement re import authorizations.
2. Procedure re applications.
3. Procedure re use of authorizations.
4. Definitions.

AUTHORITY: Secs. 1 to 4 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply secs. 101 and 104, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071, 2074.

SECTION 1. *Policy statement re import authorizations.*—(a) *Malted milk and compounds, or mixtures of or substitutes for milk or cream.* Authorizations will be granted for the importation of malted milk and compounds, or mixtures of or substitutes for milk or cream, which are determined by the Director to have none of the customary uses of butter. Applications for authorization to import any such product must be accompanied by a complete description of the product including its butterfat content and intended end-use or uses.

(b) *Casein or lactarene, and mixtures in chief value thereof, n. s. p. f.* Import authorizations will be issued for casein or lacterene, and mixtures in chief value thereof, n. s. p. f., as follows:

(1) Any importer who is desirous of securing import authorization for any such product and who imported such product during the base period July 1, 1950, through June 30, 1951, must, if he has not already done so, submit documentary evidence satisfactory to the Director showing imports of the product through customs made in his own name as the importer of record during the specified base period. The total quota for such products will be apportioned among individual importers on the basis of the proportion of total imports of such products which was imported in the base period by each importer and such other factors as must be considered to avoid inequities. Initial authorizations will be issued to each eligible importer, authorizing him to import an amount equal to his proportionate share of approximately one-third of the total annual quota. Subsequent authorizations will be issued in accordance with the same general policy to the extent that such policy is consistent with any revisions that may be made in Defense Food Order 3 or determinations under the Defense Production Act, as amended.

(2) Authorizations totaling not in excess of 100,000 pounds will be granted for the importation of these products prior to July 1, 1953 to small independent enterprises which are in the business of importing dairy products other than the one for which authorization is desired and which have not received any import authorization under subparagraph (1) of this paragraph. The amount authorized for any applicant under this subparagraph will not exceed 1,000 pounds. Applications for authorization under this subparagraph must state the product to be imported and must include a statement concerning the size and nature of the applicant's business enterprise.

(c) *Cheese.* Import authorizations will be issued for cheese as follows:

(1) Any importer who is desirous of securing import authorization for any type of cheese subject to control and who imported such cheese between January 1, 1948 and August 8, 1951, inclusive, must, if he has not already done so, submit documentary evidence satisfactory to the Director showing by country of origin the imports of such cheese through customs made in his own name as the importer of record during the period January 1, 1948 through December 31, 1950, or, if he did not import during such period, during the period January 1, 1951 through August 8, 1951. The total quota for each type of cheese subject to control will be apportioned among individual importers on the basis of the proportion of total imports in the 1950 calendar year which was imported by each importer, with allowances for any greater proportion which the importer may have imported during the two-year period 1949–1950 or the three year period 1948–1950, and such other factors as must be considered to avoid inequities. In the case of importers who did not begin importing cheese until after December 31, 1950, their imports during the period January 1, 1951 through August 8, 1951 will be treated as if they had occurred in 1950. Initial authorizations will be issued to each eligible importer, authorizing him to import an amount of each particular type of cheese equal to his proportionate share of approximately one-third of the total annual quota for such type. Subsequent authorizations will be issued in accordance with the same general policy to the extent that such policy is consistent with any revisions that may be made in Defense Food Order 3 or determinations under the Defense Production Act, as amended. Authorizations issued to any applicant in accordance with this subparagraph will specify the quantities which may be imported from each particular country of origin, and such quantities will be based upon the proportionate quantities imported by the applicant from such country during the relevant period prescribed in this subparagraph.

(2) Authorizations totaling not in excess of 100,000 pounds will be granted for importation of cheese from particular countries prior to July 1, 1953, to small independent enterprises which are in the business of importing dairy products other than cheese and which have not received any import authorizations under subparagraph (1) of this paragraph. The amount authorized for any applicant under this subparagraph will not exceed 1,000 pounds. Applications for authorization under this subparagraph must state the country from which the applicant intends to import the cheese and the type of cheese to be imported and must include a statement concerning the size and nature of his business enterprise.

(3) In the administration of this Sub-Order, each of the following classifications is considered to be a type of cheese:

Description	Commodity import class No.
Italian	0040.010 through 0040.250 and 0040.840.
Cheddar	0040.400.
Blue-Mold	0040.600.
Edam and Gouda	0040.750 and 0040.760.
Cheese containing, or processed in whole or in part from, Cheddar, Blue-Mold, Edam or Gouda.	0040.955.

(d) *Brewers rice.* Import authorizations will be issued as follows: Brewers rice shall be that broken rice which will pass readily through a metal sieve perforated with round holes five and one-half sixty-fourths of an inch in diameter. Authorizations will be granted for the importation thereof for domestic consumption upon the submission of evidence satisfactory to the Director that the applicant has a firm offer for the sale of a specified quantity of brewers rice for shipment to the United States within 90 days after the date of the offer. No authorization will be valid for more than 30 days after issuance unless during the period the authorization-holder submits evidence satisfactory to the Director that the brewers rice is under a firm purchase contract for shipment to the United States within 90 days after the date of the issuance of the authorization. No authorization will be issued for an amount in excess of the amount requested and actually covered by the firm offer and in no event in excess of 2,500 metric tons. Subsequent authorizations will be issued to the same applicant only after evidence satisfactory to the Director has been submitted to show that the previously authorized amount has been shipped.

(e) *Registered or certified flaxseed and rice seed for planting purposes.* Any importer who is desirous of securing import authorizations for importation of registered or certified flaxseed and rice seed, for planting purposes only, may make application to the Director. Authorizations will be granted to such importers upon receipt by the Director of satisfactory evidence that the flaxseed and rice seed are registered or certified and comply with applicable laws and regulations and will be used for planting purposes only.

(f) *Small plants.* Import authorizations for the commodities specified in paragraphs (a) through (e) of this section will be issued to small plants as required by section 714 of the Defense Production Act, as amended.

SEC. 2. *Procedure re applications.* (a) Applications for import authorizations for any of the products covered by this Sub-Order may be filed with the Director, Office of Requirements and Allocations, Production and Marketing Administration, U. S. Department of Agriculture, Washington 25, D. C. The application shall specify the point or points-of-entry through which it is desired to import the commodity covered by the application. If two or more points-of-entry are specified, the application should state the commodities and quantities thereof it is desired to import through each such point-of-entry.

(b) (1) The evidence required by section 1 (b) (1) for casein or lactarene, and mixtures in chief value thereof, or by section 1 (c) (1) for cheese, should be submitted as a part of applications for import authorization for such products under such subparagraphs, as follows: The applicant must submit a summary statement of his importations during the period specified in section 1 (b) (1) or (c) (1), as the case may be, of the particular product for which authorization is desired. This statement must show the following for each entry: The customhouse entry number, port of entry, date of entry, country of origin, name of steamer on arrival, and the quantity in net pounds, exclusive of the weight of the containers. In addition, summary statements listing importations of cheese must show the type of cheese that was imported. The applicant must sign the summary statement including a statement that is correct to the best of his knowledge and belief. A customhouse broker should also sign the summary statement, including a statement that the imports specified were made in the name of the applicant as the importer of record or by the customhouse broker for the account of the applicant. If such a certification is not obtained from a customhouse broker, other evidence concerning the applicant's importations must be submitted. The customs entry with receipt for duty paid will be acceptable for this purpose. If the customs entry and receipt are unavailable, the applicant may submit the consular or commercial invoice, his copies of the letters of credit and bills of lading, and his cancelled checks covering payments for the products involved, or other documentary evidence. These documents will be returned to the applicant.

(2) It will be unnecessary for importers who applied for authorizations to import cheese or casein or lactarene and mixtures in chief value thereof, n. s. p. f., during the period August 9, 1951–June 30, 1952, and who have furnished the evidence required by this paragraph, to do so again unless specifically requested by the Director.

SEC. 3. *Procedure re use of authorizations.* (a) Import authorizations will specify the point-of-entry through which importation is authorized. A "Customs Copy" of each import authorization will be sent by the Director to the Collector of Customs at the point-of-entry stated on the authorization. This copy of the authorization will be retained by the Collector to whom sent, unless otherwise requested by the Director.

(b) Importation may be made only at a point-of-entry within the jurisdiction of the Collector of Customs holding the "Customs Copy" of the import authorization, except that, upon prior notice to the Director by the person to whom the authorization was issued, arrangements will be made by the Director for importation at another point-of-entry.

(c) The Collector of Customs will record each importation in the spaces provided therefor on the reverse side of the "Customs Copy" of the import authorization and will not permit the importation of any quantity in excess of the authorized quantity.

SEC. 4. *Definitions.* Terms used in this Sub-Order shall have the same meaning as when used in Defense Food Order 3, as amended.

The purpose of this Sub-Order is to state the current policies and procedures relating to the issuance of authorizations for importation of certain commodities under Defense Food Order 3, as amended.

This Sub-Order shall be effective immediately and shall supersede Sub-Order 1, as amended (16 F. R. 7936, 8273) and Sub-Order 2, as amended (16 F. R. 11602), under Defense Food Order 3, as amended.

NOTE: All reporting requirements of DFO–3, Sub-Order 3, have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Done at Washington, D.C., this 9th day of July 1952, effective immediately.

[SEAL] MARTIN SORKIN,
Acting Director, Office of Requirements and Allocations.

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter II—Forest Service, Department of Agriculture

PART 251—LAND USES

SPECIAL USE PERMITS; RIGHTS-OF-WAY FOR ELECTRIC POWER TRANSMISSION LINES

By virtue of the authority vested in the Secretary of Agriculture by the act of June 4, 1897 (30 Stat. 35, 16 U. S. C. 551); the act of February 1, 1905 (33 Stat. 628, 16 U. S. C. 472), and the act of March 4, 1911 (36 Stat. 1253, 16 U. S. C. 523), as amended by the act of May 27, 1952 (Pub. Law 367, 82d Cong., 2d Sess., 66 Stat. 95), the following amendments to Title 36, Chapter II, Part 251, Code of Federal Regulations are promulgated, effective immediately:

1. Section 251.1 (c) (3) (Reg. U–10 (c) (3)) is amended to read:

(3) Easements for rights-of-way for poles and lines, including telephone and telegraph lines, for communication purposes, and for radio, television, and other forms of communication transmitting relay, and receiving structures and facilities, under the provisions of the act of March 4, 1911 (36 Stat. 1253, 16 U. S. C. 523), as amended by the act of May 27, 1952 (Pub. Law 367, 82d Cong., 2d Sess., 66 Stat. 95), subject to such payments as may be equitable and to such stipulations as may be required for the protection and administration of the national forests.

2. Section 251.50 (a) (Reg. E–1 (a)) is amended to read:

(a) "Act" means the act of March 4, 1911 (36 Stat. 1253, 16 U. S. C. 523), as amended by the act of May 27, 1952 (Pub. Law 367, 82d Cong., 2d Sess., 66 Stat. 95).

3. Section 251.50 (f) (Reg. E–1 (f)) is amended by striking the word and figure "twenty (20)" and substituting the words and figure "two hundred (200)".

4. In § 251.55 (b) (Reg. E–6 (b)) the headnote and that portion of the paragraph preceding subparagraph (1) is amended to read:

(b) *Location map.* A location map, original on tracing linen and four (4) prints conforming to the following:

(30 Stat. 35, as amended; 16 U. S. C. 551)

Issued this 8th day of June 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 52–7633; Filed, July 11, 1952, 8:49 a. m.]

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle

PART 165a—CERTIFICATES AND PERMITS

MOTOR-CARRIER OPERATIONS INVOLVING TRAVERSAL STATES

EDITORIAL NOTE: Federal Register Document 52–7369, appearing at page 6047 of the issue for Friday, July 4, 1952, has been corrected to include the following paragraph:

It is further ordered, That this order shall become effective on August 8, 1952, and thereafter shall remain in effect until it is further ordered by the Commission.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Parts 904, 934, 947, 996, 999]

[Docket Nos. AO–14–A21; AO–83–A17; AO–203–A3; AO–204–A3; AO–113–A14–A11 RO]

HANDLING OF MILK IN GREATER BOSTON, LOWELL-LAWRENCE, SPRINGFIELD, WORCESTER, AND FALL RIVER, MASS., MARKETING AREAS

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTION THERETO WITH RESPECT TO PROPOSED MARKETING AGREEMENTS AND PROPOSED ORDERS AMENDING THE ORDERS, AS NOW IN EFFECT

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to proposed marketing agreements and proposed amendments to the orders, as now in effect, regulating the handling of milk in the Greater Boston, Lowell-Lawrence, Springfield, Worcester, and Fall River, Massachusetts, marketing areas.

Interested parties may file written exceptions to this recommended decision with the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 10th day after the publication of this recommended decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. A public hearing, on the record of which the proposed marketing agreements and the proposed orders were formulated was called by the Production and Marketing Administration, United States Department of Agriculture and opened in Barre, Vermont, on January 28; West Springfield, Massachusetts, on January 29; and in Boston on January 30 through February 1, 1952, pursuant to a notice duly published in the FEDERAL REGISTER (17 F. R. 91). This hearing was reopened to receive additional evidence on certain proposals at Boston, Massachusetts, May 12–15, 1952, pursuant to a notice published March 8, 1952 (17 F. R. 2063) and a revised notice published May 2, 1952 (17 F. R. 3888).

The material issues considered at the January 28–February 1 hearing on which recommendations are being made at this time and the issues raised at the May 12–15 hearing are concerned with the following:

1. The level and basis of pricing Class I milk in all five markets.

2. Proposals relating to handlers' obligations with respect to members of cooperative associations of producers in all five markets.

3. Modification of the classification provisions with reference to second transfers of milk between certain plants under Springfield, Worcester, and Lowell-Lawrence orders.

4. Extension of the zone differentials under the Boston order to reflect additional mileage distances.

5. Revision of the Boston and Worcester orders with respect to the classification of inter-market transfers of fluid milk products.

6. Modification of the nearby differential provisions of the Worcester order.

The following findings and conclusions are based upon the evidence introduced at the hearing including the reopened hearing and the record thereof.

1. *Class I price.* The principal issue at the January-February hearing and at the reopened hearing dealt with the current level of Class I prices in each of the five Massachusetts Federal order markets in relation to the standards for establishing prices set forth in the Agricultural Marketing Agreement Act and the selection of certain automatic adjustment factors which would modify such Class I prices in the future in accordance with changed circumstances. It is concluded that the Class I prices in each of these orders be related to a "New England basic Class I formula" price. The basic formula price should be determined by combining indexes of wholesale commodity prices, New England disposable income and a feed grain-farm wage rate index all related to a 1951 base and by applying to such basic formula price certain percentage adjustments to reflect above or below normal supplies of milk relative to Class I sales and a schedule of seasonal prices. The resultant price should continue to be expressed in intervals of 22-cent price change.

The Class I price in each of these Massachusetts markets is determined currently by a formula method which was adopted initially as a part of the Boston order, April 1, 1948. On the basis of the hearing record of January 28–February 1, certain changes in the formula were recommended and subsequently amendments carrying out those recommendations became effective April 1, 1952. By these amendments the formula was revised to make use of currently published indexes of wholesale prices and per capita disposable income in New England and the schedule of prices related to the index factors was adjusted to the current price level. The evidence presented at the May 12–15 hearing confirms the findings on the previous record that certain revisions should be made in the indexes used in the basic formula and that the current basic price level should be continued subject to changes in the relationship of milk receipts from producers to the total Class I sales.

The most important revision to the pricing formula recommended at this time is a proposed method of increasing or decreasing the formula Class I price according to a schedule which indicates whether the current supply relative to Class I sales is above or below normal. To measure the percentage of normal supply, the formula would make use of the latest published data on receipts from producers and Class I sales in the Federal order markets of Boston, Lowell-Lawrence, Springfield, and Worcester, Massachusetts. The orders regulating the handling of milk in each of these markets are generally similar in that they provide for market-wide pools and encourage handlers to operate their plants in the pool on a year round basis. The combined utilization of milk in these four markets represents a substantial part of the Class I sales in Massachusetts and the receipts from producers to supply those sales. Therefore, the ratio of the combined receipts to the combined sales should provide a good measure of the adequacy of the supply of milk in the region.

The exact figure at which the supply should be regarded as normal cannot be determined with pinpoint accuracy. There are a number of variables which affect both the supply of milk and the Class I sales so that any estimate of prospective requirements measured from even the most recent data available is subject to some degree of error. The evidence indicated that handlers who have city distributing business and who also receive milk at country plants consider it is necessary to have from 13 to 14 percent more milk in November than they utilize in Class I sales. This reserve is calculated to be necessary to allow for the daily variation in producer receipts and in Class I sales. The reserve estimate was made on the assumption that some inventory would be carried along to meet the usual weekly peak of daily sales. Other estimates of the margin of reserve necessary to supply Class I sales during the shortest supply month ranged as high as 20 percent. Most witnesses indicated that about 18 percent reserve is needed during November in order to be assured of having an adequate supply at all times. Because of the highly variable conditions of supply, it appears desirable to establish a goal which represents an ample rather than a scanty margin of reserve for Class I sales. It is concluded therefore that the optimum supply relative to sales should be established on the generous side with graduated price adjustments designed to direct the supply within that normal range. The normal supply relative to Class I sales for the four markets can be expressed according to this record in terms of 80 to 84 percent Class I during the month of November.

In order to relate percentages of Class I in other months of the year to the November standard, the normal pattern of seasonal variation in producer receipts and Class I sales for the four

markets must be recognized. A schedule of normal Class I percentages equivalent to 82 percent Class I in November should be used as the basis for measuring deviations from the normal during the most recent two months for which data are available. The record indicates that a two month average is more stable than a one month average and any longer period of time increases the necessary lag in the data used without adding appreciably to the accuracy of the prediction from such data.

The price adjustments for deviations from normal supply should amount to about a 2 percent price change for each change from the normal November Class I percent of 2 percentage points when the percent of normal supply (receipts divided by sales) varies from 95 to 105 percent. The 2 percent price adjustments should be related to a smaller change in the normal supply when the supply is outside this middle range. The schedule of price adjustments should extend to a 12 percent plus adjustment when the normal supply is 91½ percent or under and to a minus 12 percent when the supply is 112 percent or more of the normal rate. If the supply moves outside these limits or remains for any period of time in the outer adjustment brackets, the schedule of adjustments and the basic price should be reconsidered at a hearing.

The evidence at the hearing indicated that the seasonal adjustments to the price should be made in terms of percent to reflect changes in the price level, rather than in fixed amounts; and that the adjustments should be graduated over a wider seasonal range with less abrupt changes from month to month. The revised seasonal price schedule is designed to encourage producers to deliver a larger share of their annual milk production during the period from September through February.

The record indicates that price adjustments should be effected as soon as any of the various formula factors indicate the need for a price change. However, representatives of producers, handlers, and state milk control agencies testified at the hearing that they favored retarding price adjustments until their accumulated effect would bring about a change of 22 cents in the Class I price. Class I price changes in New England markets have been made in multiples of 20 or 22 cents for several years and the industry has become accustomed to such adjustments. Although the record indicates that such bracketed price adjustments have in the past brought about too late and too abrupt price changes, several revisions proposed in the pricing formula at this time reduce the lag and the precipitous effect of the price adjustments. The effect of the bracketed price changes on the operation of the revised formula may not seriously retard the necessary adjustments. It is concluded, therefore, that the pricing should be continued at this time on the basis of bracketed 22-cent price changes.

Certain witnesses at the May 12–15 hearing proposed that the formula indexes be related to 1950 as a base period and that a base price of $5.36 be constructed. If the New England disposable income factor had been used in the pricing formula in 1950, the price would have averaged for the year $4.92 instead of the actual average of $5.14. The witnesses who supported the substitution of the disposable income factor for the previously used department store sales index testified that the prices which would have resulted from the use of the disposable income factor were reasonable. It appears therefore that to adopt both the 1950 base and the disposable income factor, it would be necessary to consider the fact that the disposable income factor would have resulted in a 1950 price 22 cents lower than actually existed. In 1951 the substitution of the disposable income factor would have had very little effect on the average price for the year. It appears desirable therefore to adopt the 1951 base which is more up to date and which can be used with the base price computed on the same period. By adopting the 1951 base period, it is apparent that the basic price level would change in the future from the 1951 level in accordance with changes in the formula index and the percentage of normal supply. Since the measure of normal supply proposed at this time, during the first six months of 1952, was close to 100 percent, it appears that the prices in 1951 were about right to maintain a normal supply. If the evidence in future months indicates that the current price level is not maintaining the normal level of supply, the adjustment feature of the pricing formula would make the necessary change automatically.

Since the formula involves several complicated calculations, it is important to avoid any unnecessary computations. The record indicates that farm wage rates published for the New England region as a whole vary about the same as the rates for the individual states in the milkshed. Accordingly, the regional rates should be used to reflect the farm labor cost factor of the formula.

With the adoption of more frequent seasonal price changes, it is not likely that the proposed formula would produce price changes contrary to the desirable seasonal price pattern except during the months of November and December. It is concluded therefore that the order provide that the Class I formula price shall not be lower in the months of November and December than it was in the preceding month.

The record indicates that the basic Class I pricing formula should be the same for each of the five Massachusetts Federal order markets. The changes in Class I prices in each of these markets should take place at the same time and in the same amount in order to maintain the appropriate differentials between the prices established for the different markets and zone locations. The differentials between the five market Class I prices have been established at the present level for several years. There is no evidence in this record to support any change in the present market differentials.

A representative of the Massachusetts Milk Control Board urged at the hearing that the Class I pricing provisions make specific requirement for yearly hearings on the Class I price and the appointment of a committee to study the Class I pricing problem. Since the situations which may indicate the need for a hearing cannot be expected to occur at regular yearly intervals, there appears to be no basis for scheduling hearings in advance of some showing that an amendment to the order may be needed.

Interested persons have joined together voluntarily to prepare testimony and evidence to be presented at public hearings. The group which is known as the "Boston Class I Price Committee" is such an unofficial voluntary company of persons interested in milk pricing. Certain witnesses appear to have gained the impression that this voluntary group is commissioned by the Department of Agriculture to assume some responsibility in determining Class I pricing methods suitable for these New England Federal order markets. To formalize the committee's organization would appear to encourage this impression. Since the responsibility for determining prices which will effectuate the declared policy of the Act rests with the Department of Agriculture, such an impression would be misleading. Therefore, it does not appear desirable to provide for a permanent and formalized committee as a part of the order regulation.

2. *Obligations with respect to members of cooperative associations.* The present order provisions of the five New England orders should be revised to require a handler to supply to an association of producers information on quantities of milk delivered to the handler by each member of the association whose name the association has previously furnished the handler. The orders presently provide that handlers make dues deductions and pay the amount deducted to the association for whom such deduction was made. Since an association would have no basis for checking the correctness of the deductions without information as to the pounds of milk delivered by each of its producer members, it is concluded that such information should be supplied promptly after producer payments are made. The proponents further requested that the order provisions be so written as to require handlers to allow an association access to receiving records, butterfat tests, and samples of its producer members. The record shows that State laws presently require that such information be made available to individual producers or the producer's authorized agent. Accordingly, it is unnecessary that such a provision be included in the orders.

The addition of a definition of an "association of producers" under the Boston order will facilitate writing the language of the other order provisions. The term is common to Federal milk marketing orders and is presently included in the secondary market orders. Section 75 of the Boston order which refers to the collection of membership dues should refer to the new definition of "association of producers."

3. *Classification of milk transferred from second plant.* The classification provisions of the Lowell-Lawrence, Springfield, and Worcester marketing orders dealing with milk transferred to a second unregulated plant should be revised to permit the classification of milk moved through two unregulated plants in a class other than Class I. Under the present provisions, pool milk moved out of a regulated plant of a nonpool handler or out of an unregulated plant in the form of any fluid milk product except cream, is automatically classified as Class I milk. This same situation presently exists in the Boston order. However, the recommended decision of the Assistant Administrator issued April 13, 1952, proposed that the order provide that classification be followed through the second plant movement in the case of plants which are not regulated plants of pool handlers and which are located within the New England States and New York. The same reasoning set forth in this decision with reference to Boston is equally applicable to Lowell-Lawrence, Springfield, and Worcester and accordingly corresponding changes should be made in these orders.

4. *Boston zone price differentials.* No change should be made in the provisions of the Boston order establishing differentials for milk received at different zone locations. A handler currently operating in the Boston market indicated his intention of extending country plant operations to an area located more than 400 miles from Boston and proposed that the table of differentials be extended to distances up to 450 miles.

The information in this record is not sufficient to form a basis for reappraising the table of price differentials. Since the handler has not yet acquired a plant at the more distant location, there is no urgency to reach a decision. Accordingly, no change in the zone price schedule should be made on the basis of this record.

5. *Classification and pricing of products transferred between Worcester and Boston.* The present provisions of the Worcester order dealing with the computation of the uniform price should be amended to deduct any amounts which a Worcester handler is required to pay into the Boston pool for milk disposed of to consumers in the Boston marketing area.

Receipts at a Boston pool plant from a Worcester handler are presently considered as receipts of outside milk and are assigned to Class II without regard to the specific use of such receipts. Class I products disposed of by a Worcester handler directly to consumers in the Boston marketing area, on the other hand, are subject to a payment into the Boston pool of the difference between the Boston Class I and Class II prices. In addition the Worcester handler must account to the Worcester pool at the full Class I price for such sales. The resulting charge is excessive since it totals more than the Class I price on the quantity of milk sold in such a manner.

The record indicates that milk transferred from the Worcester market to Boston pool plants is usually seasonal surplus milk in Worcester and that during the short production season Worcester handlers depend on the Boston pool for supplementary milk supplies to meet the Class I needs of the market.

Because of the present generally short supply of milk received from producers for the Worcester market in relation to the Class I sales in that area, it is unlikely that Worcester producers could regularly supply all of the Class I requirements of additional customers located in the Boston marketing area. Therefore, it is possible that such sales direct to consumers in the Boston marketing area might be regarded as surplus to the Worcester pool since Worcester producers would have only enough milk over their own market requirements to fill such sales during the flush production season.

Although the record of the reopened hearing indicates that there is some possibility that the Boston pool may receive double Class I sales in some instances in which milk was transferred from a Boston pool plant to a Worcester plant and then to a second Worcester plant from which sales were made in the Boston marketing area, the arguments for establishing equal cost of Class I milk regardless of the order source are more compelling than the avoidance of such a possibility. If the quantity of milk disposed of by Worcester handlers direct to consumers in the fringe territory of the Boston marketing area amounts to a considerable part of the sales in such territory at any time in the future, a re-examination of the area boundaries or a review of this decision to credit the Worcester pool with Class II value on such sales should be made.

Certain witnesses at the hearing contended that the present provisions of the Boston and Worcester orders give an unreasonable advantage to Boston producers and handlers at the expense of Worcester producers and handlers and they proposed that the order of treatment be reversed to the advantage of the Worcester producers and handlers. The record indicates, however, that the Worcester pool under this plan of assignment suffers no loss of Class I sales which Worcester producers could supply on a year around basis.

6. *Location differentials under the Worcester order.* No changes should be made at this time in the nearby location differentials under the Worcester order. A handler operating a country plant under the Worcester order contended that during each month of the period November 1951 through February 1952, his country blend price ran under the Boston blend for competing plants and as a result he experienced considerable difficulty in holding his producers. He proposed that the order be amended to provide that the country plant price never be allowed to go below the Boston blend at that point and that whenever this would otherwise occur the nearby differential be reduced by the amount necessary to equalize the country plant prices.

The pricing plan should provide a Worcester blend price at least equivalent to the Boston blend at such points on an annual basis in view of the relatively higher proportion of Class I milk in the Worcester market. The evidence concerning lower Worcester prices for a few months does not mean, however, that the Worcester price is tending to run lower than the Boston price on an annual basis in the same zone. Under normal circumstances the seasonal pattern of blend prices in the Boston and Worcester markets varies so that the Worcester price tends to run higher than the Boston price in the flush production season and lower in the short production season.

General findings. (a) The proposed marketing agreements and the orders, now in effect, and as hereby proposed to be amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The proposed marketing agreements and the orders, now in effect, and as hereby proposed to be amended, regulate the handling of milk in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in marketing agreements upon which a hearing has been held; and

(c) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the respective marketing areas, and the minimum prices specified in the proposed marketing agreements and in the orders, now in effect, and as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk in each of said marketing areas, respectively, and be in the public interest.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of interested persons. The briefs contained suggested findings of facts, conclusions, and arguments with respect to the proposals considered at the hearing. Every point covered in the briefs was carefully examined along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the suggested findings and conclusions are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied.

Recommended Marketing Agreements and Orders. The following amendments to the respective orders are recommended as the detailed and appropriate means by which these conclusions may be carried out. The proposed marketing agreements are not included in this decision because the regulatory provisions thereof would be the same as those contained in the orders, as amended, and as proposed here to be further amended.

Boston, Lowell-Lawrence, Fall River, Springfield, Worcester:

1. Amend Parts 904, 934, 947, 996, and 999 to include new §§ 904.48, 934.48, 947.48, 996.48, and 999.48. Each section designated above reads as follows:

NEW ENGLAND BASIC PRICE FORMULA

Computation of New England Class I formula basic price. The New England Class I formula basic price per hundredweight of milk containing 3.7 percent butterfat shall be determined for each month pursuant to this section. The latest reported figures available to the

market administrator on the 25th day of the preceding month shall be used in making the following computations except that if the 25th day of the preceding month falls on a Sunday or legal holiday, the latest figures available on the next succeeding work day shall be used.

(a) Compute the formula index as follows:

(1) Divide by 1.143 the monthly wholesale price index for all commodities as reported by the Bureau of Labor Statistics, United States Department of Labor, with the years 1947–49 as the base period.

(2) Using the most recent available data on National and Regional per capita income payments as published by the United States Department of Commerce, establish the current percentage relationship of New England per capita income to the National per capita income, such percentage to be known as the "New England adjustment percentage." Multiply by the New England adjustment percentage the latest available quarterly figures showing the current annual rate of per capita disposable personal income in the United States as released by the United States Department of Commerce or the Council of Economic Advisers to the President. Divide the result by 15.17 to determine an index of per capita disposable income in New England.

(3) Compute the simple average of the four latest weekly average retail prices per ton of dairy ration in the Boston milkshed as reported by the United States Department of Agriculture and divide the average by 0.884 to determine the dairy ration index. Compute the average weighted by the indicated factors of the following wage rates reported for the New England region by the United States Department of Agriculture: Rate per month with board and room, 1; rate per month with house, 1; rate per week with board and room, 4.33; rate per week without board or room, 4.33; and the rate per day without board or room, 26. Divide the average wage rate so computed by 1.458 to determine the wage rate index. Multiply the dairy ration index of 0.6 and the wage rate index by 0.4 and combine the two results to determine the grain-labor cost index.

(4) Divide by 3 the sum of the wholesale price index, the index of per capita disposable income in New England and the grain-labor cost index determined pursuant to this paragraph. The result shall be known as the formula index.

(b) Multiply the formula index by $5.61 and divide by 100 to determine the formula index price.

(c) Determine the annual level of the basic price by applying to the formula index price a supply-demand adjustment as follows:

(1) Combine into separate monthly totals the receipts from producers for each of the markets listed below and the Class I producer milk for the same markets as announced by the respective market administrators in the statistical reports for such markets for the second and third months preceding the month for which the price is being computed.

Boston.
Lowell-Lawrence.
Springfield.
Worcester.

(2) Divide the four-market total of Class I producer milk by the four-market total of receipts from producers for each of the two months calculated pursuant to subparagraph (1) of this paragraph.

(3) Divide each of the percentages determined in subparagraph (2) of this paragraph into the following normal Class I percentage for the respective month and compute a simple average of the resulting percentages rounded to 3 decimal figures.

	Normal class I percentage
January	76.9
February	73.9
March	65.3
April	57.7
May	51.6
June	50.7
July	61.6
August	70.1
September	70.7
October	73.4
November	82.0
December	77.8

(4) Compute an annual level of the basic price by multiplying the formula index price by the applicable supply-demand adjustment in the following table. To determine the applicable adjustment, locate the bracket under the normal supply column within which the percentage computed pursuant to subparagraph (3) of this paragraph falls. If the percentage falls in an interval between brackets, the applicable bracket shall be that above the interval in which the percentage falls if the adjustment for the previous month was determined by a bracket above such interval, and shall be determined by the bracket below such interval if the adjustment for the previous month was determined by a bracket below such interval. In determining the price for the first month in which this section is effective, the nearer bracket shall apply.

Normal supply factor:	*Supply-demand adjustment*
91.5 and under	1.12
92–92.5	1.10
93–93.5	1.08
94–94.5	1.06
95–96	1.04
97–98	1.02
99–101	1.00
102–103	.98
104–105	.96
106–107	.94
108–109	.92
110–111	.90
112 and over	.88

(d) Compute the seasonally adjusted price by multiplying the annual level of the basic price by the applicable seasonal factor as follows:

January	1.04
February	1.04
March	1.00
April	.92
May	.88
June	.88
July	.96
August	1.00
September	1.04
October	1.08
November	1.08
December	1.03

(e) If the resultant price computed pursuant to paragraph (d) of this section falls within 11 cents of $5.87, the New England basic Class I formula price shall be $5.87 and if the resultant price is more than $5.98 or less than $5.76, the New England basic Class I formula price shall be that price above or below $5.87 by multiples of 22 cents which is nearest to the resultant price.

(f) Notwithstanding the provisions of (a) through (e) of this section, the basic formula price for November or December of each year shall not be lower than the basic formula price for the immediately preceding month.

Lowell-Lawrence, Springfield, and Worcester:

2. Delete §§ 934.40, 996.40, and 999.40 of Parts 934, 996, and 999 and for each deletion substitute the following section in each part:

Class I price at city plants. The Class I price per hundredweight for milk received at city plants shall be the New England Class I formula basic price per hundredweight determined for each month pursuant to section 48 of this part plus 52 cents: *Provided*, That the price shall be increased or decreased to the extent of any increase or decrease in the rail tariff for the transportation of milk in carlots in tank cars for mileage distances of 201-210 miles, inclusive, as published in the New England Joint Tariff No. 6 and supplements thereto or revisions thereof. The adjustment shall be made to the nearest one-half cent per hundredweight, and shall be effective in the first complete month in which such increase or decrease in the rail tariff applies.

3. In Parts 934, 996, and 999, delete the present language of §§ 934.16 (e), 996.16 (e), and 999.16 (e), following the comma after the word "orders" and substitute in each case therefor the following: "and thence to another plant, they shall be classified by applying the provisions of paragraphs (a) through (d) of this section, whichever is applicable except that if the other plant to which such movement is made is located outside of the New England States and New York State, they shall be classified as Class I milk."

4. Amend § 934.70 and §§ 996.71 and 999.71 by deleting the period at the end of the section and substituting therefor the following: ", accompanied by a statement showing the pounds of milk delivered by each producer from whom the deduction was made."

Boston:

5. Amend § 904.2 by renumbering paragraphs (f) through (k) as paragraphs (g) through (l) respectively and by adding a new paragraph (f) as follows:

(f) "Association of producers" means any cooperative marketing association which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, known as the "Capper-Volstead Act," and to be engaged in making collective sales or marketing of milk or its products for the producers thereof.

6. Delete § 904.40 and substitute:

§ 904.40 *Class I prices.* The Class I price per hundredweight for milk received at plants located in the 201–210 mile zone shall be the New England Class I formula basic price per hundredweight determined for each month pursuant to § 904.48.

7. Revise § 904.75 of the Boston order by deleting the present language and substituting therefor the following:

§ 904.75 *Deductions from payments to members.* (a) Each association of producers may file with a handler who is not an association of producers, a claim for authorized deductions from the payments otherwise due to its producer members for milk delivered to such handler. Such claim shall contain a list of the producers for which such deductions apply, an agreement to indemnify the handler in the making of the deductions, and a certification that the association has an unterminated membership contract with each producer listed authorizing the claimed deduction.

(b) In making payments to his producers for milk received during the month, each handler shall make deductions in accordance with the association's claim and shall pay the amount deducted to the association with an accompanying statement showing the pounds of milk delivered by each producer from whom the deduction was made, within 25 days after the end of the month.

Fall River:

8. Delete § 947.50 and substitute:

§ 947.50 *Class I prices.* Each handler shall pay producers or cooperative associations for Class I milk containing 3.7 percent butterfat delivered by them to plants located within 100 miles of the City Hall in Fall River, not less than the New England Class I formula basic price per hundredweight determined for the month plus 81 cents: *Provided*, That the price shall be increased or decreased to the extent of any increase or decrease in the rail tariff for the transportation of milk in carlots in tank cars for mileage distances of 201–210 miles, inclusive, as published in the New England Joint Tariff M No. 6 and supplements thereto or revisions thereof. The adjustment shall be made to the nearest one-half cent per hundredweight, and shall be effective in the first complete month in which such increase or decrease in the rail tariff applies.

9. Amend § 947.72 by adding a sentence at the end of the section as follows: "Such payment shall be accompanied by a statement showing the pounds of milk delivered by each producer for whom such deduction was made."

Worcester:

10. Amend § 999.50 by adding a new paragraph (g) as follows:

(g) Substract any amount which the handler is required to pay on such milk pursuant to § 904.66 (b) of this subchapter.

Issued at Washington, D. C., this 8th day of July 1952.

[SEAL] ROY W. LENNARTSON,
Assistant Administrator.

[7 CFR Part 906]

[AO-210-A2]

HANDLING OF MILK IN TULSA, OKLAHOMA, MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the Junior Ball Room, Hotel Tulsa, Tulsa, Oklahoma, beginning at 10:00 a. m., c. s. t., July 29, 1952, for the purpose of receiving evidence with respect to proposed amendments hereinafter set forth or appropriate modification thereof, to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Tulsa, Oklahoma, marketing area. These proposed amendments have not received the approval of the Secretary of Agriculture.

Amendments to the order, as amended, regulating the handling of milk in the Tulsa, Oklahoma, marketing area were proposed, as enumerated below.

Proposed by Pure Milk Producers Association of Tulsa:

1. Delete § 906.51 (a) and substitute in lieu thereof the following:

(a) *Class I milk.* The basic formula price plus $1.65 during the months of April, May, and June, and plus $2.05 during all other months: *Provided*, That for each of the months of September, October, November, and December, such price shall not be less than that for the preceding month, and that for each of the months April, May, and June, such price shall not be more than that for the preceding month.

(1) Divide the total receipts of producer milk in the first and second months preceding by the total gross volume of Class I milk (excluding interhandler transfers and sales by producer-handlers and handlers partially exempt from this order pursuant to § 906.61) for the same months, multiply the result by 100, and round to the nearest whole number. The result shall be known as the Class I utilization percentage;

(2) Compute a "net utilization percentage" by algebraically subtracting from the Class I utilization percentage computed pursuant to subparagraph (1) of this paragraph, the standard utilization percentage shown below:

Month for which price applies	Months used in computation	Standard utilization percentage
January	November-December	110
February	December-January	110
March	January-February	114
April	February-March	107
May	March-April	112
June	April-May	100
July	May-June	100
August	June-July	139
September	July-August	135
October	August-September	162
November	September-October	119
December	October-November	110

(3) For each minus percentage point in excess of 2 in the "net utilization percentage" the Class I price shall be increased 3 cents in January, February, March, July, and August; 2 cents in April, May, and June; 4 cents in September, October, November, and December; and for each plus percentage point in excess of 2 in the "net utilization percentage" the Class I price shall be decreased 3 cents in January, February, March, July, and August; 4 cents in April, May, and June; and 2 cents in September, October, November, and December: *Provided*, That in no event shall an adjustment made pursuant to this subparagraph exceed 50 cents per hundredweight.

2. Amend the provisions of § 906.22 (j) (1) to read as follows:

(1) On or before the 10th day of each month the minimum price for Class I milk computed pursuant to § 906.51 (a) and the Class I butterfat differential computed pursuant to § 906.52 (a) both for the current month; and on or before the 5th day of each month the minimum price for Class II milk pursuant to § 906.51 (b) and the Class II butterfat differential computed pursuant to § 906.52 (b) both for the previous month; and

3. Insert a new § 906.62 to read as follows:

§ 906.62 *Handlers doing less than 20 percent of their business in the marketing area.* In the case of any handler (except a handler who would be covered under § 906.61) who the Secretary determines disposes of less than 20 percent of his milk, qualified for distribution as Grade A milk in the marketing area, as Class I milk in the marketing area, the provisions of this subpart shall not apply except as follows:

(a) The handler shall, with respect to his total receipts of skim milk and butter fat, make reports to the market administrator at such time and in such manner as the market administrator shall require and shall allow verification of such reports by the market administrator pursuant to § 906.33;

(b) Pay to the market administrator for deposit into the producer-settlement fund, with respect to all skim milk and butterfat disposed of as Class I milk with the marketing area, an amount equal to the difference between the Class I and Class II value of such skim milk or but-

terfat as computed pursuant to this subpart;

(c) As his pro-rata share of the expense of administration hereof, such handler shall pay to the market administrator on each hundred weight of milk disposed of as Class I milk in the marketing area the amount per hundredweight in the manner specified in § 906.88.

Proposed by the Tulsa Handlers:

4. Delete § 906.6 and substitute therefor the following:

§ 906.6 *Tulsa, Oklahoma, marketing area.* Tulsa, Oklahoma, Marketing Area means all the territory within the boundaries of Tulsa, Creek, Mays and Rogers counties, that part of Wagoner County along and north of State Highway No. 51, that part of Delaware County which is west of State Highway No. 10 including the towns of Jay and Grove, that part of Ottawa County which lies west and south of State Highway No. 10 and including the towns of Quapaw, Picher, Cardin, Commerce and Miami, that part of Craig County that lies south of State Highway No. 10 and that part of Nowata County that lies south of State Highway No. 10 and the town of Lenapah, that part of Washington County that lies south of the town of Copan, that part of Osage County that lies south of State Highway No. 60 and east of State Highway No. 99 that part of Pawnee County that lies east and south of State Highway No. 99, and that part of Payne County that lies east of State Highway No. 40, including all the towns located on or adjacent to these highways in these counties within these given limits, all in the state of Oklahoma.

5. Add to § 906.44: "to provide that other source milk that is received by a handler to supplement the supply of producer milk during a period of short supply shall be credited to Class I sales if the Market Administrator determines that a sufficient quantity of producer milk was not available, at the time the other source milk was received, even though the total sales of Class I for the entire month is less than total producer milk delivered during that month."

6. Amend § 906.51 (a) as follows:

(a) *Class I milk.* The basic formula price plus $1.45 during the months of April, May, June, July and August and plus $1.85 during all the other months.

7. Add to § 906.53 paragraph (c) as follows:

(c) Is moved to an unapproved plant located outside the Marketing Area in the form of milk, skim milk, or cream, after the Market Administrator has been given notice of such intention and he has determined that such milk is not needed in the Marketing Area for Class I usage, the prices specified in § 906.51 shall be subject to a location adjustment credit to the handler computed as follows, etc.:

8. In § 906.41 (a) delete the following: "aerated products containing milk or cream,".

9. That the basic fat test be 3.5 percent and all provisions of the order pertaining to basic test be changed to 3.5 percent instead of 4.0 percent.

10. In § 906.65 *Computation of daily average base,* include the following proviso: "*Provided,* That if producer receipts are less than 12 percent in excess of Class I sales during October, November, or December of each year bases for new producers entering the Market after October 2, will be determined by dividing their total deliveries during such month or months by the number of days in that period and *Provided further,* That if Class I usage is less than 12 percent in excess of producer receipts during the months of January or February bases for new producers entering the Market during that time will be determined by the amount of their milk that is needed to increase producer receipts to an amount that is 12 percent in excess of Class I usage, but such producer's base shall not be more than 90 percent of his average daily deliveries."

11. § 906.88 *Expense of administration:* That the handler assessment be reduced to 3 cents per hundredweight.

Proposed by Dairy Branch, Production and Marketing Administration:

12. Make such other changes as are necessary to make the entire marketing agreement and order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and of the order, as amended, now in effect, may be procured from the market administrator, 2635 East 11th Street, Royal Theatre Building, Tulsa, Oklahoma, or from the Hearing Clerk, Room 1353 South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: July 9, 1952.

[SEAL] ROY W. LENNARTSON, *Assistant Administrator.*

[7 CFR Part 941]

[Docket No. AO 101-A 14]

HANDLING OF MILK IN CHICAGO, ILLINOIS, MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act", and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area.

Interested parties may file exceptions to this recommended decision with the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 12th day after its publication in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. A public hearing on proposed amendments to the order was held by the Production and Marketing Administration, United States Department of Agriculture, on April 14-17, 1952. Proposals to amend the order were submitted by the Associated Milk Dealers, Inc., Baldwin Cooperative Creamery et al., Beatrice Foods Company, Central Dairy Company et al., Consolidated Badger Cooperative et al., Chicago Milk Producers Council, Dean Milk Company, Ice Cream Manufacturer's Association of Cook County, Pure Milk Products Cooperative, and the Dairy Branch, Production and Marketing Administration.

The major issues presented on the record of the hearing and covered by this decision were whether the order should be amended to provide for:

(1) Revision of location adjustments to producers and handlers:

(2) Reclassification of (a) ice cream, ice cream mix, and (b) powdered ice cream mix, powdered cream, and (c) frozen concentrated milk;

(3) Expansion of the "surplus milk manufacturing area;"

(4) Classification of condensed or concentrated milk of from 2 to 12 percent butterfat disposed of in bulk outside the surplus milk manufacturing area as Class I milk;

(5) Revision of the basic formula price provisions and the introduction of a new price formula applicable to milk used in cheese;

(6) Modification of the method of pricing Class IV milk by the introduction of a "labor coal" index factor for automatically adjusting the "make allowance" in the formula;

(7) Consolidation of Order 91 with Order 41;

(8) Modification of the pool plant provisions;

(9) Revision of the rules governing the transfer or diversion of milk and cream during work stoppages;

(10) Substitution of price quotations on cheese at Wisconsin primary markets for Wisconsin Cheese Exchange quotations presently used in computing the basic formula and Class III milk prices;

(11) Expansion of the marketing area;

(12) Modification of the provision relating to the classification and pricing of milk subject to more than one Federal order; and

(13) Certain changes of an administrative character.

Findings and conclusions. The following findings and conclusions on the issues decided herein are hereby made upon the basis of the record of the hearing:

(1) No change should be made in the rates of location adjustments to handlers or to producers.

The present provisions of Order 41 provide that location adjustment shall be allowed handlers on all milk classified as Class I milk and all milk moved as fluid milk or fluid skim milk to a bottling plant located less than 70 miles from the City Hall in Chicago. These location adjustments are at the rate of 2 cents per hundredweight for each 15 miles or fraction thereof that the pool plant at which such milk was received from producers is located more than 70 miles from the City Hall in Chicago.

With respect to location adjustments to producers, the present order provides that handlers shall pay to producers the uniform price announced for the 55 to 70 mile zone less 2 cents per hundredweight for each 15 miles or fraction thereof that the pool plant at which the producers' milk is received is located more than 70 miles from the City Hall in Chicago. The order further provides that milk received from producers at plants located outside of the marketing area but less than 55 miles from the City Hall in Chicago shall have 2 cents per hundredweight added to the announced price, and milk received directly from producers at plants located within the marketing area shall be paid for at the announced uniform price plus 10 cents.

There was one proposal to change the location adjustments to handlers. It would increase the adjustment per hundredweight of Class I milk from the present 2 cents to 3 cents for each 15 miles or fraction thereof that the plant is located more than 70 miles from the Chicago City Hall. Proponents submitted evidence of quoted rates for truckers hauling milk from a number of plants in the Chicago milkshed to Chicago. They did not show the hauling rates for plants within the 70 mile area nor were any comparisons made of the differences between rates per hundredweight of milk shipped from plants on the 70-mile zone perimeter and the plants for which rates were quoted. Location adjustments to handlers have been based on distances greater than the 70-mile zone and this policy was not questioned by proponents of the changed rates. Additional evidence was presented by other interested parties which quoted trucking rates from plants in the milkshed including several located in the 70-mile zone. These data as well as those presented by the proponents indicate that the zone difference in cost of moving fluid milk or fluid skim milk from points throughout the milkshed continues to approximate 2 cents per hundredweight. No evidence was presented regarding the rates of shipping cream in the Chicago market. It is concluded that a change in the location adjustments to handlers is not warranted on the record.

Two proposals were presented that would change the location adjustments used in adjusting producer payments. One would increase the rate per hundredweight of milk from 2 cents to 3 cents for each 15 miles or fraction thereof that the plant at which the milk is received is located more than 70 miles from the City Hall in Chicago. This proposal was made in conjunction with the proposal that location adjustments to handlers per hundredweight of Class I milk be increased from 2 cents to 3 cents per zone. In effect, the proponents would continue to base the location adjustments to producers at the same rate per hundredweight of milk as is allowed handlers as a location adjustment. This principle underlies the location adjustment to producers presently contained in Order 41. Inasmuch as it is concluded that the evidence does not warrant a change in the location adjustments to handlers neither is a change in the location adjustments to producers from 2 cents to 3 cents per hundredweight of milk per zone supported by the testimony.

The second proposal would change the present location adjustment rate to producers from 2 cents per hundredweight of milk per zone to a lesser amount. This amount was not specified but in principle would be based on a combination of location adjustments allowed handlers on milk and cream. This proposal is essentially the same as one which was under consideration at a hearing held in November 1949. At that time it was found that the facts did not bear out the contention that producers in the most distant areas of the milkshed would be at a disadvantage compared to nearby producers as a result of the producer location adjustment provisions recommended at that time. The location adjustments on producer milk adopted as a result of the November 1949 hearing are the provisions presently contained in the Chicago order.

In the decision issued February 8, 1950, preceding such amendment, it was pointed out that a rate of location adjustment on producer milk less than the rate used to determine location adjustments to handlers for fluid milk would: (1) Encourage further expansion of the milk supply at distant points and further reduce milk production in nearby areas by giving distant producers more favorable prices relative to producers nearer the market, (2) at certain times result in uniform prices to producers at distant points in the milkshed greater than the Class I price at the same point which would permit plants to draw money from the pool even when all of its milk was utilized in Class I, (3) increase the seasonal surplus problem by encouraging greater production in the far out zones where the seasonal pattern of production is greater than in the nearby areas. Official notice of such decision is taken. The evidence bearing on these points in the present record does not warrant a change in the rate of location adjustments on producer milk established as a result of the November 1949 hearing. It is concluded that no change be made.

(2) (a) Milk and milk products derived from Grade A milk as defined in the order which are used in the manufacture of ice cream, ice cream mix, and other frozen dessert mixes should be classified as Class II milk.

The present provisions of Order 41 classify milk and milk products derived from Grade A sources and used in the manufacture of ice cream, ice cream mix, and frozen dessert mixes as Class II milk, while unapproved or Grade B mix, and frozen dessert mixes as Class products is classified as Class III milk when its use is not in violation of an appropriate health authority having jurisdiction in the marketing area.

It was proposed that approved milk and milk products used in the manufacture of ice cream and ice cream mix continue to be classified as Class II milk when these products are disposed of within the city limits of Chicago but that milk and milk products used in ice cream and ice cream mix disposed of outside of the city of Chicago be classified as Class III milk.

Proposals essentially the same as this proposal have been considered at previous hearings to amend Order 41, the most recent of which was a hearing held during January 1951. On the basis of the evidence given at that time it was determined that all approved milk and milk products used in ice cream and ice cream mix should be classified as Class II milk because (1) pricing milk and cream used in ice cream manufacture at the Class III price would return less money to producers than they receive for milk used to make Class III manufactured products at country plants due to the reduction in value that would result from location adjustments being allowed on this milk when moved to the marketing area, and (2) prices to producers for Grade A milk should be designed to bring forth an adequate but not burdensome market supply for those uses requiring high quality milk, but should not be designed to provide a regular supply of Grade A milk for uses not requiring milk of such quality.

Although the present record discloses the additional point that by recent development ice desserts using vegetable fat in lieu of butterfat have become a competitive factor in the disposition of ice cream by ice cream plants, a review of the present record does not reveal evidence on this point that could lead to a different conclusion than was reached as a result of previous hearings. This substitution of vegetable fat exists both within and outside the city limits of Chicago and is related to the problem of the level of the price for all ice cream made from inspected milk rather than to the pricing of that portion of the local production disposed of outside the city. A decision stating the considerations involved in establishing the level of the Class II price was issued by the Secretary on June 13 following the hearing held in March of this year. Official notice is taken of such decision. There was no new evidence advanced as a basis for altering the terms of such decision on this point. It is concluded that all milk and milk products derived from approved sources and used in the manufacture of ice cream, ice cream mix, and other frozen dessert mixes be classified and priced as Class II milk.

(b) "Powdered cream" and "powdered ice cream mix" should not be reclassified and the Class II definition should not be modified to exempt these products disposed of in bulk to plants located outside the "surplus milk manufacturing area."

One handler proposed that "powdered cream" and "powdered ice cream mix" should be classified in Class III milk to be priced competitively with whole milk powder. It was pointed out that such powdered milk products are sold nationwide and may be manufactured from non-Grade A milk although some Grade A milk is used in their manufacture. In further support of this proposal the proponent testified that Grade A milk which is used in manufacturing channels is excess milk and that handlers who carry excess milk should be permitted a choice in manufacturing those milk products which enable them to recover at least part of the cost involved in handling such excess.

The record does not establish that this product can be made from unapproved milk if sold in the main segments of the marketing area. In this connection official notice is taken of the decision for Order 41 issued April 27, 1951, in which the issue herein described was discussed. The present record does not disclose any appreciable change in the circumstances which prevailed at the time such decision was made. In view of the foregoing it is concluded that an adequate basis for revising the order in accordance with the present proposal is not provided by the record.

(c) Frozen concentrated milk should not be reclassified.

A handler proposed that frozen concentrated milk (if and when sold in the marketing area) should be reclassified from Class I milk to Class III milk and that the definition of frozen concentrated milk should be revised to include such product only if it is put out in hermertically sealed cans. The request for reclassification as pointed out by the proponents is made on the ground that frozen concentrated milk is not directly competitive with fresh fluid milk but rather is competitive with manufactured products such as evaporated milk and powdered milk. It was further contended that the present classification restricts the promotion of this product.

The record indicates, however, that frozen concentrated milk is primarily intended for use as a beverage regardless of any other uses to which it might be put. It is not evident that it may be made from unapproved milk if disposed of in the principal communities of the marketing area. It is concluded that frozen concentrated milk should not be reclassified to Class III milk on the basis of the information presented.

(3) Knox County, Illinois, should be added to the surplus milk manufacturing area and Shelby County, Illinois, should be eliminated from the surplus milk manufacturing area.

The surplus milk manufacturing area generally approximates the milk supply area of the Chicago market and is intended to include the locations of unregulated plants that normally serve as outlets for reserve milk diverted from the Chicago market. It serves the purpose of placing a reasonable limit upon the area in which reserve milk may be disposed and still be classified on the basis of the purpose for which it is used rather than according to the form in which it is disposed. Any milk moved outside this area as fluid milk or fluid skim milk automatically is classified as Class I milk and any cream so moved is automatically Class II milk.

It was proposed that the surplus milk manufacturing area be enlarged by the addition of eight counties. These counties are Knox, Coles, Macon, Sangamon, and Vermilion Counties in the State of Illinois; Montgomery and Knox Counties in the State of Indiana; and Dubuque County in the State of Iowa. Another suggestion made would eliminate Shelby County, Illinois, from such area.

The handler representative proposing enlargement of the surplus milk manufacturing area testified that while his company had subsidiary fluid operations located in each of these counties, it likewise maintained some manufacturing facilities at these locations which would be helpful additions to the manufacturing facilities available to all Order 41 handlers, as well as to his company.

The proponent's need for additional manufacturing facilities in the surplus milk manufacturing area was supported by testimony only in respect to Knox County, Illinois. These facilities have been used in the past to process surplus milk from fluid milk operations regulated by the order, and the record indicates that these facilities would normally be used for the disposal of surplus milk if Knox County, Illinois, were included in the surplus milk manufacturing area.

With respect to the other seven counties, the record contains no evidence to support their being added to the surplus milk manufacturing area other than a statement that manufacturing facilities are located in these counties which would be available to the market if needed. Considerable testimony relating to all eight of these counties dealt with competitive procurement problems regarding milk used for fluid purposes. However, the expansion of the surplus milk manufacturing area for reasons other than those directly related to the disposal of reserve milk is unwarranted. Therefore, only Knox County, Illinois, should be added to the surplus milk manufacturing area.

Shelby County, Illinois, is presently a part of the surplus milk manufacturing area. Its inclusion in the area was warranted by the fact that prior to February 1, 1952, a pool plant under the order was located in the county. Since that time however the plant has ceased to operate as a pool plant under Order 41. There is no evidence in the record to the effect that Shelby County should continue to be included in the surplus milk manufacturing area and therefore it is excluded.

(4) Milk moved as condensed or concentrated milk in bulk containing not less than 2 percent nor more than 12 percent of butterfat from a regulated plant to a plant located outside the surplus milk manufacturing area should be classified as Class I milk.

Order 41 presently provides that condensed milk moved from a regulated plant to a plant located outside the surplus milk manufacturing area shall be classified in the form in which it leaves the plant, i. e., as Class III (a) milk.

Testimony was given to the effect that administrative difficulties arise in distinguishing between condensed milk which is Class III (a) under the order and that concentrated milk which is defined as Class I milk. Further evidence was given to the effect that over the past few years there has been practically no condensed whole milk processed by Order 41 handlers and that milk which is condensed or concentrated and moved outside the surplus milk manufacturing area is intended primarily for ultimate reconstitution and use in fluid form.

A proposal was submitted to provide that such milk be classified as Class I milk rather than be given a Class III (a) classification. In consideration of the foregoing and in further view that the present order does not provide a satisfactory method of dealing with this situation, it is concluded that condensed or concentrated milk containing not less than 2 percent or more than 12 percent butterfat moved from a regulated plant to a plant outside the surplus milk manufacturing area should be classified as Class I milk. No adverse testimony on this proposal was presented.

(5) A milk price formula based on Cheddar cheese price quotations should be adopted to replace the butter-cheese formula as one of the basic formula prices in the Chicago order; milk utilized in the manufacture of cheese (other than cottage cheese) should continue to be priced under the present Class IV (butter-nonfat dry milk solids) price formula.

The basic formula price used to determine Class I and Class II prices is presently the higher of either the Class III or Class IV prices as computed for the preceding month. Specifically, this may be one of three formula prices which are: The average condensery pay price, the butter-nonfat dry milk milk solids formula, or the butter-cheese formula. Class I and Class II prices for the month are determined by adding to this basic formula price the appropriate Class I and II price differentials subject to an adjustment based on changes in the supply-demand relationship.

The present provisions of Order 41 classify all milk used in the manufacture of cheese other than cottage cheese as Class IV milk and as such its price is established each month by the butter-nonfat dry milk solids formula.

There were two proposals submitted relating to a cheese price formula. One producer association proposed that the formula be 2.75 times the simple average, as published by the Department, of prices per pound for "Cheddars" on the Wisconsin Cheese Exchange at Plymouth, Wisconsin, for the trading days that fall within the month, with the result multiplied by 2.5. It was proposed that the price resulting from the formula be substituted for the butter-cheese formula as a basic formula price and that in addition it be used to price milk utilized in Class IV for the manufacture of cheese. The second proposal was made by another producer association and in effect stated that in the event that milk used in cheese were to be classified and priced separately such milk should be priced by the following formula: 9.745 times the average price of Cheddars on the Wisconsin Cheese Exchange as now published by the market administrator plus 0.28 times the average price of 92-score butter at Chicago plus 85 percent of the price per hundredweight for whey reported for the month by the Western Condensing Company at Appleton, Wisconsin. From this amount substract $0.494 per hundredweight and the result would be the price per hundredweight, on a 3.5 percent butterfat basis, for milk utilized in cheese.

The record shows that the first proposal is designed to produce a price level which will correspond closely to the average of prices paid to dairy farmers by Wisconsin cheese factories for milk used in the manufacture of cheese. It was stated that the factor 2.75 is intended to be a figure which when multiplied by the Wisconsin Cheese Exchange quotation for Cheddars will approximate the price per pound of butterfat paid to farmers by cheese factories. Considerable evidence was submitted for the record which related this formula price to the average price paid farmers by Wisconsin cheese factories as reported by the Department and by the Wisconsin State Department of Agriculture. In essence this formula is designed to measure the value of milk used for cheese from the standpoint of competitive "pay" prices as differentiated from the "cost and yield" method.

Reduced to its simplest form this formula is 9.625 times the average Cheddar cheese price (3.5 times 2.75=9.625). The average paying price of Wisconsin cheese factories as reported by the Department for 1950 and 1951 divided by the average cheese price quotation on the Wisconsin Exchange for those two years gives a factor of 9.45 compared to the 9.625 that was proposed. Inasmuch as this formula is designed to reflect average pay prices it is concluded that the factor of 9.45 should be used in place of 9.625.

The second cheese formula is designed to measure the value of milk used in the manufacture of Cheddar cheese by the use of a cost and yield method. Evidence submitted by the cooperative proposing this formula included cost data from its own plant to substantiate a $0.494 per cwt. manufacturing allowance. At the same time proponents testified that they were not proposing to substitute their formula to lower the Class IV price if the present Class IV formula could continue as the basis for pricing milk utilized in cheese manufacture. Their formula was offered for consideration in the event it were decided that milk used for cheese should be classified and priced separately from milk used for butter and other Class IV milk products. The proponents of this formula offered no criticism of pricing milk used for cheese at the butter-nonfat dry milk solids formula price than that market fluctuations in prices between butter and cheese cause returns from a cheese operation to fluctuate widely in some months when the milk is so priced.

An analysis of evidence in the record indicates that the difference between the gross value of the cheese, whey cream, and whey in one hundred pounds of 3.5 percent milk and the Class IV price for the period March 1950 to date has averaged $0.41 (with a median difference of $0.38). Taking the same gross returns from cheese, whey cream, and whey and subtracting the cheese formula price set forth herein (9.45 times the average Cheddar price) gives an average difference of $0.364 per hundredweight of 3.5 percent milk. It can reasonably be concluded from this comparison that the latter formula provides a manufacturing allowance for Cheddar cheese closely approximating that experienced since the Class IV formula was last amended effective March 1950.

Since the production of cheese has been increasing in recent years and represents a major use of milk in the Chicago supply area, it is concluded that a formula based on Cheddar cheese would be appropriate as one of the basic price formulas under the Chicago order. Under current conditions the butter-cheese formula does not fully reflect the value of milk utilized by cheese factories in the production area. However, the pricing of milk under the order which is utilized in the manufacture of cheese using this formula presents certain other problems, the most important of which is the pricing of milk used for cheeses not of the Cheddar type. At present all cheese other than cottage cheese is classified as Class IV milk and is priced at the butter-nonfat dry milk solids formula price. While the present record contains evidence pertaining to Cheddar cheese, it is concluded that the method of pricing other cheeses of the specialty type which represent an important part of the total quantity of cheese made from Order 41 milk should be given more consideration at a subsequent hearing before any change in the pricing of milk going into cheese can be made.

It is concluded therefore that a cheese price formula computed by multiplying the monthly average price per pound of Cheddar cheese as reported for Wisconsin primary markets by 9.45 (2.7 x 3.5) be substituted as a basic price formula in place of the present butter-cheese formula but that no change should be made at this time in the formula applicable to Order 41 milk used for cheese.

(6) The formula for pricing Class IV milk should not be revised to provide a "labor-coal" index as a means of automatically adjusting the operating allowance in such formula.

The proposal made for the inclusion of a "labor-coal" index in connection with the Class IV price formula as a means of effecting automatic adjustments in the operating allowance as manufacturing costs of butter and nonfat dry milk solids change was similar to that considered at the hearing on order amendments held January 22-31, 1951. The general basis for the proposal as presented at the current hearing also was similar to that given at the January 1951 hearing although at the recent hearing supporting data were presented in somewhat more detail and with certain refinements of application. The additional information presented, however, does not provide a basis for altering the conclusions reached in the decision of the Secretary issued June 12, 1951, official notice of which has been taken. It is concluded, therefore, that the labor-coal index should not be made a part of the Class IV price formula.

(7) Order No. 91 regulating the handling of milk in the Rockford-Freeport, Illinois, marketing area should not be merged with the Chicago order.

Proponents of the merger of Orders 91 and 41 testified to the overlapping of the Chicago and Rockford-Freeport milksheds and to the fact that Chicago handlers are distributing milk in cities of Rockford and Freeport to the extent of approximately 50 percent of the total quantity of milk sold in these cities. It was also pointed out that the difference in the utilization patterns of Rockford-Freeport and Chicago has resulted in different uniform prices and at times has encouraged a shift of producers from one market to the other. However, proponents testified that their primary interest in securing a merger of the two orders is to eliminate the expense of "duplicate" hearings. It was contended that since the two markets are closely related a hearing on proposed changes in the order regulating one market ordinarily requires an immediate hearing to consider the same types of change for the other market.

It appears, however, that the important issue is whether equity among producers and among handlers more orderly marketing would be promoted through consolidation rather than the cost of duplicate hearings. The record discloses that although the two markets are closely related the problems of each market in relation to the other may not necessarily be met simply by consolidation. Both markets have several separate and distinct problems resulting, for example, from such things as: (1) The difference in their size, (2) differences in the types and volumes of milk products made from inspected milk, and (3) differences in the cost of transporting the necessary supplies of milk and cream to the urban outlet. There was considerable disagreement as to the basis on which Order 91 producers should share in the market-wide pool following consolidation. Whether the expense of hearings would be minimized by a merger of the orders is at least debatable. Producer opponents of the merger expressed the belief that they would be forced to incur additional expense if the consolidation were to be made. Even if the orders remain separate, hearings may be held jointly if interested parties so desire and there are no compelling reasons for separate hearings. It may not be concluded from the testimony that orderly marketing would be promoted by consolidation under present circumstances concerning differences in the markets and the methods of regulation employed. The record indicates further that a large majority of Order 91 producers are opposed to consolidation.

A decision recommending certain amendments to the Rockford-Freeport order issued June 13, 1952, of which official notice is taken should ameliorate many of the marketing problems which

have arisen under Order 91 in relation to the Chicago market and Order No. 41. In view of the above, it is concluded that Order 91 should not be merged with Order 41 at this time.

(8) The "pool plant suspension" provisions of the order should be modified.

The "pool plant" provisions were first incorporated into the order July 1, 1951 as a result of the public hearing held in January 1951. The purpose of and reason for their inclusion were discussed at length in the decision of the Secretary issued June 12, 1951. Official notice is taken of such decision. Since its enactment, one season of operation under the amendment has passed. The revisions under consideration are a result of problems and situations which arose in the administration of the present provisions and are also an attempt to place some of the requirements on a more definitive basis.

It was recognized at the time the provisions governing plant suspension were first adopted that the requirements stated therein were susceptible of refinement but it was felt that some experience should be gained before an attempt should be made to more precisely distinguish pool and non-pool plants. The proposed modifications for the most part are a result of that experience.

Some difficulty has been experienced by the market administrator in completing audits of the necessary records for the fall delivery periods, particularly for November, to determine whether a plant has complied with the provisions in time to use February as the start of the suspension period. It is felt that some additional time should be provided for audit purposes, and therefore March is designated as the first month to which suspension should apply.

The record shows that such shortages as have occurred in the past have been with respect to milk and that the market has never been short of cream. Therefore, it is felt that the privilege accorded to pool plants of offering to ship either milk or cream in order to avoid suspension should be confined to milk only and that the privilege of offering to ship cream should be withdrawn.

There are some pool plants which dispose of considerable amounts of condensed skim milk to ice cream manufacturers in the marketing area. Inasmuch as the offer to ship is being confined to milk only, it is felt that the opportunity to comply by shipping milk should be expanded to include shipments of fluid skim milk and condensed skim milk. As a result of this addition and because the amount of butterfat in skim milk is negligible, the requirements for complying with the percentage provisions should be changed so that percentages can be computed on either a butterfat or product pound basis.

Several changes were proposed to meet certain problems which have been encountered by the market administrator in the administration of the present provisions. One of the most frequent problems concerned the written notices which pool plants are required to send to the market administrator indicating their willingness to ship certain amounts of milk or cream. In many cases such notice included offers to ship on days prior to the date the notice was mailed. Inasmuch as additional time would be consumed before the notice would be received by the market administrator and before the market administrator could make the offer public by transmitting it to handlers in the market, it is evident that such notices with respect to milk or cream offered on days prior to the date of mailing of the notice by the pool plant did not serve the purpose of the provision. It is provided therefore that only the milk which is offered for sale on days that are at least nine full days after the date on which the notice is postmarked shall be included in computing the amount offered. Although a seven day period was suggested by the proponents of the amendment, it appears from the testimony that a nine day period will be more workable.

Some difficulty has been experienced by the market administrator in attempting to determine from the wording used in the notice from the pool plant how much milk was being offered. Also, in computing amounts of milk or cream shipped and that offered for sale, it was felt that duplication should be avoided so that the same milk or cream could not be counted twice. Only such amount of butterfat or product pounds which is sold on any day as is in excess of the amount offered for sale on such day should be counted as the amount actually sold on such day, but the entire amount sold should be considered if such sale occurs on a day on which no offer is made. Appropriate language has been included in the proposal to meet these problems.

The present provision is silent as to what action, if any, should be taken with respect to offers which are not complied with after acceptance. Such offers would be meaningless and should not be counted in determining compliance with this provision. A provision is included which outlines specific procedure to be followed in such event. A proposal was made at the hearing that acceptance of an offer should be given at least 4 days prior to the date on which the milk is available for purchase. This time limit appears reasonable and should be adopted.

Provision also has been made to establish a specific method to be followed in computing required percentages of product pounds where the items involved are concentrated milk or condensed skim milk.

Inasmuch as application of the pool plant provision is on an individual plant basis and in order to prevent any evasion of the order by a suspended plant, a provision has been included under which suspension of a plant is not to be terminated or otherwise affected by transfer of ownership or operation.

To eliminate unnecessary language, the third proviso of § 941.66 (c) is deleted. This portion of paragraph (c) was effective only for the period from July 1 until September 1, 1951, and it is apparent that the necessity for this proviso no longer exists.

(9) The classification provisions should be revised to provide that in certain instances and under certain conditions milk diverted to unregulated plants outside the surplus milk manufacturing area be classified according to its utilization at the latter plant.

At the present time Order 41 provides that any milk moved as milk or skim milk in fluid form from a regulated plant to any plant located outside the surplus milk manufacturing area should be classified as Class I milk. It was proposed by a handlers' organization that during a period of work stoppage due to a labor dispute between employer and employee, milk or skim milk may be diverted to plants located outside the presently defined surplus milk manufacturing area, and at the request of the handler involved the market administrator should audit the utilization of such milk or skim milk and classify it according to its utilization at the unregulated plant.

The record shows through the testimony of a dealer witness that from time to time there occurs in the processing and bottling plants serving the Chicago market, work stoppages caused by or due to employer and employee labor disputes which interfere with the usual disposition of milk in the market. At times this may cause an almost total cessation of such distribution. As a rule these occurrences take place during the flush period of the year, for it is then that new contracts are negotiated between the handlers and unions representing the employees. Because of the large volume of milk which comes into the market in this period it is difficult to find a substitute outlet. The surplus facilities which are available and which are generally considered part of the market are not always situated to take care of the large quantities of extra reserve milk.

During these periods milk has had to be diverted in certain instances to plants outside the surplus milk manufacturing area. In such cases it has been the practice to find a place for the milk as close to the market as possible in order to save on transportation costs which the regulated plant must pay. While it is unusual for all processing and bottling plants in the Chicago market to be simultaneously affected so that there is a complete stoppage of work in all such plants, there are times when all the plants in the Chicago market are affected, if not on the same day, within days that are so close together as to make the problem of disposition acute. There are approximately 65 plants in the Chicago area operating under the same labor contracts. Proponents of the amendments agreed that it should only be effective if at least 50 percent of the Class I milk packaged by all bottling plants is represented in plants that have such work stoppages and no counter suggestions were made for the record.

There are bottling plants outside the city of Chicago which also operate under labor contracts. However these contracts are usually local in character and terminate at different times; hence, work stoppages in such plants, if and when they occur, do not generate the same problems as confront the Chicago bottling plants as the volume of milk involved in each case is such that the plants do not experience the same difficulty in disposing of it. Separate consideration for such plants is not necessary.

It was suggested that the market administrator should make the determination as to when the required percentage of milk is affected and for what period, and that the plant to which such milk might be diverted must make its books and records available to the market administrator for audit to determine utilization of the milk. Otherwise, the diverted milk should be classified as Class I milk regardless of its utilization. Such provisions are appropriate and are adopted.

No adverse testimony was submitted at the hearing and it appears at this time the relief requested through the proposed amendment with certain modifications should be granted.

(10) The average wholesale price of cheese (cheddars) at Wisconsin primary markets as computed and reported by the Department should be substituted for the average wholesale price of cheese (Cheddars) on the Wisconsin Cheese Exchange in the computation of the basic formula and Class III milk prices.

It was testified that price quotations are reported four days a week (excluding Friday) for "Wisconsin primary markets" which are based on actual sales of cheese. There have been only a few instances in the past several years when sufficient sales have not been made on the Wisconsin primary markets on which to base a report. The Wisconsin Cheese Exchange at Plymouth, Wisconsin, on the other hand meets each Friday so that a quotation is available for only one day of each week. The volume of cheese sold on the Wisconsin Exchange is small in relation to the total volume of cheese sold on Wisconsin primary markets. Moreover, there have been numerous occasions when no sales of cheese were made through the Wisconsin Cheese Exchange and at times such condition has existed for a considerable period. It has been necessary therefore to use prices for weeks when no sales were reported which were derived from either bids or offers rather than from actual sales. For the purposes of the order the price of cheese at Wisconsin primary markets is the more representative report to use in reflecting prices actually received by manufacturers of cheese.

The types of transaction on which the two cheese quotations discussed above are based are similar—both are for the same type of cheese and are for cheese loaded for shipping at assembly points. The quotations differ, however, in that the price at primary markets includes a charge for certain services, such as paraffining and assembly, which is not included in the Exchange price but is made as a separate charge to the purchaser. Over the past two years the primary markets' price has averaged higher than the Exchange price by approximately 1.3 cents per pound and deduction of this amount should be made in adopting the primary market price.

Testimony in opposition to using the Wisconsin primary market data indicated that such price quotations might give undue weight to one sale since the highest price quoted by a handler could represent the sale of only one car of cheese, whereas the low price of that same handler might represent ten cars. While such a transaction could happen it is also true that the reverse could take place. Over a period of time such transactions should average out, particularly on the primary markets where there is a greater volume of cheese sales. It is concluded that the proposal should be adopted.

(11) The Chicago milk marketing area should not be expanded to include the township of Grafton.

It was proposed by one handler that the township of Grafton be included in the Chicago marketing area. In this connection it was testified that of the 90 milk producers in Grafton township under the Chicago order, 22 producers ship milk directly to Chicago marketing area plants while the other producers do not. It was contended that the 22 producers receive an extra 6 cents as an inner zone differential from the Chicago pool while handlers have to pay a "premium" of 6 cents to the other 68 producers (in order to maintain their milk supply) thus resulting in an inequitable situation. It was testified by other handlers that milk procurement in this area is highly competitive and that there are numerous milk plants located in at least five other townships adjacent to or in juxtaposition to Grafton township and competing for milk in the same general area. Producers are intermingled in the several townships close to Grafton township. It was further pointed out that if Grafton township is included in the marketing area the other townships should be included too, since without their inclusion there would be no substantial change in the problem described. In a decision issued April 27, 1951, the reasons justifying the extra payment for direct shipped milk and payments out of the pool were fully explained. To the extent that decision is applicable to the issue here described official notice is taken.

An extension of the marketing area would automatically qualify an added volume of milk for the inner zone differential which was established when Orders 69 and 41 were consolidated. The circumstances then existing and the history of the two orders which at that time justified such differential do not support an extension of the marketing area. It is concluded in view of the foregoing that the Chicago marketing area should not be expanded at this time.

(12) The provision (§ 941.68 (a)) requiring a plant that receives milk subject to the class price provisions of a marketing agreement or order for another marketing area to make payments into the producer-settlement fund under certain circumstances should be eliminated.

At the present time Order 41 provides in § 941.68 (b) for a method of determining under which order milk received by a plant from which Class I or Class II milk is sold in the Order 41 marketing area as well as one or more other Federal milk marketing areas shall be priced. If the Secretary determines that such milk is subject to the pricing provisions of an order other than Order 41, then, with one exception, the pricing provisions of the latter order do not apply. If Class I or Class II milk is disposed of in the Chicago marketing area and the applicable class price under the other order is less than the applicable Order 41 price, the difference must be paid into the producer-settlement fund.

There are sizeable quantities of Class I and Class II milk moving from plants serving the Chicago marketing area to other milk markets some of which are regulated by Federal milk marketing orders while others are not. Both packaged and bulk sales are made by Order 41 handlers to markets near Chicago and bulk sales are made to markets at greater distances. Of the nearby markets under Federal orders, Milwaukee, Wisconsin; Rockford-Freeport, Illinois; and South Bend, Indiana, receive substantial quantities of Class I and Class II milk from handlers under Order 41. On the other hand, handlers under the Chicago order are competing for milk supplies with handlers regulated by such three other orders. In addition, the extensive Chicago milk shed overlaps to some degree with the Quad Cities, Iowa; Dubuque, Iowa; and Minneapolis-St. Paul, Minnesota, milksheds. The latter markets also are regulated by Federal orders and at times have obtained supplies of Class I or Class II milk from Chicago handlers. These intermarket relationships have raised questions as to the application of the pooling, pricing and classification provisions under the various orders involved and as to the specific prices which should apply when milk is sold from one market to another.

Several other factors, such as processing and transportation costs (which are not covered by order provisions), in addition to class prices under the order, enter into a handler's cost of milk when sold in a different market. A reasonably close alignment of class prices under the orders concerned, taking into account the approximate cost of moving milk between markets, will maintain equity between the handlers affected. The provision in Order 41 that requires payment of money into the Chicago producer fund when the Chicago prices are higher than those under the federal order where the milk order where the milk originated is not necessary to this end and is deleted.

At the hearing it was proposed further that any milk shipped by an Order 41 handler to another Federal order market be priced at the applicable price in the receiving market when the price under the other order is higher than the Order 41 price. The added return would go to Chicago producers; in other words the Order 41 handler would be required to pay the Order 41 price or the other price whichever was higher.

In view of the considerations stated above such provision is not being adopted. Chicago handlers will continue to be required to pay the Order 41 price to Chicago producers for milk sold to other markets. If uneconomic shifts in sales or supplies of milk result there may be need for reexamining the provisions of the respective orders for the purpose of

bringing about closer alignment between them by amendment of either or both.

(13) (a) Revision should be made in the provisions that pertain to payments for other source milk and "overrun" to clarify the application of such provisions.

The order contains provisions requiring payments with respect to other source milk and "overrun" under certain circumstances. Under such provisions there is the possibility that other source milk which appears in the plant of a handler who buys milk only from other plants could fall under either of the two payment provisions. The rates of payment applicable under the two provisions are different. One rate is the applicable class price while the other rate is the difference between the price of the class in which the milk is found and the lowest class price announced by the market administrator. The administrative problem may be removed by providing that if no specific source is shown by the handler on his report with respect to other source milk received it shall be considered as overrun and the handler shall be so charged.

As a corollary change, the provision relating to net pool obligations of handlers should be revised to make it clear that under certain conditions a handler who does not buy milk directly from producers may have a "net pool obligation", as well as a handler who buys milk directly from producers.

(b) Milk moved to an unregulated bottling plant located inside the surplus milk manufacturing area which receives milk, skim or cream only from regulated plants, should be Class I when moved as fluid milk or skim milk and Class II when moved as fluid cream, except that any milk or milk product so moved that is in excess of the unregulated plant's Class I and Class II disposition as defined in the order shall be classified according to its utilization when adequate records are made available to the market administrator by the unregulated plant.

The order at present provides that any milk or milk product moved from a regulated plant to an unregulated plant not engaged in the manufacture of butter, cheese, evaporated milk, condensed milk or skim milk, whole milk powder, nonfat dry milk solids, casein, or ice cream powder shall be classified as Class I milk when moved in the form of fluid milk or fluid skim milk and as Class II milk when moved in the form of fluid cream.

It was proposed that when unregulated bottling plants which are inside the surplus milk manufacturing area and not engaged in processing manufactured dairy products receive only milk and milk products from regulated sources, the milk so moved be classified according to its utilization in the unregulated plant when adequate records of use are available. Testimony was given stating that there are several plants not under the regulation of the order which receive their entire supply of milk and cream for bottling purposes from Chicago approved plants. Under the present terms of the order, any milk moved to these plants is Class I milk even though some of this milk is normally returned from routes and has to be used in a lower class of use. It appears reasonable to liberalize the effect of the present requirement. The record contains no evidence or testimony contrary to this proposal. It is concluded that when an unregulated bottling plant inside the surplus milk manufacturing area receives its entire supply of milk, cream, and skim milk from a regulated plant, such products should be classified according to use at the unregulated plant.

(c) A definition of a commercial food processor should be included in the order.

The term "commercial food processor" is currently used in the language of Order 41 where it is intended to specify plants that do not process manufactured dairy products such as butter, cheese, condensed, evaporated, or dry milk products but that do use milk and milk products in the manufacture of processed foods. The order provides that milk and milk products moved to the establishment of a commercial food processor shall be classified as Class III or Class III (a) milk.

It is proposed that a specific definition be given the term "commercial food processor" which would read as follows: "Commercial food processor" means any person engaged in processing food other than milk or cream in fluid form or ice cream. It was pointed out in the testimony that the term commercial food processor was sufficiently broad to be construed to encompass firms engaged in bottling fluid milk and cream or the manufacture of ice cream. Inasmuch as milk and milk products defined as Class III and Class III (a) products in the order are allowed in those classes when moved to the establishment of a commercial food processor but are classified in the ultimate class of use when moved to a regulated bottling plant or ice cream plant, a definition of a commercial food processor should be specifically set forth in the order. In order to avoid possible confusion as to what constitutes a commercial food processor, it is concluded that the proposed definition be adopted.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Rulings on briefs. Briefs were filed on behalf of the Associated Milk Dealers, Inc., Baldwin Cooperative Creamery et al., The Borden Company of Fond du Lac, Wisconsin, The Borden Company of Chicago, Illinois; Beatrice Foods Company, Central Dairy Company et al., Consolidated Badger Cooperative et al., Ice Cream Manufacturers' Association of Cook County, Lake to Lake Dairy Cooperative, Midwest Dairymen's Company, Stephenson County Pure Milk Association and Pure Milk Products Cooperative. The briefs contained proposed findings of fact, conclusions and argument with respect to the proposals discussed at the hearing. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that such suggested findings and conclusions contained in the brief are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions in this decision.

Recommended marketing agreement and order. The following proposed amendments to the order are recommended as the detailed and appropriate means by which these conclusions may be carried out: The proposed amendments to the marketing agreement are not included because the regulatory provisions thereof would be the same as those contained in the proposed amendments to the order:

1. Add the following as § 941.17:

§ 941.17 *Commercial food processor.* "Commercial food processor" means any person engaged in processing food other than milk or cream in fluid form or ice cream.

2. Delete in § 941.40 the phrase "paragraph (b) of this section" and substitute therefor the reference "§ 941.41".

3. Delete § 941.40 (b) and substitute therefor the following:

(b) Any milk moved as milk or skim milk in fluid form, or as bulk condensed or concentrated milk containing not less than 2 percent nor more than 12 percent butterfat, from a regulated plant to any plant located outside the following area, referred to in this subpart as the "surplus milk manufacturing area", shall be classified as Class I milk, any milk so moved as cream in fluid form, frozen cream, other cream frozen, plastic cream, powdered cream, or any cream product in fluid form, including any bulk condensed, concentrated or evaporated milk product containing more than 12 percent butterfat, shall be classified as Class II milk, and any milk so moved as any other milk product containing butterfat shall be classified according to the form in which it leaves the plant of shipment: The State of Wisconsin; the counties of Stark, Marshall, Woodford, Livingston, Ford, Iroquois, Jo Daviess, Stephenson, Winnebago, Boone, McHenry, Lake, Carroll, Ogle, De Kalb, Kane, Cook, Du Page, Whiteside, Lee, Rock Island, Henry, Bureau, Putnam, La Salle, Kendall, Grundy, Will, Kankakee, Peoria, McLean, Champaign, and Knox, in the State of Illinois; the counties of Benton, White, Cass, Miami, Howard, Carroll, Tippecanoe, Tipton, Clinton, Fountain, Warren, Parke, Vermillion, Vigo, Sullivan, Lake, Newton, Porter, Jasper, La Porte, Starke, Pulaski, St. Joseph, Marshall, Fulton, Kosciusko, Wabash, and Elkart, in the State of Indiana; the counties of Ottawa, Kent, Allegan, Berry, Calhoun, St. Joseph, Van Buren, Kalamazoo, Cass and Berrien, in the State of Michigan; and the county of Van Wert in the State of Ohio: *Provided*, That any handler who causes producer milk received to be delivered to a plant located outside the surplus milk manufacturing area during the period of a work stoppage at the regulated plant due to a labor dispute between employer and employee, may request the market administrator in writing to classify such milk according to its utilization at the unregulated plant and the milk so delivered shall be classified under § 941.41 according to its utilization at the latter plant if (1) the market administrator determines that not less than 50 percent of the volume of the Class I milk packaged by all pool plants as described in § 941.66 (a) is affected by such work stoppage, and (2) the unregulated plant makes its books and records of milk utilization available to the market administrator for audit verification purposes and the market administrator determines to his satisfaction that utilization of the milk so delivered can be established on the basis of adequate daily records. If the conditions described under subparagraphs (1) and (2) of this paragraph do not prevail the milk so delivered shall be classified as Class I milk.

4. Delete § 941.40 (d) and substitute therefor the following:

(d) Any milk moved as milk or skim milk in fluid form from a regulated plant to any unregulated plant located within the surplus milk manufacturing area which did not manufacture any of the products named in paragraph (c) of this section during the delivery period shall be classified as Class I milk, and any milk so moved as cream in fluid form shall be classified as Class II milk: *Provided*, That if such unregulated plant receives no milk, skim milk or cream from sources other than a regulated plant(s) and if satisfactory proof is furnished to the market administrator that any such milk, skim milk, or cream was in excess of the total amount used in Class I milk or Class II milk items, respectively (as defined in § 941.41) at the latter plant, such excess shall be classified according to its utilization.

5. Delete § 941.41 (c) (1) and substitute therefor the following:

(1) Condensed milk (sweetened or unsweetened) disposed of to commercial food processors located within the surplus milk manufacturing area, sweetened condensed milk in hermetically sealed cans, evaporated milk, whole milk powder, nonfat dry milk solids, and condensed skim milk (the products specified in this subparagraph are referred to in this subpart as Class III (a) milk);

6. Delete § 941.50 and substitute therefor the following:

§ 941.50 *Basic formula price.* The basic formula price to be used in computing the prices for Class I milk and Class II milk for each delivery period shall be the highest of the prices resulting from the formula set forth in paragraph (a) of this section and those set forth in paragraphs (c) and (d) of § 941.52 as computed for the delivery period next preceding.

(a) From the simple average of the daily prices paid per pound, using the mid point of any price range as one price, for Wisconsin State Brand Cheddars in cars or truckloads, f. o. b. Wisconsin assembling points, as reported by the United States Department of Agriculture for the trading days during the delivery period, subtract 1.3 cents, and then multiply by 2.7;

(ii) Multiply such result by 3.5.

6a. Delete from § 941.52 (c) the word "highest" and substitute therefor the word "higher".

6b. Delete from § 941.52 (c) the words "subparagraphs (1) and (2) of this paragraph" and substitute therefor the words "subparagraph (1) of this paragraph".

6c. Delete § 941.52 (c) (2).

7. Delete in § 941.61 the reference "§ 971.70" and substitute therefor the reference "§ 941.70".

8. Replace the period (.) at the end of § 941.61 with a colon (:) and add the following proviso: "*Provided*, That if no source is indicated by the handler which may be verified by the market administrator, the other source milk shall be deemed to be 'overrun' and subject to the provisions of § 941.62 rather than to the conditions of this section."

9. Delete the third proviso of § 941.66 (c).

10. Delete § 941.67 and substitute therefor the following:

§ 941.67 *Suspension of pool plants.* (a) Any plant described in § 941.66 (b) shall be suspended automatically as a pool plant, such suspension to be effective during each of the delivery periods of March through July inclusive of the next succeeding year, unless:

(1) At least 50 percent of the butterfat in milk or at least 50 percent of the pounds of milk received from producers at such plant during each of the delivery periods of September, October and November is (i) shipped as milk, skim milk or cream in fluid form to a regulated plant(s), or (ii) disposed of from such plant as Class I milk or Class II milk within the surplus milk manufacturing area other than to a regulated plant; or

(2) Such plant gives notice to the market administrator in writing that during each of the delivery periods of September, October and November, it is willing to ship an amount of milk in fluid form to any regulated plant(s) which together with such amount of milk, skim milk and cream as it disposes of as Class I milk or Class II milk within the surplus milk manufacturing area (including shipments to any such plant(s)) in said delivery period shall include not less than 50 percent of the butterfat or not less than 50 percent of the pounds of milk received from producers during the delivery period to which said offer applies: *Provided*, That

(i) Said notice shall contain at least the following information: the specific days on which the milk will be available; the amount of milk available on each of such days with the butterfat content thereof, and if such plant intends to offer its entire supply of milk for a particular day, the offer shall so state; and the price to be charged for the milk offered and the terms of sale;

(ii) Only those amounts of milk offered for sale on days that are at least 9 full days after the date on which said notice is postmarked shall be included in computing the total amount offered for the delivery period;

(iii) Only such amount of butterfat or product pounds which is sold on any day within the surplus milk manufacturing area as Class I milk or Class II milk as is in excess of the amount offered for sale on said day by said notice shall be considered in computing the amount actually sold on such day, but the entire amount of butterfat or product pounds so sold shall be considered if such sale occurs on a day on which no offer is made;

(iv) Only such amount of milk offered by said notice on any day shall be credited to the offer as is not in excess of the amount of milk received from producers on said day.

(3) Upon receipt of said notice the market administrator shall make the offer and terms thereof public by transmitting the same to all handlers not later than one business day after receiving the notice.

(4) Any handler who desires to accept an offer shall notify the offering plant, or the person whom the offering handler has designated as his agent to receive acceptance, of his willingness to accept such offer at least 4 days prior to the date on which the milk is available for purchase. If the offering plant or its agent refuses to sell and deliver the milk to the handler accepting the offer and such handler so notifies the market administrator, he shall verify the refusal to sell by communicating with the offering plant or its agent. If upon subsequent audit and investigation the market administrator determines that such milk had not actually been shipped to a regulated plant serving the marketing area, the offer for said day shall be considered null and void, and in determining the plant's compliance with this section consideration shall be given only to sales occurring on such day.

(5) In computing required percentages of milk, skim milk and cream on a product pound basis any sales of concentrated milk or condensed skim milk to a regulated plant shall be based upon the quantity of the milk or skim milk used in its production rather than upon the quantity of concentrated milk or condensed skim milk sold.

(b) The market administrator shall maintain at his office a list of plants (including plant location and name of operator) suspended pursuant to this

section which shall be made available to any interested person upon request and which he may from time to time transmit to all handlers in the market.

(c) Any milk or milk product received at a regulated plant from a plant during any period of suspension pursuant to this section shall be other source milk.

(d) Suspension of any pool plant shall not be terminated or affected by transfer of ownership through sale or otherwise.

11. Delete § 941.68 and substitute therefor the following:

§ 941.68 *Milk under more than one Federal order.* (a) Milk or any milk product disposed of within the Chicago, Illinois, marketing area (other than to a regulated plant) as any item of Class I milk or Class II milk from a plant receiving milk subject to the class price provisions of a marketing agreement or order issued pursuant to the act for another marketing area shall not be subject to the class price provisions of this order or to §§ 941.80 through 941.88.

12. Delete that portion of § 941.70 prior to paragraph (a) and substitute the following:

§ 941.70 *Net pool obligation(s) of handlers.* On or before the 14th day of each delivery period the market administrator shall examine for mathematical correctness and obvious errors the report of receipts and utilization submitted by each handler for the preceding delivery period and shall make such corrections as such examination shall indicate to be appropriate. A separate net pool obligation for Grade A milk and Grade B milk shall be computed for each handler (based upon his reports as corrected), as follows:

Filed at Washington, D. C., this 8th day of July 1952.

[SEAL] ROY W. LENNARTSON,
Assistant Administrator.

NOTICES

DEPARTMENT OF STATE

[Public Notice 108]

ORGANIZATION

MISCELLANEOUS AMENDMENTS

Pursuant to the requirements of section 3 (a) (1) of the Administrative Procedure Act (5 U. S. C. 1002; 60 Stat. 238), Public Notice 34 (15 F. R. 1461) regarding the central organization of the Department of State is amended as follows:

(a) The function performed by the Deputy Under Secretary as the Department's National Security Council consultant is transferred to the Counselor.

(b) The Counselor is no longer a member of the Department's Policy Planning Staff.

(c) The position of Director, Mutual Defense Assistance Program (Public Notice 49 (15 F. R. 3668)) is abolished and there is established the position of Special Assistant to the Secretary for Mutual Security Affairs, who: (1) Coordinates all activities within the Department relating to programs authorized by the Mutual Security Act of 1951.

(2) Serves as principal representative of the Department in matters relating to the Mutual Security Program and in dealings with the Director for Mutual Security.

(3) Represents the Department in preparation and presentation to Congress of the Mutual Security Program legislation.

(4) Assures that the Department's work relating to the Mutual Security Program is properly performed.

(5) Assures the establishment and maintenance of effective working relationships with other Government agencies on matters relating to the Mutual Security Program.

(d) The title of the Office of Consular Affairs is changed to Office of Security and Consular Affairs.

(e) The Office of International Trade Policy is abolished, and there are established under the Assistant Secretary for Economic Affairs (1) the Office of International Materials Policy with responsibilities for the formulation of policy with respect to the import and export of commodities affecting foreign policy and foreign relations, and (2) the Office of Economic Defense and Trade Policy with responsibility for economic defense, security, and general and emergency international trade policies.

(f) The United States International Information and Educational Exchange Program (USIE) is redesignated the United States International Information Administration (USIIA). The new organization is headed by an Administrator who is accountable directly to the Secretary and Under Secretary for the planning and execution of the Department's programs under the Smith-Mundt Act (Public Law 402, 80th Congress) and other foreign information activities for the administration of which the Secretary is responsible, and who: (1) Serves as Chairman of the Psychological Operations Coordinating Committee.

(2) Directs the development of international information and educational exchange policies.

(3) Directs the planning and execution of all International Information Administration programs at home and abroad.

(g) By a redefinition of his functions, the Assistant Secretary for Public Affairs: (1) Participates in the formulation of policy from a standpoint of public opinion factors.

(2) Develops policies on public information and directs the execution of programs designed to keep the United States public informed on international affairs.

(3) Serves as the staff officer to the Secretary responsible for the approval of major International Information Administration policy guidances.

(4) Develops policies for and supervises the conduct of a program of research on American policy.

(5) Develops policies on substantive matters relating to United States participation in UNESCO, subject to review by the Bureau of United Nations Affairs.

(6) Assures the maintenance of liaison with American mass communications industries.

Issued: June 25, 1952.

For the Secretary of State.

WALTER K. SCOTT,
Deputy Assistant Secretary.

[F. R. Doc. 52-7628; Filed, July 11, 1952; 8:47 a. m.]

[Public Notice 109]

AMERICAN NATIONALS

CLAIMS UNDER PROVISIONS OF TREATY OF PEACE WITH JAPAN

Notice is hereby given that under Article 15 (a) of the peace treaty between the Allied Powers and Japan, which came into force on April 28, 1952, the Japanese Government is required to return all property of Allied Powers and their nationals within the present territorial limits of Japan, and in cases where such property was within Japan on December 7, 1941, and cannot be returned or has been damaged, to provide compensation to property owners for their loss or damage sustained as a result of the war within Japan in accordance with terms of the Allied Powers Property Compensation Law (Japanese Law No. 264 of 1951).

In order to assist American nationals who desire to file applications under the treaty for the return of their property in Japan or, in appropriate instances, claims for compensation under the Allied Powers Property Compensation Law, the Department of State has prepared, after consultation with authorities of the Japanese Government, a memorandum regarding the manner in which such applications or claims should be prepared and filed. A copy of the memorandum is being sent to all American nationals who, on the basis of information available to the Department of State have indicated a desire to file applications for the return of property or claims for compensation. American nationals who desire to file such applications or claims but have not previously communicated with the Department may obtain copies of the memorandum from the Office of the Legal Adviser, Department of State, Washington 25, D. C.

Applications for the return of property must be submitted by this Government to the Japanese Government on or before January 28, 1953. Claims for compensation must be submitted by this Government to the Japanese Government on or before October 28, 1953. However, to insure proper consideration of applications for restitution of property and claims for compensation, they should be filed with the Department of State with the least possible delay.

Issued: July 1, 1952.

For the Acting Secretary of State.

JACK B. TATE,
Acting Legal Adviser.

DEPARTMENT OF THE TREASURY

Bureau of Customs

[466.23]

EXTRACTS OF CHLOROPHYLL OR CHLOROPHYLL DERIVATIVES

TARIFF CLASSIFICATION

JULY 2, 1952.

It appears probable that a correct interpretation of paragraph 5, Tariff Act of 1930, requires that certain extracts of chlorophyll and extracts of chlorophyll derivatives be classified under paragraph 5 as chemical compounds dutiable at the modified rate of 12½ percent ad valorem rather than dutiable at the modified rate of 7½ percent ad valorem under paragraph 38.

Information received by the Bureau indicates that water soluble forms of chlorophyll and chlorophyllin are chiefly used for deodorizing and for medicinal and therapeutic purposes. Accordingly, pursuant to § 16.10a (d), Customs Regulations of 1943 (19 CFR 16.10a (d)), notice is hereby given that the existing uniform practice of classifying such and similar merchandise under paragraph 38 as extracts and preparations of vegetable origin used for dyeing, coloring, staining, or tanning is under review in the Bureau of Customs.

Consideration will be given to any relevant data, views, or arguments pertaining to the correct tariff classification of this merchandise which are submitted in writing to the Bureau of Customs, Washington 25, D. C. To assure consideration of such communications they must be received in the Bureau not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER. No hearings will be held.

[SEAL] D. B. STRUBINGER,
Acting Commissioner of Customs.

CIVIL AERONAUTICS BOARD

[Docket No. 5595]

TRANSPORTES AEREOS NACIONALES, S. A.; PROPOSAL TO DESIGNATE SAN PEDRO SULA AS A COTERMINAL POINT

NOTICE OF HEARING

In the matter of the application of Transportes Aereos Nacionales, S. A., for amendment of its foreign air carrier permit under section 402 of the Civil Aeronautics Act of 1938, as amended, so as to designate San Pedro Sula, Honduras, as a coterminal point on its foreign route.

Notice is hereby given pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 402 and 1001 of said act, that a hearing in the above-entitled proceeding is assigned to be held on July 21, 1952, at 10:00 a. m., e. d. s. t., in Room E-210, Temporary Building No. 5, Sixteenth Street and Constitution Avenue NW., Washington, D. C., before Examiner Curtis C. Henderson.

Without limiting the scope of the issues presented by the application particular attention will be directed to the following questions:

1. Will it be in the public interest to amend the foreign air carrier permit held by Transportes Aereos Nacionales, S. A., so as to designate San Pedro Sula, Honduras, as a coterminal point on its foreign route?

2. Will the requested authorization be consistent with the obligations assumed by the United States in any treaty, convention or agreement that may be in force between the United States and Honduras or any other foreign country?

For further details as to the requested amendment and the issues in connection therewith reference is made to the application on file with the Civil Aeronautics Board.

Notice is further given that any person other than a party of record desiring to be heard in this proceeding must file with the Board on or before July 21, 1952, a statement setting forth the pertinent issues of fact or law which he desires to controvert or support, and said person then may appear and participate at the hearing under the provisions of § 302.6 (a) of the Board's Procedural Regulations.

Dated at Washington, D. C., July 8, 1952.

By the Civil Aeronautics Board.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

[F. R. Doc. 52-7620; Filed, July 11, 1952; 8:46 a. m.]

ECONOMIC STABILIZATION AGENCY

Office of the Administrator

[Determination No. 115]

WILLISTON, NORTH DAKOTA; CRITICAL DEFENSE HOUSING AREA

APPROVAL OF EXTENT OF RELAXATION OF CREDIT CONTROLS

SECTION 1. *Authority.* This action is taken pursuant to the authority conferred by the Housing and Rent Act of 1947, as amended (Pub. Law 129, 80th Cong., as amended by Pub. Laws 422 and 464, 80th Cong., Pub. Laws 31, 574 and 880, 81st Cong.; and Pub. Laws 8, 69 and 96, 82d Cong.); and more particularly section 204 (m) of Pub. Law 95; and the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong.; as amended by Pub. Law 96, 82d Cong.); and Executive Order 10161 of September 9, 1950, and Executive Order 10276 of July 31, 1951; and as implemented by Economic Stabilization Agency Order No. 9 of July 31, 1951.

SEC. 2. *Determination.* In view of the joint determination and certification by the Acting Secretary of Defense and the Acting Director of Defense Mobilization, dated July 7, 1952, that the Williston, North Dakota, area (this area consists of Williams County and that part of McKenzie County north of the south line of Township 150, all in North Dakota), is a critical defense housing area, and in view of the defense housing program announced for the said area on June 20, 1952, by the Administrator of the Housing and Home Finance Agency, with the concurrence of the Board of Governors of the Federal Reserve System, it is hereby determined, after due consideration of relevant factors, that real estate construction credit controls have been relaxed in the Williston, North Dakota, critical defense housing area to the extent necessary to encourage construction of housing for defense workers and military personnel.

ROGER L. PUTNAM,
Administrator.

JULY 10, 1952.

Office of Price Stabilization

[Ceiling Price Regulation 32, Supplementary Regulation 2, Section 3, Special Order 19]

PLAYA DEL REY FIELD, LOS ANGELES COUNTY, CALIFORNIA

CRUDE PETROLEUM CEILING PRICES ADJUSTED ON AN IN-LINE BASIS

Statement of considerations. This special order adjusts the ceiling price for the sale of crude petroleum produced from the Playa Del Rey Field, Los Angeles County, California.

The Office of Price Stabilization has been requested to eliminate the differentials heretofore imposed upon crude petroleum produced from the Playa Del Rey Field, Los Angeles County, California. During the base period there was a lack of competitive factors and as a result, the crude petroleum produced from this field was sold at a lower price than that paid for crude petroleum of comparable quality produced in this same general area. It appears that this condition has now been eliminated and these differentials should no longer be imposed.

From the information available to this office, it appears that the adjusted price will be in line with the ceiling price of comparable crude petroleum produced in this same area. This price is :

Gravity	*Price*	*Gravity*	*Price*
17-17.9 ------	$1.78	21-21.9 ------	$1.98
18-18.9 ------	1.83	22-22.9 ------	2.02
19-19.9 ------	1.88	23-23.9 ------	2.08
20-20.9 ------	1.93	24-24.9 ------	2.14

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to the provisions of Section 3 of Supplementary Regulation 2 to Ceiling Price Regulation 32, it is ordered:

1. That the ceiling price at the lease receiving tank for crude petroleum produced from the Playa Del Rey Field, Los Angeles County, California shall be:

Gravity	*Price*	*Gravity*	*Price*
17-17.9 ------	$1.78	21-21.9 ------	$1.98
18-18.9 ------	1.83	22-22.9 ------	2.02
19-19.9 ------	1.88	23-23.9 ------	2.08
20-20.9 ------	1.93	24-24.9 ------	2.14

2. All provisions of Ceiling Price Regulation 32, except as inconsistent with the provisions of this order, shall remain in full force and effect as to the commodities covered by this order.

3. This order may be amended, modified, or revoked at any time by the Director of Price Stabilization.

Effective date. This special order shall become effective on July 9, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

[Docket No. 10228]

KEY BROADCASTING SYSTEM, INC. (WKBS)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re Application of Key Broadcasting System, Inc. (WKBS), Oyster Bay, New York, File No. BML-1502; Docket No. 10228, for modification of license.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 2d day of July 1952:

The Commission having under consideration the above-entitled application of Key Broadcasting System, Incorporated, for modification of the license for Station WKBS to change station location from Oyster Bay, New York to Oyster Bay, New York-Stamford, Connecticut;

It appearing, that Key Broadcasting Company, Inc. is legally, technically, financially, and otherwise qualified to operate Station WKBS as proposed, but that the proposed operation of WKBS may not comply with the requirements of the Commission rules and Standards of Good Engineering Practice with particular reference to the coverage of the city of Stamford, Connecticut.

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the application is designated for hearing, at a time and place to be specified by subsequent order, upon the following issue:

1. To determine whether the operation of Station WKBS as proposed would furnish satisfactory coverage to the city of Stamford, Connecticut, in compliance with § 3.30 of the Commission rules and related provisions of the Standards of Good Engineering Practice.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

MOUNTAIN STATES POWER CO.

NOTICE OF APPLICATION

JULY 8, 1952.

Take notice that on July 7, 1952, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by Mountain States Power Company, a corporation organized under the laws of the State of Delaware and doing business in the States of Idaho, Oregon, Montana, and Wyoming, with its principal business office at Albany, Oregon, seeking an order authorizing the issuance and sale of 200,000 shares of Common Stock, par value $7.25 per share, at competitive bidding by publicly inviting sealed written proposals for the purchase of all such shares. Applicant proposes to issue said Common Stock approximately 7 days after acceptable bid for same; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before the 22d day of July 1952, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[Docket No. G-1944]

FREDERICK GAS CO., INC.

ORDER DENYING REQUEST FOR SHORTENED PROCEDURE AND FIXING DATE OF HEARING

JULY 8, 1952.

On April 22, 1952, Frederick Gas Company, Inc. (Applicant), a Maryland corporation having its principal place of business in the City of Frederick, Maryland, filed an application for a certificate of convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural-gas pipeline facilities, all as more fully described in its application on file with the Commission and open to public inspection.

Due notice of filing such application has been given, including publication in the FEDERAL REGISTER on May 8, 1952 (17 F. R. 4248). Applicant has requested that its application be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)).

On May 20, 1952, the Washington Gas Light Company of Maryland, Inc., filed a petition to intervene in the above-entitled matter. No answer or protest has been filed by the Applicant. By separate order of this date, the petition of Washington Gas Light Company of Maryland, Inc., is being granted.

The Commission finds: This proceeding is not a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure.

The Commission orders:

(A) The request of Frederick Gas Company, Inc., that its application in Docket No. G-1944 be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)) be and the same is hereby denied.

(B) Pursuant to authority contained in and by virtue of the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a public hearing be held commencing on July 23, 1952, at 10:00 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by the application.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: July 8, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 52-7636; Filed, July 11, 1952; 8:50 a. m.]

[Docket No. G-1980]

NEW YORK STATE NATURAL GAS CORP.

NOTICE OF APPLICATION

JULY 8, 1952.

Take notice that New York State Natural Gas Corporation (Applicant), a New York corporation with its principal office in New York City, New York, filed on June 25, 1952, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of the following described natural-gas facilities:

(1) 20 miles of 16-inch pipeline (designated the "Driftwood Line") to extend from the southerly end of Applicant's Line No. 280 near the Leidy Compressor Station, Leidy Township, Clinton County, Pennsylvania, in a southwesterly direction to a point in or near the Driftwood Gas Field in Gibson Township, Cameron County, Pennsylvania.

(2) 75 miles of 20-inch pipeline (designated the "Driftwood-Valley Gate Line") to extend from the southerly end of the Driftwood line to a point in Valley Township, Armstrong County, Pennsylvania, known as Valley Gate, at which it will connect with Applicant's principal dual line transmission system.

(3) 970 feet of 20-inch pipeline to connect the Sabinsville Compressor Station with transmission lines No. 2, 4 and 34.

The application recites that the lines proposed constitute the major part of a new looping program and is intended to supersede a substantial part of a looping program authorized In the Matter of New York State Natural Gas Corporation, Docket No. G-1824. Applicant claims the proposed facilities will enable it to meet the estimated 1954 requirements of its customers. Additionally it is claimed that the proposed facilities will make available to Applicant prospective supplies of gas developed in the area traversed by the facilities.

The total over-all capital cost of the facilities described as estimated to be $5,332,506, which Applicant plans to finance by the sale of its securities to its parent, Consolidated Natural Gas Company.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10) on or before the 28th day of July 1952.

The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 52-7649; Filed, July 11, 1952; 8:52 a. m.]

[Docket No. G-1982]

TREASURE STATE PIPE LINE CO.

NOTICE OF APPLICATION

JULY 8, 1952.

Take notice that Treasure State Pipe Line Company (Applicant), a Montana corporation, address, Great Falls, Montana, filed on June 27, 1952, an application for permit pursuant to section 3 of the Natural Gas Act, authorizing the exportation of natural gas from the United States into the Dominion of Canada.

Applicant, a wholly owned subsidiary of Hard Rock Oil Co., proposes to export natural gas produced in the Cut Bank Field in Glacier and Toole Counties, in Montana, and purchased from its parent, Hard Rock Oil Company, into Canada for sale to Coutts Gas Company, Limited, to be resold and distributed in the town of Coutts, Alberta, Canada. Applicant proposes to install a valve connection and meter on its existing facilities at a point on the international boundary for the delivery of natural gas to Coutts Gas Company, Limited. Applicant states that the estimated total number of meter connections possible in the town of Coutts, Alberta is 95.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 28th day of July 1952. The application is on file with the Commission for public inspection.

[Docket No. G-1983]

TREASURE STATE PIPE LINE CO.

NOTICE OF APPLICATION

JULY 8, 1952.

Take notice that Treasure State Pipe Line Company (Applicant), a Montana Corporation, address, Great Falls, Montana filed, on June 27, 1952, an application for a Presidential Permit pursuant to Executive Order No. 8202, dated July 13, 1939, authorizing the construction, maintenance, operation, and connection at the international boundary of facilities for the exportation of natural gas from the United States into the Dominion of Canada.

Applicant, a wholly owned subsidiary of Hard Rock Oil Co., proposes to construct, maintain and operate a valve connection and meter at a point on its existing pipeline facilities along the international boundary where said facilities will connect with the distribution facilities of Coutts Gas Company, Limited, and at that point to sell and deliver natural gas produced in the Cut Bank Gas Field of Montana, for resale and distribution in the town of Coutts, Alberta, Canada. Applicant proposes to purchase the natural gas to be exported from its parent, Hard Rock Oil Co.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C. in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 28th day of July 1952. The application is on file with the Commission for public inspection.

Secretary.

[F. R. Doc. 52-7651; Filed, July 11, 1952; 8:53 a. m.]

[Docket No. G-1989]

MICHIGAN GAS STORAGE CO.

NOTICE OF APPLICATION

JULY 8, 1952.

Take notice that Michigan Gas Storage Company (Applicant), a Michigan corporation with its principal place of business at Jackson, Michigan, filed on June 30, 1952, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make charges against the following customers of Panhandle Eastern Pipe Line Company: (1) Battle Creek Gas Company, Battle Creek, Michigan; (2) Michigan Gas Utilities Company, Coldwater, Michigan; (3) Albion Gas Light Company, Albion, Michigan; (4) Southeastern Michigan Gas Company, Port Huron, Michigan; (5) Albion Malleable Iron Company, Albion, Michigan; (6) Michigan Seamless Tube Company, South Lyon, Michigan; (7) Mueller Brass Company, Port Huron, Michigan, and (8) Corning Glass Company, Albion, Michigan, for proportionate part of cost of operation of Applicant's Freedom Junction Compressor Station.

The application recites that Consumers Power Company now bears all compressor costs for all gas deliveries through the Freedom Junction Station of Applicant, and that since Consumers Power Company will continue to bear all compression costs for gas delivered through Freedom Station either (a) for storage company or (b) for delivery to Consumers Power Company it is proposed to eliminate charges to Consumers Power Company for compression costs involved in delivering gas to others by making a flat rate charge of 1.33 cents per Mcf of gas delivered through Freedom Station to or for the account of others than Applicant, or its requirements customer, Consumers Power Company. Applicant states it proposes to have made effective a proposed schedule of charges to be designated as Rate Schedule T-1 to apportion the entire actual cost of compression developed at Freedom Station among the various gas utilities and other customers of Panhandle benefiting therefrom.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10) on or before the 28th day of July 1952.

The application is on file with the Commission for public inspection.

[Project No. 2105]

PACIFIC GAS AND ELECTRIC CO.

NOTICE OF APPLICATION FOR LICENSE

JULY 8, 1952

Public notice is hereby given that Pacific Gas and Electric Company, of San Francisco, California, has made application for license pursuant to the provisions of the Federal Power Act (16 U. S. C. 791-825r) for a proposed hydroelectric project, designated as Project No. 2105, on North Fork Feather River and on Butt Creek, one of its tributaries, in Plumas County, California, and affecting lands of the United States in Plumas and Lassen National Forests. The proposed project, to be known as the Butt Valley—Caribou No. 2 Project, would consist of an intake structure each at Lake Almanor Reservoir (Intake No. 1A) and at Butt Valley Reservoir (Intake No. 2A); a pressure tunnel (Tunnel No. 1A) about 11,000 feet long from Lake Almanor Intake No. 1A to the Butt Valley Powerhouse penstock; a pressure tunnel (Tunnel No. 2A) about 9,200 feet long from Butt Valley Reservoir Intake No. 2A to Caribou No. 2 Powerhouse penstock; a penstock leading into each powerhouse; a surge tank for each conduit system; Butt Valley Powerhouse, at head of Butt Valley Reservoir, to house one vertical turbine-generator unit of 48,000 kva capacity; Caribou No. 2 Powerhouse, on right bank of North Fork of Feather River, to house two vertical turbine-generator units each of 63,000 kva capacity; a substation and switchyard at each powerhouse; one 220 kv transmission line about 8 miles long to extend from Butt Valley plant to the Caribou No. 2 plant; a short 220 kv tap line to extend from Caribou No. 2 Powerhouse to applicant's transmission system; miscellaneous hydraulic and electrical appurtenances and project works including a cross-connection, near Lake Almanor intakes, between existing pressure Tunnel No. 1 and proposed pressure Tunnel No. 1A, and a bypass pipe from pressure Tunnel No. 1A to Butt Creek.

Any protest against the approval of this application or request for any action thereon, with the reason for such protest or request, and the name and address of the party or parties so protesting or requesting, should be submitted on or before August 26, 1952, to the Federal Power Commission at Washington 25, D. C.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27208]

BRICK FROM GILCHRIST, ILL., TO SOUTHERN TERRITORY

APPLICATION FOR RELIEF

JULY 9, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. G. Raasch, Agent, for carriers parties to his tariff ICC No. 736.

Commodities involved: Brick and refractories and related articles, carloads.

From: Gilchrist, Ill.

To: Southern territory.

Grounds for relief: Competition with rail carriers, circuitous routes, to maintain grouping.

Schedules filed containing proposed rates: R. G. Raasch, Agent, ICC No. 736, supl. 7.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

ODELL & CO.

MEMORANDUM OPINION AND ORDER PERMITTING WITHDRAWAL OF REGISTRATION AND DISCONTINUING PROCEEDING

JULY 3, 1952.

In the matter of Herbert N. Odell d b a Odell & Co., 75 Federal Street, Boston, Massachusetts, and 57 Hyde Street, Newton Highlands, Massachusetts.

This is a proceeding under section 15 (b) of the Securities Exchange Act of 1934 ("the act") to determine whether the broker-dealer registration of Herbert N. Odell, doing business as Odell & Co., should be revoked.[1]

The proceeding was instituted by a notice and order for hearing which alleges that registrant violated section 17 (a) of the act and Rule X-17A-5 adopted thereunder in that he did not file with us the required reports of his financial condition.

A copy of the notice and order was sent by registered mail to 75 Federal Street, Boston, Massachusetts, the address designated in registrant's application for registration for the receipt of notices to him, and was also published in the FEDERAL REGISTER. The mailed copy was returned to us by the Post Office Department bearing the notation, "Unknown," and registrant did not appear at the scheduled hearing. However, subsequent thereto a representative of this Commission succeeded in communicating directly with him and advised him of the institution of these proceedings. Thereafter registrant by letter advised that he has not been engaged in the securities business since 1942 and requested that his registration be withdrawn.

Registrant's registration as a broker-dealer became effective January 1, 1936, and has not been withdrawn, cancelled, suspended or revoked. On November 28, 1942, we promulgated Rule X-17A-5 under section 17(a) of the act. That rule provides, among other things, that commencing January 1, 1943, every registered broker and dealer must file with this Commission during each calender year a report of his financial condition. Promulgation of the rule was announced by publication in the FEDERAL REGISTER, by release to the public press, and by distribution to the mailing list.

Registrant did not file the required reports in 1951 and in a number of preceding years. We find that by his failure to file such reports he willfully violated section 17 (a) of the act and Rule X-17A-5.[2] However, we do not consider that under the facts of the case revocation, rather than withdrawal of his registration, is in the public interest. While the withdrawal of registration after the institution of revocation proceedings is not a matter of right, it may be permitted in our discretion if it appears to us that such withdrawal would be consistent with the public interest and the protection of investors.[3] As noted, registrant has not been actively engaged in the securities business since 1942. Under these circumstances and in view of the nature of the violation we have found, we are of the opinion that the public interest and the protection of investors are adequately served by permitting withdrawal of registrant's broker-dealer registration.

Accordingly, it is ordered, Pursuant to section 15 (b) of the Securities Exchange Act of 1934, that withdrawal of the registration as a broker and dealer of Herbert N. Odell, doing business as Odell & Co., be and it hereby is permitted to become effective forthwith, and that this proceeding under section 15 (b) of the act be and it hereby is discontinued.

By the Commission (Chairman Cook and Commissioners McEntire and Adams, Commissioner Rowen being absent and not participating).

[SEAL] NELLYE A. THORSEN,
Assistant Secretary.

BOSTON STOCK EXCHANGE

NOTICE OF PROPOSAL TO DECLARE EFFECTIVE PLAN FILED FOR DISPOSAL OF CERTAIN DOCUMENTS

Notice is hereby given that the Securities and Exchange Commission has under consideration a plan filed on June 30, 1952, by the Boston Stock Exchange pursuant to § 240.17a-6 (Rule X-17A-6) under the Securities Exchange Act of 1934 for the disposal of all applications, reports and documents filed with that Exchange prior to January 1, 1947, pursuant to sections 12, 13, 14, and 16 of the Securities Exchange Act of 1934, or any rule or regulation promulgated by the Commission pursuant to any of such sections; except that the Exchange proposes to keep on file for an indefinite period the original applications for registration under the Securities Exchange Act of 1934. The Exchange intends to commence disposing of the specified material as soon as practicable after the Commission has declared its plan effective. The plan also contemplates that thereafter, as soon as practicable after January 1st of each year, regular disposition will be made of similar material which has been on file with the Exchange more than five years.

Information contained in the material proposed to be disposed of pursuant to the plan of the Boston Stock Exchange is on file with the Commission where it will continue to be available.

The Securities and Exchange Commission proposes to declare the plan of the Boston Stock Exchange effective on condition that if at any time it appears to the Commission necessary or appropriate in the public interest or for the protection of investors so to do, the Commission may suspend or terminate the effectiveness of said plan by sending at least ten days' written notice to the Exchange.

These proposals are made pursuant to the provisions of the Securities Exchange Act of 1934, particularly sections

[1] Section 15 (b) provides in part: "The Commission shall, after appropriate notice and opportunity for hearing, by order * * * revoke the registration of any broker or dealer if its finds that such * * * revocation is in the public interest and that (1) such broker or dealer * * * (D) has willfully violated any provision of the Securities Act of 1933, as amended, or of this title, or of any rule or regulation thereunder * * * Any registered broker or dealer may, upon such terms and conditions as the Commission may deem necessary in the public interest or for the protection of investors, withdraw from registration by filing a written notice of withdrawal with the Commission."

[2] See Sidney Ascher, Securities Exchange Act Release No. 4474 (July 27, 1950); Henry Leach, Securities Exchange Act Release No. 3877 (November 7, 1946).

[3] Monroe Marks, 9 S. E. C. 659 (1941); Henry Leach, *supra*, note 1.

17 (a), 23 (a), and 24 (b) thereof and Rule X-17A-6 thereunder. All interested persons are invited to submit their views and comments in writing to the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., on or before July 28, 1952.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

UNITED STATES TARIFF COMMISSION

[Investigation 4]

EDIBLE TREE NUTS

NOTICE OF EXTENSION OF SCOPE OF HEARING

Public notice of extension of scope of public hearing ordered for July 28, 1952 on edible tree nuts.

Investigation No. 4 under section 22 of the Agricultural Adjustment Act, as amended.

On June 19, 1952, the United States Tariff Commission ordered a public hearing in the above-entitled investigation for the purpose of receiving information and views from interested parties as to programs of the United States Department of Agriculture which will be in operation for the crop year 1952–53 with respect to almonds, filberts, walnuts, or pecans, and on the question as to what action, if any, should be taken under section 22 with respect to imports of almonds, filberts, walnuts, Brazil nuts, or cashews (17 F. R. 5711).

As was indicated in the above-mentioned announcement, a Presidential proclamation was issued on December 10, 1951 giving effect to the Commission's recommendation for the imposition of a fee, in addition to the duties imposed under the Tariff Act of 1930, of 10 cents per pound on imports of shelled almonds, and blanched, roasted, or otherwise prepared or preserved almonds entered, or withdrawn from warehouse, for consumption during the period October 1, 1951 to September 30, 1952, inclusive, in excess of an aggregate quantity of 4,500,000 pounds, provided that not more than 500,000 pounds of this fee-free quota may consist of blanched, roasted, or otherwise prepared or preserved almonds.

The Commission has received a request from the Imported Nut Section, Association of Food Distributors, Incorporated, dated June 16, 1952, for the modification of the existing proclamation to remove the limitation therein on the quantity of prepared almonds which may be included in the fee-free aggregate quota of 4,500,000 pounds. In view of this request, the Commission on July 7, 1952, ordered that, at the hearing scheduled for July 28, 1952, it will receive the views of interested parties on the question of whether any change should be made in the 500,000-pound limitation on blanched, roasted, or otherwise prepared or preserved almonds which may be included in the fee-free aggregate quota of 4,500,000 pounds for the year ending September 30, 1952, provided for in the President's proclamation of December 10, 1951.

The request of the Imported Nut Section, Association of Food Distributors, Inc., is available for public inspection at the office of the Secretary, United States Tariff Commission, Washington, D. C., and in the New York office of the Tariff Commission located in Room 437 of the Customhouse, where it may be read and copied by persons interested.

I hereby certify that the above extension of the scope of hearing was ordered by the United States Tariff Commission on the 7th day of July 1952.

Issued: July 9, 1952.

[SEAL] DONN N. BENT, *Secretary.*

In re: Estate of Gesine Eggers, deceased. File No. D-28-1895.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Gesche Bischoff, Meta Wilkens, Henrich Wilkens and Gesine Wilkens, his wife, and Marie Ringen, whose last known address is Germany, on or since December 11, 1941 and prior to January 1, 1947, were residents of Germany and are, and prior to January 1, 1947 were, nationals of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraph 1 hereof, and each of them, in and to the trust created under the will of Gesine Eggers, deceased, is property which is and prior to January 1, 1947 was within the United States, owned or controlled by, payable or deliverable to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

3. That such property is in the process of administration by Raymond Reisler, Trustee, acting under the judicial supervision of the Surrogate's Court of Kings County, New York;

and it is hereby determined:

4. That the national interest of the United States requires that such persons be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 8, 1952.

For the Attorney General.

[SEAL] PAUL V. MYRON, *Deputy Director, Office of Alien Property.*

[Vesting Order 18944]

FRAU MARIE HOFMANN

In re: Stock owned by Frau Marie Hofmann, also known as Frau Marie Hell Hofmann. F-28-22096.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Frau Marie Hofmann, also known as Frau Marie Hell Hofmann, whose last known address is Munchen, Germany, on or since December 11, 1941, and prior to January 1, 1947, was a resident of Germany and is, and prior to January 1, 1947 was, a national of a designated enemy country (Germany);

2. That the property described as follows: Ten (10) shares of Class B stock of American Bemberg Corporation, New York City, evidenced by a certificate numbered CB4001, registered in the name of and presently in the custody of Kidder, Peabody & Co., 17 Wall Street, New York, New York, in an account in the name of "Messrs. Gebruder Bethman, Frankfurt A M, Germany", together with all declared and unpaid dividends thereon, and any and all rights of exchange thereunder,

subject to any lien against, or other security interest in the aforesaid property held by Kidder, Peabody & Co., is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Frau Marie Hofmann, also known as Frau Marie Hell Hofmann, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the person identified in subparagraph 1 hereof be treated as a person who is and prior to

January 1, 1947, was a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 8, 1952.

For the Attorney General.

[SEAL] PAUL V. MYRON, *Deputy Director, Office of Alien Property.*

[Vesting Order 18945]

HOUSING AND REALTY IMPROVEMENT CO.

In re: Bank accounts owned by Housing and Realty Improvement Company, Berlin, also known as Wohnhaus-Grundstücks-Verwertungs-Aktiengesellschaft AM Lehniner Platz. F-28-6541; A-1

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Housing and Realty Improvement Company, Berlin, also known as Wohnhaus-Grundstücks-Verwertungs-Aktiengesellschaft AM Lehniner Platz, the last known address of which is 59 Cicerostrasse, Berlin, Germany, is a corporation, partnership, association or other business organization which on or since December 11, 1941, and prior to January 1, 1947, was organized under the laws of and had its principal place of business in Germany and is, and prior to January 1, 1947 was, a national of a designated enemy country (Germany);

2. That the property described as follows:

a. That certain debt or other obligation of J. & W. Seligman & Co., 65 Broadway, New York 6, New York, in the amount of $507.50, as of August 14, 1951, arising out of funds held by the aforesaid J. & W. Seligman & Co., as Fiscal Agent, for payment of coupons, maturing on May 15, 1931, November 15, 1932, May 15, 1933 and November 15, 1933, detached from and or appurtenant to the Housing and Realty Improvement Company, Berlin, First (Closed) Mortgage Twenty Year Sinking Fund 7 Percent Gold Bonds, due November 15, 1946, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same, less all lawful charges, by the said J. & W. Seligman & Co., against the said account, accrued or made and heretofore or hereafter licensed under Executive Order 8389, as amended,

b. That certain debt or other obligation of J. & W. Seligman & Co., 65 Broadway, New York 6, New York, in the amount of $383.25, as of August 14, 1951, arising out of funds held by the aforesaid J. & W. Seligman & Co., as Fiscal Agent, for payment of coupons, maturing on May 15, 1934, detached from and or appurtenant to the Housing and Realty Improvement Company, Berlin, First (Closed) Mortgage Twenty Year Sinking Fund 7 Percent Gold Bonds, due November 15, 1946, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same, less all lawful charges, by the said J. & W. Seligman & Co., against the said account, accrued or made and heretofore or hereafter licensed under Executive Order 8389, as amended,

c. That certain debt or other obligation of J. & W. Seligman & Co., 65 Broadway, New York 6, New York, in the amount of $27,852.75, as of August 14, 1951, arising out of funds held by the aforesaid J. & W. Seligman & Co., as Fiscal Agent, in a Reserve Fund account, entitled Housing and Realty Improvement Company, Berlin, First (Closed) Mortgage Twenty Year Sinking Fund 7 Percent Gold Bonds, due November 15, 1946, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same, less all lawful charges, by the said J. & W. Seligman & Co., against the said account, accrued or made and heretofore or hereafter licensed under Executive Order 8389, as amended,

d. That certain debt or other obligation of J. & W. Seligman & Co., 65 Broadway, New York 6, New York, in the amount of $94.46, as of August 14, 1951, arising out of funds held by the aforesaid J. & W. Seligman & Co., as Fiscal Agent, in a redemption account, entitled Housing and Realty Improvement Company, Berlin, First (Closed) Mortgage Twenty Year Sinking Fund 7 Percent Gold Bonds, due November 15, 1946, together with any and all accruals thereto and any and all rights to demand, enforce and collect the same, less all lawful charges, by the said J. & W. Seligman & Co., against the said account, accrued or made and heretofore or hereafter licensed under Executive Order 8389, as amended, and

e. Those certain debts or other obligations of J. & W. Seligman & Co., 65 Broadway, New York 6, New York, in the respective amounts of $1.25 and $4.57, as of August 14, 1951, arising out of funds held by the aforesaid J. & W. Seligman & Co., as Fiscal Agent, in a coupon and general account respectively, entitled Housing and Realty Improvement Company, Berlin, First (Closed) Mortgage Twenty Year Sinking Fund 7 Percent Gold Bonds, due November 15, 1946, together with any and all accruals thereto, and all lawful charges, by the said J. & W. Seligman & Co., against the said account, accrued or made and heretofore or hereafter licensed under Executive Order 8389, as amended,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Housing and Realty Improvement Company, Berlin, also known as Wohnhaus-Grundstücks-Verwertungs-Aktiengesellschaft AM Lehniner Platz, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the person identified in subparagraph 1 hereof, be treated as a person who is and prior to January 1, 1947, was a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 8, 1952.

For the Attorney General.

of the things listed in the preceding prohibitions (1) to (10), the causing or doing of which is forbidden in the instant order through action of respondent Malleable Chain Manufacturers Institute, or any subdivision or committee of said Institute, or any other individual, corporation, or organization; prohibited, subject to the provision, however, that nothing contained in the order shall be construed as prohibiting the establishment or maintenance of any lawful bona fide agreements, discussions, or other action solely between any corporate respondent and its directors, officers and employees, or between the officers, directors, agents or employees of any corporate respondent and relating solely to the carrying on of that corporation's sole and separate business, or between any corporate respondent and any of its wholly-owned subsidiaries, when not for the purpose or with the effect of restraining trade and when for the purpose and effect of promoting competition.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Malleable Chain Manufacturers Institute, Chicago, Ill., Docket 5657, April 10, 1952]

In the Matter of Malleable Chain Manufacturers Institute, an Unincorporated Trade Association, Its Officers, A. C. Fellinger, Chairman; L. E. Brill, Vice Chairman; Mark Patterson, Secretary; Gorton Fauntleroy, Treasurer; and Their Successors; Link-Belt Company, The Jeffrey Manufacturing Company, Chain Belt Company, Webster Manufacturing Company, Inc., Badger Malleable & Manufacturing Company, Peoria Malleable & Castings Company, Moline Malleable Iron Company, Deere & Company, Trading as Union Malleable Iron Works of Deere & Company, Corporations, Their Officers and Directors

This proceeding was instituted by complaint, which charged respondents with the use of unfair methods of competition and unfair or deceptive acts and practices in violation of the provisions of section 5 of the Federal Trade Commission Act.

It was disposed of, as announced by the Commission's "Notice" of acceptance of consent settlement, through the consent settlement procedure provided in Rule V of the Commission's rules of practice as follows:

The consent settlement tendered by the parties in this proceeding, a copy of which is served herewith, was accepted by the Commission on April 10, 1952, and ordered entered of record as the Commission's findings as to the facts, conclusion, and order in disposition of this proceeding.

The time for filing report of compliance pursuant to the aforesaid order runs from the date of service hereof.

Said order to cease and desist, thus entered of record, following the findings as to the facts[1] and conclusions,[1] reads as follows:

It is ordered, That respondents, Malleable Chain Manufacturers Institute, an unincorporated trade association, its directors, its officers, and its members; the members of its Classification Committee, the members of its Factors Committee, the members of its Committee on List Prices, or the members of any other Committee or Committees, however named, designated, or described, the purpose, function, or operation of which is to do any of the acts or things which are prohibited by the terms of this order; A. C. Fellinger, L. E. Brill, Mark Patterson, Gorton Fauntleroy, individually or as officers of respondent Institute, and Link-Belt Company, The Jeffrey Manufacturing Company, Chain Belt Company, Webster Manufacturing, Inc., referred to in the complaint as Webster Manufacturing Company, Inc., Badger Malleable and Manufacturing Company, Peoria Malleable Castings Company, Moline Malleable Iron Company, Deere & Company, trading as Union Malleable Iron Works of Deere & Company, corporations, and their respective officers, representatives, agents and employees, in, or in connection with, the offering for sale, sale and distribution of malleable iron chain in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from entering into, continuing, cooperating in, or carrying out any planned common course of action, understanding, agreement, combination or conspiracy between any two or more of said respondents, or between any one or more of said respondents and another or others not parties hereto, to do or perform any of the following things:

1. Quoting or selling at prices calculated or determined pursuant to, or in accordance with, any zone delivered price system; or quoting or selling at prices calculated or determined pursuant to, or in accordance with, any other system or formula which produces identical price quotations or prices, or which prevents purchasers from finding any advantages in price in dealing with one or more of the respondents as against any of the other respondents;

2. Establishing, fixing, or maintaining prices, discounts, terms or conditions of sale or adhering to any prices, discounts, terms or conditions of sale;

3. Formulating, devising, adopting or using uniform list prices or uniform delivered prices for malleable iron chain;

4. Establishing or maintaining geographical areas of zones wherein purchasers are quoted uniform prices, discounts or terms of sale;

5. Establishing or maintaining price differentials or discount differentials between different geographical areas;

6. Filing, exchanging, distributing, or relaying among the corporate respondents, or any of them, or any of their representatives, or through respondent Malleable Chain Manufacturers Institute, or through any other medium or central agency, price information showing current or future prices or conditions of sale of any particular respondent, or bid or price quotation submitted or to be submitted on any prospective piece of business, other than in particular single transactions involving the sale of malleable iron chain by one corporate respondent to another corporate respondent where neither the price to be charged by either respondent to the ultimate customer, nor the identity of such customer, is specified;

7. Filing, exchanging, distributing or relaying among the corporate respondents, or any of them or any of their representatives, or through respondent Malleable Chain Manufacturers Institute, or through any other medium, central agency or publication, information concerning prices charged particular customers or information concerning volume of production, sales or shipments where the identity of the purchaser can be determined from such information and which has the capacity or tendency of aiding in securing compliance with announced prices, terms, or conditions of sale;

8. Collecting, compiling, circulating or exchanging between or among respondents or any of them rates or transportation charges used or to be used in computing prices or price quotations; or using, directly or indirectly, any such information so collected, compiled, or received, in computing price quotations;

9. Adopting, using, or in any way following any price quotations announced by particular respondents, or any of them, whereby quotations are made uniform or matched;

10. Establishing standards or specifications when the action taken or information exchanged is for the purpose of fixing or maintaining prices or has the tendency to fix or maintain prices or otherwise secure compliance with announced prices, terms, or conditions of sale;

11. Doing or causing any of the things listed in the preceding paragraphs (1) to (10) and the doing of which is forbidden in this order through action of respondent Malleable Chain Manufacturers Institute, or any subdivision or committee of said Institute, or any other individual, corporation or organization;

Provided, however, That nothing contained in this order shall be construed as prohibiting the establishment or maintenance of any lawful bona fide agreements, discussions, or other action solely between any corporate respondent and its directors, officers and employees, or between the officers, directors, agents or employees of any corporate respondent and relating solely to the carrying on of that corporation's sole and separate business, or between any corporate respondent and any of its wholly-owned subsidiaries, when not for the purpose or with the effect of restraining trade and when for the purpose and effect of promoting competition.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

Issued: April 23, 1952.

By direction of the Commission.

[SEAL] D. C. DANIEL, *Secretary.*

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

Subchapter C—Office of International Trade

[6th General Rev. of Export Regs.]

REVISION OF EXPORT REGULATIONS

Introductory statement and explanations. The purpose of this Sixth General Revision is to codify the regulations relating to the control of exports continued or issued under the authority of the Export Control Law of 1949, Public Law 11, 81st Congress, 63 Stat. 7, as extended by Public Law 33, 82d Congress, 65 Stat. 43. This revision supersedes the Fifth General Revision of Export Regulations issued May 9, 1950, published in 15 F. R. 2703 et seq., as amended by Amendments No. 1 through 113, and Amendments P. L. No. 1 through 90, with the exception of saving clauses which may still be operative contained in any such amendments. The export control regulations are also published in the Comprehensive Export Schedule and Current Export Bulletins issued by the Office of International Trade. The Comprehensive Export Schedule, issued March 31, 1952, and the Current Export Bulletins No. 663 to 669, contain the regulations included in this revision.

In making this revision, certain obsolete provisions of the export regulations have been deleted, minor revisions have been made in the text, and other material of the regulations for the purpose of clarification.

Copies of all forms required by the export regulations are filed with the Division of the Federal Register.

Part
370 Scope of export control by Department of Commerce.
371 General licenses.
372 Provisions for individual and other validated licenses.
373 Licensing policies and related special provisions.
374 Project licenses.
375 BLT (Blanket) license.
376-378 [Reserved.]
379 Export clearance.
380 Amendments, extensions, transfers.
381 Enforcement provisions.
382 Denial or suspension of export privileges.
383 Appeals.
384 General orders.
385-397 [Reserved.]
398 Priority ratings and supply assistance.
399 Positive List of Commodities and related matters.

PART 370—SCOPE OF EXPORT CONTROL BY DEPARTMENT OF COMMERCE

Sec.
370.1 Definitions.
370.2 Prohibited exportations.
370.3 Shipments to Canada for reexportation to another foreign country.
370.4 Deleted, effective August 3, 1950.
370.5 Arms, ammunition, and implements of war; helium.
370.6 Gold and narcotics.
370.7 Exportation of commodities subject to Atomic Energy Act.
370.7a Vessels, other than vessels of war.
370.8 Shipments to territories, dependencies, and possessions of the United States.
370.9 In-transit shipments without unloading.
370.10 Shipments entering foreign trade zones.
370.11 Reexportation under license previously granted.

AUTHORITY: §§ 370.1 to 370.11 issued under 63 Stat. 7, as amended; 50 U. S. C. App., 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245; 3 CFR 1945 Supp., E. O. 9919, Jan. 3, 1948, 13 F. R. 59; 3 CFR 1948 Supp.

§ 370.1 *Definitions.* When used in Parts 370 to 399, inclusive, of this subchapter:

(a) *Person.* "Person" shall be construed to mean the singular or plural, an individual, corporation, partnership, association, company, or any other kind of organization whatsoever, including any government or agency thereof.

(b) *The United States.* "The United States" shall, unless otherwise specifically stated, be construed to include the District of Columbia, the Canal Zone, and all territories, dependencies, and possessions of the United States.

(c) *Export control law.* "Export control law" means Export Control Act of 1949 and includes section 6 of the act of July 2, 1940, 54 Stat. 714, as amended.

(d) *Department of Commerce.* "The Department of Commerce" shall be construed to refer to and include the Office of International Trade of the Department of Commerce.

(e) *Schedule B numbers.* "Department of Commerce Schedule B numbers" is defined as numbers so designated, appearing in the Department of Commerce publication, "Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States," issued January 1, 1949.

(f) *Commodity.* "Commodity" means any article, material, or supply except technical data.

(g) *Positive List of Commodities.* "Positive List of Commodities" means the list of commodities incorporated in § 399.1 of this subchapter.

"RO commodities" means commodities included on the Positive List of Commodities and identified by the symbol "RO" in the column headed "Validated License Required."

"R commodities" means commodities included on the Positive List of Commodities and identified by the symbol "R" in the column headed "Validated License Required."

(h) *Validated license.* "Validated license" means an individual or other type of export license or any other document authorizing exportation, granted or issued by or under the authority of the Department of Commerce. The term also includes the phrase "licenses granted or issued upon application" and words of similar import and, unless the context otherwise indicates, the phrase "export license."

(i) *License application.* "Application for license" and "license application" and words of similar import mean an application for a validated license.

(j) *General license.* "General license" means a license established by the Department of Commerce for which no application is required and for which no document is granted or issued, available for use by all persons, permitting exportation within the provisions thereof as prescribed in Parts 370 and 399, inclusive, of this subchapter.

(k) *Port of Exit; Collector of Customs; Export Declaration.* "Port of exit" includes, in the case of an exportation by mail, the place of mailing; "Collector of Customs" includes postmasters unless the context otherwise indicates; and "Shipper's Export Declaration" includes any declaration required under regulations of the Department of Commerce and other Government departments or agencies in connection with exportations.

(l) *Exporting carrier.* "Exporting carrier" includes any instrumentality of water, land, or air transportation by which an exportation is effected.

(m) *Consignee.* "Consignee" includes ultimate consignee or purchaser.

(n) *Accepted order.* "Accepted order" means an accepted order for export as described in § 373.1 (b) of this subchapter and includes, when accepted, an order of the kind described in § 372.1 (e) of this subchapter.

(o) *Export control document.* "Export control document" means a validated export license, an authenticated shipper's export declaration based upon such a license or used to effect a shipment under general license, a dock receipt or bill of lading issued by any carrier upon the basis of such validated license or export declaration, or any other document provided under these regulations to be evidence of the existence of an export license for the purpose of loading onto an exporting carrier or otherwise facilitating or effecting an exportation from the United States of any commodity or commodities requiring an export license.

"Export control document" also means the following documents: Customs Form 3139, Application for Identification Card of Authorized Forwarding Agent or Exporter; Customs Form 3141, Identification Card of Authorized Forwarding Agent or Exporter or Employee Thereof; and Customs Form 7512, Transportation Entry and Manifest of Goods Subject to Customs Inspection and Permit when used for Transportation and Exportation (T. & E.) or an Immediate Exportation entry (I. E.).

(p) *Parties.* "Parties" in connection with any export control document and any exportation means (1) the licensee named in the export control document (identified in shipper's export declaration forms as "principal or seller"), who shall be the exporter; (2) the purchaser or ultimate consignee named in the export control document, who (i) shall be the person to whom the licensee is authorized to export, whether by sale, consignment or otherwise, and (ii) shall be situated in the country of ultimate destination named in the same document; and (3) the intermediate consignee named in the export control document (also identified in Form IT-419), to whom the commodities may be consigned for the purpose of effecting delivery to the purchaser or ultimate consignee.

§ 370.2 *Prohibited exportations—(a) General provisions.* The exportation from the United States of all commodities and the exportation from the United States of all technical data as defined in § 371.19 of this subchapter, except to Canada (including Newfoundland and Labrador) or for the official use of or consumption by the United States armed forces when shipped by or consigned to any branch thereof, is hereby prohibited unless and until a license authorizing such exportation shall have been established or granted by the Department of Commerce.

NOTE: Export licenses or authority for export are not required from the Department of Commerce for exportation of arms, ammunition, implements of war or helium exported pursuant to authority of the Department of State; gold or narcotics exported pursuant to authority of the Treasury Department; or source material or facilities for the production of fissionable material exported pursuant to authority from the Atomic Energy Commission. Exports of vessels, other than vessels of war, are subject to the authority of the U. S. Maritime Administration.

(b) *Positive List of Commodities.* The commodities set forth on the Positive List of Commodities (incorporated in § 399.1 of this subchapter) may not be exported from the United States to any destination unless and until a license authorizing the exportation shall have been applied for and granted or issued by the Department of Commerce, except where exportation of such commodities is authorized by the provisions of an established general license, as set forth in Part 371 of this subchapter, and except where authorized with respect to certain commodities by the provisions of a footnote on the Positive List of Commodities, and where not subject as provided in paragraph (a) of this section to the general prohibition set forth therein.

NOTE: RO commodities require validated licenses for export to all destinations except Canada. R commodities require validated licenses for export to destinations in Country Group R only. (See § 371.3 of this subchapter for definition of Country Groups O and R.)

Where the commodity description of a Schedule B number on the Positive List mentions only a part of the commodities covered by the Schedule B listing, only the commodity or commodities specifically mentioned are included on the Positive List. (For an example, refer to Part 399 of this subchapter, paragraph (a) of the General Notes to Appendix A.)

§ 370.3 *Shipments to Canada for reexportation to another foreign country.* The exportation from the United States of all commodities and all technical data as defined in § 371.19 of this subchapter to Canada (including Newfoundland and Labrador) with the knowledge or intention that they are to be reexported therefrom to another foreign destination is hereby prohibited unless there has been established or granted upon application a license authorizing the exportation thereof to the country of ultimate destination.

§ 370.4 *Prohibited exportations to certain consignees.* [Deleted, effective August 3, 1950.]

§ 370.5 *Arms, ammunition, and implements of war; helium.* Regulations promulgated by the Secretary of State on June 2, 1942 (7 F. R. 4216 et seq.), shall continue to govern the exportation of arms, ammunition, and implements of war, and helium, except that no export license shall be issued where the proposed exportation would be contrary to the foreign policy of the United States.

NOTE: 1. *Arms, ammunition, and implements of war.* (a) Regulations concerning the exportation of arms, ammunition, and implements of war are published in the document "International Traffic in Arms." Copies of this publication are furnished by the Department of State upon request.

(b) An application to export any of the following articles, which are listed in Proclamation 2776, effective April 15, 1948, should be made on the license form obtainable from the Department of State.

(c) Any inquiries as to the applicability of Proclamation 2776 to certain articles or commodities, application forms and procedure, or other matters relative to arms, ammunition, and implements of war should be addressed to the Munitions Division, Department of State, Washington 25, D. C.

CATEGORY I—SMALL ARMS AND MACHINE GUNS

Rifles, carbines, revolvers, pistols, machine pistols, and machine guns (using ammunition of caliber .22 or over); barrels, mounts, breech mechanisms and stocks therefor.

CATEGORY II—ARTILLERY AND PROJECTORS

Guns, howitzers, cannon, mortars, and rocket launchers (of all calibers), military flame throwers, military smoke, gas, or pyrotechnic projectors; barrels, mounts, and other components thereof.

CATEGORY III—AMMUNITION

Ammunition of caliber .22 or over for the arms enumerated under I and II above; cartridge cases, powder bags, bullets, jackets, cores, shells (excluding shotgun); projectiles and other missiles; percussion caps, fuses, primers, and other detonating devices for such ammunition.

CATEGORY IV—BOMBS, TORPEDOES AND ROCKETS

Bombs, torpedoes, grenades, rockets, mines, guided missiles, depth charges, and components thereof; apparatus and devices for the handling, control, discharge, detonation or detection thereof.

CATEGORY V—FIRE CONTROL EQUIPMENT AND RANGE FINDERS

Fire control equipment, range, position, and height finders, spotting instruments, aiming devices (gyroscopic, optic, acoustic, atmospheric or flash), bomb sights, gun sights, and periscopes for the arms, ammunition, and implements of war enumerated in this proclamation.

CATEGORY VI—TANKS AND ORDNANCE VEHICLES

Tanks, armed or armored vehicles, armored trains, artillery and small arms repair trucks, military half tracks, tank recovery vehicles, tank destroyers; armor plate turrets, tank engines, tank tread shoes, tank bogie wheels and idlers therefor.

CATEGORY VII—POISON GASES AND TOXICOLOGICAL AGENTS

All military toxicological and lethal agents and gases; military equipment for the dissemination and detection thereof and defense therefrom.

CATEGORY VIII—PROPELLANTS AND EXPLOSIVES

Propellants for the articles enumerated in Categories III, IV, and VII; military high explosives.

CATEGORY IX—VESSELS OF WAR

Vessels of war of all kinds, including amphibious craft, landing craft, naval tenders, naval transports and naval patrol craft, armor plate and turrets therefor, submarine batteries and nets, and equipment for the laying, detection, and detonation of mines.

CATEGORY X—AIRCRAFT

Aircraft; components, parts and accessories therefor.

CATEGORY XI—MISCELLANEOUS EQUIPMENT

(a) Military radar equipment, including components thereof, radar countermeasures and radar jamming equipment; (b) military stereoscopic plotting and photo interpretation equipment; (c) military photo theodolites, telemetering, and Doeppler equipment; (d) military super-high speed ballistic cameras; (e) military radiosondes; (f) military interference suppression equipment; (g) military electronic computing devices; (h) military miniature and subminiature vacuum tubes and photoemissive tubes; (i) military armor plate; (j) military steel helmets; (k) military pyrotechnics; (l) synthetic training devices for military equipment; (m) military ultrasonic generators; (n) all other material used in warfare which is classified from the standpoint of military security.

2. *Helium gas—(a) General regulations.* Regulations governing the exportation of helium gas may be found in the document "International Traffic in Arms," published by the Department of State.

(b) *Legislative authority.* Helium gas is licensed for export under the authority of the act of September 1, 1937. Application blanks for the exportation of this commodity are also furnished by the Munitions Division, Department of State.

§ 370.6 *Gold and narcotics—(a) Gold.* The gold regulations promulgated by the Secretary of the Treasury under the authority of the Gold Reserve Act of 1934 (31 CFR Part 54), as amended, shall govern the exportation of gold except that the exportation of fabricated gold (as defined in said regulations, except dental gold) of which not more than 80 percent of the total domestic value is attributable to the gold content thereof shall also be subject to Parts 370 to 399, inclusive, of this subchapter.

NOTE: The exportation of "fabricated gold," as defined in the Gold Regulations issued by the Treasury Department (sec. 54.4) under the Gold Reserve Act of 1934, is controlled by the Department of Commerce under an arrangement with the Treasury Department. All "fabricated gold" commodities which are not included on the Positive List may be exported to any destination, except Subgroup A destinations, Hong Kong, and Macao, under Department of Commerce general license *GRO.* (See § 371.8 of this subchapter.) For the export of any gold other than "fabricated gold," an application for a license to export must be filed with the Treasury Department.

Exporters are cautioned that "semi-processed gold" (as defined by the Gold Regulations) presented for export as "fabricated gold" is subject to seizure.

(b) *Narcotics.* The regulations contained in Parts 370 to 399, inclusive, of this subchapter shall not govern the exportation of narcotic drugs and marihuana subject to the Narcotics Drugs Import and Export Act (21 U. S. C. 171 et seq.) and Marihuana Tax Act of 1937 (26 U. S. C. 2590, 3230 et seq.), as amended, respectively, and regulations promulgated thereunder, administered by the Treasury Department, Bureau of Narcotics.

NOTE: Under the provisions of the Narcotics Drugs Import and Export Act, as amended, and the federal marihuana law, the authority to control exports and imports of narcotic drugs, which are listed below, is vested in the Treasury Department, Bureau of Narcotics:

(1) Opium and its derivatives.
(2) Coca leaves and their derivatives.
(3) Marihuana or cannabis.
(4) Isonipecaine (Demerol).
(5) Amidone or Methadon (Adanon and Dolophine—trade names).
(6) Any medicine or preparation containing any quantity of the foregoing drugs or their derivatives.

§ 370.7 *Exportation of commodities subject to Atomic Energy Act.* Regulations promulgated by the Atomic Energy Commission under the authority of the Atomic Energy Act of 1946 (11 CFR Parts 40 and 50), or as the same may be amended from time to time, shall govern the exportation of "source material" and "facilities for the production of fissionable material" as defined and described in said act and regulations.

NOTE: 1. *Definitions*—(a) *Source materials.* As used in the Atomic Energy Act of 1946, the term "source material" means uranium, thorium, or any other material which is determined by the Commission, with the approval of the President to be peculiarly essential to the production of fissionable materials; but includes ores only if they contain one or more of the foregoing materials in such concentration as the Commission may by regulation determine from time to time. On March 17, 1947, in the regulations cited, the Atomic Energy Commission defined "source material" to mean any material, except fissionable material, which contains by weight one-twentieth of one percent (0.05%) or more of (1) uranium, (2) thorium, or (3) any combination thereof.

(b) *Facilities for the production of fissionable material.* As defined in the Atomic Energy Act of 1946, the term "facilities for the production of fissionable material" is to be construed to mean (1) any equipment or device capable of such production and (2) any important component part especially designed for such equipment or devices as determined by the Commission. Such facilities are classified as either Class I or Class II facilities in the regulations cited and are listed therein.

2. *License applications.* Applications for license to export source materials and facilities for the production of fissionable material should be made directly to the United States Atomic Energy Commission in the manner prescribed in the regulations cited. Copies of the regulations, together with forms and instructions for making license applications, may be obtained from the following addresses:

For source materials (Part 40):

U. S. Atomic Energy Commission,
P. O. Box 30, Ansonia Station,
New York 23, N. Y.

For facilities for the production of fissionable material (Part 50):

U. S. Atomic Energy Commission,
Attention: Director of Production,
Washington 25, D. C.

§ 370.7a *Vessels, other than vessels of war.* The export of vessels, other than vessels of war, shall be governed under authority of Sections 9 and 37 of the Shipping Act, 1916, as amended (46 CFR Part 221), by the U. S. Maritime Administration.

§ 370.8 *Shipments to territories, dependencies, and possessions of the United States*—(a) *Territories, dependencies, possessions.* No license is required for shipments from the United States to any territory, dependency, or possession of the United States, as listed in Schedule C of the Bureau of the Census (see page x of Schedule B).

(b) *Trust Territory of the Pacific Islands.* For the purpose of export control, the Trust Territory of the Pacific Islands (i. e., the Caroline Islands, the Marshall Islands, and the Marianas Islands, except Guam, which is an island possession of the United States) shall be accorded the same treatment as the territories and possessions of the United States and, accordingly, an export license is not required for shipments of commodities thereto.

§ 370.9 *In-transit shipments without unloading.* Commodities shipped by vessel from one foreign country and passing through the United States in transit to another foreign country may be exported without a license from the Department of Commerce: *Provided*, That, while in waters subject to the jurisdiction of the United States, they have not been unladen from the vessel on which they entered such waters, and: *Provided further*, That they are not originally manifested to the United States.

NOTE: Any commodity which is excepted from the provisions of General In-Transit License GIT (§ 371.9 (c) of this subchapter) and which is manifested to the United States requires a validated license for on-forwarding to all destinations, regardless of whether unladen from a vessel in waters subject to the jurisdiction of the United States.

Commodities which are not so excepted (unless originating in Japan or Canada pursuant to § 371.9 (b) of this subchapter) may be on-forwarded under the provisions of § 371.9 of this subchapter to all destinations except Subgroup A countries, Hong Kong, and Macao, as provided in §§ 384.5, 384.6, and 384.9 of this subchapter.

§ 370.10 *Shipments entering foreign trade zones*—(a) *General provisions.* Except for the commodities listed in § 371.9 (c) of this subchapter, commodities wholly of foreign origin and for which no customs entry has been made with a collector of customs may be exported from a foreign trade zone without a license from the Department of Commerce, to all destinations other than those in Subgroup A, Hong Kong, and Macao, as provided in Part 384 of this subchapter.

(b) *Shipments originating in Japan.* Shipments of Positive List commodities (§ 399.1 of this subchapter) originating in Japan (excluding the commodities listed in § 371.9 (c) of this subchapter) and moving through the United States may be exported from a foreign trade zone without a license from the Department of Commerce only when exported to the country of ultimate destination named in the bill of lading covering the shipment from Japan or when exported to a country of ultimate destination to which the same commodity could be exported from the United States under general license GO. In every such case, the exporter shall submit, and the United States collector of customs shall require production of, either an original or true copy of the bill of lading covering the shipment from Japan to establish that the shipment is exportable from the foreign trade zone without a license. The exporter also must state on the Shipper's Export Declaration For In Transit Goods (Commerce Form 7513) or on the Shipper's Export Declaration (Commerce Form 7525-V), in items 9 to 10, the fact that the shipment originated in Japan.

§ 370.11 *Reexportation under license previously granted.* Shipments properly presented and cleared for exportation and exported which are returned to the United States because of failure or inability of the exporting carrier to deliver the shipment at its intended destination may be reexported to the consignee and destination to which the shipment was originally cleared without the procurement of a new license: *Provided*, That satisfactory evidence of the validity of the original clearance is submitted to a United States collector of customs.

NOTE: Such evidence may consist of a copy of the original export declaration or the exporting carrier's outward manifest, or such other evidence as the collector may require. If the commodities are reexported to other than the original consignee, they must be treated as new exportations and are subject to current regulations of the Department of Commerce regarding the specific commodity.

PART 371—GENERAL LICENSES

Sec.
371.1 Definition.
371.2 General provisions.
371.3 General license country groups.
371.4 Reexportation from country of destination.
371.5 Consignee control under general license.
371.6 Consignor control under general license.
371.7 Country group general license GO.
371.8 General license GRO.
371.9 General in-transit license GIT.
371.10 Shipments of limited value GLV.
371.11 Personal baggage and tools of trade.
371.12 Dunnage.
371.13 Ship and plane stores, supplies, and equipment; crew's effects.
371.14 General license GUS.
371.15 General license GLC.
371.16 Deleted, effective June 14, 1951.
371.17 Commodities sold at auction by Bureau of Customs GCC.
371.18 Return of certain commodities imported into the United States GLR.
371.19 Technical data.
371.20 Deleted, effective August 3, 1950.
371.21 Deleted, effective July 15, 1950.
371.22 Deleted, effective August 3, 1950.
371.23 General license for gift parcels.
371.24 General license GTF, goods imported for trade fairs.
371.25 General license GMC, unmanufactured cotton.
371.26 General license G-PUB, exportation of certain publications.
371.27 Deleted, effective April 24, 1952.

AUTHORITY: §§ 371.1 to 371.27 issued under 63 Stat. 7, as amended; 50 U. S. C. App., 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR 1945 Supp., E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR 1948 Supp.

§ 371.1 *Definition.* A "general license" is a license established by the Department of Commerce for which no application is required and for which no document is granted or issued, available for use by all persons, permitting exportation within the provisions thereof as prescribed in Parts 370 to 399, inclusive, of this subchapter.

§ 371.2 *General provisions*—(a) *Export declarations.* No exportation may be made pursuant to any general license established in this part unless prior to said exportation, whenever required by Parts 370 to 399, inclusive, of this subchapter or by the Regulations for the Collection of Statistics of Foreign Commerce and Navigation of the United States, a shipper's export declaration describing the commodity or commodities to be exported has been filed with the collector of customs at the port of exit or with the postmaster at the place of mailing; or, unless at the time of said exportation, whenever the filing of a shipper's export declaration is not required, an oral export declaration describing the commodity or comodities is made to a collector of customs at the port of exit.

(b) *Use of general license symbol.* A person exporting any commodity pursuant to any general license established in this part shall enter on the shipper's export declaration, when such declaration is required, the designation or symbol of the general license authorizing the exportation. In the case of exportations by mail, the designation or symbol of the general license shall be written in ink on the address side of the wrapper of the parcel and shall be followed by the words, "Export License Not Required." The use of such designation or symbol shall constitute a certification by the exporter that the terms, provisions, and conditions of the general license involved have been met.

Example. If medicinals are to be sent to a member of the American Embassy in a foreign country, they may be exported under general license GUS, and the exporter will note on the export declaration the symbol GUS to indicate that the exportation is licensed.

(c) *Applicability — (1) Prohibited shipments.* No general license set forth in this part may be used to effect an exportation to a destination for which such general license has been suspended or revoked.

NOTE: All general licenses authorizing exportations to North Korea have been suspended (see § 384.3 of this subchapter). See Part 384 of this subchapter for other destinations (Subgroup A, Hong Kong, and Macao) to which particular general licenses have been suspended or revoked.

(2) *Choice of general license.* When two or more types of general licenses are applicable, any one of such general licenses may be used.

(3) *Exportations to foreign vessels in foreign ports.* Except as provided in the Note below, commodities may not be exported under the provisions of any general license to a foreign vessel located in a foreign port unless such general license is applicable to both the country in which such port is located and to the country under whose laws such vessel is registered. These regulations are set forth in Parts 370 through 399 of this subchapter.

NOTE: The exportation of commodities under the provisions of General Licenses Ship Stores, § 371.13 (a), or Registered Ship Stores, § 371.13 (b), is not affected by this provision.

§ 371.3 *General license country groups*—(a) *Grouping of countries.* Two general license country groups are hereby designated: Group R and Group O. (Since exportations to U. S. territories, dependencies, and possessions, Trust Territory of the Pacific Islands, and Canada do not require export licenses from the Department of Commerce, these destinations are not included in these country groups.)

(1) Country Group O consists of the following countries and other destinations:

NORTH AMERICA

Northern area:
Greenland.
Miquelon and St. Pierre Islands.
Southern area:
Mexico (including Cozumel and Revilla Gigedo Islands).
Central America:
Guatemala.
British Honduras.
El Salvador.
Honduras (including the Bay Islands).
Nicaragua.
Costa Rica.
Panama, Republic of.
Bermuda and Caribbean:
Bermuda.
Bahamas.
Cuba (including Isle of Pines).
Jamaica.
Haiti (including Gonave and Tortue Islands).
Dominican Republic.
Leeward and Windward Islands.
Barbados.
Trinidad and Tobago.
Curacao (Netherlands West Indies).
French West Indies.

SOUTH AMERICA

Northern area:
Colombia.
Venezuela.
British Guiana.
Surinam (Netherlands Guiana).
French Guiana (including Inini).
Western area:
Ecuador (including the Galapagos Islands).
Peru.
Bolivia.
Chile (including the Islands Sala-y-Gomes, Juan Fernandes, San Felix, San Ambrosio, and Easter Island).
Eastern area:
Brazil (including the Islands St. Paul, Fernando Noronha, and Trinidad (in South Atlantic)).
Uruguay.
Paraguay.
Argentina.
Falkland Islands.

(2) Country Group R includes and consists of all countries and other destinations not included in Country Group O, except Canada (including Newfoundland and Labrador). Within Country Group R there is established Subgroup A, which includes and consists of the following countries and other destinations:

Albania.
Bulgaria.
China, including the provinces of Suiyuan, Chahar, Ningsia, and Jehol (sometimes referred to as Inner Mongolia); the provinces of Chinghai (Tsinghai) and Sikang; Sinkiang; Tibet; and Outer Mongolia; but excluding Manchuria, and excluding Taiwan (Formosa).
Czechoslovakia.
Estonia.
Germany (Russian Occupied Zone only).
Hungary.
Latvia.
Lithuania.
Manchuria, including the former Kwantung Leased Territory. (The present Port Arthur Naval Base Area and the Liaoning Province).
North Korea.
Poland and Danzig.
Rumania.
Union of Soviet Socialist Republics.

NOTE: Licenses issued by the Department of Commerce to export R commodities to Tangier (including the International Zone), French Morocco, or Spanish Morocco are valid for shipment or transshipment of such commodities to any of the following destinations: Tangier (including the International Zone), French Morocco, or Spanish Morocco. Exporters filing license applications for the export of R commodities to these three destinations may indicate "Morocco" as the country of ultimate destination.

(b) *Applicability to individual countries.* When a commodity is exportable under general license to a particular country group, it may, subject to the provisions of Parts 370 to 399, inclusive, of this subchapter, be exported to any country or destination in that group.

§ 371.4 *Reexportation from country of destination*—(a) *Prohibited reexportations.* No exportation may be made under any type of general license with the knowledge or intention that the commodities so exported are to be reexported from the country of destination unless the reexportation has been authorized by the Department of Commerce, except as provided in paragraph (b) of this section.

(b) *Permissive reexportations.* Any commodity which has been exported from the United States may be reexported from any destination to any other destination: *Provided*, That the commodities to be reexported, at the time of reexportation, may be exported directly from the United States to the new country of destination under general license GO or GRO.

NOTE: This provision applies to commodities exported from the United States to the original country of destination under either a general or validated license. See § 372.14 of this subchapter.

§ 371.5 *Consignee control under general license*—(a) *Revocations and suspensions.* General licenses may be revoked or suspended as to any person in any destination.

(b) *Consignees.* Shipment under a general license may be made, subject to the provisions thereof, to any consignee in any country of destination except to any person as to whom the general license has been revoked or suspended.

§ 371.6 *Consignor control under general license.* General licenses may be revoked or suspended as to any person within or without the United States by an order issued pursuant to the provisions of Part 382 of this subchapter.

§ 371.7 *Country group general license GO*—(a) *Scope of license.* A general license designated GO is hereby established, subject to the other provisions of this section, authorizing the exportation of R commodities to destinations in Country Group O as listed in § 371.3 (a).

(b) *Footnotes on positive list.* If reference is made to a footnote on the Positive List of Commodities which modifies or alters the general license established in this section, the provisions specified in such footnote shall govern, notwithstanding any other provision.

NOTE: To determine if a commodity may be exported to a specific destination under this general license, the exporter should consult the provisions regarding country groups in § 371.3. If the destination is included in Group O, he should then consult the Positive List (§ 399.1 of this subchapter). If the commodity is listed and identified by the symbol "R" in the column headed "Validated License Required," it is an R commodity, and the exportation may be made under general license GO. (Exporters in doubt as to the proper classification of the commodities which they handle should consult the Department of Commerce publication, "Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States.")

EXAMPLE NO. 1

An exporter desiring to ship cast iron pressure pipe to Venezuela finds that Venezuela is included in Country Group O (§ 371.3). Turning to the Positive List (§ 399.1 of this subchapter), he finds that cast iron pressure pipe, Schedule B No. 601211, is listed and followed by the symbol "R" in the column headed, "Validated License Required." It is, therefore, an R commodity, and the exportation may be made under this general license by use of the symbol GO on the export declaration.

EXAMPLE NO. 2

An exporter desiring to ship cast iron pressure pipe to Spain consults the country list (§ 371.3) and finds that Spain is a Country Group R destination. The shipment cannot be made under general license GO, and an application must be filed for a validated export license if the value of the shipment exceeds that specified in the column headed "GLV Dollar Value Limits."

EXAMPLE NO. 3

An exporter desiring to ship copper scrap, Schedule B No. 641300, to Venezuela finds this commodity on the Positive List, followed by the symbol "RO" in the column headed "Validated License Required." The exportation, therefore, cannot be made under general license GO.

§ 371.8 *General license GRO*—(a) *Scope of license.* (1) A general license designated GRO is hereby established authorizing the exportation to all destinations of all commodities not included on the Positive List of Commodities (§ 399.1 of this subchapter), subject to the limitations set forth in this section.

(2) No exportations may be made under this general license to Subgroup A countries. In addition, no such exportations ultimately destined to Hong Kong or Macao may be made except fresh fruits (Schedule B Nos. 130100 through 131990), fresh vegetables (Schedule B Nos. 120710 through 122490), and cut flowers (Schedule B No. 259910). In every such case, the exporter shall at the time of clearing the shipment, present to the collector of customs an extra (fourth) copy of the shipper's export declaration for authentication, and, immediately after its authentication, the exporter shall send the authenticated (fourth) copy of the declaration to the Office of International Trade, Department of Commerce, Washington 25, D. C., Attention: Agricultural Products Division.

NOTE: *Gift parcels.* Gifts parcels containing commodities not on the Positive List may be shipped under general license GRO. Any commodity on the Positive List requires a validated license for export, even though intended as a gift, unless exportable under one of the other general licenses such as GIFT (see § 371.23), GO (see § 371.7) or GLV (see § 371.10).

(b) *Quarternary ammonium compound.* When clearing shipments of commodities classified under Schedule B No. 828890 under the provisions of general license GRO to any destination in Country Group R, the exporter must include on the shipper's export declaration covering such shipment the following statement:

This shipment contains no quaternary ammonium compound.

§ 371.9 *General in-transit license GIT*—(a) *General provisions*—(1) *Scope.* There is hereby established a general license, designated GIT, authorizing, subject to the other provisions of this section, the exportation from the United States of commodities which originate in and are destined to any foreign country except Subgroup A destinations, Hong Kong, and Macao: *Provided*, That such commodities are moving in transit through the United States under a Transportation and Exportation (T. & E.) customs entry or an Immediate Exportation (I. E.) customs entry made at a United States customhouse.

Commodities which originate in a foreign country include commodities which were originally grown, produced, or manufactured in the United States but which have been so altered by further processing, manufacture, or assembly in the foreign country that such commodities have either thereby been substantially enhanced in value, or have lost their original identity with respect to form.

(2) *Exception from foreign-origin requirement.* Notwithstanding the provisions of subparagraph (1) of this paragraph, automobile manufacturers located in Canada may export, under the provisions of this general intransit license GIT, automotive replacement parts of U. S. origin which were originally exported from the United States to Canada as stock parts for new vehicles of Canadian manufacture, and which are moving from Canada in transit through the United States to a foreign destination: *Provided, however*, That such automotive replacement parts are for repair or replacement only for passenger cars and commercial trucks not exceeding 10,000 pounds gross vehicle weight, and not for assembly of new vehicles outside of Canada.

(b) *Special provisions*—(1) *Shipments originating in Canada.* The provisions of this general license GIT are not applicable to shipments of commodities originating in Canada and moving in transit through the United States unless the exportation from the United States is in accordance with the Canadian Export Permit or the Canadian Customs Entry B13B as approved by the Export Permit Branch of the Department of Trade and Commerce, Ottawa, Canada. United States collectors of customs may, in any case, require production of copies of either the Canadian Export Permit or the Canadian Customs Entry B13B or other proof, as provided in § 379.1 (e) of this subchapter, sufficient to establish that the shipment is exportable under the provisions of this general license.

(2) *Shipments originating in Japan.* The provisions of this general license GIT are not applicable to shipments of Positive List commodities (§ 399.1 of this subchapter) originating in Japan and moving in transit through the United States unless the exportation from the United States is to the country of ultimate destination named in the bill of lading covering the shipment from Japan. In every such case, the exporter shall submit, and the United States collector of customs shall require production of, either an original or true copy of the bill of lading covering the shipment from Japan to establish that the shipment is exportable under the provisions of this general license. The exporter also must state on the Shipper's Export Declaration For In-transit Goods (Commerce Form 7513) or on the Shipper's Export Declaration (Commerce Form 7525-V), in items 9 to 10, the fact that the shipment originated in Japan.

NOTE: (1) Shipments of Positive List commodities which originate in Japan require a validated license for export from the United States unless exportable under the provisions of this general license GIT or of general license GO. (See § 373.1 of this subchapter.) For exportations of such commodities from foreign trade zones, see § 370.10 of this subchapter.

(2) This general license GIT is not applicable to shipments to Subgroup A destinations, Hong Kong, and Macao, as provided in Part 384.

(3) The general in-transit license GIT is not applicable to exportations of commodities licensed by agencies of the United States Government other than the Department of Commerce.

The provisions of this general license in no way affect the restrictions applicable to importation for transshipment of commodities controlled by the Agriculture-Import Order issued by the United States Department of Agriculture.

(4) See § 370.9 of this subchapter, and Note following that section, regarding shipments moving in transit via the United States without unloading from the carrier.

(c) *Commodities excepted from the provisions of this general license.* Commodities identified on the Positive List of Commodities (§ 399.1 of this subchapter) by means of a star (*) following the Schedule B number may not be exported to any destination under this general license.

NOTE: All shipments of merchandise for which the shipper's export declaration for in-transit goods is required (Commerce Form 7513) must be shown in terms of Schedule S as well as in terms of "Schedule B." Schedule S numbers, by commodity groupings, are contained in Schedule S, Statistical Classification of Domestic and Foreign Merchandise Exported from the United States", obtainable without charge from the Bureau of the Census, Washington 25, D. C.

§ 371.10 *Shipments of limited value GLV*—(a) *Purpose and symbol.* There is hereby established a general license designated *GLV* authorizing the exportation from the United States of shipments within certain specified dollar-value limits.

(b) *Definitions and interpretations.* The following definitions and interpretations are applicable to this section:

(1) "Single shipment" means the shipment of all commodities which move at the same time from one exporter to one importer on the same exporting carrier, except that not more than one shipment may be made by parcel post or mail per calendar week from one exporter to one importer.

(2) "Net value" means the actual selling price less shipping charges or the current market price to the same type of purchaser in the United States, whichever is the larger.

(3) "One importer" is interpreted as follows: For exportation under the provisions of this section, not more than the amount authorized under this general license may be exported in a single shipment from a designated exporter to a designated consignee or to an intermediate consignee even though such shipment is to be forwarded to one or more ultimate consignees.

(c) *General provisions*—(1) *Positive List.* Subject to the special provisions as designated and set forth below in this section, commodities included on the Positive List of Commodities (§ 399.1 of this subchapter) which have a dollar-value limit specified may be exported under this general license to all destinations, as follows: R commodities may be exported to Group R destinations, and RO commodities may be exported to Group R or Group O destinations, where, in a single shipment, the net value of the commodities classified in a single entry on the Positive List does not exceed the specified dollar value limit in the column headed "GLV Dollar Value Limits."

(2) *Prohibited shipments.* The following shipments may not be made under the provisions of this general license:

(i) Positive List commodities in any quantity destined for Subgroup A destinations (see § 371.3 (a)), Hong Kong, and Macao.

(ii) Commodities licensed by agencies of the U. S. Government other than the Department of Commerce.

(iii) Commodities with the word "none" in the column in the Positive List headed "GLV Dollar Value Limits."

(iv) Shipments designed as a device to evade the requirement of a validated export license. Such devices include, but are not limited to, (a) the splitting of orders from a single consignee into two or more shipments the total value of which exceeds the maximum GLV dollar-value limit specified for a single shipment, (b) the solicitation from a single consignee of a number of separate orders each of which conforms to such dollar-value limits, but which have a combined value in excess thereof.

NOTE: R commodities may be exported to Group O destinations without dollar-value limit under the provisions of General License GO (§ 371.7).

Except as prohibited by the provisions of Part 384, commodities not included on the Positive List of Commodities may be exported to any destination, except Subgroup A destinations, Hong Kong, and Macao, without dollar-value limit under the provisions of General License GRO (§ 371.8).

(3) *Asterisk.* Where an asterisk precedes the dollar value limit for any commodity on the Positive List of Commodities, all forms, conversions, and derivatives of such commodity, even though not covered by the Schedule B number for the entry, are included in the value specified.

(d) *Use of other general licenses not restricted.* The provisions of this section shall not be construed as limiting the use of any other general license specifically authorized.

(e) *Special provisions for Mexico*—(1) *Limitations on commodities under quantitative quotas.* Commodities subject to quantitative quotas which have been announced in Current Export Bulletins and which are being exported to Mexico by or on behalf of the same exporter to or for the account of the same ultimate consignee are restricted to one "single shipment" (as defined in paragraph (b) of this section) per calendar week when such exports are transported otherwise than by common carrier or by mail.

(2) *Certification required.* The shipper's export declaration covering any exportation to Mexico which is authorized by general license GLV but which is restricted by the terms of subparagraph (1) of this paragraph shall contain the following additional certification.

The undersigned certifies to the Department of Commerce that the merchandise above described is the only shipment of the commodity(ies) classified under the Schedule B number(s) set forth herein to be exported under the provisions of general license GLV by the undersigned exported to the consignee named herein during the current calendar week.

(Signed)

(3) *Hardship or emergency cases.* In any case where the collector of customs determines that the limitations in subparagraph (1) of this paragraph would create an undue hardship, or that an emergency exists in a particular case, he is authorized to permit more than one such shipment in a calendar week under this general license: *Provided*, That the value of each such shipment does not exceed the value limitation provided for the commodities included in such shipment under this general license.

(4) *Collectors authorized to limit shipments.* Collectors of customs are authorized to limit or prevent altogether the exportation of any commodity to Mexico under this general license whenever they shall have cause to suspect that such exportation is being made for the purpose or with the intent of evading any of the regulations of the Department of Commerce.

§ 371.11 *Personal baggage and tools of trade*—(a) *Personal baggage general license*—(1) *General provisions.* A general license designated BAGGAGE is hereby established, authorizing a person leaving the United States, but not including members of crews on vessels and aircraft, to export as personal baggage, accompanied and unaccompanied, the following classes of commodities:

(i) *Personal effects.* Usual and reasonable kinds and quantities of wearing apparel, articles of personal adornment, toilet articles, medicinal supplies, food, souvenirs, games, and similar personal effects, and their containers.

NOTE: As used in the regulation, usual and reasonable quantities and kinds of food should be limited, generally, to the quantities and kinds necessary and appropriate for use by a traveler or members of his immediate family during the outgoing and any immediate return voyage.

Consequently, where a traveler desires to include, under the baggage general license, food in such quantities as to be obviously used for consumption after he has finished his voyage, or to be distributed as "gifts," such food is not included within the provisions of this general license.

(ii) *Household effects.* Usual and reasonable kinds and quantities of furniture, household effects, household furnishings, and their containers.

(iii) *Vehicles.* Usual and reasonable kinds and quantities of vehicles, such as passenger cars, station wagons, trucks, trailers, motorcycles, bicycles, tricycles, perambulators, and their containers.

Provided, That the above-indicated personal effects, household effects, and vehicles shall include only such articles as are owned by such person or members of his immediate family; shall be in his possession at the time of or prior to his departure from the United States for a foreign country; are necessary and appropriate for the use of such person or his immediate family; are intended for his use or the use of his immediate family; and are not intended for sale.

(2) *Definition of "accompanied" and "unaccompanied."* The provisions of general license BAGGAGE are applicable to accompanied and unaccompanied personal baggage, which is defined as follows:

(i) *Accompanied.* All commodities exported under this general license on the same carrier on which the passenger departs.

(ii) *Unaccompanied.* All other shipments of commodities under this general license. Unaccompanied shipments under this category shall be clearly marked "BAGGAGE." Shipments of unaccompanied baggage may be made at the time of, or within a reasonable time prior to or after, departure of the consignee or owner from the United States.

(3) *Special provisions.* No more than 3 firearms and no more than 500 cartridges, subject to the regulations governing the international traffic in arms, ammunition, and implements of war promulgated by the Department of State, may be exported under general license BAGGAGE.

NOTE: Tobacco in quantities greater than 300 cigarettes (or 50 cigars and 1 pound of tobacco) may not be imported as baggage into the American or British Zones of Germany, upon penalty of confiscation, unless an import permit has been issued for such importation.

(b) *Tools of trade general license.* A general license designated TOOLS OF TRADE is hereby established authorizing a person leaving the United States

to export usual and reasonable kinds and quantities of implements, instruments, and tools of trade, occupation or employment, and their containers: *Provided*, That the above-indicated tools of trade (1) shall include only such articles as are owned by such person; (2) shall be in his possession at the time of or prior to his departure from the United States for a foreign country; (3) are necessary and appropriate and intended for the personal use of such person; and (4) are not intended for sale.

NOTE: *Validated license requirements.* Proposed exports of personal effects, household effects, vehicles, and tools of trade that are not authorized for export to the country of destination under general license BAGGAGE or general license TOOLS OF TRADE, or under any other general license, must be authorized by a validated license in accordance with § 372.1 (c) of this subchapter.

(c) *Requirement for filing shipper's export declaration.* A shipper's export declaration must be filed in accordance with § 379.1 (b) of this subchapter whenever a shipment is exported under general license BAGGAGE or general license TOOLS OF TRADE when shipped under a bill of lading.

NOTE: § 379.1 (b) of this subchapter also requires the filing of a shipper's export declaration for authentication whenever a shipment is exported under a validated license.

A shipper's export declaration need not be filed, despite the provisions of § 379.1 (b) of this subchapter, whenever a shipment is exported under general license BAGGAGE or general license TOOLS OF TRADE except when shipped under a bill of lading. As stated in § 371.2 (a), whenever the filing of a shipper's export declaration is not required by Parts 370 through 399 of this subchapter of the Comprehensive Export Schedule or by the Regulations for the Collection of Statistics of Foreign Commerce and Navigation of the United States, an oral declaration describing the commodity or commodities shall be made to a collector of customs at the port of exit.

Export declaration filing with manifest. Bureau of Customs regulations provide that whenever any commodities for which shipper's export declarations are required to be filed, are to be exported, the person in command of the exporting carrier,[1] or the owner or agents thereof on his behalf, shall deliver to the collector of customs all authenticated shipper's export declarations presented to the exporting carrier for the purpose of facilitating or effecting the exportation of such commodities.

(d) *Customs authority to limit or prohibit shipments.* Collectors of customs shall limit or prohibit the export of any commodity or commodities under general license BAGGAGE or general license TOOLS OF TRADE whenever the kind or quantity is in excess of the limitations set forth in this section, or whenever they shall have cause to suspect that such exportation is being made for the purpose or with the intent of evading any of the regulations of the Department of Commerce.

§ 371.12 *Dunnage.* A general license designated GLD is hereby established, authorizing the exportation of usual and reasonable kinds and quantities of dunnage necessary and appropriate to stow or secure cargo on the outgoing and any immediate return voyage of an exporting carrier, when exported solely for use as dunnage, not intended for unlading in a foreign country and not exported under a bill of lading.

NOTE: *Validated license requirements.* Proposed exports of dunnage that are not authorized for export to the country of destination under general license GLD or under any other general license must be authorized by a validated license in accordance with § 372.1 (c) of this subchapter.

Export declaration filing for authentication. A shipper's export declaration must be filed in accordance with § 379.1 (b) of this subchapter whenever a validated license is required for the export of dunnage. The shipper's export declaration may be executed and filed by the person in command of the exporting carrier[1] or the owner or agents thereof on his behalf. A shipper's export declaration need not be filed, despite the provisions of § 379.1 (b) of this subchapter, whenever a shipment is exported under general license GLD. (See § 371.2 (a).)

Export declaration filing with manifest. Bureau of Customs regulations provide that whenever any dunnage is to be exported for which shipper's export declarations are required to be filed, the person in command of the exporting carrier[1], or the owner or agents thereof on his behalf, shall deliver to the collector of customs at the port of clearance all authenticated shipper's export declarations executed by or presented to such persons for the purpose of facilitating or effecting the exportation of such dunnage.

§ 371.13 *Ship and plane stores, supplies and equipment; crew's effects*—(a) *Ship stores, supplies, and equipment general license.* A general license designated SHIP STORES is hereby established authorizing exportation on vessels of registry of any country departing from the United States, of usual and reasonable kinds and quantities of (1) bunker fuel, (2) deck, engine, and steward department stores, provisions and supplies for both port and voyage requirements, (3) medicinal and surgical supplies, (4) food stores, (5) slop chest articles, and (6) saloon stores or supplies, for use or consumption on board during the outgoing and any immediate return voyage, and not intended for unlading in a foreign country and not exported under a bill of lading as cargo; and of usual and reasonable kinds and quantities of equipment and spare parts for permanent use on the vessel when necessary for proper operation of such vessel, and not intended for unlading in a foreign country and not exported under a bill of lading as cargo.

(b) *United States and Canadian registered vessels: Ship stores, supplies and equipment general license.* A general license designated REGISTERED SHIP STORES is hereby established authorizing exportation of articles described in paragraph (a) of this section for use by or on a vessel of United States or Canadian registry located at other than a United States or Canadian port: *Provided*, That such articles are (1) shipped as cargo under a bill of lading on an exporting carrier of United States or Canadian registry; (2) in usual and reasonable kinds and quantities; (3) ordered by the person in command of the vessel to which they are consigned, or the owner or agents thereof, and intended to be used or consumed on board such vessel; (4) not intended for unlading in a foreign country except for transshipment and delivery to the vessel to which they are consigned; and (5) covered by such shipper's export declarations as are required to be filed by § 379.1 (b) of this subchapter.

In addition, commodities may be exported to vessels of United States or Canadian registry located at a port other than a United States or Canadian port pursuant to the provisions of any other general license applicable to the commodities proposed to be exported and to the country in which the port and ship are located.

(c) *Plane stores, supplies and equipment general license.* A general license designated PLANE STORES is hereby established authorizing the exportation in planes of registry of any country departing from the United States of usual and reasonable kinds and quantities of (1) fuel, (2) deck, engine, and steward department stores, provisions, and supplies, (3) medicinal and surgical supplies, (4) food stores, and (5) saloon stores or supplies, for use or consumption during the outgoing trip of such planes and any immediate return trip scheduled, and not intended for unlading in a foreign country and not exported under a bill of lading as cargo; and of usual and reasonable kinds and quantities of equipment and spare parts when necessary for the proper operation of such planes, and not intended for unlading in a foreign country and not exported under a bill of lading as cargo.

NOTE: The provisions of § 371.13 do not authorize the exportation of any equipment or spare parts for vessels of war or for aircraft which are licensed for export by the Department of State. (See § 370.5 of this subchapter.) The provisions of § 371.13 relate only to those commodities under the export control authority of the Department of Commerce.

(d) *Crew's effects general license.* A general license designated CREW is hereby established, authorizing members of crews on exporting carriers[1] to export among their effects usual and reasonable kinds and quantities of wearing apparel, articles of personal adornment, medicinal supplies, toilet articles, food, souvenirs, games, hand tools, and similar personal effects and their containers: *Provided*, That such commodities are (1) owned by such crew member; (2) are necessary and appropriate for his use or that of his immediate family; (3) are intended for his use or that of his immediate family; (4) are not intended for sale; and (5) are not exported under a bill of lading as cargo.

NOTE: *Validated license requirements.* Proposed exports of all ship and plane stores, supplies and equipment, and all commodities to be exported by a crew member among his effects that are not authorized for export to the country of destination under general license SHIP STORES, REGISTERED SHIP STORES, PLANE STORES, or CREW, or are not authorized for export under any other general license must be authorized by a validated license in accordance with § 372.1 (c) of this subchapter. Whenever a validated license is required for the export of ship stores, supplies, and equipment, license applications shall be prepared as set forth in § 372.5 of this subchapter.

Export declaration filing for authentication. Whenever a shipment is exported under general license SHIP STORES, PLANE STORES, or CREW, a shipper's export declaration need not be filed, despite the provisions of § 379.1 (b) of this subchapter. (See § 371.2 (a).) Whenever a validated license is required for the export of commodities, a shipper's export declaration must be filed in accordance with the provisions of § 379.1 (b) of this subchapter. Insofar as ship and plane stores, supplies and equipment are concerned, the shipper's export declaration may be executed and filed by the master of the exporting vessel, the commander of the exporting plane, or the owner or agents of such vessel or plane.

Export declaration filing with manifest. Bureau of Customs regulations provide that whenever any commodities for which shipper's export declarations are required to be filed are to be exported, the person in command of the exporting carrier,[1] or the owner or agents thereof on his behalf, shall deliver to the collector of customs at the port of clearance all authenticated shipper's export declarations executed by or presented to such persons for the purpose of facilitating or effecting the exportation of such commodities.

§ 371.14 *General license GUS.* A general license designated GUS is hereby established authorizing exportations as follows:

(a) *To members of the United States armed services.* Commodities in quantities sufficient solely for the personal use of the consignees and their immediate families; articles for personal use may include household effects, food, beverages, and daily necessaries.

(b) *To representatives of the United States*—(1) *For personal use.* Exportations for the personal use of the consignee, and/or his immediate family and/or employees; articles for personal use may include household effects, food, beverages, and daily necessaries.

(2) *For office use.* Exportation of equipment and supplies for the office use of the representative or for use by the representative or his employees in the performance of their official duties. Under this general license the following classes of commodities are included: Stationery supplies, typewriters, adding machines, office furniture, and other comparable office equipment; cleaning supplies, mechanical and electrical supplies and other building maintenance supplies; uniforms, motor cars and trucks, and automobile parts; flags, foodstuffs, books, professional and scientific instruments, apparatus and supplies; medicinals, medical supplies and vaccines; photographic equipment, including unexposed film, plates, and paper.

NOTE: Cigarettes and other tobacco products may not be sent in any amount under this general license to individuals located in Germany.

§ 371.15 *General license GLC.* A general license, designated GLC, is hereby established authorizing the exportation of trucks, busses, trailers, railroad rolling stock, and other commercial vehicles when operated by private or common carriers between the United States and other countries: *Provided*, That such vehicles, except those imported into the United States from a foreign country, shall not be exported for the purpose of resale.

[1] "Exporting carrier" includes any instrumentality of water, land, or air transportation by which an exportation is effected.

§ 371.16 *Export of certain vessels VMC.* [Deleted, effective June 14, 1951.]

§ 371.17 *Commodities sold at auction by Bureau of Customs GCC.* A general license designated GCC is hereby established authorizing the exportation to all destinations, except Subgroup A countries, Hong Kong, and Macao, of commodities which are refused entry into the United States and are sold at auction by the Bureau of Customs for export only: *Provided*, That a certified customs bill and/or receipt (Form 5117A) is presented to the collector of customs at the port of exit or the postmaster at the place of mailing as evidence of the purchase at such auction.

§ 371.18 *Return of certain commodities imported into the United States GLR.* A general license designated GLR is hereby established authorizing exportations as follows:

(a) *Machinery, or parts of machinery.* Machinery, or parts of machinery, shipped to the United States for repair purposes may be returned to the country of origin, as well as replacement or rebuilt parts which are substituted when the identical parts imported are not returned.

The provisions of this paragraph do not apply to:

(1) Destinations in Subgroup A, Hong Kong, and Macao; and

(2) The following commodities: Precision instruments; tools or devices incorporating diamonds, including such tools or devices when shipped as an integral part of a machine.

(b) *Commodities from Republic of Panama.* All articles and materials which have been imported into the Panama Canal Zone from the Republic of Panama for the purpose of being repaired or processed may be returned to the Republic of Panama.

(c) *Containers returned empty.* Metal drums, gas cylinders, bags and other containers used in shipping articles and materials to the United States from any destination may be returned empty to any destination other than Subgroup A countries, Hong Kong, and Macao.

(d) *Newsprint cores.* Newsprint cores made of any kind of material, whether imported into the United States separately or as a part of the packing of imported newsprint paper, may be returned to any destination from which imported except Subgroup A countries, Hong Kong, and Macao.

(e) *Commodities entitled to drawback of customs duties.* Commodities on which customs duties were paid upon importation into the United States, and which upon exportation in accordance with the provisions of subsection (c), section 313 of the Tariff Act of 1930, as amended,[2] entitle the exporter to the drawback of customs duties paid, may be exported to the country from which imported: *Provided*, Such commodities do not conform to sample or specifications and are in the same condition in which imported.

§ 371.19 *Technical data*—(a) *Definition of technical data.* Technical data is hereby defined as any professional, scientific, or technical information, including any model, design, photograph, photographic negative, document, or other articles or material, containing a plan, specification, or descriptive or technical information of any kind which can be used or adapted for use in connection with any process, synthesis, or operation in the production, manufacture, or reconstruction of articles or materials.

(b) *Security provisions for certain types of technical data*—(1) *Scope.* Technical data in connection with:

(i) Advanced developments, technology, information, and "know-how,"

(ii) Prototypes,

(iii) Special installations, and

(iv) Those items listed in Proclamation 2776 (§ 370.5 of this subchapter) which do not have a security classification,

whenever they have significance to the common security and defense, are included in the scope of the security provisions for technical data.

NOTE: Advertising catalogs or pamphlets, assembly and operating directions, or other technical information generally available to the trade, users of equipment, or to the public, are not included in the scope of the security provisions for technical data. Also excluded are technical data which are not classified by the U. S. Government and which will be used purely for educational or scientific research.

(2) *Substance.* Before completing arrangements to export or release for foreign use any technical data included in the scope of the security provisions, exporters should request an official opinion from the U. S. Government through the Office of International Trade as to the desirability of exporting or releasing the technical data.

NOTE 1. *Presentation of requests.* All requests for an official opinion of the U. S. Government should be submitted by letter, in duplicate, to the Office of International Trade, Department of Commerce, Washington 25, D. C. (Ref: Technical Data, IT-1245). In addition, those who wish to discuss a problem personally will readily be given specific appointments.

2. *Information to be furnished.* Requests should include as much information as possible regarding the technical data which it is proposed to export or furnish for export. As a minimum, the following questions should be answered:

(1) To whom in the U. S. and or in the foreign country is the technical information to be furnished?

(2) What is the name of the country in which the technical information will be used?

(3) For what purpose will the technical information be used?

(4) What is the subject matter of the technical information to be furnished?

(5) Is the technical data classified by an agency of the U. S. Government?

(6) How will the information be furnished? (i. e. blueprints? specifications? training in the U. S. of foreign specialists?

[2] 46 Stat. 694, 19 U. S. C. 1313 (c). "Upon the exportation of merchandise not conforming to sample or specifications upon which duties have been paid and which have been entered or withdrawn for consumption and, within thirty days after release from customs custody, returned to customs custody for exportation, the full amount of the duties paid upon such merchandise shall be refunded as drawback, less one per centum of such duties."

personal services by engineers and specialists sent abroad?)

(7) For how long a period will technical information be furnished under a contract or agreement?

3. *Confidential nature of information.* All information submitted in the requests will be treated in confidence in order not to disturb competitive relationships.

4. *Acknowledgments and replies.* All requests for opinions will be acknowledged upon receipt. Immediately, the Department of Commerce will consult with interested departments and agencies of the U. S. Government. Consistent with that obligation, a full reply to each request will be forwarded promptly, so that negotiations with foreign users of the technical data will not be delayed.

5. *Limitation regarding opinions.* The official opinion which will be furnished by the U. S. Government through the Department of Commerce is purely advisory; it constitutes no commitment on the part of the U. S. Government to issue an export license should an emergency or other circumstances develop which make it essential that the export of certain technical information be subjected to export license requirements.

(c) *Authorization and use of general licenses GTD and GTDA*—(1)—*General license GTD.* A general license designated GTD is hereby established authorizing the exportation of technical data to any destination except those in Subgroup A: *Provided*, (i) That no officer or agency of the United States Government has assigned to it a security classification (e. g., "restricted," "confidential," "secret," etc.) or (ii) That if such classification exists, the exporter has obtained duly authorized permission in writing from the agency of the U. S. Government which assigned the security classification; or (iii) That the Department of Commerce has not revised, suspended, or revoked this general license in any manner as to any person within or without the United States so as to prohibit shipment thereunder by the exporter.

(2) *General license GTDA.* A general license designated GTDA is hereby established authorizing the exportation to Subgroup A destinations, except North Korea,[1] of technical data in published form: *Provided*, That publications containing such technical data are (i) sold at newsstands or bookstores; (ii) are available by subscription or purchase to any individual without restriction; (iii) have been granted second-class mailing privileges by the U. S. Government; or (iv) are freely available at public libraries.

NOTE: Where the Department of Commerce determines in any case that shipment of technical data should be prohibited, notice of such determination will be given to the exporter in the official opinion requested by him, wherever possible.

(3) *Designation on wrapper.* Any person exporting under these general licenses shall mark conspicuously on the envelope or outside wrapper "General License GTD" or "General License GTDA," as appropriate.

(4) *Prohibited exportations.* No exportation may be made under general license GTD of classified technical data with the knowledge or intention that the technical data so exported are to be reexported from the country of destination to which permission was granted.

NOTE: *Export of patent applications and amendments*—1. *Inventions made in foreign country.* Technical data contained in papers relating to patent applications based on inventions made in a foreign country which are to be exported for informational purposes or for the purpose of filing in a foreign country may, if otherwise qualified, be exported under general license GTD.

2. *Inventions made in U. S.* Patent applications based on inventions made in the United States, amendments thereto, or other papers relating thereto, which are to be exported for the purpose of filing in a foreign country or which may become the basis of an application or an amendment to an application already filed in a foreign country, are subject to regulations of the Commissioner of Patents, and, after permission is obtained from the Commissioner of Patents, are exportable under general license GTD.

3. Applications for licenses to export patent applications and amendments thereto should be submitted to the Commissioner of Patents, Department of Commerce, Washington 25, D. C. Patent attorneys and others who contemplate exporting technical data pertaining to patent applications, amendments, or information for use in the prosecution thereof, or applications for the registration of a utility model, industrial design, or model in respect of any invention made in the United States, should direct their inquiries regarding such exportations to the Commissioner of Patents.

§ 371.20 *Gift parcels to enemy prisoners of war.* [Deleted, effective August 3, 1950.]

§ 371.21 *Exportation of relief shipments RLS.* [Deleted, effective July 15, 1950.]

§ 371.22 *Exportations by citizens of foreign countries serving in the United States Armed Forces GAF.* [Deleted, effective August 3, 1950.]

§ 371.23 *General license for gift parcels*—(a) *Scope of license.* A general license is hereby established authorizing the exportation of gift parcels by mail, including parcel post, and air express, addressed to individuals or to religious, charitable, or educational organizations residing in all destinations except Mainland China (including Manchuria) and North Korea:[2] *Provided*, That such exportations are made in accordance with the following provisions of this section.

NOTE: The establishment of this procedure does not alter in any respect the provisions of any other general license or other procedure of the Office of International Trade authorizing the exportation of commodities.

Multiple parcels exported in a single shipment for delivery to individuals residing in a foreign country do not fall within the provisions of this general license. Such shipments, unless authorized by one of the other general licenses set forth in this part, must meet validated license requirements, including the submission of a license application in accordance with all of the provisions of Parts 370 through 399 of this subchapter.

(b) *Definition.* The term "gift parcel" as used in this section means a parcel containing commodities to be sent by an individual in the United States (the donor) free of cost to an individual or a religious, charitable, or educational organization in a foreign destination (the donee) for the use of the donee or the donee's immediate family in the case of an individual, and for use by the organization in the case of a religious, charitable, or educational organization.

(c) *Commodity, weight, and other limitations*—(1) *Manner of mailing.* A gift parcel sent under this general license must be mailed directly to the donee by the individual donor, or for such donor by a commercial or other gift-forwarding service or organization. Each gift parcel must show, on the outside wrapper, the name and address of the donor, regardless of whether mailed by him or by a forwarding service.

(2) *Commodity limitations.* Commodities which may be included in each gift parcel under this general license are restricted to those normally sent as gifts, such as food, clothing (other than military), toilet articles, and medicinals and drugs obtainable through regular retail druggists without prescription and bearing directions on the labeling for their use by the lay public. Specifically excluded are military wearing apparel (new and used), Schedule B No. 999930, and all medicinals and drugs requiring prescriptions, including all antibiotics, sulfonamides, and medicinals and drugs intended only for professional use.

(3) *Dollar-value limitations.* The combined total domestic retail value of all commodities included in a single parcel shall not exceed twenty-five dollars ($25).

(4) *Postal, size, and weight limitations.* Gift parcels sent via parcel post under this general license shall conform with applicable Post Office regulations as to size, weight, and permissible contents. Gift parcels sent via air cargo or air freight are not limited as to size or weight by the provisions of this general license.

(5) *Other limitations.* Not more than one gift parcel may be sent by the same donor to the same donee in any one calendar week.

(6) *Excluded destinations.* Exportations under the authority of this general license may not be made to North Korea, China (including Manchuria but not including Taiwan (Formosa)), Outer Mongolia, and Tibet, as described in Schedule C of the Bureau of the Census.

(d) *General license designation.* In addition to bearing the name and address of both the donor and the donee, all gift parcels presented for shipment under this general license must have the notation "Gift—Export License Not Required" written on the addressee side of the package and the word "Gift" written on any required customs or shipper's export declarations.

NOTE: The sending of merchandise as gifts is also subject to the import regulations of the receiving country. Many foreign countries permit the entry, duty-free, of gift parcels which conform to regulations regarding contents and marking. To secure this advantage, as well as the reduced postage rate arranged by the Mutual Security Agency for gift shipments, the sender also should show the words "U. S. A. Gift Parcel" on the addressee side of the package and on any required customs declaration.

Senders of gift parcels who wish information regarding the import regulations of a foreign country should write to the nearest

[1] Includes any territory controlled by the Government of North Korea.

regional or district office of the Department of Commerce, or the Assistant Director for Economic Affairs, Office of International Trade, Department of Commerce, Washington 25, D. C.

§ 371.24 *General license GTF, goods imported for trade fairs*—(a) *Return to country from which imported.* A general license designated GTF is hereby established, authorizing exportation to the country from which imported of commodities which have been entered under bond or which have been permitted temporary free importation under bond providing for their exportation, for exhibition at trade or similar fairs: *Provided*, That such commodities are being exported in accordance with the terms of such bonds.

(b) *Export to other destinations.* Commodities described in paragraph (a) of this section which are not listed as exceptions to the general in-transit license GIT provisions (§ 371.9 (c)) may be exported to destinations other than that from which imported, except North Korea.[1]

§ 371.25 *General license GMC, unmanufactured cotton.* A general license designated GMC is hereby established, authorizing the exportation, to all destinations except Subgroup A countries, Hong Kong, and Macao, of cotton linters, Schedule B Nos. 300402, 300403, 300405, and 300406, of the growth of any North or South American country (other than the United States), as listed in Schedule C of the Bureau of the Census: *Provided*, Such cotton linters are exported from U. S. Bureau of Customs custody and no consumption entry therefor has been officially accepted at a United States customhouse.

§ 371.26 *Exportation of certain publications G-PUB*—(a) *Authorization.* A general license designated G-PUB is hereby established authorizing the exportation to all destinations, except to destinations in North Korea,[1] of the publications listed in paragraph (b) of this section: *Provided*, That the publications do not contain technical data as defined in § 371.19.

(b) *Publications exportable.* The following commodities are exportable under the authority of General License G-PUB:

Schedule B Number	Commodity
912120–912400	Motion picture films, developed.
970000	Bound educational textbooks.
970100	Bibles and Testaments.
970200	Dictionaries and encyclopedias, including yearbooks.
970300	Literature, fictional and nonfictional.
970500	Other bound books.
970600	Unbound books in sheets.
970800	Catalogs and pamphlets.
970900	Music in books and sheets.
980000	Newspapers, current, except overissue (report nonexempt newspapers [issued prior to six months of the time of export] and overissue newspapers under 4c/kg; old newspapers enhanced in value under 9c/000).
980500	Periodicals, current, except overissue (report nonexempt periodicals [issued prior to six months of the time of export] and overissue periodicals under 4c/kg; old periodicals enhanced in value under 9c/000).
990000	Calendars (printed or unprinted).

[1] Includes any territory controlled by the Government of North Korea.

PART 372—PROVISIONS FOR INDIVIDUAL AND OTHER VALIDATED LICENSES

Sec.
372.1 Applicability and general provisions.
372.2 Applications for licenses.
372.3 How to file an application for export license.
372.4 License applications for in-transit shipments.
372.5 Ship stores, plane stores, supplies, and equipment.
372.6 Commodities exported for relief or charity.
372.7 Unit-process applications.
372.8 Disclosure of prior action on the shipment.
372.9 Documents accompanying applications for validated licenses.
372.10 Additional information.
372.11 Issuance and use of export licenses.
372.12 Weight and volume tolerance.
372.13 Port of exit.
372.14 Reexportation from country of destination.
372.15 Duplicate licenses.
372.16 Return of revoked, expired, or unused licenses.
372.17 Reports.

AUTHORITY: §§ 372.1 to 372.17 issued under 63 Stat. 7, as amended; 50 U. S. C. App., 2023, E. O. 9630, Sept. 27, 1945, 10 F. R. 12245; 3 CFR 1945 Supp., E. O. 9919, Jan. 3, 1948, 13 F. R. 59; 3 CFR 1948 Supp.

§ 372.1 *Applicability and general provisions*—(a) *Definition of "validated license".* Wherever reference is made in this part to application for licenses or to licenses granted or issued upon application, the reference is to validated licenses as distinguished from the general licenses established in Part 371 of this subchapter. The term "validated license" means an individual or other type of export license or any other document authorizing exportation granted or issued by or under the authority of the Department of Commerce.

(b) *Applicability of provisions.* (1) The provisions of this part (and insofar as consistent with the provisions of this part, all of the other provisions of Parts 370 to 399, inclusive, of this subchapter) shall apply to applications for and individual licenses issued by the Department of Commerce. An individual license is a validated license authorizing the exportation of the quantity of those commodities described therein from a designated licensee to a designated consignee.

(2) The provisions of this part shall also apply equally to other types of validated licenses, and applications therefor, insofar as consistent with the provisions of Parts 374 to 399 of this subchapter, inclusive, relating to such other types of validated licenses.

NOTE: In addition to the individual license, there are the following types of validated licenses:

1. *Blanket license.* The blanket (BLT) license authorizes the exportation of all R and certain RO commodities on the Positive List to two or more specifically named consignees at a given destination. (See Part 375 of this subchapter.)

2. *Project licenses.* Two types of project licenses, special project (SP) and dollar limit (DL), are used for authorizing exportations of all commodities required for a specific project or enterprise for a specific period. (See Part 374 of this subchapter.)

(c) *Exportations requiring license.* (1) The commodities included on the Positive List of Commodities (§ 399.1 of this subchapter) may not be exported to foreign destinations other than Canada (including Newfoundland and Labrador) except pursuant to general, individual, or other type of license granted or issued upon application or established by the Department of Commerce.

(2) No exportation of any commodity (R or RO) included on the Positive List of Commodities may be made to any destination in Country Group R, as defined in § 371.3 (a) of this subchapter, no exportation of any RO commodity may be made to any destination in Country Group O, as listed in § 371.3 (a) of this subchapter, and no exportation of any commodity, regardless of whether included on the Positive List of Commodities, may be made to any destination in Subgroup A, as listed in § 371.3 (a) of this subchapter, Hong Kong, and Macao, unless and until a validated license therefor has been granted or issued upon application by the Department of Commerce, except where authorized by the provisions of an established general license as set forth in Part 371 of this subchapter or under other provisions permitting the exportation without license.

NOTE: No license from the Department of Commerce is required for the export of commodities subject to export license by other agencies of the Government. (See §§ 370.5, 370.6, 370.7, and 370.7a of this subchapter.)

(d) *Special provisions for certain commodities.* Special provisions for certain commodities are set forth in Part 373 of this subchapter.

(e) *Representations in license applications; orders and evidence thereof; and record-keeping requirements*—(1) *Orders and other material facts.* No application for an export license shall be made unless and until the applicant has, supported by documentary evidence in his possession,

(i) An order for export for the commodities covered by the application.

(ii) Substantiation of the following facts relating to the purchase transaction which the applicant must disclose on the application, Form IT–419: (See note following § 372.3, How to File an Application for Export License.)

Country of ultimate destination;

Names and addresses of the ultimate consignee, intermediate consignee (if any), purchaser (if other than ultimate consignee), and any other party to the purchase transaction, whether principal or agent, including but not limited to brokers, representatives or other agents through whom the order was received;

Quantity and description of the commodities to be exported;

End use of the exportation;

ECA authorization if known and applicable.

(2) *Definitions*—(i) *Order.* The term "order" as used herein means an order for export placed with an exporter in the United States by an importer in a foreign country which, if accepted by the exporter, will result in a binding contract between the exporter and the

importer. Conversely, however, an exporter's offer alone is not a basis for an application. While the terms of the order may be conditioned, such terms must be ascertainable and certain; for example, (a) the terms of payment may provide a price dependent upon the market price at the time of delivery; (b) the time or place of delivery may be dependent upon an event in the future, etc. An "order" is more than a mere business inquiry relating to the possible purchase of merchandise, although it need not be an agreement which can be presently executed. Furthermore, while orders may be conditioned upon the issuance to the exporter of an export license by the Department of Commerce or the issuance to the importer of an import permit or exchange permit by his government, or such other government document as may be required, such orders for export would still be considered as orders within the meaning of these provisions.

(ii) *Evidence of an order.* Evidence of an order as used herein means any document or documents emanating from the foreign purchaser which set forth the terms and conditions of his offer to buy the materials or articles for which the export license is requested. Such evidence may take the form of a contract signed by both parties, or of letters, telegrams, cables, confirmations, or other documents which set forth in definite terms the offer of the foreign purchaser to buy or the acceptance by the foreign purchaser of the exporter's offer to sell.

(iii) *Evidence of facts relating to the purchase transaction.* Evidence of the facts relating to the purchase transaction means any documents emanating from the purchaser or ultimate consignee which substantiate the material statements in the application enumerated in subparagraph (1) of this paragraph. Such evidence may be contained in the document or documents constituting evidence of the order, or in additional documents emanating from the purchaser or ultimate consignee. The printed name, address, or nature of business of the ultimate consignee or purchaser appearing on his letterhead or order form shall not constitute evidence of either his identity, the country of ultimate destination, or end use of the commodities described in the application.

(3) *Shipments involving other than normal purchase and sale contracts.* Where the transaction between the applicant and purchaser or ultimate consignee does not involve a normal purchase and sale contract in the customary form or where for other stated reasons the term "order" as used herein does not apply, the applicant shall attach to his application a full description of the nature of the transaction.

NOTE: Where an exporter ships supplies or equipment to his foreign subsidiary or to distributors for use or resale, but it is not the practice for the subsidiary or distributor to submit or for the exporter to accept orders, documentary evidence of an order is not required. The applicant must, however, submit a full statement of the nature of the transaction or arrangement, explaining the end uses of the commodities involved. When commodities are to be exported under any other arrangement, a full statement of the nature of the transaction must likewise be submitted.

(4) *Retention of documents.* The documents constituting evidence of an order and of the facts relating to the purchase transaction, as defined herein, or other transaction referred to in subparagraph (3) of this paragraph, must be kept available for inspection, upon demand, by the Office of International Trade for three years from the date of receipt of the application, as shown on the acknowledgment card, Form IT–116.

NOTE: The Office of International Trade may request either the originals of the documents constituting the evidence, or photostatic or other copies thereof. The time and manner of submission will be made known to the applicant at the time the request for submission is made. Photostatic or other copies must be certified by the applicant to be true copies of the originals, as provided in § 372.9 of this subchapter.

All abbreviations, coded terms, or other expressions having special significance in the trade or to the parties to the transaction must be explained. Documents in a foreign language must be accompanied by an accurate English translation. Such translation need not be made by a translating service, but, if not, must be certified by the applicant to be a correct translation.

(5) *Changes in orders or facts relating to the purchase or other transaction.* Answers to all questions in the application shall be deemed to be continuing representations of the existing facts or circumstances. Any material or substantive change in the terms of the order or in the facts relating to the purchase transaction or other transaction, shall be promptly reported to the Office of International Trade, whether a license has been granted or the application is still under consideration. If a license has been granted, such change shall be reported immediately to the Department of Commerce, in accordance with the provisions of Part 380 of this subchapter, even though shipments against the license may be partially or wholly completed.

NOTE: Change in intermediate consignee must be reported on shipper's export declaration, and in certain cases an amendment to the export license is required. (See item 5 of the Interpretive Statement following § 372.2, and § 380.2 (f) of this subchapter.)

Changes in facts relating to MSA authorization should be reported if such authorization was indicated in application; otherwise such disclosure should be made in the fourth copy of the shipper's export declaration, if required by terms of the license. (See § 379.1 (c) of this subchapter.)

(6) *Export licenses related to complete applications.* Although the export licenses issued by the Department of Commerce may not set forth all the facts relating to the export transaction that are contained in the license application and supporting documents, any validated export license issued is valid for use only with respect to the specific export transaction described in the license application and supporting documents, unless otherwise provided by the export license.

§ 372.2 *Applications for license*—(a) *Who may apply.* License applications may be made by any person subject to the jurisdiction of the United States, who is in fact the exporter, or by his duly authorized agent. In either instance, the exporter must be shown as the applicant.

NOTE: Applications may be made by any person, including a corporation or partnership, who is in fact the exporter. However, no application of any person not subject to the jurisdiction of the United States will be considered unless such application is made on his behalf by an authorized agent in the United States. The agent authorized to file the application then becomes the applicant. Any applicant to whom an export license is issued becomes the licensee and will be held strictly accountable for use of the license, whether as a principal exporting for his own account or as an agent acting for the account of a principal or foreign importer who is not subject to the jurisdiction of the United States. The designation of an agent as licensee in no way lessens the responsibility of his foreign principal as a party in interest to the transaction.

INTERPRETIVE STATEMENT REGARDING APPLICANTS, LICENSEES, AND PARTIES

1. *Requirement to disclose parties in interest.* The policies of export control require the fullest disclosure by the applicant of all parties in interest in order that decisions on applications may be made with the fullest knowledge of all relevant facts and that the identity and whereabouts of the persons who know most about the transactions may be easily ascertained in the event of inquiry.

2. *Information required on license applications.* There must be shown on applications for licenses all parties who are concerned in the proposed exportation, participating on their own account: the applicant, as exporter, the ultimate consignee, the intermediate consignee, and the purchaser, all as herein defined. If the application is filed for an account other than that of the applicant, the agent, as applicant, must disclose the name of his foreign principal for whose account the exportation is to be made. The true parties in interest as known to the applicant must be disclosed.

It is realized that there may be cases in which more than one person in a transaction may fairly be described as being a principal. However, in such cases, the application should be accompanied by a statement giving the names and addresses of such other persons and their roles in the transaction in question. Where there is any doubt as to which of several persons should be named as the party to the license, the applicant should disclose the names of all and the functions to be performed by each. For this purpose, a separate statement attached to the application will be acceptable.

The Note following § 372.3 contains detailed instructions for preparing applications for licenses (Form IT–419), including provisions for identifying the persons participating in a transaction.

3. *Applicant: licensee.* The applicant for a license should be that person who, as the principal party in interest in the transaction of exportation, has the power and responsibility to determine and control the sending of the goods out of the country and is thus in reality the exporter. For this purpose it is the identity of the applicant, and his role in the transaction, and not the terms of sale, in which the Office of International Trade is primarily concerned. If, in a given transaction, he has the responsibility for effecting exportation, such person is a proper applicant; if, on the other hand, he does not assume such responsibility, he is not a proper applicant.

If the seller intends to leave the responsibility for effecting exportation in the hands of the foreign importer or the latter's forwarding or purchasing agent in the United States, he should not apply for the license or appear as exporter; but, in such case, the forwarding or purchasing agent should appear as applicant and exporter unless the foreign importer himself is subject to the jurisdiction of the United States at the time of exportation, in which case the latter should apply for the license in his own name. If any forwarding or purchasing agent applies for a license, he must disclose the name of his principal.

4. *Ultimate consignee.* The person located abroad who is the true party in interest in actually receiving the exportation for the designated end use must be named as the ultimate consignee. In all cases, the address of the ultimate consignee must be in the country of destination specified for the proposed exportation. A bank, freight forwarder, forwarding agent, or other intermediary is not acceptable as the ultimate consignee.

5. *Intermediate consignee.* The bank, forwarding agent, or other intermediary (if any) who participates in a foreign country as an agent for the exporter, the purchaser, or the ultimate consignee, for the purpose of effecting delivery of the exportation to the ultimate consignee must be named on the application, if known.

In all cases, before a shipment will be cleared for export, the name and address of any intermediate consignee to be used must be ascertained and set forth on the shipper's export declaration, whether or not named on the license application or validated license. (See § 379.2 (a) (2) of this subchapter.)

Amendment of the export license is required if the intermediate consignee to be used in the export transaction is not named on the export license, unless such new or different intermediate consignee is located in the country of ultimate destination as shown on the export license. (See § 380.2 (f) of this subchapter.)

The name and address of the intermediate consignee need not be shown on the commercial invoice. However, pursuant to the destination control provisions of § 381.4 (d) (1) of this subchapter, a copy of the commercial invoice or bill of lading containing the destination statement provided thereunder must be sent to any intermediate consignee.

6. *Purchaser.* The person abroad who has entered into the export transaction with the applicant to purchase the articles or materials for delivery to the ultimate consignee must be named as the purchaser. A bank, freight forwarder, forwarding agent, or other intermediary is not acceptable as the purchaser.

7. *Responsibility of licensee.* Any person obtaining a license, whether as a principal exporting for his own account or as an agent of a foreign principal, thereby assumes responsibility for actually effecting the exportation, for proper use of the license, and for due performance of all of its terms and conditions. Ordinarily, therefore, a seller who delivers commodities in this country to a foreign buyer or to the latter's forwarder or other agent would not be in a position to assume such responsibility and so would not be a proper applicant.

This would normally be the situation where the sale is made f. o. b. factory, although it is recognized that such terms of sale may relate only to price and are not necessarily inconsistent with the assumption by the seller of full responsibility for effecting the exportation.

8. *Legal liability for violations.* Insofar as legal liability for any violation of the export-control law and regulations is concerned, every person who in any capacity participates in fact in an exportation knowing it to be unauthorized may be held to account, whether or not he appears as the formal applicant for the export license. In any particular transaction, for example, whoever, whether acting as principal (seller or buyer) or as agent for the seller or buyer, such as a freight forwarder, purchasing agent for a foreign buyer, broker, or any employee of such persons, knowingly facilitates an unlawful exportation may be held accountable as though he were the exporter. Any attempt to export commodities differing in any way from those licensed, or any alteration of a license, except by a duly authorized officer of the Government, is punishable under appropriate acts of Congress.

(b) *Separate applications for each commodity.*[1] A separate and complete application must be submitted for each commodity to each consignee in each country of destination except as otherwise specifically provided by the other provisions of Parts 370 to 399, inclusive, of this subchapter.

(c) *Single applications for related commodities.* (1) A single application for an individual license may include a group of related commodities. Related commodities are commodities which have the same processing code symbol and the same number following such symbol on the Positive List of Commodities (§ 399.1 of this subchapter). Unless the processing code symbol is followed by a number, the commodity is excluded from any related commodity grouping.

(2) RO commodities may not be included on the same application with R commodities.

(3) The application may be approved in whole or in part. Upon specific request, stated on the application form, the application will be considered as a whole, and either approved or rejected in its entirety.

(4) Additional sheets listing related commodities must be attached securely to the application form.

NOTE: For example, any of the rubber and manufactures, Schedule B Nos. 200100–209800, which have the processing code RUBR 2 may be combined on one application form, but not with commodities having a different symbol or number.

(d) *Applications to cover partial or periodic shipments.* Where partial or periodic shipments of an identical commodity are to be made by the applicant to the same consignee in a foreign country, an application may be filed covering the entire quantity of commodities to be so exported.

(e) *Applications for separate or additional licenses for making partial shipments by mail*—(1) *Partial shipments expected when application is submitted.* Where an exporter, at the time of applying for an export license, expects to make one or more partial shipments by parcel post against one order, he may submit one application to obtain separate licenses for each anticipated partial shipment by mail against such order. In such case, the applicant shall indicate in the commodity description column of the application the quantity of each partial shipment and note across the bottom of the column "Anticipated Partial Shipments by Mail Against One Order."

(2) *Partial shipment made after license is issued.* Where an exporter has not anticipated he would make partial shipments and is required to surrender an outstanding validated export license to a postmaster in order to make a partial shipment by mail of the quantity covered by the export license (see § 379.1 (f) (1) of this subchapter), he may obtain a duplicate(s) of such license covering the quantity of the unshipped balance, by submitting to the Office of International Trade a letter setting forth the following information:

(i) That the original license assigned Case No. ------ and License No. ------ issued to ----------
(Name and address of licensee)
has been surrendered to the postmaster at ---------- on ----------
(Address) (Date of shipment)
when partial shipment was made.

(ii) The quantity of commodities that have been shipped under the original license.

(iii) The number of separate shipments to be made against the unshipped balance of the original license, and the quantities to be included in each such shipment.

(f) *Second applications.* A second application covering the same proposed exportation shall not be submitted pending action on the first application.

NOTE: When an application has been returned without action to the applicant and is being resubmitted, a new application should not be filled out unless the necessary alterations on the old application would be too difficult to make or illegible. In those instances where a new application is submitted, the original OIT case number should be typed or written in ink on the new application Form IT–419, in the space provided for previous OIT case number. When a new application is submitted, the original application must be attached to the new application.

When an export license application has been returned without action with instructions that it is not to be resubmitted until a later date, the resubmission of the application must be in accordance with the requirements existing at the later date for the submission of a new application.

§ 372.3 *How to file an application for export license*—(a) *Time of submission.* Specific filing dates are established for certain Positive List commodities.[2] Applications for licenses to export such commodities shall be submitted at such times or during such periods as are announced in Current Export Bulletins. Applications for licenses to export commodities for which no specific filing dates are announced may be submitted at any time.

(b) *Form and manner of filing.* Application for a license shall be made on the form or forms and in the manner prescribed by the Department of Commerce. All terms, conditions, provisions, and instructions, including the applicant's certificate, contained in such form or forms are hereby incorporated as a part of the regulations in Parts 370 to 399, inclusive, of this subchapter. The return post card furnished with each application must be filled in and submitted to the Department of Commerce with the application.

(c) *Information required.* The following general provisions shall govern all

[1] See § 372.7 for submission of related applications for unit consideration.

[2] § 373.51 of this subchapter.

applications for export licenses submitted on Form IT–419 (whether the applicant uses Form IT–419 (Revised August 1949 and August 1950), or the Form IT–419 (Revised September 10, 1951)):

The applicant must state, among other things, for each item listed, (1) the quantity to be shipped, (2) a description in sufficient detail to permit accurate identification, including its Schedule B number and (3) the total selling price of the item and its price per unit.

NOTE: 1. *Application forms.* Applications for validated licenses must be submitted on Form IT-419 (revised August 1949), Application for Export License, accompanied by Form IT-116 (revised August 1949), Acknowledgment Card. An application is incomplete and will be returned to the applicant unless accompanied by the acknowledgment card.

Application forms IT-419 and IT-116 may be obtained by writing to any Field Office of the Department of Commerce.

Exporters may print facsimiles of Form IT-419 with printed answers to many of the questions, provided the facsimiles are identical with the official form in size, ink color, and typographic arrangement.

2. *Preparation of Form IT-419 (Revised August 1949 and August 1950).* The following instructions apply to the preparation of applications, Form IT-419 (Revised August 1949 and August 1950), for all types of validated export licenses issued by the Department of Commerce, except as modified by special licensing procedures and provisions contained in Parts 372 through 375 of this subchapter.

A separate application must be filed for each entry on the Positive List, except when two or more entries have the same processing code and related commodity group number. (See § 372.2 (b) and (c).)

Applications should be typewritten, but will be accepted if written legibly in ink.

Only the original (green ink) copy need be submitted. The duplicate (applicant's file copy) may be retained by the applicant.

Item 1, name of applicant (exporter): Enter the name and address of the corporation, partnership, or individual who is in fact the exporter. The name of an agent for the applicant may not be shown except when the exporter in fact is not subject to the jurisdiction of the United States and the application is being filed in his behalf by his authorized agent in the United States. (See § 372.2 (a).)

Item 2, date of application: Enter the date of the application.

Item 3, country of ultimate destination: The country of final destination is to be entered, not a country through which the exportation may travel in transit to its final destination. This destination must be the same as that shown as the address of the ultimate consignee in item 8 (a). (See §§ 372.2 (a); 381.1 (b); 381.4 of this subchapter.) (See exception in § 372.5.)

Item 4 (a), applicant's reference number: This item is for applicant's use for identifying the application and material concerning it in his files. If a reference number is used, it should appear on Form IT–116 and all documents which accompany the application. If applicant has no reference number, he may leave this space blank.

Item 4 (b), previous OIT case number: This item should be answered only when a previous application covering the same transaction has been returned without action or rejected, and a new application form is being submitted. (See §§ 372.2 (f); 383.1 (f) of this subchapter.)

Item 5, import license or authorization number: Answer this item only when specifically required by current regulations.

Item 6, MSA authorization: If the exportation is to be made under the Mutual Security Program, enter the number and symbol of the procurement or loan authorization under which foreign purchaser is importing. If such number and symbol are unknown or not assigned at the time application is filed, state "unknown," or "not yet assigned."

Item 7, name of principal: If the applicant named in item 1 is acting as an agent for the true exporter who is not subject to the jurisdiction of the United States, enter the name and address of the principal for whose account the exportation is to be made. Describe the facts of the case, using a separate sheet if more space is necessary. (See § 372.2 (a).)

Item 8 (a), ultimate consignee in foreign country: Enter the name and address of the firm or person who is actually to receive the articles or materials for the end use set forth in item 10. If such firm or person is not also the purchaser, the name of the purchaser should not be entered in this space but should appear in item 8 (c). The address shown for the ultimate consignee must be the same country as the final destination (item 3). Do not enter the name of a forwarding agent, freight forwarder, or other intermediate consignee in this space. (See § 372.2 (a).) (See exception in § 372.5.)

Item 8 (b), intermediate consignee in foreign country: Enter the name and address of the bank, forwarding agent, freight forwarder, or other intermediary, if any, in a foreign country who is to act as an agent of either the exporter, the ultimate consignee, or the purchaser, in effecting delivery of the exportation to the ultimate consignee. If no intermediary is to be used, applicant should state "none"; or if same as ultimate consignee, "same." If, at the time the application for export license is submitted, the intermediate consignee is not known, the applicant may state "unknown."

In all cases, before a shipment will be cleared for export, the name and address of any intermediate consignee must be ascertained and set forth on the shipper's export declaration, whether or not named on the license application or validated license. (See § 379.2 (a) (2) of this subchapter.) (For situations where amendment of license is required prior to clearance in respect to intermediate consignee, see § 380.2 (f) of this subchapter.)

Item 8 (c), purchaser in foreign country: Enter the name and address of the firm or person abroad who has entered into the transaction with the applicant to purchase the articles or materials for delivery to the ultimate consignee. If such firm or person is the same as the ultimate consignee, state "same." (See § 372.2 (a).)

Item 9 (a), quantity to be shipped: Enter the total number of units of the material to be exported, using the unit of quantity shown in the Positive List of Commodities (§ 399.1 of this subchapter), and also in trade units, where different; where no unit of quantity is shown, show the unit commonly used in the trade. (See § 372.11 (c).) (Variations in the net quantity specified are permitted only within the tolerance limits described in § 372.12.)

Item 9 (b), commodity description: Describe the articles or materials in terms which correspond with the commodity descriptions shown for them in Schedule B (revised January 1952). Furnish additional details to the extent necessary for identification of the specific items classified under a particular Schedule B number on the Positive List. (Include composition, type, size, gauge, grade, horsepower, etc., where applicable; show brand or trade names, catalog numbers, or other trade characteristics which will aid in exact identification of the commodities.) If there are reasons or specifications which make the commodities unusable or unsalable in the United States, so state.

The foregoing general provisions regarding commodity descriptions are modified and supplemented by special provisions governing applications covering certain stated commodities. (See Part 373 of this subchapter.)

Item 9 (c), Schedule B number, processing code, and related commodity group: Enter the Schedule B number for each commodity, as shown on the Positive List of Commodities; also the processing code and related commodity group number (the numeral following the processing code), if any. The processing code (and related commodity group number, if any) should be followed by a dash and the letters "RO" if the commodity to be exported is an "RO" commodity; if an "R" commodity, the letter "R" should be shown. A separate application must be filed for each entry on the Positive List except for two or more entries having the same processing code and related commodity group number. (See §§ 372.2 (b), (c) and 372.6; also § 399.1 of this subchapter; General Notes to Appendix A, paragraph (f).)

Item 9 (d), selling price and point of delivery: Enter the total price to be received for each commodity shown on the application, specifying the particular form of quotation, such as f. o. b. (factory) f. a. s. (named port), etc., and naming the point of delivery. The unit price should also be shown except where a large variety of products within a single Schedule B classification makes the break-down impracticable. In such cases, only the total price need be shown, but the applicant must be prepared, upon request of the Office of International Trade, to submit a detailed statement of unit selling prices.

For applications covering certain RO commodities on the Positive List, the price stated must be the export contract price, and the point of delivery must be clearly indicated. Where normal trade practices for a given commodity make it impracticable to establish a firm contract price, the precise terms upon which the price is to be ascertained and from which the contract price may be objectively determined must be stated. Do not use general statements such as "market price at time of delivery or shipment." (See § 373.1 (a) of this subchapter.)

Item 10, end use: Intended end use, an important factor in determining issuance of a license, must be fully and explicitly set forth in this item. Select from the following general statements of end use the one(s) which apply to the proposed exportation, entering in item 10 the letter(s) which correspond with the statement(s):

(a) For purchaser's own use.

(b) For resale in the open market or for conversion into goods to be so marketed, stating what will be produced or manufactured.

(c) For a service to be rendered, indicating how the item(s) described will be used in the service.

(d) For new construction or expansion.

(e) For maintenance, repair, or operation of existing facilities.

(f) To enable the purchaser to produce and export needed materials.

(g) To be reexported, and, if so, to what country.

(h) To fill a specific need endorsed as of high priority by the government of the receiving country, stating the need and the nature of the endorsement.

(i) Other (specify).

The general statement(s) corresponding with the letters entered in item 10 should be supplemented with a detailed description of the specific use of the proposed exportation and its ultimate significance in the economy of the country of destination. The applicant should state what will be produced or manufactured, the nature of the service to be rendered, and the urgency of the need of the materials to be exported in accomplishing the stated purpose. The particular industry, mine, shipyard, etc., where the end use will be accomplished should be identified.

Item 11, availability of material to be exported: Only applicable parts of item 11 need be answered. For example, a producer or manufacturer of the materials to be exported need answer only part (a). A nonproducer should answer such parts of this item as will indicate the exact status of his procurement of the commodities to be exported, giving the name of his supplier and the approximate delivery date. Licenses to export certain commodities will be granted only when answers to this item indicate that the commodities are actually available to the applicant from the named supplier within the date covered by the validity period of the license. (See part 373 of this subchapter.)

Item 12, addressee to whom license is to be sent: If the applicant wishes the license, if issued, to be sent to an agent, to whom he has delegated authority to receive and sign the license, the name and address of such agent should be entered in this item. (See part 379 of this subchapter; also § 381.3 of this subchapter.)

Item 13, signature: The name of the applicant, as it appears in item 1, must be entered on the designated line to the left. The signature of the applicant, or his officer or duly authorized agent, must appear in ink on the center line as indicated. The name and title of the person who signs must be typed or printed legibly on the designated line to the right.

Unsigned applications will be returned to the applicant without action.

3. *Preparation of Form IT-419 (Revised September 10, 1951).* The following instructions apply to the preparation of applications on Form IT-419 (Revised September 10, 1951) for all types of validated export licenses issued by the Department of Commerce, except as modified by special licensing procedures and provisions contained in Parts 372 through 375 of this subchapter. (See Note 2 above.)

Item 1: The name and address of the applicant must be entered in Item 1. (See § 372.2 (a), Who May Apply.)

Item 2. The address of the collector of customs through whom shipment is to be made must be entered in this space. Give name of port; if unknown, state "Unknown." If export is to be by mail, so state.

Item 3: The person named as purchaser should be the person abroad who has entered into the export transaction with the applicant. If such person is the same as the ultimate consignee, applicant should state "Same."

Item 4. The name and address of the applicant or person authorized by the applicant to receive the license, if issued, should be entered in this space.

Item 5: The country of final (ultimate) destination is to be entered, not a country through which the exportation may travel in transit to its final destination. Transshipment or diversion of commodities from country of final (ultimate) destination are violations and punishable by imprisonment or fine, unless authorized by OIT.

Item 6: Enter the import permit number or MSA authorization number, if required by specific regulations. If application is related to the Mutual Security Program, the identification number and symbol of the procurement authorization or loan authorization under which the foreign customer is entitled to import should be inserted, if known; if unknown or not yet assigned, so indicate.

Item 7: The person named as ultimate consignee should be the person abroad who is actually to receive the material for the designated end use. A bank, freight forwarder, forwarding agent, or other intermediary is not acceptable as an ultimate consignee, but should be disclosed as the intermediate consignee. A statement of ultimate destination and prohibition against diversion must be placed on shipper's export declaration, bills of lading and commercial invoices for various export shipments as provided by § 381.4 of the Comprehensive Export Schedule.

Item 8: The intermediate consignee may be a bank, forwarding agent, or other intermediary in a foreign country who participates as an agent for the exporter or for the purchaser or ultimate consignee for the purpose of effecting delivery of the exportation to the purchaser or ultimate consignee. If no intermediary is to be used, state "None;" if unknown at time of application, state "Unknown." In all cases the actual intermediate consignee (name and address) must be ascertained and disclosed on shipper's export declaration filed before exportation. In certain cases amendment of the license also is required.

Item 9 (a): Give the quantity to be shipped, using units specified in the 1952 edition of Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States[3] (unless otherwise specified in the Comprehensive Export Schedule) and also in trade units, where different.

Item 9 (b): Commodities must be described in terms which correspond with the commodity descriptions in Schedule B. Additional details must be furnished to the extent necessary for identification of the specific items so classified. (Include basic ingredients, composition, type, size, gauge, grade, horsepower, etc., where applicable. Show brand or trade names, catalog numbers, or other trade characteristics which will aid in exact identification of commodities.)

Item 9 (c): The Schedule B number, processing code, and related commodity group number, if any, must be shown in this column. (Unless the processing code is followed by a related commodity group number, a separate application must be filed for each entry on the Positive List of Commodities.)

Item 9 (d): Unit price should be shown except where a large variety of products within a single Schedule B classification makes such a breakdown extremely difficult. In such cases only total price need be shown. The applicant must show total price in the customary form of quotation such as f. o. b. (factory), f. a. s. (named port), c. i. f., or other form. The particular form of price quotation must be specified. If accepted order is involved, the price stated must be the export contract price, and point of delivery must be clearly indicated. Where the normal trade practice in a given commodity makes it impracticable to establish a firm contract price, the precise terms upon which the price is to be ascertained and from which the contract price may be objectively determined must be stated on the application. A mere statement by the exporter of "market price, at the time of delivery of shipment" or other such general statement of price, will not be acceptable.

Item 10: If the applicant is exporting for other than his own account, the name and address of the foreign principal must be shown and an explanation of the transaction given in full. (See Interpretive Statement Regarding Applicants, Licensees, and Parties following paragraph (a) of § 372.2.)

Item 11: This item relates to the availability to the applicant of the material to be exported. If not the producer, applicant must show status of delivery by answering (b) or (c).

Item 12: End use of commodities covered by this application will be an important factor in determining issuance of license. Statement by ultimate consignee (and purchaser, if not same) as to ultimate destination and end use must be submitted for certain exportations as required by the regulations. Applicant should indicate clearly the end use for which material is to be exported, e. g.:

For purchaser's own personal use;

For resale in country of ultimate destination and consumption in that country;

For a service to be rendered, indicating how the item(s) described herein will be used in this service;

For new construction or expansion;

For maintenance, repair, or operation of existing facilities;

To enable the purchaser to produce the following needed materials or products for export to (insert country);

To be reexported and, if so, to what country;

To fill a specific need endorsed as of high priority by the government of the receiving country, stating the need and the nature of the endorsement;

However, end-use statements consisting of brief outlines (such as above) are not considered sufficient in themselves. A complete and detailed description of end use is required.

Item 13: The date of the application must be shown.

Item 14: The applicant's reference number may be used for applicant's convenience.

Item 15: If a previous application covering this same transaction has been submitted, the OIT case number must be entered in this space (see § 372.2(f) and note thereto). (To be answered only when the application covers the same transaction for which a previous application was returned without action, or rejected, by OIT. Exporters must *not* submit a duplicate application to cover any transaction for which an application for export license is still pending before OIT.)

Item 16: Application must be signed by applicant, or by an officer or duly authorized agent of the applicant. (If signed by agent of the applicant, title and firm name of agent must be shown.) The name of the applicant and the name and title of person who signs the application must also be typed or printed legibly in the space provided. Sign the original copy.

4. *Preparation of Form IT–116.* An acknowledgement card, Form IT–116 (revised), with both portions completely and correctly filled out, must accompany each license application.

This card must be made out in the name of the applicant, as shown in item 1 of Form IT–419 (revised). Upon receipt of the application, the Office of International Trade will enter on the card the case number assigned to the application, and the date of receipt, detaching and returning to the applicant the return portion (applicant's copy).

If the application is submitted by an agent, or if the applicant wishes an agent to receive an acknowledgment card, the upper portion only (applicant's copy) of an additional acknowledgment card may be filled out in the name of the agent and submitted with the application.

The date of application, applicant's reference number (if any), country of destination, Schedule B number, and processing code (and related commodity group number, if any) must be the same as the corresponding entries on Form IT–419 (revised). Only a brief commodity description is required to be shown on Form IT–116.

5. *Assembly and submission of applications.* All documents or correspondence accompanying the license application, bearing the applicant's reference number, if any, should be firmly stapled together in the upper left-hand corner.

Form IT–116 (revised), typed side up, should be attached with a paper clip (not stapled) to the upper left-hand corner of Form IT–419 (revised). The two portions of Form IT–116 should not be separated.

Applications should be submitted (preferably by mail) to the Office of International Trade, Washington 25, D. C.

[3] For sale by Superintendent of Documents, United States Government Printing Office, Washington 25, D. C., and at all field offices of the Department of Commerce.

Applications which omit essential information will be returned without action.

6. *Inquiries and correspondence.* Every effort is made to examine applications and advise applicants of action in the shortest time. Applicants should allow a period of 4 weeks after receipt of returned acknowledgement card, Form IT–116, before inquiring as to progress of an application. Certain types of applications require more time for necessary examination and consideration.

Requests for information concerning the application of regulations to specific fact situations, the status of delayed cases, or any other inquiry concerning export license applications should be addressed to the Exporters' Service Section, Office of International Trade, Department of Commerce, Washington 25, D. C. Such communications should not be attached to an application for license but should be mailed in a separate envelope. Memoranda attached to license applications should be limited to informational data relating to those applications and should not include inquiries requiring individual reply.

When inquiries are made concerning the status of applications, the following reference information is required:

(a) Name of applicant.
(b) Case number assigned on return postcard.
(c) Date of application.
(d) Country of destination.
(e) Name of consignee.
(f) Name, quantity, and value of commodity shown on application. (Specific information is essential for identification.)
(g) Schedule B number.
(h) Processing code.

Information as to the probable action of the Office of International Trade respecting a proposed shipment or a hypothetical license application will not be given. It will be necessary in all cases to submit an application together with pertinent information in order to obtain a decision.

A supporting letter should give additional information only for the application to which it is attached.

When an exporter requests telegraphic reply to an inquiry, the complete address of such person or company, including name, street, city, postal zone number, and State, must be given; or if desired, the Western Union "WUX" designation may be substituted for the address. This will expedite the servicing of these requests by the telegraph companies.

Telegraphic replies will be made at the expense of the inquirer.

7. *Clearance by teletype.* In case of emergency, the Office of International Trade will, upon approving an application for export license, authorize clearance by teletype or telephone call to the appropriate collector of customs. In such cases, the license is not sent to the licensee, but to the collector of customs with whom the clearance has been authorized by OIT.

(d) *Data supplementing the license application*—(1) *Scope.* The provisions of this paragraph apply to all proposed shipments for which validated export licenses are required where the country of ultimate destination is a country in Group R, unless the license application covering the proposed shipment shows that one or more of the following conditions are present:

(i) The application for license to export the proposed shipment is covered by an import certificate submitted in accordance with § 373.34 of this subchapter.

(ii) The total value of the shipment, as shown on the license application, is less than $500 and the shipment is not covered by a multiple-transaction statement submitted in accordance with § 372.3 (d) (3).

(iii) Shipment will be made under a project license issued or to be issued as set forth in Part 374 of this subchapter.

(iv) The ultimate consignee named in the license application is a foreign government or foreign government agency, and the foreign purchaser (if different from the ultimate consignee) is also a foreign government or a foreign government agency.

(v) Shipment will be made by a relief agency registered with the Advisory Committee on Voluntary Foreign Aid, Department of State, to a member agency in the foreign country.

NOTE: These facts and representations set forth in subparagraph (2) of this paragraph need not be made by the ultimate consignee where the license applicant is the same person as the ultimate consignee in the country of ultimate destination provided the applicant furnishes on his license application all the applicable information required in subparagraph (2) of this paragraph. This condition is not present where the applicant and consignee are separate entities, such as parent and subsidiary, or affiliated or associated firms.

(2) *Statement from ultimate consignee.* The applicant must attach to each license application to export any commodity to a Group R destination a true copy of a statement or order manually signed by a responsible official of the ultimate consignee named in his application, certifying the following facts with respect to each commodity. Such statements may be submitted on Form IT–842, or in the form of a letter, wire or cable.[1] Statements from the ultimate consignee by wire or cable may be accepted even though not signed manually.

(i) The ultimate destination of the commodity or commodities described in the application (items 9 and 10 of Form IT–842[1]).

(ii) The end use of such commodity or commodities, which must be a detailed description of the specific use to which the commodity or commodities will be put in the country of ultimate destination. If the ultimate consignee intends to distribute or resell, such statement must either contain assurance that distribution and resale will be made only in the country named as ultimate destination or must name all of the other countries in which resale or distribution will be made. The ultimate consignee must also describe the types of customers to whom the resale or distribution will be made and the specific end use to be made of the commodity by such customers. If the ultimate consignee or his customers will use the commodity to produce other end products, these must be named and the country or countries in which such end products will be distributed must also be named, if these facts are known (items 7 and 10 of Form IT–842[1]).

(iii) A description of the export transaction sufficient to identify it as the same transaction described in the application (items 1, 2, 3, 4 and 5 of Form IT–842[1]).

(iv) That the ultimate consignee will promptly send a supplemental statement to the United States exporter of any change of facts or intentions set forth in his statement which occurs after the statement has been prepared and forwarded; and that with respect to any shipment which he proposes to dispose of contrary to the representations made in the statement, he will notify the U. S. exporter and will secure approval of the Office of International Trade through the U. S. exporter prior to such disposition (item 12 of Form IT–842[1]).

(v) An undertaking that the commodity or commodities covered by the statement, and any final products thereof, will not be sold or distributed by the person making the statement, or by his customers in any country or countries not named in the statement (items 9 and 10 of Form IT–842[1]).

NOTE: United States exporters may wish to advise their foreign importers (ultimate consignees and purchasers) to submit these statements in as many copies as the exporter requires for all license applications to be submitted in connection with the importer's order.

(3) *Multiple transaction statement from ultimate consignee.* As an alternative to subparagraph (2) of this paragraph, which provides that each application for license shall be accompanied by a separate statement specifically covering the proposed exportation described in each application, the following procedure is authorized:

Exporters who have a continuing and regular relationship with an ultimate consignee (including but not limited to applicants having foreign branches or subsidiaries or distributors under franchise with the applicant) involving recurring orders for the same kind of commodities to the same destinations and for the same end uses, may submit to the Office of International Trade the original or a copy of a statement on Form IT–843[1][2] manually signed by a responsible official of the ultimate consignee covering all proposed exportations of such commodities for any part or all of the year beginning July 1, 1952, and ending June 30, 1953. If this procedure is used, the exporter shall also submit two copies[3] of the statement, plus an additional copy for each OIT processing code to which the statement applies. When submitting such statements, the exporter must attach a list of the processing codes to which the statement applies.

All applications for licenses submitted on the basis of a multiple transaction statement under this procedure must contain the following:

This application is supported by the statement dated ---------- from the named consignee to this applicant.

The statement must be signed by the ultimate consignee, and must contain the following representations and certify as to the following facts:

(i) That the statement shall be considered a part of every application for license filed by the named applicant for export of the commodity or commodities described in the statement (item 4 of Form IT–843[1]).

(ii) That the ultimate consignee will promptly send a supplemental statement to the United States exporter of any change of facts or intentions set forth in the statement which occurs after the statement has been prepared and forwarded; and that, with respect to any shipment which he proposes to dispose of contrary to the representations made in the statement, he will notify the U. S. exporter and will secure approval of the Office of International Trade through the U. S. exporter prior to such disposition (item 13 of Form IT–843[1]).

(iii) The nature of the ultimate consignee's business, including whether he is the user, seller, etc., of the commodities described in the application (item 6 of Form IT–843[1]).

(iv) The nature of the consignee's business relationship with the applicant, and how long the relationship has existed (item 7 of Form IT–843[1]).

(v) The nature and scope or extent of the ultimate consignee's operations by country and type of customer, including the method of distribution and redistribution, if any, of the commodities covered by the statement or products thereof (items 9, 10, and 11 of Form IT–843[1]).

(vi) The specific commodities regularly ordered by the ultimate consignee and the respective end uses thereof. The end-use information shall be set forth in as much detail as is known to the consignee in the course of his trade (items 5 and 8 of Form IT–843[1]).

(vii) If the ultimate consignee regularly sells or distributes a commodity or commodities described in the statement to a particular customer or type of customer, the ultimate consignee shall also describe the kind of products to be produced from the commodity or commodities, and to the extent known, the countries in which such products are produced and distributed (item 11 of Form IT–843[1]).

(viii) The country or countries where the commodity or commodities covered by the statement, and any final products thereof, will be sold or distributed by the person making the statement, or by his customers (items 10 and 11 of Form IT–843[1]).

(4) *Statement from foreign purchaser.* If a purchaser named in any such application is a different person from the named ultimate consignee, the purchaser must either sign the statement from the ultimate consignee or the applicant must also attach to the application the additional statement or order (or wire or cable) executed by such purchaser covering the same subject matter as that required to be furnished by the ultimate consignee.

[1] Forms IT–842 and IT–843 may be obtained at all Department of Commerce Field Offices and from the Office of International Trade, Department of Commerce, Washington 25, D. C. Foreign importers may obtain copies of Forms IT–842 and IT–843 from their United States exporters or from any United States Diplomatic and Consular Office abroad.

[2] Use of this form becomes mandatory on and after July 1, 1952. Multiple-transaction statements accepted by the Office of International Trade before this date in accordance with provisions in effect prior to March 13, 1952, will remain valid only through June 30, 1952.

[3] See footnote to subparagraph (2) of this paragraph.

[4] The U. S. exporter may submit the original statement in lieu of one true copy if desired. Each copy submitted but not originally signed by the consignee or purchaser must be certified to be a true copy of the original, as provided in § 372.9.

EXPLANATORY STATEMENT AND INTERPRETATIONS

1. Q. What is the multiple-transactions procedure?

A. Many exporters have a continuing and regular relationship with certain of their foreign consignees involving recurring orders for the same kinds of commodities to the same ultimate destinations and for the same end uses. Such cases include, but are not limited to, firms having foreign branches or subsidiaries or franchised distributors. With respect to such transactions, it is recognized that the requirement of individual "ultimate consignee" statements with each application may be unnecessarily repetitious and possibly burdensome. To meet this problem, the multiple-transactions procedure has been established by which the Office of International Trade will accept a single statement from the ultimate consignee covering the information required by the regulation.

Under the multiple-transactions procedure, the single statement will be treated as a part of every application filed by the applicant for export of a commodity to the consignee until the date shown on the statement as its expiration date. However, if the statement does not contain any date for expiration, or if the date is December 31, 1951, or March 31, 1952, the statement will be treated as a part of every application filed by the applicant for export of a commodity to the consignee until June 30, 1952. If there is any future change in the matters set forth in the statement, the consignee must promptly send the applicant a supplemental statement reflecting such change. The statement must be signed by a responsible official of the ultimate consignee who may be located either in the United States or abroad.

Under the multiple-transaction procedure, the statement (Form IT–843) will be treated as a part of every application filed by the applicant for export of a commodity to the consignee until the date shown on the statement as its expiration date. However, if the statement does not contain any date for expiration, the statement will be treated as a part of every application filed by the applicant for export of a commodity to the consignee until June 30, 1953.

2. Q. What is the purpose of the Ultimate Consignee Statement Regulation?

A. Applicants have always been required to submit on their applications information regarding the ultimate destination and end use of the commodities to be exported. It had been OIT practice to rely largely upon the applicant's own representations in this regard, supplemented, in proper cases, by direct inquiries here and abroad to verify such representations. Many applicants have regularly been obtaining information of this character from their customers to provide assurance to themselves for the representations which they have been required to make in their applications. Moreover, such information has been readily made available to OIT by applicants and foreign consignees in specific instances.

The regulation is intended simply to regularize these practices and, more specifically, to make more certain that foreign consignees are fully aware of their responsibility not only for the representations made to OIT but also for the proper disposition of the licensed commodities in the foreign country. In addition, it should facilitate the processing of applications and curtail the expensive and time-consuming supplementary inquiries now often necessary.

3. Q. To what cases does this requirement apply?

A. This statement is required only in connection with applications for validated licenses to ship commodities to Group R destinations (except project licenses, for which such information is already required).

4. Q. From whom is the statement required?

A. The statement must be furnished by the firm or individual that will be named as ultimate consignee on the application and also from the firm or individual that will be named as purchaser on the application, if not the same as the named ultimate consignee.

5. Q. Is any particular form of statement required by OIT?

A. Statements submitted under the multiple procedure must be on Form IT–843. Individual statements may be submitted on Form IT–842, or in the form of a letter, wire, cable, or other statement provided that all the required information is supplied. No form of notarial or other government certification is necessary.

6. Q. Must all the specified items of information be covered in the statement?

A. Yes, to the extent they are pertinent. This is an information-seeking requirement and, therefore, is satisfied by the furnishing of all applicable information. Of course, if applicable information is unknown, that fact should also be disclosed.

7. Q. What is the liability of the ultimate consignee or purchaser for misrepresentations, failure to disclose facts or for disposition of commodities contrary to representations made in the required statement?

A. Depending upon the particular circumstances, such ultimate consignee or purchaser may be subject to administrative action by OIT, looking to suspension or revocation of licensing privileges and denial of other participation in U. S. exports.

8. Q. Will submission of the required information in a statement from the consignee assure the approval of a particular license application?

A. Favorable action is, of course, not assured by the submission of the end-use and destination statement from the consignee. While information regarding end use and destination are essential, other criteria and policies will have to be considered in connection with the issuance of licenses.

9. Q. When the ultimate consignee is a foreign government does this regulation apply?

A. Where the ultimate consignee named in the application is a government or government agency, no statement by such consignee as to end use and destination will be required. However, if a purchaser other than the foreign government or government agency is named on the application in such a transaction, a statement from the purchaser will be required.

10. Q. When exportations are financed by U. S. or International agencies, such as MSA, Export-Import Bank, International Bank, MDAP, etc., will the statement of end-use and destination be required?

A. Yes, because government financing generally is not made with reference to specific transactions.

11. Q. If the foreign party placing the order with the U. S. applicant is a reseller, from whom is the consignee statement required?

A. (a) When the foreign consignee who placed the order with the U. S. supplier is a reseller of goods to whom the U. S. supplier ships directly, the reseller is properly designated as the "ultimate consignee," and a statement from him is required designating the end use as "resale," plus the other pertinent facts required by the regulation.

(b) If the U. S. exporter ships directly to the customer of the foreign reseller, the reseller must be designated as the purchaser, and the customer of the reseller as ultimate consignee. An end-use and destination statement will be required from each of these parties. For example:

If a foreign distributor of automobiles orders and receives delivery of a shipment

from his U. S. supplier, such a distributor shall be designated as the ultimate consignee and a statement of end use and destination from him is required. However, if the foreign distributor places the order with his U. S. supplier with instructions to ship directly to his customer, then the foreign distributor's customer must be designated as ultimate consignee. A statement from each of these parties is required.

In the case of highly strategic commodities and other commodities licensed principally on the basis of end use, the OIT, after receipt of the application, may require additional information (in accordance with the provisions of § 372.10) regarding the use to be made of the commodity by the actual user or consumer, when such additional information is deemed necessary to a proper consideration of the application. This may also include a requirement for a written statement from the actual end user.

12. Q. Who can sign the ultimate consignee statement?

A. A responsible official of the ultimate consignee who can bind the person or firm to its commitments. This official may be located in the United States or in a foreign country.

(5) *Applications filed without statements.* Applications not supplemented by statements (where required) from the ultimate consignee or purchaser will be returned without action to the applicants. However, an applicant who can show to the satisfaction of the Department of Commerce that he has made diligent efforts to obtain such statement and has been unable to get it, may so advise the Department of Commerce in a letter attached to his application, giving the stated reasons of the ultimate consignee or purchaser for failing or refusing to give the applicant such statement.

(6) *Statement; commodities added to Positive List.* When a commodity becomes subject to the requirements of this section by reason of having been added to the Positive List, export license applications for such commodity to Group R countries need not conform to these requirements for a period of 30 days from the time such commodities are added to the Positive List. In lieu of the end-use and ultimate consignee statement during such 30-day period, applications shall be accompanied by any evidence available to the exporter which will support the applicant's representations concerning the ultimate consignee and end use. Such evidence may consist of copies of the letter of credit, the order for the commodities, correspondence between the exporter and the consignee, or other documents from such consignee.

NOTE: 1. *Purchase order.* The statement from the ultimate consignee and purchaser may cover more than one purchase order and one purchase order may involve several commodities; however, the statement shall relate only to purchase orders placed by a single ultimate consignee and a single purchaser with a single United States exporter.

2. *Submission of statements covering several applications.* Where the statement covers commodities for which more than one export license application must be submitted, a true copy of the statement shall be attached to each application to which it is equally applicable. Any application to which a true copy of the statement is attached shall contain a reference (OIT case number, if known, or applicant's reference number) to all other applications submitted at any time against the same statement.

3. *True copies and translation requirements.* "True copies" are photostatic or other copies of an original document which are certified by the applicant to be a true copy, either on the face of the photostatic or other copy or on an attachment which identifies the statement. All abbreviations, coded terms, or other expressions having special significance in the trade or to the parties to the transaction must be explained. Documents in a foreign language must be accompanied by an accurate English translation. Such translation need not be made by a translating service but, if not, must be certified by the applicant to be a correct translation. Exporters may provide their foreign customers with Forms IT-842 and IT-843 translated into the foreign language of the customers. Copies of Forms IT-842 and IT-843 in foreign languages will not be provided by the Office of International Trade. (See § 372.9.)

4. *Applicant's responsibility for full disclosure.* In submitting statements from the ultimate consignee and foreign purchaser, the applicant is not relieved of responsibility for full disclosure of any other information concerning the ultimate destination and end use of which he has knowledge or belief, whether or not inconsistent with the representations of the ultimate consignee or foreign purchaser. In accordance with the provisions of § 381.1 of this subchapter, the applicant also shall bring to the attention of the Department of Commerce any change in the facts which were set forth in the first or any such supplementary statements from the ultimate consignee or purchaser and which change was brought to his notice by the ultimate consignee or purchaser subsequent to the date the statement was made.

5. *Distribution or resale.* If it is stated in a consignee's statement or on an export license application that the commodity or commodities to be exported are intended for distribution or resale in a country or countries other than the named country of ultimate destination, the validated license will specifically name the country or countries to which distribution or resale is authorized.

(c) *Letterheads and order forms.* The printed name, address, or nature of business of the ultimate consignee or purchaser appearing on his letterhead or order form shall not constitute evidence of either his identity, the country of ultimate destination or end-use of the commodities described in the application.

§ 372.4 *License applications for in-transit shipments.*[8] License applications for commodities moving in transit through the United States which may not be exported under the general license GIT must include the name and address of the original consignor, as well as that of the applicant, and bear the notation "In-Transit Shipment" in the commodity description column of the application form.

§ 372.5 *Ship stores, plane stores, supplies, and equipment*—(a) *Exportations requiring validated license.* The provisions of § 371.13 of this subchapter establish general licenses for the exportation of ship stores, plane stores, supplies, and equipment under the conditions prescribed. Where such commodities are not authorized for export by § 371.13 of this subchapter, or where such commodities are not authorized to be exported under any other general license, the exportation must be authorized by a validated license.

NOTE: See § 371.13 (b) of this subchapter on exports to vessels located at foreign ports.

(b) *Preparation of license applications.* Applications for licenses to export ship stores, plane stores, supplies, and equipment shall be prepared on Form IT-419 (Revised) in the manner described in § 372.3 and the Note following § 372.3, with the following modifications:

(1) In the space for applicant, show legal name of applicant (U. S. firm supplying the ship stores, owner of vessel, charterer, or agent, whoever is the exporter). The applicant must be subject to the jurisdiction of the United States.

(2) In the space for ultimate destination, show country of registry of the vessel on which the commodities will be used (even when the vessel is of United States or Canadian registry).

(3) In the space for ultimate consignee, show name and location of the vessel on which the commodities will be used.

(4) In the commodity description column, show name and address of owner of the vessel (or charterer; where vessel is under charter) on which the commodities described in this item will be used, where such person is not the purchaser named in the space for purchaser.

§ 372.6 *Commodities exported for relief or charity.* Applications for validated licenses to export commodities for relief or charity must show not only the appropriate relief category Schedule B number but also the specific Schedule B number established for the commodity when shipped commercially.

§ 372.7 *Unit-process applications*[9]—(a) *Description.* A unit-process procedure is established whereby several applications for individual export licenses covering diverse commodities to be used together and to be shipped to the same consignee, purchaser, and ultimate user may be filed together for the purpose of unit consideration.

(b) *Application requirements.* Under this procedure, applications shall be submitted in accordance with the following provisions:

(1) Each application must be submitted on Form IT-419.

(2) The consignee must be the same on all applications.

(3) The purchaser must be the same on all applications.

(4) The ultimate consumer, distributor-wholesaler, or user must be the same for all applications. (The "user" is the consumer if the licensed material is to be sold to a single buyer; retailer if the commodities are to be sold jointly at retail.)

(5) All the commodities must be intended for use together, the lack of any one rendering the others useless.

(6) The entire group of applications must be firmly stapled together in a single binder clearly marked "Unit Process."

(7) Each such group of applications must be accompanied by an acknowledgment card, Form IT-116.

§ 372.8 *Disclosure of prior action on the shipment*—(a) *Prior detention of commodities by customs.* Any exporter or his agent making application to the Office of International Trade for an export license, who shall know or have reasonable cause to believe that a collector of customs has detained commodities which would be exportable under such license, if granted, shall disclose to the Department of Commerce at the time of applying for such license the fact that the collector of customs has detained the commodities. Any license obtained without full disclosure of that fact shall be deemed to have been obtained without disclosure of all facts material to the granting of the license, and any license so obtained shall be void.

(b) *Prior exportation without a license.* No export license application shall be submitted to the Office of International Trade covering a shipment that is already laden aboard the exporting carrier or exported. In such cases where the shipment should have been authorized by a validated license, the exporter should send a letter or wire to the Exporters' Service Section, Office of International Trade, Department of Commerce, Washington 25, D. C., Attn: IT-1230, explaining why a validated license was not obtained and disclosing all the facts concerning the shipment that would normally have been disclosed on the license application. The Office of International Trade will inform the exporter of its action and instructions to him in the matter by letter. Any license covering such shipments obtained without such disclosure shall be deemed to have been obtained without disclosure of all facts material to the granting of the license, and any license so obtained shall be void.

NOTE: See §§ 380.2 (d) and 380.4 (c) of this subchapter with respect to amendments to licenses and extensions of validity periods of licenses to authorize shipments described in this section.

§ 372.9 *Documents accompanying applications for validated licenses*[10]—(a) *Copies may be submitted.* Documents submitted in support of an application for an individual or other validated license will not be returned to the applicant or his agent, except when the application is returned without action. Accordingly, applicants need not submit original documents which they may subsequently require, but in lieu thereof photostatic or other copy of an original document may be submitted, provided the applicant certifies, either on the face of the copy or in an attachment thereto (incorporating such copy by appropriate reference), as follows:

Certified to be a true copy of the original.

(Official title, if any)

Date ---

(b) *Originals must be available.* The Department of Commerce may demand the originals of any copies of documents submitted in support of applications. Such originals must be kept available for inspection, upon the Department's request, for 3 years from the date of receipt of the license application by the Department of Commerce, as shown on the acknowledgment card, Form IT-116.

(c) *Documents submitted with applications.* Documents which are submitted with an application and which will ultimately become a part of the license, such as proposed lists of consignees, or a listing of donors and donees, must be submitted in duplicate, affixed to the application. Such documents will become a part of the license, if issued, and must remain affixed thereto. Other documents submitted in support of an application which will not become a part of the license, such as evidence of accepted orders or evidence of availability of the commodity, need be submitted in one copy only and should be attached to the application.

(d) *Coded terms, foreign languages.* In the case of originals and certified copies of documents all abbreviations, coded terms, or other expressions having special significance in the trade or to the parties to the transaction must be explained. Documents in a foreign language must be accompanied by an accurate English translation. Such translation need not be made by a translating service, but, if not, must be certified by the applicant to be a correct translation.

§ 372.10 *Additional information.* Every person applying for an individual or other type of validated license shall, in addition to the information called for in Parts 370 to 399, inclusive, of this subchapter, in connection with such type of license or in the form on which the application is made, furnish such information with respect to such application as may be required by the Department of Commerce.[11]

§ 372.11 *Issuance and use of export licenses*—(a) *Issuance of license document.* When an application for an export license, except in the case of a project license, is duly approved by the Department of Commerce, an export license is issued on a separate document (Form IT-628) authorizing, subject to the provisions of Parts 370 to 399 of this subchapter, and to the terms and provisions of such license, the exportation of the quantity of those commodities described therein. (See §§ 372.3, 372.14, and 381.4.)

NOTE: The fact that the license may indicate the licensee to be an agent of a named principal or foreign importer not subject to the jurisdiction of the United States in no way lessens the responsibility of the agent as licensee or that of his foreign principal as a party in interest to the transaction. (See also Note following § 372.2 (a).)

(b) *Unit-process licenses.* When a unit-process application is approved, each individual export license application in such group will be validated. If any one of the individual applications in the group cannot be approved, the entire unit-process application will be rejected.

NOTE: 1. *Case number.* Each application when received by the Department of Commerce is given a number (the OIT case number) for identification purposes. The number does not indicate whether the application has been rejected or has been validated as a license. The OIT case number appears in the upper right corner.

2. *Validation of IT-628.* Except for project licenses for foreign projects and programs, which are issued on Form IT-419, when an application for export license is approved the license will be issued in the following manner:

(a) Form IT-628 will be prepared, validated, and issued by the Department of Commerce upon approval of a license application for the exportation of commodities to any destination. The license will be validated and identified by a license number in the upper right corner of the document. The license number is composed of a letter and a series of numerals following the validating symbol; for example, A0-2-8-04051, or B01031-33031. The digits immediately following the letter indicate the year, month, and day of validation; the last half of the number is the validating sequence. (A0-2-8 signifies a validating action in the year 1950 (0), in the month of February (2), on the eighth day of the month (8). B01031 signifies a validating action in the year 1950, in the month of October, on the last day of the month.)

(b) The license number of a project license, which is issued on Form IT-419 (see Part 374 of this subchapter), is the number appearing in the upper right corner, the case number originally assigned, as explained in paragraph (1), which becomes the license number when the Form IT-419 is validated and issued as a license.

(c) The perforation stamp previously used for validating export licenses will continue to be used for validating attachments to licenses, such as lists of consignees, donors, donees, etc.

3. *Use of license number.* Exporters are cautioned to use the complete license number (letter, digits indicating date of validation, and digits indicating validating sequence) when preparing shipper's export declarations and other export documents, and when communicating with or requesting services from the Department of Commerce.

(c) *Units of quantity.* Where no unit of quantity is shown in the column on the Positive List headed "Unit" (§ 399.1 of this subchapter), the quantity of such commodities authorized for export is licensed by the Department of Commerce in terms of the total dollar value shown on the licenses. For purposes of consideration of license applications, the Department of Commerce requires that the unit of quantity commonly used in the trade must be shown on the license application for export of such commodities; and although the units of quantity commonly used in the trade may be shown on the export license issued, the quantity of commodities authorized for export by the license is limited entirely by the total dollar value shown on the license.

(d) *Partial shipments.* Partial shipments may be made against a validated export license; however, when shipped by mail, only one shipment, whether complete or partial, may be made.

NOTE: The procedures for obtaining separate or additional licenses when making

[8] For in-transit shipments under general license, see § 371.9 of this subchapter.

[9] See § 372.11 (b) for issuance of unit-process licenses.

[10] See also interpretation following § 373.1 (b) of this subchapter.

[11] Subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

partial shipments by mail are set forth in § 372.2 (e). The procedures for making shipments by mail are set forth in § 379.1 (f) of this subchapter.

(e) *Validity of licenses.* (1) Outstanding licenses may be revised, suspended, or revoked, or the validity periods thereof may be extended or reduced, by appropriate orders or regulations.

(2) Individual export licenses will be issued for a validity period of 6 months from the date of validation, unless otherwise stated on the face of the license.

NOTE: Refer to Part 373 of this subchapter to determine if the special provisions for a commodity include any particular terms regarding the validity period of the individual export license.

(f) *Shipments against expiring licenses—(1) Commodities ready for loading or laden.* Commodities which are (i) laden aboard the exporting carrier or (ii) ready for lading and located on a pier for the purpose of lading prior to midnight of the expiration date of a license, and not for the purpose of storage, may clear with the vessel even though the vessel does not clear until after the expiration date of the license. Furthermore, where the vessel is expected to be available at the pier for loading in advance of the expiration of the license, but exceptional and unforeseen circumstances delay it, the commodities may be cleared for export without an extension of the validity period of the license, if in the judgment of the collector of customs undue hardship would otherwise result.

(2) *Other shipments.* Licensed shipments not coming within one of the foregoing provisions may not be cleared for export except by extension of the validity period of the license by the Department of Commerce.

§ 372.12 *Weight and volume tolerance—(a) 10 percent tolerance.* For all commodities requiring an export license, unless otherwise specified in such license, a 10 percent tolerance by weight or volume over the amount specified in the license is allowed, except as listed below in this section:

Commodities	Tolerance (percent)
Raw cotton except linters (Schedule B Nos. 300005 through 300312) (pounds or bales)	2
Sulfur, crude (containing 85% or more sulfur), crushed, ground, refined, sublimed, and flowers (Schedule B Nos. 571410 and 571500)	1
Medicinal and pharmaceutical preparations with processing codes DRUG and ACID, other than radium salts and compounds, Schedule B No. 813593 (Schedule B Nos. 811100 through 818000)	1

(b) *Unit of quantity covered.* (1) This tolerance is allowed only when the unit of quantity called for on the license is in the following weight or volume terms:

Avoirdupois ounce.	Hundredweight (100 pounds).
Bale.	Linear foot.
Barrel.	Linear yard.
Content pound.	Long ton (2,240 pounds).
Cubic foot.	M (1000) board feet.
Gallon.	Milligram.
Gram.	Oxford unit.
	Pound.
	Proof gallon.
	Short ton (2,000 pounds).
	Square foot.
	Square yard.
	Troy ounce.
	U. S. P. unit.

(2) The weight and tolerance provisions of § 372.12 shall not apply to the following units of quantity:

Carat.	Pack.	Roll.
Cell.	Pair.	Round.
Dozen.	Pencil gross.	Set.
Gross.	Piece.	Square.
Number.	Ream.	

(c) *Maximum tolerance allowed.* In all cases, the tolerance shall be allowed on the basis of the actual quantity stated in the license; and in no case shall the tolerance exceed 10 percent of such quantity.

For example: (1) If the quantity shown on the license is "100,000 pounds," not more than 110,000 pounds may be exported.

(2) If the quantity shown on the license is "100,000 pounds 10 percent more or less," not more than 110,000 pounds may be exported.

(3) If the quantity shown on the license is "approximately 100,000 pounds," not more than 110,000 pounds may be exported.

(d) *Commodities licensed in both container and weight or volume units.* Where commodities are licensed in terms of both standard-size container units and weight or volume units, the tolerance is allowed on the total weight or volume licensed: *Provided*, That the number of standard-size container units shall not be increased over the number thereof stated in the license.

For example: If the license authorized the shipment of 10,000 pounds of a commodity in twenty 500-pound drums, that license may be used to clear an exportation of not more than 11,000 pounds in not more than twenty such drums.

(e) *Partial shipments.* Whenever one or more partial shipments of the licensed commodity have been made, the license remains valid only for the unshipped balance of the licensed commodity plus 10 percent of such balance, except that in the case of shipments of iron and steel products (processing code STEE), and tinplate (processing code TNPL), the tolerance of 10 percent shall be applicable as provided in paragraph (c) of this section, regardless of whether partial shipments are made. In the case of raw cotton, except linters, the tolerance shall be 2 percent of the actual quantity stated on the license.

NOTE: When there is a discrepancy in weight or volume within the tolerance allowance between the amount shown on the license and the amount actually shipped, the amount actually shipped shall be noted on the license by the collector of customs at the final port of exit before the license is returned to the Department of Commerce.

When shipments are cleared against a BLT license, the applicable tolerance may be applied to the quantity approved for export to each single consignee, provided, however, that the total amount shipped against the license does not exceed the total amount approved for export plus 10 percent. In other words, the tolerance provisions may be applied on the amount approved for each consignee in the same manner and to the same extent as if he were the only consignee named in an individual license.

§ 372.13 *Port of exit*[12]*—(a) Shipments leaving United States before final exportation from United States port.* Commodities which leave the United States at one port, cross adjacent foreign territory, and reenter the United States at another port before final exportation to a foreign country will be treated as an export at the last port of exit from the United States.

(b) *Licenses valid for shipment from any port.* A license may be used for exportation from any port of exit from the United States subject to the jurisdiction of the United States unless the Department of Commerce shall otherwise provide.

(c) *Simultaneous shipments from different ports.* Simultaneous shipments from different ports of exit may be cleared for export under a single license by the collector of customs having possession of the license, through arrangements with the collector of customs at the other port or ports of exit, as provided by the Department of Commerce.

§ 372.14 *Reexportation from country of destination—(a) General provisions.* No exportation may be made under any validated license with the knowledge or intention that the commodities so exported are to be reexported from the country stated on the license application as the country of ultimate destination, unless the reexportation has been specifically authorized by the Department of Commerce, except as provided in paragraphs (b) and (c) of this section.

If it is stated in a consignee's statement or on an export license application that the commodity or commodities to be exported are intended for distribution or resale in a country or countries other than the named country of ultimate destination, the validated license will specifically name the country or countries to which distribution or resale is authorized. Authorization will be granted or withheld by an appropriate statement on the face of the license, as follows:

(a) "Distribution or resale of the commodities listed above is permitted in the country of ultimate destination only"; or

(b) "Distribution or resale of the commodities listed above is permitted in (name of country of destination), and (names of other approved countries)."

(b) *Tangier to Morocco.* Validated licenses covering R commodities which permit exportation to Tangier (including the International Zone), French Morocco, or Spanish Morocco are valid for shipment or transshipment of such commodities to Tangier (including the International Zone), French Morocco, or Spanish Morocco.

(c) *Reexportations.* Any commodity that has been exported from the United States may be reexported from any destination to any other destination: *Provided*, That the commodities, at the time of reexportation, may be exported directly from the United States to the

[12] The manner of effecting export clearance from ports of exit is set forth in § 379.1 of this subchapter.

new country of destination under general license GO or GRO.

§ 372.15 *Duplicate licenses.* Where a license is lost or destroyed, a duplicate of such license may be obtained by the licensee by submitting to the Office of International Trade a letter certifying:

(a) That the original license assigned Case No. _____ and License No. _____ (if known) issued to_____

_____
(Name and address of licensee)

has been lost or destroyed.

(b) The circumstances under which it was lost or destroyed.

(c) The quantity of commodities, if any, that have been shipped under the original license and at what port the license was filed.

(d) If the original license is found, the licensee agrees to return the original or duplicate license to the Department of Commerce.

NOTE: Where partial shipments have been made, the duplicate license issued by the Office of International Trade will be mailed directly to the collector's office at the port where the license had been filed.

§ 372.16 *Return of revoked, expired, or unused licenses.* If the license is revoked or expires or if shipment is not to be made, the license shall be returned immediately to the Department of Commerce, with a covering letter explaining the reason for such return. If the license is not in his possession, the licensee shall so notify the Department of Commerce.

§ 372.17 *Reports.* Any person to whom a validated license has been issued shall file with the Department of Commerce such reports as said Department shall, from time to time, require.[13]

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

Sec.
373.1 Export licensing general policy.
373.2 Special provisions for iron and steel.
373.3 Special provisions for manila or sisal fibers.
373.4 Deleted, effective June 1, 1950.
373.5 Special provisions for chemicals and medicinals.
373.6 Special provisions for wet cattle hides.
373.7 Special provisions for machinery and parts.
373.8 Special provisions for certain petroleum products.
373.9 Special provisions for diamonds.
373.10 Deleted, effective September 21, 1950.
373.11 Special provisions for commodities containing certain metals.
373.12 Deleted, effective April 20, 1950.
373.13 See § 380.2 (f).
373.14 Special provisions for certain commodities originating in Japan.
373.15 Deleted, effective December 6, 1951.
373.16 Special provisions for certain commodities; evidence of availability.
373.17 Deleted, effective October 11, 1951.
373.18 Deleted, effective September 17, 1951.
373.19 Export licensing policy for materials covered by NPA M (Materials) orders.
373.20 Special provisions for military wearing apparel.
373.21 Special provisions for commodities containing cobalt.
373.22 Special provisions for exportations to Switzerland.
373.23 Special provisions for exportations to Sweden and the Belgian Congo.
373.24 Statement of past participation in exports for certain commodities.
373.25 Deleted, effective January 31, 1952.
373.26 Special provisions for applications covering commodities for which supply assistance is requested.
373.27 Deleted, effective June 6, 1952.
373.28 Special provisions for exports to serialized mines, smelters and mineral prospecting operations abroad.
373.29 Special provisions for certain totally allocated commodities.
373.30 Deleted, effective April 24, 1952.
373.31 Deleted, effective May 23, 1952.
373.32 Licensing policies for tinplate.
373.33 Deleted, effective May 29, 1952.
373.34 Confirmation of country of ultimate destination and verification of actual delivery.
373.35 Special provisions for plumbers' brass goods.
373.36 Special provisions for human blood plasma.
373.37 Special provisions for cryolite.
373.38 Special provisions for copper under the Controlled Materials Plan.
373.39 Special provisions for tobacco and tobacco products destined to Hong Kong.
373.51 Supplement 1: Time Schedules for Submission of Applications.

AUTHORITY: §§ 373.1 to 373.51 issued under 63 Stat. 7, as amended; 50 U. S. C. App., 2023, E. O. 9630, Sept. 27, 1945, 10 F. R. 12245; 3 CFR 1945 Supp., E. O. 9919, Jan. 3, 1948, 13 F. R. 59; 3 CFR 1948 Supp.

§ 373.1 *Export licensing general policy.* The following general, but not exclusive, policy for export licensing and related procedures are hereby established for certain commodities, set forth in paragraph (h) of this section.

(a) *Price—(1) Excessive prices.* Price will be applied as one of the licensing criteria only when the export price for the specific commodity is obviously excessive.

Commodity advisory panels or commodity advisory committees will be consulted whenever possible in determining what constitutes obviously excessive prices.

(2) *Price stated on license applications.* The price to be stated on the export license application must be the export contract price, and the point of delivery must be clearly indicated. If point of delivery is other than the intended port of exit, the intended port of exit must also be shown. The exportation may not be made or invoiced at a price in excess of that stated on the validated license.

(3) *Where firm contract price not set.* Where the normal trade practice in a given commodity makes it impracticable to establish a firm contract price, the precise terms upon which the price is to be ascertained and from which the contract price may be objectively determined must be stated on the application. A mere statement by the exporter of "market price, at time of delivery or shipment" or other such general statement of price will not be acceptable.

(b) *Accepted orders; evidence and certification—(1) Accepted order.* Exporters are required to hold, in connection with each license application for commodities set forth in paragraph (h) of this section, an accepted order covering the transaction between the applicant and the foreign buyer. Such transactions may, nevertheless, be conditioned upon satisfactory payment arrangements or upon the issuance of an export license, import permit, exchange permit, or such other government document as may be required.

(2) *Evidence of accepted order.* Evidence of an accepted order may take the form of an original or photostatic copy of either the contract signed by both the exporter and the importer, or of letters, telegrams, cables, or other documents resulting in a contract between the applicant and the foreign buyer. Such evidence must be kept available for inspection upon demand by the Office of International Trade for 3 years from the date of receipt of the application.

(3) *Certification as to accepted order.* (i) With respect to license applications covering diffusion pump oils (Schedule B No. 829980) and all the commodities listed in paragraph (h) of this section, an applicant shall certify in the following form that he holds an accepted order for the commodities covered in the application and that he will keep and will on demand make available to the Office of International Trade the relevant documents or records.

As a material representation in connection with this application _____,
(Applicant's reference No.)
I (we) certify that it represents a request to export commodities which, subject only to conditions beyond the control of either the applicant or named purchaser, the named purchaser has contracted to buy from the applicant, and the applicant has contracted to sell to the named purchaser. This application accurately reflects the terms of this contract. The documents or records evidencing this contract will be kept by this applicant for 3 years from the date of receipt of the application and will be made available to the Office of International Trade upon demand.

The foregoing certification must be made on the license application by executing the form on Form IT-419 (Revised), or on an attachment thereto. The certification must be signed by the applicant, his officer or duly authorized agent in the same manner as the application itself.

(ii) Where the transaction between the applicant and purchaser or ultimate consignee does not involve a normal purchase and sale contract in the customary form or where for other stated reasons the prescribed certification is inapplicable, the applicant should submit a full description of the nature of such transaction in writing to the Assistant Director for Export Supply, Office of International Trade, Washington 25, D. C., with a request for permission to substitute a proposed certification to fit the particular situation.

(4) *Representations; changes in accepted orders.* The answers to all questions in the application shall be deemed to be continuing representations of the existing facts or circumstances. Any material or substantive change in the terms of the contracts as reflected in the application or any certification made in connection therewith, whether a license

[13] Subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

has been granted or the application is still under consideration, shall be promptly reported to the Office of International Trade.

INTERPRETATION—EVIDENCE OF AN ACCEPTED ORDER

The following interpretation of § 373.1, Export Licensing General Policy, is issued concerning paragraph (b), Accepted Orders: Evidence and Certification:

1. *Definition.* Evidence of an accepted order means evidence of a contract which binds the exporter to sell and the importer to buy, but which may be conditioned as provided in § 373.1 (b). This contract may take the form of one document signed by both parties, or it may consist of an offer in definite terms made by either party and accepted in those same terms by the other party. Sometimes several documents have to be exchanged before all terms of a contract are agreed upon, and in such a case the documents which embody the agreement would be the evidence of the contract.

2. *Examples of documents which constitute evidence of an accepted order.* The following are examples of documents which ordinarily would constitute evidence of an accepted order:

(a) A contract signed by both exporter and importer.

(b) Telegrams, cables, letters or other documents exchanged between exporter and importer.

3. *Originals and copies of documents.* Originals need not be submitted; but if photostatic or other copies of documents are submitted, they must be certified by the applicant to be true copies of the originals, as provided in § 372.9 of this subchapter. The Department of Commerce may demand the originals of any copies of documents submitted in support of applications.

Applicants may also submit originals or certified copies of any other documents, such as letters of credit, to clarify the terms and conditions of the contract.

All abbreviations, coded terms, or other expressions having special significance in the trade or to the parties to the transaction must be explained. Documents in a foreign language must be accompanied by an accurate English translation. Such translation need not be made by a translating service but, if not, must be certified by the applicant to be a correct translation.

4. *Shipments to foreign subsidiaries or distributors.* Where an exporter ships supplies or equipment to its foreign subsidiary or to distributors for use or resale, but it is not the practice for the subsidiary or distributor to submit or for the exporter to accept orders, evidence of accepted orders need not be submitted. The exporter must, however, submit a full statement of the nature of the transaction or arrangement, together with originals or certified copies of requisitions or other pertinent documents, explaining in such statement the end uses of the commodities involved.

5. *Shipments under other arrangements.* Where the exporter desires to ship commodities abroad under any other arrangement, a full statement of the nature thereof must likewise be submitted, in the manner outlined in paragraph 4 above.

(c) *End use.* Where commodities are licensed for export on the basis of the specific end use to which the material will be applied abroad, applications will be considered for approval only if they conform to appropriate end uses.

(d) *Historical basis for granting export licenses.* A controlling factor in the granting of export licenses covering certain specified commodities (see § 373.24) is the historical basis, whereby the bulk of export quotas is reserved for exporters who have participated in exports of such commodities during a representative base period. Except for such commodities, the historical basis will not be the predominating factor in licensing commodities subject to the provisions of this section; it may, however, be taken into consideration, together with other criteria, when quotas are oversubscribed in order to ensure, insofar as possible, a fair and equitable distribution of available quotas. More particularly, it aids in accomplishing one of the underlying considerations in licensing; namely, the maintenance of a normal pattern of export trade.

(e) *Foreign government recommendations.* The Department of Commerce reserves the right in all respects to determine to what extent any recommendations made by foreign governments should be followed. However, the Department of Commerce will not seek or undertake to give consideration to recommendations from foreign governments as to the United States exporters whose license applications should be approved.

(f) *U. S. and foreign government procurement*—(1) *U. S. Government.* For such purchases as may be made by agencies of the United States Government, licenses, where required, will be issued to the United States purchasing agency or its designee making the export shipment, but such exports will be authorized only where it is evident that the use of private trade channels is inappropriate.

(2) *Foreign governments.* Procurement by foreign governments will be subject to continuous review in line with the announced policy of the United States to maximize the restoration of private trade, and in every instance the foreign government will be requested, before it buys any commodity, to establish the competitive nature of its procurement.

(g) *Commodity advisory panels and committees.* Commodity advisory panels and committees will be consulted regarding problems arising in the administration of the provisions of this section.

(h) *Commodities subject to this export licensing policy.* The export licensing policy set forth in the preceding paragraphs of this section shall be applicable to the following commodities:

(1) All RO commodities with the following processing code symbols of the Department of Commerce:

ACID	NONF	PLAT
DRUG	ORGN	RESN
FERT	PETR	SALT
MINL		

CCTA (except diffusion pump oils, Schedule B No. 829980)

(2) The following additional Positive List commodities:

Commodity	Schedule B No.
Cattle hides, dry	020102
Cattle hides, wet	020104
Calf skins, dry	020602
Calf skins, wet (including slunk skins)	020604
Kip skins, dry	020702
Kip skins, wet	020704
Manila or abaca (including tow)	320515
Sisal	320519
Coke, except petroleum coke	500400
Diamond grinding wheels, sticks, hones, and laps	540805
Diamond powder	540910
Diamonds suitable only for industrial use, n. e. c.	599005
Diamonds, rough or uncut, suitable for cutting into gem stones	599010
Diamond bearings	599998
Iron and steel scrap (except tin plated and terne plated)	601010-601090
Secondary tinplate	604010
Tinplate circles, cobbles, strips, and scroll-shear butts	604120
Tinplate, hot-dipped	604110
Tinplate, electrolytic coated	604150
Tinplate, decorated, embossed, lithographed, lacquered, or otherwise advanced, including lithographic misprints	604170
Tools incorporating industrial diamonds, n. e. c.	617901
Core drills, mounted or unmounted	730840
Rock drill bits, core drill bits, and reamers, containing diamonds	730875
Diamond dies for power-driven metalworking machinery (state size)	745503
Diamond penetrators and parts	760990
Diamond disk points and other dental instruments containing diamonds	915000

§ 373.2 *Special provisions for iron and steel*—(a) *Iron and steel products with processing code STEE.* The provisions of this paragraph are applicable to all iron and steel products on the Positive List with the processing code STEE, whether or not subject to the export licensing general policy set forth in § 373.1.

(1) *Applications.* Applications for licenses to export iron and steel products are subject to the individual license procedure. However, for those STEE commodities which are subject to the provisions of the BLT (Blanket) license procedure (see Part 375 of this subchapter), the exporter may use either the BLT (Blanket) license or the individual license procedure.

(2) *Export price.* The export price may be shown on the application form in terms of either the total price, including price per unit, or the supplier's price plus a specified mark-up. This latter method may be used only where the supplier has filed, or files, with the Department of Commerce his price schedule maintained for the sale of iron and steel items for which export licenses are or may be requested and a statement that the supplier will inform the Department of Commerce promptly (within 10 days) of any changes which may occur in his price schedule. In case the unit price varies according to size or specifications, the applicant must show unit price for each separate size or specification.

(b) *Iron and steel commodities subject to export licensing general policy.* All iron and steel products with the processing code STEE which are subject to the export licensing general policy set forth in § 373.1 will be licensed for export in accordance with the following special provisions:

(1) *Evidence of availability of material.* Applicants for licenses to export the iron and steel products described above must submit evidence of availability of the material as provided in § 373.16.

(2) *Time for submission and action on application.* (i) Export license applications must be submitted in accordance with any applicable time schedule.

License applications will be returned without action to the applicant if time schedules for submission are provided but not observed by the applicant; such applications may be resubmitted during the appropriate periods.

(ii) It is the intention of the Office of International Trade to complete licensing iron and steel commodities within 15 days after the closing date for the submission of applications for such commodities, where such closing dates are specified.

(3) *Applications in excess of quotas; refiling.* Applications for which quota is exhausted will be returned without action (RWA) immediately and may not be refiled prior to the date shown on the RWA form. If the letter of acceptance or commitment originally filed is more than 90 days old at the time of refiling of such an application, the letter must be reconfirmed or a new letter must be submitted at the time of refiling.

NOTE: In order to facilitate the consideration of license applications covering proposed exports of iron and steel products, exporters are requested to utilize the BLT (blanket) export license procedure to the fullest extent possible for those iron and steel products which are specifically subject to this procedure. The use of this procedure reduces the number of applications filed for consideration against a given calendar quarter, with a consequent speeding up of licensing operations within the Office of International Trade.

With respect to BLT applications covering such iron and steel products, the Office of International Trade will leave intact, as nearly as possible, the list of proposed consignees submitted with each BLT application. This will enable the applicant to select the specific consignee to whom he prefers to ship in the event the entire quantity approved is less than that applied for, although no one consignee may receive more iron or steel out of the total quantity approved than the amount specified for him on the list attached to the BLT application.

(c) *Silicon steel sheets.* In addition to the general provisions contained in paragraph (a) of this section, all license applications to export silicon steel sheets (commonly called electrical sheets), Schedule B No 603595, must, in the commodity description column of Form IT-419, set forth a complete description of the sheets to be exported. The specifications appearing on license applications must agree with those on the supporting documents. The description on the license applications must include: specific grades, such as armature, electric, dynamo, or transformer; core loss for each grade and gauge, expressed in watts per pound at a flux density of 10,000 gausses and at 60 cycles per second. If the core loss appears on the customer's order in metric units or at a flux density of 15,000 gausses, or at 50 cycles, it should be converted and shown in terms of watts per pound at a flux density of 10,000 gausses and at 60 cycles per second.

(d) *Alloy, tool, and stainless steel.* All applications for licenses to export alloy, tool, or stainless steel mill products (bars, rods, sheets, plates, etc.) having the processing code STEE must contain, in the commodity description column of Form IT-419, the following information (in addition to the general description and the Schedule B number, e. g., Alloy Tool Steel Bars, 602650):

(1) Where such steel product is a "standard" grade, the AISI, SAE, or NE number, or any other recognized designation, as may be appropriate; or

(2) Where such steel product cannot be described by a recognized designation, a detailed statement of the percentages of alloying elements present.

(e) *CMP carbon steel, including steel plates and structurals, but not including tinplate.* Applications submitted for licenses to export carbon steel, including steel plates and structurals, but not including tinplate, will be considered for approval by the Office of International Trade only where the end use is:

(1) Essential to direct military production of the United States or of a friendly foreign nation; or

(2) Essential to the production abroad of strategic materials for shipment to the United States or to a friendly nation; or

(3) Essential to direct defense supporting industry, including the facilities required for the production described in either of the two first-named criteria; or

(4) Urgent and essential for the maintenance of basic civilian activities and public services of friendly nations.

§ 373.3 *Special provisions for manila or sisal fibers*—(a) *Application requirements.* All applications to export any manila or sisal raw fibers, Schedule B Nos. 320515 and 320519, must include a statement of the grades of fiber sought to be exported.

(b) *Shipper's export declarations.* All shipper's export declarations covering exportations of manila or sisal raw fibers must include a statement of the grades of fiber to be exported. This description must correspond with the description on the license.

§ 373.4 *Special provisions for unexposed dental X-ray film.* [Deleted, effective June 1, 1950.]

§ 373.5 *Special provisions for chemicals and medicinals*—(a) *General.* All applications for licenses to export chemicals, medicinals, and pharmaceuticals shall state such facts relating to grade, form, concentration, mixtures, or ingredients as may be necessary to identify the commodity accurately.

(b) *Bismuth salts and compounds.* All applications for licenses to export bismuth salts and compounds (bulk), Schedule B No. 813583, shall include (in addition to the total net weight of the commodity) the weight in pounds of bismuth contained in the commodity. This information shall be entered in the commodity description column of Form IT-419

(c) *Radioactive isotopes, radium salts and compounds, and radium emanation (radon).* A validated license is required for the export of all commodities containing any form of (1) radioactive isotopes or preparations thereof, (2) radium salts and compounds, or (3) radium emanation (radon), whether for industrial or medicinal purposes, to any foreign destination except Canada. All license applications must contain a description of the type of compound and radium content, if ascertainable. This information shall be entered in the commodity description column of Form IT-419. Such commodities are to be classified under Schedule B No. 829940; except that paints containing radium are to be classified under Schedule B No. 843800, and ferrous or nonferrous commodities containing radium are to be classified under the appropriate Schedule B number in accordance with the provisions of § 373.11 (b).

§ 373.6 *Special provisions for wet cattle hides.* Applications for licenses to export wet cattle hides, Schedule B No. 020104, must show, in the commodity description column of Form IT-419, the number of hides weighing less than 58 pounds each. If no hides weighing less than 58 pounds are included in the proposed shipment, the applicant must so state in the commodity description column.

§ 373.7 *Special provisions for machinery and parts*—(a) *Information required with license applications to export machinery in parts.* All license applications to export machinery, including replacement and repair parts, with the processing codes GLEQ, TRAN, CONS, TOOL, and ELME must include the following information:

(1) A copy or abstract of that part of the contract of sale or sales specification describing the commodity for which the export license is requested. Where there is no contract of sale, or where the contract of sale does not completely describe the commodity, a complete description must be furnished showing, for example, type, trade name, trade symbol, model number, serial number, capacity, type and horsepower of drive, operating pressure and temperature, composition of special metals.

(2) Where reference to a manufacturer's catalog or bulletin is essential to full identification, a copy must be furnished if not previously filed.

(3) With respect to replacement parts, applications must state the range of or specific sizes and types of the units of equipment for which the parts are required, the dollar value and quantity. A detailed list of the parts is required only with respect to automotive replacement parts proposed for export to certain destinations set forth in paragraph (d) of this section.

(4) The MSA authorization number, where known, if machinery or parts have been purchased under Mutual Security Agency authorization.

(b) *Power-generating and other heavy machinery involving long-term production periods*—(1) *Submission of license applications where production time exceeds 1 year.* (i) When submitting license applications to export power-generating and other heavy machinery where production cannot be completed within the original 1-year validity period for the export license, the applicant should advise the Office of International Trade of this fact by attaching to his application a letter requesting that his application be considered in the light of the fact that an extension of the original validity period of the license may be required. This letter of request should include a statement of the present production status and the proposed delivery

dates of the major components which cannot be shipped within 12 months.

(ii) When such a letter does accompany the application, a statement to this effect should be placed in the commodity description column of Form IT-419. The letter will be retained in the files of the Office of International Trade for reference in the event a request for extension is subsequently submitted by the licensee.

(iii) When such a letter of request establishes the merit of a longer validity period for the license, the Office of International Trade will stamp on the face of the validated license the following statement:

> While the Office of International Trade does not as a matter of policy issue export licenses for a validity period greater than 1 year, the Office of International Trade has at present no information which would preclude the extension of this license for an additional period.

(2) *Submission of requests for extension of validity period.* In the event that the exporter is not able to effect shipment of heavy power-generating and other heavy machinery within the validity period of a license issued pursuant to provisions set forth in paragraph (b) (1) of this section, a request for an extension should be made in accordance with procedure set forth in § 380.4 of this subchapter.

In addition, the letter requesting an extension must set forth the current status of production and the proposed delivery dates of major components, as called for in the letter of request described in paragraph (b) (1) of this section.

(3) *Granting of requests for extension.* Requests for extensions of licenses issued under the foregoing procedure authorizing the exportation of heavy power-generating and other heavy machinery will be accorded as favorable consideration by the Office of International Trade as the conditions existing at the time of the requested extension will permit; also such requests will, whenever possible, be given precedence over new license applications covering similar heavy machinery.

(c) *Pumps, compressors, blowers, exhausters, fans, and parts.* (1) In addition to the other information required by paragraph (a) of this section, applications for licenses to export pumping equipment and parts, Schedule B Nos. 770900 through 770990, must include the following information:

(i) Designed delivery pressure at pump discharge in pounds per square inch (for deep well turbine pumps under Schedule B No. 770910, reported pressure is to be the designed delivery pressure at pump discharge as calculated by the manufacturer under the assumed condition that the bowl assembly is directly connected to the drive head assembly without intervening column pipe);

(ii) Designed working temperature in degrees Fahrenheit for continuous operation;

(iii) Whether fabricated of or lined with any of the corrosion-resistant materials as defined in the "General Notes to Appendix A" (Part 399 of this subchapter.)

(2) In addition to the other information required by paragraph (a) of this section, applications for licenses to export compressors, blowers, exhausters, or fans (classified within Schedule B Nos. 771150 or 770400 through 770775) must include the following information:

(i) Designed working pressure in pounds per square inch, gauge reading;

(ii) Intake capacity in cubic feet per minute;

(iii) Delivery pressure in pounds per square inch, gauge reading, for ejector compressors, centrifugal and mixed flow types of compressors, rotary blowers, and exhausters;

(iv) Whether fabricated of or lined with any of the corrosion-resistant materials, as defined in the "General Notes to Appendix A" (Part 399 of this subchapter).

Applications for licenses to export parts for such compressors, blowers, exhausters, or fans must set forth the specific information described in subdivisions (i) through (iv) of this subparagraph for each compressor, blower, exhauster, or fan for which the parts are intended.

(d) *Automotive replacement parts.* In addition to the information required by paragraph (a) of this section, license applications covering automotive replacement parts for export to certain destinations, as set forth in subparagraphs (1) and (2) of this paragraph, must be filed in accordance with the provisions set forth in subparagraph (3) of this paragraph.

(1) *Commodities.* The provisions of this paragraph are applicable to applications for licenses to export the following commodities to the destinations set forth in subparagraph (2) of this paragraph:

Schedule B No.	Commodity
847400	Carbon brushes for starting, lighting, and ignition equipment (automotive only).
706220	Starting, lighting, and ignition equipment, n. e. c., and specially fabricated parts and accessories, n. e. c. (automotive only) (report spark plugs in 706930).
706100	Ball bearings and specially fabricated parts, except balls (automotive only).
706200	Roller bearings and specially fabricated parts, except rollers (automotive only).
706310	Balls for bearings (automotive only).
706315	Rollers for bearings (automotive only).
	Replacement parts for commercial automobiles, trucks, and buses:
791240	Engines: Diesel and semi-Diesel.
791220	Gasoline.
	Bodies:
791260	Truck and bus.
791270	Automobile.
791275	Knee-action springs (helical or coil).
791280	Leaf springs and spring leaves.
792920	Parts, n. e. c., specially fabricated, for spares, replacement, or manufacture into larger components (except accessories).

(2) *Destinations.* The provisions of this paragraph are applicable to applications for licenses to export the commodities set forth in subparagraph (1) of this paragraph to any of the following destinations:

British Malaya (including the Colony of Singapore, the Federation of Malaya, the Colony of North Borneo (including Brunei and Labuan), the Colony of Sarawak, and other insular possessions).
Burma.
Ceylon.
Indochina (Vietnam, Laos, Cambodia).
Indonesia.
Republic of the Philippines.
Thailand (Siam).

(3) *Additional application requirements.* In addition to the provisions of paragraph (a) of this section and other applicable requirements, applications for licenses to export automotive replacement parts listed in subparagraph (1) of this paragraph to the destinations set forth in subparagraph (2) of this paragraph must be accompanied by a statement containing the following information:

(i) The total dollar value of all the commodities (in the aggregate) listed in subparagraph (1) of this paragraph exported by the applicant to the named ultimate consignee (or purchaser, if different) during the years 1950 and 1951; if none, so state.

(ii) Whether a letter of credit has been established for the proposed shipment; if so, give the number, dollar value, expiration date, and name and address of person by whom established. If no letter of credit has been established, state what method of financing will be used for the proposed shipment.

(e) *Metalworking machines*—(1) *Commodities.* The provisions of this paragraph are applicable to certain metalworking machines (including machine tools), appearing on the Positive List of Commodities under Schedule B Nos. 740005 through 744319, 744410 through 744700, 745990, and 766993, as defined and listed in detail in NPA Order M-41, as amended.

(1) *Commodities.* The provisions of this paragraph are applicable to metalworking machines (including machine tools) classified under Schedule B Nos. 740005 through 744319, inclusive; 744410 through 745298; 745509, and 745990.

(2) *Additional application requirements.* In addition to the provisions of paragraph (a) of this section and other applicable requirements, applications for licenses to export the metalworking machines (including machine tools) described in subparagraph (1) of this paragraph must be accompanied by one of the following:

(i) A statement that a DO rating has been assigned as set forth in § 398.4 of this subchapter.

(ii) Form IT-835 (Request for Special Supply Assistance), executed in accordance with the provisions of § 398.4 (c) of this subchapter; or, where the exportation is to be made to a country for which the Mutual Security Agency is claimant agency (see § 398.1 (c) of this subchapter), a statement that the request for supply assistance has been submitted through the Washington mission of the country of destination to the Mutual Security Agency, Washington 25, D. C.

(iii) Evidence of availability as required by § 373.16, where the supplier is not a producer of the machines.

NOTE: Commodities covered in this paragraph are defined and listed in detail in NPA Order M-41, as amended. Copies of this order may be obtained from any field office of the Department of Commerce and from the Distribution Office, National Production Authority, Department of Commerce, New GAO Building, Fourth and G Streets NW., Washington 25, D. C.

§ 373.8 *Special provisions for certain petroleum products*—(a) *Application requirements.* (1) Applications to export lubricating oils, Schedule B Nos. 503300, 503400, 503510, 503520, 503800, 503910, 503920, 503940, 503990, 504005, 504030, 504050, 504090, and 504095, must, in the commodity description column of Form IT-419, set forth a complete description of the lubricating oils, including the Saybolt viscosity at 130° F. or 210° F.; pour point; flash point; and any other descriptive information which will enable the Office of International Trade to make an exact identification of the commodity for which an export license is requested. The quality (high, medium, or low) of the lubricating oil must be stated.

(2) Applications to export lubricating greases, Schedule B No. 504100, must, in the commodity description column of Form IT-419, set forth the quality (high, medium, or low) of the greases.

(3) Applications to export lubricating oils and greases described above must set forth detailed information regarding the proposed end use. The applicant should identify the end use by the particular industry or government activity (e. g., railroads, marine, motor transportation, and other public utility, agricultural machinery, mining, etc.) and, where possible, by specific function (e. g., aviation motors, motor cars, trucks and tractors, Diesel engines, transformers, compressors, open bearings, etc.).

(4) Applications to export petroleum products, Schedule B Nos. 501400 through 505900, to Burma, Ceylon, Taiwan, Indochina, Hong Kong, India, Macao, Federation of Malaya, Republic of Indonesia, Pakistan, Republic of the Philippines, Singapore, or Thailand, shall be accompanied by a statement attached to the application, setting forth the following information:

(i) The quantity of stock the ultimate consignee has on hand (in units of quantity as shown on the Positive List) as of the time the order was placed for each commodity covered by the application;

(ii) The date such order was placed;

(iii) Quantity of such commodities the ultimate consignee expects to receive from all sources other than the license applicant within 90 days after such order was placed; and

(iv) The monthly rate of consumption, including resale, by the ultimate consignee of the commodities covered by the application.

(b) *Processing of applications.* Applications which do not contain sufficient detailed information for an exact identification of the commodities involved and complete information regarding the end use will not be considered but will be returned to the applicant without action.

(c) *Time for submission of applications.* Applications for licenses to export lubricating oils and greases, Schedule B Nos. 503300 through 504100, to the destinations set forth in paragraph (a) (4) of this section must be submitted in accordance with the time schedules set forth in § 373.51.

§ 373.9 *Special provisions for diamonds*—(a) *Definitions.* The commodities covered by this section are more particularly described and defined as follows:

(1) *Loose diamonds.* "Loose diamonds (except cut gem diamonds)" are any diamonds not set in any other material.

(i) "Industrial diamonds" are industrial-purpose diamonds in any form, unmounted, including ballas, carbonados, crushing bort, other uncrushed diamonds and diamond fragments, and diamond dust or powder.

(ii) "Cuttable diamonds" are diamonds suitable for cutting into gems and not reserved for industrial use.

(2) *Tools incorporating diamonds.* "Tools incorporating diamonds" are any tools or industrial devices, including metal slugs, which contain diamonds. "Tools incorporating diamonds" specifically include any machine containing as an integral part thereof a tool or device incorporating diamonds. A validated license is required for the export of such machines to any foreign destination except Canada.

(3) *Machines.* Machines containing as an integral part thereof a tool or device incorporating diamonds.

(b) *Basis of licensing.* License applications will be approved in accordance with the general licensing policy set forth in § 373.1.

(c) *Application requirements*—(1) *Schedule B classifications.* Separate license applications (Form IT-419) must be submitted for each Schedule B classification of loose diamonds and tools and devices incorporating diamonds and must contain a complete description of each named commodity or commodities, including any customary trade subclassifications.

(2) *Loose diamonds.* Loose diamonds, industrial and cuttable, must be listed on the application by one of the following methods:

(i) Separately, giving trade description and the respective carat weight and value of each diamond listed.

(ii) In groups by packets, giving the number of diamonds, the total carat weight, total value and average value per carat for each group.

(iii) By quantity (as in the case of small sizes, sand, powder, etc.), give total carat weight, total value, and average value per carat.

(3) *Tools incorporating industrial diamonds.* (i) Tools, tool parts, or devices (including metal slugs) must be listed separately on license applications, or by groups of identical tools, giving the name and type of tool and approximate carat weight of diamonds and or diamond powder or dust contained therein.

(ii) License applications to export rock drill bits, core drill bits, and reamers containing diamonds, Schedule B No. 730875, which have been shipped to the United States for reprocessing or resetting must include the following information:

The approximate carat weight of the diamonds inserted in the reprocessing of each type or size of drill bit listed, exclusive of the diamonds shipped to the United States with the tool.

(iii) License applications to export diamond grinding wheels, sticks, hones and laps, classified under Schedule B No. 540905, must include a statement as to quantity (number) and size of each commodity and carat weight of diamond content.

(iv) Diamond dies must be listed on the license applications as unmounted or encased, and the size of hole, carat weight, and the unit value per die must be given.

(4) *Machines.* When a tool or device incorporating diamonds is to be shipped as an integral part of a machine, the machine may be listed together with tools and devices incorporating diamonds in a single license application. However, when the tools or devices incorporating diamonds are not an integral part of the machine but shipped as spares or extras separate license applications must be submitted.

NOTE: The term "machine containing as an integral part thereof a tool or device incorporating diamonds" does not include the following commodities, since the tools or devices incorporating diamonds that are used with the following commodities are readily detachable and not integral parts. Therefore, diamond drill bits or any other tool or device incorporating diamonds may not be listed on the same license application with the following commodities:

Schedule B No.	Commodity description
730810	Specialized mining machines and equipment, n. e. c., and specially fabricated parts and accessories, n. e. c.
730840	Core drills, mounted or unmounted.
730881-732000	Well drilling machines, and parts.

A validated license must be obtained prior to exportation of any tool or device incorporating diamonds, whether such tool or device accompanies the shipment of other commodities or not.

(5) *End use.* The application must also include a detailed statement regarding the end use of the commodity.

(d) *Export clearance of loose diamonds.* (1) Every shipment of loose diamonds in any form (except cut gem diamonds), not including tools incorporating diamonds, regardless of the means of exportation or the port of exit, must be inspected by the U. S. Appraiser of Merchandise at New York.

(2) The Appraiser will compare the contents of the shipment with the description on the shipper's export declaration authenticated by the collector of customs. If the contents and description on the authenticated shipper's export declaration agree, the Appraiser shall place his seal on the package or parcel.

(3) If the contents of the shipment do not agree with the description set forth on the authenticated export declaration, the Appraiser will submit the authenticated shipper's export declaration, together with a statement of his findings, to the Department of Commerce via the collector of customs.

(4) Post offices will not accept packages or parcels containing such commodities for mailing to a foreign destination unless they have been inspected

by the U. S. Appraiser of Merchandise at New York, and the unbroken seal of that official appears on each package or parcel.

(e) *Return of loose industrial diamonds and diamond dust, or powder without license.* Notwithstanding the foregoing provisions of this section (which relate only to diamond exports which require a license), the provisions of § 371.9 (c) of this subchapter (which relate to exceptions from the general license GIT for intransit shipments), and the provisions of § 370.10 of this subchapter (which permit certain exports from foreign trade zones without license), any person in the United States to whom loose industrial diamonds, Schedule B No. 599005, or diamond dust or powder, Schedule B No. 540910, are consigned by a foreign supplier, with the privilege of selection and purchase or return, may return to such foreign supplier such of those diamonds or such dust or powder as are not selected for purchase, without securing an export license therefor, provided the following procedure and conditions are observed:

(1) *Deposit in New York Foreign Trade Zone.* The entire consignment to such person from his foreign supplier, upon arrival in the United States and prior to opening or inspection, must be taken directly from Customs custody into the New York Foreign Trade Zone and must be continuously kept there while inspection and selection are made and, with respect to those diamonds or such dust or powder not selected for purchase and to be returned to the foreign supplier, until released for immediate exportation to the foreign supplier.

(2) *Examination by Federal Supply Service.* The Federal Supply Service, General Services Administration, must be given an opportunity to examine and purchase the diamonds or dust or powder proposed to be returned and, after having purchased any which it desires to purchase, must furnish to the New York Foreign Trade Zone Operators, Inc., its certificate, in duplicate, to the effect that it has been afforded such opportunity and that, with respect to those diamonds or such dust or powder remaining for return to the foreign supplier (which must be sufficiently identified by lot number, quantity, weight, description, etc.), it has elected not to purchase them.

(3) *Certificates required for release from Zone.* The New York Foreign Trade Zone Operators, Inc., shall not release the diamonds or dust or powder from the Zone unless and until the above-mentioned certificate has been furnished, and, at the time of such release, there shall be attached to the original thereof a duly executed Certificate of Constructive Transfer, Zone Form C, Revised (i. e., the official document by which commodities are released from the Zone). Both certificates will be delivered to the proposed exporter.

(4) *Export clearance.* No collector of customs shall authenticate any declaration for the export of loose industrial diamonds or diamond dust or powder pursuant to this procedure unless the certificate of the Federal Supply Service and the attached Certificate of Constructive Transfer, Zone Form C, Revised, provided for above, shall accompany the declaration filed with the collector.

NOTE: The use of the procedure set forth in paragraph (e) of § 373.9 will be expedited if diamond dealers desiring to use the facilities of the New York Foreign Trade Zone will make such arrangements as soon as they know when a consignment of diamonds or diamond dust or powder is due to arrive. Persons using the procedure are also responsible for notifying the Federal Supply Service when a proposed shipment is ready for inspection.

§ 373.10 *Special provisions for nitrogenous fertilizer materials and certain industrial chemicals containing nitrogen.* [Deleted, effective September 21, 1950.]

§ 373.11 *Special provisions for ferrous or nonferrous commodities, including ores, concentrates, or unrefined products—(a) Containing lead, molybdenum, and vanadium.* All applications for licenses to export ores, concentrates, or unrefined products included on the Positive List of Commodities, containing lead, molybdenum, and vanadium, and classified under Schedule B Nos. 650406, 664550, and 664584, respectively, must include a statement of the weight in pounds of each such element, except for vanadium, which shall be on the basis of the V.O. content.

(b) *Containing radium.* All applications for licenses to export any ferrous or nonferrous commodities, including ores, concentrates, smelter and refinery residues, or unrefined products, containing radium must include a statement of the weight in grams of such radium regardless of the amount.

(c) *Containing copper.* All applications for licenses to export insulated wire and cable, Schedule B Nos. 709810–709885, must include (in addition to the total net weight of the commodity) a statement of the weight, in pounds, of the copper contained in the commodity.

NOTE: The required information should be entered on Form IT-419 in the following manner:

Quantity to be shipped (pounds)	Commodity description	Schedule B No.
10,000	Appliance wire, insulated (copper content 6,000 pounds).	709885

(d) *Nonferrous metal alloys.* The following provisions are applicable to all nonferrous metal alloys (including bimetals, thermometals, etc.) on the Positive List with the processing codes NONF and MINL: applications for licenses to export such commodities must contain, in the commodity description column of Form IT-419, a complete commodity description, including the percentage of each alloying element present or the recognized standard commercial brand or trade name of the commodity (such as are published in "Engineering Alloys" by the American Society for Metals).

(e) *Copper and copper-base alloy scrap.* Each application covering copper and copper-base alloy scrap, new and old, Schedule B Nos. 641300 and 644000, shall include in the commodity description the code specification of the National Association of Waste Material Dealers (NAWMD) applicable to each commodity.

(f) *Zinc Scrap.* All applications for licenses to export zinc scrap (including ashes, dross, skimmings, and residues), Schedule B No. 657050, shall include (in addition to the total net weight of the commodity) the weight in pounds of the zinc content of the commodity. Also, the proportion of other significant elements contained in the material should be stated. This information shall be entered in the commodity description column of Form IT-419.

§ 373.12 *Special provisions for ores, concentrates, smelter and refinery residues, unrefined products.* [Deleted, effective April 20, 1950. Refer to § 373.11, paragraphs (a) and (b).]

§ 373.13 *Special provisions for commodities to be exported to Taiwan (Formosa); intermediate consignees.* [Transferred to § 380.2 (f) of this subchapter.]

§ 373.14 *Special provisions for certain commodities originating in Japan.* Shipments of Positive List commodities (§ 399.1 of this subchapter) which originate in Japan and are not exportable from the United States under general in-transit license GIT, or general license GO, or under the provisions of § 370.10 of this subchapter, relating to shipments from foreign trade zones, require a validated license for export. Applicants for licenses to export such commodities must disclose, in the commodity description column of Form IT-419, that the commodities originated in Japan; and the application must be accompanied by a true copy of the bill of lading covering the shipment of the commodities from Japan.

§ 373.15 *Special provisions for sugar.* [Deleted, effective December 6, 1951.]

§ 373.16 *Special provisions for certain commodities: evidence of availability—(a) Evidence of availability.* (1) Applicants for licenses to export any of the commodities described in paragraph (b) of this section must submit an acceptance or commitment letter from the supplier, evidence of ownership (such as a bill of sale, invoice, or photostatic copy thereof), or other proof that the amount of material covered by the application is in fact available to him.

(2) The letter of commitment by the supplier must be dated and must show the quantity accepted or committed. letters of commitment which are more than 90 days old when the application is received by the Department of Commerce (or, where applicable, letters for commodities subject to time-table licensing which will be more than 90 days old on the last day for filing applications for the calendar quarter) will not be accepted.

(3) If the evidence of availability is from a supplier who is not a producer, the applicant shall furnish a statement from the supplier certifying that the material is actually in his possession or that the material will be made available to him.

(4) If the commitment letter has been previously submitted in support of other license applications, the applicant also should state the case number and date of such applications; or, if the commitment letter is used in support of several applications being submitted at the same time, this action together with reference numbers, should be stated in an accompanying letter.

NOTE: Applicants are cautioned that the submission of such proof of availability of material does not guarantee that applicant will receive a license for the full amount or any portion thereof which he may be able to procure.

(b) *Commodities.* The requirements of this section are applicable to the following Positive List commodities:

Sulfur, crude, ore, crushed, ground, refined, sublimed, and flowers: Schedule B Nos. 571410, 571500, and 596098.

All iron, steel, and nonferrous products with the processing codes STEE and NONF, except controlled materials (identified on the Positive List by the letter "C" in the column headed "Commodity Lists").

Wood pulp, special alpha and dissolving grades, bleached, sulfite, and sulfate; sulfite wood pulp, bleached and semibleached, n. e. c.; sulfite wood pulp, unbleached; sulfate wood pulp, unbleached; sulfate wood pulp, bleached and semibleached, n. e. c.; and wood pulp and screenings, n. e. c.: Schedule B Nos. 461110 through 461900.

Hot-dipped or electrolytic coated tinplate, unassorted as to temper, Schedule B Nos. 604110 and 604150. In the case of this tinplate, the commitment letter must also (1) identify the commodities by lot number or other designation identifying the particular lot, and (2) name all the export license applicants to whom the supplier has made a commitment to supply the same lot or lots of commodities (where the supplier has made such a commitment to more than one export license applicant).

Tinplate circles, strips, cobbles, and scroll-shear butts' waste-waste tinplate; unmended menders, mill accumulations; and lithographic misprints: Schedule B Nos. 604010, 604020, 604110, 604150, and 604170.

Construction, excavating and conveying machinery: Schedule B Nos. 720112–720240; 720410, and 721510–723080.

Tractors, tracklaying type, and parts: Schedule B Nos. 787310 through 787560, and 788991.

Crude asbestos and spinning fibers, unmanufactured: Schedule B No. 545110.

Plumbers' brass goods: Schedule B No. 618867.

(Under the conditions set forth in § 373.7 (e) (2)) Metalworking machines (including machine tools): Schedule B Nos. 740005 through 744319; 744410 through 744700; 745990, and 766993.

§ 373.17 *Special provisions for cotton mill waste.* [Deleted, effective October 11, 1951.]

§ 373.18 *Special provisions for raw cotton.* [Deleted, effective September 17, 1951.]

§ 373.19 *Export licensing policy for materials covered by NPA M (materials) orders.* Under the authority of the Defense Production Act of 1950, the National Production Authority has issued numerous orders limiting production of commodities or restricting the uses to which commodities may be put. The purpose of these orders is to conserve the supply and channel production into essential uses for national defense.

In general, it will be the policy of the Office of International Trade, in considering export license applications covering commodities subject to such orders, to limit approvals to end uses consistent with end uses permitted in the domestic economy.

In order to administer this policy, it may be necessary for the Office of International Trade to return license applications to the applicants for the purpose of obtaining a more detailed and comprehensive statement of end use, which will enable the Office of International Trade to consider the application in the light of the domestic restrictions. Applications covering shipments for resale, further distribution, or fabrication in the foreign country should specify particularly the end use to which the commodities will be put by the ultimate consumer, in order to expedite the consideration of such applications.

§ 373.20 *Special provisions for military wearing apparel—(a) Application requirements.* (1) All applications for licenses to export military wearing apparel, new and used, Schedule B No. 999930, must contain a statement fully describing the apparel covered by the application, including the type of apparel, color, and material.

(2) If the wearing apparel has been dyed, the statement must so indicate and specify the color in which the apparel has been dyed. If otherwise altered, the exact nature of the alterations also must be described.

(b) *End use.* In general, applications for licenses covering U. S. Army and Marine Corps outer wearing apparel, for males (excluding boots and shoes) which has not been dyed or otherwise altered will be considered only where exportation is to be made to a foreign government for use by or under the direction of an agency thereof. Applications covering other types of U. S. military wearing apparel will be considered even though not limited to such use.

§ 373.21 *Special provisions for commodities containing cobalt.* All applications for licenses to export the following cobalt-containing products shall include (in addition to the total net weight of the commodity) the weight in pounds of the cobalt contained in the commodity. This information shall be entered in the commodity description column of Form IT-419.

Commodity	Schedule B No.
Cobalt reagents	829970
Cobalt compounds	839750, 839900
Cobalt-containing pigments	842900
Cobalt-containing paint and varnish driers	843600

§ 373.22 *Special provisions for exportations to Switzerland.* License applications for export of commodities to Switzerland must be accompanied by the original blue import certificate issued the Swiss importer by the Swiss Federal Department of Public Economy, Division of Commerce, Import and Export Control, covering the proposed exportation from the United States. Where the blue import certificate covers commodities for which more than one export license application must be submitted, the original of the certificate shall be attached to one application and a true copy of the certificate shall be attached to each additional application to which it is equally applicable. Any application to which the certificate or a true copy is attached shall contain a reference (OIT case number, if known, or applicant's reference number) to all other applications submitted at any time against the same certificate.

Applicants submitting a license application for export of commodities to Switzerland must make one of the following certifications on the face of the license application:

I (we) certify that I (we) have submitted no other applications against the attached Swiss blue import certificate No. _____.

I (we) certify that I (we) have not submitted applications against the attached Swiss blue import certificate No. _____ in excess of the total quantity authorized thereon.

NOTE: The Swiss blue import certificate provides that the Swiss importer has pledged himself directly to import the commodities into the Swiss customs territory and that any reexportation of these goods is prohibited. (See § 372.9 of this subchapter with respect to submission of true copies of documents to the Office of International Trade.)

This requirement for submission of Swiss certificates does not alter the requirement for statements from the Swiss ultimate consignee (and purchaser, if different from the ultimate consignee) in accordance with § 372.3 of this subchapter. In addition, shipments to Switzerland remain subject to § 381.4 of this subchapter requiring a statement on the shipper's export declaration, bill of lading, and commercial invoice, to the effect that the commodities are licensed by the United States for ultimate destination Switzerland and that diversion contrary to U. S. law is prohibited.

If the Swiss importer is unable to obtain the commodities covered by a blue import certificate, he is required by the Swiss Government to produce evidence of such inability. Therefore, the Office of International Trade will return the certificate to the U. S. exporter (applicant), for forwarding to the Swiss importer, whenever an application for export of commodities to Switzerland is rejected or is approved in a reduced quantity. In such cases the U. S. exporter should forward the certificate to the Swiss importer as soon as he determines that the certificate will not be used with a new or resubmitted license application, or an appeal. Appropriate notation will be made on the certificate by the Office of International Trade indicating such facts.

§ 373.23 *Special provisions for exportations to Sweden and the Belgian Congo.* Each applicant for a license to export commodities to Sweden or the Belgian Congo shall show, in the space provided on the application, Form IT-419, the number of the import license or other import authorization upon which his application is based.

§ 373.24 *Statement of past participation in exports for certain commodities—(a) Statement of past participation—(1) General.* (i) Oversubscription of export quotas for an increasing number of commodities in short supply indicates a greater use of the historical pattern of exports as a factor in the granting of export licenses in order to obtain a more equitable distribution of available quo-

tas. More particularly, it aids in accomplishing one of the underlying considerations in licensing; namely, the maintenance of a normal pattern of export trade. Under this method of license issuance, the bulk of export quotas is reserved for those firms who have participated in exports during a representative base period. However, licensing on the historical basis does not preclude participation by exporters who do not have a record of past participation in exports during the base period since a certain portion of the quota is also reserved for those exporters within this category. Where necessary, a portion of the quota will also be set aside for especially urgent needs, such as military or defense-supported requirements.

(ii) This section sets forth the general provisions for submission by exporters of a statement of past participation in exports for the indicated commodities.

(2) *Requirement to file.* Applicants for licenses to export any commodities described in paragraph (b) of this section are required to submit to the Office of International Trade a statement of past participation in exports of that commodity on Form IT–821, in duplicate, excluding exports specified in subparagraph (5) of this paragraph. This information shall be filed only once by an applicant, unless there is a change in the name of the reporting firm or in its relation with other firms. At the time of such change, a new Form IT–821 shall be submitted which refers to the original form and contains the new information. In order to be considered in relation to a specific quota, the completed Form IT–821 must be received in the Office of International Trade prior to the termination date for filing applications under that quota. The submission of this information does not guarantee that the applicant will receive a license for the full amount or any portion of the commodities covered by his license application.

(3) *Restrictive quota participation.* A single firm shall be entitled to only one participation in each quota established for each category of commodities specified in paragraph (b) of this section. The filing of dual applications or the claiming of an additional participation through any device whatsoever may result in the denial of export licensing privileges to all persons concerned.

(4) *Form IT–821.* The following information, in addition to other information specified on the form, shall be submitted on Form IT–821:

(i) On separate Forms IT–821 for each category of commodities, the total quantity of exports, excluding shipments covered by subparagraph (5) of this paragraph, from the United States to all foreign countries other than Canada (unless otherwise specified in paragraph (b) of this section) shipped in the exporter's name, i. e., for his own account, during each of the calendar years indicated in paragraph (b) of this section.

(ii) The names of each exporter, dealer, manufacturer, or other business organization (whether an individual, partnership, association, corporation, or other type of business organization) engaged in the export of the particular commodity being reported which is directly or indirectly owned or controlled by the applicant or which directly or indirectly owns or controls the applicant's operations. The date (month and year) when each such firm or organization was established and its relationship to the applicant's operations shall also be included.

(5) *Exports excluded from report.* Unless specifically requested, exportation of any commodity described in paragraph (b) of this section under conditions indicated below shall not be included in this report. Those exporters who previously filed Form IT–821 and included thereon exports shipped under such conditions shall file an amended Form IT–821 excluding these shipments.

(i) Shipments to territories, dependencies and other possessions of the United States and Trust Territory of the Pacific Islands, i. e., the Caroline Islands, the Marshall Islands, and the Marianas Islands.

(ii) Toll shipments.

(iii) In-transit shipments.

(iv) Shipments under project licenses.

(v) Shipments to Canada.

(6) *Successors in interest.* A successor firm which has acquired the business interest of a predecessor may include its predecessor's record of past participation in exports for the purpose of establishing the successor firm's position as an historical exporter, provided that the predecessor is not entitled to claim the same past participation in exports. Such successor firm may submit Form IT–821 for consideration by the Office of International Trade and set forth thereon, or on an attached statement, a full explanation of the association between the entities concerned and including the following signed statement:

> The terms of acquisition of the business interests of (name of predecessor firm) by (name of successor firm) precludes the predecessor firm from claiming past participation in exports for the purpose of obtaining export licenses under the historical pattern of export licensing.

NOTE: In the absence of a report on Form IT–821, OIT will assume that the applicant's total exports for each commodity were less in each of the specified calendar years than the established minimum amount (as shown in paragraph (b) of this section) for submission of Form IT–821, and his application for an export license will be considered under a portion of the export quota reserved for exporters in this category.

(b) *Commodities requiring statement of past participation.* Form IT–821 shall be submitted by applicants for export licenses, other than project licenses, for the following categories of commodities:

(1) *Truck and bus casings, passenger car casings, off-the-road casings, farm tractor and implement casings, and industrial casings, Schedule B Nos. 206000, 206210, 206430, 206440, 206460, and 206490.* Separate reports on Form IT–821 shall be submitted reflecting the quantity, in number of units of exports from the United States, made during each of the calendar years 1948, 1949, and 1950 to the following countries. This report shall be submitted only where the total of such exports to all of these countries was $10,000 or more during any one year for either (i) passenger car casings, Schedule B No. 206210 or for (ii) total of casings classified under Schedule B Nos. 206000, 206430, 206440, 206460, and 206490.

Belgian Congo.	Lebanon.
Belgium.	Malaya.
Finland.	Philippine Islands.
France.	Singapore.
French Morocco.	Sweden.
Indonesia.	Switzerland.
Iran.	Syria.
Iraq.	Thailand.
Israel.	

(2) DDT (*dichlorodiphenyl trichloroethane*), *including preparations thereof containing 25 percent or more DDT (100 percent basis), Schedule B. No. 820580.* The report on Form IT–821 shall cover the quantity (shown in the technical (100 percent) DDT equivalent) of exports from the United States made to any one country during each of the calendar years 1949 and 1950 where the total of such exports to that country was $250 or more for either year.

(3) *All controlled materials and certain additional commodities with processing code NONF:*

Corrugated aluminum sheet, Schedule B No. 630301;
Refined copper in cathodes, billets, ingots, wire bars, and other crude forms, Schedule B No. 641200; copper bars (except wire bars), Schedule B No. 642400;
Copper scrap, Schedule B No. 641300;
Brass and bronze scrap, new and old, Schedule B No. 644000; brass and bronze ingots, Schedule B No. 644100;
Lead pigs, bars, and anodes (include blocks and ingots), Schedule B No. 650750;
Zinc slab, Schedule B Nos. 657101, 657103, 657125, 657198;
All controlled materials (identified on the Positive List by the letter "C" in the column headed "Commodity Lists").

A separate report on Form IT–821 shall be filed for each Schedule B number and shall cover the quantity in Schedule B units of exports from the United States made during each of the calendar years 1949 and 1950 where the total of such exports for each commodity was $5,000 or more for any one year.

(4) *Plumbers' brass goods, Schedule B No. 618857.* The report on Form IT–821 shall cover the quantity by weight of exports from the United States during each of the calendar years 1949 and 1950, and during the first 6 months of the calendar year 1951 where the total of such exports was 1,000 pounds or more for any 1 year and 500 pounds or more during the first 6 months of 1951.

(5) *Paper base stocks, Schedule B Nos. 460110, 460200, 460400, 460800, 461010, and 461900.* The report on Form IT–821 shall cover the quantity (air dry weight) for exports from the United States during each of the calendar years 1947, 1948, 1949, and 1950 where the total of such exports during any 1 year was 100 short tons or more.

(6) *Copper sulfate (Schedule B No. 820100).* The report on Form IT–821 shall cover the quantity of exports from the United States made to any one country during each of the calendar years 1949 and 1950 where the total of

such exports to that country was $250 or more for either year.

§ 373.25 *Special provisions for wool waste and wool yarns.* [Deleted, effective January 31, 1952.]

§ 373.26 *Special provisions for applications covering commodities for which supply assistance is requested.* Special provisions for certain license applications covering commodities for which supply assistance is requested at the same time the license application is filed with the Office of International Trade, are set forth in Part 398 of this subchapter.

§ 373.27 *Special provisions for cotton duck.* (Deleted, effective June 6, 1952.)

§ 373.28 *Special provisions for exports to serialized mines, smelters and mineral prospecting operations abroad.* License applications filed for export of commodities to any foreign mine (other than petroleum, solid fuels, uranium and natural gas), a nonferrous smelter, or mineral prospecting operation that has had a serial number assigned thereto by the Defense Materials Procurement Agency (formerly Defense Minerals Administration), shall plainly show such serial number in the commodity description column of the license application, Form IT–419.

§ 373.29 *Special provisions for certain totally allocated commodities*—(a) *Commodities included.* The following commodities, as described in the relevant National Production Authority orders, are subject to this section. The NPAF forms required to be submitted with respect to each commodity or group of commodities covered by an NPA order are specified in each order and for the convenience of exporters are also set forth below:

Commodity [1]	Relevant NPA Order	Required NPAF Form
Tin	M–43	7
Stainless	M–9	110
Copper refinery shapes (not CMP shapes) and brass and bronze ingots	M–16	85
Copper scrap and copper base alloy scrap	M–16	85
Tungsten ores	M–80	114
Tungsten, except pure	M–80	114
Molybdenum, pure	M–80	114
Molybdenum, except pure	M–80	114
Sulfur [2]	M–56	115
Selenium	M–64	116

[1] Commodities covered are described in detail in the applicable NPA order.

NOTE: The term "totally allocated commodities" includes those commodities for which the user, purchaser, or seller must hold an allocation authorization or release from the National Production Authority prior to his use, purchase, or sale thereof.

Since the commodities covered by this section are under total allocation by the National Production Authority, the fact that an exporter holds a validated export license does not in itself permit him to deliver such commodities or accept delivery from a supplier. Under NPA regulations in effect as of October 4, 1951, he must file a separate application for an individual allocation authorization (using the appropriate NPAF form).

However, under this section, the required National Production Authority form (NPAF form) will be filed together with the export license application with the Office of International Trade, and the approval of the allocation request will be integrated with and will depend upon action on the export license application.

Consequently, when an allocation request is approved, the approved NPAF form will be returned to the applicant either (1) by the OIT with the validated license, or (2) by the NPA immediately after the OIT has approved the license application, in which case the exporter will receive his validated license from the OIT at about the same time. The procedure set forth in this section will save time for the exporter and will assure that he may accept and make delivery for export of material against his export license covering such commodities.

(b) *How to prepare NPAF forms.*[1] The NPAF forms should be filled out in accordance with the requirements of the relevant NPA order, since official action on the allocation requests will be taken by NPA after the requests are submitted to the Office of International Trade. However, where the applicant is instructed on the form or in the order to file for his requirements covering a specified period of time (e. g., a month or a quarter), exporters shall, in each case, file separate NPAF forms to cover only the quantity specified in each individual export license application (or each validated license to export the commodities for which an allocation is requested). In addition, exporters need not necessarily answer items on the NPAF forms which are inapplicable, or for which information is unavailable, such as "periodic inventory reports," or "analysis of rated orders."

NOTE: 1. *NPA orders and instructions.* Exporters should become familiar with the NPA "M" orders and the NPAF forms mentioned in paragraph (a) of this section for instructions in filling out these forms and for understanding their responsibilities under the orders.

2. *NPA inventory form.* Attention of exporters is directed to the fact that the filing of the inventory form required by various NPA orders covering the commodities listed in paragraph (a) of this section is not applicable in the case of exporters. Allocation requests submitted together with or in connection with export license applications or licenses need not be accompanied by any inventory forms.

(c) *Submission of NPAF forms with license applications*—(1) *New applications.* With the exceptions set forth in subparagraph (4) of this paragraph, all license applications covering the commodities listed in paragraph (a) of this section must be accompanied by the appropriate NPAF form, requesting an allocation. License applications covering such commodities will be returned to the applicant without action unless the appropriate NPAF form is attached and properly prepared. If the license application is approved, the approved allocation request (NPAF) form, bearing an assigned certification number which will authorize the licensee to accept or make delivery of the material in the quantity specified on the license will be returned to the applicant either by the Office of International Trade with the validated license, or under separate cover from the NPA. If the NPAF form has already been filed with the National Production Authority, the applicant shall submit with the export license application a copy of such NPAF form to the Office of International Trade, marked "Copy," regardless of whether NPA has acted on the allocation request. If NPA has acted on the allocation request, the applicant shall indicate the action taken by NPA on the face of the NPAF form copy sent to the Office of International Trade.

(2) *Pending applications.* Except as provided in subparagraph (4) of this paragraph, for all license applications covering the commodities added to the list in paragraph (a) of this section that are pending before the Office of International Trade on the effective date when the new commodity is added, and for which the NPAF form has not been filed with the National Production Authority, the applicant shall immediately file the appropriate NPAF form with the Office of International Trade; if the applicant has already filed such form with the NPA, he shall send a copy of such NPAF form to the Office of International Trade, marked "Copy," regardless whether NPA has acted on the allocation request. In all cases, the applicant shall note on the copy of the NPAF form the OIT case number, if known; the applicant's reference number; the Schedule B number(s), and country of destination. If NPA has acted on the allocation request, the action taken by NPA shall be noted on the face of the NPAF form copy sent to the Office of International Trade.

(3) *Outstanding validated licenses.* For all outstanding validated licenses covering commodities listed in paragraph (a) of this section, and for which the NPAF form has not been filed with National Production Authority, the licensee shall immediately file the appropriate NPAF form with the Office of International Trade; if the licensee has already filed such form with NPA, but no allocation has been granted, he shall send a copy of such NPAF form to the Office of International Trade, marked "Copy." In either case, the applicant shall note on the copy of the NPAF form the OIT case number, the export license number, the date of issuance, the Schedule B number(s), and country of destination. If partial shipment has been made, he shall indicate the quantity shipped, the unshipped balance, and the collector of customs with whom the license has been deposited.

NOTE: Requests for approval of the NPAF form filed pursuant to this section will be considered within the quotas established for the current quarter or allocation period.

(4) *Exception.* The procedure set forth in this section is not applicable in the case of materials purchased for export under the "small-user" provisions of the relevant "M" orders. In such cases, a signed statement from the applicant (in lieu of the NPAF form) must accompany the export license application. This statement should conform substantially with the following certification:

[1] Copies of NPAF forms may be secured from the Department of Commerce and NPA field offices and from the Distribution Office, National Production Authority, Department of Commerce, New GAO Building, Fourth and G Streets NW., Washington 25, D. C.

The undersigned certifies, subject to penalties provided by law or regulation, that the material covered by the attached export license application was procured in conformity with "small-user" provisions contained in paragraph -------- of NPA Order No. M--------- and that all provisions of this order have been or will be complied with.

Signature ----------
Title ----------

(5) *Time for filing NPAF forms and "small-user" certification with OIT.* Allocation requests for commodities listed in paragraph (a) of this section must be submitted to the Office of the International Trade as follows:

(i) Allocation requests with new license applications shall be submitted at any time the license application may be submitted (see § 372.3 (a) of this subchapter and § 373.51).

(ii) Allocation requests for commodities covered by outstanding licenses and license applications pending in the Office of International Trade when the commodities are added to the list in § 373.29 (a), shall be submitted within 20 days after the effective date when the new commodities are added to the list.

Allocation requests received after these dates cannot be considered for approval.

§ 373.30 *Special provisions for coal and coke.* (Deleted, effective April 24, 1952.)

§ 373.31 *Special provisions for synthetic rubber (GR–S).* (Deleted, effective May 23, 1952.)

§ 373.32 *Licensing policies for tinplate.* Tinplate, Schedule B Nos. 604010, 604020, 604110, 604150, and 604170, will be licensed for export in accordance with the provisions of § 373.1 and the licensing policies and special provisions set forth in this section.

(a) *Specification production plate.* Specification production plate: Tinplate, hot-dipped and electrolytic, primes and seconds, and tinplate decorated, embossed, lithographed, lacquered, or otherwise advanced, Schedule B Nos. 604110, 604150, and 604170, will be licensed for export in accordance with the following special provisions of this paragraph:

(1) *Consignee and end uses.* In general, applications for licenses will be considered for approval by the Office of International Trade only where the foreign consignee is a regular user of tinplate and where the end use is for the preservation of perishable essential foods or the packaging of petroleum products.

(2) *Time for submission of applications.* Applications for licenses shall be submitted to the Office of International Trade in accordance with the time schedules set forth in § 373.51.

(3) *CMP allotments.* The Controlled Materials Plan (CMP) governing the distribution of certain metals, as established by the National Production Authority, effective July 1, 1951, is applicable to all the tinplate commodities covered by this section. If an export license is issued, the Office of International Trade will assign a CMP allotment in accordance with § 398.5 of this subchapter. Tinplate will be licensed against export quotas established quarterly.

(b) *Tinplate secondary products.* Tinplate secondary products:

Unassorted and mixed tempers—Schedule B Nos. 604110, 604150.
Unmended menders—Schedule B No. 604010.
Mill accumulations—Schedule B Nos. 604110, 604150.
Waste-waste—Schedule B No. 604010.
Circles, strips, cobbles, and scroll-shear butts—Schedule B No. 604020.
Lithographic misprints—Schedule B No. 604170.

will be licensed for export in accordance with the following special provisions of this paragraph:

(1) *Consignee and end uses.* In general, applications for licenses will be considered for approval by the Office of International Trade only where the foreign consignee is a regular user or recognized distributor of tinplate and where the end use is for the preservation of perishable essential foods, the packaging of petroleum products, or for other meritorious end uses. (As to other meritorious end uses, see Note 1 following this paragraph.)

(2) *Time for submission of applications.* Applications for licenses shall be submitted to the Office of International Trade in accordance with the time schedules set forth in § 373.51.

(3) *Evidence of availability.* Evidence of availability, as prescribed by § 373.16, must be submitted with the license applications.

(4) *CMP allotments.* The Controlled Materials Plan (CMP) governing the distribution of certain metals, as established by the National Production Authority, effective July 1, 1951, is applicable to all the tinplate commodities covered by this section. If an export license is issued, the Office of International Trade will assign a CMP allotment where necessary in accordance with § 398.5 of this subchapter. Tinplate will be licensed against export quotas established quarterly.

NOTE: 1. *NPA orders and their applicability to exports.* National Production Authority Orders M–8, M–24, M–25, and M–26 regulate the use of tin and tinplate in the domestic market.[2] These orders are applied by the Office of International Trade in licensing exports, as described in § 373.19.

2. *Consignee information.* Information concerning the consignees (regular users and recognized distributors) in foreign countries is obtained by the Office of International Trade for licensing all tinplate covered by this section from two sources: (a) United States Embassies in the respective countries, and (b) the foreign embassies and/or trade missions in the United States. These two sources will also inform the Office of International Trade concerning any supplier preference indicated by the consignee.

3. *Quotas established for tinplate.* The following separate export quotas are established quarterly against which each grade of tinplate will be licensed:

(a) Primes and seconds (specification production plate):
(1) For food packing.
(2) For petroleum packaging.
(b) Unassorted and mixed tempers.
(c) Unmended menders.
(d) Mill accumulations.
(e) Waste-waste (including terneplate waste-waste).

[2] NPA orders may be obtained from field offices of the Department of Commerce upon request.

(f) Circles, strips, cobbles, scroll-shear butts, and lithographic misprints.

(c) *Definitions.* For the purposes of this section the following definitions and explanations are given as to various grades of tinplate:

(1) *Specification production plate.* Specification production plate includes hot-dipped and electrolytic primes and seconds, and tinplate decorated, embossed, lithographed, lacquered, or otherwise advanced. Specification production plate is that plate made according to specifications of the purchaser, and is to be distinguished from the other grades of tinplate that are referred to generically as "secondary products."

(2) *Unassorted and mixed tempers.* Unassorted and mixed tempers tinplate means primes, seconds, or unassorted tinplate arising in the production of hot-dipped or electrolytic tinplate which has been packaged without regard to temper.

(3) *Unmended menders.* Unmended menders means tinplate arising in the production of electrolytic tinplate which has been set aside by the producer by reason of surface appearance which disqualifies such tinplate from sale as primes, seconds, or unassorted.

(4) *Mill accumulations.* Mill accumulations tinplate is plate arising as the result of overruns in the manufacture of specification production plate and is so identified when sold, manifested, or shipped.

(5) *Waste-waste.* Waste-waste tinplate means hot-dipped or electrolytic tin-coated steel sheets which have been rejected during processing by the producer because of imperfections which disqualify such sheets from sale as prime, seconds, or unassorted.

(6) *Strips, circles, cobbles, lithographic misprints, and other miscellaneous secondary products.* This tinplate consists of off-falls (failure of cutting machines to completely utilize tinplate sheets for the manufacture of cans or other tinplate items) accumulated in the producing mills, the can manufacturing plants, and in lithographing operations, and includes other secondary products not otherwise classified.

§ 373.33 *Special provisions for exportations of certain commodities to Japan and Ryukyu Islands (including Okinawa).* (Deleted, effective May 29, 1952.)

§ 373.34 *Confirmation of country of ultimate destination and verification of actual delivery.*—(a) *Scope.*—(1) *General.* The provisions of this section shall apply to shipments for which a validated license is required covering the following commodities proposed for export or exported to the following countries:

(i) *Commodities.* The commodities and Schedule B numbers subject to the provisions of this section are those commodities on the Positive List of Commodities (§ 359.1 of this subchapter) that are identified by the letter "A" in the column headed "Commodity Lists."

(ii) *Countries.* Belgium, Denmark, France, Italy, Luxembourg, Norway, Portugal, United Kingdom, Western Germany, Netherlands.

(2) *Exemptions.* The provisions of this section shall not apply to any shipments or applications for export licenses covering any shipments to be made under project licenses, nor to applications for licenses to export commodities where the value shown on the license is less than $500, or to applications for licenses to export commodities to a foreign government or government agency as ultimate consignee and user.

(b) *Definitions.* As used in this section, the terms "import certificate" and "delivery verification" refer to documents issued by governments of countries listed in paragraph (a) of this section to importers in such countries and are the equivalent documents to the United States Declaration of Destination, Form IT–826, and Landing Certificate, Customs Form 3227, respectively (see § 368.1 of this subchapter.)

(c) *Submission of import certificates.* (1) Except as shown in Note 4 below, The applicant must attach to his license application, covering proposed exportations described in paragraph (a) of this section, the original copy of the import certificate, issued or certified by the government of the importing country, to the ultimate consignee and covering commodities described by the export license application.

(2) Where the import certificate covers commodities for which more than one export license application must be submitted, the original copy of the import certificate shall be attached to the first such application and a true copy of the import certificate shall be attached to each subsequent application to which it is equally applicable. Any application to which a true copy of the import certificate is attached shall contain a reference (OIT case number, if known, or applicant's reference number) to all other applications submitted at any time against the same import certificate.

NOTE: 1. *Purchase order.* The import certificate may cover more than one purchase order and one purchase order may involve several commodities; however, the import certificate shall relate only to purchase orders placed by a single importer (who shall be the ultimate consignee) located in a single foreign country, with a single United States exporter.

2. *Applicant's responsibility for full disclosure.* In submitting import certificates from the ultimate consignee, the applicant is not relieved of responsibility for full disclosure of any other information concerning the ultimate destination and end use of which he has knowledge or belief, whether or not inconsistent with the representations set forth in the import certificate. In accordance with the provisions of § 381.1 of this subchapter, the applicant also shall, by means of supplementary statements from the ultimate consignee, notify the Department of Commerce of any change that is brought to his notice by the ultimate consignee subsequent to the date the import certificate is issued or certified by the government of the country of ultimate destination.

3. *Import certificates as a factor in licensing.* The Department of Commerce reserves the right in all respects to determine to what extent any licenses shall be issued covering commodities for which foreign governments have issued import certificates. The Department of Commerce will not seek or undertake to give consideration to recommendations from foreign governments as to the United States exporters whose license applications should be approved. Import certificates will be used by the Office of International Trade as only one of the considerations upon which licensing action will be based, since quotas, end uses, etc., must remain important factors in export licensing.

4. *Substitution for import certificate.* For an interim period only, the Office of International Trade will continue to accept an ultimate consignee statement in lieu of an import certificate provided only that all of the following conditions are complied with:

(i) The ultimate consignee has attempted to obtain an import certificate, but has been unable to obtain such import certificate.

(ii) The applicant enters the following certification in Item 9 of Form IT–419, Application for Export License: "The applicant has been advised by the ultimate consignee named herein that the said consignee has attempted to obtain an import certificate covering commodities specified in this application, but was unable to obtain such import certificate."

(iii) The ultimate consignee statement is submitted pursuant to all of the requirements shown in § 372.3 (d).

(d) *Submission of delivery verifications.* When notified to do so by the Office of International Trade, persons issued licenses covering shipments within the scope of this section shall, within a reasonable time after clearance of last exportation made under the license: (1) Obtain from the ultimate consignee a verification of delivery which has been issued to the ultimate consignee by his government, covering the commodities described on the particular export license, or so much thereof (in the case complete shipment against the license will not be made) as the licensee will have shipped; and (2) send the original copy of the delivery verification to the Office of International Trade. If a delivery verification is required with respect to commodities covered by a license and the licensee makes partial shipments against the license, the licensee shall obtain a delivery verification for each partial shipment and retain them in his files until all delivery verifications respecting shipments against the license have been received by him, and then send the original copy of all such delivery verifications to the Office of International Trade in one parcel.

NOTE: 1. *Delivery verifications.* It will be the policy of the Office of International Trade to require delivery verifications on a selective basis where import certificates are required. In the event a delivery verification must be submitted, the licensee will be so notified when the export license is issued.

2. *Translation requirements.* All abbreviations, coded terms, or other expressions having special significance in the trade or to the parties to the transaction must be explained. Where the commodity description is in a foreign language, the document must be accompanied by an accurate English translation of the commodity description. Such translation need not be made by a translating service, but, if not, must be certified by the applicant to be a correct translation. (See § 372.9 of this subchapter.)

(e) *Effective dates.* Whenever the scope of this section is extended by adding additional commodities or countries to those described in paragraph (a) of this section, such changes shall become effective 45 days from the time such new commodities or countries are added.

(f) *Relationship to ultimate consignee statements.* The requirement for submission of consignee statements specified in § 372.3 (d) of this subchapter shall not be applicable wherever import certificates are submitted pursuant to the requirements of this section.

(g) *Requests for exception.* (1) Any license applicant affected by the provisions of paragraph (c) of this section may file a request for exception upon the ground that this procedure is inapplicable to the transaction, i. e., the shipment will not be imported for consumption into the named country of destination. Each request shall be by letter, in duplicate, accompanying the license application to which it applies, addressed to the Office of International Trade, Department of Commerce, Washington 25, D. C. The letter request must, among other things, state the nature and duration of the relationship between the applicant and the ultimate consignee shown on the license application, a statement as to the country or countries in which the commodities will be used, and the reasons why this regulation is inapplicable in connection with the particular transaction. The applicant must attach to his letter request, or have on file in the Office of International Trade, a statement from the consignee and purchaser in accordance with § 372.3 (d) of this subchapter. No request will be considered or granted unless such statement is submitted or is on file in the Office of International Trade.

(2) Where the letter request relates to more than one license application, whether submitted at the same time or at a later date, the original letter request shall be attached to one application and a true copy of the request shall be attached to each additional application to which it is equally applicable. Any application to which the true copy of the request is attached shall contain a reference (OIT case number, if known, or applicant's reference number) to the application to which the original letter request was attached.

NOTE: (1) In general, requests for exceptions set forth in paragraph (g) of this section will be granted only where the commodities in the particular export transaction covered by the license application are exported to distributors or other foreign importers for resale and are not entered for consumption into the customs territory of the country of destination shown on the license. Requests for exception will be considered, however, where there is no dealership arrangement between the U. S. exporter and his consignee, or where the transaction described in the license application is one for which a single consignee (and purchaser) statement is submitted to the Office of International Trade. In all cases, the letter request for exception shall contain the pertinent facts in detail, as set forth in § 373.34 (g).

(2) The Office of International Trade can give no assurance that an export license will be issued for any exportation where an exception to this section is requested. It must be recognized that delay will usually be present in processing such applications, although the Office of International Trade will process the applications as quickly as possible.

§ 373.35 *Special provisions for plumbers' brass goods.* Applications for licenses to export plumbers' brass goods

(copper-base alloy plumbing fixtures and fittings and specially fabricated parts), Schedule B No. 618857 (formerly Schedule B Nos. 645600, 646900, and 669198), must state, in pounds, the total amount of such commodities manufactured in foreign countries and imported into the United States. If all of such commodities were manufactured in the United States, that fact shall be stated specifically on the application.

§ 373.36 *Special provisions for human blood plasma.* During the first and second calendar quarters, 1952, human blood plasma, Schedule B No. 812100, will be licensed for export in accordance with the following special provisions:

(a) *Licensing criteria.* The total quantity of commercial human blood plasma which will be licensed each quarter will not exceed the quarterly average of exports during 1949 and the first six months of 1950. Applications submitted for licenses to export human blood plasma will be considered for approval by the Office of International Trade only where the end use and quantity involved meet one of the following criteria:

(1) Certified requirements of facilities abroad, such as mining and oil operations, which are directly contributing to the defense effort.

(2) Reasonable quantities for armed forces of friendly nations which are actively in conflict with Communist forces and which are dependent on the United States for dried plasma to support this action.

(3) Reasonable quantities for friendly foreign governments and internationally recognized health organizations for distribution in public health programs.

(4) Reasonable quantities to friendly countries for the supply of hospitals, local clinics, or other local health organizations where there are assurances by the ministries of health as to the need, end use and distribution; or for the needs of Americans residing abroad or for American companies operating abroad where similar assurances have been provided as to the need, end use and distribution.

(5) Minimum quantities required by exporters for registry with foreign governments but only where consistent with subparagraphs (1) through (4) of this paragraph.

No export licenses will be granted for the export of human blood plasma for purely advertising and sales promotion purposes. No export licenses will be granted for the export of human blood plasma to Subgroup A destinations.

(b) *Justification of end use.* (1) Where the human blood plasma is to be used at facilities abroad which, like mining and oil operations, are directly contributing to the defense effort, the applicant for the export license must certify on the license application, or on an attachment thereto, that the quantities covered by the license application are not in excess of the average quarterly requirements of the facility abroad, and furnish evidence to substantiate such requirements by showing previous U. S. exports to the particular facility and its average quarterly consumption.

(2) Where the human blood plasma is to be used for the supply of hospitals, local clinics, or other local health organizations, the applicant shall attach to the license application a statement from the foreign ministry of health setting forth the need, end use, and distribution of the blood plasma covered by the license application.

(3) Where the human blood plasma is to be used for the needs of Americans residing abroad or for American companies operating abroad, the applicant shall attach to the license application a statement prepared by the applicant, the consignee, or medical personnel retained by the consignee setting forth the need, end use, and distribution of the blood plasma covered by the license application.

(4) Where the human blood plasma is to be exported to friendly foreign governments by U. S. exporters for purposes of registering or maintaining the registry of the blood plasma with the foreign government, the license applicant shall so certify on the license application.

§ 373.37 *Special provisions for cryolite.* Cryolite, natural and artificial, Schedule B No. 596012, will be licensed for export in accordance with the provisions of §373.19 and the following special provisions:

(a) *Requests for purchase authorization.* National Production Authority Order M–99 provides that commencing March 1, 1952, no person shall purchase cryolite for export without specific authorization from NPA and that the application for export license to the Office of International Trade shall constitute a request for such NPA authorization. The licensing action of the Office of International Trade will be coordinated with the granting of the purchase or other specific authorization by the National Production Authority so that at the time an export license is issued it will be accompanied by the necessary National Production Authority authorization.

(b) *Outstanding licenses.* If an exporter needs a purchase or other specific authorization for cryolite covered by an outstanding validated export license, he may request such authorization by letter to the Office of International Trade, Washington 25, D. C. The letter should either include the export license or the following information: OIT case number, license number, applicant's reference number, name and address of licensee, and a statement that the authorization is requested.

§ 373.38 *Special provisions for copper under the Controlled Materials Plan*—(a) *Licensing policy.* Applications for licenses to export copper under the Controlled Materials Plan will be considered for approval only where the end use is essential to:

(1) The direct military production of the United States or a friendly foreign nation.

(2) The production abroad of strategic materials for shipment to the United States or to a friendly foreign nation.

(3) The maintenance and development of direct defense-supporting industry, including facilities required to accomplish either of the two objectives mentioned in subparagraphs (1) or (2) of this paragraph.

(4) The maintenance and development of the basic economy, civilian activities, and public services of the United States or of a friendly foreign nation, including essential facilities for transportation, communication, electric power, public welfare, and industrial production (such as steel mills, food processing manufactures, textile mills, and sugar mills).

(b) *Statement of essentiality.* Applications for licenses to export copper under the Controlled Materials Plan must state specifically the detailed end use for which the commodity will be utilized by the ultimate consignee. Any supplementary evidence available to the exporter concerning the essentiality of the end use for which the copper is intended should accompany the application.

(c) *Applications returned without action or disapproved.* Applications for licenses to export copper for any end use other than those set forth in paragraph (a) of this section will be returned without action and should not be resubmitted until a revised licensing policy is officially announced by the Office of International Trade. Applications for licenses which are eligible for approval under the current licensing policy may, nevertheless, be returned without action or disapproved if export quotas are inadequate.

§ 373.39 *Special provisions for tobacco and tobacco products destined to Hong Kong*—(a) *Licensing of exports for consumption in Hong Kong.* Applications for licenses to ship tobacco and tobacco products of United States origin for sale, and consumption in Hong Kong (the local duty-paid Hong Kong market) will be considered each quarter in total quantities not to exceed one fourth of the total amount of such commodities sold for consumption in Hong Kong during the calendar year 1951. The amount licensed to any individual applicant generally will be based upon the proportion of that applicant's participation in the sales for consumption in Hong Kong during the combined calendar years 1949 and 1950. In addition, a small portion of the quota will be reserved for exporters who did not participate in sales for consumption in Hong Kong during the established period.

(b) *Licensing of exports for transshipment or reexportation through Hong Kong to other destinations*—(1) *Resale from stock in Hong Kong warehouses.* Applications for licenses to export tobacco and tobacco products of United States origin to Hong Kong for storage in warehouses, resale, and reexportation to one or more authorized destinations other than the Hong Kong consumers market will be considered in quantities not to exceed the minimum inventory requirements of the Hong Kong consignee, provided the following is shown on the application or an attachment to it:

TIME SCHEDULES FOR SUBMISSION OF APPLICATIONS FOR LICENSES TO EXPORT CERTAIN POSITIVE LIST COMMODITIES

SECOND AND THIRD QUARTERS, 1952

Dept. of Commerce Schedule B No.	Commodity	Submission dates: Second quarter 1952	Third quarter 1952
	Metals and manufactures—Continued		
	Commodities other than controlled materials: All commodities with processing code NONF under the following headings:		
651712	Aluminum and manufactures	Feb. 1–Feb. 15, 1952	May 1–May 15, 1952
651811	Copper and manufactures		
651812	Lead, including pig and manufactures		
651817	Bullion metal	do	Do.
651831	Cadmium metal, alloy, dross, flue dust, residues, and manufactures		
619409	Cobalt: Cobalt, including dental alloys		
644524	Cast cobalt-chromium dental alloys		
52950	Cobalt reagents for laboratory use (includes cobalt chloride for laboratory test)		
52959	Cobalt: Salts of organic compounds (includes cobalt oxalate)	May 1–May 15, 1952	
59564	Cobalt compounds, except chemical pigments		
59566	Cobalt containing paint and varnish driers		
59596	Metal alloys and products containing cobalt		
	Medicinal and pharmaceutical preparations		
812100	Human blood plasma	May 1–May 14, 1952	

FOURTH QUARTER 1952, AND FIRST QUARTER 1953

Dept. of Commerce Schedule B No.	Commodity	Submission dates: Fourth quarter 1952	First quarter 1953
	Petroleum and products		
72100 through 72110; 64100	Lubricating oils and greases (for shipments to Burma, Ceylon, Eastern Hemisphere Trade Area, Malaya, Federation of, Malaya, Republic of, India, Pakistan, Republic of the Philippines, Singapore, and Thailand (see § 373.5))	On or before Aug. 15, 1952	
	Metals and manufactures[1]		
65857	Copper-base alloy (including brass and bronze) plumbing fixtures and fittings (using pipe sizes with working pressure not exceeding 125 lbs W.O.G. ratings), and specially fabricated parts, n.e.c. (specify Controlled materials):		
	Commodities with processing code STEEL	May 15–May 30, 1952	
	Commodities with processing code NONF	do	
	Specification production plate	June 16–July 18, 1952	

[1] Applications for permits to export commodities for which no specified filing dates are mentioned may be submitted at any time. (See § 373.2(a) regarding applications for licenses to export commodities not listed in Schedule B.)

[2] The submission dates for these commodities are also applicable to prebuy license applications (see § 373.12 (f) and § 373.5 (b) of this subchapter) and to production quota licenses (see § 373.5 (a) of this subchapter).

Last Note following § 373.5.

[3] See § 399.5 (b) (5) for exception to these dates under certain conditions.

PART 374—PROJECT LICENSES

Sec.	
374.1	Project licenses.
374.2	Dollar limit (DL) licenses.
374.3	SP (Special Project) licenses.
374.4	Amendments to licenses.
374.5	Extension of validity period.
374.6	Export clearance requirements.
374.7	Other applicable provisions.

AUTHORITY: §§ 374.1 to 374.7 issued under 64 Stat. 7, as amended; 50 U. S. C. App. 2023.

E. O. 9630, Sept. 27, 1945, 10 F. R. 12245; 3 CFR 1945 Supp. E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR 1948 Supp.

§ 374.1 *Project licenses.*—(a) *General.* Under the provisions of this part, there is established a procedure for the export-[illegible] of commodities required for specific project or program. Pursuant to this procedure, application may be made for a project license which, if issued, can

be used to effect export clearance of commodities requiring validated license to export.

(1) A "project" is a new foreign operation, or the expansion of an existing foreign operation, for which commodities are required; in other words, a capital expenditure.

(2) A "program" is the maintenance, repair or operation, and production requirements of commodities for a foreign operation.

Two types of project licenses have been established: The Dollar Limit (DL) license, and the Special Project (SP) license. The form of the project license will be a validated Application for Export License (Form IT–419) with supplemental validated documents as required. The validated Form IT–419 constitutes the general approval and authorization of the project; however, export clearance of commodities for such project may be effected only under the appropriate supplemental validated documents. The validated Form IT–419 may cover a project or program for a validity period of one year which may be renewable for a similar period on the request of the licensee in accordance with § 374.5. Supplemental documents will be valid for the period indicated thereon.

An exporter holding a project license (SP or DL License) shall not apply for, nor will the Office of International Trade issue, an individual or blanket (BLT) license for a transaction involving a project whose requirements are covered by an outstanding SP or DL license, except where the shipment is to be made by mail under the provisions of § 374.6.

(b) *Bases for consideration of project license applications.* In order to be considered under this procedure, a foreign project or program must have annual requirements for materials sufficient in quantity or variety to justify the use of the DL or SP procedure. Save for exceptional circumstances, applications for project licenses will be granted only for commodities not intended for resale.

(1) *DL licenses.* Applications for a DL license must meet one or more of the following conditions:

(i) The project or program will contribute significantly to supporting, maintaining, or increasing the production of materials strategic to or in short supply in the United States, and will benefit supply conditions of these materials in the United States or in areas in which the United States has a significant interest.

(ii) It will implement the Mutual Security Act or will implement loans granted foreign countries by the Export-Import Bank.

(iii) In the opinion of an appropriate agency of the U. S. Government (including the Office of International Trade), it merits licensing under the DL procedure.

(2) *SP licenses.* (i) Project license applications will be considered for SP licenses which are suited administratively to the project licensing technique, but where the foreign project or program does not possess elements of United States interest to justify the approval of a DL license under the provisions of subparagraph (1) of this paragraph. Annual requirements for materials must be sufficient in quantity and variety to justify the use of the SP procedure rather than individual license applications or unit-process license applications.

(ii) The use of the SP (Special) license procedure shall be mandatory for all large petroleum construction operations in which the total cost of controlled materials from the United States is $10,000 or more, or in which the total cost of all materials from all sources to be used is $50,000 or more. For such projects priority assistance is requested on Form PAD–26A (revised March 1952). If, at the time Form PAD–26A is submitted requesting priority assistance for such an operation, the applicant holds an SP license which is identical in coverage with the large construction operation, no new SP license will be issued and no application therefor need be filed. Reference to the outstanding SP license should be made on Form PAD–26A or in a letter attached thereto. In all other cases, however, application for SP license on Form IT–419 covering only the large construction operation under consideration must accompany Form PAD–26A. If in these circumstances an applicant under PAD–26A holds an outstanding SP license, which either includes as a component part the construction operation for which supply assistance is requested or covers it in part, the outstanding SP license must be amended to delete that portion involving the large construction operation. Such an application for amendment must be filed simultaneously with the application for a new SP license covering the large construction operation.

NOTE: 1. *Project License Identification.* If a project license is issued, it will be given a license number with either the prefix "SP" (if approved as a Special Project license) or with the prefix "DL" (if approved as a Dollar Limit license). Project licenses issued in connection with the approval of Form PAD–26A, for large petroleum construction operations in which the total cost of controlled materials from the United States is $10,000 or more, or in which the total cost of all materials from all sources to be used is $50,000 or more, will be given a license number with the prefix "SP 26."

2. *Consultations with OIT.* All applicants for new project licenses are advised that, before submitting an application, they should consult with the Office of International Trade, to the end that a determination may be made whether the use of the project license procedure is justified.

3. *Holders of SP project licenses.* Holders of outstanding SP project licenses, as well as other applicants, may apply for Dollar Limit licenses. If requirements for a project or program now authorized for export by an outstanding SP project license are approved for export under a Dollar Limit license, the SP project license will be canceled.

§ 374.2 *Dollar limit (DL) licenses*—(a) *License application form.* Applications for DL licenses must be submitted on Form IT–419, in duplicate, and must be accompanied by the additional statements and documents described in this section.

(b) *Preparation of application form.* In preparing the application, Form IT–419, with respect to the particular items specified below, the applicant shall enter:

(1) In the commodity description column, the following:

Articles and materials set forth on the attached statement of estimated requirements constitute the requirements for not more than 1 year for (insert name of project or program) of commodities requiring validated export license beginning (insert date, beginning with a calendar quarter). We hereby certify that if a license is granted in response to this application, no such commodities will be exported under the license unless specifically required for the project or program, and after exportation the commodities will not be disposed of or used for any purpose other than that stated in this application.

(2) In the value column, the total or aggregate dollar value of the commodities set forth in the statement of estimated requirements.

(3) In the space for signature, the signature of the person who has authority to bind the applicant organization to its commitments in the license application. In the case of an individual, the application shall be signed by that individual applicant; in the case of a partnership, it shall be signed by a partner; in the case of a corporation, it shall be signed by an officer; in the case of other applicants, it shall be signed by a comparable official.

(c) *Letter of explanation.* A letter, in duplicate, giving full details as to the nature of the project or program for which the commodities are required.

NOTE: The degree of adequacy of the information submitted in justification of the project or program has a direct bearing upon the period of time required for processing the application and the action taken. Additional information, if needed, will be requested by the OIT.

(d) *Statement of estimated requirements.* A statement, in duplicate, of the estimated commodity requirements requiring validated export license for one year, or less if the project or program is of shorter duration. Except for the restricted commodities described in paragraph (e) of this section, such statements shall be made in terms of broad descriptive categories, within which commodities are found on the Positive List, such as "steel mill products," "construction, excavating, and conveying machinery," or "industrial chemicals." The total dollar value of the requirements for each category of commodities shall also be shown. With respect to the restricted commodities described in paragraph (e) of this section, a separate statement of requirements, in duplicate, shall be made, stated in terms of the specific commodity description, Schedule B number and the unit of quantity shown for that commodity entry on the Positive List, as well as in terms of the total dollar value for each commodity.

NOTE: Commodities which do not require a validated license for export to the country in question should not be listed on the statement of estimated requirements.

(e) *Restricted commodities.* Commodities which, at the time of exportation, are identified on the Positive List of Commodities by the letter "B" in the column headed "Commodity Lists" may not be exported under a DL license unless, prior to export, a Form IT–375, SP (Special) License Application Materials Requirements List, has been submitted to and validated by the Department of Commerce in accordance with paragraph (f) of this section.

The foregoing limitation applies to any unshipped balance against outstanding DL licenses.

(f) *Submission of Form IT–375*—(1) *Manner of submission.* Where required in accordance with paragraph (e) of this section, Form IT–375 must be submitted, in duplicate, for each restricted commodity, except that related commodities having the same processing code symbol and number may be included on one set of Form IT–375. Commodities which do not have the same processing code symbol and number must be submitted on separate IT–375 forms.

In addition to furnishing all the other information requested, Form IT–375 must include a statement of firm requirements for the calendar quarter, stated in terms of the Schedule B number, commodity description, and quantity in the unit of quantity shown for that commodity entry on the Positive List, as well as in terms of total dollar value.

NOTE: A statement of the essentiality of the particular commodity in relation to the project will be helpful in expediting action on the application.

(2) *Time of submission.* When specific time schedules are established for submission of applications covering particular commodities, such schedules must be observed in the submission of Form IT–375 when so provided in the announcement. In all other cases Form IT–375 must be submitted not later than 30 days prior to the calendar quarter in which the commodity will be exported, except that where a commodity is placed under restricted commodity control invalidating the license with respect to that commodity less than 30 days prior to a calendar quarter, Form IT–375 may be submitted immediately.

NOTE: The commodities for which Form IT–375 must be submitted during particular periods are identified by a footnote reference in § 373.51 of this subchapter, "Time schedules for submission of applications for licenses to export certain Positive List commodities."

(g) *Authorizations required by other government agencies.* The applicant must also submit with the application any special authorization required by other agencies of the United States Government as to the commodities or matters covered by the application.

NOTE: The requirements of the special provisions set forth in Part 373 with respect to particular commodities must be fulfilled as a part of making application for the export of such commodities under a project license.

§ 374.3 *SP (Special) project licenses*—(a) *License application form.* Applications for SP (Special) Project licenses for a project or program shall be submitted on Form IT–419, in duplicate, and must be accompanied by the additional statement and documents described in this section.

NOTE: 1. These supplementary documents include Form IT–375, SP (Special) License Application Material Requirements List, which will be used for all other projects except petroleum; Form IT–824, Application for Export License and/or Supply Assistance for Foreign Petroleum Operations; and Form PAD–26A (revised March 1952), which will be used only for petroleum construction projects in which the total cost of controlled materials from the United States is $10,000 or more, or in which the total cost of all materials from all sources is $50,000 or more.

2. Authorizations to export as well as authorizations to use allotment symbols and priority ratings which have been issued previously will remain valid for the fourth quarter of 1951 and will expire only on the dates indicated on the respective Forms IT–419 and IT–375. As of September 15, 1951, however, Form IT–824 shall be used in lieu of Form IT–375 for future amendments to outstanding SP or DL licenses for foreign petroleum operations.

(b) *Preparation of application form.* In preparing the application, Form IT–419, with respect to the particular items specified below, the applicant shall enter:

(1) In the commodity description column, the following legend:

Articles and materials set forth on the attached Form IT–375, or for foreign petroleum projects Form IT–824 or PAD–26A, as appropriate, constitute the total known requirements for (insert name of project) or requirements for one year for (insert name of program) of commodities requiring validated export license beginning (insert date, beginning with a calendar quarter). We hereby certify that if a license is granted in response to this application, no such commodities will be exported under the license unless specifically required for the project or program, and after exportation the commodities will not be disposed of or used for any purpose other than that stated in this application.

(2) In the value column, the total or aggregate dollar value of the commodities to be exported, as shown on the IT–375, or for petroleum projects Form IT–824 or PAD–26A, as appropriate.

(3) In the space for signature, the signature of the person who has authority to bind the applicant organization to its commitments in the license application. In the case of an individual, the application shall be signed by that individual applicant; in the case of a partnership, it shall be signed by a partner; in the case of a corporation, it shall be signed by an officer; in the case of other applicants, it shall be signed by a comparable official.

(c) *Letter of explanation.* A letter, in duplicate, giving full details as to urgency of need of the commodities and the nature of the operation for which they are required. In the case of foreign petroleum construction operations in which the total cost of controlled materials from the United States is $10,000 or more, or in which the total cost of all materials from all sources to be used is $50,000 or more, the application must be accompanied by Form PAD–26A (revised March 1952) in lieu of the letter of explanation. For all other petroleum projects, the application must be accompanied by a statement in quintuplicate setting forth the specific information required by the Office of International Trade.

NOTE: The degree of adequacy of the information submitted in justification of the project has a direct bearing upon the period of time required for processing the application and the action taken. Additional information, if needed, will be requested by the OIT.

(d) *Commodity requirements for other than petroleum projects or programs, Form IT–375*—(1) *Estimate of total or yearly requirements.* A copy of Form IT–375, SP (Special) License Application Material Requirements List, in duplicate, must accompany each copy of application Form IT–419 and should be attached thereto. In addition to furnishing all the other information requested, Form IT–375 must include an estimate of the quantity of each commodity required. Such estimates must cover:

(i) In the case of projects, the total requirements thereof set forth by calendar quarter;

(ii) In the case of programs, the requirements for a full 12-month period set forth by calendar quarter.

(2) *Firm requirements by calendar quarters.* For the beginning and each successive calendar quarter, a separate Form IT–375, in duplicate, must be submitted for each commodity for which validated license is required, except that related commodities on the Positive List having the same processing code symbol and number may be included on one set of Form IT–375. Commodities which do not have the same processing code symbol and number must be submitted on separate IT–375 forms.

In addition to furnishing all the other information requested, Form IT–375 must include the following:

(i) A statement of firm requirements for the calendar quarter, stated in terms of the Schedule B number, commodity description, and quantity in the unit of quantity shown for that commodity on the Positive List, as well as in terms of total dollar value;

(ii) The estimated date on which the commodities listed on each Form IT–375 will become available to the applicant.

NOTE: Commodities which do not require a validated license to export to the country of destination should not be listed on Form IT–375.

(3) *Time of submission of firm requirements.* When specific time schedules are established for submission of applications covering particular commodities, such schedules must be observed in the submission of Form IT–375 covering quarterly firm requirements when so provided in the announcement. In all other cases Form IT–375 must be submitted not later than 30 days prior to the calendar quarter in which the commodity will be exported.

NOTE: The commodities for which Form IT–375 must be submitted during particular periods are identified by a footnote reference in § 373.51 of this subchapter, "Time schedules for submission of applications for licenses to export certain Positive List commodities."

(e) *Commodity requirements for petroleum projects and programs*—(1) *Large construction projects.* Form PAD–26A (revised March 1952), in quintuplicate, must accompany each license application. Form IT–419, involving construction operations in which the total cost of controlled materials from the United States is $10,000 or more, or in which the total cost of all materials from

all sources to be used is $50,000 or more. Form PAD–26A shall set forth the total requirements of the materials specified therein by calendar quarters for the complete project for which application is being made. This form need be filed only once, except to effect changes in delivery dates or quantity of material required. In addition, Form IT–419 must be accompanied by Form IT–824 in quintuplicate setting forth the requirements of materials to be used in the construction operation which do not appear on Form PAD–26A but which must be licensed for export. Applicants filing Form PAD–26A must list in section IV–A of Form PAD–26A all requirements of manufactured machinery or equipment under specific controls and must list in section IV–B all other machinery and equipment requirements, including those items with a value under $3,000. For such materials the requirements set forth on Forms PAD–26A and IT–824 shall be described in sufficient detail to identify clearly each item in terms of the Positive List of Commodities and shall be the total requirements of the complete project for which application is being made. Form IT–824 need be filed only once when used in connection with large construction projects, except to effect changes in the quantity of material required.

(2) *All other foreign petroleum projects.* Applications for licenses for all other foreign petroleum projects must be accompanied by a statement, in quintuplicate, of the estimated commodity requirements requiring validated export licenses for one year, or less if the project or program is of shorter duration. The commodity must be stated in terms of the specific commodity description, Schedule B number, and the unit of quantity shown for that commodity entry on the Positive List, as well as in terms of the total dollar value for each commodity.

(i) In the case of projects, the total requirements thereof set forth by calendar quarter;

(ii) In the case of programs, the requirements for a full 12-month period set forth by calendar quarter;

(iii) Firm requirements by calendar quarters. For the beginning and each successive calendar quarter, a separate Form IT–824, in quintuplicate, must be submitted for each commodity for which validated license is required, except that related commodities on the Positive List having the same processing code symbol and number may be included on one set of Form IT–824. However, not more than three such related commodities shall be included on one set of the forms. Commodities which do not have the same processing code symbol and number must be submitted on separate IT–824 forms.

In addition to furnishing all the other information requested, Form IT–824 must include the estimated date on which the commodities listed on each Form IT–824 will become available to the applicant.

(3) *Time of submission of firm requirements.* Requirements shall be submitted in accordance with the provisions of § 398.8 (e) of this subchapter.

(4) *Priority assistance.* Form IT–824 or PAD–26A may be used to request priority assistance for foreign petroleum projects and programs in accordance with Part 398 of this subchapter.

(f) *Authorizations required by other Government agencies.* The applicant must also submit with the application any special authorization required by other agencies of the United States Government as to the commodities or matters covered by the application.

NOTE: The requirements of the special provisions set forth in Part 373 of this subchapter with respect to particular commodities must be fulfilled as a part of making application for the export of such commodities under a project license.

§ 374.4 *Amendments to licenses—(a) Conditions under which amendments will be made.* Subject to the provisions of § 374.1 (b) and of the other provisions of this section, amendments to project licenses may be granted to provide for special requirements of commodities by reason of changes in specifications, omissions, or unforeseen contingencies arising from emergencies or breakdowns.

(b) *Information required.* Requests for amendments of project licenses must include the following;

(1) With respect to a request for amendment of an SP (Special) Project license, except petroleum projects, a supplementary Materials Requirements List (Form IT–375) in duplicate, showing in detail the additional necessary commodities and the statement of the firm requirements for the beginning calendar quarter, as provided in § 374.3 (d). For foreign petroleum projects, Form IT–824 or PAD–26A as appropriate must be submitted in quintuplicate, as provided in § 374.3 (e); and

(2) With respect to a request for amendment of a DL (Dollar Limit) license, a supplementary statement, in duplicate, of estimated new or additional requirements for the project or program, prepared in detail as set forth in §374.2 (d). If the additional commodity or commodities required fall within the restricted commodities described in § 374.2 (e), a Form IT–375, in duplicate, must be submitted in accordance with the provisions of § 374.2 (f).

§ 374.5 *Extension of validity period.* Extensions of the validity period of project licenses will not be granted unless the extension is justified under the provisions of § 374.1 (b).

(a) *Submission of requests.* Requests for extension must be submitted by letter, in duplicate, and must set forth (1) the approximate percentage of completion of the project; (2) the approximate unshipped balances of commodities included on the Positive List which are covered by the license, and (3) the approximate date shipment will be completed.

(b) *Notification.* If the request is granted, a notification letter will be sent to the licensee for attachment to the license and all collectors of customs will be notified.

§ 374.6 *Export clearance—(a) Presentation of license.* When clearing shipments for export under any project license, the licensee must present, upon demand of the collector of customs at the port of exit, either the original or a photostatic copy of the license, and any supplementary validated documents.

Shipment under any project license cannot be made by mail unless the shipper has applied for and obtained an individual export license covering the particular commodities to be exported by mail. Application should be made on Form IT–375 in the usual way, except that the license holder should indicate on the face of the form that shipment of the commodities listed is to be made by mail. An individual license will be issued on the safety paper license form (Form IT–628). Clearance against such individual license must be effected in accordance with the procedures for shipments by mail outlined in § 379.1 (f) of this subchapter.

(b) *Shipper's export declaration.* When clearing shipments under a project license, licensees shall file with the collector of customs an additional (fourth) copy of the shipper's export declaration (Commerce Form 7525–V). The licensee shall also enter the license symbol DL or SP, as the case may be, and the license number on the declaration. Where exportation is made under an SP license, or where a restricted commodity is being exported under a DL license, the amendment number of the particular IT–375, IT–824, or PAD–26A, as appropriate, shall be shown.

Commodities exported under a DL license shall be described on the shipper's export declaration as they are described on the Positive List, including the processing code. It is not sufficient to describe such commodities in terms of Schedule B listings or by broad commodity categories.

NOTE: For example, when shipping pile hammers (Diesel-powered), and parts, Schedule B No. 722045, the exporter must describe such commodity in the terms used on the Positive List, a description of such commodity as "construction and maintenance equipment, n. e. c., and specially fabricated parts, n. e. c.," is not acceptable. The provisions of § 379.3 (a) of this subchapter shall govern, except that a detailed description shall be given of all commodities within any "basket" classification.

§ 374.7 *Other applicable provisions.* Insofar as consistent with the provisions of this part, all of the provisions of Parts 370 to 399 of this subchapter shall apply equally to applications for and licenses issued under this part.

PART 375—BLT (BLANKET) LICENSE

Sec.
375.1 BLT (Blanket) license.
375.2 Commodities subject to procedure.
375.3 Application requirements.
375.4 Export clearance.
375.5 Validity period.
375.6 Other applicable provisions.

AUTHORITY: §§ 375.1 to 375.6 issued under 63 Stat. 7, as amended; 50 U. S. C. App., 2023, E. O. 9630, Sept. 27, 1945, 10 F. R. 12245; 3 CFR 1945 Supp., E. O. 9919, Jan. 3, 1948, 13 F. R. 59; 3 CFR 1948 Supp.

§ 375.1 *BLT (Blanket) license.* Under the provisions of this part there is established a procedure for the exportation of all R and certain RO commodities as set forth in this part. Pursuant to this procedure, application may be made for a BLT (Blanket) license which, if issued, authorizes exportation of the same commodity to two or more consignees in the same country of destination.

§ 375.2 *Commodities subject to procedure.* The following commodities are subject to the BLT (Blanket) license procedure:

Commodity	Schedule B No.
All R commodities.	
All RO commodities with processing code S.T.L.E.	
Aluminum sheets, corrugated	690901
Other aluminum plates and sheets, flat and coiled, including strips (.006 inch and over in thickness)	690301
Plastics and resin materials:	
Synthetic resins, n.e.c., including film, monofilaments and bristles:	
Molding and extrusion compounds, including scrap:	
Polytetrafluoroethylene (Teflon)	825910
Polytrifluorochloroethylene (Kel-F)	825910
Polyethylene (specify whether virgin or scrap)	825910
All other unfinished forms, including scrap:	
Polytetrafluoroethylene (Teflon)	825950
Polytrifluorochloroethylene (Kel-F)	825950
Polyethylene (specify whether virgin or scrap)	825950
Other unfinished forms, n.e.c.	825950
Other laminated and molded plastics, including all shapes made therefrom:	
Polytetrafluoroethylene (Teflon)	829450
Polytrifluorochloroethylene (Kel-F)	829450
Polyethylene (specify whether virgin or scrap)	829450
Polyacrylic	829450
Synthetic resins and resins, laminated (sheets, plates, strips, rods, and tubes), n. e. c.	829450
Cellulose acetate electrical insulating material	829450
Potassium bichromate and chromate	825700
Sodium bichromate and chromate	825600
Chemical pigments:	
Carbon black, contact (including channel) (specify grade)	842310
Carbon black, furnace (specify grade)	842350
Lithopone chromate	842500
Cadmium pigments	842600
Cobalt-containing pigments	842900
Cobalt-containing paint and varnish driers	843000
Polytetrafluoroethylene (Teflon) finishes and enamels	849800
Polytrifluorochloroethylene (Kel-F) dispersion	849800

§ 375.3 *Application requirements—(a) Application form and consignee list.* Applications for BLT (Blanket) export licenses shall be submitted on Form IT–419 with acknowledgment card (Form IT–116) attached, and must be accompanied by a list, in duplicate, of the proposed consignees, their addresses, and the quantity requested for each. This list shall be attached to and will become a part of the license, if issued. In preparing such list, applicants shall leave ample space between listings in order to provide collectors of customs with sufficient space for entering quantities shipped to each named consignee.

(b) *Orders—(1) Commodities not subject to export licensing general policy.* With respect to commodities not specifically subject to the export licensing general policy set forth in § 373.1 of this subchapter, the applicant must hold orders from each of the consignees listed in at least the quantity applied for.

(2) *Commodities subject to export licensing general policy.* With respect to commodities included under this part which are subject to the export licensing general policy as set forth in § 373.1 (b) of this subchapter, the applicant must hold accepted orders from each of the consignees listed in at least the quantity applied for.

Applications covering any BLT commodities subject to the export licensing general policy must be accompanied by the certification that accepted orders are held, as prescribed by § 373.1 (b) (3) of this subchapter.

(c) *Preparation of application.* In preparing an application the applicant shall write the words "BLT License" in the commodity description column, and enter:

(1) In the column normally used to list ultimate consignees, "See attached list of consignees";

(2) In the quantity column, the total quantity of material to be exported;

(3) In the value column, the unit price and the aggregate value of the material to be exported. Any variation in price for different consignees must be explained.

(d) *Submission of applications.* BLT (Blanket) license applications may be submitted at any time: *Provided*, That if the commodities covered by the BLT license application are commodities for which individual license applications must be submitted during specified periods of each calendar quarter, the BLT license applications must be submitted within the periods specified.

NOTE: The OIT will leave intact, as nearly as possible, the list of proposed consignees submitted with each BLT application. This will enable the applicant to select the specific consignee to whom he prefers to ship in the event the entire quantity approved is less than that applied for, although no one consignee may receive more out of the total quantity approved than the amount specified for him on the list attached to the BLT application.

§ 375.4 *Export clearance—(a) Presentation of license to customs.* When clearing shipments for export under any BLT (Blanket) license, the licensee must present the license to the collector of customs at the port of exit. The total amount shipped against such license shall not exceed the total quantity approved for export, and the total quantity shipped to a single consignee must not exceed the quantity specified for the respective consignee.[1]

(b) *Shipper's export declaration.* A person exporting any commodity pursuant to a BLT (Blanket) license shall enter the symbol "BLT" and the number of the license on each shipper's export declaration filed with the collector of customs at the port of exit at the time of each exportation under each license.

§ 375.5 *Validity period.* BLT (Blanket) licenses will generally be issued for the same validity period as an individual license for the same commodity, unless otherwise stated on the face of the license.

§ 375.6 *Other applicable provisions.* Insofar as consistent with the provisions of this part, all of the provisions of Parts 370 to 399, inclusive, of this subchapter shall apply equally to applications for the licenses issued under this part.

[1] See Note following § 372.12 of this subchapter for application of tolerance provisions.

PART 376–378—[RESERVED]

PART 379—EXPORT CLEARANCE

Sec.
379.1 Presentation for export.
379.2 Authenticated shipper's export declaration.
379.3 Shipper's export declaration; miscellaneous.

AUTHORITY: §§ 379.1 to 379.3 issued under 63 Stat. 7, as amended; 50 U. S. C. App., 2023, E. O. 9630, Sept. 27, 1945, 10 F. R. 12245; 3 CFR 1945 Supp., E. O. 9919, Jan. 3, 1948, 13 F. R. 59; 3 CFR 1948 Supp.

§ 379.1 *Presentation for export—(a) Commodities; use of license or other authorization for export shipments—(1) Requirements for presentation.* No commodities, the exportation of which is prohibited or curtailed pursuant to the Export Control Act of 1949, shall be loaded or carried onto an exporting carrier for export by water or by air or presented to such an exporting carrier for loading or presented to the collector of customs for inspection and clearance for exportation until a license therefor, or such other export control document or export authorization as may be provided for in Parts 370 to 399, inclusive, of this subchapter, has been presented to the collector of customs at the port at which the commodity is to be so loaded, carried, or presented. No commodity shall be mailed for exportation until a license or such other export control document or export authorization as may be provided for in Parts 370 to 399, inclusive, of this subchapter, has been presented to the postmaster at the post office where the commodity is to be mailed. If the commodity is to be exported by any means of export other than by water, air, or mail, such license or other export control document or export authorization as may be provided for in Parts 370 to 399, inclusive, of this subchapter, need not be presented to the collector of customs prior to loading, carrying onto, or presentation to the exporting carrier, but must be presented to the collector of customs at the port of exit from the United States prior to inspection by the customs inspectors or other export inspection officials at that port, and at all events prior to exportation. Upon specific authorization to a collector of customs or postmaster by the Department of Commerce, the presentation of a license may be waived.

(2) *Filing of validated license at time of first shipment.* All validated licenses, except project licenses, must be presented to and filed with the collector of customs or postmaster, as the case may be, when the first shipment is cleared for exportation against that license.

(3) *Subsequent shipments from port where validated license filed.* If only a partial shipment is made thereunder, the validated export license will be appropriately endorsed and held by the collector until complete shipment is made.[1] On any subsequent shipments under that license from the same port, duly exe-

[1] Only one shipment, whether complete or partial, may be made against an export license if exportation is to be made by mail. (See §§ 372.11 (d) and 379.1 (f) of this subchapter.)

cuted shipper's export declarations shall be presented, as provided in this section and § 379.2, for clearance of the shipment.

(4) *Clearance of subsequent shipments from other ports.* If part of the licensed shipment is to be made from another port, the licensee shall request the collector holding the license to transmit to the collector at the intended port of exit approval for the intended shipment. Upon granting the approval, the collector holding the license will endorse the license to record the facts as to the intended shipment. On any shipment made pursuant to such approval, duly executed shipper's export declarations shall be presented, as provided in this section and § 379.2, for clearance of the shipment. In case full or partial shipment is not to be made from such intended port (in accordance with such approval), the licensee or his agent may initiate action for the modification or deletion of the collector's endorsement of such intended shipment. Such action may be initiated in the following manner:

(i) If the license is still in the possession of the collector (whether or not the license would have been completed by the intended shipment), the licensee or his agent shall request the collector to whom the approval was sent to notify the collector holding the license to make an amendment of his previous endorsement of the intended shipment.

(ii) If the license has been returned by the collector to the Office of International Trade, an application for license may be submitted to the Office of International Trade covering the quantity not shipped, together with a letter requesting issuance of a new license for such quantity, explaining the facts, and identifying the collector to whom the approval was sent.

However, as an alternative to the notification procedure set forth above, the collector holding the license is authorized to transmit the license by mail to the collector at another intended port of exit, upon written request by the licensee stating that the license will no longer be used at the port at which the license is deposited.

The procedure set forth above in this subparagraph shall not be applicable to licenses which specify that shipment is authorized for clearance at a particular port of exit.

(5) *Signatures on licenses.* Export license documents, Form IT–628, presented to collectors of customs or postmasters must bear on the reverse side thereof the following signatures:

(i) At the top left, on the line reading "Signature of licensee," the signature of the licensee, by himself, or for him by a duly authorized officer, employee, or agent.

(ii) At the top right, on the line reading "Signature of person presenting license," the signature of an officer or employee of either the licensee or the forwarding agent who is authorized to sign and swear to the shipper's export declaration accompanying such licenses. This signature may be affixed in the presence of the collector or outside the customhouse, notwithstanding the instructions on the license.

(b) *Presentation of shipper's export declarations.* (1) In every case, as provided above in paragraph (a) of this section, where a validated export license is required to be presented[2] to and filed with a collector of customs or postmaster, as the case may be, a duly executed shipper's export declaration (in the number of copies provided in paragraph (c) of this section) also shall be presented at the same time. In the case of shipments made pursuant to general license or pursuant to an unexpired validated export license on file with a collector of customs, a duly executed declaration (in the number of copies provided in paragraph (c) of this section) shall be presented to the collector of customs or postmaster, as the case may be, at the same time and in the same manner as provided for in the first sentence of this paragraph.

(2) Shipper's export declarations duly executed on Commerce Form 7525–V (revised November 1948) must be presented on and after January 1, 1949, where such type of declaration is applicable to the exportation.

(c) *Additional copies of shipper's export declaration; other special provisions*—(1) *General requirements.* For the purpose of export control, and in addition to the number of copies of shipper's export declarations required by the Regulations for the Collection of Statistics of Foreign Commerce and Navigation of the United States, issued by the Bureau of the Census, an additional copy of the declaration shall be presented to the collector of customs at the port of exit, except in the cases of shipments to Canada and between the United States and its territories and possessions. The Office of International Trade and the collector of customs also may require, for the purpose of export control, the presentation of other additional copies of the declaration.

(2) *MSA shipments.* Licensees under particular validated licenses may be required to furnish to the Office of International Trade, through collectors of customs, at the time of presentation of the shipper's export declaration for authentication, information specified by a typed legend on the face of the particular validated licenses as to whether, to the best of the licensee's knowledge, the shipment is or is not financed by the Mutual Security Agency.

(3) *Special requirements.* Licensees under particular validated licenses bearing on the face thereof a requirement that specified documents or information (additional to that furnished at the time of application) be furnished, shall at the time of clearing the shipment with a collector of customs write on or attach to the copies of the shipper's export declaration such specified information or documents.

(4) *Manner of submission; conformance of copies.* Information required by subparagraphs (2) and (3) of this paragraph shall be furnished on the three copies of the declaration presently required for submission to collectors of customs and, in addition, on a fourth copy of the declaration. Documents required shall be attached to a fourth copy of the declaration and need be submitted in one copy only. The fourth copy of the declaration required herein shall conform to the three copies presently required and be filed with the collector at the same time as such other copies are filed for authentication.

NOTE: Although such information and documents may often not be available to an exporter at the time of applying for a validated license, they are or can reasonably be expected to be available at the time of exportation.

The required information must be set out in columns (9) to (15) on four copies of the shipper's export declaration (Form 7525–V) to be filed with the collector at the time of presentation for authentication. The required documents need be furnished in one copy only and must be attached to the fourth copy of the declaration. Such documents may be either originals or certified copies. All statements required to be included in, and all documents required to be attached to, the declaration in such cases will be deemed to constitute representations of material facts within the purview of the regulations prohibiting the making of false representations to the Office of International Trade in any export control matter (§ 381.1 (b) of this subchapter).

Collectors will refuse to authenticate a declaration in any case where the exporter fails to comply with the special requirements of a validated export license or does not possess the information or documents requested unless, prior to presentation of the declaration, the exporter has informed the Office of International Trade of the specific reason for his inability to comply, and, for good cause shown, the Office of International Trade has in writing waived the requirement. The licensee shall attach to the license any letter of waiver in order to effect clearance of the shipment through Customs.

(d) *Use of license symbols on shipper's export declaration or parcel.* The use by any exporter of a license symbol or other designation, or both, on a shipper's export declaration or parcel when such marking is required by the provisions of Parts 370 to 399, inclusive, of this subchapter for the purpose of clearing an exportation under any general license or validated license, shall constitute a certification by the exporter that the terms, provisions and conditions of the license involved have been met.

NOTE: Exporters are cautioned to use the complete license number when entering the required information in column (10) of the shipper's export declaration (Form 7525–V). Collectors of customs will not authenticate shipper's export declarations for licensed exportations where an incomplete export license number is shown. When the number of a Form IT–628 export license is correctly entered on the shipper's export declaration in column (10), the one entry of the complete number satisfies the requirements for inserting the "export license number" and the "issuance date" of the license. As explained in § 372.11 of this subchapter, the digits immediately following the initial letter, although an inseparable part of the license number, conjointly indicate the issuance (or validation) date of the license, while the last five digits signify the validating sequence. (Examples of complete numbers for Form IT–628 export license: A0–2–1–02341; B01021–33031; C0–212–64451.)

The license number of an export license issued on Form IT–419 is the number appearing in the upper right corner of the document. The date of issuance appears in the lower right corner, in the space marked "For Official Use Only."

A separate entry is necessary to show the expiration date of the license on the shipper's export declaration form.

(e) *Authority of collectors and postmasters in clearing shipments.* (1) Collectors of customs and other customs officials, as well as postmasters and other post office officials, are authorized to take appropriate action to assure observance of the provisions of Parts 370 to 399, inclusive, of this subchapter and of general and validated licenses issued thereunder, including but not limited to inspection of commodities and technical data, at any time prior to departure of the exporting carrier.

(2) Without limitation of the provisions of subparagraph (1) of this paragraph, upon presentation of any validated export license or a shipper's export declaration in connection with a shipment under either a general or validated license for the purpose of effecting exportation, or at any time thereafter, the collector of customs or postmaster, as the case may be, may require the licensee or his forwarding agent to produce documents for inspection and copying and furnish other information bearing upon the particular exportation and the identity and relationships of all participants therein. These may include invoices, orders, letters of credit, inspection reports, packing lists, shipping documents and instructions, correspondence, as well as any other relevant information or documents.

(f) *Shipments via mail*—(1) *Export clearance.* In exporting merchandise by surface or air parcel post, the sender (exporter) must (i) present a validated license to the postmaster whenever a validated license is required, or (ii) place the appropriate general license symbol on the address side of the wrapper, followed by the words "Export License Not Required." The general license symbol and the phrase will constitute certification to the postmaster and the Office of International Trade that a validated export license is not required for the shipment.

Only one shipment may be made against a validated export license if exportations is by mail. In all cases the sender must surrender his license to the postmaster at the time of shipment.

(2) *Postal regulations.* All exportations via mail should also conform to the applicable Post Office Department regulations as to size, weight, permissible contents, etc.

NOTE: If the sender is shipping a gift parcel under provisions of the general license for gift parcels, he must place the words "Gift—Export License Not Required" on the address side of the wrapper and the word "Gift" on the customs declaration tag. In this instance, the word "Gift" is the general license symbol. (See § 371.23 of this subchapter.)

[2] Paragraph (b) of this section requires declarations to be presented to customs officials before the time that goods are first deposited on a dock or pier or other place of lading for loading onto an exporting carrier. This reflects an interpretation of the phrase contained in paragraph (a) in this section, "presented • • • for loading," as meaning deposit on pier or dock for the purpose of loading onto an exporting carrier.

Only one shipment per calendar week may be made by parcel post or mail under General License GLV by one exporter to one importer. (See § 371.10 (b) (1) of this subchapter.)

It is the responsibility of the shipper in each case to determine whether exportation of his parcel is permissible under a general license or whether a validated license is required.

The procedures for obtaining separate or additional licenses when making partial shipments by mail are set forth in § 372.2 (e) of this subchapter.

§ 372.2 *Authenticated shipper's export declaration*—(a) *Procedure for authentication*—(1) *Authentication.* All copies of shipper's export declarations which are required to be presented to collectors of customs must be authenticated by the collector of customs at the port of exit (see § 379.1). No collector shall authenticate a declaration unless he is satisfied, after comparing it with the applicable validated export license or general license, as the case may be, and with such other relevant information as he may have, that (i) exportation of the commodity or commodities described in such declaration is authorized under such license; (ii) that the statements in such declaration are identical in all respects with the contents of the validated export license, or the terms, provisions and conditions of the general license; and (iii) that the statements in such declaration are set forth in such manner as to permit all collectors of customs or other authorized officials or persons to whom the declaration may thereafter be exhibited or delivered in connection with the exportation to determine whether the said exportation complies with the contents of the validated export license, or the terms, provisions and conditions of the general license.

(2) *Information required on declaration.* No shipper's export declaration shall be authenticated by a collector of customs unless there are set forth in such declaration, and in all copies thereof required to be presented to the collector:

(i) The name and address of the exporter, who shall be the licensee named in a validated export license or entitled to export under a general license.

(ii) The name and address of the forwarding agent, if any, duly authorized by the exporter.

(iii) The name and address of any intermediate consignee, whether or not named on the license application or on the validated license. Where amendment to the validated license is required in respect to intermediate consignee, the name and address on the declaration must conform with that shown on the amendment.

NOTE: In those cases where, prior to the departure of the exporting carrier, United States exporters of fresh fruit or vegetables are unable to determine the country of ultimate destination, the exporter may name on the shipper's export declaration, as the country of ultimate destination, optional ports of discharge even when more than one foreign country is involved.

Immediately after the United States shipper ascertains the identity of his customer in one of these foreign destinations, he should file a Correction Form 7401 with the collector of customs at the port of exit where the original shipper's export declaration was filed, specifying the name and address of the buyer to whom delivery is made and the name of the country in which such buyer takes delivery for distribution.

In no event does the aforementioned procedure apply to any shipment destined to a Subgroup A country, Hong Kong or Macao, whether directly or in transit to such areas. This interpretation does not, in any way, change or modify the provisions of § 384.5 of this subchapter relating to the export of fresh fruits and vegetables to Hong Kong or Macao.

Amendment of the export license is required in respect to intermediate consignee, as provided in § 380.2 (f) of this subchapter.

(iv) All of the other data required to be shown on the declaration form.

NOTE: On an export declaration (Commerce Form 7525–V, revised November 1948) covering exportations under a validated license, the answer to item 3 shall correspond to the corporation, partnership, or individual named as the applicant-licensee (exporter) on Form IT–419. However, the answer to item 3 of Form 7525–V may correspond to the name of the foreign principal shown on Form IT–419 if the corporation, partnership, or individual that is in fact the exporter is not subject to the jurisdiction of the United States. In the absence of such identity, the export license does not cover the proposed exportation.

(3) *Forwarding agent as true agent.* Unless the exporter shall otherwise state in writing in the power of attorney set forth in the shipper's export declaration, or in a general power of attorney, or other written form, subscribed and sworn to by a duly authorized officer or employee, filed with the collector of customs, the forwarding agent named by the exporter in said power of attorney or other form shall be deemed to be the true agent of the exporter for export control and customs purposes.

(4) *Definition of "forwarding agent."* For the purpose of § 379.1, and of this section, a "forwarding agent" shall be a person authorized by a named exporter to perform for the exporter actual services which facilitate exportation of the commodities described in the declaration, such as preparing the declaration, attending to clearance of the shipment by submission of documents to the collector of customs or export control officers, securing cargo space, or delivering the commodities to the exporting carrier, obtaining bills of lading in connection with the exportation, and attending to the formalities of consular invoices, certificates of origin, and other like documents; but such "forwarding agent" need not be a person regularly engaged in the freight forwarding business.

(5) *Signature on declaration.* The signature of the person making the declaration set forth on the shipper's export declaration form and taking the oath shown on said form (where oath is required) shall be that of the exporter or the forwarding agent named in the declaration, or a duly authorized officer or employee of either. The signature of such person (whether oath is or is not required) and whether or not that of the exporter or his duly authorized officer or employee, shall constitute a representation by the exporter that all statements

made and all information set forth in such declaration, are true and correct. In addition, if the signature is that of the forwarding agent, or his duly authorized officer or employee, such signature shall constitute a like representation by the forwarding agent.

Additional copies of the shipper's export declaration or copies of the continuation sheet form for such declarations may be used where more space is required to prepare fully a shipper's export declaration (Form 7525–V). In all such cases, the declaration need be signed and the oath taken (where required) on only one shipper's export declaration form. The additional copies or sheets must be numbered in sequence and securely attached to the executed declaration form; and the following legend must be inserted between columns (9) and (15) on the executed declaration form: "This declaration consists of this sheet and ------ continuation sheets." No portion of any form attached as a continuation sheet shall be torn off or removed.

(6) *Statements on declaration.* In all cases where a shipper's export declaration is presented to a collector of customs or postmaster the exporter shall be deemed thereby to represent (i) that all statements made and information set forth in the declaration have been furnished by him or on his behalf for the purpose of effecting an exportation under the export regulations; (ii) that the exportation of the commodity or commodities described in such declaration is authorized under the general or validated export license therein identified; (iii) that the statements contained in such declaration are identical in all respects with the contents of the validated export license or the terms, provisions and conditions of the applicable general license; and (iv) that all of the other terms, provisions and conditions of Parts 370 to 399, inclusive, of this subchapter, applicable to the exportation have been met.

(7) *Who may submit declaration for authentication.* No person shall submit to the collector of customs for authentication any shipper's export declaration unless such person is the licensee or his carrier, the duly authorized forwarding agent of the licensee, or a duly authorized officer or employee of either.

(8) *Rejection of declarations.* Collectors of customs shall reject all shipper's export declarations which do not comply with the foregoing provisions of § 379.1 and this section.

(9) *Procedures for presentation of export declaration for authentication.* (i) Any collector of customs may, with the prior approval of the Office of International Trade, institute and maintain any procedure for the presentation for authentication of shipper's export declarations, which shall provide in each case for the proper identification, and recording of the identity of the individuals who sign such declarations and who appear before the collector for such purpose.

(ii) Collectors of customs are specifically authorized to institute and maintain the following procedure for identification of persons submitting or presenting declarations to the collector:

(a) *Identification cards.* An exporter (licensee) effecting exportations without the services of a forwarding agent shall make application for and obtain from the appropriate collector of customs an identification card, as herein described, for each of his officers or employees who submit or present shipper's export declarations or licenses. Where a forwarding agent is employed by an exporter the forwarding agent shall similarly apply for and obtain an identification card for each of his officers or employees who submit or present shipper's export declarations or licenses on behalf of an exporter. In addition, carriers, not otherwise acting as forwarding agents, who may, as provided in subparagraph (7) of this paragraph, deliver executed declarations without specific authorization therefor, shall similarly apply for and obtain such identification cards. Applicants for identification cards shall be responsible for all shipper's export declarations executed and submitted in their names to collectors of customs through use of the identification card. Such card may be used only in the Customs district for which issued, by the person to whom issued, and is not transferable. Application must be made on Customs Form 3139, "Application for Identification Card of Authorized Forwarding Agent or Exporter" and the identification card to be issued shall be Customs Form 3141, "Identification Card of Authorized Forwarding Agent or Exporter or Employee Thereof".

(b) *Waiver of identification card requirement.* In the case of exporters not regularly engaged in making exportations, collectors of customs may waive the identification card requirement where they are otherwise satisfied that the person submitting or presenting the shipper's export declaration is in fact the exporter (licensee) or is acting for and on behalf of such exporter.

(c) *Identification cards and power-of-attorney forms.* Wherever the identification card procedure is instituted and maintained it shall supersede any existing requirement of the collector of customs for filing a form of power of attorney executed by an exporter or forwarding agent, as the case may be, authorizing his officers or employees to sign, swear to or submit declarations.

(10) *Changes, alterations, amendments of export declaration prior to authentication.* Collectors of customs shall not, except in case of hardship or emergency, authenticate any shipper's export declaration showing evidence of change, alteration, or amendment, but shall require clean copy. Where demonstrated cases of hardship or emergency exist in which collectors of customs find it desirable to make exception, collectors may approve on the face of the declaration specific changes, alterations, or amendments. The duly authorized forwarding agent or carrier for an exporter may insert or correct in declarations presented by him required items of information peculiarly within his own knowledge, such as the designation of the actual exporting carrier, the actual date of exportation, or the actual Schedule B number to which the commodity described in the declaration unambiguously refers; but nothing herein shall relieve such forwarding agent or carrier from liability for any misrepresentation of facts so inserted or corrected. The forwarding agent or carrier making such insertion or correction must specifically identify the same in writing on the face of the declaration.

(b) *Use of authenticated shipper's export declaration—(1) Use.* When duly authenticated by the collector of customs at the port of exit, a shipper's export declaration shall be deemed to be a document, issued pursuant to Parts 370 to 399, inclusive, of this subchapter evidencing the existence of a validated export license or permission for an exportation under an applicable general license; and such document may be used only by the exporter or his duly authorized forwarding agent for the purpose of clearing for exportation or otherwise facilitating or effecting the exportation of a commodity or commodities requiring a validated or general export license under the regulations issued pursuant to the export control law.

(2) *Changes, alterations, amendments of authenticated declarations.* No shipper's export declaration, used or intended to be used in connection with any exportation of any commodity or commodities requiring a validated or general export license, which shall have been authenticated by any collector of customs shall, at any time after such authentication, be changed, altered, or amended in any respect by any person without prior written authorization therefor set forth on such authenticated declaration by the said collector of customs: *Provided, however,* That where for any reason an exporting carrier designated in an authenticated declaration cannot receive the shipment on board, the name and date of departure of another exporting carrier may be substituted by the steamship company, steamship agent, airline, railroad, motor vehicle company or other person issuing bills of lading or similar documents of carriage for the carrier originally named if due and timely notice of such change is given to the collector of customs prior to loading of the shipment onto the substitute carrier and such change is specifically identified in writing on the face of the declaration by said steamship company, steamship agent, airline, railroad, motor vehicle company, or other person. No change, alteration or amendment may be authorized in any authenticated export declaration which would have the effect of authorizing shipment after the validity period of the applicable validated or general export license has expired or which would otherwise vary the terms, provisions and conditions of such license.

(3) *Declarations showing unauthorized changes.* No person to whom any authenticated shipper's export declaration showing evidence of change, alteration, or amendment shall be exhibited for the purpose of facilitating any exportation, without the production of written authorization therefor by the collector of customs, shall take any action toward such facilitation, but shall promptly report the facts to the nearest collector of customs and shall, where such authenticated declaration is in his or its possession, surrender same to such collector of customs.

(4) *Correction form.* Without prior approval of the collector, any item of information contained on an authenticated shipper's export declaration previously filed with the collector of customs can be corrected by noting such correction on the Correction Form (FT–7403). The Correction Form for shipper's export declarations (i) may be used to make corrections on an authenticated declaration in the possession of the collector of customs, and (ii) must be used to make corrections on an authenticated declaration previously filed with and forwarded by the collector to the Bureau of the Census. The Correction Form (FT–7403), used as herein provided, must be executed by the exporter or his duly authorized forwarding agent and must be submitted to collectors in the same manner as provided with respect to shipper's export declarations.

(5) *Return of unused copies of authenticated declarations.* All copies of authenticated shipper's export declarations not used by an exporter for the purposes for which they are authenticated shall be returned to the collector of customs making the authentication.

(6) *Limitation of effective period of declaration.* No shipper's export declaration shall be authenticated and no authenticated shipper's export declaration shall be used for the purpose of clearing for exportation, or otherwise facilitating or effecting, the exportation of a commodity or commodities requiring a validated or general export license after the expiration of the validity period of the applicable validated license or after the termination of the effective period of the applicable general license.

NOTE: The validity period of an export license includes any extension provided by any saving clause or regulation. The above subparagraph makes no change in the provisions of § 372.11(f) of this subchapter.

(c) *Other applicable laws and regulations.* Nothing contained in §§ 379.1 and 379.2 shall relieve any person from complying with the applicable provisions of any other law of the United States and rules and regulations issued thereunder, governing shipper's export declarations and manifests.

EXPLANATORY STATEMENT

1. *Responsibility of licensee and agent.* Under the export-control regulations (Parts 370 through 399 of this subchapter, as amended), the exporter to whom a license is issued or who undertakes to export under a general license is legally responsible for the proper use of that license and for the due performance of all its terms and provisions. And this responsibility continues even when he acts through a freight forwarder or other forwarding agent. Experience in the administration of export controls indicated, however, that it was often difficult to establish that relationship as a matter of record and fix responsibility when violations occurred. The provisions of § 379.1 and 379.2 and the OIT form, "Power of Attorney—Designation of Forwarding Agent," were designed to remedy that situation.

2. *Power-of-attorney forms; purpose and use; alternatives.* The form, which was prepared for this purpose, was not mandatory but only suggested. Power-of-attorney terminology was used to accord with common business practice in establishing agency relationships, and by way of interpretation considerable flexibility was permitted. Nevertheless, there are situations where firms have found compliance with some of the required formalities in the execution of a general power of attorney, such as corporate seal, special resolution of the board of directors, etc. to be unduly onerous.

Accordingly, the regulations have been amended, as above set forth, to permit, alternatively to the power-of-attorney form, the use of any written form of designation, provided it is subscribed and sworn to before a notary public or other person authorized to administer oaths, by a duly authorized officer or employee of the licensed exporter. Such designation must, of course, clearly indicate that the firm or person named is authorized to represent the licensed exporter for export control and customs purposes. The extent of the authority in this designation, as in the power of attorney, may be restricted, however, with respect to time, country, commodity, specific license, or other matter. It is also intended to permit the use of such documents to designate one or more employees, or other persons, such as an export manager or agent, to, in turn, appoint as many freight forwarders or other forwarding agents as may be required.

3. *Carriers.* In addition, specific reference to carriers has been made in those parts of the regulations dealing with the submission of the shipper's export declaration in order to make clear that carriers, not otherwise acting as forwarding agents, may deliver executed declarations without specific authorization thereto. The privilege of making certain specified insertions or corrections in the declaration prior to authentication is also extended to such carriers.

4. *Summary of interpretations—Applicability of §§ 379.1 and 379.2:*

1. Q. Do the provisions of the export control regulations with respect to presentation of additional copies of shipper's export declarations, and with respect to procedure for authentication of declarations, filing of powers of attorney or other forms of designations of forwarding agent, and use of authenticated declarations, apply to Canada?

A. No, unless the particular exportation from the United States is destined for a third country, for which a license is required, and the shipment is via Canada.

2. Q. Do the foregoing provisions of the regulations apply to general license shipments?

A. Yes. General license shipments have always been subject to Customs scrutiny and are covered by the new regulations, along with shipments under validated license, in order to curb possible abuse of the general license privileges.

3. Q. Are the export control regulations contained in §§ 379.1 and 379.2 applicable to exportations regulated by United States governmental agencies other than the Office of International Trade, such as the Atomic Energy Commission and the Department of State?

A. No.

4. Q. What is the effect of making the shipper's export declaration an "export control document?"

A. A shipper's export declaration has always been an official document of the United States Government so that, for example, the penalties relating to making false statements on Government documents were always applicable to the use of that document. The only effect of the additional export control regulations in this respect has been to bring shipper's export declarations under the export control laws as well as under the laws of the United States relating to Government documents generally and shipper's export declarations in particular.

Powers of Attorney or Other Forms of Designation of Forwarding Agent

5. Q. Is the use of a power-of-attorney form mandatory?

A. As now provided in § 379.2 (a) (3), it is only an optional form.

6. Q. May the exporter designate more than one forwarding agent?

A. Yes. It is not intended that the power of attorney or other authorization designating a forwarding agent should constitute such agent the sole and exclusive forwarding agent of the exporter for all exportations. Exporters may execute powers of attorney or authorization for any and all of the forwarding agents whom they employ.

7. Q. Where a forwarding agent is suggested by the foreign buyer in a transaction (rather than by the seller in this country), must the seller designate such forwarding agent as his agent for export control and customs purposes?

A. Exporters have in some such cases expressed reluctance in designating such forwarders as their agents, because they do not regularly deal with them, or because they may not wish thereby to disturb contractual relations with their own forwarders. It is assumed that the underlying problem here is the exporter's unwillingness to give any general authorization to such agent. It is, therefore, suggested that the form of designation on the shipper's export declaration be used which would limit the authority granted to the particular transaction involved. It should also be noted that in some such cases the solution to the problem may lie in having the agent for the foreign buyer apply for the license. (See statement following § 372.2 (a) and Note following § 372.11 (a) of this subchapter.)

8. Q. Must an exporter use the OIT form of power of attorney designating a forwarding agent, or may he give such authority by other and more limited powers of attorney?

A. The language of the OIT form of power of attorney is not mandatory. It is specifically provided that it may be made more restrictive by the exporter; likewise, an exporter may restrict the power of attorney set forth in the shipper's export declaration. Of course, no limitation may be made which would relieve the exporter from responsibility for carrying out the exportation authorized by the license which he holds.

9. Q. May the exporter vary the language of the acknowledgment set forth in the OIT forms of power of attorney?

A. Yes. The forms were drafted to permit use by exporters who are individuals, partnerships, corporations, associations, or quasi-governmental bodies. The acknowledgment forms may be modified to fit the legal status of the exporter.

10. Q. May exporters authorize forwarding agents to sign and swear to declarations and to present them to collectors of customs for authentication by executing the designation appearing on the face of the shipper's export declarations?

A. Yes. The exporter may execute the designation appearing on the shipper's export declaration, which is applicable only to the transaction referred to in the declaration. The power of attorney or other written authorization may be used where the same forwarding agent handles numerous shipments and it is impracticable to execute a specific designation on the declaration for each transaction.

Who Should Execute

11. Q. Who is deemed to be a "duly authorized officer or employee" for the purpose of signing and swearing to shipper's export declarations?

A. There is and can be no fixed rule in this respect. In general, such corporate officers as the president, vice president, treasurer, and secretary of a corporation, any partner of a partnership, and any responsible head of

any other form of private or quasi-governmental organization will be deemed to have the requisite authority. Assistant officers will, in general, be accorded a like assumption. Such employees as export managers who, by their official titles, are apparently vested with power to deal with exportations will also be deemed to have authority to execute the designation appearing on the face of a declaration and to sign and swear to such declarations.

Proof of Authority

12. Q. Under what circumstances must Customs be furnished with supporting evidence of authority of persons executing powers of attorney or other authorizations?

A. Customs may in any case require proof of the authority of any such person signing a power of attorney or other authorization. In general, however, Customs will require such proof only when there is some reason to doubt the authority of the person involved.

Miscellaneous

13. Q. Must a forwarding agent have an office at the port of exporation or otherwise be known to the collector at such port?

A. No. A forwarding agent need not have an office at every port of exportation. If a forwarding agent signs and swears to a declaration which is intended for clearance of an exportation through a port where he has no office, he should furnish to the collector at such port his power of attorney or other authorization from the exporter. He should also furnish to the person who will arrange physically to present the declaration to the collector an authorization in writing for that purpose.

14. Q. May a forwarding agent who does not have an office at the port of exportation redelegate to another forwarding agent his authority to sign and swear to declarations and to present declarations for authentication at such port?

A. Yes; provided that the power of attorney or other authorization from the exporter permits such redelegation or there is presented to the collector written evidence of consent of the exporter to such redelegation.

15. Q. If a forwarding agent has a power of attorney or other authorization filed with a collector in one port, must he file additional original documents with collectors in other ports through which he may effect exportations?

A. No. It is only necessary to file the original documents in one port. Photostatic copies thereof, certified by the collector of such port, may be transmitted by the forwarding agent to other ports where needed unless the authorization is otherwise specifically limited by the exporter.

16. Q. How should forwarding agents and exporters handle such matters as changes of weights, measurements, quantities, etc., which must frequently be made on declarations after authentication?

A. In general, the export control regulations permit certain types of amendments and insertions to be made in declarations before and after authentication, as set forth in § 379.2. A forwarding agent, however, designated on the declaration or by separate document, may make such changes, unless specifically precluded from doing so by the exporter in his designation. Collectors of customs are empowered to permit such amendments upon written authorization therefor by the collectors set forth on such authenticated declaration. Collectors will exercise discretion to allow amendments of this character. Where the amendments have the effect of converting a declaration into one for a substantially different shipment, however, a new declaration will have to be prepared. Unless otherwise limited by the exporter, the power of attorney or other authorization given to a forwarding agent is deemed also to authorize him to prepare substitute declarations reflecting such changes.

§ 379.3 *Shipper's export declaration; miscellaneous*—(a) *Certain commodity descriptions.* A detailed description shall be set forth on the applicable shipper's export declaration for commodities falling within Department of Commerce Schedule B commodity basket classifications, in addition to all other data required to be shown on such declaration. As used herein, "basket classification" means those Schedule B commodity classifications in the 1952 edition of Schedule B, as amended, which call for the shipper to "specify by name," "specify by type," etc., the items included in the shipment under these commodity numbers. In those cases where there are a substantial number of items included in a single export shipment under one basket classification, exporters may set forth the detailed descriptions of only five of the items which represent the greatest proportion of the total dollar value under this single Schedule B basket classification. Separate dollar value, net quantity, and shipping weight information for individual items reported under one Schedule B basket classification are not required on the shipper's export declaration.

(b) *In-transit goods.* The following additional information shall be set forth on Shipper's Export Declaration for In-transit Goods, Commerce Form 7513:

(1) The name and address of the intermediate consignee in a foreign destination, if any, must be shown below the description of the commodities across columns 1–6:

(2) Underneath the name and address of the intermediate consignee, also within columns 1–6, one of the following statements must be made, whichever is appropriate:

(i) For in-transit shipments of foreign merchandise:

The merchandise described herein is of foreign origin.[3]

(ii) For in-transit shipments of domestic (U. S.) merchandise:

The merchandise described herein is of the growth, production, or manufacture of the United States.

(iii) In-transit shipments of commodities of U. S. origin excepted under § 371.9 (a) (2) of this subchapter:

The merchandise described herein is of the growth, production, or manufacture of the United States, but comes within the exception granted by § 371.9 (a) (2) of this subchapter.

(3) The commodities to be exported shall be described in terms of Schedule B, including the appropriate Schedule B number, as well as in terms of Schedule S. The Schedule B number shall be entered in column 4 immediately underneath the Schedule S number.

NOTE: All shipments of merchandise for which the shipper's export declaration for in-transit goods is required (Commerce Form 7513) must be shown in terms of Schedule S as well as in terms of Schedule B. Schedule S numbers, by commodity groupings, are contained in Schedule S, Statistical Classification of Domestic and Foreign Merchandise Exported from the United States, obtainable without charge from the Bureau of the Census, Washington 25, D. C.

[3] For definition of foreign origin see § 371.9 (a) of this subchapter.

PART 380—AMENDMENTS, EXTENSIONS, TRANSFERS

Sec.
380.1 Transfer of licenses.
380.2 Amendments or alterations of licenses.
380.3 Price amendments on pending license applications.
380.4 Extension of licenses.

AUTHORITY: §§ 380.1 to 380.4 issued under 63 Stat. 7, as amended; 50 U. S. C. App. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245; 3 CFR 1945 Supp., E. O. 9919, Jan. 3, 1948, 13 F. R. 59; 3 CFR 1948 Supp.

§ 380.1 *Transfer of licenses*—(a) *Official authorization required.* Export licenses shall not be transferred except by prior written authorization of the Department of Commerce.

(b) *Information from transferor.* (1) Transfer of export licenses may be effected only by amendment to the original license and only upon request of the original licensee.

(2) In requesting transfer of an outstanding license, the licensee must submit a completed Form IT–763, Request for and Notice of Amendment Action (revised April 1951), in triplicate, together with the original license if it is being held by him, and also a signed letter from the person to whom the license is to be transferred, giving supporting information as requested under paragraph (c) of this section. When setting forth the reasons for the requested transfer in item 10 of Form IT–763, the licensee shall also state whether or not any consideration has been or will be paid for the transfer. The name and address of the proposed transferee shall be shown in item 12 of Form IT–763.

(3) If the original license is being held by a collector of customs at the time the licensee submits request for transfer, he must show in item 11 of Form IT–763 the address of the collector of customs with whom the original license has been deposited. Also, in such cases, the licensee must submit an additional triplicate (yellow) copy of Form IT–763, "Notice to Applicant," showing in item 4 of one copy the name and address of the original licensee and on the other copy the name and address of the person to whom the license is to be transferred. This extra triplicate (yellow) copy of Form IT–763 will be used for notifying the transferee of the action taken.

(c) *Information from transferee.* The request for transfer from the original licensee must be accompanied by a signed letter from the person to whom transfer is to be made stating:

(1) That if transfer is approved, the transferee will assume all the transferor's responsibility to the Department of Commerce under the license and export regulations.

(2) Whether any consideration has been or will be paid for the transfer.

(3) That the transferee has an order (or an accepted order, where the commodity is subject to the accepted order requirement) from the foreign purchaser named on the license for the commodities described thereon.

(d) *When transfer may be granted.* A transfer of license may be granted in the following cases:

(1) Where the corporate or firm name of the licensee has been changed or the license is desired for use by a subsidiary corporation of the licensee.

(2) Where the entire or a substantial portion of the assets or business of the licensee has been sold or transferred.

(3) In exceptional cases, where there is proof that actual hardship will result to the holder of the license or to the purchaser in the foreign country if the request for transfer is disapproved.

Only one transfer of the same license will be approved.

§ 380.2 *Amendments or alterations of licenses*—(a) *Persons authorized to amend licenses.* No amendments or alterations of export licenses may be made except by the Department of Commerce or by collectors of customs or postmasters acting under specific instructions from the Department of Commerce.

(b) *Where to file*—(1) *General.* All requests for amendments to licenses may be filed with the Office of International Trade, Department of Commerce, Washington 25, D. C. However, certain types of amendments described in subparagraph (2) of this paragraph also may be submitted to field offices of the Department of Commerce which are located in the following cities, provided the exportation will be cleared through a port located in the same city in which the field office is located or through a port located in a specified city nearby, as indicated below:

Baltimore.	Miami (Port Everglades, West Palm Beach).
Boston.	
Chicago.	
Cleveland (Toledo).	New Orleans (Baton Rouge, Morgan City, La.).
Detroit (Port Huron).	
El Paso.	New York.
Houston (Galveston; Laredo)	Philadelphia.
	Portland, Oreg.
Jacksonville.	San Francisco.
Los Angeles.	Seattle (Tacoma).

(2) *Amendment requests on which field offices may take action.* With the exceptions set forth in subparagraphs (3) and (4) of this paragraph, the Department of Commerce field offices listed in subparagraph (1) of this paragraph, are authorized to take action on requests for amendment of licenses of the following types only:

(i) Extension of validity period.

(ii) Correction of obvious errors in the license, such as mistakes in typing in name and address.

(iii) Change of quantity or dollar value required as result of factors beyond the control of the licensee, such as unforeseen overruns of the mill. Field offices of the Department of Commerce are limited in their approvals of such amendment requests, however, to specified small percentage increases in the licensed quantity or dollar value.

(iv) Change of the licensee's address.

(3) *Amendment requests on which field offices may not take action.* The Department of Commerce field offices are not authorized to take action on requests for amendments to licenses under the following conditions. All such requests shall be filed with the Office of International Trade, Department of Commerce, Washington 25, D. C.

(i) Licenses covering exportations to Subgroup A countries, Hong Kong, or Macao unless the amendment involves no more than a correction of obvious errors in the license, such as mistakes in typing.

(ii) Requests for amendment of licenses involving shipments to be cleared from any port other than as authorized in subparagraph (1) of this paragraph, or where the intended port of exit is not known to the licensee.

(4) *Duplicate requests covering same license.* Requests for amendment shall not be submitted to or acted upon by any field office of the Department of Commerce if an amendment request covering the same license is currently pending action or has been previously denied by the Washington office of the Office of International Trade, or by any other field office.

(c) *Procedure for submitting requests for amendments*—(1) *Number of copies.* Requests for amendments shall be submitted on Form IT–763, Request for and Notice of Amendment Action (revised April 1951), in triplicate. However, when such requests are filed with one of the above-named field offices, a fourth copy must be submitted; this fourth copy may be made on plain, thin, white paper.

(2) *Information required.* All numbered items shown on IT–763 must be completely filled in on all copies.

(i) The reasons for the requested amendment must be clearly stated in answer to item 10. In requesting an amendment for change in the purchaser or ultimate consignee, the licensee must comply (a) with the provisions of § 372.3 (d) of this subchapter regarding a statement from the ultimate consignee (purchaser) if the shipment is destined to an R country; and (b) with the provisions of § 373.1 (b) of this subchapter regarding evidence and certification of accepted orders, if applicable to the commodity being exported. Such certification may be made on the back of Form IT–763 or on a sheet attached thereto.

Where the request for amendment involves a change in the country of destination as well as a change in the purchaser or ultimate consignee, the applicant must explain fully the circumstances which prevented shipment to the original country of destination, in item 10 of Form IT–763.

(ii) The address of the collector of customs with whom the license has been or will be deposited must be entered in item 11. If the exporter has not deposited his license with the collector at the intended port of exit, he must do so at the time of submitting his request for an amendment. The licensee must not retain the license when submitting an amendment request. If the exporter does not know the intended port of exit, he shall return his license to the Office of International Trade with his request for amendment on Form IT–763; in which case, the applicant shall enter the word "Unknown" in answer to item 11.

(iii) In completing item 12, "Amend license to read as follows," the applicant must identify that portion of the license upon which amendment is requested and insert the proposed change.

(3) *Signature.* The signature of the licensee, or an officer or duly authorized agent of the licensee, must be placed on the original and duplicate copies in the space provided. When such request is submitted by an officer or an agent authorized by the licensee, who may be a freight forwarder, attorney, or any other individual so authorized, he must sign the request by entering the licensee's name and underneath his own signature prefixed by the word "By" and followed by his own title.

For example: JOSEPH ALOYSIUS JONES,
By: HAMILTON NEWBOLD,
Agent.
